## Allen Jameson 5 Flows 217 Barrels Oil During 12 Hours

Sun No. 5 Allen Jameson at Silver flowed 217 barrels of oil and no water during a 12 hour test this week, after acidizing with 3,000 gallons. Gauge was through a quarter inch choke.

An east offset to the discovery Sun No. 1 Allen Jameson, it topped the lime reef at 6,290 feet and was bottomed at 6,466.

Ray-Harris had the drilling contract and their rotary rig moved to Sun No. 10 Fred Jameson. The new location is an east offset to Sun No. 1 Fred Jameson and south of the new Allen Jameson No. 5.

Southwest of Silver Sun No. 14 Mathers was drilling in shale at 5,610 feet.

Two miles outside the producing field southeast of Silver, Sun No. 2 H. L. Bloodworth was drilling at 3,920 feet in shale.

West and north of Edith, Sun No. 3 F. S. Price was completed at a depth of 6,013 feet. The hole was treated with 2,000 gallons of acid, but a frozen flow line has delayed testing.

Rutledge Drilling Co. had the contract and is rigging up on Sun A-4 F. S. Price. Location is north of Price 3 and west of Price A-2.

Sun No. 10 Annie L. Cummings was in shale at 4 779 feet.

Sun No. 1 Price Maddox, wildcat in southwest Nolan county, has been plugged and abandoned in the Ellenburger. The well had been pumping a few barrels of oil and an equal amount of water. Operators then deepened 10 feet and recovered 3,400 feet of salt water.

## 860 Poll Tax Receipts Here

A total of 860 poll taxes were issued in Coke county before the deadline was reached Feb. 1. Paul Good, tax collector, said this figure exceeds 1949 by 110.

Poll taxes fall off in non-election years, although it is necessary to have a poll tax receipt before being eligible to vote at any kind of an election. More than 1,400 poll tax receipts were issued in the county in 1950.

Sheriff Good reports property tax payments are very good. He estimates that 97 per cent of the 1950 taxes were paid before the penalty became effective Feb. 1.

New auto tags will be available by Feb. 15, Good stated. Tags are here now, but receipt books have not arrived.

### World Day of Prayer

The United Council of Church Women has designated Friday, Feb. 9, 1951, as World Day of Prayer.

The occasion will be observed at the Robert Lee Methodist Church on the above date at 2:30 p. m.

This is a personal invitation to all women of every denomination to attend the service, and if duties of some are such as to make this impossible, please pause for a few minutes of prayer at high noon as the church chimes play, and ask that God may give us light to guide us, courage to support us, and love to reunite us.

Among students home for a brief vacation between semesters is Jack Snead, who is majoring in engineering at the University of Texas.

## O'Bannon Ranch Sells At \$48,400

J. O. O'Bannon and wife recently sold their 880 acre ranch, five miles northeast of Robert Lee, to Kenneth W. Brown for \$55 per acre. O'Bannon bought the place from Scott Jackson five years ago.

Brown, well known San Angelo oil operator, has since deeded the ranch to Earl Davidson and his sisters, Roxie and Dollie, of Edith. In the transaction Brown obtained an oil lease on a tract of 1,120 acres, ten miles south of Robert Lee, owned by the Davidson family.

It is understood the deal was made for Humble Oil & Refining Co., which has other lease holdings south of town, including the Harris Ranch.

O'Bannon is negotiating for the purchase of a 7-section ranch, 22 miles from Roswell, New Mex., on the Clovis Highway. The price is a lot cheaper than Coke county land is selling at these days, and he also plans to lease seven sections adjoining.

The O'Bannons will not move until summer after their daughter, Jean, graduates from Robert Lee high school.

## Notes From The Oil Field

Union No. 4 Jim McCutchen, 4 miles east of Robert Lee, was drilling Thursday noon at 3,621 feet in lime and shale.

Hunt Oil Co. No. 1 Frank McCabe, wildcat eight miles southwest of Robert Lee, was making hole below 3,600 feet in shale.

T. W. Murray No. 1 Fred Roe, wildcat six miles northwest of Robert Lee, was drilling ahead below 6,500 feet. No. oil was recovered last week following a drill-stem test in lime around 5,850 feet.

Frank McCabe, well known ranchman and president of the Robert Lee school board, is being treated for sciatic rheumatism at Coke County Memorial Hospital where he was admitted Wednesday.

Daisy McCutchen is remodeling and making extensive repairs to her home in the north part of Robert Lee. Her many friends will also be glad to learn that she is much improved from a recent illness.

### Girls Win Tournament

Robert Lee high school girls basket ball team won the championship at Sterling City's tournament last weekend. The local club defeated Lakeview, then drew a bye in the second round and took the final from Mertzon, 23 to 14. Best player award went to Ruth Blair of Robert Lee, who scored 18 points against Mertzon.

#### At Lackland AFB

Mrs. H. R. Gassiot of Silver says that their son, Dave, and Bobby Clark of Bronte have been permanently assigned to the Supply Dept. at Lackland AFB near San Antonio. Mr. and Mrs. Gassiot spent a weekend with them recently. Dave, 19 year old junior at Hardin-Simmons, enlisted in the Air Force early in January.

Other Coke county youths who enlisted at the time were Billy Bob Herron who is still at Lackland, Bobbie Franklin and T. C. Coffey, Jr. have been sent to Illinois for training.

Cumbie Ivey, Jr. of Robert Lee enrolled Jan. 2 in Officers Candidate School at Lackland AFB, where he enlisted in the Air Force several months ago.

J. S. Ross returned the last of the week from a visit of several weeks with his son and daughter and their families in Pueblo, Colo. He also visited his son-in-law and daughter, Mr. and Mrs. Elmer Cole, and family in Amarillo. The Coles and Henry Caston family recently moved to Amarillo from Childress. The men are engaged in construction work there.

## Winter Weather Hits Southwest

Coke county this week has experienced its most severe weather of the winter. Starting last Saturday night temperatures dropped steadily, reaching a low of 4 degrees above zero in Robert Lee Thursday morning.

The frigid weather was accompanied by light falls of sleet and snow, but the moisture content was of little value.

