Excellent Grass Stand on T. K. Whiteside Ranch

## DEFERRED GRAZING PROGRAM CAN HELP PASTURE IN 3 MONTHS

Coke County ranchers have found by practicing a system of deferment, they can improve their rangeland. Deferment will promote plant reproduction, establishment of new plants, and provide a feed reserve for fall

and winter grazing and emergency use.

Livestock should be kept out of the pasture being rested for at least a three month period between April 1 and Nov. 1. A minimum deferment of three or four months will allow the grass plants to take good growth and seed production. Longer deferments may be needed on pastures that are in poor condition.

This year we received above average winter moisture but received average spring moisture. This is one of the reasons that grass production has not been as great as normal. With the rains we have received now and with more moisture this fall, grass production should improve. Now would be a good time for fall deferments of native grass pastures. Deferments for August until the first part of November should provide good winter grazing.

One of the primary things to consider when planning deferments is to have the ranch properly stocked. The benefit in deferring one pasture will not be gained if the other pastures are overgrazed. By being flexible and keeping livestock in balance with forage produced a rancher can work out a grazing system that will allow deferments of his rangeland each year.

## Notes From The Oil Field

The Jameson (Strawn) Field near Silver has gained a new producer.

The well is Olympic Petroleum Corp. of Dallas No. 2 Coke-L. E. Johnston Estate. It is located 3,300 feet from the south and east lines of Section 3, Block 2, H&TC Survey.

The well had a daily potential of 182 barrels of 43.8 gravity oil. Flow was through a 16-64 inch choke with 950 pounds casing and 300 pounds tubing pressures.

Production is from perforations at 6,636 to 6,800 feet, fractured with 1,500 gallons of fluid and 18,000 pounds of sand.

Operator set 4½ inch casing at 6,889 feet. Total depth was 6,900 feet, plugged back to 6,845 feet.

Gas-oil ratio was 1,400-1.

Mann Rankin & Compana Petroleum Co. of Midland will drill a 6,500 foot wildcat eight miles south of Silver. It has been designated as the No. 1 Harris Estate-Sadie.

The site has been located 2-100 feet from the north and 467 feet from the west line of Section 479, Block 1A, H&TC Survey. Ground elevation is 1,929.5 feet.

Closest production to the test was the depleted Lyggy, East (Strawn lime) field, ¾ mile to the northwest. The opener was Monsanto Chemical Co. No. 1 Sadie, finished June 1, 1958, for 91-584 barrels of 41.8 gravity oil. It became depleted Nov. 17, 1958.

## RAINS TOTAL UP TO 2 INCHES

Good rains have fallen in this area during the past week. The rain started falling last Thursday and several showers have dumped as much as 2 inches in some places.

The Observer has several reports giving the rainfall for the week and for the past month. The first figure is for the past week and the second for July: Bryan Gartman .9 and 2.7; Saneo 1.3 and 2.7; Robert Lee 1.51 and 2.67; Silver 1.8 and 2.4; Ben Boykin 1.9 and 3.3; T. M. Wylie 1 and 1.4; J. W. Service 2 and 3.5.

Floyd Harmon reported 1.6 inches at his place in the Edith community during the past week. M. A. Cox received 2 inches for a July total and Ben Boykin had 2.5 inches for the month at his Graham Valley Ranch.

Temperatures have been considerably cooler since the rains started falling and Coke County residents are looking forward to cool August nights.

Cloudy skies prevailed Wednesday most of the day but the sun was shining brightly just before press time.

## Items of Interest From R-Lee BCD

President Roy Ford announced at Tuesday's meeting of the BCD that Dr. Andrew Peter has arrived in Robert Lee and was ready to begin his practice Wednesday morning. Ford also announced that Mrs. Mary Streng has agreed to cook for the weekly luncheon meetings of the BCD.

W. D. McAdams reported that the remodeling job on the West Texas Utilities office has been completed and they have moved into the new quarters. He said new furniture for the office will be here soon. McAdams reported that the Monday storm in San Angelo did about \$100,000 damage to the WTU power plant there.

Judge W. W. Theftford announced he would have a report on revenue sharing money next week following the Monday meeting of

## JACKY PRESLAR RANKS AS DISTINGUISHED STUDENT

Jacky Preslar of Robert Lee has earned "Distinguished Student" ranking at Texas A&M University, announced Registrar Robert A. Lacey.

The undergraduate honor is awarded students who have excelled academically. Recipients must earn at least a 3.25 grade point ratio (out of a possible 4.0) during the previous semester.

