Work Begins Soon On Million Dollar Gas Plant at Silver

Construction work on Sun Oil company's pressure maintenance gas plant at Silver is expected to start within the next month, according to John Shimer, assistant engineer and plant supervisor.

J. F. Pritchard & Co. of Kansas City has the contract to build the million dollar plant. They will employ a big force of workmen and the project will be rushed to completion.

Under construction now are 15 dwelling houses to be occupied by permanent employees of the gas department. This camp is located a half mile north of the Silver school house on W. I. Tubb property. A new paved road is being built through the Allen and Fred Jameson leases to the gas plant site, a distance of nearly two miles south of the east-west county road leading into Silver. The new plant will be constructed on land leased to Sun by Fred Jameson.

Already delivered are two enormous compression engines, and a third one is expected soon. They are Cooper-Bessemer GMV-10's and will develop 1,100 h. p. each. The engines weigh 115,000 pounds each and the weight will increase to 140,000 pounds after the compressor cylinders are attached. A large amount of pipe has also been delivered on the site of the new gas plant.

The plant will utilize the large volume of gas which is now being flared. Liquids will be extracted for the manufacture of butane and natural gasoline, with the dry gas being returned to the oil producing reservoir in the earth. Installation of the pressure maintenance plant will prolong the life of the field a number of years.

Mr. Shimer has a wife and three children, who remained at Sun Field in Starr county until a home is ready for them at Silver. J. C. Rennels, material man for the gas division, recently arrived at Silver. He has a wife and small daughter.

Sweetwater Negro Held For Robbery at Bronte

Sheriff Paul Good announces that Johnny Johnson, 20 year old Sweetwater Negro, has confessed to a recent robbery at the E. L. Caperton home in Bronte.

He admitted stealing a car in Sweetwater and drove as far as Bronte when the machine stalled. Some time during the day he entered the Caperton home and stole two watches, a purse containing valuable papers and several other articles. The family was away from home at the time.

Johnson was apprehended by Sweetwater authorities on the car theft and his connection with the Bronte crime was discovered after he had sold the stolen articles. All the stolen goods were returned to the Capertons.

He is now in jail at Sweetwater and will be brought to Robert Lee this week to await a district court hearing.

It's another boy for Mr and Mrs. W. T. Roach of Robert Lee. Glenn Pierce, weighing 6 pounds, 11 ounces, was born at 9:06 p. m. Tuesday, Sept. 28, at Shannon hospital in San Angelo. The Roach's have another son, William Rankin, 2 1/2 years old.

For Sale—20 x 20 garage. Roof decked solid. \$250. Halt the Sears Roebuck price Arnold Samuelson.

Oil Worker Loses Finger

Ogden McGinley received a crushed hand and the loss of the index finger of his right hand a short time ago. McGinley was working on a Morris & Hamilton drilling rig near Silver when the accident occurred.

E. L. Reid of Grannis, Ark., is here for a visit with his parents, Mr. and Mrs. J. L. Reid, Sr. at Sanco. He plans to remain for sometime and will do carpenter work.

Mr. and Mrs. C. E. Calder are the parents of an 8 pound daughter born Sept. 23 at the Bronte hospital. They have two little sons. Mrs. Calder is the former Dorothy Casey, daughter of Mr. and Mrs. Martin Casey.

To Build New City Hall and Fire Station

City commissioners have adopted plans for a city hall and fire station to be constructed this fall. The new building will be of tile and concrete, 25 feet wide and 50 feet long.

It will occupy the site of the present city building facing the court house. The old building will be moved back and later sold.

A room 20 by 24 feet will be built for the fire station on the east side. A 4-foot hallway will go back along the west side of the structure to the city offices taking up a space of 26 by 25 feet.

Cost of the new building is estimated at \$4,000. Since the fire truck was turned over to the county after it was purchased by individual subscriptions of \$3,500, the county has agreed to buy the fire station section of the building for \$2,000.

Notes from the Oil Field

No. 1 Fred McCabe, Southern Minerals wildcat ten miles southwest of Robert Lee, was drilling ahead below 3,833 feet Thursday after being shut down 24 hours because of engine trouble and a fishing job.

No. 3 M. G. Reed was drilling Thursday morning in hard black shale at 4,660 feet. Location is a north offset to No. 1 Reed, Ellenburger discovery producer, 11 miles southeast of Robert Lee. Seaboard-Southern Minerals are joint operators.

No. 2 Ralph Harris Estate was drilling yesterday below 5,600 feet in shale. It is across the river south of Silver and is one location east of No. 1 Harris Estate which is pumping 30 barrels daily from a sand section at 5,800 feet. It joins the Sun block on the east. Operators are Chapel Hill Gas System and M. J. Delaney of Dallas is the drilling contractor.

J. C. Spaulding, Sun Oil company's drilling mud expert, has been called back to Coke county to lend his technical advice for a period. He was stationed here for some time last year.

Moving to Colorado City

The Norman Baugh family is moving to Colorado City this week and will also move their house. Mr. Baugh is employed as a heavy equipment operator by the Younger Construction Co. Since Youngers are doing work for Sun Oil Co. in Mitchell, Scurry and Nolan counties, as well as Coke, their crews can work more advantageously out of Colorado City.

Grid Fans Await Robert Lee-Bronte Tilt Friday Night

Coke county football fans are eagerly awaiting the big game at Bronte Friday night of this week when the Robert Lee Steers clash with the Bronte Longhorns. It will be the first night game ever played at Bronte. Lights for the athletic field were installed the past summer, the project having been sponsored by the Lions club.

Bronte and Robert Lee meet twice each year and they are the biggest games on each school's schedule because of the traditional rivalry. Only the second game counts in the conference standing and this contest will be played in Robert Lee on Thanksgiving afternoon, Nov. 25.

The Steers held the upper hand for several seasons until 1947 when Bronte took both games easily and won the conference title without a defeat. The Longhorns lost eight men and their new coach, W. N. Gaddy, is having to build back with a number of inexperienced players.

However, Bronte sprang a surprise in their first game by licking Ozona 12 to 6. Last week they lost at Melvin 26 to 0, but Melvin has a bunch of speedsters and is considered one of the best small school gridiron outfits in West Texas.

Robert Lee, too, is having to use a number of new men after graduation the past two years just about depleted the Steer corral. A pretty tough first string can be counted upon, but reserve strength is lacking. Robert Lee opened the season by losing to Baird 7-6 and the next week defeated Eldorado 7-0. They had an open date last week and are in good physical condition for the Bronte engagement.

Mike Hughes, in his first year as coach, seems to be doing a splendid job. His team is showing improvement right along, and he is admired and respected by the players and the entire community. The small squad has been growing and 23 men were out for practice Tuesday night.

Bill Blair, rangy tackler, is playing his third and last year as a regular. Bill also is used as a line backer on defense and you'll see him on the receiving end of some forward passes. Frankie Percifull and Royce Smith are two other faithfuls, who worked hard and developed into fine players.

Another big addition (and we do mean BIG) is John L. Bruton, tackle and line backer. John was ineligible last season as he had just moved here from Silverton. He weighs 235 pounds, likes to play football and listens to advice from the coach. Comment on other members of the team will follow in future issues of The Observer.

Allen Sparks returned Tuesday after a stay of several weeks in a Lubbock hospital. He was successfully treated for an abscess on the liver and is recovering nicely. He was brought to Robert Lee by his aunts, Mrs. D. C. Harmon and Mrs. J. M. Cobb, of Hobbs, N. Mex. Allen makes his home with his grandparents, Mr. and Mrs. J. C. Cobb. He will not be able to return to school until the second semester.

Mrs. J. S. Augustine, Jr. and children, Johnny and Brenda, of Sterling City spent last Friday night with the former's mother, Mrs. Ethel Green. Johnny remained for a week's visit.

Bowling Alley Opens

After being closed during the summer months, W. R. Mathews will reopen his Robert Lee bowling emporium Friday, Oct. 1. Each of the four alleys has been refinished and other improvements made about this popular recreation center.

Mrs. A. E. Latham, Mrs. W. M. Summers and Jimmie Wright of Colorado City spent the weekend in Roswell, N. Mex., with the Lee Lathams. Mrs. Lee Latham and daughter, Monnette, returned to Robert Lee with them and Lee plans to join them here this weekend.