The forecast indicated colder Friday morning with the mercury skidding to zero or below.

Robert Lee schools were dismissed after Monday classes and will remain closed the rest of the week.

### Death of Fred Asher

Fred L. Asher, former employee of Sun Oil Co. at Silver, died at 1:30 a. m. Thursday, Feb. 1, at his home in Sun Camp near Snyder. Death was caused by a heart attack. Fred was transferred to Snyder last year. He was one of Sun's outstanding men and had a wide circle of friends. He served on the school board at Silver. Mr. Asher is survived by his wife and three sons.

### Opens Welding Shop

Jim Shaw is the owner of a new welding shop which has been opened in Robert Lee recently. He is located in the blacksmith building north of the Alamo theatre. Shaw, former Ballinger resident, has just returned from a stay of six years in Seattle, Wash. He has been in the welding business 17 years. Mr. Shaw has a wife and five children and the family is living in one of Dr. Griffith's properties.

## Trapping Is Good; Fur Prices Down

Coke county trappers had great success this winter, but prices of pelts are so low that their work was far from profitable.

Jim Blair and George McCaleb have brought in their traps after a season catch which included 197 ringtails, 171 fox, 43 racoons and 3 bobcats. They also caught lots of skunk which were not worth skinning.

They trapped on property operated by B. A. Austin, Ira Bird, A. F. McKinley, Lake Smith, Bert Blaylock and Bill Martin. They were given a bounty of \$10 for each of the bobcats. Ringtail pelts are now worth \$3.00 but they sold some earlier at \$2.35. They ran from 170 to 210 traps.

Alfred Lofton and Hugh Smith also did some trapping on the March Ranch. They ran their traps only nine times and got over 500 pelts. The lot brought a little over \$400, but a few years ago would have been worth \$2,000.

March Bros. paid them a bounty of \$30 for each of the five bobcats trapped on the ranch.

### Held For Felony

Cecil P. Ash, 26, former Bronte resident, is being held in the Fort Worth jail for Coke county authorities. Sheriff Paul Good said the man is wanted here on a number of bad check charges. One of the checks, amounting to \$350, was given to Walt Scott of Bronte for two cows. Ash will be brought here this week to face charges.

## Folks Waited Long For New Highway

The above picture taken by Jim Bean and furnished The Observer by the San Angelo Standard-Times is an excellent reproduction of the new river bridge three miles west of Robert Lee.

It was opened for traffic three weeks ago and connected up the remaining gap in the new highway between Robert Lee and Sterling City. The project also included a 150-foot bridge across Mess Box Creek and a 225-foot bridge across Paint Creek. Approaches to the new bridges will be surfaced when warm weather arrives.

Residents of the western part of the county were forced to wait many long years before they finally got a paved road, and we are all happy that this fine highway has become a reality.

Commissioner T. R. Harmon opened nearly a mile of new road west of the A. C. Johnson place. It extends from the corner north of the W. E. Burns ranch house to the new pavement and is being used by the folks out on the Divide community.

Bob Baker, contractor who built the new bridges, has moved to San Angelo where he will widen the West Beauregard Bridge.

Mrs. B. W. Waldrop and son, Lyndon, Mrs. J. A. Waldrop and Gladys are spending the week in Houston. They are attending the Fat Stock Show where Lyndon is showing his calf.

Mrs. A. E. Latham and Mrs. W. M. Summers spent the weekend at Llano where they visited their sister and daughter, Mrs. E. L. Kuykendoll, and family. The Kuykendo's formerly lived at Big Lake.

WEEKLY NEWS ANALYSIS

**Brunt of New Tax Program Likely To Fall on Lower Income Groups; Korean Evacuation Debate Rages**

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

Bitter battles raged in Korea as North Korean and Chinese Communist troops continued pressure all along the line. United Nations forces retreated slowly toward the Pusan beachhead (dotted line) and what seemed possible evacuation of that war-torn country.

**POLITICS:**

**Matter of Tradition**

Critics of President Truman's foreign policy, led by Sen. Robert Taft of Ohio, charged the President "violated the laws and the constitution of the United States" by sending troops to Korea and Europe without congressional approval.

In the last few weeks the thunder of debate on the subject has rolled through the halls of congress. It is not, however, a new theme.

The issue of the President's right to send troops to carry out obligations of the country arose in the administrations of Washington, John Adams, Jefferson, Jackson, Tyler, Polk, Lincoln, Grant, McKinley, Taft, Wilson and the late Franklin Roosevelt.

And in every case the issue was settled in favor of the President, namely, that it is his sworn duty to carry out the obligations of the United States.

In this particular case, when the senate ratified the North Atlantic treaty it made the obligations of that treaty law, binding on the President of the United States no matter who he might be. Certain articles of the treaty bind the North Atlantic nations to united effort to maintain the security of the North Atlantic area, including the use of armed force if necessary.

It is these articles of the treaty that the President is upholding in sending troops to Europe. If the congress should deny the President the right to use troops or arms abroad, then certain articles of the treaty become meaningless.

In the few cases where similar questions have reached the Supreme Court, the President has been upheld in his action. It would seem that Senator Taft's attack, therefore, can not succeed in the face of tradition.

**CROPS:**

**Prospects Not Bright**

The agriculture department reported 1951 crop prospects not so bright as they might be for attaining the government's goal of a record harvest.

Shortages of soil moisture in important southwestern wheat areas, prospects of less irrigation water from snows, freeze damage to fall-sown grain crops in the south, loss of farm labor to the armed services and industry, and the prospects of shortages of repair parts for farm machinery were listed as having an effect on production.

The farmers of the nation face a production quota greater than any ever demanded in this country. Increased grain production is needed to rebuild surpluses which have dwindled in the last two years. In addition to rebuilding surpluses, the United States must again assume the responsibility of feeding much of the world if open conflict breaks out between the east and west.

**ARMED FORCES:**

**Goal Increased 260,000**

Mrs. Anna M. Rosenberg, assistant to Secretary of Defense Marshall, told the armed services subcommittee that the goal of the nation's fighting forces had been increased 260,000 by June 30.

The armed forces had been working on a program of 3,200,000 by June 30.

