Donna Wallace Gets DAR Honor

Donna Wallace, daughter of Mr. and Mrs. J. C. Wallace Jr., has been named recipient of the annual DAR award. She is a senior student in Robert Lee High School. The award is sponsored by the Pocahontas Chapter of the

Daughters of the American Revolution of San Angelo, in the interest of good citizenship.

Miss Wallace has also been cited as one of 10 Outstanding Bandsmen and received the Spanish award.

During her four years of high school she has been annual editor and an officer in the FHA and Band; a member of the Beta Club, FTA, Science Club, Spanish Club, basketball and track team. She has entered the Make It Yourself with Wool Contest. She is a member of the stage band and participated in the UIL solo contest.

County Men Going To FB Convention

Coke County Farm Bureau will be represented at the 38th annual convention of the Texas Farm Bureau to be held Nov. 14-17 in Amarillo.

Those from this county planning to attend the Amarillo meeting include Fred McCabe Jr., president, and Ben A. Boykin, director.

Some 2,000 county Farm Bureau leaders from all over Texas are expected to attend the annual meeting where Texas Farm Bureau policies for 1972 and recommendations to the American Farm Bureau Federation on national issues will be formulated by some 900 voting delegates from the 206 organized Farm Bureaus.

Coke's First Frost Hits Wednesday

First frost of the season was recorded Wednesday morning, Nov. 10. A moderately heavy frost covered most of the area, but whether or not it was a killing frost was not determined at press time.

The season's first really cold weather prevailed over the region since last Saturday with temperatures in the low 40's, but a cloud cover prevented frost until Wednesday morning. Cool nights and warm days were the weather rule this week.

ELAINES FIKES INDUCTED INTO ALPHA CHI SOCIETY

Elaine Fikes of Robert Lee was among the 54 Hardin-Simmons University students inducted into Alpha Chi. Induction ceremonies were held Monday, Nov. 1. Alpha Chi is a national honor college scholarship society of junior and senior students who rank at least in the upper tenth of their classes.

Miss Fikes is a junior student and the daughter of Mr. and Mrs. Weldon Fikes.

Mr. and Mrs. Fred L. Beaty were weekend guests of their daughter and family, Mr. and Mrs. Eugene Kegans and John Baxter, of Leonard. They were accompanied by Lane Beaty, student at Cisco Junior College.

Services Thursday For Mrs. Purcell

Funeral services for Mrs. Lammitye Purcell, 75, will be held at 2 p.m. today (Thursday) in the First United Methodist Church of Big Lake. The Rev. Travis McNair, pastor, will officiate.

Burial will be in Lawnhaven Memorial Gardens of San Angelo under direction of Johnson's Funeral Home.

Mrs. Purcell died early Tuesday afternoon in M. D. Anderson Hospital in Houston.

She was born in Coke County Nov. 1, 1896, and had been a resident of Big Lake since 1915.

She was a sister-in-law of Mrs. Elsie Latham. Other survivors include two sisters, Mrs. Evie Kaeding of Big Lake and Mrs. O. L. Pittman of Bronte, and a number of nieces and nephews.

DOGIES LOSE FINAL GAME TO WALL JR. HIGH, 12-0

Robert Lee Dogies lost their final game of the season to the Wall Jr. High lads, 12-0, in the contest last Thursday night. The Dogies, earlier in the year, defeated the Wall team, 28-14.

The Dogies finished with a successful season record of 6 wins, 1 loss and 1 tie.

Thompson Service Held at Holland

Funeral services for Henry Wardlow Thompson, 82, were held at 2 p.m. Tuesday in First United Methodist Church in Holland, Tex. Burial was in Holland Cemetery under direction of Newby Funeral Home of Robert Lee.

Mr. Thompson died about 11:40 p.m. Sunday in West Coke County Nursing Home, where he had lived for five months. He was the father of Mrs. Truman (Neil) Hines, administrator of the Home and West Coke County Hospital.

