The Question of Wool Tariffs

(AN OBSERVER EDITORIAL)

The question of tariffs being debated in Congress is important to us in this locality. Writing as a sheep grower, we would be much concerned. Looking at it from the standpoint of the best interest of other businesses, including the newspaper, we would still be concerned.

If tariff is lowered or removed from wool, much would depend on how it is done—whether a little at a time or all at once. Also much would depend on how we as sheep men prepared to meet it, on how we are given time to adjust to it.

The proposal to turn tariff making over to the President could be very dangerous, regardless of who might be president. Anything the President has complete control of is administered by people in the government service over whom we, the people, have very little, if any control. Often the President himself has very little control over them.

Billie Sol Estes is probably not the worst man in our time, neither can we lay all his sins at the feet of the Democrats. He was well started under Eisenhower.

We have had men do these things ever since we had a government. The Jay Goulds, and the Teapot Dome people date back a long way. It is simply that when we get such vital things turned completely over to a bureaucracy with a blank check authority, then we lose many of the advantages of representative government. And there are always clever men who trick their way in and manipulate that sort of control to their advantage.

Arthur Tubbs Find Robert Lee People Around New Mexico

Just making a tour, Mr. and Mrs. Arthur M. Tubbs spent last week Monday to Friday driving over New Mexico, stopping to chat with old Coke county friends and relatives. They were accompanied by Mrs. Mary Roe and Mrs. Katie Stroud.

They found the country in short grass, but green and showing signs of recent rains. Springer, where Dick Wooten, who married the daughter of Floyd Sturman, granddaughter of the former Ruby Bell has an extensive ranch, they spent the first night.

From there to Red River and Santa Fe, and then down to Las Cruces, they visited Wednesday night with Garland Green, son of Ethel Conner Green. From there through the White Sands, and then to Cloudercroft and Ruidoso, where T. B. Hicks, former county agent of Coke County operates a large feed store, they stopped to see Mr. and Mrs. Hicks. She taught in the schools there until an automobile wreck, and is not teaching at present.

At Ruidoso, Bud Jones is training race horses, and spends the winter with horses at Tucson.

They found good cotton, waist high, under irrigation at Hatch.

At Odessa they saw Mrs. Veva Stroud Roberts, who is operating the Rancho Motel which she bought from Delbert Walling, and had a visit with their son, Mack Tubbs and wife. Mack is working for B&B Construction.

LETTER ON AMENDMENT

Considerable opposition is developing to the constitutional amendment fourteenth on the ballot. It is printed elsewhere in this issue along with a letter on the subject by Bob L. Davis.

Replacement For Fire Truck Is Given Study

Early in June a petition was started asking the county to buy a fire truck for Robert Lee, one of the trucks now in use here to be turned over to Silver.

This petition was not presented at that time, as there was some controversy and it was decided to wait until everyone concerned had more time to study the matter and the public generally to be better informed as to the needs, and give the question calm consideration.

Now that the budget for the county is being set for the coming year, the amount to go into the budget for fire fighting equipment will be set soon for 1963.

County officials have pointed out that the only funds from which money can be paid directly for fire fighting equipment is the General Fund, and that money has to go into this fund before it can be taken out.

The only source the General Fund can draw on for this purpose is from the funds allotted each precinct by a per centage distribution each year.

There is money available that can be transferred out of Precinct 1 into the General Fund to buy a fire truck. But there are also other needs for this money.

Edith Homecoming Set For Next Sunday

It may be thirty years—at least near that since the first Edith Homecoming was held at the old tabernacle.

Next Sunday, August 19, is the date for the 1962 Homecoming, and Frank C. Dickey is master of ceremonies. Frank Coalson is president of the association, Finis Harmon secretary-treasurer. It will be held at the Green Mountain Community Center.

A brief meeting will begin at 10:30, with Ulmer Bird conducting the devotional.

Ice tea will be furnished by the community, and homecomers will

Houston Pastor To Lead In Revival At Robert Lee Church

The Robert Lee Baptist Church, Rev. Robin Guess pastor, are announcing their revival services to begin next Sunday, August 9, with Rev. Robert Latham of Houston preaching.