Army, navy, air force, and marine officials urged the drafting of 18 year olds. Unless the draft age is lowered, Mrs. Rosenberg said married men and fathers, and possibly some veterans, would have to be drafted to meet the expanded quota.

Meanwhile, the FBI reported it had investigated nearly 9,000 cases of alleged violations of the draft law during the last six months. The bureau was reportedly receiving more than 2,200 such cases for inquiry every month.

**More Men**

Mrs. Anna M. Rosenberg, assistant defense secretary in charge of manpower, told a senate armed services subcommittee that President Truman had increased the goal for the armed services from 3,200,000 to 3,462,205 men by June 30. She said the increase would require the drafting of 18 year olds.

**Customer.—**I'd like to talk over a business proposition. Are you busy?

**Barber.—**Rather, but I can give you a few moments. What can I do for you?

**Customer.—**It's about prices. Any increase in the last 24 hours?

**Barber.—**Not as of this morning, but if you are considering anything in the line of barbering I would advise you to get it now.

**Customer.—**I really could use a shave, and I'm thinking a little about getting a haircut, if I can see my way clear.

**Barber (handing him a folder).—**Take this. It's my catalogue showing the complete line of 1951 shaves and haircuts, with models, rates, terms, etc.

**Customer.—**I think one of the old model shaves and haircuts will do. How about extras? . . .

**Barber.—**Will you want a radio?

**Customer.—**On the contrary, I think there should be a law against barber-shop radios.

**Barber.—**Want a white wall? That's what we call our 1951 de luxe streamliner shave. And how about a fluid drive?

**Customer.—**Fluid drive!

**Barber.—**Yes, we use a special razor and a new arm movement so you don't feel the shift from the neck to the chin.

**Customer.—**Oh, I prefer the old-fashioned clutch. Would you mind giving my face a good look and see what you'll allow on it if I go for a new one?

**Barber.—**I really can't take your old face in.

**Customer.—**It's not as bad as it looks. All it needs is a wash and a little tightening up here and there.

**Barber.—**It's got some big dents in it. . . .

**Customer.—**Those are not dents; they're scars from your last shave. Oh, well, let's drop the shave. What are your terms if I decide to go ahead and have a haircut?

**Barber.—**We can finance it for you, but the government has tightened up. You'll have to pay a third down on a haircut now.

**Customer.—**If I take it does it include everything?

**Barber.—**The dollar-and-a-quarter haircut takes in all the essentials, but if you want me to discuss the Korean war it will cost extra. . . .

**Customer (weakly).—**I guess I'll have to wait until spring for the haircut, but I'll take a shave.

**Barber.—**I can give you most everything with that.

**Customer.—**How about halitosis?

**Barber.—**I'll throw that in as usual! . . .

**Rising Demand for Wool Urges Sheep Management**

With the farm-sized sheep flock making a "comeback" in many parts of the nation because of a rising demand for wool, authorities here today reminded farmers that sheep require more careful management than most farm animals, if the owners expect to make a profit.

Parasites are one of the most serious obstacles to profitable sheep raising. Correct nutrition also is highly important in maintaining an efficient flock.

Here are four pointers:

- (1) Have all sheep treated against parasites in the fall and in the spring. Newly purchased animals should be treated before allowing them to mingle with the herd.
  - (2) Practice pasture rotation; this helps hold down heavy parasitic infestation.
  - (3) Pay special attention to the feeding of ewes during the winter. The ration should include green hay, protein, minerals and grain. This will help prevent disorders at lambing time.
  - (4) Avoid letting manure accumulate in lots and sheds during the winter. When spread it should go onto fields where animals will not be pastured.
- No one drug is suitable for use against all parasites of sheep. Sheep raisers should get veterinary assistance in planning control measures and in selection of anti-parasitic chemicals.

**Treating Hotbed Lumber**

A preservative used to lengthen the life of wood has been found safe for coldframes and hotbed lumber. John Bagby, Alabama Polytechnic Institute extension service horticulturist, reveals that after wood is soaked in pentachlorophenol and permitted to dry, no fumes harmful to plants will escape. Experiments show that that leaves directly touching the wood might be burned, but there is no danger of this damage extending to other parts of the plant. Since pentachlorophenol offers a cheap and easy way to add years to the life of coldframes and hotbeds, Bagby believes that many farmers will want to try it.

**Blames Eyes for Headaches**

Eyes are a cause of headache in 25 per cent of patients, a Detroit ophthalmologist states. "More patients consult medical clinics because of headaches than for any other single complaint, and for the same reason they most frequently consult an oculist," says Dr. Albert D. Ruedemann, professor of ophthalmology at Wayne University school of medicine.

There is probably more medicine sold for headaches than for any other condition. Some of the large drug concerns build up tremendous fortunes by relieving the ordinary headache.

**TAXES:**

**Era of Austerity**

President Truman drew gasps from Wall street in his message to congress in which he asked an increase in taxes of "more" than \$8 billion a year and outlined a defense program totaling \$140 billion.

He also called for broader wage-price controls, one million more men and women in the armed forces within a few months, and four million more in defense production by the end of 1951.

But what made the little man want to crawl into a hole was the President's tax program. The brunt of that increase would fall on the middle-to-lower income taxpayer.

Some of Mr. Truman's critics said his program would mean an era of austerity for the American people. Some said they thought the President was "hysterical" and others said he had thrown the American standard of living out the window.

Although the nation was shocked by the President's message, Americans in every walk of life were beginning to understand the scope of the program we have undertaken. Most people realized to carry out that program a great increase in taxes would be necessary—possibly the highest in United States history.

It became increasingly clear, too, that such items as automobiles, electric refrigerators, vacuum cleaners, television and radio sets will not be available in such abundance to the American public as in recent years. Production of these items may be cut by one-third to well over one-half before the year is over.

By the end of 1951 the United States will be devoting about 18 per cent of its national output to defense. At the peak of World War II about 45 per cent of the nation's output was for defense.

**CIVIL DEFENSE:**

**Truman Signs Bill**

President Truman signed the civilian defense bill enacted in the closing days of the last congress which provides a defense program estimated to cost about \$3,100,000,000.

