

Rep. Rogers Calls for Movie Industry Investigation

Move Follows Statewide Protest Begun by Dimmitt High School Journalists

Dimmitt High School students have received statewide publicity for initiating a "movie clean-up" campaign by getting the high school journalism departments over the state to promote an intensive "Letters to congressmen campaign." It paid off this week when Congressman Walter Rogers of the 18th Representative District went before the House Rules Committee to urge immediate approval of his resolution calling for congressional investigation of the motion picture industry.

Rogers said his indignation both as a parent of six children and as a legislator over the popular concentration on sex, and obscenity which are so prevalent today in motion picture films was only intensified by the declaration of war by the Dimmitt Texas High School students.

"When students organize to clean up the movies," Rogers told the Rules Committee, "It is incumbent upon us to lend a helping hand." In discussing the matter Rogers pointed out it is often the case that the leading entertainment in many communities depends upon motion picture shows. In view of this fact Rogers called for an exhaustive inquiry into all aspects of our motion picture industries so that affirmative action can be taken preferably by the industry itself to correct any films condoning filth and crime and even anti-American ideas.

Congressman Rogers also served notice to Hollywood that the "soap and water" should begin there with the proper utilization of talent in motion pictures which will instill in minds and hearts of our youth a sense of morality, and a spirit of responsibility to God, country and parents.

"The Dimmitt Texas High School," Rogers told the Committee, "through its student paper, The Bobcat Tales, began a crusade for better motion pictures that has spread to other high school publications and was recently fea-

tured in a Fort Worth daily newspaper." The Rogers resolution authorizes the creation of a select committee of nine members of the House of Representatives to conduct a full and complete investigation and study of the problems of obscenity,

lewdness, salaciousness, and immorality in connection with the production, distribution and exhibition in the United States of motion pictures and in connection with advertising related thereto.

"Early in the spring Dimmitt youth," Beth Beecher editor of the Bobcat Tales explained, began to get fed-up with a steady diet of low grade movies and began to wonder what could be done to bring pressure to bear on Hollywood for the improvement of their product." Discussion led to editorials in the student newspaper, assembly programs were held in connection with the movement and finally with the cooperation of the student senate letters were written to about 90 high school papers over the state asking that they urge their student bodies to participate in writing a deluge of letters to congressmen on May 1 and May 15.

Miss Beecher and her associate editors received letters and newspaper clippings from many of the schools, stating their intentions to cooperate in the campaign. Received this week also was a telegram to the high school principal and Mike Burkett student senate president from Robert B. Rabinitz, a movie producer in Los Angeles, California, commending the Dimmitt students in their attempts to bring to the attention of the industry the necessity for better film for the entire family.

"Mr. Rabinitz said: 'As the film maker of 'Dog on Flanders' and 'Misty' I believe that the potential of film is not being realized. Believe me when I tell you that there are many of us who are as concerned as you are about the flagrant abuse of film you wish to see but all too frequently the decision is taken out of our hands. We are told that the people are not really interested in family entertainment. Well, now the people have spoke. Your move is a wonderful example of democracy in action. I congratulate you and promise you that if there is anything I can do to aid in your cause you have only to call me. My best wishes to you all. Sincerely, Robert B. Rabinitz.'"

News of Congressman Rogers' address to the Rules Committee and the wire from Mr. Rabinitz reached Dimmitt on May 22, graduation day, for Dimmitt High School seniors. Editor Beecher was among those graduating seniors. Primarily because of her work in promoting a "better movie" movement, Miss Beecher won the Journalism Award in Dimmitt High School this year.

Next fall when school is resumed the Parent Teacher Association and the student senate will pick up where the journalism class and student senate are leaving off with the disbanding of school. Mrs. Kenneth Shropshire, president of the P.T.A. stated her organization would help provide funds for further correspondence and promote the program as fully as possible.

about dimmitt and castro county by bascom nelson

We hope you notice the somewhat better printing job on the Castro County News this week. It's done on our new (to us) Meihle press. This machine is supposed to be the best you can buy for a weekly newspaper. It's not new. A new one costs as much as a three-bedroom swanky brick home with a Cadillac or two thrown in for good measure. The one we got came from a commercial printing firm in Pueblo, Colorado and isn't supposed to have a lot of miles on it. We feel like a cat purring on a satin pillow when we listen to this beast hum. The one we moved out back sounded like the clatter wheels of perdition, so the contrast is really exhilarating. Anyway, we should get a lot better print. Whether the pictures will do much better, we don't know yet. We use 4x5 inch Polaroid news pictures and enlarge or reduce them with our photo-engraving camera. By using this system we can go a lot later into the week on our pictures, cutting out the time ordinarily used to process regular pictures.

Some Dimmitt students are receiving what amounts to nationwide publicity because of their efforts to halt the use of sex and perversion as movie topics. Walter Rogers has gone all out and has called for a congressional investigation of movies in Washington and the youngsters have received mail from all over the state in support of their laudable endeavor. It all started when the Dimmitt High School journalism class wrote other similar classes in the state asking them to start letter writing campaigns on certain dates to their congressmen asking for a congressional look into the situation. The response was very gratifying.

The problem now is to keep the ball rolling, and it is primarily the responsibility of the youngsters of the country. Anytime an adult picks up a hatchet and goes on the war-path for this or that, he's automatically dubbed a Carrie Nation type trying to create a rhabarb about his own pet peeve. This is a country of rhabarbs and tub thumpers and the usual reaction is to try to get them out of our hair with the least bit of discomfort. But this is not so with youngsters. When they sound off about something, parents instinctively listen, and that's what's happening about this movie thing. An adult could holler till doomsday about how the movies are corrupting his kid's morals and all he'd get would be a dirty look from most everyone. But let the kid holler and he can get attention. In other words we listen more quickly to someone who's getting the short end of the stick than if we hear it through a third person.