He was born Jan. 7, 1889, in Georgia and came to Texas at an early age. He had resided in Holland until moving to the Robert Lee nursing home five months ago. He was a Methodist.

Other survivors include another daughter, Mrs. W. E. Walding Jr. of Groves; a step-daughter, Mrs. Earl Richardson of El Paso; three stepsons, Alfred McMullen of Houston, John L. McMullen of Fort Worth and Leo McMullen of Nacogdoches; five sisters, a stepbrother, four grandchildren and two great-grandchildren.

Mr. and Mrs. Douglas Gartman and children visited in San Angelo Sunday with their daughter and family, Mr. and Mrs. William Ray Hood.

Homecoming for Robert Lee School ex-students is on tap for this weekend and the final football game of the season, with Sonora, will come up Friday night. Activities will begin tonight (Thursday) with a bonfire at 6:30 p.m. and the public is invited. School will be dismissed Friday

at 3 p.m. and a parade will begin at 4 p.m. Classes and clubs will sponsor floats in the parade. This will be followed by a pep rally in the gymnasium at 4:30 p.m. The Beta Club will sponsor a tea for ex-students from 2 until 4 p.m. at the school.

Highlight of the homecoming will come at 7:30 p.m. when the Steers clash with the Sonora Broncos. The Broncos are leading in District 9-A play and are rated the No. 2 Class A team in the state. They come into the game with a 9-0 season record and a 4-0 district slate.

Following their loss to Mason last week, the Steers are tied with Eldorado for third place in District 9-A with a 2-2 district record and a 6-3 season record. Sonora downed Eldorado, 27-6, last week.

Rudy Abalos of Robert Lee, however, continues to lead in district scoring with 76 points and Robert Lee's Danny Percifull is tied for second with Noel of Sonora with 54 points each.

In other district play last Friday Menard whipped Bangs, 33-6.

Coming up on the final weekend of regular season play are Mason at Bangs and Eldorado at Menard.

According to the Harris football poll this week, Sonora is a solid choice over the Steers. Sonora is rated 120.2 while the Steers are 88.7.

Queens To Be Crowned

A highlight of the football game will be the halftime ceremonies when the Homecoming Queen and King will be crowned.

Deer, Turkey Season to Open

Deer and turkey season opens Saturday, Nov. 13, and will close on Sunday, Jan. 2, 1972.

Shooting hours will be from 30 minutes before sunrise until 30 minutes after sunset.

Bag limit on deer is two bucks. A buck deer is defined as one having hardened antlers protruding through the skin. Within limit areas, doe permits have been issued and permission must be obtained from land owners.

Bag limit on turkey is two of either sex. Hunting hours are the same as for deer. Both may be hunted from a vehicle, provided it is inside a fenced ranch area.

It is against the law to shoot a turkey from the roost. No shooting is ever allowed from a public road for any purpose.

HOME FROM NAVY

Doyle Haley arrived home last week from California after receiving a discharge from the U.S. Navy following a four year enlistment. Most of this time was spent aboard a submarine, the USS Grayback.

He is living at home with his parents, Mr. and Mrs. F. L. Haley and is employed at Ernest Clendennen's Welding Shop at Silver.

Austin — A blue ribbon study commission has come out strong for state constitutional revision and widespread restructuring of the state and local governmental system.

The Texas Urban Development Commission, winding up an 18 month study which enlisted the services of experts and laymen, handed its 200 page report to Gov. Preston Smith.

Smith, commending the body for charting "a clear course for those in government to act on," announced appointment of a 17 member, permanent Texas Advisory Commission on Intergovernmental Relations. The latter will follow up on the report of the study group headed by Arlington Mayor Tom J. Vandergriff as chairman and Dr. Earl M. Lewis of Trinity University in San Antonio.

"The Texas Constitution," said the Commission, "should be thoroughly changed to allow state and local governments to exercise more initiative and to be more responsive to current and future demands but at the same time free to be truly responsive to changing needs and emerging problems."