The measure directs the federal governments to provide leadership to the states and communities in developing arrangements to protect civilian life and property in the country's 10 critical target areas against possible enemy attack by atomic bombs, biological or bacteriological warfare or any other technique.

The bill requires states to match federal funds provided for air raid constructions. It was on this point that the bill received some criticism.

Governor Dewey of New York, for instance, said his state simply could not find the \$249,000,000 indicated as its need.

Civilian defense is the one phase of all-out war in which this country lags. Britain has added to bomb shelters built during World War II and has an extensive training program for rescue in the event of atomic attack.

**Poster Boy**

Twelve year-old Robert Lawrence "Larry" McKenzie, Jr., 1951 March of Dimes poster boy, proudly displays President Truman's autograph. The boy visited the chief executive on the opening day of the nationwide drive for funds to finance the National Infantile Paralysis Foundation.

**KOREA:**

**Evacuation Inevitable**

Bitter battles raged in Korea as United Nations forces continued their retreat toward Pusan and what seemed inevitable evacuation of that war-torn country.

And while the battles raged in Korea, bitter debate continued in Washington as to whether or not U.N. forces should evacuate the peninsula. There were rumors in military circles, too, that the U.S. had decided on a stand in Korea.

To the average man in the United States, to the people in the home towns of America, who are anything but defeatists, the Washington debates seemed ironic. The average American was counting the odds, estimated now at five to one, and which the Chinese can increase at will. In recent weeks there has been considerable confusion and a number of contradictions as to the actual number of Chinese troops thrown against the U. N. forces.

To many the question now seemed to be whether or not U.N. troops could successfully withdraw to the Pusan beachhead and carry out an evacuation. The situation was described like this: Now it's a question of saving face or saving our hides—and we'd better save our hides. We'll need them in the future against the Communists.

The United States army in Korea is the only one this nation has at present and it must form the core of the new army we have dedicated ourselves to building in an effort to preserve our democratic way of life. Attempting to hold in Korea would risk this army—too great a risk in the opinion of many observers.

Whatever the decision, one thing the average American will tell the world: Man-for-man, the North Korean and Chinese soldier is no match for a well trained American soldier. And any victory in Korea will cost the North Koreans and Chinese dearly.

## State Capitol Letter

By Hugh Williamson

Austin, Feb. 1.—At the moment, prospects seem bright for solution of the state's financial problem. But there are bound to be snags along the way.

The Legislative Budget Board's recommendation that \$10 million be whacked off the four main money bills will certainly bring objections—mainly, perhaps, from heads of departments.

These executives are most likely to insist that they cannot get along with less money, that their work is piling up that it is well-nigh impossible to employ capable help without paying higher salaries, and so on.

There will also be wailing from higher educational institutions, although this maybe softened by shrinking enrollments because of mobilization.

The transportation question sharpened when a bill regulating truck operations was introduced in the House by Representatives Joe M. Kilgore of McAllen, William S. Fiy of Victoria, Callan

Graham of Junction, and A. W. Moursund of Johnson City; and in the Senate by Senator John Bell of Cuero.

This is the one single transportation bill that is likely to get the most attention in the Legislature this time.

It removes the 48,000 gross weight limit, increases legal truck length from 45 to 50 feet, and retains the present rule that axle weights must not exceed 18,000 pounds.

Sponsors of this bill say that it can bring as much as \$5 million in added revenue to the state by increasing registration and license fees.

The bill tightens up control of overloading by increasing fines for violations. Fines are graduated from one cent per pound on overloads in excess of 1,000 pounds to five cents per pound for overloads greater than 5,000 pounds.

Thus a truck with an overload of 20,000 pounds would pay a fine of \$1,000. The present Texas fine for overloading usually runs \$38.

There is progress along the line of legislative redistricting, with committees in both houses working on this problem. Conferences have been held in an effort to iron out differences before a redistricting bill goes on the floor of either house.

The squeeze comes from East Texas legislators, some of whom are going to lose their jobs because

of the change in population, proportionately, from the eastern to the western parts of the state since redistricting was last done 30 years ago.

## Plug-In Light New Auto Idea

A portable spotlight, that plugs into the automobile cigarette lighter (arrow, lower right) and furnishes brilliant illumination, is introduced by Chevrolet in its 1951 accessory line. Demonstrated here by Marjorie Zupner, the chrome-plated light comes with enough wire for use all around the car as a trouble lamp, or as a spotlight from inside the car.

## NEW SPEAKER SWORN IN

Secretary of State John Ben Shepperd is shown administering the oath of office to the new Speaker of the House of Representatives of the 52nd Texas Legislature, Rep. Reuben Senterfitt of San Saba. Shepperd officially opened the House of Representatives Tuesday, January 9, and presided until the unanimous election of the San Saba attorney as Speaker. Representative Senterfitt is beginning his sixth full term in the Texas House. He is the senior member of the law firm of Senterfitt, Crump and Jameson in San Saba. The Secretary of State convenes the initial session of each Legislature according to requirements of the Constitution and Texas law. Both Shepperd and Senterfitt, in opening remarks to the legislative body, termed this Legislature as one of the most important and crucial in the history of the state.

## Nothing Better Than Good Food, Says Ohio Man

If a man isn't able to eat the foods he likes he's in mighty sorry shape—imagine going through life without being able to enjoy a fine big platter of bacon and eggs. That is the way

Joseph N. Damillot, 3414 E. 5th Street, Dayton, Ohio, used to be, but since he has been taking HADACOL, he says he feels just fine and is able to enjoy lots and lots of fine foods. Mr. Damillot found that taking HADACOL helped his system overcome a deficiency of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron.

Here is Mr. Damillot's statement: "My first bottle of HADACOL convinced me that HADACOL was what I needed for the gas on my stomach at nights. I could not keep food on my stomach, but after the first bottle I was going great. Now I eat bacon and eggs, and other foods that never would stay with me. I also can sleep well at nights. Thanks to HADACOL, I will never be without it, and can recommend it to all who suffer with the above ailments that I had. I know because I have suffered for quite some time."

SEED ROT kills many cotton seeds before they can sprout

Why do some of the cotton seeds you plant fail to come up? Seed rot is the answer in a great many cases. Disease organisms in your soil attack the seeds and make them rot or decay, before the seeds have any chance to sprout or germinate.