So we hope the journalism class next year will continue to kick up a stink and provide the leadership that many youngsters are needing in their tiff with movie ideas of morality. These kids deserve any cooperation they need from the city.

What these journalism youngsters are doing points up a knotty problem in dealing with American business. President Kennedy's recent battle with the steel industry over their proposed price raising is a typical example of a continuing struggle between government and business that harks back to days before the Sherman anti trust act. Business cannot operate without government and government cannot operate without business. The two are inseparable, yet incompatible. Business must have some government regulation for protection from itself. Without anti-trust laws it is possible that only two or three giant corporations would run the country today under what would amount to a dictatorship. Those who want to see American business survive and grow stronger in a healthy competitive situation must admit to the necessity of control to halt economic excesses. Businesses are like unions—(Continued on back page)

Robert Leinen Loses Right Leg

Wounds received during World War II indirectly caused Robert (Bud) Leinen, local appliance service operator, to have his right leg amputated at the knee Monday.

Doctors at Scott and White Hospital in Temple said the leg they removed was simply worn out after carrying most of Leinen's weight for nearly twenty years. They theorized that the veteran had favored his other leg, which was badly damaged by shrapnel during the war. The wounds had given him continual trouble ever since his discharge.

Leading up to the amputation was a collapsed artery. He was taken to Temple from Castro County Hospital Tuesday, May 17 and vascular surgery (an attempt to install a plastic artery) was undertaken on the leg Thursday morning. Doctors said they were too late and decided to amputate. Without a supply of blood, gangrene would have set in the leg, which meant there was no choice in the matter. Mr. Leinen is left with his weak left leg. Mrs. Leinen said this week he was doing as well as could be expected. His address is Robert Leinen, Veterans Hospital, Ward 15-A, Temple, Texas. She will go back to Temple this week-end.

The Greer H. Estes Post of the American Legion here is starting a "Robert Leinen Fund" to help the family weather Mr. Leinen's convalescence period. Anyone caring to donate to this fund may deposit it at the First State Bank or call Mary or Jack Flynt.

EXCHANGE STUDENT Garry Huntingford of Cora Lynn, Australia is one of the sixty-four Dimmitt High School seniors who received diplomas from Paul Hilburn, superintendent. Huntingford, who will return to his native land this summer, has made his home in Dimmitt this year with the Carl Easterwood family.

Local Legion Members Hold Top Positions In Area Organization

For a number of years Dimmitt has had a nucleus of American Legion and American Legion Auxiliary members who served the Legion and Auxiliary in a number of different capacities and have devoted much time to the execution of their duties. At present, nearly all of these people hold district or state offices.

Mrs. Jack Flynt is ending a year of extensive work as a state vice-president for the American Legion Auxiliary. Duties in this capacity required Mrs. Flynt to travel over 108 counties which includes 134,250 square miles or very nearly half of the state. For eight years she has served as 18th District Girls State Chairman and will serve again this year. Area included in the duties of this office include 28 counties or 21,513 square miles. She is also a past 18th District president and a past Department Membership Committee-woman, has served as president and secretary of the local unit of the Legion Auxiliary and while serving as local president belonged to the One Hundred Member Club.

Another very active Legionaire from Hart is Willis Hawkins, Jr. who currently is the 18th District Commander and has served in numerous local capacities as well. Red Hill of Dimmitt is the 18th District Adjutant elect. He served on the Resolutions Committee at the 4th Division Convention in El Paso this year and has held offices in his local unit.

Jack Flynt is the 18th District Commander elect, and is the current 18th District Adjutant. He has served on Resolutions Committee and has been post commander and adjutant a number of times. Both Mr. and Mrs. Flynt were delegates last year to the National convention of the American Legion and American Legion Auxiliary and have been appointed as delegates again this year.

Salvatore Di Cuffa, who is the current Post Commander of Greer H. Estes Post No. 445, is also Commander elect of Zone 2, has served on District Resolutions Committee and has been a member of the one Hundred Member Club during his office of post commander. Mrs. Adele Hill is the new president of Zone 2 and Mrs. George Pope is the unit president. American Legion membership in Texas is close to 70,000 and there are approximately 22,000 women who are members. Both the Legion and Auxiliary are both chartered by congress and cannot federate with any other club or organization. The American Legion is credited with being responsible for the enactment of the G. I. Bill of Rights. They promoted the bill, with no other aid from any other organization until the bill was made official. At the time the bill was passed the American Legion was made up only of World War I veterans.

Trap Shooting to Provide Exchange Student Funds

Anybody who can pull a trigger is eligible to take a fling at trap-shooting Saturday and Sunday afternoons and at the same time help pay the expenses of bringing a foreign student to Dimmitt.

Sponsored by the Dimmitt Lions Club and the Dimmitt Gun Club, proceeds will be used to help meet expenses of bringing the 1962 foreign student to Dimmitt.

According to Buddy Byrnes, the Gun Club member making arrangements, there have been about \$500 so far contributed in merchandise as prizes to the best shots. There will also be trophies awarded for the trap shooting buffs.

Trophy shooting will begin at 1:30 p.m. Saturday afternoon. First place and runner-up trophies will be awarded and a \$4.00 entry fee will be charged.

Shooting in which merchandise will be awarded as prizes will begin at 1:30 p.m. Sunday.

