VOLUME 40

ROBERT LEE, COKE COUNTY, TEXAS FRIDAY, SEPT. 27, 1929

NUMBER 12

## This Week

by Arthur Brisbane

### Another Biggest Bank Poor Broker—Sold Short Our Disgraces A Fight for John D.

Again "The world's biggest bank" makes its bow, bigger than any thus far.

Charles E. Mitchell, head of New York's National City bank, absorbs the Com Exchange bank, creating an institution with resources of two thousand five hundred millions of dollars.

This one financial giant will have 100 branch banks in New York. The old-fashioned million has given way to the new "billion."

When will the TRILLION be transferred from books on astronomy to the books of United States bankers?

In Wall street a broker has closed up. His story is sad and brief. HE SOLD SHORT.

And, most strange, he sold bank stocks short.

To "short" a bank stock with banks getting from 10 to 20 per cent for money on call, calls for an investigation in lunacy.

The Prince of Wales buys his first airplane, making his first flight as an owner to see his father at Sandringham. It is a G. H. Gypsy Moth, price only \$8,800.

The prince would not buy anything but "pura British." The little Moth makes ninety miles an hour, is painted bright red and blue, and carries a silver plate marked "H. R. H. the Prince of Wales."

We have an assortment of "national disgraces." One, our high percentage of illiteracy; another, the high efficiency of bootleggers, hijackers, organized criminals.

Another is the federal usury established by the official reserve as a basis for dealing in American securities.

Our worst disgrace is the fact established by the American Association of Obstetricians, Gynecologists and Abdominal Surgeons, that this nation has the highest maternity death rate in the civilized world.

Of the thousands of mothers dying every year in childbirth, 63 per cent are killed by septicemia and toxemia, both preventable.

You read that the naval conference will depend largely on what Japan wants and agrees to. The powerful face of the Japanese Premier Hamaguchi, who will do the deciding, tells you that Japan will talk plainly.

If Uncle Sam and Britain cannot agree, Mr. Hamaguchi might be useful as a good excuse.

Why doesn't Uncle Sam decide for himself what he wants in airplanes, cruisers, submarines and everything else? Do we NEED the approval of another country?

Col. R. W. Stewart, formerly head of Standard Oil of Indiana, beaten in a fight with Mr. Rockefeller, has gone to England. Perhaps he goes to join the Shell company in a great British oil merger and anti-Standard oil fight.

Colonel Stewart will visit Sir Henry Detering, head of British "Shell," the biggest Rockefeller rival in the world's oil trade.

If the British want action and an American representative who knows the oil business, they show intelligence in selecting Colonel Stewart.

It looks like a real oil fight. Betting is wrong, and apart from that it might be unwise to bet against the Rockefellers. They have never acquired the habit of losing.

News from Jerusalem that will doubtless cause indignation and mass meetings tells of the arrest of 44 Jews of Haifa, held without bail, accused of premeditated murder of Arabs during the recent Arab-Jewish riots.

Continued on last page

## Commissioners Court News.

Commissioners Court met here last Thursday morning and went over the road, and accepted Mr. Bridge's work. At the three mile bill they chose to go over the hill instead of going around through Mrs. Newton's place. The difference's between Mr. Bridges and Mr. Havins were settled in court late that evening. There were no court order passed, and none changed, but a verbal agreement was made and it was understood that Mr. Havins is to hire the men on the graders and those to clear and grub out the right-of-way, and let contracts to build bridges and culverts. The lines and grades and bridges, culverts, etc., are to be put where the engineer says, and under his approval.

Everything is working nicely this week, and everything points to a good road, one acceptable to state highway specifications. Let us hope that it remains so.

## The Big Fight.

Fist fights are getting to be popular in Robert Lee.

Last week we had one here in town, but since public interest is not involved will not mention it. Last Sunday morning about 11:00 clock Fern Havins walked up to this editor in front of the bank and soaked him one up side the head and undertook to give him a good whipping for writing his ditty up in last week's paper. Then the fight started. We fought all over that space in front of the bank, down in front of the City Drug Store, out on the street, and all around. Boy it was a dandy! I got a good kick out of it, and Fern said he did too. He said he would not have been satisfied with out it. We shook hands and he went home satisfied.