The rot-producing organisms can attack your seeds in any kind of weather. Their effects are worst in a spell of cold, damp weather shortly after planting time. But even in fine weather, they can cut down your cotton crop before it ever starts to grow.

There are several kinds of harmful bacteria or fungi that can live in your soil. You cannot see them without a microscope. But you can see their effects all too clearly, by scooping up some dirt from a spot

where you planted seeds that never came up. Just by looking at them, you can plainly see how the seeds have decayed.

Fortunately you can prevent much or most of this seed decay, and at a low cost for the chemical—less than 10¢ per acre. Just treat your seed (or have it treated) before planting, with an organic mercury dust. This will protect your seed from the bacteria that cause decay. Ask your County Agent about the value of this treatment and where you can get your seed treated.

OUTLINES DEFENSE . . . Ike, with aide, interpreter, talks to French.

PRINCESS MEG DONS BABUSHKA . . . Princess Margaret of England (left), who has the happy faculty for being herself, walks through crowd at the Pychley Hunt Meet with her lady-in-waiting, Miss Jennifer Bevan. The princess is wearing a babushka (head scarf) of the type beloved by the American bobby soxer. The high boots are fur-lined. The scene of the meet was Northampton, England, where the rest of the crowd seems to be oblivious to the presence of royalty.

COLD PEACE IN A COLD WAR AREA . . . This angel of peace driving a four-horse chariot is a big attraction in Stuttgart, Germany. It is carved from packed snow, and it is the work of sculptor Hans Edelbauer who used six truckloads of snow to do the job. It took him four days. The burghers of Stuttgart hope it will be a good omen for 1951. The citizens hope that it won't melt away with the first warm days, as the new peace hopes have faded.

JOHN L. IS "AGIN IT" . . . John L. Lewis chats with government wage board chief Cyrus Ching (left). Lewis told newsmen that he is strongly opposed to any wage freeze and said there is no need to put the American economy in irons. While he was criticizing the idea of controls, other prominent figures were demanding them.

# SPOT SHOTS

WITHOUT WINTER . . . A spectacled pup sits beside a lady wooing Old Sol at Vero Beach, Fla., where winter months are duly ushered in, but winter weather never. The lady is Katy Turner. The pup answers to the name of Butch.

TAFT OPPOSES . . . Senator Robert Taft of Ohio opposes sending of American troops to Paris to strengthen the Atlantic Pact defense forces under General Dwight Eisenhower. He says a powerful naval and air force will keep us safe.

## Eat Dickinson POPCORN!

## Effective Cough Syrup, Mixed at Home for Economy

No Cooking. No Work. Real Saving. Here's an old home mixture your mother probably used, and is still one of the most effective for coughs due to colds. Once tried, you'll swear by it.

Make a syrup with 2 cups granulated sugar and one cup water. No cooking needed. Or you can use corn syrup or liquid honey, instead of sugar syrup.

Now put 2 1/2 ounces of Pinex into a pint bottle, and fill up with your syrup. This makes a full pint of cough medicine, and gives you about four times as much for your money. It keeps perfectly and tastes fine.

And you'll say it's really excellent for quick action. You can feel it take hold swiftly. It loosens phlegm, soothes irritated membranes, helps clear the air passages. Thus it makes breathing easy and lets you get restful sleep.

Pinex is a special compound of proven ingredients, in concentrated form, well-known for its quick action on throat and bronchial irritations. Money refunded if not pleased in every way.

FOR EXTRA CONVENIENCE GET NEW READY-MIXED, READY-TO-USE PINEX!

**'50 Crop Production Is Near Record Peak Output Exceeds Average For Previous 8 Years**

The United States department of agriculture reported crop production in 1950 was the third largest on record. This output exceeded the average of the previous eight years, the most productive period in American agriculture.

Farmers attained this result despite reduction in acreage of several important crops and a growing season that had many unfavorable aspects.

The composite yield per acre in 1950 was the second-best on record. A prolonged fall season for maturing and harvesting crops helped improve both quantity and quality.

Few crops contributed record

**CROP PRODUCTION**

The above chart illustrates crop production for 1950 on U.S. farms. The agriculture department reported the output was the third highest on record.

outturns to this relatively large 1950 total—only soybeans, sorghum grain, sugar beets and red clover seed. The corn crop of 3,131 million bushels slightly exceeded forecasts.

Others in this class of very large crops are oats, all hay, rice, potatoes, popcorn, tobacco, cranberries and alfalfa and sweet clover seeds.

Cotton and cotton seed, peaches, and apricots were relatively small crops, while rye, buckwheat, sorghum forage, dry peas, velvetbeans, broomcorn, sergo and sugar cane sirup were among those with small outturns.

**Dairymen Up Production By Feeding Good Legume**

A number of dairymen are advising keeping your cows literally stuffed with good legume hay to step up milk production and cut feed costs.

C. S. Rhode, of the University of Illinois, says 25 pounds of high-quality alfalfa hay will furnish all the protein a cow needs to produce 30 pounds of 4 per cent milk. It will also furnish all the needed calcium and is the best source of carotene and vitamin D during the winter months.

Alfalfa hay will provide both one pound of protein and 100 pounds of total digestible nutrients at lower cost than soybean oil meal, oats, or corn and cob meal.

One pound of protein in alfalfa hay costs only eight cents, but it costs 11 cents in soybean oil meal, 22 cents in oats and 25 cents in corn and cob meal.

Alfalfa will furnish 100 pounds of TDN for \$2.50, but it costs \$5.56 in soybean oil meal, \$3.76 in oats and \$3.13 in corn and cob meal.

International Uniform Sunday School Lessons  
By **DR. KENNETH J. FOREMAN**

**Power of God**

Lesson for February 4, 1951

ONCE UPON a time, miracles were one of the strongest arguments supporting Christianity. In our times, it is quite the reverse; miracles are for many Christians a major embarrassment, principal reason for not believing what Christians teach. There is no room in one column to debate this question. A very readable recent book on this line by C. S. Dr. Foreman Lewis, called "Miracles," may help to clear the reader's mind, showing that the common idea that miracles are impossible, is a mistaken idea.