A big feature of the weekend of shooting activities will be the awarding of a Winchester automatic 12 gauge shotgun with a ventilated rib barrel Sunday afternoon. Tickets on this gun are available from any Lions Club or Gun Club member at \$1 each. A set of auto floor mats will be given away Saturday afternoon by Dimmitt Parts and Supply to anyone attending the event, spectator or shooter. A Zebco spinning rod and reel will be given away Sunday afternoon by White's.

Participants in the shooting do not have to win a match to win a prize. Colored targets will be thrown up at random and anyone shooting one of these targets will receive a prize.

The Gun Club will sell 12 gauge shotgun shells at wholesale prices at the event, which will take place on the club's trap range just east of the baseball park. Participants may bring their own shells, either factory or handloaded.

Last year, to finance two exchange students, the Lions Club held a pie sale at the High School Auditorium and came up with about \$1,000. Apparently there will be only one foreign student coming to Dimmitt next year. Minimum expenses for bringing the student to this country is about \$600.

READY—AIM—FIRE—Motoe Terami, eighty-five pound Dimmitt High School graduate from Kobe, Japan prepares for the merchandise and trophy trap shoot sponsored by the Dimmitt Gun Club and the Lions Club. Proceeds from the shoot, to be held Saturday and Sunday afternoons will be donated to the American Field Service to aid in financing next year's foreign exchange student program. Miss Terami has spent this year as an exchange student in the home of Rev. and Mrs. Hugh Blaylock.

Methodist Bible School Hart F.F.A. One of Top 3 Chapters in Area I

The annual vacation Bible school will begin with registration and the first class session Saturday June 2 at 8:30 a.m. at the First Methodist Church.

The school will meet each day from 8:30 to 11:00 a.m., through Saturday, June 9, and then will be concluded on Sunday morning, June 10 at the Church School Hour Preparations for an excellent Bible School have been completed and it is hoped that all children from nursery age through the Junior department will attend, according to church officials.

Brother of Local Resident Buried In Ector Saturday

Mrs. Raymond Hance has returned from Bonham and Ector where she attended funeral services for her oldest brother, J.M. Cole of Ector. Mr. Cole had been a resident of Fannin County over 50 years. He is survived by his wife, a son and two daughters, and three grandchildren.

Mr. and Mrs. Gary Compton of Lubbock also attended the services which were held at the Wise Funeral Home in Bonham Saturday afternoon.

Memorial Day Services Set for 10 a.m. May 30

Memorial Day services will be held May 30 at the Dimmitt Memorial cemetery. Services are tentatively set for 10 a.m. The American Legion will be in charge of the program.

Nazareth To Vote \$50,000 School Bond Issue June 2

Members of the Nazareth School board unanimously voted to present a bond issue to the people of Nazareth Independent School District on June 2 in the amount of \$50,000 to provide funds for the building of a cafeteria and purchase of teacherages.

The cafeteria is to be a 45' x 120' concrete block building located across the street on the west side of the school building, and will be complete with a kitchen at one end and a stage at the other. Capacity of the building is estimated at 350. Included in the expenditure also, is the purchase of five houses located at the Phillips Dimmitt Station which will be used as housing facilities for teachers. The houses are well built, sound and have good sewerage systems, according to Greg Hoelting, secretary of the board.

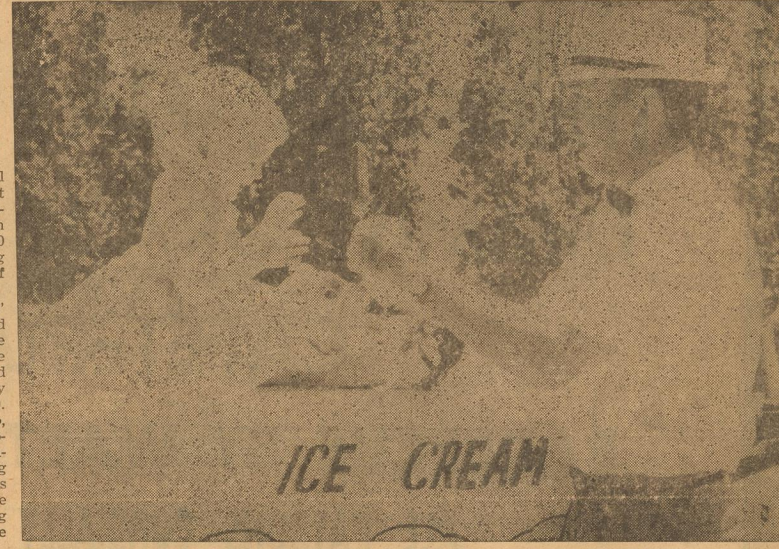

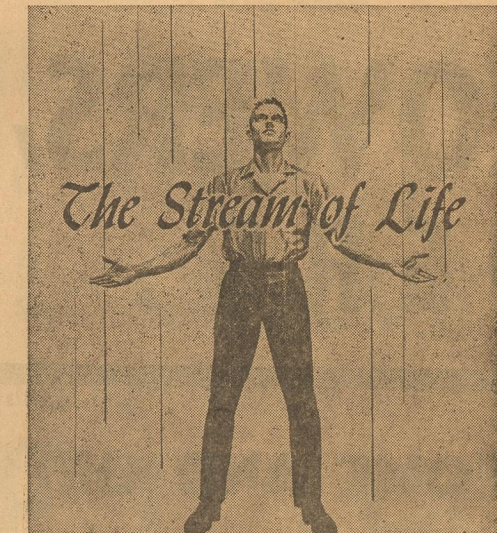

Other members of the school board are Francis Wilhelm, Bob Steffens, Paul Warren, Leroy Pohlmeier, John Schacker, and George Book, Jr.