Randell Harmon has enlisted in the Coast Guard and expects to be called for duty in the near future. Randell is a son of Commissioner and Mrs. T. R. Harmon and graduated from Robert Lee high school in 1947.

Lassiter Test To Try Ellenburger

While prospects of extending the Lassiter oil field three miles west and north of Sanco are not too encouraging, there is still hope. No. 2 Lassiter was drilling Thursday at 6,778 feet and is expected to top the Ellenburger within a few more feet.

It is a northeast diagonal offset to No. 1 Jack Lassiter, discovery well brought in a few months ago by Allen Guiberson. No. 1 is producing from the Marble Falls from 6,495-6,520 feet and is making its daily allowable of 127 barrels. The No. 2 test had some promising cores in the Marble Falls, but failed to recover oil on drillstem tests.

No. 1 B. D. Gartman, a west offset to No. 1 Lassiter, has recovered only a fair show in the Marble Falls. Drilling has been suspended waiting to see what No. 2 finds in the Ellenburger. Operators have stated that pipe will be set in both tests. The formation appears very tight, but there is a chance that acid treatment would stimulate the oil flow.

More tests in the Lassiter field have been assured. The Longhorn rig now on No. 2 Lassiter will be moved to No. 1 Marvin Simpson, a south offset to No. 1 Lassiter. C. W. Sharp is the operator on the Gartman test and his contract with Guiberson also calls for a test on Lassiter land across the road south of Gartman.

New Insurance Agency

A new insurance agency has been opened in Robert Lee by L. B. Mahon, well known local resident. He will have a general agency, writing all kinds of insurance risks. Mahon has his office at present with Bill Ratliff.

Bud Maxwell of Bronte is driving a new 2-door custom built Ford sedan which he purchased last week from Ivey Motor Co.

Lumber eight and nine cents a foot. Will help you build it yourself. Planning and estimating service. Arnold Samuelson

Gilbert Wallace of Pecos visited here the first of the week with relatives. He was enroute home from Kerrville where he looked over a business proposition.

For Sale—Gray horse 6 years old, good roping horse and gentle saddle horse. Hurry boys, I'm out of oats. Sam H. Chapman.

For Sale—Purebred Rambouillet bucks. G. C. Allen. 16w2

Mr. and Mrs. R. C. Russell recently motored through the southern part of the state and went down to Monterey, Mexico.

Sun Plugs Test South of River; Finals 2 Producers

Official 24-hour tests through quarter inch choke have been filed by Sun Oil company on their two latest producers at Silver. No. 8 Fred Jameson was gauged at 315 barrels, while No. 8 C. E. Mathers was rated at 184 barrels. Both flowed naturally and are producing from the Pennsylvanian between 6,100 and 6,400 feet.

Interest will soon be centered on Sun's No. 1 Beatrice Anderson test a half mile north of the Silver school house, where the Ray-Harris Drilling Co. reported a depth of 5,651 feet Thursday morning. No. 1 Anderson is an east offset to No. 1 Tubb-Omega, recently completed producer on W. I. Tubb property. The location is also less than a half mile west and north of a 4,670 foot hole drilled in the fall of 1930 by Arkansas Fuel Co. The Anderson place is a part of the old Stepp ranch.

Sun last week plugged and abandoned No. 2 J. B. Walker on the south side of the river after recovering 180 feet of sulphur water on a drillstem test, with bottom at 7,168 feet. The Ellenburger was topped at 7,043 feet. No. 2 Walker is 1,320 east of No. 1 Walker, high producing discovery well one mile south of the Colorado River. No. 3 Walker, one location northeast toward the river from No. 1, also made a good well. Both No. 1 and No. 3 rated 440 barrels.

The Baker-Taylor rotary rig was moved from No. 2 to No. 4 Walker, one location north of the No. 3 producer. Contractors spudded Monday evening and after cementing 9 5/8 inch pipe to a depth of 600 feet were drilling ahead Thursday morning at 700 feet in redbeds and shale.

No. 13 Homer Jameson was drilling Thursday in shale and sand at 5,450 feet.

No. 9 Mathers had reached 2,178 feet in shale.

No. 1 Jewell Brannen was drilling in shale at 2,810 feet.

Unable to remove stuck driller collars and bit, No. 1 P. W. Milligan, Sun's wildcat 3 miles west of Edith, had plugged back Thursday and was preparing to whipstock around fish. The depth of hole is 6,787 feet.

No. 1 Mammie Haney, Sun wildcat near Maryneal, was drilling Thursday in sand at 5,340 feet.

Sun's No. 2 Ellwood Estate on Spade ranch in Mitchell county, was drilling Thursday in granite wash at 8,631 feet.

Sun's No. 1 Nettie Johnson, wildcat 12 miles northeast of Sweetwater, was plugged and abandoned this week. H & L Truck Co. is moving Geophysical Drilling company's rotary rig to No. 1 W. T. Helms, a new wildcat field in the northeast corner of Scurry county which will be explored by Sun.

Leslie Lotton and family moved this week to the Mrs. J. K. Lofton farm, southwest of town. Leslie will also operate his father's place the coming year.

Mrs. Summer Cragin is improving at Shannon hospital where she has been a patient the past ten days.

Jeff Blair and family have moved to Robert Lee for the school year and have taken an apartment in the home of Mrs. Cox. Mr. Blair is foreman of the Foster Sims Price ranch between Sanco and Silver.

WEEKLY NEWS ANALYSIS

Indian Troops Invade Hyderabad, Endanger Country's Shaky Peace; Russia Confuses Crisis in Berlin

By Bill Schoentgen, WNU Staff Writer

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

INVASION: Hyderabad

Events in India were a far cry from the days when Mohandas Gandhi's philosophy of passive diplomacy prevailed among the affairs of that sub-continent.

Indian troops, strongly supported by armored units, had invaded the princely state of Hyderabad (see map) whose Moslem ruler—called the Nizam—had refused to join with the other Indian dominions even though Hyderabad's population is predominantly Hindu.

THAT WAS THE whole story. The Nizam and his small, compact Moslem court would not agree to follow the other Indian princely states in acceding to the Dominion of India which was established last year.

The Nizam, often called the richest man in the world, and the only surviving heir of the great Mogul empire, wanted to rule an independent Hyderabad.

Whether he could have succeeded in doing that, even if the dominion government had not opened hostilities against him, is questionable. Hyderabad is completely landlocked and has no access to the sea except by courtesy of the states surrounding it. All of its imports and exports, therefore, must pass through India.

WHILE HYDERABAD might profess its independence as a state, chances are that the economic and political conditions of actual independence never could be achieved.

Can India's invasion of Hyderabad be justified? Not too easily, if at all. It was not a matter of sending a police force into the state to quell internal disorders. It was, apparently, a deliberate act of aggression and as such should go before the U. N. security council for judgment.

From a practical standpoint there was not only no need for the invasion but there is an actual danger

involved. There are no linguistic or racial differences between Hyderabad's Hindus and the Hindus of adjacent states. The boundaries of Hyderabad are arbitrary and historical, not dependent upon the geography of the vicinity.

INDIA MIGHT well have refrained from pushing the issue for a year or two, pending a peaceful settlement.

The potential danger lies in two phases of the situation:

1. **THE HYDERABAD** war might prove to be the factor that will precipitate violent conflict between Hindu and Moslem Pakistan, whose more or less peaceful relations now are strained and uneasy.

2. **IT IS A BLOW** to the British Commonwealth, to which both India and Pakistan still belong. With the Russians acting the way they are, any disturbance of the delicate balance of power that still prevails in the East could bring still another catastrophe down upon the world.

RUSSIANS: Fantastic

Not even the most starry-eyed Pollyana could deny that the U. S.-Soviet fracas over Berlin was downright fantastic and getting more so every day.

The whole thing simply had stopped making sense, even to many of the diplomats who were embroiled in the situation.

WHAT CHANCE was there for any logical kind of peace when, even while western diplomats were in Moscow attempting to work out a formula with Soviet Foreign Minister Molotov, the Russians in Berlin were inciting riots, kidnapping western sector policemen and firing on American planes engaged in the airlift?

One complication was being piled on top of another, with the ensuing result that any possibility of a peace-

The Last Mogul

Sir Mir Osman Ali Khan, sometimes called the richest man in the world, is the Nizam of Hyderabad, land-locked princely state in India which was attacked by India's dominion troops.

ful solution was getting buried deeper and deeper.