Gale Coody of Tulsa, Oklahoma will be the singer and song leader. The pastor will begin the services Sunday, with the two visiting workers present Monday night.

Morning services will be from 10 through 11 Tuesday through Friday; evening services will begin at 7:30 on week days. The public is cordially invited to each service.

The preacher is pastor of Sharpstown Baptist church at Houston and is a graduate of Howard Payne College at Brownwood. The singer is educational director at Red Fork Baptist Church, Tulsa.

spread a basket dinner at noon. The name "Edith" was given to the post office that served a number of early day communities, including part or all of those that ent by the name of Paint Creek, Wildcat, Pecan, and Green Mountain.

The center of the community shifted several times—at one time being at the tabernacle and the store near it something like a mile and half north of the later location of the Edith store and post office on Highway 158.

Schools in the area were later consolidated at Green Mountain, and Pecan Baptist church was a place of worship from early years, still in use between the Green Mountain school, now a community center, and the present Millican Camp.

Those who still farm and ranch in the community invite back all old residents and friends for the annual day of remembrance, visiting, and fellowship.

Light Rain Adds Up Two Inches In August For Town

A light rain that spread out thin in places refreshed the country and produced up to 1.4 inches in Robert Lee Monday night, making a total for August so far of a fraction over two inches, for Robert Lee.

July produced 2.41 inches, according to the Soil Conservation Service gauge at the court house.

Other places around Robert Lee reported from a mere sprinkle to 0.2 at the J. W. Service home place, 0.3 reported by Skinny Adams at Walter King's place west of Blackwell, ½ inch on the A. V. Hughes place south of town.

Passersby on the highway reported rain from Lubbock through to San Angelo.

Major Burpo Retires After 20 Years, With Medal, Commendation

Major Robert Carl Burpo, known to many Robert Lee people, has retired from the Army after 20 years service.

Mrs. Burpo is a daughter of Mrs. Hattie Day of Robert Lee, and they live at 106 River Oaks St. in San Angelo.

Major Burpo served in World War II and in the Korean War, and holds the Bronze Star medal. He was advisor to the 90th Transportation Battalion, 90th Infantry Division, in Midland this last year, and specific appreciation for this work was expressed in the retirement ceremony held for the major in the office of Major General T. R. Yancey at Austin.

Early this week Mrs. Carl Brock took Mrs. Bill Loyd to the M. D. Anderson hospital at Houston and back to her home at Bangs, returning to Robert Lee. Mrs. Lloyd is to go again next week for further treatment.

Among the Men

Ernest Clendennen at Silver is keeping busy with his welding equipment despite the fact only three wells are drilling and they are in the Maryneal field.

Maintenance work on plants and equipment, plus pipe line repairs still call for the welders. Often a stretch of line has to be replaced, due to action of chemicals that eat holes in the lines—either from the natural soil or from salts or other corrosive materials deposited in the process of drilling and production.

Inquiry reveals more horses and horsemen around Robert Lee than most of us realize. During the long drouth it looked like Mrs. Mare was through. You could buy a good one then for \$15.00. But not so now. People who loved horses and were able to feed them kept seed stock. Now it takes a good check book to buy a good horse. But they can be found.

Robert Porter, whose father is H. B. Porter, Superintendent of the Norton Public School, took to the outdoors, first in ranch work, later the oil field, and is now working on Hondo's rig 6, on the Roy Spires ranch in the Maryneal area. He keeps a two-year-old filly boarded out on a farm near Robert Lee.

Virgil Streng and Roy Clawson are also working on the same shift, morning tower.

Supt. Porter once operated variety stores at Robert Lee and Bronte. Marcella, Linda, and Lewis are in school in A.C.C. A married daughter, Mrs. Harriet Stevens, lives in San Antonio, and a younger son, David, is at home.

Bob Fields took third place at Sterling City with his quarter

horse stallion, a red roan, Crockett King. Bob started breaking horses out at Green Mountain when he was a boy in school, and kept with them until after he married and had a family.

He says good ranch horses and kid ponies are hard to find now, and that most horses on ranch work are getting up to ten and twelve years old, and young horses are often not being ridden enough to train them and keep them gentle and working.