Observation at Local Churches

Soil Stewardship Week Scheduled

Soil Stewardship Week will be observed locally during the period of May 26 to June 3 according to Wade Mills, chairman of Running Water Soil Conservation District. First Methodist, First Baptist, First Christian and Presbyterian churches and possibly other churches of Dimmitt and the surrounding area will all be the participating in special observances which develop the Soil Stewardship theme "The Stream of Life."

The Running Water Soil Conservation District has distributed specially-prepared church programs, bulletin inserts, and booklets to churches of all faiths who request them. These materials are prepared each year by the National Association of Soil Conservation Districts in cooperation with an advisory committee of church leaders presently consisting of Dr. E. W. Mueller, National Lutheran Council; Dr. Lewis Newman, Southern Baptist Convention; The Rev. J. G. Weber, National Catholic Rural Life Conference; Dr. Henry McCanna, Department of Town and Country, National Council of the

DING—DING—DING—HERE COMES THE ICE CREAM MAN—Tressa Bischoff, nineteen month old daughter of Dr. and Mrs. Harold W. Bischoff is one of the several hundred Dimmitt youngsters who seem well pleased with the duties of the new "ice cream man", Tommy Keener who teaches in Dimmitt Schools. Keener and his ice cream cart travel down Dimmitt's residential areas three times daily selling all flavors of ice cream to Dimmitt's younger set.

GO TO COLLEGE... Or Get A Job

Which Is Right Choice For High School Grad?

Answer: Not exactly. The job application that you fill out at a company personnel office does not always tell an employer all that he would like to know about you. The job application provides general information. If you are considered for employment, you will be asked to come in for a job interview at which time more specific questions will be asked.

Question: What preparations should I make for a job interview?

Answer: You should be prepared to "sell" yourself—to convince your interviewer that you are "the man for the job."

Employers want neat, intelligent, and efficient employees.

The first impression you make is through appearance. Dress neatly, be well manicured and polished, but don't overdo it. If your clothes are flashy, you might be considered too flashy for the job.

An interviewer will judge intelligence not by how much you say but rather by what you say and how you say it. Don't be afraid to talk about yourself, your hobbies, your achievements, whatever they may be, but don't drag it out.

How can you display efficiency during a one-time interview? Simply by showing that you have given some advance thought to the interview. Bring with you a folder containing documents that will be of interest to your prospective employer—your birth certificate, high school credits, a certificate of health, and a brief resume, or personal history. You might even prepare a scrapbook, using information about yourself from your school yearbook, local newspaper, including two or three character recommendations from responsible adults. Your interviewer might give this only a casual glance, but he will be impressed—and he will know that you are sincerely trying to "sell" yourself and show that you are capable of handling the job which you seek.

Question: What if I can't find an opening in the field of my choice? What do I do then?

Answer: Get a job—doing whatever you like "second best," or doing something you don't like to do, if this becomes necessary. Look for a "second choice" job that will give you some free time to continue looking for the kind of a job that you really want. It's always easier to get a new job if you are working, rather than unemployed.

AN IMPORTANT MESSAGE TO THE FARMER FOR 1962

The PANHANDLE MUTUAL HAIL ASSOCIATION has paid back to the farmers an average of 84¢ of each premium dollar over the last 3 years for HAIL LOSSES. The loss benefits is the important and simple crux of any insurance policy, and much sweeter than any token dividend or deviation.

TEN REASONS WHY PANHANDLE MUTUAL HAIL ASSOCIATION IS ONE OF THE LARGEST CROP HAIL WRITERS ON TEXAS CROPS:

1. All Texas policies are reinsured by the LLOYD'S OF LONDON with billions of dollar assets.
2. All liability is mapped and limited by section and township.
3. Approximately FOUR AND ONE-HALF MILLION dollars paid to West Texas farmers for losses the last five years.
4. A-PLUS (EXCELLENT) RATING BY "DUNNE'S FIRE AND CASUALTY REPORT."
5. Required legal reserve (policy holders surplus) maintained at all times and deposits are kept in LOCAL BANKS throughout the West Texas area.
6. The PANHANDLE SPECIAL cotton policy DOES NOT have the REPLANT clause and we DO NOT use the PLANT POPULATION adjustment at any time.
7. We do offer the FB-10 and FB-5 cotton coverage (with replant) at reduced rates for late cotton.
8. The PANHANDLE Wheat Policy is the only policy with the "Extra Harvest Expense Award" benefits, also with the 10% credit on Tascosa and beardless wheat, only 48 hour waiting period instead of 120 and a premium saving in most counties.
9. Free cancellation on crop failures (See Dates) . . . arbitration clause.
10. Your PANHANDLE MUTUAL HAIL ASSOCIATION wants to serve you with "THE THINKING MAN'S HAIL INSURANCE."

Be sure and talk to your PANHANDLE MUTUAL AGENT now to compare and study the coverages and rates, because of the many coverages that are now being offered, you need to know which policy fits your West Texas farming conditions the best.

REMEMBER
 We do not use Plant Population Adjustments. 30-3tc

Eradication of Screwworms Near

"Though we are just getting started, I believe we are now on the road toward eradication of the screwworm in the Southwest." This statement by R.L. Murphree, DeWitt county, expresses the feeling of officials of the Animal Disease Eradication Division, U.S. Department of Agriculture, Texas Animal Health Commission and Southwest Research Foundation.

