Pancake Supper A Big Success

The pancake supper and program held last Friday night at Robert Lee School was a big success according to officials of Robert Lee-Silver Lions Club and Coke County 4-H Clubs, sponsors of the event.

One Lions Club official said, "It was a tremendous success and we greatly appreciate the cooperation of everyone."

Much help from a large number of persons outside the sponsoring organizations went into the project to make it a success, and the sponsors asked The Observer to convey their thanks to those who contributed toward the purchase of food and other expenses, and to those who appeared on the program.

Lions Club and 4-H officials said, "Without the wholesale cooperation of so many persons and businesses, we could never have had such a fine supper and program as we had this year."

Those who made donations to help defray expenses included:

From San Angelo: Westernman Drug, BW Merchandise, Newman Feed Mill, Nathan's Jewelers, Producer's Livestock Auction, Porter Henderson Implement Co., Rogers Machine Co., Modern Way Food Markets, Inc., Martin-Glover Wholesale Grocery, Harry's Food Store, M System Food Stores, Foremost Dairies, Gandy's Creamery, Model Steam Laundry,

Auto Inspection Deadline Nears

AUSTIN — Colonel Wilson E. Speir, director of the Texas Department of Public Safety today reminded motorists that only one month remains before the 1969 motor vehicle inspection deadline.

To date an estimated 28 million vehicles have received the inspection required by state law. The Department of Public Safety said some 3.2 million additional vehicles remain to be inspected prior to midnight, April 15.

Speir said 42.2 per cent of the vehicles inspected so far required mechanical adjustments prior to issuance of an inspection sticker. The defect found most often has been misalignment of headlights.

The Department of Public Safety urged motorists to get the inspection soon to avoid long lines which will develop at inspection stations as the April 15 deadline approaches.

Texas has 5,466 licensed inspection stations. The required inspection fee is \$1.75.

Money Needed For Ag. Center

A fund drive is underway to raise funds for the Texas A & M Agricultural Center which will be located in San Angelo. John S. Cargile, president of the San Angelo BCD, said that \$110,000 in pledges had been received and that pledges of \$50,000 are needed from the area outside San Angelo.

LeDrew Arrott is chairman for this area and has pledge forms for those interested. He pointed out that since the center is being built for the benefit of agriculture, farmers and ranchers of the entire area should support it.

Pledges may be made and paid over a period of five years.

Edith Area Gets Inch of Moisture

Slow drizzling rain during most all of last weekend left up to an inch of moisture in the Edith area, with lesser amounts in other parts of the county.

Farmers and ranchmen said even though the moisture was not as much as was needed, that it would help bring up grass and weeds for grazing.

Other measurements reported to the Observer included .35 inch at Robert Lee, .7 inch at Sanco, .6 at Silver, .7 south of Robert Lee, .85 inch at Bronte.

Temperatures jumped up into the high 70s Tuesday and Wednesday and it looked as if spring had arrived.

BCD Planning Brochure On Robert Lee, New Lake

Members of the BCD started making plans at Tuesday's meeting to print a new brochure for use in advertising Robert Lee, the new lake and this entire area.

The civic organization has postponed the publication of a brochure for several months in order to include pictures and information about the dam and new lake.

President Garland Davis said he would appoint a committee at next week's meeting to begin a study, draft and compile the new booklet.

It was brought out that the BCD should wait until later in the spring to take pictures to be included, with hopes that heavy

spring rains will provide some water in the lake.

G. C. Allen told members that some time in April has been set as the target date for completing the dam. He added that more fill has to be moved in, and in the event of bad weather, the contractor could get an extension on the time.

Cumbe Ivey Jr. reported that a proof sheet on the proposed welcome signs was received from a Dallas sign company, but it was sent back for reworking and probably would be returned the latter part of this week.

President Davis mentioned the need of the Robert Lee Boy Scout Troop for another tent pack

County Agents News Column

By **STERLING LINDSEY**

Sheep in the Texas Hill Country and Edwards Plateau have had unusually heavy infestations of lice during the winter and early spring.

The tiny chewing pests live on skin scales, scurf and other skin and wool products, and cause intense irritation as they feed in the wool. The itching and irritation results in the sheep biting and pulling at the wool and rubbing vigorously against posts, trees and other objects. The fleece becomes ragged and torn and is greatly reduced in value.

Biting lice usually spend their entire life on the sheep, leaving only to transfer to another animal upon contact. Peak numbers occur during the winter and may persist to spring shearing, after which the population declines. Small populations of lice sustain themselves on the animals during the summer and may begin to increase quickly with colder weather during the fall and winter when considerable damage occurs, according to the entomologists.

Louse control is difficult when animals are in heavy fleece. Insecticidal sprays furnish partial control, but they generally act much slower than desired. Dipping when animals are in full fleece is impractical and is not recommended. Best results are obtained from insecticidal treatments applied within a few days following shearing.

Treating within 30 days after shearing destroys lice which would remain on the sheep during the summer, and produce damaging populations the following fall and winter. Such treatments will practically eradicate lice from individual flocks. Other animals placed in the flock after

treatment should be sprayed thoroughly to prevent reinfesting the treated flock. Two treatments, the second one two to three weeks after the first one, should give more positive control. Do not spray and drench the same day.