The Masons and their families will be guests of the OES for a picnic supper and program at the County Park Monday, August 21, at 7:30 p.m.

Founders Day was observed in a special program by the OES Thursday, August 9. A tribute was paid Robert Morris, founder of the order.

Visiting in the Sam Powell home were Susan and Ray Lee from San Angelo.

Many people have birds as pets. Perhaps one of the most amazing is the Pete Davis sparrow. Saved when it was thrown out of its nest, Pete took it home and fed it. Now four years old, it happily sings a song in its cage. They also have a cockitail and a parakeet.

Mrs. Keith Hood and son, James Keith, have returned from a six weeks' trip to Warwick, Rhode Island, where they visited Mrs. Hood's mother and other kinfolks. Enroute home they stopped in Cincinnati, Ohio, for a visit with a brother of Mrs. Hood. They made the journey by bus and were brought home from Abilene by Mrs. Royce Gene Hood.

Mr. and Mrs. Elbert Hurley have returned to Robert Lee to make their home. They spent the past year at Richland Springs looking after property owned by a son.

LETTERS TO THE EDITOR

Mr. Ulmer Bird, Editor
Robert Lee Observer
Robert Lee, Texas

Dear Ulmer:

I read with great interest your suggestion that the people study the Amendments to the Constitution, which are to be voted on in November.

There is one particular Proposition (No. 14) to be voted on, known as HJR 32—PROPOSED "TRIAL DE NOVO" AMENDMENT TO THE CONSTITUTION.

There is no other State in the Union which has in its constitution a provision similar to that proposed. It strikes at the very heart of some very basic precepts of American Government. The provisions of the proposed amendment are so broad and sweeping that it could have substantial effect upon all branches of our local governments (as well as on State Government), and all persons interested in orderly government should certainly vigorously oppose its adoption.

Should a controversy exist as to any decision of any administrative agency of the State, or of the governing body of a political subdivision of the State (city councils, commissioner's courts, trustees of school districts, etc.), the controversy would be settled by the court "in the manner and under the conditions prescribed by the Legislature."

The adoption of HJR 32 would permit the Legislature to grasp almost unbridled power over the other branches of government, and in its present form, the proposal can only be considered dangerous to all political subdivisions of the State of Texas. Such matters as the adoption of budgets, the setting of a tax rate, the awarding of contracts, the hiring of teachers—indeed all phases of the day to day operation of any political subdivision of the State could be made the subject of court review under any terms and conditions the Legislature may hereafter provide.

The most dangerous aspect is that it takes a pretty smart Philadelphia lawyer to understand what it is all about. And the above explanation of the bill is that given by one of the outstanding Municipal Attorneys in the State, and I have hardly touched upon all the evils of the bill. Therefore, I think you would be doing your city, county, school district, and your citizens a great favor in advocating the defeat of this amendment.

Yours very truly,
Bob L. Davis

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOURTEEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 32 proposing an amendment to the Constitution of the State of Texas to authorize the Legislature to provide for trial de novo on all appeals to the courts from actions, rulings or decisions of administrative agencies and executive departments of the State of Texas or any of its political subdivisions.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That the Constitution of Texas be and same is hereby amended by the addition to Article II of a new Section to be known as Section 2, said new Section 2 to read as follows:

"Section 2. Notwithstanding any other provision of the Constitution, the Legislature shall have the power, by general law, to provide for appeals to the courts from any and all actions, rulings or decisions of administrative agencies and executive departments of the State of Texas or any of its political subdivisions, under such provisions and limitations as the Legislature shall deem necessary and desirable; and the courts of Texas shall have no power or authority to refuse, deny, or change the manner of such appeals, if brought in the manner provided by general law, even though such appeals shall be provided de novo as that term is used in appeals from Justice of the Peace Courts to County Courts; and should the Legislature provide for such appeals to be tried completely de novo and independent of any administrative or executive action, ruling or decision thereon, the courts shall comply with such general law and shall hear and determine such appeals in the manner and under the condi-

tions prescribed by the Legislature, even though such action on the part of the courts involves administrative or executive rather than judicial powers; provided, however, in the absence of legislation enacted subsequent to the adoption of this amendment, all such appeals shall continue to be prosecuted in the manner now provided by law, as interpreted and applied by the Appellate Courts of Texas on the date of the adoption of this amendment, and no change in the manner of such appeals shall be effected except by legislation enacted subsequent to the adoption of this amendment."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State, at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1962, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment granting the Legislature power to provide for trials de novo on all appeals from actions, rulings, or decisions of administrative or executive agencies of government."