"I have had only one screwworm case up to mid-year," Murphree continued. "Normally I would have had 15 to 20 cases. Though part of this may be due to the winter freeze, I have found several blows or egg masses which have not hatched. They have just dried up and indicate the release of sterile flies in the area is helping now."

Gillespie County ranchman Clint Hardin, Willow Springs, described how he found a baby calf with its navel covered with screwworm eggs. It was not doctored but the eggs did not hatch. This section has been a hot spot for screwworms in the county, according to County Agent C.A. Stone.

USDA officials explain the apparent leveling off of screwworm cases in many counties during the past week is just a preview of results that will be obtained once the new 75 million per week sterile fly production plant at Mission goes into operation. Production has been increased to almost 30 million flies per week at the temporary facilities at Kerrville, but this has not been sufficient to do the job. Progress of construction at the

Mission plant is another reason for the favorable outlook, the officials explained. Work is ahead of schedule, and the plant should be completed by mid-June. Fly production will be underway by July 1.

Eventual eradication of this costly livestock pest will come from a combination of the release of sterile flies and work by livestock owners. Stockmen should adhere closely to good screwworm management practices to protect their herds and help reduce screwworm populations in order that maximum results can be obtained from the sterile fly releases.

"We hope that no one had the idea that there would be no screwworms in Texas this first year," commented Claude McCan, Victoria county ranchman and a member of board of trustees of the Swahf. "Although we have had fewer cases than in the past in many areas, it is a question of each individual stockman staying with the flight."

McCan added that they had just dehorned and castrated the third round and have had only two screwworm cases. Normally, at this time of the year, they expect 100 to 150 cases. "Since Victoria county is in real screwworm country," he said, "you could normally expect almost 100 percent infestation when working on dropping calves at this time of year."

Every case of screwworms put out of commission now prevents thousands of cases three to five weeks later. In turn, this helps make more effective use of the limited supply of available flies and will speed up eradication, explained the officials.

Officials stressed that stockmen should now follow a regular preventive spray program using Coral or Korlan, following closely the instruction on the labels. These sprays give protection for two to three weeks.

Cattlemen in Texas are due praise for the support already given but officials of the cooperating agencies stressed that no one should let up in his responsibilities to the program now, the officials said.

These responsibilities include the regular spray program, close and frequent observation of all animals, pre-treatment of all wounds before they become infested with screwworms, early and intensive treatment of screwworm-infested animals and frequent retreatment. Also the collection of 10 worms from each wound for positive identification. These worms should be delivered to the local county agent or livestock inspector.

Congratulations

We join your family, friends and this entire community in wishing each of you well in whatever endeavor you may plan for the future. Your graduation is an important achievement and, if you want it to be, the first step toward greater ones. We would also impress upon you the importance of this day for another reason. Education, as we know it, is the foundation of democracy and the American concept of liberty. James Russell Lowell expressed it eloquently: "It was in making education not only common to all, but in some sense compulsory on all, that the destiny of the free republics of America was practically settled."

In other words, only an educated people treasure and strive for freedom. Contrary to what the propagandists preach, the great masses of the communist world are not educated. The selected few are allowed to continue their education after elementary school and enter a profession of their choice. You, on the other hand, have a free choice and thus become the master of your own destiny. You are, then, the master of the destiny of your country. What it will become in the next two or three decades depends almost entirely upon you. To keep your heritage, your freedom, and self respect will require your greatest effort. We wish you well and ask God's blessing upon your endeavors.

About Your HEALTH

A weekly public service feature from: **HENRY A. HOLLER, D.D.**
the Texas State Department of Health, Commissioner of Health.

Forty years ago when a generation of Texans decided to smoke there were no recognized health factors to consider.

There were aesthetic, moral and sometimes financial considerations, but the lay public never thought of tobacco as a deterrent to health.

Today the health factor holds the star role in the current and sometimes melodramatic struggle to evaluate and interpret the latest scientific data on cigarette smoking and its relationship to the health of the individual.

Observations recorded from this generation of smokers and extensive laboratory tests yield information daily that must be considered and weighed carefully by the thinking man.

According to the U. S. Public Health Service the death rate from coronary heart disease among regular users of cigarettes is 63 percent higher than the rate of non-smokers. The number of deaths from coronary artery disease tends to rise with the number of cigarettes smoked.

Last year more than 26,000 Texans were victims of this type of heart disease, how important a role the cigarette played is not fully understood, but the statistical evidence has been such as to move informed, objective, and deliberate bodies to call attention to the risk of cigarette smoking.

One survey after another has shown a sharp statistical association between lung cancer and cigarette smoking. Lung cancer death rates also mount steadily with the amount smoked.

Other official reports have stated that there is striking evidence that regular cigarette smokers are subject to increased risk of dying from bronchitis, pleurisy, emphysema, ulcers of the stomach and duodenum, and cirrhosis of the liver.

Realizing that effective education for adults would be expensive and relatively unsuccessful in changing long-standing habits, the State Health Department's Division of Cancer and Heart Diseases has begun an educational program on smoking hazards beamed toward junior and senior high school students.

The program is aimed at providing students with a full understanding of the health hazards which accompany the smoking habits—so that they will stop some students before it's too late.

Specialists To Attend Shrine Clinic June 1-2

More than 80 doctors and medical specialists, from New York to Hawaii and in-between, will be in Hereford June 1 and 2 for the seventh annual Oasis Shrine Club Children's Clinic, it was announced this week.

The announcement came as members of the three-county Shrine organization started selling bumper strips to help defray costs of the clinic and an allied research program. Henry Aycock, chairman of the fund effort, said that some \$7000 is needed to offset the costs of holding the annual clinic and to support the World Bone Research work being done by the Deaf Smith County Research Foundation.