That all this confusion was being fostered deliberately by the Soviets was quite evident. Their purpose for so doing was more obscure.

THE RUSSIANS want full control of Berlin, taking that as their immediate objective. Ultimately they want to force American occupation troops completely out of Germany, after which Russia could take over the great German industrial potential, including the inestimably valuable Ruhr section.

However, there might be still another reason for this display of Soviet diplomatic aggression which was planned almost a year ago to erupt this fall.

The Russians might be trying to harass the western nations to the point where the entire Berlin issue will be dumped in the lap of the United Nations. Once the crisis comes under U. N. jurisdiction the Russians might plan to use the inevitable squabble as a pretext for resigning from the world organization and taking their satellite states with them.

THE EAST-WEST split into two opposing power spheres then would be complete. Moreover, the U. N. itself probably would be reduced to total impotency in guiding international affairs.

And the question of whether the Soviet Union is entertaining motives like these might be answered by the end of the year. For the western nations were determined that if they didn't get some satisfaction from Moscow soon they would arraign Russia before the United Nations this fall.

COTTON:

Lift Dat Bale

With the largest cotton crop since 1937 being harvested this year, Uncle Sam is making ready to stage a comeback in the cotton buying business.

Of the 15,219,000 bales to come off the land, the cotton trade estimates that about a third will go into storage under federal loan.

TWENTY-ONE MILLION people in the United States depend on cotton for their livelihood, and the fate of the cotton crop, therefore, is not only a personal but a national concern.

The federal government is coming into the picture because cotton prices are coming down. They have reached 31.04 cents a pound, which is pretty close to the support floor of 30.74 cents.

Here's what happens:

WHEN THE COTTON grower hauls his crop to the warehouse he gets a receipt for it, and then he either sells the cotton at the market price or accepts the government's standing offer to lend him money on it.

If he chooses to accept the loan, he is paid 30.74 cents a pound on the average—the exact price depending on the kind and quality of the cotton.

Then he is free, for one year, to sell the cotton for more money, provided the price goes up. If he does not sell it within a year the government becomes owner of the crop.

PROBABLE EFFECT of this operation will be to keep a lot of cotton off the market this year, thus preventing the price from dropping through the support floor. Also, it will result in the government's ending the year with several million bales of cotton on its hands.

BIG FOUR: Or Little 14?

The U. S. government's spectacular suit against the "big four" meat packing companies—Swift, Armour, Cudahy and Wilson—promised to be one of the biggest anti-trust actions since President Theodore Roosevelt said something about carrying a big stick.

Filed by the justice department in federal court in Chicago, the suit asks that the four companies be broken up into 14 separate firms. Specifically, the U. S. wants Swift and Armour to be carved into five separate companies each and Wilson and Cudahy each to be split into two firms.

TOM CLARK, attorney general, said in a statement: "The four defendants named in the complaint are charged with suppressing competition in the sale of meat and meat products." The Sherman anti-trust law is being invoked in the action.

Clark described the suit as "another in a series of cases instituted by the department of justice in furtherance of its program to free the production and sale of food and food products from monopolistic restraints."

THE PACKERS had another story to tell, however, with "playing politics," as one of their key phrases.

Said John Holmes, president of Swift and company: "It is significant that the charges appear at the beginning of this fall's political campaign. Apparently an attempt is being made to shift responsibility for inflationary price trends."

"No one can control either livestock prices or meat prices," Holmes fumed.

INFRA-RED:

Frost Killer

The day—or night—of the old-fashioned smudge pot as the main buffer between plants and killing frost may be nearing an end.

Science has taken over to come up with a new kind of frost killer, development of which was sponsored by the American Iron and Steel institute.

THE CONTRAPTION, known as the Plymouth infra-red lamp, is in a fair way to affect materially the nation's agricultural system, the institute thinks.

Reporting on the new device, the institute pointed out that while farmers will find the lamp invaluable in saving crops during the first touches of frost, the growing season actually may be extended as techniques for its use are developed.

Dr. Arthur W. Farrell of Michigan State college, one of the men responsible for development of the infra-red machine, cited an example: "On September 2, 1946, to take one example, Michigan had a two-hour killing frost. The next frost did not occur until October 1, a month later. Had tomato and melon growers been able to protect their crops for about two hours on the morning of September 2, they would have had four more weeks of very favorable growing weather. As it was, they lost everything."

"THE FROST dispeller, made up of sheet steel and a little ingenuity, will put an end to some of nature's nonsense."

The lamp is composed of a circular piece of stainless steel, shaped in cone-shaped steps, with an oil burner within the framework. When the burner is put into action, the steel heats until it becomes cherry-red. At this point, infra-red rays are thrown off, spreading over the area to be warmed, even entering the ground in their intensity.

Headliners

IN PASADENA . . . Michael Beal 83, (above) received a 30-day suspended sentence for being drunk and disturbing the peace after he had propelled his wheelchair up and down sidewalks at a furious rate of speed, hurling invective and profanity at all comers.

IN GREAT FALLS, Mont. . . Members of the Cascade county Democratic central committee voiced no objection when Ray Wise, a Republican, submitted his resignation after being elected Democratic precinct committeeman.

IN EAST PRAIRIE, Mo. . . A. L. Webb cleaned out his desk, came across a letter his wife had given him to mail 11 years ago, shuddered at the possible consequences, finally mailed the letter.

Too Many Farmers?

WHY, with the increased demand for farm products and the fact that farming is more prosperous than ever before in its history, is there a continual and rapid decrease in farm population?

The bureau of agricultural economics in answer to that question told this reporter that the basic reason is simply that there are too many farmers. As a matter of fact, the farmers can do the job they are doing with many less farmers than there are today.

Actual farm population of the country as of January 1 this year was 27,439,000 which is a decrease of three million since 1940. So in seven years there was a migration of three million persons away from the farms and to the cities.

Even so, there are still more than enough farmers to do the gigantic job of production which has been asked of the farmers of the nation, for one out of every three adult per-

sons who live on farms has either a part-time or full-time job in the cities and towns.

In 1944 which was one of the peak years of farm production there were only 25,630,000 persons living on farms, the main reason being that the young men had gone to war.

There simply isn't room enough or work enough on the farms to take up the population born on farms. Farm population would double itself in a generation. The birth rate in the rural areas is 19.1 as compared to 17.1 in urban areas to every 1,000.

For three decades, technological development, increased yields per acre despite rapid population increases of the nation as a whole and consequent increased demands for more food, have brought about a trend of migration away from the farms. And were it not for the higher standard of living brought about by the advent of electricity and other conveniences on farms, this migration would be even more rapid than it is today.

Machine and power tools, better housing and schools, the automobile—all have been a deterrant to prevent this out-farm movement, but it hasn't been enough and the simple fact remains that the nation still could do with fewer farmers and still produce sufficient quantities of food to feed the country and part of the world.

Even back in 1930 when there were not many jobs in cities, one out of seven farmers went to the cities to work. In 1940 one out of five farmers worked in cities and towns and as pointed out above, today one out of three adults make their living or part of it working off the farms. While this migration has been mostly from the smaller and less economically prosperous farms, even on large commercial farms and the better family-size farms the ratio of adults working in the cities holds good. . . .

Cabinet Post

Many of the political dopsters here say that the next secretary of agriculture, if Governor Dewey is elected, will be Congressman Clifford Hope of Kansas, chairman of the house agricultural committee.

Probably standing head and shoulders above Congressman Hope as a statesman is Sen. George D. Aiken (Rep. Vt.), who will head the senate agricultural committee in the 81st congress, and who is author of the new long-range farm bill. But Senator Aiken is too independent and too liberal.

This column predicts the next secretary of agriculture, provided, of course, Dewey is the choice of the people, will be someone like Milton Eisenhower, president of Kansas State college and brother of Gen. Dwight Eisenhower.

Practical Wood Shelf Adds Decorative Note

THE Wedgwood narrow shelf illustrated above is designed for use over sink, stove or in the bathroom. On it you can keep the many small articles you're always taking extra steps to reach. It not only provides a handy and practical amount of extra shelf space but it also adds a decorative note to the room.

The full size pattern offered above is traced on the wood which the pattern specifies. Then saw and assemble. A really professional note is obtained by placing upholsterer's tacks on shelf where pattern indicates.

Send 25 cents for Wedgwood Shelf Pattern No. 4 to Easi-Bild Pattern Co., Dept. W, Pleasantville, N. Y.