"AGAINST the Constitutional Amendment granting the Legislature power to provide for trials de novo on all appeals from actions, rulings, or decisions of administrative or executive agencies of government."

If it appears from the returns of such election that a majority of the votes cast therein are for such amendment, same shall become a part of the Constitution of Texas.

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for such election and this amendment shall be published and the election shall be held as required by the Constitution and laws of this State.

Softballers Break Tie To Edge Pool Service By 3-2 End of Ninth

A Robert Lee softball team, mostly from the Twisters won another closely tied melee at Hickman field at the end of the 9th in what would normally have been a seven inning game. It was tied up at the end of the 7th.

Allen Rowaldt did the pitching

and then bunted to help break the tie, when the field overthrew first base and let him to 3d, then Joe Roe hit a long fly, was caught out, then Rowaldt scored on the throw-in.

The Pool Well Service team scored 1 in the first, 1 in the seventh. The locals scored 1 in the second, one to tie in the 7th, and then the final run in the ninth.

Something you should think about if you're about to buy a truck:

If all trucks were built the same way, cost the same to keep up, were worth the same at trade-in . . . then probably the price tag would be your only concern. It can't be, of course, because some trucks have more quality than others. And marks of quality are the real keys to low cost.

Chevrolet trucks, for example, have double-wall construction, which gives bodies and cabs more strength. Cabs are insulated against heat, cold and noise. A big part of road shock, which shortens truck life, is damped out by Chevrolet's suspension system; it also makes riding in the truck a pleasure. Pickup bodies and cabs are separated to eliminate stress between them.

Value such as this has induced more people to invest in Chevrolet trucks every year since 1937.

This can be a good time to buy a modern new Chevrolet truck

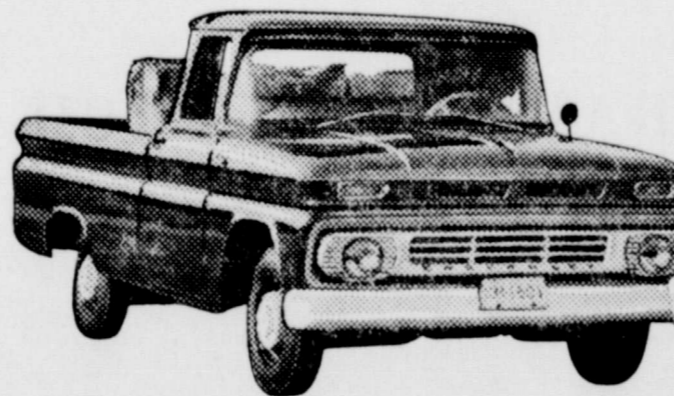

Late summer traditionally is the season for all-around savings on a new Chevrolet truck . . . selection is still good . . . deliveries are prompt . . . and Chevrolet dealers are doubly anxious to put you into a new vehicle in order to make way for next year's models. Coupled with the efficient performance a new Chevrolet truck will give you, it seems evident that you couldn't buy at a better time.

Come in and take full advantage of it!

LETTERS TO THE EDITOR

Dallas, Texas
Aug. 5, 1962

Mr. Ulmer Bird:
I'm sorry I have been late with my renewal of my subscription.

I enjoy reading the Observer each week; especially when I see the familiar names I remember as a girl, living in Robert Lee. I was the former Bertie Warren, daughter of John H. Warren. I lived there all my life until I finished high school there in 1920. Then I came to Dallas and went to work. My sister, Quilla, was here working when I came, July 4, 1920.

I may be wrong, but aren't you the son of Mr. Bird who was principal of Robert Lee school when I graduated. Thelma was in my class earlier but Henry — a nephew of Mr. Bird graduated when I did.

I have lived in Dallas all these years. Married in Oct. 1921. Still married to the same man. We have a daughter and son, 3 grown grandchildren, one girl and two boys.