"We will not hold a circus this year, so the bumper strips will be our only source of revenue to pay for this most important work," Aycock said. He added that solicitation of businesses in Hereford and other towns in Castro, Parmer and Deaf Smith counties would also be held during the coming week.

Dub Reeves, chairman of the clinic this year, announced that about 80 doctors and medical of the evening of June 1 for a dinner and medical meeting at the Hereford Country Club. On June 2 is scheduled the clinic, which will encompass four large facilities here. Registration will be conducted at the Hereford Community Center with specialists seeing the children in the Hereford Medical and Surgical Clinic. Lunch will be served at the Hereford High school cafeteria for all children, parents, doctors, nurses and Shiners.

The busy day will end with a round-table discussion, followed by a dinner-dance at the Jim Hill Hotel for shiners and doctors and their wives.

A special guest at the clinic will be Dr. Guy Caldwell, chairman of the Medical Advisory Committee for Shrine Hospitals. Dr. Caldwell is from New Orleans, La.

Specialists in cardiology, oral surgery, neurosurgery, eye specialists, ear, nose and throat specialist, laboratory research, orthopedics, plastic surgery, audiology, and radiology will be present.

Assisting in general diagnostic and clinical work will be a large number of doctors from Hereford, Amarillo, Lubbock and the Panhandle-South Plains area.

Reeves urged that parents of children who might need special attention in any of the above special areas to pre-register the child or children by filling in one of the blanks which will appear in the Hereford Brand and Sunday Brand prior to the clinic.

Through a hard-hitting, Conscientious Advertising Program

Competition is a demanding taskmaster—but it can also be the greatest rewarding factor in merchandising or servicing. It is a taskmaster when competition defeats, when it sets the rut that engulfs the businessman. Competition is rewarding when the merchant forces it to become his tool, when he knows he has a thriving, growing business that will never want for customers. Business goes where it is invited—and competitive prices, outstanding courteous service with a good selection, and promotional advertising will do the most inviting.

Do yourself, your customer, and your community a favor by using the pages of the Castro County News to sell your goods and services. It is not only good business but it will help you gear your operation to today's quickly changing trends and increasing competition.

Success stories of large businesses almost always hinge around concentrated advertising and other sound business practices. Start a campaign now—you'll be amazed at how quickly you will feel the difference. Just telephone 647-3488 and a salesman will call on you at your convenience.

Christian Church Begins Bible School Monday, May 28

Daily Vacation Bible School sessions will be conducted next week, Monday through Friday, 8:30 a.m. to 11:00 a.m. at the First Christian Church in Dimmitt. A corps of teachers will be on hand to greet any in ages 3-15 inclusive desiring to attend.

Mrs. Othele Fry of the Dodd Community and her assistants will have the pre-school group. Mrs. D. M. Brown and assistants will direct the group who have had one, two or three years of School. This group is the primary division. Junior classification includes school grades from 4 to 6 and Mrs. George Gabel will teach this section. Mrs. Dexter McCaughey will be in charge of the junior high group or those who are in school grades of 7 to 9. Where ages and school grades

do not agree assignments will be made to suit the various pupils' needs.

Minister and Mrs. Bedford W. Smith will lead the school program. The closing program will be conducted Friday evening of June 1st at 8:00 o'clock.

Children not active members in other Church schools are urged to attend the VBS of the First Christian Church. Classes in the Sunday Bible School match those of the VBS. The church Sunday School meets each week at 9:45 a.m.

Senator YARBOROUGH'S REPORT

Dear Fellow Texan: Nothing before this Congress means more immediate progress to the industrial and commercial future of our state than the money to be voted for flood and hurricane protection, and for water conservation and navigation improvements.

Hurricane Carla taught us a bitter and costly lesson last year. We must have better coastal and river valley protection from rising water if the rapid growth we seek in Texas is to be achieved. As for water conservation, the hard lesson driven home in the drought in the 1950's must not be forgotten.

In the past few days, I have testified several times before the Senate Subcommittee on Public Works, headed by the able Senator Ellender of Louisiana, to call for a stepped-up program of flood protection, and protection from rising water and hurricanes, and water conservation in Texas.

At these hearings, I had the privilege of introducing some very fine delegations from Texas who were here on behalf of projects in the Gulf Coast area and the interior of Texas. Several of these groups were accompanied by their Congressmen, including the able Congressmen Jack Brooks, Bob Poage, Clark Thompson, Homer Thornberry, Henry Gonzalez, J.T. Rutherford, Omar Burleson, Olin Teague and others.

I asked for \$800,000 to be earmarked for a detailed study leading to a master plan for hurricane protection along the Texas Gulf Coast from Port Arthur to Brownsville, to protect the Texas cities. The Texas Water Commission has endorsed this study. Among the other recommendations I made were:

A request for more speed in getting funds for a study of the severe flood problems in El Paso, where dry gulches create flood hazards in a rapidly growing part of the city.

A request for \$75,000 for the Neches River Survey and \$95,000 for the Sabine River Survey — on the two rivers that receive the most rainfall per square mile in Texas. These surveys, first recommended by Walter Morris Shepherd in 1914, are urgently needed in Texas.

I also asked for an increased appropriation for the Waco Project because of slippage in the earth at the site of the Waco Dam, which has called for more construction there. Throughout the testimony, I tried to point up the great need our state has for a sweeping program of water conservation and development.

