A copy of the complete audit may be inspected in Fikes office or in the Robert Lee Observer or Bronte Enterprise office. Fikes said he would be glad to explain anything in the audit to anyone who does not understand it.

Notes From The Oil Field

A completion and a wildcat location made Coke County oil news during the past week.

Strawn sand production was reopened in the Millican Field with recompletion of Clinton Oil Co. of Houston No. 1 Worth B. Durham, former opener of the Millican, West Field.

Located 15 miles west of Robert Lee, it was completed for a daily flowing potential of 80 barrels of 44 gravity oil and no water, with a gas-oil ratio of 1,750-1.

Production was through a 20-64 inch choke and perforations at 6,462-67 feet, which had been acidized with 1,750 gallons. Location is 1,980 feet from the north and east lines of 189-2-H&TC.

Burleson & Huff of Midland will drill a 7000 foot wildcat, 16 miles southwest of Robert Lee. It is eight miles west-southwest of the depleted one-well Weaver (Palo Pinto) Field made up of No. 1 March Ranch.

Location is 467 feet from the south and west lines of 73 1/2-T.J. Neely.

Austin — Top legislators have settled down to the budget writing job which will decide whether lawmakers — and the taxpayers — will be confronted with a tax bill this year.

Gov. Dolph Briscoe said new taxation must be avoided — for the second legislative session in 20 years — and offered a budget which would require no new revenue.

Further, the Briscoe budget would leave \$300 million in unobligated funds on the table to meet unforeseen court developments in the public school finance case and uncertainties of welfare spending requirements.

Briscoe's no-new-tax proposals met generally favorable reaction from legislative leaders and rank and file legislators, although some differed with him on specifics.

Briscoe delivered to a joint session of the House and Senate a \$9.6 billion biennial appropriation recommendation — \$391.6 million above the present level of general revenue outlays and federal revenue sharing income.

Even with the addition and the holding back \$300 million, Briscoe was \$173.1 million under former Gov. Preston Smith's last budget draft for 1974-75, and \$91.6 million below the Legislative Budget Board's recommendations.

He recommended \$240.3 million more for education; \$111.3 million increase for the state departments and agencies; \$29 million more for public health, hospitals, mental retardation and youth institutions and \$11 million more for the courts and legislature.

While governors' budget recommendations are generally ignored,

Briscoe's were promised careful review, although House and Senate appropriations bill drafters had already concluded their hearings when he offered his set of figures.

EDITORS HERE FOR INTERVIEWS—Texas newspaper editors will converge on Austin Monday, March 19, to seek "editorial" and "column" material. Legislative Day for editors will feature meetings with Governor Briscoe, Lt. Gov. Bill Hobby, Speaker Price Daniel Jr., Sec. of State Mark White and Atty. Gen. John Hill—and hometown legislators.

Current issues of interest to Texas editors and publishers include revision of the Constitution, judicial reform, penal code reform, drug laws, election laws and "reform legislative package" by Speaker Daniel. It includes revisions of the Open Meetings Law, Free Flow of Information Bill — newsman's privilege measure — and Open Records Bill.

INFORMATION BILLS TO ADVANCE — Lieutenant Governor Hobby said he is optimistic that a strong press "shield" law and a tougher open meeting bill will clear the senate soon.

The lieutenant governor said the shield law will not only protect newsmen from having to divulge sources of confidential information but also will grant privilege to all information they obtain in the course of their official duties.

HB 10 — the House passed shield bill — got rough reception in the Senate Jurisprudence Committee last week, but Sen. Chet Brooks of Pasadena said that doesn't mean it is logjammed there.

Sen. A. M. Aikin of Paris is the sponsor of the broader shield bill which provides that no newsman can be forced to disclose any information received or any source of information obtained in the course of news-related activities. The privilege would be no protection in actions for libel, slander or invasion of privacy.

LEASE SALE NETS \$7.4 MILLION — An oil and gas sale on state-owned lands — largest since 1966 — brought the state \$7,415,278 in bonus payments for the permanent school fund.

Land Commissioner Bob Armstrong said renewed interest in oil and gas production on state lands is due largely to increased demands for energy fuels.

A total of 113,737 acres were leased at an average per acre price of \$65.51.

For the first time in recent years, the highest bid was over one million dollars. Houston Oil and Minerals Corporation bid \$1.5 million for 394 acres in a Galveston County submerged tract.

CONSTITUTIONAL REVISION BEGINS — The 37-member State Constitutional Revision Commission held its first meeting Sunday after legislators failed to register enough protests to block appointments.

The Commission was bombarded with criticism because its ranks did not include more women, blacks, Mexican-Americans and youth. Several areas of the state also felt they were insufficiently represented on the blue ribbon body.

Short Snorts

Too few poor are receiving any benefits from millions of dollars spent on welfare, a House interim committee reported.

Texas Water Rights Commission reaffirmed its position that the plan for navigation of the Trinity River is feasible.

Justices of the peace and constables served notice they plan to "zip" a proposed constitutional amendment to overhaul the court system, and abolish their jobs.

Hunting and fishing license fees would be increased under a bill given House committee approval.

Revenue from cigarette taxes decreased from \$17.1 million in 1972 to \$16.8 million last month.

After high school, will your kid go to work, or to college?

High school is the end of Free Education.

If your child decides to go on to college it'll take money. Lots of money. Money that you should probably be saving right now.

And there's no better way than to start a college savings fund than by joining the Payroll Savings Plan where you work. That way an amount you specify will be set aside from each paycheck and used to buy U. S. Savings Bonds. Before you know it you'll have a nice little college fund on hand.

Now there's a bonus interest rate on all U. S. Savings Bonds—for E Bonds, 5 1/2% when held to maturity of 5 years, 10 months (4% the first year). That extra

3 1/2%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with a comparable improvement for all older Bonds.

Join the Payroll Savings Plan. And, if your child keeps studying and you keep saving, you'll both be ready for college.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a good way to save.

Take stock in America.

Now Bonds pay a bonus at maturity.

By Congressman O. C. Fisher

The lobby game, which centers around city halls, courthouses, state houses, and the nation's capitol, has become something of a fixture on the American scene. It's part of the political system, the "right to petition," and serves a useful purpose if properly used. But we must all be on the lookout for those who have axes to grind which might not be in the public interest.

Here in Washington two of the most active lobby powerhouses are John Gardner's Common Cause and Ralph Nader's raider group. Both well healed and professional, they seem to engage in a sort of

tug of war in massiv drives for more members and more contributions. While they espouse worthy causes at times, as is true of most lobbyists they must be judged on each issue they embrace.

Stewart Alsop, the noted writer, finds no difference on issues between Common Cause and the radical American for Democratic Action (ADA). Human Events, a prestigious publication, last year said Common Cause was a "xerox copy of platforms of Kennedy, Muskie, McGovern and the ADA."

Raymond W. Vowell, director of the Texas State Department of Public Welfare in Austin, informs me he would welcome the names and/or auto license numbers of any food stamp users who drive expensive automobiles. In that event, he says his department would be happy "to check them out," and determine eligibility for welfare.
