TWISTERS PLAY SKYHAWKS HERE IN FINAL GAME

Goodfellow Air Base Skyhawks came back Sunday to win the second game of the Concho League Twisters from Robert Lee Rabbit Twisters by a score of 10 to 9. Each club now has one victory and the third and deciding contest is scheduled for the Robert Lee diamond next Sunday at 3 p.m.

The Twisters had a 7 to 2 lead going into the last of the fifth frame, but the airmen put over two runs in the fifth, one in the seventh and added three more tallies in the eighth. Robert Lee picked up two scores in the seventh inning and held a 9 to 8 edge going into the last stanza.

Taking their final turn at bat two Skyhawks got on base and both scored on Jake Prevatt's timely hit to left field.

Reports of the contest indicate that the Twisters did not play the brand of ball they had displayed in previous games lately. Some costly errors were made by the infield and several short flies that went for hits should have been caught. The Hawks were credited with 18 safe blows off Clarence Tinkler, while the Twisters garnered 10 hits off Griffin.

George Ray slammed a homer with two men aboard in the fourth inning, and Franky Percifull socked a home run with a mate on base in the seventh. Robert Lee's lineup was weakened by the absence of Barnell Malish who failed to appear.

Winners of the final game Sunday will claim 60 per cent of the jackpot of \$300. The losers get 40 per cent. A good game is in prospect and base ball fans are reminded that this is the season's grande finale.

Manager Chilly Tinkler announces that his same lineup will take the field. He has faith in the Twisters playing a better game than they did last Sunday, and local fans feel that Clarence Tinkler will keep the big Skyhawk bats under control if he is given proper support.

Robert Lee was represented at the Humble Oil & Refining Co. annual football dinner Tuesday night by J. F. McCabe, Jr., Coach James Mancill and Editor A. J. Kirkpatrick. The event, held at the Cactus Hotel in San Angelo, was attended by more than 200 Humble dealers, football coaches and publicity men. Entertainment was featured by moving picture highlights of last year's Southwestern Conference football games.

Personals

The condition of Lee Hallmark remains critical at Shannon Hospital in San Angelo, although a slight improvement was reported Wednesday. A well known Robert Lee farmer, Mr. Hallmark had an arm amputated two weeks ago. The arm had been severely shattered when he overturned his pickup on the Angelo highway nearly a year ago.

Gladys Waldrop spent a few days last week in the home of Rev. and Mrs. Jack Whyburn at Waco. Mrs. Whyburn is the former Minnie Mae Sharp, who served as county home demonstration agent here. Making the trip with Miss Waldrop were Mrs. J. W. Labenske and Mrs. W. G. Cresap, who visited a sister in Corsicana.

Mr. and Mrs. E. B. Fuller of Austin visited his parents in Bronte over the weekend and called on Robert Lee friends. Mr. Fuller opened a law office here last year and was elected county attorney. He failed to accept the office, however, and moved to Austin where he is practicing.

Mr. and Mrs. Kent Goode and son, Jim, of Weimar were here for a Labor Day weekend visit with Mrs. Goode's parents, Mr. and Mrs. Roy Taylor. Also visiting in the Taylor home is another daughter, Mrs. Jack Martin and daughter, Kathy, of Fort Worth. They plan to remain a couple of weeks. Mr. Martin, who has been stationed in the Air Force at Carswell AFB, was recently discharged and has taken a position in the Convair plant.

Genie Baker has installed a new refrigerated dairy case in his popular grocery and market. It is of the latest design and gives customers easy access to milk, butter, cheese, eggs and all dairy products.

STEERS GREEN BUT HUSTLING SAYS MANCILL

Robert Lee High School Steers are going through stiff practice sessions this week and thus far the squad is showing up good.

Coach James Mancill says a number of his players are green and it will take at least half the season before the team can be brought up to its peak form. He is using the split-T formation.

Hollis Lloyd, 190-pound senior who played center last season, is being used as quarterback. Leading candidates for halfback are Lynn Davidson and Bobby Walker. The fullback spot will be hard to fill properly, with Robbie Godwin, blocky freshman, a strong contender after getting some experience. Another backfield man is Don Bell.

Sherman Williams, husky lineman from last year, is at center. Pete Collett, who weighs in at 220 pounds, will have a starting berth in the line and Tommy Hood seems assured of one of the end positions. Bill Casey is another experienced lineman. Ronald McArthur, also a sturdy lineman, has not been able to do much heavy work because of a recent operation, but he may be ready next week.

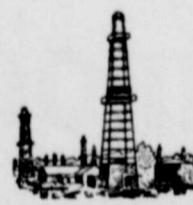

The opening game is set for Friday night of next week, when the Bronte Longhorns come to Robert Lee in a non-conference tussle.

Other members of the 23-man Steer squad include Ben Bessent, Bill Simpson, Wayne Calder, Otha Hall, Don Blair, Donald Walker, Jack Gray, Frederick Ashworth, T. C. Brown, Sammie Duncan, Byron Russell, Harold Robertson and James Robertson.