Among the projects are the funds needed for a survey now underway on the Little Brazos River of Central Texas; the Big Fossil Creek Project near Ft. Worth; the Bleders Creek Reservoir near New Braunfels; the Houston Ship Channel and the Matagorda Ship Channel for that new port city, Port Lavaca; the Proctor Dam on the Leon River; the Somerville Reser-

More Choice is Granted to Use Diverted Land

The U. S. Department of Agriculture last week announced program changes which permit farmers greater flexibility in using acreage diverted from Wheat and feed grains under the 1972 programs. The changes are authorized by recently enacted Public Law 87-451 (approved May 15, 1962).

Flax, rapeseed and mustard seed have been added to the list of crops that may be grown on acres diverted from production of wheat and feed grains, following the required review of the current supply situation with respect to all of the crops eligible for consideration. Production of guar, sesame, safflower, sunflower, and castor bean on such acreage was already permitted.

The new law amends the Agricultural Act of 1961 by authorizing the Secretary of Agriculture to permit acreage diverted from wheat and feed grains to be utilized for annual non-supported field crops and flax when these crops are not in surplus supply and will not be in surplus supply if produced on the diverted acreage. No price support may be made available for production of any such designated crop on the diverted acreage.

The new law also empowers the Secretary, if further justified by the supply situation of a permitted crop, to establish a partial payment for that crop up to one-half the rate which would otherwise be applicable if the acreage was devoted to conservation uses.

Accordingly, a determination has been made to provide partial payment for 1962 on diverted acres planted to guar, sesame, sunflower and castor beans. These payments will be computed in the case of guar and sunflowers by taking 20 percent of the applicable commodity rate for minimum diversion for the farm.

The partial payment rates for castor beans and sesame will be computed by taking 30 percent and 40 percent, respectively, of the minimum regular rate for the acreage involved.

Safflower, flax, rapeseed and mustard seed may be grown on diverted acres but no payment will be made. Flax produced on the diverted acres will not be eligible for price support, but any other flax on the farm may qualify for support.

The Department's revised regulations for administering the amended Agricultural Act of 1961 will include the following provision.

Signup will not be reopened and previously stated intentions to divert may not now be increased.

Producers may redesignate diverted acreage only for the production of one or more of the permitted crops. This redesignated acreage may already be planted to the permitted crop. However, the producer will be required to pay the performance cost of any such redesignation.

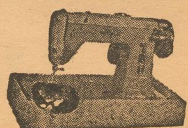

Permitted crops disposed of as a green manure, or destroyed by natural causes by a deadline date (not later than 30 days prior to the normal harvest date for the applicable permitted crop as determined by the ASC State Committee) may be considered as a conserving use provided other conservation measures are carried out if necessary, to protect the land throughout the 1962 crop season. The original program payment rate will be reestablished in such cases. If the permitted crop fails or is disposed of or not harvested after the disposal date, no upward adjustment will be made in the program rate.

If a producer elects to plant the entire diverted acreage to a per-

voir on another tributary of the Brazos River; the Waco Reservoir on the Bosque River; the San Antonio Channel Improvement project in Brownsville that is so important to the Rio Grande Valley; the Millican Reservoir on the Nava-sota River—near Bryan and College Station—which will furnish water to Texas A & M; and vital projects in Texas City, Galveston, Port O'Connor, Freeport, Port Arthur; and the problem of salt pollution of the Red River and other rivers—the list is almost as big as Texas.

Fellow Texan, these public works projects not only create new jobs and new business—they clear the way for growth of our state. This is our common goal.

mitted crop for which no payment will be made and an advance payment has been made, he will be required to refund the advance, but no interest would be charged.

Participation under the new provision shall not serve to extend the compliance deadline date for wheat, barley, corn or grain sorghum.

Each producer who wishes to take advantage of these provisions should go to the ASCS County Office and request a change in his intentions not later than June 29.

Miss Sammie Moore Is Shower Honoree

The home of Mrs. Fred Dunn, 1010 West Lee St., was the scene of a bridal shower, Saturday afternoon, May 19th, honoring Miss Sammie Moore, bride-elect of Mr. Orval Hughlett of Foyd, New Mexico.

Guests were received by Mrs. Dunn who, in turn, presented them to the honoree, Miss Moore; Mrs. O. E. Hughlett, Floyd, New Mexico mother of the groom-to-be; Mrs. J. B. Moore, the bride elect's mother; and the grandmother, Mrs. P. L. Moore.

Miss Janice Moore, sister of the bride-to-be, registered the guests. Mrs. Bill Dowdy presided at the punch bowl and Miss Carolyn Dunn served the cake from a table covered with a white hand-crocheted cloth over pink. Arrangements of pink and white peonies were placed through-out the home, carrying out the bride-elect's chosen colors.

Approximately 120 guests attended.

Hostesses for the afternoon included Mesdames: Faye Kenmore, Wesley Brown, E.L. Carpenter, James Bates, Deroy Cates, C. A. Hance, Jim Aldridge, R. D. Rogers, Arthur Oakley, Harlan Dodd, E. L. Ivy, James Wilde, Lester Dowell, J. B. Blackwell, Bill Dowdy and Fred Dunn.

Expert Tells How To Get Good Paint Job on Buildings

the purchase of a good grade of paint and careful adherence to the manufacturer's instructions, points out Smith. Preparation of the paint surface, mixing, prime coat application and method of application are steps that require special attention.

A good paint job on exterior wood work improves the building's appearance and protects it from the weather. Bill Smith, extension forester, says a good coat of paint can greatly increase the service life of wood used above ground.