Leaning Tower of Pisa
One of the most famous towers is the Leaning Tower of Pisa, in Italy. Galileo in 1599 used the Leaning Tower for his experiments investigating the force of gravity. Although it has been said that the architect intended that the tower should lean, there are considerable evidences that this is not so but that the great weight of the tower, on inadequate wooden pilings in soft soil, caused the structure to lean after the work was begun.

PTA Announces New Committees

The Parents-Teachers association met Sept. 23 at the high school auditorium, with Mrs. Sam Powell presiding. Mrs. Powell was elevated to the office of president, following the resignation of Mrs. T. M. Wylie, Jr. Mrs. McNeil Wylie was elected vice president.

Thirty-eight persons attended the meeting, while dues have been paid by 63. The Rev. Ross Welch gave the opening prayer and group singing was led by Mrs. Jessie Yarbrough. Supt. B. C. Goodwin spoke on the valuation of a school.

It was voted to have a Halloween Carnival again this year to raise funds for school purposes, and plans for the event were discussed. Following a motion by Mrs. Marvin Simpson the group voted \$250 for new books for the

school library.

Committee appointments were announced as follows:

Finance and Project—Mrs. Willis Smith, Supt. Goodwin, Mrs. Bob Odum.

Special—Mrs. Frank Perciful, Mrs. Ralph Garvin, Mrs. Fred McCabe.

Hospitality—Mrs. Tom Schooler, Mrs. C. C. Harwell, Mrs. A. W. Littlefield.

Membership—Mrs. McNeil Wylie, Mrs. Delmir Sheppard, Mrs. Paul Killam

Program—Mrs. Marvin Simpson, Rev. Ross Welch, Mr. Madison.

Publicity—Miss Eunice McLure.

Parliamentarian—Mrs. Jessie Yarbrough.

Historian—Mrs. Viola Gramling.

SANCO NEWS

By Mrs. Sam Fowler

Well, I wouldn't say it looks natural, but will say it looked good to see water running again at Sanco. Still some mud holes around

Singers from far and near gathered at Sanco Sunday and from what I hear put everything into their songs. Had some good singing and a fine dinner.

Bro. Wright preaches at Sanco next Sunday at 11 a. m. and 4 p. m. Special music also. Everyone invited.

John Cole and wife were at Sanco Sunday for the singing and visited with the Carwiles.

Last week Ernie Carwile of Sterling City visited with her folks several days. On Sunday the Robertsons of Abilene came over. Mrs. Robertson is the former Lela Cole of near Sanco.

Charles Fowler and wife spent Sunday in San Angelo with the Thomasons and McCutchens.

Elie Reid from Arkansas is at Sanco visiting.

Glad to have Mr. and Mrs. Teddy Pitcock and son back among Sanco folks. They have moved in a house which has been remodeled and they are now living in it on the Bryan Gartman place.

Leon Leonards and the Norman Baughs have moved to Colorado City.

October 10, the second Sunday of the month, Bro. McLeod will preach at the Sanco Baptist church. He is a member of the teaching faculty of the Robert Lee schools

Notes

from the

Oil Field

Joe Steward, who handles tools for Morris-Hamilton Drilling Co. in the Jameson field at Silver, is now living in Loraine. Joe formerly had a trailer house here but after the twins were born last spring they needed more room. They moved to Colorado City early in the summer and recently rented a furnished home at Loraine. Joe wanted to come back to Robert Lee but couldn't find a suitable house. He says rent and groceries are higher in Colorado City than they are in Robert Lee.

Roy Whitley is the new tool pusher for Exploration Drilling Co. at Seaboard-Southern Minerals No. 3 M. G. Reed, 10 miles southeast of Robert Lee. Roy recently moved his family to Abilene.

Dave Harris was out from Dallas several days last week and was accompanied by his father-in-law, B. B. Pruitt of Kilgore. The latter is a long time employee of the Texas Oil Co. and will be eligible for retirement in a couple of years. Dave says his little five-year-old daughter, Susan, recently started school in Dallas. Susan said she wouldn't mind kindergarten this year, but next year she wants to go to college. She's a honey.

A new production foreman now on duty with Sun Oil company at Silver is R. K. Beggs, transferred here from Brookhaven, Miss. Mr. Beggs is married and has a son, Kenney, three years old. The family will occupy one of the Arnold Samuelson houses in Robert Lee.

Guess I'll pay off Hubert Buchanan who wagered that Al Hill's No. 1 Ralph Harris Estate would be a producer. For the past month it has been making 30 barrels a day under pump. Production is from a sand section just above 5,800 feet. Several of the Sun tests in the Jameson field have had oil shows from a similar section.

Sun Opens Abilene Office

The Abilene Reporter-News last

STATEMENT of the ownership, management, circulation, etc., required by the Acts of Congress of Aug. 24, 1912, and March 3, 1933 of The Robert Lee Observer published weekly at Robert Lee, Texas, for Oct. 1, 1948.

State of Texas, County of Coke, ss.

Before me, a notary public in and for the state and county aforesaid, personally appeared A. J. Kirkpatrick, who having been duly sworn according to law, says that he is the publisher, editor and owner of The Robert Lee Observer, and that the only security holder is the Robert Lee State Bank.

That the average number of copies of each issue of this publication sold or distributed through the mails or otherwise to paid subscribers during the 12 months preceding the date shown above is 940. (Signed) A. J. Kirkpatrick.

Sworn to and subscribed before me this 28th day of September, 1948.

(Seal) Garland Good
My commission expires June 1, 1949.

Sunday carried the following news item concerning Sun's new office opened there in the Garrison building on North Second street:

A new organizational setup in their field operations has brought a sub-district office of the Sun Oil Company of Philadelphia to Abilene. The company, which maintains a large office at Midland, has started a decentralization program resulting in the opening of sub-district offices here, at Amarillo, San Angelo, and one to be opened in New Mexico.

The Abilene district includes Stonewall, Fisher, Nolan, and Coke Counties, and everything east of those counties to Fort Worth. Present production in the district is in the Jameson and Arledge fields of Coke County, both of which were discovered by Sun. Deep wildcat wells are currently being drilled in Nolan and Fisher Counties.

J. B. Holstead, transferred here from Midland, is the district land man, and Dana Whitten, transferred here from San Angelo, is district geologist. Mercer Johnson,

scout, was transferred here from Tallahassee, Fla.

Garden Club Meeting

The El Valle garden club met Sept. 22 in the home of Mrs. J. K. Griffith with Miss Mettie Russell as co-hostess. Corsages of materials from their gardens were made and worn by the members.

A very interesting program was given with Mrs. O. B. Jacobs discussing garden bulbs. Mrs. F. C. Clark had liatris on display and explained the growth of the wild flower Mrs. H. C. Allen closed the program with an inspiring version of September garden work.

A tasty refreshment plate was served to 23 members and three guests. The club will Oct. 13 at 3 p. m. with Mrs. W. B. Clift.

Bruce Clift is getting around on crutches, following an accident two weeks ago when he fractured a bone in one of his feet. The injury resulted when he stepped on a rolling stone in the Bronte cemetery. Dr. John Harris treated the injury and placed the foot in a cast.

New Unit Improves Ventilation of Barn

Dairymen Find Device Particularly Effective

Many of a cow's troubles can be traced to heat and humidity. A cow, unlike a human being, can perspire only through the mouth. So when the temperature and humidity inside a barn get high, the animal becomes uncomfortable and stubborn, particularly at milking time.

According to the department of agriculture, an average cow gives off almost a pint of water every hour through breathing. In addition to the high humidity caused by this breathing, a cow has an extremely high body temperature.

During the winter months, when the cows are in the barn most of the time, this combination results in generation of an enormous amount of water vapor and heat. When the warm, moisture-laden air comes in contact with the cold walls, condensation occurs and frost is formed.

The net result to farmers is rotting beams, joist and siding; a loss of hay because of mold created by moisture and frost; milk contamination, disease, particularly among the young stock and reduction of milk production because of discomfort to cows.

A simple solution to all of these costly problems is an automatic cooling unit, which is proving popular with dairy farmers.

These automatic ventilation units, easily installed, reduce condensa-

Picture on Vernon Julins farm at Freeport, Ill., shows installation of automatic cooling unit in dairy barn.

tion to a negligible degree — less than 2 per cent. This action, in turn, decreases barn deterioration, hay mold, milk contamination and disease. It also provides much more comfort for the cows and increases milk production. In addition, working conditions for the operator are much more pleasant.