**Christ the Power of God**

PAUL calls Jesus Christ "the power of God" (I Cor. 1:24). Whether you believe that Jesus could perform miracles or not, whether you find such a belief hard or easy, depends a good deal on what you think of Christ. If you think of him as a man much like yourself, and no more, then you have as hard a time believing that he could work miracles as in believing that you yourself could do so. But if you believe that in some way he was more than simply a man like yourself, you will not have much difficulty with the miracles.

But suppose you cannot start with the high faith in Christ as Son of God; at least you can start with historical facts which no one can reasonably doubt. One of these facts is that there lived a person named Jesus of Nazareth. Another fact is that it was believed about him, already in his lifetime, that he could do all sorts of astounding things,—cure hopeless cripples, bring people back from the dead, stop a storm in its tracks.

You will have to admit that Jesus must have been an extraordinary character to have such things believed of him, even if they were not true. Starting from that point, you may be led to look into this man's story further, and—like many others—may come out at last believing in Christ as the divine Lord.

**Motive for Miracle**

ONE THING the thoughtful reader will see in these miracles told of Jesus: they were not done to show off. Jesus himself did not brag about them, nor call attention to them, nor talk much about them. He saw people in trouble and he came to their help.

He sent the demons tumbling into the lake, not to create a wonder-tale nor to show how much stronger he was than demons, but he did it to help a poor wild madman back to sanity.

There is a certain modesty about all these miracles; and there is love in each of them. The great difference between miracle-working power in the hands of Jesus and such power in the hands of ordinary men, is suggested in the remarkable tale by H. G. Wells, "The Man Who Could Work Miracles." It is the tale of a man who found to his dismay that his supernatural powers brought only disaster to the world.

**The Most Personal Miracle**

SOME YEARS ago there was a young man in Austria who had for a long time put up an unsuccessful struggle with himself. To put it shortly, lust had him in its grip. He had about given himself up as a bad job, when he made the acquaintance of two young priests.

He asked himself: What do these men have that I do not have? And he discovered the answer: Christ. That was how Baron von Hugel, one of the great minds of our century, became a Christian.

He discovered that Christ, now can work a miracle in a man; and one miracle, experienced in one's own life, can be of more value than a hundred miracles recorded on paper.

**Dilemma**

A kind-hearted clergyman asked a convict how he came to be in jail. The fellow said, with tears in his eyes, that he was coming home from prayer-meeting, and sat down to rest, fell asleep, and while he was asleep there the county built a jail around him, and when he awoke the jailer wouldn't let him out."

## Webb To Attend Soil Conservation Nat'l Conference

OKLAHOMA CITY, Jan. 31.—More than 2,000 farmers and ranchers will converge on this city Feb. 20 for a three-day conference devoted to the one interest common to all of them—conservation of the nation's soil and water resources.

The occasion is the annual convention of the National Association of Soil Conservation Districts, expected to attract the elected leaders of soil conservation districts in all parts of the nation and from its territories.

Oklahoma City's central location, increasing interest in soil conservation, and the key spot occupied by agriculture in the nation's defense picture are factors which make Waters S. Davis, Jr., association president, confident that attendance at this year's meeting will top 1949's Atlanta convention figure of 1,500 by at least 500 persons.

Davis, South Texas cattle rancher, and other association officers have arranged a varied and comprehensive program which includes speeches by Secretary of Agriculture Charles F. Brannan on the convention's opening day, and Dr. H. H. Bennett, chief of the U. S. Soil Conservation Service, on February 22.

The program also includes meetings devoted to regional soil and water problems, panel discussions led by nationally recognized conservationists, presentation of achievement awards, election of new officers and directors, and a full round of entertainment for delegates and their wives.

Slated at a time when the American citizen is openly concerned about the prospect of world conflict and what it could mean, the convention promises to be a brass tacks, "do something" affair.

The work of soil conservation districts in developing a more dependable wartime agriculture, the speeding up of the job of protecting and improving the nation's productive land, and water conservation and river basin development—these are among the problems to be discussed by the convention delegates.

Commented President Davis, "I am counting on every delegate to roll up his sleeves and help us plan working policies. With the present international situation, these policies will help gain recognition of soil conservation districts and their program as one of the most important elements of long range national planning."

#### THE STATE OF TEXAS

To Any Sheriff Or Any Constable Within The State Of Texas, Greeting:

You are hereby commanded, by posting a copy hereof at the courthouse door of Coke County, Texas, for not less than ten (10) days before the return day hereof exclusive of the first day of service by so posting, and by making publication of this citation one time not less than ten (10) days before the return day hereof in a newspaper such as is required by law, published in said County of Coke, shall cite all persons interested in the estate of G. F. (Felix) Peay, deceased, and each of them, and they and each of them are hereby cited, to appear in the County Court of Coke County in the Courthouse thereof on the first Monday after such service is perfected, which is the 12th day of February, 1951, and contest, should they desire to do so, the application of T. A. Richardson, administrator of the estate of G. F. (Felix) Peay, deceased, and his bondsmen, for approval of the final account of said administrator and application that said administrator and his bondsmen be charged from further liability on said administrator's bond and in connection with the administration of said estate, filed in said Court on the 25th day of January, 1951, which will then and there by such Court be acted on. Herein fail not, but have you before said Court on the 12th day of February, 1951, this writ with your return thereon showing how you have executed the same.

Witness: Weldon Fikes, Clerk of the County Court of Coke County, Texas.

Visitors interested in agricultural flood control may see an outstanding example of this work on the Washita River watershed in Oklahoma. Many thousands of acres of Washita River bottomland that were unprofitable are now turning in a profit as the result of the protection they are getting. And in the other aspects of soil and water conservation, Oklahoma offers the visitors a splendid chance to see the effectiveness of many other coordinated practices, which keep soil in place and provide for continuing soil improvement.

Soil conservation district leaders in Kentucky and North Dakota already have announced that their states will be represented by chartered bus delegations. And Nebraska, which topped other delegations at last year's meeting, is expected to bid again for the honor.