Two of the more common types of paint are the pigmented oil type and the waterbase coatings. The water-base type, for use outdoors, is a fairly recent development. It is designed to have increased moisture permeability, and when applied over special oil type primer it will give good protection to wood.

A successful paint job depends on the purchase of a good grade of paint and careful adherence to the manufacturer's instructions, points out Smith. Preparation of the paint surface, mixing, prime coat application and method of application are steps that require special attention.

and you should make sure the surface is completely clean and dry before painting.

Exterior woodwork pretreated with a good water repellent preservative may also be effectively painted, explains Smith. One good preservative, penta with the water repellent additive, may actually increase the efficiency of some paint. The penta should be mixed with mineral spirits and not an oil solvent, however. If pressure treating is done, the treating plant should be informed that the wood is to be paintable.

Mr. & Mrs. John Nolen Celebrate Anniversary In Dimmitt Sunday

Mr. and Mrs. John A. Nolen of Texarkana, Arkansas, former residents of Castro County for many years, celebrated their fiftieth wedding anniversary Sunday in the home of their granddaughter Mrs. Patsy Davis and children.

Mr. and Mrs. Nolen's two daughters, Mrs. Pat Hardy of Dimmitt and Mrs. Erving Anderson of Earth were also hostess for the occasion. Approximately 60 guests called.

A white tiered cake decorated with a golden "50" and coffee and punch were served the guests from a table laid with a white linen cloth. White milk glass and silver appointments were used and arrangement of white stock and gold leaves with a golden 50 as a focal point completed the table arrangements.

VISITS IN YUMA

Garald Broadstreet left Tuesday for Yuma, Arizona to visit his brother S- Sgt Harold Broadstreet and family. He plans to be gone about two weeks.

Ruth Circle Meets

"Without religious faith, a man in the space age is a complete cripple and deformed person, it is as if he had lost his hands, sight and hearing," Mrs. Jack Cowsert told a group of women at the Ruth Circle which met in the home of Mrs. George Webb Monday afternoon. She also added that "Man made in the image of God has inherited part of God's nature. He must have spiritual faith to come through these times intact."

Mrs. E. Lee Stanford said in her meditation "Seek ye first the kingdom of God and all these things shall be added to you, and then, Go into all the world teaching and preaching God's Word." "That includes Dimmitt. We must see to the spiritual needs of those on our own doorsteps."

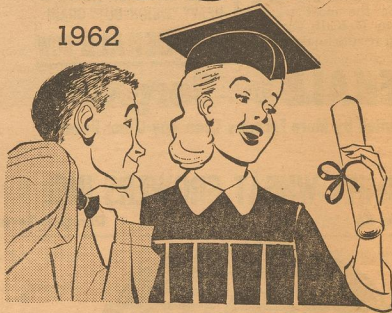

Mrs. Leola Haberer presided at the business meeting. Refreshment were served.

Mrs. Orzo Stephens and daughter, Karen and Mrs. Bess Jones of Amarillo attended the Flower Show here Saturday and also visited Mrs. Stephens' son, Harold and wife.

SUCCESS

Success is a relative thing, someone said. But each of us strives for it and plans his life and actions to achieve it. We wish you success in this most complicated society, but we would remind you not to achieve it at the sacrifice of self respect. Many people write that our young people are weak and unable to carry on the American tradition. This we do not believe. We have the utmost confidence in you all.

Jaycee Scrapbooks Given to Library

Scrapbooks belonging to the Dimmitt Jaycees for the year 1961-62 have been donated to the Castro County Library and are on display there.

These scrapbooks were compiled and entered into state Jaycee competition in 1962. The organization won second place in community development in their population division and third place in their division in publications which has reference to the club newspaper. Dimmitt's Jaycee Club falls into the under 5,000 division population wise, and there are 4 other divisions.

As a result of these scrapbooks and other award entries Pete Wright won third place as outstanding local president in his club's division and Ewing L. Mathis was runner-up in state-wide competition competing against all population divisions for outstanding club treasurer.

Jaycee scrapbooks for the year 1961-1962 may be checked with a Castro County Library card. There are 11 of these books covering every phase of work, done by the Jaycees in the past year. Scrapbook titles are: Ways and Means, Community Health and Safety, Youth and Sports Activities, Civic and Community Improvement, Public Relations, Giesenberg Memorial Award Agriculture and Conservation, Inter-Club Relations and Extensions, Public Affairs, Internal Affairs, and Publications.

Low Grade Cotton Goes to Bagging

A pilot program aimed at diverting low-quality cotton and cotton by-products into a bagging material for cotton bales has been announced by the U. S. Department of Agriculture.

The raw material for the bagging would come largely from the short fibers removed from cotton during ginning by lint cleaners. This lint, much of it now burned at gins, can be combined with other cotton-by-products or low-grade cotton to make serviceable cotton bagging.

Under the pilot program, a payment of \$1 per bale will be made for the use of all-cotton bagging, up to a maximum of 100,000 bales. Payment will be from funds provided by Public Law 320. The program will begin on a date to be announced and terminate with the

respect to the use of the bagging and filing of claims on June 30, 1963. Studies will be made during the operation of the program to determine the practical and economical value of this bagging.

The cost of the bagging will exceed that for jute which is now used. Producer organizations have indicated a willingness to assume part of the added cost during the initial stages of manufacturing and introduction of cotton bagging methods are developed, costs over the material competitive with other types of bagging. In addition, the used cotton bagging will have a greater re-use value than the present jute bagging, the USDA officials said.

Details on the pilot program, including instructions for making application to participate, may be obtained from the Cotton Division, Agricultural Marketing Service, USDA, Washington 25, D.C.
