Many Former Residents Return For Edith Community Annual Homecoming

Several hundred persons were on hand for the Edith Homecoming last Sunday, with everyone showing renewed interest in the community event which began back in 1933. For the past two years it has been held in old Green Mountain school house, which now serves as an air conditioned community center.

Voted as the most outstanding man and woman of the year, who had contributed most to the Edith community, were Delmir Sheppard and Mrs. Sam Powell. Mr. Sheppard is the son of the late Mr. and Mrs. M. B. Sheppard, early settlers, and a grandson of the late Newt Fields, a pioneer at Edith. Mrs. Powell is the daughter of the late J. N. Adams and Mrs. Adams, and formerly lived in the community.

Program began at 11 a.m. with devotional by the Rev. H. L. Woodworth of Silver. Mrs. Adams, 85, who came to Coke County in 1900, played the piano as Mrs. Will Powers of Paducah led singing.

A picnic dinner was spread at noon with each family contributing one or more dishes of food. Coffee and ice water was furnished.

The afternoon program included obituaries by Mrs. Fred McCabe and a memorial service by Mrs. Frank Coalson. S. B. Wallace of San Angelo assisted Mrs. Powell in directing the program.

A former teacher at Edith, Wildcat and Sterling City, Mr. Wallace made pictures which will be shown on the screen at Green Mountain in September.

Others honored were Mrs. Joe Field, 91, oldest person present; Frank King of Socorro, N. Mex.,

The early turnout is not large, but a squad of around 30 is expected by next week.

BARBECUE SET

Tickets are now being sold for the barbecue set for Friday night, Aug. 28. The event is sponsored by the Quarterback Club as a courtesy to the football squad and coaching staff. A talk and demonstration will be given by a representative of a sporting goods manufacturer.

Robert Lee Steers open the season against the Bronte Longhorns on Friday, Sept. 4. They have a game schedule, five of the contests on the home field.

Consider New Layout For Golf Course

Wide preference for the County-Park-Mountain Creek Reservoir area for a proposed golf course has been expressed by Dick Turner, San Angelo Country Club pro. Other site considered for the layout was the old lake property east of town owned by the city.

Accompanied by Cumbie Ivey Jr., J. S. Ferrell and Bill Allen, Mr. Turner made an inspection of the two possible locations Saturday.

In his opinion the County Park location has ample room for a short 9-hole course. It has advantages in being adjacent to other recreational facilities, close water supply, etc. The old lake site would require a caretaker's house so that the property could be protected day and night, better roads, and making it into a suitable golf course would be more expensive.

At a second meeting of interested persons last Thursday night a number were on hand from Robert Lee and Silver. Bronte has not had representatives at the meetings.

Named to continue studying the project was a committee which included Cumbie Ivey, Jr., chairman, Bill Allen, Lewis Heuvel, J. S. Ferrell, Will Percifull and Robbie Cunningham.

When more definite information has been secured another general meeting will be called.

Mrs. Melrose Russell made a recent visit among Robert Lee kin-folks and friends. She left Tuesday to visit the R. D. Smiths and her son, Morgan, in Ft. Worth. Mrs. Russell resides at Riviera and motors daily to Premont where she will teach again this year. Her younger son, Bryan, is attending Kingsville A & I.

Mr. and Mrs. Willie R. Price and children visited last week with Silver and Robert Lee relatives. Mrs. Price is the former Daisy Bloodworth, daughter of Mr. and Mrs. H. L. Bloodworth. Mr. Price is on vacation from his position at Odessa with Atlantic Oil Co.

DUNCAN CHILD POLIO VICTIM

Clift Duncan, 21 months old son of Mr. and Mrs. Donnie Duncan of Robert Lee, is a recent victim of polio. Both legs are paralyzed and he is being treated at the polio ward in Shannon hospital at San Angelo.

The child had been given two shots of Salk vaccine and was due for its third shot right away.

Mr. and Mrs. Duncan and their children were in Dallas on a business trip last week, when Clift's illness was noticed. They returned home Wednesday and the child was admitted to Bronte hospital. His ailment was definitely determined as infantile paralysis by Friday when he was removed to the polio treatment center.

The Duncans have two other children. Donna is three years old, and Darrell, born April 9. Donnie is a former Robert Lee high school football star and his wife is the former Wanda Tomlinson of Bronte.