"Distinguished Student" ranking is limited to 10 per cent of TAMU's undergraduate enrollment.

Preslar, a sophomore engineering technology major, is the son of Mrs. Joan Burns of Edith Rt.

legalization are set forth in this issue of the Observer by the proponents and opponents of the issue. A number of paid advertisements are being published by interested persons and groups.

Two voting places will be set up Saturday and voting will begin at 8 a.m. and continue until 7 p.m. Persons who live in Election Precinct 1 will vote at the school. Elections in this precinct usually vote at the Recreation Hall but it has been reserved for a family reunion.

Voters of Election Precinct 3 will vote at the courthouse as usual. Justice Precinct 1 includes all of Commissioner Precinct 1 plus the part of Commissioner Precinct 3 which was formerly included in Precinct 1.

Commissioners called the election after they were presented with petitions signed by 160 qualified voters, requesting that the balloting be conducted.

A similar election June 6, 1972, was defeated, 334-251.

## Doctor Peter Starts Practice

Dr. Andrew Peter arrived in Robert Lee the first of the week and began the practice of medicine here Wednesday morning.

In addition to his regular practice he will look after residents of the West Coke County Nursing Home.

The new doctor is a native of Czechoslovakia, having been born there July 14, 1929. He arrived in the United States Dec. 3, 1968.

He graduated from high school in Hungary and received his Doctor of Medicine Degree from Komensky University at Bratislava, Czechoslovakia, in 1957. He received a diploma as a specialist in internal medicine in 1966.

Since arriving in the U. S., he has completed six months residency in obstetrics and gynecology.

Citizens of the community were glad to see the new doctor, since the community has been without

a doctor since the death of Dr. J. D. McDaniel several months ago. Parttime work has been done here by Dr. W. J. Swann of Sterling City and a team of doctors from Goodfellow Air Force Base in San Angelo.

## Rites Held Here For Paul Tinkler

Paul Lancaster Tinkler, 32, of San Leandro, Calif., died there at 5:15 p.m. Thursday of last week of injuries sustained in a car-motorcycle collision near San Leandro.

Graveside services were held at 5 p.m. Monday at Robert Lee Cemetery under direction of Newby Funeral Home.

He was born Feb. 16, 1942, in San Angelo and grew up in Robert Lee. He was a graduate of Robert Lee High School.

Survivors include his wife, Mrs. Mary Lou Tinkler; two sons, David Tinkler and Jim Tinkler, both of the home; a daughter, Diane Tinkler of the home; his parents, Mr. and Mrs. J. L. (Chilly) Tinkler of Robert Lee; his maternal grandmother, Mrs. Sarah Young of Brady; his paternal grandmother, Mrs. Mattie Tinkler of Robert Lee; a brother, Jerry Tinkler; and a sister, Mrs. Betty Fulkerson.

Weekend visitors of Mr. and Mrs. Ray Shandley were their children and their families, Mr. and Mrs. Lynn Shandley and children of Davis, Okla., and Mr. and Mrs. Terry Ashton of Odessa.

## PERSONALS

Mr. and Mrs. Arthur Rummion and children have returned from Pittsburg where they attended funeral services for her grandfather, W. B. Douglas.

Mrs. Curtis Walker and her daughter, Mrs. Wanda Caulder and children toured Carlsbad Cavern in New Mexico the past weekend.

Mr. and Mrs. Robert Vaughan are spending two weeks at Hawaii, Hawaii, visiting their daughter and son-in-law, Mr. and Mrs. R. A. Lomas. They were to return home Aug. 1.

Austin — Texas may be better off under its present type of government than the so-called cabinet form being advanced in preparation for constitutional revision, according to Texas Research League.

League staff members in a new report to the Constitutional Revision Commission point to advantages of the present system and offer these key observations:

\* While there is room for improvement, Texas government is not the "administrative jungle" portrayed by critics. There are 174 legal entities which might qualify as state agencies, but fewer than 30 of them control 99 per cent of money and personnel in state government.

\* Texas still has one of the most economical big state governments in the nation. Ohio and Missouri rate slightly lower, but Texas spends more in support of its schools than those two states. Major suggestions by the League for economies have been in the areas of education and welfare financing. Overhead administration and control functions cost 1.9 per cent of Texas' total budget, while the national average is 2.6 per cent.

\* Major Texas agencies such as the Highway Department, Education, Department of Corrections and Department of Public Safety rate high nationally. The League found few agencies in other states "clearly superior" to Texas counterparts.