C. N. Webb, chairman of the Coke County Soil Conservation District, plans to attend the Convention in Oklahoma City, February 20, 1951. I believe this will be one of my greatest opportunities to obtain some information that will benefit me in doing my job as chairman of the Board of Supervisors, Webb said. The convention program promises to give the members of Boards of Supervisors much information that we can use in rendering better assistance to land owners in the future than we have in the past through the District movement, Webb went on.

### NOTICE OF BIDS FOR COUNTY DEPOSITORY

NOTICE IS HEREBY GIVEN by the County Judge of Coke County, Texas, for Depository of said Coke County, and Coke County Common School District Funds for the next Two (2) years in accordance with Article 2544 (2440), Revised Civil Statutes 1925, of Texas, at the February Term, Beginning on the 12th day of February A. D. 1951. Said Court will receive proposals from any banking corporation, association or individual banker in said County that may desire to be selected as the Depository of said County.

Any Banking Corporation, association or individual Banker in said County desiring to bid shall deliver to the County Judge on or before the First day of the Commissioners' Court at which the selection of the Depository is to be made a sealed proposal, stating the rate of interest that said banking corporation, association or individual banker offer to pay on the funds of the County for the Term between the dates of such bids and the next regular term for the selection of a depository.

Said bids shall be accompanied by a certified check for not less than One-half of One per cent of the County's revenues of the preceding year as a guarantee of good faith on the part of the bidder and that if his bid should be accepted he will enter into bond as herein

provided and upon failure of said banking corporation, association or individual banker, that may be selected as such Depository to give the bonds required by law, the amount of such certified check shall go to the County as liquidated damages, and the County Judge shall re-advertise for bids, said Court Reserving the right to reject

any and all bids proposed.

Given under my hand and seal of Office this 8th day of January A. D. 1951.

Serve Tarts Delicious Enough to Tempt (See Recipes Below)

## Glamorous Desserts

**WHEN YOU'RE CALLED** upon to serve dessert and beverage combinations, do you have to rack your brain and mull over a whole stack of recipes? Keep a few of these glamorous desserts at your fingertips, and you'll solve the problem easily!

Dessert- and beverage parties, held in the afternoons and evenings, are very much with us these winter days and call for delicious fare such as pies and cakes. They may be small and toothsome such as the cherry tarts with a rosette of cream cheese; some will like an upside-down cake, others will prefer a rich and satisfying cream pie or almond torte.

### Chocolate Cream Puff Pie (Serves 8-10)

- Pastry:**  
 1/2 cup water  
 1/4 cup shortening  
 1/2 cup flour  
 1/4 teaspoon salt  
 2 eggs
- Filling:**  
 2 envelopes (2 tablespoons) unflavored gelatine  
 2 cups freshly-made cold coffee brew  
 6 tablespoons cocoa  
 1 cup sugar  
 1/2 teaspoon salt  
 1 1/2 cups milk  
 2 eggs, separated
- Frosting:**  
 1 cup confectioners' sugar  
 Milk  
 2 drops peppermint extract  
 Yellow vegetable coloring  
 Green vegetable coloring

To make pastry, bring water to boiling point. Add shortening; stir until melted. Bring again to boiling point; quickly add flour and salt. Cook, stirring constantly, about 2 minutes, or until mixture forms smooth, compact mass. Cool slightly. Add eggs, 1 at a time, beating after each. Beat 5 minutes, or until mixture is thick and shiny. Using 1/2 teaspoon for each, make on greased baking sheet 24 puffs, 1/2 inch apart. Spread remaining batter in greased 11-inch pie pan or plate (or greased 8-inch pie pans or plates). Bake pie shell and puffs in hot oven (450°) 12 to 15 minutes. Cool.

To make the filling, soften gelatine in 1/2 cup coffee brew. Combine cocoa, 1/2 cup sugar and salt. Add remaining coffee brew and milk. Beat egg yolks; add with gelatine to coffee mixture. Cook over hot water, stirring constantly, until slightly thickened. Cool slightly. Beat egg whites stiff; gradually add remaining sugar, beating constantly. Fold into coffee mixture. Allow filling to stiffen partially; pour into pie shell. Chill.

into a small greased muffin tin, brush them with melted butter and bake in a hot oven (450°) until golden brown.

Heat the cherries, add the sugar, and thicken with the cornstarch; cool. Put several cherries in each of the baked shells, and garnish with rosettes of the cream cheese slightly softened with milk and forced through a pastry tube.

### Washington Cream Pie

- 1/2 cup butter  
 1 cup sugar  
 1/2 cup milk  
 1 1/4 cups sifted cake flour  
 2 1/2 teaspoons baking powder  
 1/4 teaspoon salt  
 3 egg whites  
 1/2 teaspoon lemon extract  
 1/2 teaspoon vanilla

**Cream butter.** Add sugar and continue creaming until sugar granules are dissolved. Sift flour with baking powder and salt. Add flour and milk alternately to the butter-sugar mixture, beginning and ending with flour. Fold in the stiffly beaten egg whites and add the flavorings. Pour into 2 pie tins that have been lined with waxed paper and bake in a moderate oven (350°) 27 minutes.

### Almond Torte

- 1/2 cup butter  
 1/2 cup sugar  
 4 egg yolks  
 1 cup sifted cake flour  
 1 teaspoon baking powder  
 1/4 teaspoon salt  
 1 1/2 tablespoons evaporated Milk  
 and  
 1 1/2 tablespoons water, mixed  
 1 teaspoon vanilla  
 4 egg whites  
 1/4 cup sugar  
 1/2 cup blanched, chopped almonds  
 1/2 teaspoon cinnamon and  
 1 tablespoon sugar, mixed

**Cream butter** until smooth and plastic. Add 1/2 cup sugar gradually and beat until creamy. Add egg yolks and continue beating until well blended. Sift flour with baking powder and salt and add alternately with the diluted milk to the first mixture, beginning and ending with flour. Add vanilla. Turn into two 9-inch spring form or cake pans that have been greased and lined with waxed paper. Whip the egg whites until stiff. Fold in the 1/4 cup sugar, then spread over the top of the unbaked mixture. Sprinkle almonds over top, then the sugar-cinnamon mixture. Bake in a moderate oven (325°) about 40 minutes. Spread the following cream filling between the layers:

- 1/2 cup sugar  
 2 tablespoons cornstarch  
 1 egg  
 2 cups Evaporated Milk  
 1 teaspoon almond extract  
 Blend sugar and cornstarch, add egg and stir until well blended. Add milk slowly to blend well. Cook over boiling water, stirring constantly, about 10 minutes. Remove from heat and add almond extract. Cool before using.

