## School Opening Next Wednesday For Robert Lee

Robert Lee public schools open next Wednesday, Sept. 3, according to Supt. Frank D. Coalson, who begins his third year at Robert Lee. Enrollment is expected to equal last year, although there has been considerable moving in and out of the district.

During the past week four new teachers were hired to complete the faculty, Supt. Coalson said. Mr. and Mrs. Hervey Latham will fill vacancies caused by the resignation of Mr. and Mrs. P. E. Webb, a young lady from Abilene will teach the fourth grade and Mrs. R. G. Hodge of Silver has decided to return as home economics teacher.

A full day of school is planned for the opening day next Wednesday, with buses running on schedule and the cafeteria serving a hot lunch at noon. Students will meet for all classes, discuss assignments, etc.

Miss Melba Brown is the new fifth grade teacher. She has a BS degree from Abilene Christian College and expects to make a career of teaching. Miss Brown is a neighbor and close friend of Miss Carole Hooper, new county HD agent.

Information concerning the Lathams appears in another column. Mrs. Hodge will be welcomed back to direct the home making department. She will also have charge of the lunch room program.

Supt. Coalson says prices for the noon meal at the school cafeteria have been increased slightly (5 cents.) The new price schedule is 30c for pupils through the 6th grade, 35c on up through the 12th grade, 40c for faculty members and 50c for guests.

Mrs. Finis Harmon directs the lunch room operations and her assistants again will be Mmes. Homer Carwile, Jim Mauldin and Berrel Roe.

Garland Davis and his wife will occupy the teacherage vacated by the P. E. Webbs, who have moved to Saginaw.

Sam Fowler is custodian of the school buildings.

Mrs. Bryan Yarbrough this week begins her tenth year as an instructor in the Lake View public schools.

Mr. and Mrs. Willie Wallace of Amarillo spent last week with Robert Lee relatives and friends. Mr. Wallace is a civil service electrician at the Amarillo Air Force Base and his wife is employed as a registered vocational nurse at one of the Amarillo Hospitals.

## DO NOT SHOOT MORE THAN TEN DOVES PER DAY

Austin, Aug. 25. — Don't be confused, it may cost you a fine for killing too many doves, according to the director of law enforcement of the Game & Fish Commission. The North Zone season opens Sept. 1.

This year's hunting regulations, approved by the U. S. Fish & Wildlife Service, permits a possession

### GOOD HUNTING IN SIGHT

Game Warden Gltnn Crooks reports an excellent crop of doves are to be found in Coke County this year. The dove hunting season opens Monday, Sept. 1, and hunting is permitted daily between 12 noon and sunset. No license is required if you hunt in your own county. Hunting Licenses costing \$3.15 are now on sale and are good for one year. Fishing licenses are also due Sept. 1, Mr. Crook advises.

limit of 20 birds after the first day. This does not mean, the director warns, that a hunter can go out and kill 20 birds in one day and get by with it.

The daily limit is still 10 birds. However, after the first day a hunter may have two days' possession, provided he doesn't have them on his person or in a manner to indicate they were all killed on the same day.

"The dove is a migratory bird and as such comes under final federal control," the chief says. "This year the possession limit has been modified, as well as the season lengthened. A good dove crop indicated early this year is responsible."

The chief also warned that new licenses must be obtained before hunting Sept. 1. These licenses are required for all hunters between the ages of 17 and 65 who hunt out of their own county. The new licenses are now available from game wardens, sporting goods stores and county clerks.

New fishing licenses also will be required at the same time.

## Phone Company Will Use Co-op Electric Poles

General Telephone Co. has signed a contract with Concho Valley REA to string telephone lines on the electric co-op poles leading to farm and ranch families in this area.

The agreement was reached at a public meeting Monday night. Banker-rancher G. C. Allen presided at the gathering in the district court room at a session which had been arranged by the Robert Lee Board of Community Development.

Present were Carrol Land, manager of the REA Co-op, and J. P. Willows acting for John Robbins as division manager of the telephone company. Other General representatives on hand were Al Holcomb, field engineer, and Carroll West of the Commercial department. About 50 farm and ranch people were on hand.

