Let every American REDOUBLE his or her efforts on every War Program. Only maximum tempo is sufficient to assure complete Victory at the earliest moment.

Buy EXTRA bonds. Save and prepare every bit of waste paper. Don't waste even a spoonfull of used kitchen fats. Add to your Red Cross Donation. WORK HARDER! Sacrifice for God and Country.

On Wednesday morning the long-awaited-for pineapples arrived—over 200 dozen of them. The pineapples were ordered cooperatively through the Marketing Committee of the Home Demonstration Council and was handled through the M-System store in Dimmitt. The pineapples came from Laredo where they were imported from Mexico. Mr. D. Neumeyer, accompanied by Mr. Lee Welch, made the trip to Laredo and brought the pineapples to Dimmitt by truck, arriving in Dimmitt about 11:00 o'clock Wednesday morning. Most of the pineapples were unloaded directly from the truck into pickups, cars, etc., with most of them being unloaded by 4:00 o'clock. ## I remember from school.

I once had to do a competition about the world's greatest invention being uttered. Just think of gear-wheels, water-wheels, and especially all the wheels for transportation! But right now the greatest thing of all, I'd say, is to keep wheels going; keeping your car in service, for instance. There's this and that to help you. There's one motor oil and another. Now from what I know, the explosion in any engine must produce acids, which bring up the bright idea of safely oil-protective your engine's insides with Conoco N74 motor oil. You want to prevent damage from acids... Internal corrosion. Some things are especially good at fighting corrosion, and oil-protective comes in that class. Even chromium plating, just for comparison, couldn't stay closer to working parts than this protective oil-protective. It battles corrosion, so as to help you preserve your transportation as soon as you switch to Conoco N74 oil.

# Thankable TO YOU

**AMERICAN FAMILIES** are doing without many accustomed things now-a-days. That's one way in which all of us are able to play a definite part in speeding the day of Victory.

Have you ever stopped to consider just how important this "doing without" program really is? It lacks the drama and the lustre of more direct action, to be sure, but our entire war effort might very well collapse without it.

Take the one item of travel, for example. Thousands, yes tens of thousands of people are foregoing pleasure travel these days. By thus "doing without" they are assisting America's railroads in handling their gigantic war assignments with speed and efficiency. It's a job that simply couldn't be done without the public's willingness to "do without."

For this spirit of cooperation, we of the Burlington Lines extend our sincere thanks. We're looking forward to the day when we can show our appreciation more tangibly—in terms of equipment and service fashioned to peacetime standards.