The cooling units are equipped with an automatic "airswitch" thermostat.

Higher Yields Outweigh Cattle Spraying Costs

An increase of \$3.75 per head more than covers the cost of spraying beef cattle with DDT, it was revealed in a test of the value of fly control conducted at the University of Illinois college of agriculture.

Protected cattle gained about 15 pounds more per head during the pasture season than a group that had not been sprayed. At 25 cents a pound, an increase of 15 pounds a head amounts to \$3.75 a head, a return that far outweighs the cost of spraying.

Beef cattle should be sprayed often enough to control flies, whether it requires two or three sprayings during the season or once a month.

Herds and Flocks

Use of 2, 4-D sprays for weed control in pastures is not dangerous to grazing animals.

A home-mixed spray of crude benzene hexachloride powder and water is more likely to taint eggs in poultry houses than a good commercial roost paint containing the effective portion of the same chemical.

Poultry houses with light colored roofs are cooler in summer than those with roofs painted black.

To get water to hogs in distant pasture where there is no water supply, pipes can be laid on top of the ground. To prevent freezing in winter, disconnect and drain the pipes.

news events PICTURES

BERLIN REDS TAKE OVER CITY HALL . . . Part of the huge mob of German Communists that took over the Berlin city hall, preventing the meeting of the city council, are shown here spilling through the entrance to the building. This Communist-inspired mob forced the city council to retreat to the British zone of Berlin where regular council sessions were held without Russian interference. Incidentally, the photographer who took this excellent photo, was later arrested. The Russians get a little camera-shy at times and make life miserable for American press photographers.

HAIL THE VICTOR . . . Comely Margaret Chase Smith, phoning, headed the list of victors in the smashing Republican victory in Maine's general election. Mrs. Smith received 75 per cent and a 97,000 majority of the tabulated votes. Happy Mrs. Smith is shown with friends as she receives congratulatory messages on her election to the U. S. senate. She is the first woman ever to be elected to the upper house of congress without having first served by appointment. Vote-getter Mrs. Smith has found the election-winning technique that other Republicans and Democrats are seeking so earnestly in preparation for November.

BUILDING A MONUMENT TO PEACE . . . Benjamin F. Cohen, acting secretary of the United Nations, takes the first shovelful of earth from the site of the United Nations' permanent home on New York's East river site. Cohen is hopeful that this "world capital" will succeed in maintaining peace. A \$65,000,000 loan for the construction of the building was approved by congress and the building now can proceed. In the ceremonial group are left to right: Hugo Rogers, borough president of Manhattan; Mayor William O'Dwyer, Cohen, City Comptroller Lazarus Joseph and Deputy Mayor John J. Bennett.

ASK ME ANOTHER? A General Quiz

- The Questions
1. How many permanent teeth does a man have?
 2. What does an orthodontist do?
 3. How much did the trial of former Premier Tojo and his aides cost?
 4. What state and what cities in the U. S. were named the "safest in the nation?"
 5. What state is known as the "Cracker state?"
 6. What term is applied to a horse that has never won a race?
 7. How much of the boundary between the United States and Canada is water?
 8. What is the size of a pitcher's plate in baseball?
 9. Which Biblical character freed his people with a slingshot?
 10. Does a male or female heart beat faster?

- The Answers
1. Thirty two.
 2. He straightens teeth.
 3. A record-breaking 20 million dollars.
 4. Connecticut; Oklahoma City, Okla. and Wilmington, Del.
 5. Georgia.
 6. A maiden.
 7. Close to three-fourths or almost 3,000 miles.
 8. Twenty-four inches by six inches.
 9. David.
 10. The female heart, which beats an extra eight to ten times a minute, or some 300 million times more in a lifetime.

SILVER NEWS

Gerald Millican, a student at Texas Tech, spent last weekend with his parents, Mr. and Mrs. D. M. Millican.

Mrs. Jerroll Sanders and her little daughter, Jane, of Houston are here for a three weeks visit with her parents, Mr. and Mrs. R. B. Allen.

Mr. C. G. Walker is at home after a few days stay in a San Angelo hospital.

Mr. and Mrs. A. E. Rose spent the weekend at Hereford with Mrs. Rose's parents, Mr. and Mrs. L. H. Shore. Syble, who has spent the past three weeks with her grandparents, returned home with them.

Among those attending the singing convention Sunday at Sanco were: Mr. and Mrs. C. E. Mathers and Chrystelle, Mr. and Mrs. Upton Mathers, Letha Mathers, Mrs. W. S. Powell, and Mrs. G. B. Gebhart and children.

Mrs. Kenneth Brown and Mrs. Charles Shelton of San Angelo were Tuesday guests of the S. V. Fants.

Mr. Fred L. Jones, who has been confined to a San Angelo hospital for sometime is much improved and has returned to his home.

Mr. and Mrs. Bill Allen and Glyn of Lubbock, Mr. and Mrs. R. D. Allen, Lurene and Travis Glyn of Vancourt, and Mr. and Mrs. Bill Archer and Lanny Bill of San Angelo, were weekend visitors of the R. B. Allens.

Mr. and Mrs. Frances Millican and girls of Spade were Silver visitors Sunday.

Vicki McCabe, who had her tonsils out Friday in a Roscoe hospital, is reported to be doing nicely.

Mrs. Curtis Walker entertained with a pink and blue shower at her home Friday for Mrs. Bunyan Millican.

New Society Organized

Ladies of the Silver Baptist Church and their friends and neighbors met at the home of Mrs. A. E. Rose last Tuesday at 3 o'clock to consider the organization of a Womans Missionary Union.

Other guests included Mrs. Gladys Hughes, Mrs. Elizabeth Brumlaw and Mrs. Struss Atkinson, all of Kermit, Texas, and Mrs. Wm O. McLeod of Abilene, who with the hostess, led in the organization.

After a brief get-acquainted game led by Mrs. G. B. Gebhart, Mrs. Brunlow brought a devotional followed by a presentation of just what a W. M. U. is by Mrs. Hughes. A discussion followed moderated by Mrs. Hughes which resulted in the birth of a W. M. S. to Silver Baptist Church. This organization joins hands with other Baptist women throughout the world in the spread of the Gospel of Christ. There will be two meetings each month, one a Bible Study and one a Mission Study. Officers elected to date are:

President, Mrs. A. E. Rose.
Secretary-Treas., Mrs. Jack Mowbray.

Bible Study Chairman, Mrs. H. H. Jameson.

Mission Study Chairman, Mrs. J. L. Legg.

The importance of their duties was stressed through an impressive installation service, wherein each lady beheld herself in a mirror. After a prayer the eyes of officers and all present focused on a "picture" of Christ.

Refreshments were served to the thirteen ladies and five children present.

At a business meeting of the W. M. S. at the church Wednesday night Mrs. Legg offered her home as for the next meeting which is to be on Monday, October 4 at 2:45.

All ladies of the community of Silver are cordially invited. The W. M. S. hopes to make arrangements in the near future for a nursery keeper during their hour of meeting. Plans are also in the hearts of Silver Baptists to, as soon as possible, complete the Missionary organizations through the organization of a G. A. for girls, an R. A. Chapter for boys and a Brotherhood for men.

Methodist News

Twenty-eight men were present for the organizational meeting of Methodist Men in the Methodist Church last Wednesday night. The Rev. Ray Johnson, pastor of First Methodist Church, San Angelo, brought the inspirational address.

The meal was served by the teacher and members of Mrs. W. B. Clift's Sunday school class. Proceeds will be used in furnishing a hospital room.

The men of the church will meet regularly on the third Wednesday night in each month. Elected to head the group were T. B. Hicks, B. C. Goodwin and Bryan Yarbrough.

New church school officers and teachers have been elected and will assume responsibility for their duties Sunday. B. C. Goodwin is the general superintendent. He will be assisted by J. L. Ross, who will also serve as teacher of the men's class.

Mrs. Ross Welch is the new superintendent of the Youth Division. Mrs. Chism Brown and Mrs. Freeman Clark are superintendent and assistant, respectively, of the Home Department.

Mr. and Mrs. Robert Madison are the new sponsors of the Methodist Youth Fellowship. Other officers and teachers remain the same.