Among 50 major recommendations were the following:

* State government should be-

gin moving toward a new organizational and management system and consolidation of urban services in about 20 existing agencies.

* The governor should have more power over budgeting and appointments and removal of state agency governing boards chairmen.

* Local governments should be reorganized to meet specific local needs and granted greater fiscal authority through additional revenue sources and property tax overhaul.

* Growth of special purpose districts must be checked.

* Urban growth planning programs and coordinated land planning should be launched at all levels of government.

BONDS SOLD — Continuation of the veterans land program was assumed by sale of \$20.8 million in bonds.

The low bid of 4.48943 per cent effective net interest was submitted by a group of 50 investors. The constitutional ceiling on interest rates is 4.5 per cent for the program.

Land Commissioner Bob Armstrong said the sale means the program can operate until almost the end of 1972 when Texas voters will have a chance to pass a constitutional amendment to raise

the interest rate ceiling to six per cent.

The Veterans Land Program is constitutionally authorized to sell another \$70.7 million in bonds. More than 43,500 Texans have bought land under the program.

A NEW GOVERNOR — Texas will have a new governor briefly in December—when Sen. W. E. (Pete) Snelson of Midland takes over as chief executive for the day.

Snelson, as president pro tempore of the Senate, is third in line for the governorship. Governor Smith and Lieutenant Governor Barnes will absent themselves from the state Dec. 4 so Snelson can have the honor of serving as governor. He represents 35 counties of the 25th senatorial district. Coke County was recently placed in the 25th district when new district lines were drawn.

COURTS SPEAK — The State Court of Criminal Appeals upheld Texas' abortion law, and said the state has the right to prohibit operations, in a decision conflicting with a June 18, 1970, three judge federal court ruling at Dallas.

The Court of Criminal Appeals also reversed a Waco marijuana conviction due to improper questioning of witnesses by the prosecuting attorney.

State Supreme Court heard arguments in a suit seeking to nullify University of Texas acquisition of a 588 acre Odessa site for the new UT-Permian Basin campus because of the proximity of oil and gas equipment and a potential safety hazard.

PESTICIDE DECISION PUT OFF — The new State Pesticide Advisory Committee delayed its decision on banning DDT for household uses.

No recommendation was made because the Environmental Protection Agency has not made its official rulings on DDT, committee chairman Dr. Perry Adkisson of Texas A&M University said.

The five member committee will meet again Dec. 7 to consider the matter. Texas Department of Agriculture, charged with administering the state law on pesticides, asked advice from the advisory panel authorized by the Legislature this year.

HUNT INVITE "DISAPPEARS" — State legislators and officials who had been invited to hunt on state game management areas found the invitations suddenly withdrawn after newspapers publicized them.

Parks and Wildlife Department Executive Director James U. Cross issued the invitations, although other would-be deer hunters are required to draw for the limited number of free permits in the areas. PW Commissioners expressed doubt special exceptions could be made for state officials and legislators, so the bid was unceremoniously taken back. One commissioner called for Cross' resignation over the incident, but the new director said he plans to stay on the job.

Short Snorts

Attorney General Martin lambasted the new state code of ethics for public officials as a "virtual mishmash" and predicted a court effort by one or more political subdivisions to invalidate it.

An experimental fusion machine which may help revolutionize energy producing mechanisms, has been dedicated at the University of Texas.

State health authorities rechecked September rabies tests after a faulty lab check came close to letting a case of the deadly disease escape detection.

Deer hunting, one of the state's biggest businesses — involving 510,000 "customers" who spend about \$88 million in two months on 37 million acres of leased land — gets under way this weekend in most counties.

ROBERT LEE NAVYMAN RECEIVES "E" AWARD

Navy Chief Petty Officer Jerry M. Hurley, son of Mr. and Mrs. Carl Hurley of Robert Lee, is a crew member of the USS Sampson, a Charleston, S. C., based guided missile destroyer, which has received Destroyer Squadron 32's Battle Efficiency "E" Award for 1971.