We fought until we both were give out and agreed between ourselves, while standing clinched, resting, to quit. We had a clean fair little fight and the boys that looked on left us alone until we ourselves, decided to quit for which we both thank them. For when two men are fighting a good clean fight like we were, it's a dirty shame to separate them, when they are as well matched as we were, and enjoying it as well as we were.

After we had went into the Drug Store, we were so exhausted we both became sick and went out and vomited all over Hawley Allen's back lot.

There is not a speck of ill will between us, for which we are both glad. Neither of us claims victory, for we fought a draw.

"And it came to pass, after we had finished, we put on our hats and went home."

Mr. and Mrs. Edgar Vickers, of San Angelo, visited in the home of their cousins Mr. and Mrs. W. G. Byrd last week.

## Senior Class News

The Senior Class is sponsoring high school paper to be written up by editors from each class. The following staff has been elected to represent our class: Editor-in-chief, Pauline Conner; Sports Editor, Roysten MacFarland; and joke editor, LaVelta Taylor. The purpose of this paper is to arouse interest in school events and to promote loyalty to our "alma mater." It will also afford practice in writing as so many of the pupils are taking part in the editorship.

A great deal of interest is being evidenced in athletics this term. The football team is very promising and we are expecting great things of it. The Senior girls have organized a G. A. T. A (Girls Aid to Athletics) Club. Its chief interest is to be in athletics, or, as Verna said, in athletes. Its purpose is to aid and encourage athletics in various ways, such as raising money, administering First Aid to injured athletes and cheering them in matched games.

Mr. Gramling announced in assemble last week that we would have a "sponsor contest." That is, each class in high school shall elect a sponsor to represent it in athletics. Then from these four sponsors one shall be elected to represent the entire school. Our sponsor is Verna Conner.

Our class is so small that there are two offices apiece for each member we realize, however, that it is not quantity but quality that counts and we have plenty of the latter.

Another meeting of our class was called last week. We elected LaVell Jolley business manager. The class dues were decided upon as 50¢ a month.

The Senior class gave a program in chapel last week under the direction of Miss Mappe, Verna Conner gave a reading titled "The Faltering Soul." LaVelta Taylor contributed a piano solo to the program a very apt imitation of a cowboy was given by Henson Fikes in "The cowboy's Prayer." Then the entire class sang "Home of the Range." Class Reporter.

## Petit Jury List

Below is the list of petit jurors for District Court, which convenes next Monday morning at the court house in Robert Lee:

W. R. Hood, R. M. Lackey, J. C. Kirkland, J. F. Hamilton, F. R. Havins, E. L. Caperton, Dan Hale, Carroll Russell, Allen Jamison, Jim McCutchen, G. M. Davis, S. D. Hoots, John Ligon, Fred Roe, Tom Modgling, G. H. Demman, W. R. Gunnels, H. B. Owens, J. F. Gibson, W. J. Gideon, A. E. Coalson, W. L. Chew, E. K. Buford, Sam Duncan, I. M. Austin, W. V. Greenland, C. E. Barker, G. E. Cole, Earl Box, E. A. Bell, A. J. Caulder, P. E. Mahon, B. B. Steffey, T. B. Adkins, D. Johnson and Dick Smith.

## Home Boy Enters University

Wilber King Simpson, better known as Ajax, son of Mr. and Mrs. W. M. Simpson is now a freshman in Simmons University, at Abilene. He thinks the first hundred years may be the worst as he has passed fourteen stiff entrance examinations and its now time for the upper classmen to begin their initiatory regime.

It speaks well for the home school to send out a graduate qualified to pass fourteen entrance exams in one week. But a school does not develop brains where there are none. Credit is due Ajax as a thorough student. A side from his ability as a student Ajax is liked by young and old for his sincerity, clean viewpoint and unfailing sense of humor.

With the co-operation of pupils, parents and teachers it is possible to have a fully accredited school here in the near future. This will allow students of a year or two hence to escape the exquisite punishment of entrance exams than which nothing is more conducive to premature gray hair.

## A Family Reunion

The home of Mr. and Mrs. B. W. Shropshire was the scene of a happy reunion last Sunday.

An abundance of good things to eat had been prepared and it was pleasant to gather around the table and see all about us the faces of those we loved best.

On these occasions the presence of our parents recall to me the loving care and sweet counsel which blessed my childhood.

The association of brothers and sisters strengthens anew the ties which bind us to each other and the memories of our days together in the old home. As our children mingle together we seem to live again in their pleasure, our own happy past.