OIL'S FIRST CENTURY
-BORN IN FREEDOM
WORKING FOR PROGRESS

History Was Made Aug. 27, 1859, When Oil Pioneers Brought in First U. S. Well

In the spring of 1859—100 years ago—two men talked earnestly in front of a little blacksmith shop in Salina, Pa., a country village adjoining Tarentum, which in itself, was an equally small place near Pittsburgh.

One was tall, dignified, somewhat courtly, his beard neatly trimmed, his frock coat and top hat labeling him plainly as an eastern "gentleman." The other was grizzled, bewhiskered, rough-hewn, dressed in homespun clothing, obviously a product of the backwoods of western Pennsylvania.

Incongruous as this twosome seemed to be, they struck a deal that day—a deal that started a chain of events that ultimately swept mankind into the greatest century of progress the world has ever known. The pact led to the drilling of the nation's first commercial oil well at Titusville, Pa.,

In observance of the Oil Centennial the Robert Lee Observer will publish a special edition next week, August 27. The newspaper will include features of the oil industry during the past 100 years, also information of local interest setting forth the importance of oil to Coke County. Watch for it next week!

100 miles or so north of Pittsburgh, and to the founding of an industry whose output since has become the lifeblood of civilization, just as steel has been its backbone.

CENTENNIAL OF OIL

The American petroleum industry is celebrating its centennial anniversary this year, in recognition of that great discovery in 1859. Although the actual birth date is August 27, centennial celebrations are going on throughout the year. The theme is "Oil's First Century—Born in Freedom—Working For Progress."

Special Session May Be Called in Jan. To Enact Pay Raises for Teachers

By VERN SANFORD
Texas Press Association

AUSTIN, Tex. — None of the money-raising bills that failed to pass the Legislature during the past seven months were put away to gather dust.

They'll be on parade again if a fourth special session is held to raise money to increase public school teachers' salaries.

Gov. Price Daniel has said he will call the session if the public demands it. Texas State Teachers Association has its campaign rolling to create this demand.

TSTA's goal is a program that would cost \$63,000,000 over a two-year period. Of this, \$56,000,000 would go for a \$405 increase in annual base pay for teachers.

This would bring teachers' base pay up to \$3,610 a year. Hale-Aiken Committee recommended a minimum of \$3,800 a year plus a number of other school improvements that would have totaled some \$200,000,000 for a two-year period. But TSTA decided that getting that big a tax bill would be too tough. For the time being, the 70,000-member teacher lobby will settle for a package one-third this size with emphasis on the item it wants most — pay raises.

Time most discussed for the new special session is the politically crucial month of January. This will give the teachers, scattered in timmer, time to get organized. It also is the month for poll tax paying, with Jan. 31 as the deadline. (Governor Daniel said, "January or February would be the time.")

Next year, for the first time, January will be the month for candidates for office to make their announcements. New law makes Feb. 1 the deadline for filing for state primaries.

There's talk that Governor Daniel will announce for a third term if teacher raises are turned down. On this the governor says, "I'm not closing any doors."

Privately, many legislators are glum at the prospect of being boxed in by another round of tax-and-spend pressures, particularly right before their campaigns begin. They expect to get a lot of static anyway, from the tax measures they've already voted.

But few will oppose teachers openly. As one said, "If you're against teacher raises, they'll say you're against good schools and little kids and motherhood — it's suicide."

WATCH FOR NEW LAWS — Scores of new laws passed during the regular Legislative session ending in May go into effect this month.

From here on, anyone convicted of four moving traffic violations within 12 months will be classed a "habitual violator", subject to drivers license suspension for any period up to a year. Same rule applies to anyone convicted of 7 or more violations committed within a 24-hour period.

New, tightened laws are in effect on the waterways, too. Now against the law are: operating a boat or skiing while under the influence of liquor, skiing at night and "reckless or negligent" boating and skiing.

Now required by law are: a life preserver for every passenger on a boat and a lighting system, according to size, for every boat. Boat registration fees will not be

required until next April.

Another new law makes taking a ride in someone else's car without his permission a felony offense. Previously, it was hard to get more than a misdemeanor conviction for car stealing.

Ranchers and farmers will be required to fence land along state and U. S. highways to prevent cattle from roaming on the road. Law does not apply to farm-to-market roads.

Retail merchants no longer may advertise goods at "wholesale" prices. Only firms that sell only to retailers may claim wholesale selling.

Other new laws won't be noticed until later. For example, the new "stick with the party" law requires that a poll tax holder have his receipt stamped "Republican" or "democrat" the first time he participates in a primary or convention. From then on, in effect, he's stuck with the party stamped on his tax receipt — until he gets a new poll tax.