His ship, which has returned from operations in the Mediterranean, was awarded the "E" for the second consecutive year for overall readiness, operational safety and efficiency, and "excellence in all areas of destroyer duty."

Beverly Shandley and a friend, Karen Anderson, were weekend guests here in the home of her parents, Mr. and Mrs. Ray Shandley. The girls are attending Columbia Secretarial College at Odessa.

Make Your Winter Coat

Make your own coat to keep warm this winter.

If you select just the right pattern and fabric, sewing a coat should not be difficult. Avoid collars, lapels, bound buttonholes and extra heavy fabrics — these are trouble makers.

Winter '71 looks feature capes and hooded and wrapped coats. Capes are a great fashion item, yet are easy to make. Selection of a hooded style will eliminate collar and buttonhole construction. And even though the wrap coat has a collar and lapels, you can forget about buttonholes.

In addition to construction details, the fabric you choose can also create sewing problems. Select material with an interesting look, such as tweed or tapestry.

A flannel or gabardine material can make an easy coat pattern hard to construct. These very plain fabrics will show every stitching or pressing mistake.

Bonded fabrics also deserve consideration if you make a cape. However, avoid using them to mold or shape a coat.

Look for a closely woven fabric. It's more stable and easier to handle than soft stretchy fabrics. Many fabrics sold for coats are thick and spongy, thus difficult to sew and press.

Even if you're not the most experienced seamstress, your coat making can be a success if you select the proper pattern and fabric.

Use Cleaning Products Carefully
Children and dangerous chemicals don't mix. Mothers know this, yet they flirt with danger themselves by using household cleaning products improperly.

A high percentage of the nation's housewives regularly mix and experiment with cleaning

products in search of a better cleaning agent. Mixing and experimenting can lead to the release of highly toxic gases capable of causing pulmonary damage and occasionally death.

Chlorine bleach and ammonia are the most commonly misused products. When chlorine bleach is added to ammonia or to an acid compound—such as rust remover, bathroom bowl cleaner, lye or vinegar—chlorine gas may be released.

Chlorine gas, once used in chemical warfare, can be recognized by a burning sensation of the eyes, nose and throat or by sneezing or coughing. It can cause death if inhaled.

Home poisoning from inhalation of such vapors usually occurs in poorly ventilated areas. The Council on Family Health advises women to always keep windows open when cleaning. If vapors from any cleaning product begin to cause irritation, all cleaning should be stopped until the air has cleared.

Timely Homemaking Tips

FRUITS AND VEGETABLES—

Fresh fruits and vegetables deliver a lot for a little—supplying over 90 per cent of the vitamin C and over 50 per cent of the vitamin A consumed. Low in calories, tasty and attractive, these fresh treats are also economical. Compare the cost of a pound of apples or pears with a common snack food. All in all, it's just good sense to substitute fresh fruits and vegetables for high calorie, less nutritious snack foods.

DON'T SHOP WHEN HUNGRY

—A survey has officially revealed what homemakers have known unofficially for a long time. Shop just before lunch or dinner when you're hungry, and you will buy noticeably more groceries than had you waited until after lunch or dinner.

MEAT TERMS — Meat advertisements sometimes have terms with variable meanings. For example, Swiss steak, pot roast and London broil are methods of cooking—not cuts of meat. And these preparation methods can be applied to a number of cuts. The Swiss method is generally used for cuts from the blade chuck and heel of round. London broil is the method associated with cuts from the sirloin tip, top round or flank. All these terms are clues to the shopper that the cuts are less tender, thus requiring moist heat cooking.

Predator Program Coming to a Vote

Members and directors of the Texas Sheep and Goat Raisers' voted Saturday at their Fall Tri-Annual Meeting at Angelo State University, to sponsor a proposed referendum which would involve 16,704 producers and 5,578,000 head of sheep and goats in 73 counties, to raise needed revenue which would go into a predator control program.