The entire church family is invited to the Church Night program at the church next Wednesday night, October 6. Committees named to prepare for the evening's activities: Program, Mrs. Bryan Yarbrough, Mrs. Marvin Simpson, and Mrs. Freeman Clark; and Food, Mrs. B. W. Clift, Miss Mettie Russell and Mrs. R. S. Crum.

World Wide Communion Sunday will be observed in our church, October, 3. This is the occasion when Christians of many denominations around the world unite in observance of the Sacrament of the Lord's Supper.

The Methodist choir will start work soon in preparation for a Christmas cantata. Anyone who likes to sing who is not singing with another choir is invited to practice with the choir on Sunday evening following the worship service.

Church of Christ

East Side, Robert Lee
Regular services each Sunday, Bible Study at 10:15 a. m. Preaching and worship 11 to 12. Evening service at 4 p. m. The public is always welcome.—Ibus England, Pastor.

New Deal, Rural

"Extraordinary farm prosperity" was the apt description applied to the scene the presidential party encountered in its visit to Dexter, Iowa. In a nearby field were 52 planes of "flying farmers," and along highways were scores of expensive new automobiles of rural visitors to the National Plowing Contest. In the same region in the dark days of 1932 some of farmers with shotguns were setting up roadblocks against sheriffs armed with writs of foreclosure. Yet viewers-with-alarm voice misgivings that too many will leave the farm for the city—a migration no doubt deferred until another depression.—Ft. Worth Star-Telegram.

Chides G. O. P.

It is being told by Republicans who participated in the Dewey caravan from Greene county to Des Moines Monday afternoon—so it must be true:

The G. O. P. cars were all lined up on Main street waiting to start for Drake stadium. Two old fellows sitting in a doorway eyed the line-up with something less than enthusiasm. One remarked to his friend, "Humph! Cadillacs, Buicks—all bought with Democratic money."—Jefferson (Iowa) Herald.

Mrs. C. R. Burson returned last Friday to her home at Blythe, Calif., after a two weeks' visit with her parents, the L. B. Martins at Edith. Mrs. Burson is the former Ruby Martin.

Mrs. J. F. Robertson has returned to Robert Lee to make her home after visiting among her children the past year.

THE GARBLE SISTERS

"Did you ever see anything more exciting than those big league baseball races? The Yanks are doing great since they got McDowell and Nixon. And the loss of Mitchum didn't hurt Brooklyn much."
 "Orsen Welles and Lucius Clay are a big help to the Braves, if you ask me."
 "I see where Wilhelmina is out as queen of Yugoslavia after 50 years of bicycling."
 "Yeah. But Juliana is having trouble forming a new cabinet. The de Gaullists won't come in unless they get a new type of money. What's new in Berlin?"
 "The Big Four has finished its road tour and now has only home games. But it has too many double headers facing it under lights."
 "Truman is off on a big campaign trip. He is going to keep Washington open to the Democrats even if he has to fly supplies in by plane, they tell me."

"Do you think Dewey will lift the blockade?"
 "Only if the currency question is settled so Republican money will be as good as any other."
 "The spy probe seems to have slowed up a little."
 "I noticed that. Truman says he is opposed to it but at the same time he disapproves of throwing eggs at it."
 "What's new with Henry Wallace?"
 "Nothing, except that he denies he ever let Stassen lease his apartment or gave his old auto to J. Peters."
 "What do you make of that latest Hollywood scandal?"
 "More people smoke marijuana than ever before, I guess. But it looks like the producers have hired the best lawyer money can buy and will advise all reefer smokers to refuse to testify on the ground it will incriminate and degrade them."
 "Why don't they let him answer yes or no?"
 "They say the federal officers are a red herring to discredit that new movie."
 "What new movie?"
 "I forget whether it is called Marijuana or Son of Marijuana."

"Do you think it will be a campaign issue this November?"
 "No, there are too many other issues."
 "What are they?"
 "Oh, Truman is for less relief pitching, more enamel on new auto bodies and federal control of Leo Durocher. Dewey thinks a main cause of our troubles is too many bases on balls."
 "What does Wallace stand for?"
 "He wants to plow under every third tomato."

A haze on the far horizon,
 The infinite tender sky;
 The ripe rich tint of the corn-fields
 And the wild geese sailing high;
 And all over sport pages
 Youth leaping with grimace wild...
 To prove that the summer's over
 And football is back, my child.

It develops that Lee Shubert had been married 12 years and kept it a complete secret. Now we know why Winchell was barred from the Shubert theaters.

And Lee was always telling the musical comedy authors, "The story is no good unless it winds up in marriage and it's all announced in a big finale with toasts and everything... You can't leave the audience in suspense."

"Comet Discovered at Yale."—Headline.

Will it be used in the backfield or in the line?

VANISHING AMERICANISMS...
 "Let's be fair about this..."
 "If we are wrong we'll gladly say so..."
 "No lady poses with a schooner of beer in her hand..."
 "The boss ain't a bad guy at heart..."

A scientist says the world is going to turn turtle, due to an increasing icecap in the Polar regions. We were under the impression it had already happened.

All-Time Best Seller
 Lesson for October 3, 1948

IF ALL the Bibles sold in one year by one manufacturer, the American Bible society, were piled on top of one another, flat—not endwise—that pile of Bibles and testaments would be 26 miles high. In 1947 that firm put out the astonishing total of 9,310,439 Bibles, testaments or portions. During the first 125 years of the society's existence, 305,579,217 copies of Scripture were printed and sold by them; this would make one shelf 870 miles long.
 The Bible is the best selling book in the world. No other book is in its class.

Not to know the Bible is not to know the most widely read book in the world. The American Bible society publishes it in only 167 languages, but parts of it have been translated into as many as 1,000 languages and dialects.

Many Authors
 SUCH popularity must be deserved. There are many reasons why the Bible continues to be, year after year, the all-time best seller. But one of the reasons is its impressive variety. It is not one book, it is a library of books.

A Christian will try seriously to appreciate the whole Bible and not merely one or two parts of it. Yet there is such variety in it that invariably some persons are attracted by one feature of it while another feature makes stronger appeal to others.

Our studies these next three months will be in "The Literature of the Bible" and each week we shall be noticing a different feature. This week we give a thought to the tremendous variety of the Bible, along with its underlying unity.

Many Types
 LOOKING through the Bible you find all varieties of literary types; you find poetry and prose; stories, essays, sermons, biographies, dramas; rhapsodies, love songs, funeral dirges and battle hymns.

Here are pages as prosaic as a telephone book and here are pages more exciting than any fiction. Here are simple, straightforward ideas that a child can understand as soon as he understands the words and here are mysteries so profound that the world's mightiest and boldest minds shrink back in awe.

Many Times
 NO ONE knows exactly how long it took for the Bible to be written. Let us suppose that the earliest parts came from the pen (or stylus) of Moses, and the latest part from about 100 years after Christ (John and the Revelation). If Moses flourished around 1200 B. C., that would mean that the Bible was completed 13 centuries after it was begun.

In 13 centuries much can happen, and much did. There is hardly any circumstance or crisis, there is scarcely any time, however humdrum or thrilling, which does not have its match in the Bible.

One Theme
 FOR all the vast variety of the Bible, there is in it a deep and lofty unity. It is bound together by its mighty purpose, which throbbled in the heart's blood of every man who wrote a line of it. That purpose is to make God real to man, and to bring man to God.

They wrote under the irresistible impulse, born of the Holy Spirit, to make plain to other men what God had revealed to them.
 So as you come to the Bible, remember its purpose is not to make you admire or revere it as a book; its great purpose is to be transparent, a window through which you shall see God.

John Saul Heirs Sue Harris Estate For River Ranch

Heirs of the late John Saul have filed suit in the district court of Coke county to recover title to 15,834 acres of Coke county ranch land. The former Saul ranch lies along the Colorado River, starting several miles above Robert Lee and is now known as the Ralph Harris River Ranch.

Plaintiffs in the lawsuit are the four Saul children, Mrs Louise Saul Overton, John Saul, Jr. and Gene and Jack Saul. The suit is against Mrs. Sadie G. Harris, widow of the late Ralph Harris, and her children, Mrs. Helen Harris Weaver and Ralph Harris, Jr. They are designated as executors of the will of Ralph Harris, deceased.

It is one of the biggest civil suits ever filed in Coke county. At present prices the big ranch has a valuation of a half million dollars, while oil and gas royalties might be developed into many times that figure. The suit is also directed to include Union Oil Co., Lyda Hill Trust Estate and Albert Hill Trust, which concerns hold oil leases on the property.