The family present at this time were Mr. and Mrs. B. W. Shropshire, Mr. and Mrs. D. P. Key and children, Mr. and Mrs. Floyd Hunter and children, Kenneth Shropshire, Mr. and Mrs. Clarence Gobble and baby, Mr. and Mrs. Leonard Reed and baby, Mr. and Mrs. Ben Shropshire and Ford Shropshire.

Other relatives and old friends who were there to add enjoyment to our reunion, were Mr. and Mrs. F. M. Andrews and Mrs. Wagoner.

Mrs. D. P. Key.

## Notice

There will be a Foot Ball game Friday October 4th, at Robert Lee between Robert Lee High school and San Angelo High school.

Tickets will be on sale at both Drug Stores and by students.

## How is this for safe flying

According to Arthur Brisbane in the last five year's in all British civilian flying there have been only 15 deaths, out of 118,012 passengers who have flown 4,458,545 miles.

There is not a nation under the sun that can show such record with automobiles, covering that many miles.

Then you say, flying is not safe.

## In Justice Court.

The case of Eddie Dawson vs. E. L. Frost, was tried in Justice N. C. Browns court Wednesday and after deliberating about 30 minutes the jury brought in a verdict in favor of Dawson.

It seems that in 1928 Eddie had a red heifer yearling to disappear and found it in Mr. Frost's pasture, and Mr. Frost claimed that this calf was reared by his cow, and that Eddie was mistaken in the identity of his calf.

But anyway Eddie won and was paid for his calf.

A. S. Mauzey of Sweetwater represented Frost, and G. S. Arndt, represented Dawson.

## "Fishy"

Knowing the weakness of a certain type-slinger for the piscatorial art, Hubert Buchanan called us across the street Tuesday and told how the day before the channel cats broke his line several times and wound up by breaking his pole to pieces. It seems like taking advantage of our peace of mind by telling us this, and we have been as restless as a Scotchman at a Jew picnic ever since.

Hubert has always believed he could learn us something about the game, so we are quoting him some statistics. These statistics show what class of people can catch fish:

Lawyers, 14 in 100; doctors, 9 in 100; editors and printers, 65 in 100; ministers, 50 in 100; barbers, 5 in 100; bankers, 12 in 100; young ladies, none; small boy with an old pair of pants on, rolled to his knees, a white flag hung at half mast, one "gallus," and a piece of twine for a line, a bent pin for a hook and a rotten cornstalk for a pole, 99 in 100. You will observe that ministers and editors run higher than any other class excepting the small boy. This is because they are good and don't go fishing on Sundays.

Several members of the Rebekah Lodge of Robert Lee and Edith met with the lodge at Blackwell Saturday for an anniversary celebration. The visitors report a splendid attendance and a most enjoyable time.

## From BARN to BATH TUB

A farmer friend who owns two General Motors cars went to the city the other day and stopped in to see some cousins. They showed him around their new roof garden apartment, eighteen floors above the street, and proudly pointed out their Frigidaire in the pantry.

"Well," chuckled our farmer friend, "Mother has a garden full of old-fashioned flowers that she'd never trade for theirs . . . and as for the refrigerator, we have a bigger Frigidaire than they have!"

He also mentioned his Delco-Light power system and his DL water pump, which give him every other city convenience. As he often says himself, his farm is "General Motorized from barn to bath tub!"

It is perfectly true that General Motors, through its various units, offers even more to the farm family than to the city family. By applying methods of automobile production to home electric lighting and power plants, water pumping systems, and automatic refrigerators, General Motors can make the reliable kind of product that a farmer wants, at a price he can afford.

## GENERAL MOTORS

TUNE IN—General Motors Family Party, every Monday, 8:30 P. M. (Eastern Standard Time) WEAJ and 37 associated radio stations.

### "A car for every purse and purpose"

**CHEVROLET.** 7 models. \$325—\$695. A six in the price range of the four. Smooth, powerful 6-cylinder valve-in-head engine. Beautiful Fisher Bodies. Also sedan delivery. Light delivery chassis. 1½ ton chassis and 1¼ ton chassis with cab, both with four speeds forward.

## EIGHT NEW AMERICAN RADIO LINKS ABROAD

The inauguration of eight new international radio services in the last year by R. C. A. Communications, Inc., subsidiary of the Radio Corporation of America are announced in the report of the corporation's directors, just issued, taking radio to thirty-two countries outside the United States.