The proposed program calls for the maximum deduction of 20 cents a head on sheep and 10 cents a head on goats, and would be expected to raise over \$400,000, from which 32 new trappers would be hired to help combat predators by coordinating with the county trappers to assist them in problem areas.

The proposed program is not meant to take the place of any predator control work now being done in counties but to add to their present control work. Assessment in the program, if the referendum is passed, will be made on all sheep and goats coming off pasture and/or producer raised lambs going into feedlots. Assessments will be collected and forwarded to the Commodity Board at the end of each month. Collections will be made by any firm or individual who purchases sheep or goats off pasture.

The referendum which now must be petitioned to the Commissioner of Agriculture for his certification, would be conducted by mail ballot sent together with a self-addressed, postage-paid envelope to all sheep and goat producers in the 73 county area. Producers would then vote for or against the referendum and elect one director from each of the six districts which comprise the 73 counties. Three directors at large will also be elected, and these directors will make up the producer board of nine directors. Coke is one of the counties in which the referendum will be held.

Mrs. Lillie Gaines returned home last Thursday following a two months' visit in Peralta, N. M., where she has been caring for her sister-in-law, Mrs. Tom King, who had surgery in July. Mrs. King and her sister, Mrs. Josie Tucker, of Lubbock brought Mrs. Gaines home and spent several days here visiting in the homes of Mrs. Vela Plumlee, Mr. and Mrs. Dave King and other relatives.

Food and Fiber Week Nov. 15-21

Texas is a giant in the agricultural industry and Texans have much to be proud of and to thank for regarding the food and fiber produced in this state. Thus the state's agricultural products will receive special notice during Texas Food and Fiber Abundance Week, Nov. 15-21.

Special observances are planned in many areas to emphasize that the people of Texas have a large stake in the vast amount of food and fiber produced by those in agriculture. Texans benefit both as consumers and as residents of this state due to the tremendous contributions of agriculture to the overall economy.

County Judge W. W. Thetford, who is in charge of the observance in Coke County, pointed out that agriculture in all its phases adds almost \$10 billion annually to the Texas economy. Cash receipts from farm marketings during 1970 were \$3.1 billion and are expected to reach the \$3.76 billion mark by 1976. Every dollar produced by agriculture has a multiplier effect of 2.7. This means that a \$1 million increase in agricultural income results in an increase of \$2.7 million in the total Texas economy.

Texas is the leading state in the production of cotton, grain sorghum, beef cattle, sheep and wool, and goats and mohair, and is second in rice production and third in peanuts, pecans and citrus. The state generally ranks third after California and Iowa in total crop and livestock receipts.

Judge Thetford urges all Coke Countians to observe Texas Food and Fiber Abundance Week, the week prior to Thanksgiving. "This is an excellent opportunity for all of us to reflect on the bountiful harvests that agricultural producers over the state reap each year to provide for us high quality, yet economical food and fiber products."

Lords Celebrate 50th Anniversary

Mr. and Mrs. W. R. Lord were honored with an Open House Saturday, Nov. 6, in observance of their Golden Wedding Anniversary. The affair, held in the Baptist Church in Eunice, N. M., was hosted by their children and grandchildren.

Mrs. Lord, the former Cleo McCulloch, was born in Comanche County near Gustine and moved to Coke County as a young girl. Her parents were Mr. and Mrs. T. J. McCulloch. She was married to W. R. (Russ) Lord at Sanco where they made their home until they moved to Eunice in the early 1940s. Mr. Lord's parents were Mr. and Mrs. S. W. Lord.

They have five surviving children: Mrs. Clell Varnadore of Fort Smith, Ark.; Mrs. Thomas J. Cox, Greenwood, Ark.; Mrs. Irl Welch, Corona, N. M.; Bill Lord and Bob Lord of Eunice, N. M.; also, 17 grandchildren and two great-grandchildren. All were present for the Open House except one grandson, who is in the U. S. Navy.