The phone company advised the group that it had appropriated funds for providing rural dial service to every subscriber who is now being served. Mr. Willows pointed out that it would be cheaper to rent pole use from the REA co-op. Proposed rates were discussed setting out a \$4.50 per month figure for persons within 5 miles of Robert Lee, and an extra 25 cents for the next five miles and \$1.00 per month extra for those beyond ten miles from town.

The company will also build at its own expense tap lines a distance of 3,000 feet. Beyond that the subscriber will have to pay for the line. New subscribers will be served in all cases where there is room on a line. A limit of eight persons on a party line has been set.

Silver people will also continue to be served, and a survey is being made with hopes of running more lines in that area.

Mr. Land said directors of the REA co-op were interested in seeing that everyone get phone service, and a contract with General would be signed if the people out here favored such an arrangement. The matter was put to a vote, and the result was a unanimous "yes".

Mr. Land then advised the telephone representatives that they would receive immediate authority to proceed with the joint-construction plans.

Mr. Willows authorized The Observer to make a statement that actual work on running the new lines and installing dial service would be started within 30 days.

One rural line at a time will be completed and cut over to dial service, he said.

### SOME GOOD RAINS

Good rains were received in Coke County during the past week, with amounts varying from 1½ to 6 inches. Robert Lee gauged about 2½ inches from rains the middle of last week and again Saturday night. Heaviest amount of moisture was in the Panther Gap east of Silver where Robert Walker and others reported six inches in the two rains.

Mrs. Frank C. Dickey Sr. and Mrs. Frank Dickey Jr. and children have gone to Mexico City for a visit with friends. They went by auto to Laredo and took the train from that point. The senior Mrs. Dickey will make an extended stay, while Mrs. Frank Dickey Jr. and her family will be gone a few weeks.

## Humble Makes Radio, TV Plans For SW Conference

To celebrate its 25th year as sponsor of Southwest Conference football broadcasts, Humble Oil & Refining Company is adding a new feature to this fall's football presentations. It is a videotaped "Game of the Week" to be presented each Sunday afternoon during football season with Kern Tips narrating.

Besides the 11 videotaped games, there will be 70 radio broadcasts and four live telecasts of Southwest Conference games.

The videotaped games will offer many of the advantages of live telecasting, in fact most viewers cannot distinguish between the two. Each game to be recorded on tape will be selected by Conference representatives and will be telecast at 5 p. m. (CST) the day after the game is played. It will be seen over a 28 station network in Texas and New Mexico. This program will give viewers a 45-minute version of the game as it would have been if telecast "live."

Live telecasts include the Baylor-Texas Tech game, October 18; the SMU-Georgia Tech game, October 25; the Rice-Army game, November 8; and the TCU-Texas game, November 15. These four games, selected by the Conference, will be telecast over a network of 24 TV

## Infants to 40 Should Have Polio Vaccine

Before the advent of the Salk polio vaccine, Texans prayed for a release from the ravages of paralytic polio for themselves and for their children.

The picture has changed a great deal since then. With the announcement that Dr. Jonas Salk had developed an effective vaccine for the prevention of polio, parents swarmed to their doctors and clinics to have their children protected.

Since that the incidence of paralytic polio has fallen many-fold, and an apathetic state of mind has fallen on many Texans concerning the need for protecting themselves.

Many students have received their shots, resulting in a favorable vaccination picture among school age children. As a result this year and last year has seen the pre-school age children with the highest attack rate of paralytic polio.

Who should be vaccinated? Everyone can benefit from polio vaccine inoculations, since the disease strikes all ages. However, the present goal is to vaccinate the most susceptible groups—from infants to age 40. Especially lax in receiving their shots are children under five and adults over 20.

The vaccine protects only those who have had the inoculations. The immunity of your friends and neighbors cannot protect you. Although the vaccine prevents paralytic polio from occurring, it does not eliminate the polio viruses that cause the disease. The viruses can remain in circulation in the population, and are passed from person to person by carriers.

You are not adequately protected unless you have all three shots, properly spaced. The second shot is given two to six weeks after the first; the third, seven to 12 months after the second. It is important that we have that third shot!

No vaccine ever has been 100 percent effective, however, the Salk vaccine has proven 60 to 90 per cent effective. That is reason enough to get your shots now.