This advance of America in international radio communication is a matter of great importance to the United States not only because of the swift and accurate service thus increased, a service which already has brought down international cable tolls, but also because it shows the United States is holding against some difficulty a leadership in radio communication of which Americans may well be proud.

The new international radio services inaugurated in the year were to Maracaibo, Venezuela; Shanghai by the way of the Philippines, Montreal, Portugal, Australia by way of Montreal, Curacao in the Dutch West Indies, Liberia and Cuba.

Trans-Atlantic circuits are in operation with twelve different countries. Norway, Sweden, Holland, Belgium, France, Great Britain, Germany, Italy, Turkey, Portugal, Poland and Liberia, with circuits soon to be established in Syria and Spain. Latin American countries with which it is in direct communication are Porto Rico, Dutch West Indies, Colombia, Maracaibo and Caracas, Venezuela, Dutch Guiana, Brazil, Argentina, Santo Domingo and Cuba. The company's trans-Pacific circuits carry on radio communication with Hawaii, Japan, China, French Indo-China, Java, the Philippine Islands, the Fiji Islands and Siam. It also operates the circuit with Montreal, connecting with Australia.

MRS. AMY BOULTER

Many times in those years while she was supporting herself and her sons by nursing and renting some of the rooms in her apartment, Mrs. Boulter says now, she wished she could sell her stock.

When the time of waiting was up a few days ago Mrs. Boulter found that the \$811 she invested through a broker on the installment plan in the then new enterprise of radio had grown to approximately \$20,000.

## FAMOUS SOLDIER, IN OFFICE, STILL RIDES

Sitting all day long, every day at a desk—one of the most important desks in the United States—is an active man whose picture, showing him sitting erect on a horse, would be recognized instantly by thousands of Americans. He is General J. G. Harbord, now President of the Radio Corporation of America. He was Chief of Staff of the A. E. F. commanded the Marine Brigade of the Second Division in Belleau Woods and Bourches when the division stopped the German advance at Chateau Thierry, and in the Soissons Offensive in the battles of July 18 and July 19 he commanded the division.

There is interest for the average American, who always has the best intentions of keeping fit, in how General Harbord has managed to be so successful at it since his outdoor routine was changed suddenly by his new position.

He accomplishes that by consistent exercise, including as a principal item a daily horseback ride. He keeps a horse in Central Park. Every morning, while the average man is lying in bed, he is up and dressed. At 6:45 o'clock he is riding briskly through the wooded park with his friends.

**Waterproofing Wall Papers**  
A coat of shellac or varnish may be spread on any wall paper without injuring it, and it will then be waterproof.

### Must Have Personality

"Eighty-five per cent of a man's success comes through personality and only 12 per cent through technical knowledge, according to the Carnegie Institute of Technology.

A newspaper to be successful must have a personality that attracts the reader.

A newspaper devoid of personality does not attract readers, and it soon loses its prestige if it ever had any.

The newspaper that never takes a positive stand on public questions has no personality.

It is a weakling.

It is an injury to the community.

A paper to be respected must stand for something.

It must stand for its home town and its upbuilding, even if it loses a few rings of its cash register.

No newspaper can mean anything to the advancement of your town that constantly whitewashes the acts of those who are trying their best to tear the town down.

No newspaper can continue to be successful that straddles every public question and tries to befog the public mind by misrepresentation and platitude of words, which no one can interpret.

No newspaper can fool the people any great length of time when in commenting upon any public question it plays both sides so that the reader can no more tell which side it is on than he can fly upside down.

No newspaper can bamboozle its readers like that and get away with it in the long run.

To be successful a newspaper must have a positive personality, not a milk and water one.

It must be truthful and not misrepresent public questions in order to gain its end.

No newspaper can be eternally successful that is run exclusively to make the cash register ring and to gain political prestige.

**THE GOOD OF THE COMMUNITY MUST BE CONSIDERED AT EVERY TURN OF THE ROAD AND ALWAYS FIRST.**

That is the kind of a newspaper that gains the people's confidence and holds it. That is the kind of a newspaper the people want and respect.

No newspaper whose editor is narrow between the eyes and works under cover can present an attractive personality to its readers. They soon find him out and when they do he loses their confidence.—Arkansas City (Kan.) Tribune.