The court petition states that the late John Saul died Feb. 15, 1933, owning the ranch of 15,834.35 acres and two weeks later his widow, Josephine Saul, qualified as administratrix of the community estate. It further states that while she was so acting J. S. Gardner on Feb. 29, 1936, filed application in Coke county probate court to be appointed administrator of the separate estate of John Saul, deceased. On March 16, 1936, he was appointed such administrator.

It is alleged that on April 21 Gardner filed application to sell the real estate. Thereafter on May 4 the court entered a purported order undertaking to authorize said administrator to sell as a whole or in parcels at private sale for cash or credit allowed by law.

The petition states that on May 7, 1936, the said J. S. Gardner filed his report of sale to R. H. Harris in consideration of \$122,222.26, of which the sum of \$25,970 was in cash and the balance was represented by cancellation and surrender of various promissory notes purportedly secured by various and sundry liens on portions of the described lands and premises. The court approved the sale May 14, 1936, and Gardner executed an administrator's deed conveying the land to R. H. Harris.

It is stated that R. H. Harris died April 5, 1943, and left a written will with Ralph Harris, Jr., Mrs. Helen Weaver and Mrs. Sadie G. Harris as independent executors, and bequeathed the land to the plaintiffs in various interests and portions.

It is claimed that the deed from J. S. Gardner to R. H. Harris was ineffective to convey the title to the lands described, and that said deed did not convey the same, for the following reasons:

(a) Sale bond was signed by the purchaser, R. H. Harris, as surety, while he was disqualified to sign.

(b) Property was not sold for cash nor credit except as to the sum of \$25,970 cash recited, and if he ever paid anything to the administrator in cash, the administrator promptly returned said funds to the purchaser.

(c) One item of indebtedness was

\$3,657 due on a note payable to Gardner on July 12, 1931. Said note was barred by limitation.

(d) That the probate court had no jurisdiction to order the sale of the separate property of John Saul, deceased, so long as aid community administration was pending and the court lacked authority to order sale of the separate property of John Saul in payment of community indebtedness without affirmative allegation and proof that there were no community assets subject to the payment of said community indebtedness. As a matter of actual fact, the petition states, at the time of the sale of said lands the community administratrix had in her possession community property of a value greatly in excess of the amount of matured indebtedness.

(e) That the sale was made for a wholly inadequate price and for such an insufficient amount to shock the conscience and being for less than one-third of the actual market value of said land at time of sale.

(f) That less than \$16,000 of indebtedness was due and more than \$106,000 was represented by secured claims against separate parcels of the real estate in question which was not due at time of sale.

(g) That R. H. Harris bought up all indebtedness existing against the estate of John Saul and asserted the entire indebtedness at one time, and procured a sale in bulk and a gross assignment of all the assets of the estate on short notice without an opportunity to sell the land in smaller parcels or to sell the land subject to the indebtedness in question.

(h) That a part of the lands conveyed by said deed was the homestead of John Saul and his wife and children at the time of his death, and that they were living on same, some of the children being minors at that time. The homestead was described as 200 acres out of Survey No. 1003, Charles Flores, original grantee. It included an elaborate ranch house.

The petition is concluded with the allegation that said deed was procured as a part of a fraudulent conspiracy between R. H. Harris and J. S. Gardner. Plaintiffs are represented by the Abilene law firm of Scarborough, Yates, Scarborough & Black.

For Safety and Sanity

To The Observer:

As a rule I drive about 5 or 7 miles per hour in Robert Lee and have had to stop and honk to get children out of the street so I could pass.

One day last week when I was coming in home at about 5 miles per hour, two little boys about 6 years of age, concealed themselves until I was within 20 feet. Then they jumped out in front of the car on their stick horses and darted down the street straight on the street to my home.

To miss them I swerved and so did one of the little boys. But seeing the danger I skidded my car across the street to safety.

Well, why squawk, because those radio commentators, newspapers and our enforcement officers lay a hand on the driver. Look, watch, don't hurt a child. They don't say anything to the child that pulls those stunts or to the parents who allow their children to play in the street.

They should lay some of that heavy hand on the children and the parents that allow them to play in the street, and especially those two little boys that flirt with death and cause an old man sorrow.

Yours for safety and sanity.—Geo. W. Hale, Robert Lee, Texas.

At Texas Tech

Coke county students attending Texas Tech at Lubbock this year include Gerald Millican of Silver and Weldon Schooler and Bobby Cox of Robert Lee. Gerald is an upper classman and Schooler a sophomore, while Bobby has enrolled as a freshman. All are taking ag courses.

A subscription to The Observer has been sent to Mrs Susie Calder at Mullen, Tex., by her son, Cliff Calder, of Robert Lee. Mrs. Calder formerly resided in the northwest part of the county.

Notice to Bidders

Sealed bids will be received by the Commissioners Court of Coke County, Texas, at 2 o'clock P. M. on October 11, 1948, for the construction of eighteen and one-half (18 1-2) miles of Net Wire Fence along the right of way between Edith and Sterling County Line on Highway F. M. 387. The right is reserved to reject any and all bids.—Bob L. Davis, Coke County Judge. 15-16

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

DOAN'S PILLS

HOUSEHOLD MEMOS... by Lynn Chambers

Savory Fish Dishes Appeal to Appetite, Are Kind to Budget

ARE YOU LOOKING for versatile as well as economical main dishes these days of high prices? Fish will fill the bill on both counts, and none of the family needs turn up his nose at these delectable foods we've concocted. They're truly delightful and refreshingly different.

A small inexpensive can of fish when combined with other nutritious ingredients such as bread, milk, cheese and vegetables makes a hearty and protein-rich dish that really satisfies. Serve a salad and light but tangy dessert and you have the foundation for your meal.

FOR THOSE DAYS when you have to economize but still have something the family cheers about, select foods from this parade of recipes. They're kind to the food budget.

Tuna puff uses such nourishing ingredients as eggs, milk and bread crumbs to make a hearty and satisfying dish out of a small can of fish. Bake it in individual casseroles for a colorful edging around the vegetable platter.

- *Tuna Puffs (Serves 6)**
- 4 tablespoons butter
 - 1/2 pound sliced mushrooms
 - 4 tablespoons flour
 - 1 teaspoon salt
 - Few grains cayenne
 - 1 1/2 cups milk
 - 4 eggs, separated
 - 1 cup freshly grated American cheese
 - 1 7-ounce can flaked tuna fish
 - 2 cups fresh bread crumbs

Melt butter in saucepan, add mushrooms, cover and cook five minutes over low heat, stirring occasionally. Remove mushrooms. Add flour and seasonings to butter left in pan and blend. Gradually add milk. Stir and cook over low heat until thickened. Beat egg yolks slightly, add some hot sauce and blend; return to remaining sauce and cook two minutes longer. Fold in grated cheese. Remove from heat. Add drained, flaked tuna and mix thoroughly. Cool. Beat egg whites until stiff. Fold in fish mixture. Pour into six large, buttered custard cups or individual casseroles. Bake in a moderately slow (325 degree) oven, 45 minutes or until firm. Serve with lemon. For baking in a large casserole, allow one and one-quarter hours baking time.

- Salmon-Rice Loaf (Serves 6)**
- 1 1-pound can red salmon, drained
 - 2 cups hot cooked rice, blanched
 - 2 tablespoons butter
 - Juice of 1/2 lemon
 - 3 eggs, well beaten
 - Salt and pepper to taste
 - 1/2 cup sliced stuffed green olives

Flake the salmon, add the rice which has been thoroughly drained and to which the butter has been added. Add lemon juice, olives and seasonings to taste. Fold in beaten eggs. Turn into a buttered pan into the bottom of which a buttered piece of paper has been fitted. Bake in a moderate (350 degree) oven for 45 to 50 minutes or until loaf has cooked through completely. Unmold and garnish with lemon slices and parsley.

