Mumford Going To West Point

Bobby Mumford, son of Mr. and Mrs. Denwood Mumford, has received notification from the office of Congressman O. C. Fisher and the United States Military Academy at West Point, N. Y., of his appointment to West Point and selection for the Class of 1977. He will report to the academy July 2.

Mumford was Freshman Class Favorite; Sophomore vice president; Junior Student Council representative and voted Most Handsome his Senior year. He was a Boys' State delegate his junior year and selected for Who's Who Among American High School Students when a junior and senior.

Besides academic achievements, Mumford made second team All District in football on offense as a sophomore; second team All District on offense and defense as a junior; and was All District on offense and captain as a senior.

He made All District in basketball three years and All Area as a senior. He made the All Star baseball team three years; qualified for regional in pole vault as a sophomore; and qualified for the regional golf team three years.

Annual Cleanup for Robert Lee was set for next week at Tuesday's meeting of the BCD and all residents of the city are urged to begin now in cleaning up the town. Friday, May 4, has been designated as pickup day, when trash and junk will be gathered

and hauled to the dump ground. It was agreed that the BCD would contact city and county officials and seek their help in making the campaign a success.

Everyone is urged to clean up around his own premises, as well as any adjacent vacant lots. It is requested that all kinds of trash be gathered, including old car bodies and other large objects which need to be moved out.

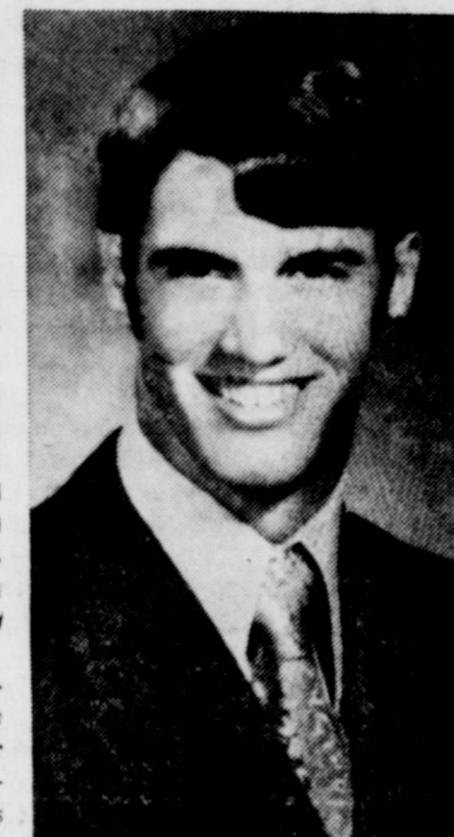

It is also requested that trash be put in disposable containers and placed in alleys, so that city and county trucks can easily pick up the refuse.

It was announced that Mayor S. E. Adams and Roy Ford were scheduled to go to Austin Tuesday evening for a meeting with the Texas Water Rights Commission concerning the city's right to certain water resources.

Members who went fishing at Lake Spence over the weekend said they believed a record number was out at the lake. Fishermen and campers came in droves for the largest crowd since the lake was opened.

The BCD decided to invite a biologist from the Game and Fish Commission to next Tuesday's luncheon.

President Ford presided and 15 members were present. Richard Dodson was a guest of Melvin Childress and Hank Baker was a guest of George Newby.

26 IN NURSING HOME

As of Tuesday there were 26 patients in the nursing home and none in the hospital.

TOURNAMENT WINNER—Mike McCoy of Odessa shows off this hefty black bass which was caught at Lake Spence. The fish, caught by Jack Nelson of

Odessa, weighed 5 pounds, 13 ounces and was the winner of the Abilene Bass Club Tournament held here April 14 and 15.

Biggest Crowd At Lake Spence

The biggest crowd ever congregated at Lake Spence over the Easter weekend. Lake patrolmen estimated 1500 persons out to enjoy the water.

CRMWD officials estimate that recent rains on the watershed will bring the level of the lake up .7 of a foot by dumping 5100 acre feet of additional water. A rise Tuesday had already left 2500 feet of additional water in the lake.

Fishermen from all sections of West Texas visited Lake Spence the weekend of April 13 and 14 to participate in the annual Abilene Bass Club Tournament. Jack Nelson of Odessa captured top honors with a five pound, 13 ounce black bass.