The above comments about a newspaper is exactly right. A

The pen is mighty--

### Clift Service Station

newspaper that won't get up and fight any man or set of men, who attempts to do injury to the community ought not be allowed to exist and is a disgrace to that community. Any editor that has not got guts enough to stand between the people and grand rescals, or between the people and any public official who is giving the public or community, dirt, even at the risk of his life is not fit to live in that community and ought to be promptly excused from the midst of the people.

Jealousies between adjoining Communities is a thing any Editor ought to discourage, and a thing he can do mighty little good at if he tries to discourage it, because there is always that crowd among us that don't think, and has a lot to say. They can undo in one day, what it would take the editor 10 years to build up.

I know people in Bronte that would walk 4 miles to borrow an Observer to read, but couldn't stand the idea of giving a dollar a year for it, because that would be patronizing a Robert Lee industry, and I know people in Robert Lee that would starve to death before they'd buy a loaf of bread baked in Bronte. Thanks be to God that they are the few, and the best people in both towns are ashamed of them but just the same, we have them. I usually ask for Bronte bread, when I buy, because I like it best, and when I get so narrow I can't eat bread because it's baked in Bronte, I want some body to blow my brains out, for I don't think I could ever be of any further benefit to humanity and cherish any such feeling, toward my fellow man just because he don't happen to live in my community. We should all have that good old spirit that we live in the best town in the world and the best community and among the best people in the world, but have a worm feeling for the rest of the world also.

The best way to get back at a community is to make yours a better one than theirs and the four most essential things to build first is, your Churches, Schools Water Supply and Good Roads. Without these you have nothing, and there will always be a bunch to oppose every move for these things, but give 'em hell.

### Of Indian Derivation

The "Tuscarora Deep" was so named from the U. S. S. Tuscarora, the vessel under the command of Captain Belknap, which made an expedition to the Pacific for the purpose of studying the ocean bed. The maximum depth was recorded by the Tuscarora in 1874. The name itself is of Indian derivation and literally means "hemp gatherers."

### Historic Chapel

Although the present building of St. Bartholomew's hospital in London is comparatively modern, the hospital patients still use the beautiful old Norman chapel, the only part of the ancient hospital that remains. It is one of the earliest Norman churches in existence, the work of Bishop Gundulf, bishop of Rochester from 1077 to 1108.

### Visible Stars

The Naval observatory says that recent investigations appear to indicate that there are more visible stars south of the equator than north, but this cannot be stated positively.

### Danger in Bouquet

Care must be taken in smelling flowers that one does not inhale too vigorously, because tiny insects that live on the flower may thus enter the nasal passages and cause considerable inflammation.

## Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs, —once or twice a week for several weeks—and see how Nature rewards you with health.

Calotabs are the greatest of all system purifiers. Get a family package with full directions. Only 35 cts. at drugstores. (Adv.)

# Reputations

**J**UST as walls are built by laying brick upon brick, so are good reputations made by repeatedly rendering services that are satisfactory to our patrons.

As near perfect service as humanly possible is the aim of the West Texas Utilities Company. We are proud of the fact that we are rendering this sort of service to 110 cities, towns and communities in West Texas.

Three major generating stations and fifteen auxiliary plants insure our customers uninterrupted service day and night. Through a network of more than 2,000 miles of transmission lines we have available 70,000 horsepower of electrical energy to turn the wheels of industry, light the home and office and operate scores of labor-saving electrical appliances.

## West Texas Utilities Company

## HOW TO SELECT STALK FOR NATIONAL COTTON SHOW

**A**BILITY, or at least indications of ability, to produce large amounts of a quality product, is the basis of award at all agricultural fairs. This is true whether the entries are dairy cows, swine, chickens or field crops.

Heavy production of quality cotton should be the ambition of all cotton growers. The One-Stalk Cotton Show to be held under the auspices of the Sears-Roebuck Agricultural Foundation, and The National Fertilizer Association, in connection with the Mid-South Fair at Memphis, the South-eastern Fair at Atlanta, and the State Fair of Texas at Dallas, was inaugurated to stimulate interest in economic production of better cotton. Prizes totalling several thousand dollars are being offered.

In judging the single stalks at the show, a score-card which has been prepared by some of the leading cotton authorities in the South will be used. This score-card has been carefully prepared in order to give proper weight to the various plant characters. Actual judging will be done by competent authorities from each section.