LET SHRIMPS WIGGLE into your menu plans with this colorful

LYNN CHAMBERS' MENU

- Hot Spiced Tomato Juice
- *Tuna Puffs Lemon Garnish
- Grapefruit-Orange-Greens Salad
- Tiny Hot Biscuits Jelly
- Beverage Ginger Baker Pears
- Cookies

*Recipe given

loaf that is served with a very colorful pea sauce that compliments the fish loaf perfectly:

Shrimp Loaf (Serves 6)

- 2 eggs
 - 1 cup milk
 - 3 cups soft bread crumbs
 - 2 cups canned shrimp, cleaned and shredded
 - 2 tablespoons parsley, chopped
 - 2 tablespoons onion, chopped
 - 1/2 teaspoon salt
 - 1/2 teaspoon pepper
- Beat eggs; combine with milk, add bread crumbs, shrimp, parsley, onion, salt and pepper. Mix lightly and place in a well-oiled loaf pan. Bake in a moderate (350 degree) oven for 45 minutes. Serve with broiled tomatoes and the following sauce:

- Pimiento Pea Sauce**
- 4 tablespoons butter
 - 4 tablespoons flour
 - 1 teaspoon salt
 - 1/2 teaspoon pepper
 - 2 cups milk
 - 2 pimientos, chopped and strained
 - 1 cup cooked green peas
- Melt butter in saucepan; blend in flour, salt, pepper and worcestershire sauce. Add milk and, stirring constantly, cook until thickened. Fold in pimientos and peas. Serve hot.

IF YOUR FAMILY likes crab meat, extend it cleverly with spaghetti. The same recipe also can be made with rice in place of the spaghetti. Use one-half cup uncooked rice and cook in boiling, salted water until tender. Rinse and drain.

Crab-Spaghetti Casserole (Serves 6)

- 1 9-ounce package spaghetti
 - 1 can cream of mushroom soup
 - 3 tablespoons butter
 - 1 cup milk
 - 1/2 pound sharp American cheese
 - 1 1/4 cup flaked crab meat
 - 1/2 teaspoon pepper
- Cook spaghetti in boiling salted water until tender. Drain. Heat soup, add butter and milk. When hot, remove from heat and add cheese, saving a little of the latter

Nutritious and tasty noodles will extend many seafoods, and will look attractive when baked in a casserole. With this you need serve only a crisp fruit or vegetable salad and an especially delicious dessert to make the meal complete. It's a good idea to plan a baked dessert so that the whole meal can be prepared in the oven.

to sprinkle on top of casserole. Combine cheese sauce with spaghetti, crab meat and pepper. Place in greased shallow casserole and sprinkle with remaining cheese. Bake in a hot (400 degree) oven for 25 to 30 minutes.

- Salmon Rarebit**
- 1/2 pound sharp cheese
 - 1 cup tomato puree
 - 1/2 teaspoon salt
 - 1 teaspoon prepared mustard
 - 1 tablespoon worcestershire sauce
 - 2 eggs, slightly beaten
 - 1 cup evaporated milk
 - 1 1-pound can salmon
- Melt cheese over boiling water, blend in tomato puree and seasonings gradually. Add eggs to milk and stir slowly into the cheese mixture. Add salmon broken in large pieces and heat for five minutes. Serve hot on toast.

Folks You Know

Mr. and Mrs. Harvey Allen of San Angelo are the parents of a son born Sept. 18. The baby weighing 8 pounds, was named Gary Lee. Grandparents are Mr. and Mrs. H. R. Gassiot and Mrs. Marshal Sims of Bronte.

Jack Walker and wife returned home Saturday from Christoval where Mrs. Walker received treatments for several weeks at the Rawls bath house. Her many friends will be glad to know that she seems to be much improved.

Mrs. J. E. Roane returned Sunday after an extended visit with relatives in O'Donnell, Lubbock and points in New Mexico. Her son-in-law and daughter, Mr. and Mrs. O. B. Jacobs, brought her home from O'Donnell.

Mrs. Dave McCrohan of San Angelo is in Robert Lee this week visiting her daughters, Mrs. Frank Percifull and Mrs. Richmond Stroud.

A group of relatives entertained Sunday in the J. E. Mitchell home at Bronte included her sister, Mrs. Chester Smith of Texarkana, Gus Corry and wife of Nevada, Texas, the Roy Braswells, James Thomasons and J. W. Denmans of Robert Lee, Erven Escue and wife of Sweetwater and the James Mitchells of San Angelo.

W. K. Varnadore, wife and son, Billy, of San Angelo, Edith Walker of Abilene and Bill Hardin and wife of Ft. Worth spent the weekend in the parental D. J. Walker home.

Jim Blair and family left last week for Olton where they will gather cotton for the next few weeks.

The condition of Mrs. Milton Wylie continues very critical, after undergoing surgery four weeks ago at Shannon hospital. She is now at the home of their daughter, Mrs. Tom Brown, in San Angelo.

Mr. and Mrs. Raymond Schooler returned Monday from Lubbock where they visited over the weekend with relatives. While there Mrs. Schooler consulted her physician and received the encouraging report that her recent eye operation appears to have been successful.

Clyde Stayton and wife were in Abilene Saturday visiting relatives and consulting a dentist.

Mr. and Mrs. Lem Cowley and daughter, Mrs. Bob Fields, spent Sunday in Eldorado with their daughter and sister, Mrs. Calvin Sparks and family.

Lem Cowley and wife departed the first of the week for Stafford, Okla., where they will be guests of her sister, Mrs. J. H. Vowell.

Miss Virginia Gavin of Rhode Island is a guest of Mrs. Keith Hood. The ladies are old time friends.

The J. M. Rippetoe family of Bronte were Sunday guests in the home of Mrs. A. W. Littlefield.

A. V. Sheppard is enjoying a vacation from his work with the Soils Conservation District here and with his family is visiting relatives at Jacksboro and other points in that section of the state.

Franklin Cowley and wife of Ft. Stockton visited over the weekend with Coke county relatives.

Morgan Cox left last week for Del Rio where he accepted a position with the telephone company. Morgan, a son of Mr. and Mrs. M. A. Cox, Sr., graduated last June from Sul Ross college.

Mr. and Mrs. Joe Dodson, Jr. are the parents of a daughter, Marsha Ann, born at noon Sept. 23 at the Bronte hospital. The baby weighed 7 pounds, seven ounces. The Dodsons have a son, Joe Marshall, 21 months old.

Miss Jamie Bilbo, daughter of Mr. and Mrs. A. J. Bilbo of Robert Lee, has accepted a position in the news department of the Daily Herald at Big Spring. Jamie received her degree last spring from Sul Ross college where she majored in journalism. She will make her home in Big Spring with her aunt, Mrs. J. W. Garrett.

Mrs. Delmir Sheppard has ordered a year's subscription to The Observer sent to her brother, T. K. Whiteside, at Merkel. He is a former well known Coke county resident.

Small BCD Crowd Talks Big Things

A committee composed of Frank D. Bryan, W. C. Caffey and Allie Bilbo was appointed at Monday night's BCD meeting to contact retail firms in regard to sponsoring a series of trade days in Robert Lee. The committee will report at the next meeting Oct. 11.

G. C. Allen, BCD president and secretary of the Upper Colorado River Authority, reported the UCRA was considering a dam on Yellow Wolf Creek above Sanco. It would provide 300,000 gallons of water daily for the Sun plant at Silver and 200,000 gallons per day for Robert Lee municipal use.

Mr. Allen said the Sun company was still testing for an underground water supply, and their needs would be known soon. The proposed Yellow Wolf Creek dam would depend upon the UCRA getting contracts from the oil company and the City of Robert Lee. Revenue bonds would be issued to cover costs of construction, Mr. Allen said.

Mayor McNeil Wylie advised the group that an engineer's report on the Robert Lee water situation would be filed within the next ten days. The report will cover both a water supply and a new distribution system.

Supt. B. C. Goodwin invited BCD members to attend the big affair at the football field Thursday night when dads and fans will honor the players with a barbecue feed.

Several other important matters were discussed by the dozen members present. It was mentioned that oil field workers were being driven out by excessive housing rentals. Officer suggested that perhaps the BCD might just as well fold up, since interest was so

lacking. Somebody remarked that with new oil discoveries over the county Robert Lee will make something of itself in spite of the apparent indifference of its business men.

Mr. A. J. Taylor, Jr. of Amarillo visited here one day last week with her aunt, Mrs. J. S. Gardner.

Coach Mike Hughes and several members of the football team witnessed the Bronte-Melvin game last Friday night at Melvin, when Bronte was defeated 26-0. Others going to the game were Mrs. Willis Smith, and son, Willis Wayne, Wanda Mauldin, Mrs. Frank Percifull, Mrs. A. W. Littlefield and James Jackson.