SANCO HD CLUB

Mrs. Jack Allard gave a demonstration on how to attach a collar and facing to a garment when she was hostess to the Sanco Home Demonstration Club at her home recently. The business meeting was conducted by Mrs. Teddy Pitcock. New members were Mrs. J. M. Prine, Mrs. Nolan Pentecost and Mrs. Ulmer S. Bird. Also present were Mrs. Ernest Adkins and Mrs. Harvey Reid.

Mr. and Mrs. Jim Williams of Valentine were weekend guests of their Robert Lee kinfolks.

Nellie Longwood Now With Husband In Tokyo, Japan

August 28th

Dear Mr. Kirkpatrick:

(SEAL)

The next morning we landed at Wake Island about 9 o'clock and had a hot breakfast there. Wake Island is a very tiny place and is still scarred and torn from the war. After one hour there, we again climbed aboard the plane, next stop Tokyo.

The flight had been very smooth until we were about 4 hours out of Tokyo, when we began hitting clouds and rough weather. We had been flying at 8 thousand feet, and we then let down to 6,000 feet.

It was a wonderful experience, but after 36 hours in the air, we were all very glad to step out onto land again and know we had finally reached our destination when we landed at International Airport, Tokyo, Japan.

Of course our husbands were all eagerly awaiting our arrival, and after checking thru customs, we left for our quarters which had already been assigned to us.

My husband, M/Sgt. Longwood is in personnel with the Security Advisory Group, commonly called "Sag Jay," here in Tokyo. His group is responsible for training the Japanese Army how to use our Army equipment.

Our car arrived in Yokohama exactly 2 months to the day after I turned it in at Oakland. It had been loaded on a ship that toured the Pacific and made all the islands. We were glad to see it, but a car isn't of much use here in Japan, as the roads are nothing more than cow trails, and here in Tokyo the Japanese drive like crazy, especially the taxi drivers.

I will try to write more later

about Japan and our experiences ere.

Yours, truly,
Nellie Cole Longwood

Lyndon Johnson Receives Praise From Colleagues

Glowing tribute to the work of Senator Lyndon B. Johnson, Senate Democratic Leader, was paid by his fellow Senators, both Democrats and Republicans, in the closing hours of the recent session of Congress.

The Texas senior Senator's leadership was hailed by a number of his colleagues as the factor which brought about enactment of several proposals sponsored by President Eisenhower.

Senator Richard B. Russell of Georgia declared Senator Johnson "has demonstrated in this session that he was a great American before he was a great, loyal and devoted member of the Democratic Party."

Among those acclaiming the Texan's work during the session was Senator William F. Knowland of California, Republican Leader, who said: "The Senator from Texas has been cooperative, and has put his country ahead of any narrow partisanship."

Senator Johnson has "a remarkable capacity for finding the middle ground," said Senator Albert Gore of Tennessee, who added: "As quickly as any man I know, he can reach the heart of an issue; and as efficiently as any man I have ever known, he can hold the friendship, esteem, and loyalty of those with whom he finds himself in disagreement."

"In every instance," declared Senator George A. Smathers of Florida, "he has put the welfare of our nation above the welfare of our own party, and in so doing has given the party the best possible leadership."

Many other Senators joined in lauding Senator Johnson's work during the session.

CROPS LOOKING BETTER

County Commissioner Ed Hickman reports that things are coming along good out in his precinct since the rains came. His cotton was ruined by hail, but he is going to make a lot of feed and some of his pasture has made an excellent comeback. Mr. Hickman and his crew have been busy repairing road and bridge damage and all roads have been kept open. He is moving his equipment up on the Divide for a few weeks, and later will be back to complete road work in the Edith locality. Mr. Hickman called at The Observer office Saturday to renew his Observer subscription and also that of his brother, Frank, in San Antonio.

Marvin Simpson of Rober Lee recently sold four purebred Angus bulls to Fred Groom of Coleman and a registered Angus bull to W. D. Green of Eden.

Law Requires Full Stop Before Passing Halted School Bus

School buses over the state have begun the task of carrying thousands of children to and from their studies. Soon to be expected are death and injuries occurring when the inevitable tragic reports of impatient youngsters dash across busy highways to greet their waiting parents or to board the bus. Most of such accidents could be avoided if motorists would adhere strictly to the letter of the law pertaining to the passing of school buses.

Most Texans are aware of the law which requires a driver to come to a complete stop when overtaking from the rear a school bus which has stopped to receive or discharge school children. After stopping immediately behind the bus, he is then allowed by law to proceed past same at a speed "which is prudent, not exceeding ten miles per hour, and with due caution for the safety of such children."

What many persons do not realize is that the same rule applies when MEETING a stopped school bus. While everyone is interested in protecting our children, unthinking violators of this simple safety rule greatly outnumber those who comply. Failure to follow the law in this case can lead to fines up to \$200.00 even when no accident occurs. Following an accident in which some child is injured or killed, the penalties are naturally much more serious.

Although the above rule does not apply when passing a stopped school bus in a business or residential district of a town, the necessity for extreme caution even in those locations is obvious.