According to the score-card, a perfect plant would secure 100 points total score. Since productivity of the cotton stalk is probably of greatest single importance, production, as measured by the amount of seed cotton on the plant, is given a possible 35 points. Thus heavily fruited stalks would secure a high rating under production.

A possible 25 points has been allotted to lint. Percentage of lint in seed cotton, length, character and uniformity, strength and color, are all factors that will be considered in studying the lint. The plant, as a whole, has been given a possible 20 points. Symmetry of form, amount of wood in proportion to fruit, character of branches, and maturity, are considered in studying the plant unit.

Character of bolls has been allotted a possible 15 points. Size of bolls will be considered and well opened bolls are desirable, although a cer-

tain amount of storm resistance is also to be desired.

Seed has been allotted a possible 5 points. Plump, heavy seed, uniform in size and color, are desired.

Freedom from disease has been given a possible 3 points, making a total of 100 points.

Any farmer, whether landlord or tenant, white or colored, or any member of his family, will be allowed to enter a single stalk for competition. Only one stalk may be shown from each farm unit.

The stalks exhibited must be grown in 1929.

Stalks must come from a field where at least one acre of cotton was grown in 1929. However, any spacing, fertilization, protection or cultural practice may be used.

Stalks shown must contain the cotton that grew on the stalk. Picking and refilling will not be permitted.

Branches must not be cut from stalks exhibited. Leaves must be removed.

The name of the variety must be shown on the stalk.

Exhibitors need not necessarily accompany exhibits, but may ship same, charges prepaid, to the National One-Stalk Cotton Show, in care of the fair in their districts. Entrants living in Virginia, North Carolina, South Carolina, Georgia, Alabama and Florida should enroll by sending their names and address to The National Cotton Show, Atlanta, Ga.; those in Oklahoma and Texas to The National Cotton Show, Dallas, Texas; and those in Tennessee, Mississippi, Arkansas, Louisiana, Missouri and Kentucky to The National Cotton Show, Memphis, Tenn.

The premiums for the best single cotton stalks include \$1,000 as total prize, including sectional award, for the best stalk of cotton in the South. Premiums at the three sectional fairs at Atlanta, Memphis and Dallas follow: first \$500 at each fair, second \$300 each, third \$200 each, fourth \$100 each, fifth \$50 each, sixth to tenth inclusive \$25 each, eleventh to twentieth \$10 each.

*Bill Der Sarys*

Look up and you'll see the sky is the limit.

HAPPY IS THE FARMER WITH A FINE BIG BARN

### HERE'S A HINT

—on how to keep down your coal bill and at the same time keep your home warmer and comfortable.

Place with us an order for storm doors and sash for the windows and entrances of your home. It is surprising what a difference they will make.

W. E. Newton

## FLEEING MAN CAUGHT BY A RADIO PICTURE

Constantino Queruben has a chance today to share a certain pride with the old crook character in Bayard Veiller's famous play, "Within the Law," in that he introduced a new era in criminal history. Veiller's character boasted that he was the first man to use a Maxim silencer in shooting his victim. Queruben was the first man captured by detectives by means of a radio photograph.

The chase after which Queruben is being taken back to New York to face charges of swindling and forgery extended over 5,500 miles and ended in Honolulu harbor. The sleepy Filipino was roused from his berth at 5 o'clock on a recent morning and identified positively by a facsimile radio photograph, taken from an original in the files of the Bureau of Information in New York Police Headquarters and projected 2,600 miles across the Pacific Ocean by the Radio Corporation of America.

## SHE MAKES BIG GAIN BECAUSE OF A LOSS

Mrs. Amy Boulter of 135 West Eighty-third street, New York, a widow with two young sons, just has been handed a certificate for two hundred shares of stock in the Radio Corporation of America. The stock replaced two hundred shares of original no par value common stock represented by two certificates which were lost after Mrs. Boulter put them in the mail on May 22, 1923. The transaction which just has been completed was the happy end of a long wait by Mrs. Boulter for the expiration of the legal period in which the shares represented by the lost certificates might have been presented for exchange.

## Home Canning Made Easy

By GRACE VIALL GRAY Household Science Institute.

### CANNING POINTS

1. Have all equipment in readiness before canning is started.

2. Pack products in jars or cans that will seal air tight. Spoilage in canned foods is frequently due to imperfect containers.