Gusty winds hampered angling efforts, but 183 fishermen showed up to try their luck. Most of the bass were taken in shallow water with "swimming type" lures.

Striped bass fishermen in West Texas received good news last week when Parks and Wildlife Department biologist Bill Follis announced that he had successfully hatched several thousand stripers in his fishery lab.

The significance of the induced spawn is that Texas now has a source of brood stripers in Spence Reservoir.

The department has been going to the East Coast and other parts of the country to obtain either young fish or fertilized striped bass eggs for stocking Texas lakes. Spence was the first stocked with striped bass in 1969 and fishermen are now catching them up to 12 pound in weight.

Austin — "If we go through an intellectual debate on a new Constitution for Texas, and the Legislature turns down our recommendations, we will be trained as competent lecturers for high school civics classes."

That was the rationalization of Wales Madden, Amarillo attorney, and member of the new 37 member Constitution Revision Commission. He spoke before the Panhandle Press Association on the tedious chore before the Commission, and invited editors and publishers to attend the first public hearing of the Commission on April 25 in Amarillo.

"We will hold 18 public meetings throughout Texas," Madden

told his Amarillo audience, "and we'll be hard pressed for time to get the new draft of the proposed constitution to the Texas Legislature by Nov. 1, 1973."

The Texas Legislature becomes a ConCon in January 1974 and has been charged by the voters to write a new constitution by May 1974.

There will be no changes in the Texas "bill of rights" — Madden pointed out.

Texas Constitution is longest in the nation — five times longer than the U. S. Constitution. Voters have approved 200 amendments (out of 317 submitted) to the document since 1880.

"If the new constitution is not approved," he added, "we predict that we'll have 200 more amendments approved by the year 2000."

Several Texas House members attending the Panhandle Press meeting said they believed that the voters would approve the constitution—as submitted by the Legislature.

Madden predicted that the Speaker of the House of Representatives would be the presiding officer of the ConCon in 1974 because "the House has more votes than the Senate on the decision."

"It will be a 'peoples' document," he concluded, "a document of 'all seasons'."

BUSY LEGISLATURE — Returning from a four day Easter holiday this week, the Legislature is faced with a hurry up

schedule and a mountain of work before its late May adjournment deadline.

The House plodded for days through stacks of mainly foredoomed amendments before passing its \$9.7 billion appropriations bill.

A \$9.5 billion version of the state budget for 1974-75, meanwhile, zipped through the Senate finance committee and was expected to pass quickly and smoothly.

Since both houses were ready to bow to Gov. Dolph Briscoe's demand for a no new taxes appropriations bill, little hangup is seen for budget conferees in closing days of the session.

Main differences in the House and Senate spending bills lie in the area of public welfare, and that is a fast changing field, considering federal funding laws are subject to Washington agency interpretation.

While the budget remains the principal job unfinished, there are numerous other major pieces of legislation awaiting action. They include:

- * Code of ethics and lobby control strengthening.
- * Election measures.
- * A sweeping variety of environmental bills.
- * Penal code revision.
- * The newsmen's "shield law" to protect information sources, which is stalled in a conference committee, with conferees at odds over whether courts should be empowered to force disclosure.
- * Overhaul of the school finance system to benefit poor districts—a job which almost certainly will be left to a later legislature.

ALLOWABLE HELD UP—Texas Railroad Commission for the 14th straight month set the May oil allowable at 100 per cent of potential.

Chairman Jim Langdon said gasoline stocks were down 10 per cent from last year—or at 189.5 million barrels as of April 13.

Ten of 14 major crude buyers requested the same output for May as in April. Three requested less and one, more.

HUNTING - FISHING FEES HIKE — Legislation boosting hunting and fishing licenses fees sharply is now near final passage.

The Senate approved with minor amendments the House bill raising hunting licenses from \$3.25 to \$5.25 a year and fishing licenses from \$2.15 to \$4.25. A combination license could be obtained under the bill for \$8.75. The non-resident hunting license would go up from \$25 to \$50.25.

Weekend visitors of Mr. and Mrs. O. B. Jacobs were his sister and her family, Mr. and Mrs. H. L. Brod, Judy and Michael, and his fiancée, Debra Shults, all of Lewisville.

Today's Health News

Published by the American Medical Association

It was "just a scratch," and Tom Hardy, out on a weekend fishing trip, wiped away the blood from his finger, cursing the rusty hook that had poked him. Five days later, Tom was rushed to the hospital, on the verge of death. He was suffering from tetanus, or lockjaw, a disease which kills more than half its victims.