When it comes to overtaking or passing moving vehicles, exercise of ordinary common sense will generally keep a driver within the law. For instance, when passing a car it is only common sense to proceed on past it a safe distance before cutting back to the right side of the highway. Also, any driver would realize the danger of increasing his speed while another is attempting to pass him.

Spilling the salt may bring bad luck, but spilling the beans is far more dangerous.

Please Notice

Because of increased costs in all our operations, we are making a slight increase in our charges. This is in line with action taken by cleaners in San Angelo, Bronte and other places.

The increase amounts to 10c on suits, dresses and ladies heavy coats, and 5c on shirts, pants and all other single garments.

The old price schedule has been in effect ever since this cleaning plant was established in Robert Lee five years ago. Although costs have gone up steadily during that period, this is the first time we have raised our prices.

You're "sitting pretty" behind the wheel

Take this Bel Air model. First thing you'll notice is the quality of the interior. Rich-looking appointments. Roomy seats with foam rubber cushions. Turn the key to start the engine and you're ready to go.

You can see all around

You look out and down through a wide, curved, one-piece windshield. The panoramic rear window and big side windows provide a clear view in all directions.

And it's the lowest-priced line

A demonstration will show you that Chevrolet offers just about everything you could want. Yet it's the lowest-priced line in the low-price field.

Biggest brakes for smoother, easier stops

An easy nudge on the pedal brings smooth, positive response—right now! Chevrolet's improved brakes are the largest in the low-price field.

I figure this demonstration saved me many hundreds of dollars!

I expected to pay that much more for a new car until I discovered I was better off in every way with this new Chevrolet!

Let us demonstrate all the advantages of buying a Chevrolet now!

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

You get greater getaway with the new Powerglide*

A lot finer performance on a lot less gas. That's what you get with the new Powerglide automatic transmission. There's no more advanced automatic transmission at any price.

You get more power on less gas

That's because Chevrolet's two great valve-in-head engines are high-compression engines. In Powerglide* models, you get the most powerful engine in Chevrolet's field—the new 115-h.p. "Blue-Flame." Gearshift models offer the advanced 108-h.p. "Thrifty-King" engine.

It's heavier for better roadability

You're in for a pleasant surprise at the smooth, steady, big-car ride of this new Chevrolet. One reason is that, model for model, Chevrolet will weigh up to 200 pounds more than the other low-priced cars.

*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.

SILVER FOLKS REPORT ENJOYABLE VACATION IN NEW ENGLAND STATES

Mr. and Mrs. R. B. Allen and Mr. and Mrs. Bob Odom and Bobby of Silver recently returned from a trip (5,608 miles) to the New England States where they visited the Allen's daughter, Mrs. Elmer Clegg, and family, of Cataumet, Mass.

Leaving Aug. 1, they visited with the Allens' son, Billie and family, in Dallas and Mr. and Mrs. B. H. Odom, parents of Bob Odom, in Saultillo. Main points of interest visited en route to Massachusetts were as follows: "The Hermitage," home of Pres. Andrew Jackson, near Nashville, Tenn.; Mammoth Cave in Kentucky; Abraham Lincoln National Historical Park, which contains the Sinking Spring, source of water for the Lincoln family, the ancient large oak tree which was a boundary land mark at the time of Lincoln's birth, and the Memorial building housing the traditional Lincoln birth place log cabin.

At Ft. Knox, Ky., Gen. Patton Museum, and from a short distance the underground storage for the nation's gold; in Bardstown, Ky., St. Joseph Cathedral, Talbott Tavern, built in 1779, which is still in op-

eration; "Federal Hill," the fabulous home of Judge John Rowan, the inspiration for Stephen Foster's immortal son, "My Old Kentucky Home," the Natural Bridge in Virginia, one of the seven natural wonders of the world.

"Monticello," the home of Pres. Thomas Jefferson near Charlottesville, Va.; a sightseeing tour of Washington, D. C., included Arlington Cemetery, where they witnessed the changing of the guard at the unknown soldier's tomb which was very impressive, a continuous guard of honor is kept here and changed each hour; "Mt. Vernon," home of Pres. George Washington.

This, as well as all other old homes visited contained the original furniture, the kitchens contained fireplaces only, with large brass kettles, iron pots and dutch ovens. They bore no resemblance to our modern kitchens. The outbuildings are still intact and house the vehicles and farm implements used on the plantation; a family burial site was on the grounds of each of the mansions.

Next they saw President Eisenhower's Pennsylvania farm which

borders the nation's greatest historic shrine at Gettysburg. This national park is the old Gettysburg battleground and burial ground of the soldiers killed in the battle. Capt. Gaston, Mrs. Allen's grandfather, was killed and buried here.

While in Massachusetts they took the steamer "Nantucket" to the island, Martha's Vineyard, spent one day in Provincetown and in Plymouth, they saw Plymouth Rock and the historical grounds where the Pilgrims made their first permanent settlement.

On their return trip home they visited Niagara Falls.