\* While advocates of the cabinet theory claim it provides for holding the governor accountable for all aspects of government administration, political realities dictate that he can be held accountable at the polls only once or twice. Further, it is difficult for voters to assess thousands of acts by the chief executive during any four years.

\* Whether authority to appoint 20 cabinet officials but no sub-cabinet-level personnel would strengthen the governor in policy making is debatable. Merit system employment to insulate state employees from the spoils system is considered part of the cabinet theory. This means echelons below the cabinet level are beyond the governor's control.

The present pattern of part time boards, according to the League, provides opportunity for participation in government by

many key citizens, who, in turn, provide a powerful reservoir of support for a governor's policies. The League suggests more fiscal power for the governor and authority to order governmental reorganization subject to legislative veto.

TOP 100 PRESCRIPTIONS STUDIED — Computers are being used by the Texas Pharmacy Board to determine the top 100 prescription drugs being sold in this state.

Under new state law, H. B. 750, druggists must post the prices of the 100 most prescribed drugs at their counter this fall.

The new law will also prohibit advertising about "wholesale," "cut rate" prices, and limit drug stores to advertising about services, keeping "family records" and dangers of mixing certain types of drugs.

Consumers will be able to check the prices of the top 100 most common drugs at each prescription counter, states Joe Arnette, Texas Pharmacy Board, who is using the computer method to make the state wide survey.

AUTO RATES CUT — True to its promise, the State Board of Insurance ordered an average statewide reduction of 4.3 per cent in private auto coverage premiums, estimating 90 per cent of motorists will save at least \$25 million. New rates are effective Aug. 27.

Further, according to Board Chairman Joe Christie, the competitive rating law Sept. 1 will mean further savings for many, Christie said. One company has indicated it will ask authority to cut its rates 15 per cent across the board when the competitive rating law takes effect.

Another law passed by the legislature this year, however, may cancel out the savings for some and actually bring a slight increase. The personal injury protection coverage of at least \$2,500 for medical expenses and lost earnings or services due to accident, regardless of who was at fault, will be added to all policies unless motorists reject it in writing.

Christie said even rejections written on "brown paper sacks" will be considered valid. P. I. P. coverage costs \$22 to \$44, but many will substitute it for medical coverage which already costs \$15 to \$22 a year.

PRICES SOARING — Disruption of normal buying habits is pushing poultry prices up to the level of some cuts of beef, Texas Department of Agriculture's market news analysts reported.

Broiler prices are expected to reach the 80 cent bracket this week, according to the department's projections.

"Hoarding" and "panic buying" are contributing to run away prices, commented Mike Walton,

Agriculture Department market news chief. Walton said a return to normal buying habits will help return prices to more normal levels.

Health hazards of pets... All pets can get sick, but sometimes they can pass their problems on to humans. Ringworms, intestinal parasites, and ticks are only a few of the hidden dangers to man. To find out more about the health needs and hazards of common family pets, Today's Health consulted with Pat Bradley, D.V.M., at the University of Pennsylvania Veterinary Hospital. Here's what your favorite Felix looks like, when seen through the doctor's eyes.

\*Cats — life expectancy of up to 15 years. Cats should be given feline distemper vaccinations at 3, 12, and 16 weeks and boosters every year, as well as rabies vaccinations.

Potential human problems include ringworm and intestinal infection. The infection passes out in the cat's feces and can cause congenital disease, including brain lesion, in infants. To protect against this possible hazard, pregnant women should have someone else clean the litter box every day until they have given birth, Dr. Bradley cautions.

\*Dogs — life expectancy from 10 to 15 years, depending on breed. Pups should have their first inoculation against distemper, leptospirosis, and hepatitis at 5, 8, and 12 weeks. Grown dogs need the same shots yearly. They should also be inoculated against

rabies as often as required by state law. Hazards to humans include rabies, intestinal parasites, ringworm, and ticks.

\*Birds — life expectancy varies: parakeets may live 10 years, while parrots have lived beyond 100. The two potential problems of birds are feather mites and intestinal parasites. Special hazards include psittacosis, an infectious disease marked by diarrhea and wasting (although the bird may not show any symptoms at all). If transferred to humans, the disease can cause nausea, fever, and bronchial pneumonia.

\*Rabbits — generally live 5 to 10 years. Rabbits can be bothered by both worms and ear mites. They also can carry fur mites, which can be irritating to human skin. Wild rabbits brought home from the woods sometimes carry tularemia, an infectious disease of rodents, man, and some domestic animals. In man, it produces toxic symptoms, such as fever.