A new program to inspect for cattle disease at live stock auctions was authorized, but is expected to be very small scale for the first two years, at least. It was given only a fraction of the money supporters said was necessary.

O. W. and Henry Davis of Amarillo have returned home after a week's visit with Robert Lee relatives. They are sons of Mr. and Mrs. O. W. (Jake) Davis.

COKE SOIL CONSERVATION DISTRICT NEWS

Present Supervisors —

C. N. Webb, Chairman; W. E. Burns, Vice Chairman; D. K. Glenn, Secretary and Treasurer, Bryan Yarbrough and Robert Walker.

Survival of sorghum alnum is better than results of earlier inspections indicated it would be. Stands that appeared to have only 8% to 10% survival early this spring now show 40% to 50% survival. Good rains and the fact that sorghum alnum makes a late start may have made the difference.

Local Soil Conservation Service technicians have been making clippings in the count to secure some estimates of the production of range and pasture land in this area. These clippings supply only an estimate of the total production but are of interest as such. These are the results from clippings made so far presented in the form of pounds per acre dry weight. Second year sorghum alnum on Tom Wiginton's place — 8,000 lb.; third year sorghum alnum on Otis Smith — 10,000 lb.; third year blue panic on Charles Sims, — 8,500 lb.; third year Blue panic on C. D. Stewart estate — 5,800 lb; and third year Blue panic on D. K. Glenn — 4,500 lb.

A clipping made on rangeland, sandy loam silt, showed a yield of 2,670 lbs. per acre, dry weight.

The fall seed crop of native grasses is often the one that produces the most and best seed, so now is the time to plan on resting one of your pastures this fall to allow for a good seed crop. A grass cover on the ground is like money in the bank. It's there when you need it and draws interest in soil protection and lower soil temperatures.

Two Chevy middleweights prove their rawhide stamina!

Top hands on high-country hauls!

Ask any trucker who's been over Wolf Creek Pass, 10,850 feet up in the San Juans: a 9-mile pull to the summit and low gear all the way down. Mr. C. H. Phillips of Alamosa, Colorado, has a 6403 and a 6503 Chevrolet truck that are up over this route the year round, taking sheep and beef to pasture, later marketing the stock in Denver. In less than a year, his Chevy middleweights have averaged about 50,000 miles of

this kind of treatment—and they're going stronger than ever!

Watch Chevy trucks at work out in range country. It's a sight to see the way they pack into high-up mountain pastures and handle through brush and rock like a cowman's favorite cutting horse. Take any truck work for that matter. Chevy middleweights probably handle a bigger variety of jobs than any trucks alive. About anything you name, includ-

ing work that used to be reserved strictly for bigger rigs. When a truck's built the way a Chevy is, lean-muscled and rawhide-tough, it takes to ugly trails the same way most trucks roll over the highway. It just keeps going, without a big to-do, but looking good every mile of the way. How they do it is your Chevrolet dealer's department. He'll be glad to supply details and specifications on the type of models you need.

No job's too tough for a Chevrolet truck!

Plaintiffs Rest Case In Coke Oil Land Suit

The plaintiff rested here Tuesday in a Coke County land suit involving title to a portion of the Jameson (Strawn) oilfield, one of the most prolific in the Permian basin.

Proceedings opened Monday in Judge Joe L. Mays 51st District Court.

Court resumed at 9 a. m. Wednesday with defense testimony.

Also in Monday's action, attorneys for both sides reached stipulations as to the oil and gas runs in the section since the petroleum discovery on the tract. It's value is around \$800,000.

Plaintiffs are suing for the recovery of 160 acres of land, about 10 miles northwest of Robert Lee, for oil wells on the land, and proceeds from the wells.

Defendants are Bill and Olin Banks and Mrs. W. T. Matlock, of San Angelo, and Mrs. Slade Brown of Monroe, La., and others.

Plaintiffs in the suit are heirs Mrs. Mary A. Green who died in 1902. Depositions have been entered in evidence to prove plaintiffs are Mrs. Green's heirs.

Plaintiffs' attorneys are Dell and Jerry Barber, both of Colorado City.

Attorneys for the defendants include Glenn R. Lewis and Glenn J. Lewis, both of San Angelo, and Frank Dickey of Robert Lee. Members of the all-male jury are James Allen, Marvin Corley, Douglas Dittmore, Fred McCabe Jr., J. J. Phillips, George McCaleb, Joe Swilings, T. E. Tidwell, R. C. Patterson, Jack Corley, F. C. Harrison and Carl G. Munn.