Serve Tarts Delicious Enough to Tempt (See Recipes Below)

## Glamorous Desserts

**WHEN YOU'RE CALLED** upon to serve dessert and beverage combinations, do you have to rack your brain and mull over a whole stack of recipes? Keep a few of these glamorous desserts at your fingertips, and you'll solve the problem easily!

Dessert - and - beverage parties, held in the afternoons and evenings, are very much with us these winter days and call for delicious fare such as pies and cakes. They may be small and toothsome such as the cherry tarts with a rosette of cream cheese; some will like an upside-down cake, others will prefer a rich and satisfying cream pie or almond torte.

**Chocolate Cream Puff Pie** (Serves 8 - 10)

- Pastry:**  
 1/2 cup water  
 1/4 cup shortening  
 1/2 cup flour  
 1/4 teaspoon salt  
 2 eggs
- Filling:**  
 2 envelopes (2 tablespoons) unflavored gelatine  
 2 cups freshly-made cold coffee brew  
 6 tablespoons cocoa  
 1 cup sugar  
 1/2 teaspoon salt  
 1 1/2 cups milk  
 2 eggs, separated
- Frosting:**  
 1 cup confectioners' sugar  
 Milk  
 2 drops peppermint extract  
 Yellow vegetable coloring  
 Green vegetable coloring

To make pastry, bring water to boiling point. Add shortening; stir until melted. Bring again to boiling point; quickly add flour and salt. Cook, stirring constantly, about 2 minutes, or until mixture forms smooth, compact mass. Cool slightly. Add eggs, 1 at a time, beating after each. Beat 5 minutes, or until mixture is thick and shiny. Using 1/2 teaspoon for each, make on greased baking sheet 24 puffs, 1/2 inch apart. Spread remaining batter in greased 11-inch pie pan or plate (or greased 8-inch pie pans or plates). Bake pie shell and puffs in hot oven (450°) 12 to 15 minutes. Cool.

To make the filling, soften gelatine in 1/2 cup coffee brew. Combine cocoa, 1/2 cup sugar and salt. Add remaining coffee brew and milk. Beat egg yolks; add with gelatine to coffee mixture. Cook over hot water, stirring constantly, until slightly thickened. Cool slightly. Beat egg whites stiff; gradually add remaining sugar, beating constantly. Fold into coffee mixture. Allow filling to stiffen partially; pour into pie shell. Chill.

into a small greased muffin tin, brush them with melted butter and bake in a hot oven (450°) until golden brown.

Heat the cherries, add the sugar, and thicken with the cornstarch; cool. Put several cherries in each of the baked shells, and garnish with rosettes of the cream cheese slightly softened with milk and forced through a pastry tube.

## Washington Cream Pie

- 1/2 cup butter  
 1 cup sugar  
 1/2 cup milk  
 1 3/4 cups sifted cake flour  
 2 1/2 teaspoons baking powder  
 1/4 teaspoon salt  
 3 egg whites  
 1/2 teaspoon lemon extract  
 3/4 teaspoon vanilla

Cream butter. Add sugar and continue creaming until sugar granules are dissolved. Sift flour with baking powder and salt. Add flour and milk alternately to the butter - sugar mixture, beginning and ending with flour. Fold in the stiffly beaten egg whites and add the flavorings. Pour into 2 pie tins that have been lined with waxed paper and bake in a moderate oven (350°) 27 minutes.

- Almond Torte**  
 1/2 cup butter  
 1/2 cup sugar  
 4 egg yolks  
 1 cup sifted cake flour  
 1 teaspoon baking powder  
 1/2 teaspoon salt  
 1 1/2 tablespoons evaporated Milk and  
 1 1/2 tablespoons water, mixed  
 1 teaspoon vanilla  
 4 egg whites  
 3/4 cup sugar  
 1/2 cup blanched, chopped almonds

1/2 teaspoon cinnamon and 1 tablespoon sugar, mixed  
 Cream butter until smooth and plastic. Add 1/2 cup sugar gradually and beat until creamy. Add egg yolks and continue beating until well blended. Sift flour with baking powder and salt and add alternately with the diluted milk to the first mixture, beginning and ending with flour. Add vanilla. Turn into two 9-inch spring form or cake pans that have been greased and lined with waxed paper. Whip the egg whites until stiff. Fold in the 3/4 cup sugar, then spread over the top of the unbaked mixture. Sprinkle almonds over top, then the sugar-cinnamon mixture. Bake in a moderate oven (325°) about 40 minutes. Spread the following cream filling between the layers:

- 1/2 cup sugar  
 2 tablespoons cornstarch  
 1 egg  
 2 cups Evaporated Milk  
 1 teaspoon almond extract  
 Blend sugar and cornstarch, add egg and stir until well blended. Add milk slowly to blend well. Cook over boiling water, stirring constantly, about 10 minutes. Remove from heat and add almond extract. Cool before using.

## TUNA CROQUETTES—pan-fried!

Delicious and digestible this Snowdrift-sure way!

- |                                 |                                      |
|---------------------------------|--------------------------------------|
| 1 can (7-oz.) tuna fish, flaked | 1/2 tsp. Worcestershire sauce        |
| 1 cup mashed potatoes           | 3/4 cup fine bread or cracker crumbs |
| 1 tsp. grated onion             | 1 egg, slightly beaten               |
| 2 tbsp. chopped parsley         | 2 tsp. water                         |
| 1/4 tsp. salt                   |                                      |

Combine first six ingredients and mix well. Shape into rolls 2 1/2" x 1". Roll in crumbs, then in egg mixed with water, then again in crumbs. Fry in hot Snowdrift (1/4-inch deep in skillet) until browned on all sides. Makes about 8 croquettes. Serve with catsup if desired.