But animal lovers needn't be too disconcerted. Millions have owned pets and never had any problems. If you keep your pet healthy and are aware of its needs, says Dr. Bradley, you'll help protect your health, too.

**Milk Production Declines As Predicted . . . Broilers, Eggs Also Show Declines . . . Cattle Feeding Increases.**

Milk production in Texas as well as the nation is following a year long pattern of declines, which has been predicted by dairy group spokesmen. Texas milk production for June is 5 per cent below the previous month's production, although it is slightly above June of a year ago.

Nationwide, milk producing is 2.5 per cent less than a year earlier. Production during the first half of this year is running 2 per cent under 1972. The number of milk cows, nationwide, also has declined 2 per cent.

The cost price squeeze in the dairy industry is also dramatized in the milk-feed price ratio. That ratio is down 27 per cent from a year ago. It is also the lowest June ratio since 1955.

EGG production in Texas during June is down 4 per cent from a year ago and 5 per cent under last month. Nationwide, a decrease of 5 per cent is noted from the same month a year ago.

Broiler chick hatch in Texas during June is down 7 per cent from a year ago and 10 per cent under the preceding month.

The turkey poult hatch for Texas during June is up 19 per cent from a year ago, but is 9 per cent under a month ago.

The June hatch of egg type chicks in Texas is up 34 per cent from a month ago and 3 per cent above a month earlier.

CATTLE on feed in Texas and the nation continue to increase. As of July 1, a total of 2,335,000 head of cattle and calves were on feed in Texas. This is 10 per cent above a year ago, 4 per cent above June 1, and 3 per cent above April 1.

Large feedlots—those with 1,000 plus capacity — numbered 234. Steers accounted for 1,513,000 head of the cattle on feed.

Cattle placements on feed in Texas feedlots from April 1 to July 1 were down 11 per cent compared to a year ago. Cattle marketed out of Texas feedlots is 4 per cent above marketings compared to the same period of a year ago.

Feedlot operators intend to market 1,238,000 cattle between now and Sept. 30. This would be 6 per cent more than marketed during the same quarter last year.

Nationwide, cattle and calves on feed is up 2 per cent from a year ago. Cattle feeders plan to market about 1 per cent more than those actually sold during the July to September period of a year ago.

# FOR the Legal Sale of Beer

**A VOTE FOR LEGALIZED SALE OF BEER FOR OFF-PREMISE CONSUMPTION IS A VOTE FOR:**

## Better Law Enforcement

- A retailer cannot sell to minors.  
(Your boot-legger entices minors)
- A retailer cannot sell to a person who is obviously intoxicated. (This reduces the incidence of drunken driving.)
- Beer can only be sold during the hours specified by law.
- Beer can only be sold at the business location of the retailer.
- A retailer can sell beer at competitive prices and must pay all taxes due.
- No beer can be consumed on the premises where it is sold.
- The legalized sale of beer helps deter the illegal sale of beer by reducing the market.
- The legalized sale of beer means more officers to enforce the law.

# Retirement.

## The end of work, or the beginning of worry?

Most people look toward retirement as a time of relaxation and enjoyment. And it can be if you prepare for it. But if you don't, it can be a time of worry and discontentment. A time when you can look back and think of a million ways that you could have saved, but didn't.

Well, there's no better time to think about retirement than now, while you're working.

One easy way to save on a regular basis is by purchasing U.S. Savings Bonds through the Payroll Savings Plan where you work.

Now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 5½% when held to maturity of 5 years, 10 months

(4% the first year). That extra ½%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with a comparable improvement for all older Bonds.

Buy U.S. Savings Bonds. They'll help make your retirement just what you want it to be.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

**Take stock in America.**  
Now Bonds pay a bonus at maturity.

**FOR the Legal Sale of Beer**

**Plain Talk About Legalizing the Sale of Beer for Off-Premises Consumption ...**

There is a great deal to be said for and against legalizing the sale of beer for off-premise consumption. One can argue this and point out that.

No one can deny that there are people who should not drink alcohol of any kind because they are afflicted with alcoholism. There are those who believe that alcohol is the cause of this affliction. Maybe it is, maybe it isn't. Maybe it's a person's mental attitude, maybe it's his body chemistry. But not everyone is susceptible.

There are people who do not have the taste for beer and there are those whose religious beliefs are against the consumption of any form of alcoholic beverage. This is their right and privilege. The proposal to legalize the sale of beer in Justice Precinct 1 is not designed to change their tastes nor challenge their beliefs. It is not designed to entice non-drinkers to drink.