I still work (Republic Nat'l Life Ins. Co.)

Bye for now,
Yours truly,
Mrs. (Bertie) Kenneth W. Therrel

The names I am familiar with are the "old timers."
Chism and John Brown, Evah Mahon, Mrs. Buchanan, Frank Smith, Elbert Higgins, Fern Ha-

vins, Ernest Varnadore, Victor Wojtek, Ione and Gerald Allen, Allie and Alta Bilbo, Bruce Clift and many others.

Oh, yes! Frank Dickey, Mrs. Sam Powell, (formerly Naomi Lee Adams, a 1920 graduate), Alfred Lofton, Orville Childress. Oh gosh! I could go on a long time naming names.

Editor's Note:

Yes, my father was superintendent of the Robert Lee Schools when the old building was really the old building—two terms, around 1920.

He did not have a nephew named Henry, but I believe a nephew, Clarence Cosby, did go to school here awhile. He is now at Canyon, with the West Texas State Teachers College, in charge of grounds and landscaping work there.

RAYMOND SCHOOLERS HERE

Mr. and Mrs. Raymond Schooler have been in Robert Lee this week. They are ranching near Alamosa, in southwestern Colorado, and doing some irrigation to supplement their pasture. From wells, and from streams with small reservoirs considerable watering of native pastures as well as alfalfa, potatoes and other crops is being done in that country.

Envelopes were not used for mailing purposes in this country until about 1845.

Cotton culture is thought to have originated in India about 1500 B. C.

Rites Held Here For Mrs. Ott, 93

Funeral services were conducted last Thursday afternoon for Mrs. Minnie E. Ott, 93, and a resident of Bronte for 47 years. The last rites were conducted from the First Baptist Church, with the Rev. Murrell Johns, pastor, officiating.

Mrs. Ott had been in ill health for a long time and died last Wednesday morning at the Christoval Golden Age Home, where she had been for only a short time.

The former Minnie Hudson, Mrs. Ott was born Nov. 5, 1868, in Alabama. She married Lloyd Duncan at Mt. Calm in Hill County. He died in 1901 and she later married D. M. Ott. Mr. Ott died several years ago. Mrs. Ott was a member of the Baptist Church.

Survivors include two sons, Clint Duncan of Bronte and J. C. Duncan of Mt. Calm; a daughter, Mrs. R. S. Walton of Bronte; a stepson, B. C. Ott of San Angelo; and a sister, Mrs. A. J. Nelson of Houston.

Burial was in Fairview cemetery under direction of Clift Funeral Home. Pallbearers were A. E. Gentry, W. D. McDonald, W. W. Ivey, Don Edmiaston, W. H. Maxwell, all of Bronte, and N. E.

Collett of Bakersfield, Calif.

From Out of Town

Out of town relatives and friends here for Mrs. Ott's funeral included: Mr. and Mrs. J. C. Duncan of Mt. Calm, Mrs. Robert Springer and Annie of Wichita, Kans., Mr. and Mrs. F. P. Brown of LaVern, Okla., Mr. and Mrs. Bob Duncan of Lubbock, Mrs. Vera McMillan, Mr. and Mrs. Alvin Dwain Ott, Blair and Lewis Ott, Mr. and Mrs. D. B. Kiker, Albert Gerald Gentry, all of San Angelo, Bobby Joe Ott of Camp Hood, Mrs. Worth Saylor of Snyder and Mrs. Paul Kenworthy of Odessa.

Molded Medley

With Far East Flavor

All the luscious goodness of favorite foods come to the table in a shimmering salad. This delightful combination of chicken, pineapple and almonds is chilled and molded in a gelatin mixture that boosts the fresh taste of 7-Up with accent of orange juice. Serve Oriental Chicken Salad for a luncheon or supper dish. Even when leftover chicken is used in making this recipe the fresh 7-Up flavor accent helps it taste as new as today.

POKE BONNET REVIVED—Secretaries at the U. S. Department of Interior have revitalized a 100-year old cotton fashion to commemorate the centennial of the passage of the Homestead Act. The original "poke" bonnet (left) was the style in 1862 for courageous women who wagoned west but didn't want the sun to freckle their faces. The New Frontier version—a perky bonnet of green plaid polished cotton—sports a modified brim to let the sun shine on its tan-conscious designer.