3. Pressure cookers are helpful in the canning of meat and all non-acid vegetables. The high pressure obtainable kills all spores, thus assuring perfect sterilization. Pressure cookers also save time and fuel.

4. If you live in the South, or in very high altitudes, or in the west coast states, get the time-tables for canning recommended by your state college. In these sections it is recommended not to use hot water for the canning of vegetables and meats but the pressure cooker.

5. For exhibit and contest purposes always use glass jars.

6. Empty space in a jar will not lessen the keeping qualities of the food, but it detracts from the appearance and is a waste of jar space. However, if a glass jar has lost liquid during processing, do not open to refill.

7. To can fruit juices pasteurize for from 25 to 30 minutes at 100 to

Packing Chicken in Jars.

170 degrees. Boiling fruit juice destroys the flavor.

8. Canning does not change poor products into good products so use good products to put into jars. And do not spoil good products by half-way methods of canning. Use the quickest, safest, and most efficient method of canning, which is the pressure cooker method.

9. Before storing canned products away in a cool dry airy place for winter use keep the jars under observation at room temperature for at least one week.

## Home Canning Made Easy

By GRACE VIALL GRAY Household Science Institute.

### PEACHES AND PEARS

Before starting to can peaches or any other fruit, collect and examine

equipment and put it in good order. Have a liberal supply of new rubbers. Test and fit jars and lids. A sure method of testing is to put water in to the jar, put on rubber, fasten the lid tight and invert. If the jar leaks, try another lid. Discard all defective lids and jars to avoid further trouble. Regulate balls for glass top jars by removing from jars and tightening or loosening them by bending to fit.

With everything in readiness, you are now ready to can the peaches. Select peaches which are ripe but not soft. Before preparing fruit, make thin syrup, or richer if desired, allowing one cup for each quart jar. Add one cracked peach pit for each quart of syrup, boil five minutes and strain.

Immerse peaches about one minute in boiling water or until skins will slip easily, plunge at once into cold water, peel and stone. Pack in jars at once, placing the halves in overlapping layers, concave sides down with blossom end facing glass. Fill containers with syrup. Process quart jars for 10 minutes at 5 lbs. pressure, pint jars for 6 minutes. Process No. 2 and No. 3 tin cans for 10 minutes at

5 lbs. pressure. Never use more than 5 lbs. pressure for peaches and all other fruits and berries.

Pears may be canned whole or cut in halves. Peel and remove core if cut in halves. When packed whole, leave stems on. Cook from 5 to 10 minutes, according to size, in a medium syrup until barely flexible. This precooking is necessary in order to make a full pack. When packed whole, if pears are small, place in layers, stems up; let the second row fill the

Grace Viall Gray, jars to avoid further trouble. Regulate balls for glass top jars by removing from jars and tightening or loosening them by bending to fit.

Pears May Be Canned Whole or Cut in Halves.

spaces between the two stems. Add the hot syrup as the layers are built up. Process 8 minutes at 5 lbs. pressure.

Many people think the pear is rather bland in flavor so they add additional flavor, as lemon or ginger, to the syrup. Then add a slice of lemon or a small piece of ginger root when packing the jar.

The Kieffer, the Pineapple and the Le Conte pears are desirable for canning.

When canning a larger quantity of pears, they are apt to turn brown very rapidly when exposed to air. This can be avoided by placing the fruit in a dilute salt brine (2 tablespoons salt to 1 gallon water). A good, medium syrup for pears is made by boiling together one quart of sugar with two quarts of water.

If pears are canned in tin plunge immediately into cold water and cool as quickly as possible, otherwise, fruit may turn pink in color.

### OFFER \$5,825 IN PRIZES IN NATIONAL CANNING CONTEST

To ward off a threatened surplus of farm products in many sections and to impress more housewives with the economy and healthfulness of home canned foods, a National Canning Contest is now under way to find the best jar of canned fruit, vegetables and meat in the country. Two hundred and twenty-two cash prizes totalling \$5,825 have been hung up by the Sears-Roebuck Agricultural Foundation, including a grand sweepstakes prize of \$1,250 for the best jar of canned food entered in the contest. Any woman or girl is eligible to enter the contest, but entries must be in not later than October 1, 1929. Further information on the contest and free jar and entry blanks for sending in entries may be had by writing to Anne Williams, director, National Canning Contest, 925 S. Human Avenue, Chicago, Ill.