Tom was lucky. Although he had never been immunized with tetanus toxoid, an emergency injection of tetanus antitoxin proved effective. The antitoxin immunity, however, lasts only a few weeks; then the victim must seek protection from the toxoid.

Tetanus spores can infect the body through the tiniest wound—a pin scratch, a bee sting, a small cut. In fact, about one-half of all tetanus cases seen in American hospitals are the result of an injury so trivial as to go unnoticed until symptoms (irritability, restlessness, muscle rigidity) occur. The spores may remain in the body for weeks, even years, without manifestation. Or they may produce poison effects in 5 to 14 days, as in Tom Hardy's case, even though the wound through which they entered had healed.

The only real safeguard against tetanus is through immunization with the tetanus toxoid — before

an accident can happen. When a person is immunized with the toxoid, the body manufactures the antibodies that will fight the tetanus toxin if tetanus spores ever enter the body. A booster is needed every five years and whenever a person is injured. It's the one sure way to fight lockjaw — yet only one in every four Americans has this protection.

More on Vitamin C . . .

Whether Linus Pauling, Ph.D., is right or not about massive dosages of vitamin C warding off the common cold, the results of a study at the University of Toronto, Canada, show that the vitamin does make the patient more comfortable when he gets the familiar runny nose. Some 411 volunteers took one gram of ascorbic acid daily, raising it to four grams when they felt ill. The 407 controls received citric acid.

Although the test group had only slightly fewer colds last winter, they lost nearly a third fewer working days. General symptoms were influenced more strongly than specific ones — the patients just felt better.

Our Newsletter

By Congressman O. C. Fisher

Rollback of prices was frowned upon by the House last week by a margin of 263 to 139. On an issue involving price controls on raw agricultural products, the vote was 101 for and 303 against. Differences between the House and Senate versions of a one year extension of wage-price control authority must be resolved by a Senate-House conference committee.

The decisive House action was a victory for producers and manufacturers and also for consumers. Rollbacks can be extremely vicious, particularly unless they are across the board and include wages. The law of supply and demand is a powerful force in our free enterprise system. And the enactment of laws which interfere

with it can create more problems than are cured.

In another House action last week, members refused to consider a \$4½ billion job funds program in package form. The mammoth proposal included both good and bad provisions. Included was authority to keep paying state and local governments to hire unemployed workers, a program begun two years ago. But since then unemployment has dropped to 5%, and state and local governments are said to be in better shape than they were two years ago.

President Nixon has proposed to replace the Public Employment Program (PEP) and other manpower programs with manpower revenue sharing, which state and local governments could use to hire the unemployed, if they chose.

In view of the huge federal deficit, the House action seemed to be the responsible course to follow. Any specific legislation on this subject can in the future be examined on the merits of each proposal that is presented.

A necessary extension of the federal highway construction program was approved, and now goes to a Senate-House conference committee to compromise the differences in the two versions.

Mr. and Mrs. Monroe Prine of San Angelo visited during the weekend with their daughter and family, Mr. and Mrs. Jimmy Kilam.

Postal Week Set April 29 - May 5

Postmaster H. S. Lewis Jr. announced plans today for "Postal Week" to be celebrated here April 29 through May 5.

On April 30, the Robert Lee Post Office will highlight this observance with activities that dramatize the important roles performed by Postal People as they move the mails.

Postmaster General E. T. Klassen said the Postal Week observances are "an appropriate occasion for recognition of the vital responsibilities assigned to the mail service and a valid time to take stock of the challenges which must be jointly met by postal people and by the millions of citizens throughout America who depend upon the mail as an essential part of their personal and business lives."

As part of the observance, the Robert Lee Post Office will join with the nation's 31,000 other post offices in issuing 10 special stamps honoring postal employees.

The Robert Lee Post Office will mark the occasion with special First Day Issue observances, simultaneous with similar ceremonies to be held in Washington by the Postmaster General.

The attractive new stamps — the first such comprehensive set specifically honoring postal people — will be on sale at the local post office.

"As the Postmaster General said in his message, we need the informed understanding, cooperation and support of every citizen. I think that we have this to an exceptional degree in Robert Lee, and part of the purpose of Postal Week will be to show our appreciation," Postmaster Lewis said.