Potato Preference Makes The Difference

What is your potato preference? How you answer this may depend on whether you consider your time or your money to be more important.

When a homemaker uses fresh potatoes, she saves money but needs more time for preparation, which most women these days do not have.

From the standpoint of both time and cost, frozen french fries are the most economical of the processed potato products. A serving costs 5.6 cents, or only a third of a cent more than the price of French fries made from fresh potatoes. Use of the frozen product saves about 5 minutes per serving.

Mashed potatoes made from fresh potatoes cost 2.3 cents a serving, compared with 3.4 cents a serving for dehydrated potatoes. The potatoes out of a box save 2½ minutes per serving, however.

Use of dehydrated potatoes for scalloped potato servings costs 7 cents for each person, but you save 2.6 minutes time. Fresh potatoes cost 3.6 cents when served this way.

Boiled whole potatoes cost 4.6 cents a serving in a can, and if you do the work yourself, they are half that much. It requires 1.2 minutes more to prepare each serving if you peel them yourself.

We must trade. Southern people long advocated free trade, with tariff for revenue only. We make more than we can sell at home. Australia is buying more and more from the United States. If they are to buy here, they must sell here, as it takes dollars to buy.

No nation anywhere in the world can keep buying from us if they are cut off from selling. That is the life of trade, and once you stifle it, you have just what we had in the thirties, when our world markets failed and we felt it in every nook and corner of the land, in a great depression.

But the constitution gives Congress the authority to make the laws, and provides that treaties must be made with the advice and consent of the Senate. We see no reason to change that, under any administration, or under any circumstances.

We believe that the sheep man, the economy of the country where he lives and trades, and the industry of the nation as a whole will be better served by preserving foreign trade, but by keeping tariff adjustment where the constitution places it.

To count up and say, as some in other sections have done, that this will be a good thing for the country, but of course will put so many types of business out of business, is the sort of thing bureaucracy left unchecked would do to us. The welfare of this nation will not be served by destroying the sheep business or any other business.

We will have to make some adjustments in tariff on wool, as on other commodities. But we should keep it in the hands of Congress, and keep in touch with our representatives and senators all the way.

It is not a question of Democrat versus Republican or even of Conservative versus Liberal, but of what is right, wise and best.

Land of the Arrow Makers

STONE AGE TOOLMAKERS LEFT TRACES OF VAST INDUSTRY

If we ever had the idea that the Indians were a people living somewhere else, that idea will vanish with a close look and study of the traces they left behind them in our own pastures.

There are scores, perhaps hundreds of camp sites in any pasture that has or has had permanent water in a creek or draw or river, and all over the hills nearby.

Where the plow or other modern activity has not disturbed them there are small mounds or groups of stones that plainly show to have been burned by fire, usually a limestone turned somewhat blue and made brittle and crystallized inside by the heat.

These little piles of rock are usually about three feet across and the chunks of stone may be about the size of a man's two hands clasped together.

All about are small chips of flint, little flakes that had not occurred in nature, but came from the chipping of larger pieces of flint, by the hand of man.

These flakes would usually be not much larger than a 25 cent piece, and they occur almost everywhere if they have not been covered by sediment, wherever the surface of the land is exposed to view undisturbed by our civilized activity.

If you would look for some of these, as you walk across almost any of the lower hills you will

find them here and there among the stones, or as you walk along the creek banks where the favorite camp sites were, you will see the little chips of flint everywhere.

We have ridden by these camp sites all our lives without ever really seeing them or realizing what they are. Many of them have been destroyed by fields, roads, oil field construction, and root plowing, and other work of modern machinery.

But there are hundreds — perhaps thousands of them left. One purpose of this article is to call ranchmen's attention to this, in the hope that enough of them will be protected and preserved so that the children who live here, and perhaps tourists who some this way may find a place where they can see first hand where the Indians lived, how they lived, and what they left behind to remind us that this country in which we live was once well populated by races whose names, dates, and history are gone forever from our sight, long before even the Spanish or the Comanches found it.
