Willie Davis, 63, Dies At Toler

Willie Davis, 63, was found dead at his home in Toler about 6 p.m. Saturday when his wife returned home from work. A doctor, who was called said that he died of natural causes, probably a heart attack, and that he had been dead several hours.

Funeral services were held in Toler Baptist Church Monday afternoon, with burial in Toler cemetery. Survivors are the wife, one son, one daughter and two grandchildren.

Mrs. Davis is the former Eula Johnson, a sister of Andrew Johnson, who ranches five miles west of Robert Lee. She taught in the old Edith school many years ago.

Jerry Parker, son of Mr. and Mrs. Truman Parker of Bronte, was second high individual in the

BCD Has Quiet Meeting Tuesday

A rather quiet meeting was held by 15 BCD members Tuesday at noon. Some informal discussion was held on various matters, and then the organization voted to have some letterheads and mailing pieces printed. The letterheads will be used for carrying on BCD correspondence, while the mailing pieces, which will contain a summary of information about the community, will be used to promote the town and area.

There was some discussion about using approximately \$30,000 now on hand in the county park fund. It was brought out that some representatives from Bronte have been discussing use of the money for acquiring more land for use in the park there. Some civic leaders in Robert Lee have also expressed an interest in additional funds for park and recreation use. The commissioners court is working on a project to get the local money matched with funds from the State Parks and Wildlife Commission.

Progress Is Good On Robt. Lee Dam

Steady progress is being made toward the beginning of work on a lake on the Colorado River just above Robert Lee.

O. H. Ivie, general manager of Colorado River Municipal Water District, said Saturday that during the past week understandings on trades affecting about 1,000 acres of land in the basin area had been made. This will make about 4,600 acres now purchased or under a

greement to the district.

This is about 30 per cent of the total acreage needed, and it leaves 14 property owners yet to be contacted. Four of this number own over 10,000 acres. Ivie said that negotiations were proceeding satisfactorily holding within appraisals.

A meeting has been set for June 23 in Fort Worth with Richard Locke, representing the fiscal agents of Eastman, Dillon, Union Securities, Inc., and Freese, Nichols and Endress, the district's engineers. Out of this confab likely will come the final draft of the prospectus for a \$30,000,000 revenue bond, according to Ivie.

Last week Ivie, together with S. W. Freese, Fort Worth, engineer, J. A. Snell, San Angelo, District 7 state highway engineer, the resident engineer and several from the state office, conferred on the re-routing of several miles of State Highway 158 (Sterling City - Robert Lee). Both the district and highway department will make engineering studies and then get together at another meeting.

Engineers have given a firm estimate on completion of plans for the big dam in time for an early September letting.

Scouts' Parents Going To Camp

Parents of Robert Lee and Silver Boy Scouts, who are at Camp Sol Mayer this week, plan a mass invasion of the retreat on the San Saba River tonight (Thursday).

The mothers and fathers of the scouts met Monday afternoon and discussed their prospective trip and made assignments for food preparation. They plan to have a big picnic for the Robert Lee scouts, the little brothers and sisters and themselves.

Following the picnic, they will witness a program which will be designed to show some of the things they have learned and skills they have developed this week.

The trip to Sol Mayer is a big thing for Boy Scouts as the camp is located on the San Saba River west of Menard. The river has been dammed up so that skills such as swimming, life saving, canoeing, etc. can be put to practical use.

Adult leaders accompanying the local scouts included Gene Hinnard, Robert Lee scoutmaster; Jim Herford, Silver scoutmaster; and Fred Beaty. More than 30 scouts from Robert Lee and Silver are attending.

Voters To Decide Type Government

Saturday, July 9, is the date which has been set for a city election in Robert Lee to determine whether or not citizens want to change their city government from commission to alderman type. If the change is approved, three aldermen will also be elected at the same time.

Five candidates have signed up seeking places on the proposed new city council. They are Melvie J. Thomason, O. H. Campbell, Gene Hinnard, A. B. Sheppard and Delbert Shoemaker.

WTU NOTEBOOK-PATTERNS FOR PROGRESS

INDUSTRIAL PROSPECTS
... a must in Economic Development

Obtaining leads on industries that might locate in a community is one of the hardest parts of any sound economic development program. The lack of an industrial prospecting program that produces several leads may cause serious mistakes by a community in financing or other endeavors to attract unsound or unattractive industry. A community needs a well balanced program, combining all the techniques and utilizing all of the sources that will give it increased effectiveness and chances for real success.

LOCAL PEOPLE AS A SOURCE OF INDUSTRIAL PROSPECTS — usually provide a sound reason or give the community a competitive advantage in attracting the industry.

—**BUSINESSMEN**—should ask the company representatives they buy from if the company needs additional manufacturing facilities to serve this market area, also, service stations, restaurants and motel people can ask their customers.

—**CITIZENS**—who know someone that works for an industry should inquire if that industry might be interested in locating a plant.

—**EXISTING INDUSTRY**—may need a companion industry to supply them with raw materials or services. Expansion of existing industry is sound economic development.

—**LOCAL IDEAS**—can provide leads for the local people to establish an industry of their own or attract a certain type industry.

and college graduates

—**EX-CITIZENS**—should be contacted, advising them and asking their help to obtain leads on any industry that could logically locate in the town.

CHAMBER OF COMMERCE ACTIVITY — should utilize such programs as direct mail, asking local citizens to call on industries when they are on a trip — watching all news media for possible leads or indications that a company might expand.

COOPERATION WITH OTHER AGENCIES — such as utilities, banks, railroads, regional and state development organizations can provide leads for new industry. Keep all of these organizations fully advised of the local programs, advantages, activities and community interest for attracting new industry for improved economy in your community.

ANY and ALL industrial leads should be handled through and by the local group that has been delegated this responsibility, usually the Chamber of Commerce.

Ask your WTU local manager for additional information and services available.

**CITY ELECTION —
Continued from Page 1**

Present mayor, Robert Vaughan, and present commissioners, Freeman Clark and Vaughan Davis will automatically become members of the new city council, if voters approve the change.

Discussion of the change has been going on for several months. Considerable opinion favoring the change has been expressed because of the heavy workload expected to fall on shoulders of city officials during the next few years. Proponents say that with the building of the big dam at Robert Lee and the influx of new people the job will bring, that additional members on the city's governing body would be a definite advantage, as it would spread the workload among more persons.