They want to be back home for the opening of school. Frank operates his own barber shop at Socorro.

VISITORS FROM WASHINGTON

Arriving early last week for a visit with Robert Lee kinfolks were Mr. and Mrs. O. E. Johnson of Cashmere, Wash. Mrs. Johnson is the former Gertrude Murray and is a sister of Effie and Nannie Murray of Robert Lee. The ladies' father was an early day sheriff of Coke County and later the family moved to Kermit. Mr. Johnson and Gertrude were married at Pecos in 1911 and moved westward, while other members of the family returned to Robert Lee. This is Mr. Johnson's first visit here, and the first time his wife had been back since 1917. The Johnsons are retired and reside in a nice little town of 2,000 near Wenatchee. They have two married daughters residing in Seattle.

Mr. and Mrs. J. S. Walker enjoyed a few days trip last week to the Big Bend National Park. They enjoyed the scenery and good paved roads through the park, and noted that many more tourists are visiting the Big Bend country since highways and other improvements have been made.

SMALL TALK

By A. J. K.

Two Latin-Americans, a young man and a married woman, recently have received bites from black widow spiders and required medical treatment. Black widows are small insects and are readily recognized by their red stomachs. Sometimes splotches of red may be detected on their backs.

Dave Hoots of Bronte is another of The Observer's oldest subscribers. He's been taking this newspaper 42 years straight and will be getting it again the coming year.

Beginning Oct. 14 parents' consent and a three-day wait will be required between the applicants for a marriage license and the wedding if the groom is under 21 and the bride under 18. Changes in the law to slow down quickie weddings were voted by the legislature in its recent called session.

Too many people have failed to avail themselves of the Salk vaccine treatment against polio. But a new case right here at home will of course throw a scare into those who have been negligent.

Salk vaccine is said to be at least 80 per cent effective, and it would seem that the 4 out of 5 chances of warding off infantile paralysis are surely worth while.

Since some sections of the country have had serious polio outbreaks this summer, the serum has become hard to get.

Coke County Memorial Hospital has orders in for an additional supply, and persons under 20 years of age will have preference.

Mr. and Mrs. C. S. Brown returned Sunday from a two weeks' vacation in Denver, Colo. They accompanied Mrs. Brown's brother, Kendall Young and wife of Ralls, and were guests in Denver of the Young's son and his family.

Mr. and Mrs. Jay Craddock and daughters, Roberta and Dana, came from Colorado City for a Sunday visit in the T. M. Wylie Jr. home. Roberta remained for a week's visit with her cousin, Prescilla Wylie.

Daniel Blair New Owner At Sinclair

Daniel Blair is the new operator of the Sinclair Service Station here, having bought out the interest of Ray Lackey, who plans to return to New Mexico.

The son of Mr. and Mrs. Jeff Blair, Daniel is pretty well recovered from a severe injury of two years ago in an oil rig accident. He was crushed near Andrews when a steel stairway leading to the drilling platform fell on him.

He has had to give up oil field work and will devote full time to his new business venture. Otho Long, experienced in station work, will remain with Daniel. The station is owned by A. B. Sheppard and is leased for a term of years to W. O. Irby, Sinclair consignee at Ballinger.

Twisters Lose Crucial Game At Brownwood

Robert Lee Rabbit Twisters faltered in their crucial Concho Basin League game at Brownwood Sunday, losing by a 11-5 score.

Only possible chance for the Twisters to get in the money is for San Saba to defeat Brownwood this week, and then for Robert Lee to lick the San Saba club there next Sunday. In that case Brownwood and Robert Lee would be tied for second place in the loop, and they could play it off to see which club met Kirby for a shot at the jack pot.

Brownwood has walloped the Twisters every game this season, except for the season opener which was won by Robert Lee 5-2.

Last Sunday Robert Lee got a 4-0 lead, but Brownwood scored three runs in the fourth and five in the fifth frame to go ahead and stay there. Richard Dumas was hit hard in early innings and gave way to Lefty Paul Tinkler in the middle of the game with the score standing 8 to 5.

Norman Roberts slammed two doubles and single, P. Tinkler with a 2-bagger and a single and Ed Poehls with a homerun led the Twister attack. Lew Heuvel, the old pro who returned to the lineup at second base, cracked a single to bring in the first two Robert Lee tallies.

Missing from the regular lineup were Marlon McCutchen and Bennie Corley. Royce Smith was in left field.