Relatives from Robert Lee attending were Mr. and Mrs. Sam McGallion, Mr. and Mrs. O. H. Campbell, Mrs. O. D. Adkins, Mrs. Foy Askins, Mrs. Charlie Askins and Mr. and Mrs. Bryan Gartman.

Inventory Sale

Uncle Ralph (Buster, that is) needs to lower his inventory some more. So, starting Thursday, we will be open for one more week.

Have some merchandise at cost plus 10 per cent cash discounts. Lots of good buys on Timex watches, colognes, billfolds, purses, etc.

Contrary to some erroneous reports, we have had our Approval and Contract for Texas Public Welfare since Sept. 1, 1971, and it will be transferable to the new owner if he desires to continue participating.

RLHS Turns Out Future Ph. D.'s

Wallace Bruce Clift

Tommy Kirkpatrick

Jerry Dean

Don Weathers

Jerry Quisenberry

A great deal of knowledge about a subject and general scholarly attainment usually is associated with the awarding of a Doctor of Philosophy Degree to anyone, and it seems that Robert Lee has had a full share of this honor bestowed upon former students of the local school.

Only recently have two former students of RLHS passed final requirements for the ultimate degree in being an educated man. Jerry Dean, son of Mrs. Wilson Bryan and the late Judge Jeff Dean, recently took final tests for his Ph. D. in music. He is receiving his doctor's from the University of Michigan at Ann Arbor. His degree includes the theory and history of music. He is currently teaching for the third year at the University of Texas

Stripers in Spence Show Big Gains

Striped bass in Spence Reservoir must be finding things in the lake to their liking.

The stripers caught in Texas Parks and Wildlife Department nets averaged an approximate one pound increase over what they weighed three months ago.

Test nets in Spence yielded 27 of the stripers which have been released into the waters each year since 1969.

Two of the bass weighed more than four pounds each, and the fish averaged 3 3/4 pounds each.

Striped bass are a saltwater fish which can live in fresh water. Department biologists are trying to establish the fish as both a predator fish to take care of overpopulation of lakes by roughfish and as a sport fish.

The biologists hope that someday anglers in Texas will face the prospect of hooking a 10 or 15 pound striper.

Mrs. Raymond Bloodworth underwent major surgery on her feet Tuesday of last week at Shannon Hospital in San Angelo.

at Austin, where he is director of freshman music theory, and has four student assistants teaching under him. Dean is married and has two daughters.

Don Weathers also has qualified for his Ph. D. at the University of Oklahoma at Norman. He is the son of Mrs. Charlie Salvato of San Angelo, a grandson of Mrs. Daisy McCutchen of Robert Lee and is a graduate of Robert Lee High School. Weathers did his doctorate work in the field of biology. His dissertation was on "Experimental Hypoglycemia in the Rat."

Other Robert Lee graduates who have received doctor's degrees in recent years include Tommy Kirkpatrick, Wallace Bruce Clift and Jerry Quisenberry.

Kirkpatrick, son of the late Editor and Mrs. A. J. Kirkpatrick and stepson of Mrs. Violet Kirkpatrick of Robert Lee, received his Ph. D. a few years ago from Ohio State University with a major in marketing. A 1968 graduate of Robert Lee High School, he is now a professor at Montana State University.

Clift, son of Mrs. Bruce Clift of Robert Lee and the late Mr. Clift, has a doctor's degree in theology and is presently teaching at the University of Denver in Colorado. Clift also has a law degree from Harvard Law School.

Quisenberry, son of Mr. and Mrs. J. E. Quisenberry Jr., of Robert Lee is another local man with the Ph. D. degree, receiving his degree early this year from Texas A&M University at College Station. He is presently employed at the Texas A&M Experiment Station doing research on cotton at Idalou.