The vaccine is in plentiful supply and inexpensive, so the decision is up to the individual. No one is safe without the protection of the Salk polio vaccine.

He has had seven years teaching experience at Noodle and Old Glory, taking one year off to keep books in a Chevrolet house at Aspermont. ## 29 Motorcides Predicted For Labor Day Period

"The prediction of 29 motorcides for the forthcoming three-day Labor Day period in Texas will bring an extensive traffic law enforcement program for the holiday weekend," said Major Wilson E. Speir, Regional Commander of Region 4, Texas Department of Public Safety.

Operation Motorcide will be in effect from 12:01 A. M. August 30 through 11:59 P. M. September 1. During this period Patrolmen of the Motor Vehicle Inspection and License and Weight Services will bolster the force of the Texas Highway Patrol in enforcing our traffic laws.

"We realize," Speir said, "that this is the last holiday weekend during our vacation season and before school starts, therefore traffic will be heavy on most of our highways. Our patrolmen are scheduled to work all hours of the day and night during the Labor Day weekend and to cover as many miles of our highways with the most effective enforcement program possible."

"The prime objective of our Patrolmen during Operation Motorcide are of two purposes, protection of the motoring public from accident prone drivers, and service to the public. Each of our Patrolmen recognizes his responsibility to the motorist and he will do his utmost to make driving in this area a pleasant experience."

"Excessive speed and driving while intoxicated are the leading causative factors in fatal accidents during holiday periods, therefore Patrolmen will concentrate on these violations."

## Ross and Liles Win Runoffs for Justice Peace

Roy P. Ross was nominated for Justice of the Peace in Precinct 1 and J. T. Liles won a similar race in Precinct 2 in Saturday's Democratic runoff primary election. Ross defeated E. C. Davis, while Liles won over George Wrinkle.

Nearly 700 ballots were cast in Coke County whose voters favored Robert W. Hamilton over J. Edwin Smith for Associate Justice of the Supreme Court Place 1, the only state-wide contest. The vote was 457 to 110.

Only four voting boxes were used, two in both precincts where the JP races were to be decided. A few voters from other boxes cast ballots in the supreme court runoff.

More than 300 votes were cast both at Bronte and Robert Lee. There were 46 voters at Silver, 11 at Olga and 19 absentee.

Here is the tabulation:

Justice Peace, Precinct 1—		
	Davis	Ross
Robert Lee	113	192
Silver	33	13
Absentee	8	5
	154	210
Justice Peace, Precinct 2—		
	Wrin-	Liles
	kle	
Bronte	186	130
Olga	2	9
Absentee	5	1
	193	140

A runoff for JP was necessary since no candidate received the required more than 50% of the vote at the July 27 primary. Davis and Ross were both write-ins, while Liles and Wrinkle were the two high men in a field of five candidates.

The JP office carries a salary of \$100 per month. Their election in November will be for terms of four years.

Hershall received a serious back injury in a fall Saturday morning at a Ray & Reynolds rotary rig where he is employed as a driller. He is being treated in Coke County Memorial Hospital and his condition is improvng.

According to the U. S. Bureau of Advertising, ADVERTISING ranks first with women, over all other newspaper content, for interest and readership! Women actually read ads in preference to anything else in the newspaper. (For that matter, ads rank third with men for readership!) And reading the newspaper is a favorite habit with American women.

So, if you have a product to sell—display it in an ad in your local newspaper. If it's for the home, write it to the housewife's point of view. For, more than anyone else, she'll read it. And, more than anyone else, she's the one who does the buying for the family!

Sun Pipeline has run a line across the Colorado River and installed a gathering system to pick up crude oil production in the southwest end of the new I. A. B. (Menielle Penn) field. Previously oil from this area was hauled in transport trucks to Sun's pumping station at Silver.

The extension includes approximately four miles of 6 and 4-inch pipe. It crosses the river back of the A. F. McKinley ranch house where Humble has a low water crossing.

Five storage batteries are now connected with the pipeline. The oil is produced by Norsworthy on the J. J. S. Smith place, and Humble has production on the Harris Ranch. At present Norsworthy has 16 producers and Humble has 3 across the river.