Lewis added, "We would be happy to have you visit us during this week and observe our operations."

Thoughts

From The Living Bible
Then the angel spoke to the women, "Don't be frightened!" he said. "I know you are looking for Jesus, who was crucified, but he isn't here! For he has come back to life again, just as he said he would. Come in and see where his body was lying. . . . And now, go quickly and tell his disciples that he has risen from the dead, and that he is going to Galilee to meet them there. That is my message to them." The women ran from the tomb, badly frightened, but also filled with joy, and rushed to find the disciples to give them the angel's message.

Seniors Say Trip Was Successful

Members of the Senior Class of 1973 got together bright and early (4 a.m.) Sunday to start out on their greatly anticipated Senior Trip.

After establishing themselves at the Travel Lodge in San Antonio, the class spent the afternoon at the famous San Antonio Zoo in Brackenridge Park. They also toured the Scenic River Park and Sunken Gardens. They returned to the hotel and carried out their own kind of enjoyment, swimming, television, relaxation, etc.

After a restful night, the seniors rose early and left for San Marcos for an exciting day at the famous Aquarena Springs. With many things to do, like riding the glass bottom boat, attending a submarine underwater show and many other fun things, most of the seniors had an enjoyable day.

The following morning class members went shopping in the huge North Star Mall in San Antonio. Everyone seemed to have a good time and agreed that the Senior Trip of 1973 was a success.

"New" Old-Fashioned Chicken Dishes

Old-fashioned chicken dishes, such as "Savory Chicken En Papillote", were favorites in grandma's day and they're still popular with today's generation of cooks. New and easier ways of preparing these all-time favorites are now available in a collection of "Old-Fashioned Chicken Dishes."

"Savory Chicken En Papillote", for instance, takes the old-fashioned French chef's method of cooking en papillote (food deliciously seasoned and oven-braised in a "butterfly" of parchment) and makes it easy for today's homemaker by substituting Alcoa Wrap as the papillote.

With all the recipes in the folder, old-fashioned dishes take on new style and flair. For your copy of the free chicken recipe folder, send a postcard to "Old-Fashioned Chicken Dishes", Wear-Ever Kitchens, Wear-Ever Aluminum, Inc., Chillicothe, Ohio 45601.

SAVORY CHICKEN EN PAPILOTE

1/4 cup wild rice, raw	4 tablespoons butter or margarine
1/4 cup regular rice, raw	2 whole broiler-fryer chicken breasts, halved
2 cups boiling water	1/2 cup Rose wine
4 chicken bouillon cubes	Paprika
1 4-ounce can chopped mushrooms, drained	4 slices lemon
Dash pepper	
1/4 teaspoon basil leaves	

Combine wild rice, regular rice, water, bouillon cubes in 2-quart sauce pan; bring to boil; cover; simmer 10 minutes over low heat. Remove pan from heat; remove cover; allow rice to stand at least 5-10 minutes, or until part of liquid has been absorbed. Add mushrooms, pepper, basil; mix thoroughly. Place rice mixture in center of four 12 x 15-inch double thick sheets of heavy duty aluminum foil; dot with butter. Place chicken breasts on top of rice; pour 2 tablespoons wine over each; sprinkle with paprika; top with lemon slice. Close package carefully to avoid spilling wine; use tight double folds over top and each end. Place foil packages on rack in shallow pan. Bake 1 1/4 hours at 425°F. To serve: Slit foil across top; push down around rice.

Yield: 4 servings

After high school, will your kid go to work, or to college?

High school is the end of Free Education.

If your child decides to go on to college it'll take money. Lots of money. Money that you should probably be saving right now.

And there's no better way to start a college savings fund than by joining the Payroll Savings Plan where you work. That way an amount you specify will be set aside from each paycheck and used to buy U. S. Savings Bonds. Before you know it you'll have a nice little college fund on hand.

Now there's a bonus interest rate on all U. S. Savings Bonds—for E Bonds, 5 1/4% when held to maturity of 5 years, 10 months (4% the first year). That extra

3/4%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970 . . . with a comparable improvement for all older Bonds.

Join the Payroll Savings Plan. And, if your child keeps studying and you keep saving, you'll both be ready for college.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a good way to save.

Take stock in America. Now Bonds pay a bonus at maturity.

The U. S. Government does not guarantee the value of the bonds. The bonds are sold by the U. S. Department of the Treasury and the following banks.