Some of the products that are used to control lice are as follows: Sevin, Co-Ral, DDT, Diazinon, Delnav, Lindane, Malathion, Methoxychlor, Korlan and Toxaphene.

A total of 91 pets were vaccinated in the 4-H sponsored rabies immunization program last week.

AUSTIN — Texas lawmakers are nearing the halfway mark of the 61st legislative session and the pace is beginning to quicken visibly.

More than 1,200 House bills and some 700 Senate bills (plus nearly 100 proposed constitutional amendments) were filed by Friday, the deadline for free introduction of bills. A four-fifths majority now is required.

Although floor sessions are brief, a lot of legislation is getting passed—63 bills last week alone, including some of the session's major business.

And the lights burn bright at the state capitol after midnight for some committees which schedule hearings on as many as a dozen bills at a time. Other committee meetings begin as early as 9 a.m. and last until floor action starts in the House and Senate.

So far, the Senate has reversed its usual form. It is cranking out general bills faster than the House, where the representatives are pursuing a more-methodical, look-'em-over-carefully procedure.

Last week, for example, the Senate banged through 34 bills on its regular calendars, some so fast there was no time for explanation, let alone debate. Across the rotunda, the House passed only 13 measures on major calendars, but representatives reduced the gap considerably cranking through 16 local bills at a single hour-long sitting. Gov. Preston Smith signed six more into law.

One thing is sure...as the second lap of an historic legislative session begins, things will get a lot faster and a lot more hectic before early June when adjournment is scheduled.

MAJOR BILLS MOVING — The Legislature has completed and handed the governor, a tough new measure providing fines up to \$200 and jail terms up to six months for disruptive activity on college campuses. Bill won't take effect until the start of the new school year.

Senate passed key bills to put sharp teeth in air and water pollution controls, require breath tests of suspected drunk drivers, require public agencies to give three days notice of their official meetings and provide tougher controls over teen-age drinking.

Other Senate bills would authorize payment of up to \$5,000 for moving homes and businesses displaced in highway right-of-way condemnation proceedings, remove the \$2,400 salary ceiling on which teachers contribute to

retirement, establish a temporary Governor's Human Relations Committee, set up a new commission to regulate credit unions and request the U. S. Congress to ease restrictions on cable television.

Both houses have passed their own version of bills to permit schools to teach in a foreign language those students who have difficulty with English in elementary grades, to lower from two years to one year the minimum time between elections to adopt or abolish city sales taxes and to close some public roads on state-owned land held for use of the Texas Department of Corrections.

House approved creation of a new Texas Technological College of Medicine at Lubbock and voted to strike down immunity of government units from lawsuits for damages. Representatives gave strong support to a bill to give the Legislature the right to set Washington's Birthday, Memorial Day, & Columbus Day and Veterans Day holidays on Mondays to conform to the federal holidays.

Another House bill sent to the Senate would permit the state's 14 courts of civil appeals to issue writs of habeas corpus in domestic-relations cases.

Senate has adopted an amended version of House bill to permit a statewide cooperative network of local libraries. Governor Smith now has the bill.

BILLS RUNNETH OVER — Several education bills have been filed in the last few days. Rep. Guy Floyd of San Antonio wants the Attorney General's office to

assist school districts threatened with the loss of Federal funds.

Rep. David Evans of San Antonio wants the state to contribute as much money to private school students as it does to public school students through the minimum Foundation School Program.

Rep. Jim Nugent filed a bill to prohibit the Legislature from enacting an individual state income tax.

Rep. Carlos Truan of Corpus Christi has a constitutional amendment to remove the ceiling on welfare payments.

Rep. Neal Solomon of Mount Vernon has a bill to allow the agriculture commissioner to prohibit the sale of any milk not meeting agriculture department standards.

Rep. David Allred of Wichita Falls introduced a one-bill package prohibiting racing a car motor, sudden stops or starts, unnecessary horn-blowing, contesting speed, fighting, indecent language, throwing things, littering, loitering or intoxication on shopping center parking lots.

TAX TIME — House Speaker Gus Mutscher has been talking with legislators to see what sort of tax program they will support to pay for the new programs which they pass. Governor Smith's tax program was introduced by Rep. Ben Atwell of Dallas. It also puts a \$10 "superfine" on all who violate the traffic laws where motion is involved.

COMMITTEES AT WORK — House State Affairs Committee got into the basic philosophies of rural life and business economics while considering a bill by Rep. Neal Solomon of Mt. Vernon. It would require telephone companies to maintain an office in every county seat they serve. Bill was sent to a subcommittee for further study. Rep. Jack Blanton of Carrollton chairs the subcommittee.

Senate Affairs Committee acted favorably on Sen. Tom Creighton's bill to cut the time between local elections on the optional City Sale Tax from two years to one. It has gone to the Senate floor.

Also reported favorably by the Senate committee and tentatively approved by the Senate was creation of a temporary Governor's Committee on Human Relations. It was sponsored by a triumvirate of liberal senators. Sponsors, however, lacked the endorsement of Sen. Joe Bernal of San Antonio—a leading liberal. He introduced a measure calling for a permanent state organization on human relations.

Mr. and Mrs. C. J. Brooks spent last weekend in Big Spring visiting in the home of their daughter and family, Mr. and Mrs. Leroy Hollinshead.