Another graduate of Robert Lee High School is working toward his Ph. D. degree. He is Robert McBroom, son of Mr. and Mrs. Russell McBroom of Robert Lee. He is attending the University of Florida at Gainesville, where he is also teaching in the physics department.

The Observer has no official figures on the number of Ph. D.'s turned out per capita of population in the U. S., but it seems almost a certainty that the young men named above comprise more than the average number for a town the size of Robert Lee.

Mason Punchers Humble Steers, 41-0

By Ronnie Baker

Speed, power, size and a pin point quarterback simply overpowered the Steers last Friday night when they traveled to Mason and took a 41-0 loss from the Punchers. It was over pretty quick for the Steers, as the Punchers racked up 20 points the 1st quarter and, with the Steer type of offense, that's too many points to make up against this type of ball club.

What I mean by the Steer type of offense is the 4 to 8 yards at a lick and that takes alot of time. Again, as last year, the Mason Punchers were enormous compared to the Steers. I don't have to tell you about the speed because the number of passes completed will speak for itself.

Now the Steers have to get ready for the Broncos of Sonora. It will be another tough one. Stay with them, fans!!

First Quarter

Mason received the opening kick at their 10 yard line and returned to their 33. They ran one play and then passed for a 1st down at the Steer 35. They blasted for two big gains for a 1st at the Steer 9. Then from the 4 yard line, the Punchers punched over for the TD. The kick for the extra point was good and with just 2 minutes gone, it's 7-0.

The Steers received the kick-off at the 19 yard line and returned to their 23. Fate struck the Steers as they fumbled at

the 23. On the first play for the Punchers, their slick quarterback hit his tight end for a 23 yard touchdown. Kick for extras failed and it was 13-0 with barely 3 minutes gone.

Mason kicked off to the Steers at the 26 with a return to the 31. Two running plays and a deflected pass was intercepted at the Mason 46. Mason drove again for 1st downs at the Steer 44, then the 24, but a hard tackle jarred the ball loose and Richard Guerrant recovered at the Steer 24. The Steers drove for a 1st at their own 40, but then Mason held and Mumford punted to the Mason 25 with a return to their 36. Mason started a continuing drive as they went for 1st downs at the Steer 48, the 29 and the 14.

Their cool quarterback again stepped back and rifled a pass to his split end for the TD. The extras were good and it was now 20-0. Mason kicked off to the Steer 14 with a return to the 27. Again the Steers fumbled and Mason had the ball at the Steer 25. They made a 1st at the 15 as the 1st quarter ended.

Second Quarter

From the 12 yard line, Mason circled the end and they had another touchdown. The kick was good and the score was 27-0. Mason kicked to the Steer 14 with a return to the 32. The Steers moved to their own 44 for a 1st and Mason held again. Mumford punted to the Mason 28 yard line and the Punchers went for 1st downs at their 45, then to the

Steer 44, the 32 and the 19. But then they fumbled and Abalos recovered at the Steer 25. Mason halted the Steers for little gain and Mumford punted to the Mason 40 with a return of only 4 yards to the 44. The Punchers ran 2 plays and the 1st half ended.

Third Quarter

Mason kicked off to the Steers and a good return placed the ball on the Steer 42. However, Mason halted the Steers again at the 45 and Mumford had to hurry his punt which went out of bounds at the Steer 47 yard line.

On the first play for Mason, the flanker back burst down the sideline and the quarterback laid one in there beautifully—and 47 yards later the Punchers had another TD. The extras were good and the scoreboard said it was 34-0.

Mason kicked off to the Steer 10 and Abalos returned a fine 34 yards to the 44. The Steers made a 1st at the Mason 40, but the Punchers held again and Mumford punted to the Mason 15 with a return to the 22. The Steers held them and Mason punted for the first time to the Steer 40. The Steers started a good drive with Percifull, Mumford and Abalos racking off yards to the Mason 45, the 32, then the 9. But — at the 2 yard line — Mason held and took over on downs.

Once again on 1st down the QB stepped back into his end zone