E. W. Taylor, district gauger at Edith, is handling the crude run for Sun Pipeline Co. He also is in charge of the Millican field and the McCutchen and Wendkirk fields east of Robert Lee.

It should be the ambition and pride of every citizen as well as the parents to do everything possible to make this one of the best school terms that we have ever had. We can do this if we give our fine corps of teachers the help and cooperation that is justly due them.

Any school can only be a success to the extent that the patrons and citizens make it so.

Incidentally we want to call attention to the fact that we are carrying one of the finest and most complete lines of school supplies that we have ever been able to get, namely the famous Belmont and the Hytone lines, the two best.

We have just received a complete line of the Sheaffer completely redesigned fountain pens, something completely new in the fountain pen line. Every student who sees this pen will want one. They are not expensive but the best.

We have folders, stencils, beginners tablets, art colors, pencil sharpeners, manila folders, the finest line of note books that we could find — to see them you will want them.

With every 50c purchase we will give you a very nice gift, one that you can use to an advantage.

Please inspect these lines and you will be glad you did so. Our wish is for a better and more happy school year ahead.

## SMALL TALK

By A. J. K.

Congratulations to Ronald Walton of Bronte who has completed 36 years as Gulf oil products distributor in Coke County. During the period he has worn out a lot of trucks.

A decision on spillway repairs at Mountain Creek Lake can be expected within a couple of weeks. Engineers have completed their reports and copies have been furnished to city officials of Robert Lee and all directors of the Upper Colorado River Authority. Estimates of repairs run from \$40,000 to three times that figure.

Got to do something about those subscriptions which are in arrears. Guess Sept. 15 would be a good cutoff date. If you want to keep The Observer coming, advise us if you need a little more time. We are willing to extend credit, but you need to advise us.

If you should discover a mouse in your auto, better stop and do something about it. The other day J. W. Service and son, Butch, were driving in their pickup when they saw a mouse on the floorboard. Both tried to stomp it, and they ended up over in the borrow ditch with the truck pretty well busted up. Neither J. W. nor Butch were hurt.

If nobody wants to buy the corn, guess I'll have to get some hogs. It's sure good corn.

Looks like the rural phone lines are going to be fixed up after a long delay. We've got a 30-day promise from the phone company, so there should be some action before Oct. 1.

### CARD OF THANKS

We sincerely thank each and everyone for the kindness shown our loved one, Mrs. V. P. Byrne, during her illness. Also for the flowers, cards, visits and the food which the ladies prepared for us. We want to thank Dr. McDaniel and the wonderful nurses and staff at the hospital. — V. P. Byrne, Mr. and Mrs. John Gunnels and Family, Mr. and Mrs. J. C. Cobb and Family.

## 80-Acre Drilling Rules for New Coke Oil Field

Eighty-acre spacing has been established as the drilling rules for the I. A. B. (Menielle Penn) field northwest of Robert Lee.

These rules, which are made by the oil and gas division of the Railroad Commission, were announced Aug. 20.

At the same time daily allowable production was boosted to 178 barrels.

The allowable has been 82 barrels daily and the big increase will result in more production in the field than if drilling spacing had been set at 40 acres.

At a hearing in Austin last June 3 royalty owners asked for 40-acre spacing, while a request for 80 acres was made by the operators. Humble Oil & Refining Co. representatives said it would mean a saving of 3 million dollars for them to get 80-acre spacing.

They have by far the biggest acreage in the new field. Other operators affected are Sun Oil Co. and C. L. Norsworthy.

There are now more than 30 producing wells in the field which was opened less than a year ago. A few wells are dual producers. The new allowable ruling, which goes into effect Sept. 1, applies only to the Pennsylvania lime pay section. Daily production from the sand section has not been announced.

When operators requested the 80-acre spacing, they also told royalty owners they would seek an increase in the allowable. However, it was a general surprise that the 178 barrel figure was approved.

Under the new rules only eight wells can be drilled on a section of land, while 40-acre spacing permitted 16 wells. No proof was submitted that the field can be drained by the wide spacing, but it will be possible to change the rules and adopt 40-acre drilling at any time in the future.

West Texas wells have been permitted to produce 11 days during August, and it will be 12 days in September.