It has been said that it would not profit Robert Lee and Coke County to legalize the sale of beer. It has been said that it would increase litter and the incidence of drunken driving and accidents. It has been said that legalizing the sale of beer would entice minors and expose them to drunken behavior.

The legalization of the sale of beer for off-premise consumption is proposed as a free enterprise to earn capital. This is an undeniable fact. But from the revenue earned from the sale of beer and the tax revenue returned, all of Robert Lee and Coke County and Lake Spence can profit.

It has been said that there is no need for additional revenue. Yet, one hears complaints that too much money is spent out of the county, more roads need to be paved, better equipment is needed at school, so many people have to leave the county to earn livings and/or supplement their income, not enough housing, not adequate medical care, etc., etc., etc. The need for these funds seems to depend on one's point of view.

Additional tax revenue can aid in obtaining these objectives. It could assist in making the community attractive to industry, thus providing more jobs. Improvements could create an atmosphere whereby more businesses might locate in Robert Lee and Coke County or where people might choose to retire or vacation. The revenue from the sale of beer could provide these additional funds to help resolve the litter problem. These monies would also provide more law enforcement officers and thus better law enforcement. More law enforcement would reduce the incidence of drunken driving and thereby reduce accidents due to drunken driving.

Perhaps beer being sold legally locally is enticing but not to minors. The retailers locally would be better able to screen minors and the law prohibiting sales could be more strictly enforced. As for exposing minors to adult drunken behavior, no beer can be consumed on the premises and no beer can be sold to anyone intoxicated. These are the laws in relation to the sale of beer for off-premise consumption.

Please vote for the Legalization of the Sale of Beer for Off-Premise Consumption.

## Thoughts

**From The Living Bible**  
So, warmly welcome each other into the church, just as Christ has warmly welcomed you; then God will be glorified. Remember that Jesus Christ came to show that God is true to his promises and to help the Jews. And remember he came also that the Gentiles might be saved and give glory to God for his mercies to them. That is what the Psalmist meant when he wrote: "I will praise you among the Gentiles, and sing to your name." And in another place, "Be glad, O you Gentiles, along with his people the Jews."

# To Citizens of West Coke County

Again Your Tax Money Is Being Used To Support a Liquor Election!

A number of people in our community are interested in legalizing the sale of beer and have exercised their right to call an election.

Believing this to be a critical decision for the future of our community, we urge you to weigh the following questions seriously before the election August 4.

1. Would the sale of beer really benefit us, as some believe?
2. Should we make beer more readily available to those who use it —adults and minors alike?
3. Do we really need the sale of beer to "bolster the economy" and promote our community?
4. Who stands to profit from beer sales other than those who distribute it and retail it?
5. Do we need the litter and clutter connected with the use, advertising, and traffic of beer added to our highways, parks and lakes?
6. Will legalized beer sales make Robert Lee and West Coke County a more attractive place for visitors and prospective citizens?
7. Above all, could it possibly make our community a better place to live and rear children?

This Is an Appeal to Your Good Judgment and We Feel You Will Do Your Part To DEFEAT THIS ISSUE Again!!

# Vote NO at Saturday's Election

This Saturday the citizens of Coke County, precinct 3, go to the polls to decide if beer will be sold legally in this community. The decision made by this vote could have a greater impact on this community than we realize.

Those who advocate the legal sale of beer point to the revenue that will be paid by the sale of beer, but fail to point out the increase in taxes that could occur. Already citizens of the United States pay between six and seven billion dollars in taxes because of alcohol. Coke County pays their part of these taxes. Ninety per cent of the litter on our highways is alcohol related and the legal sale of beer in Coke County will bring an increase in this problem also. Any increase in the expense of collecting litter from along our roadways and parks will bring higher taxation to meet the expense. Must the majority pay for picking up the "empties" of a few? Will a tax increase of this nature help this community?

Advocates of the legal sale of beer in Coke County point to the hardship of having to drive thirty miles to obtain beer. Any law that permits a freedom of convenience to a minority and at the same time brings a hardship on the majority is not a good law. Why would this not be a good law? Alcohol in any drinking form is a narcotic. (This fact is supported by the Commission on Alcoholism.) We, the citizens of Coke County, would be legalizing the sale of a narcotic in our community. We would bring the temptation and opportunity to drink alcohol thirty miles closer to our children. What parent would make a law that would endanger the health and welfare of their children? This is what will take place with the legal sale of beer in Coke County. Every child will be thirty miles closer to becoming the victim of a drunken driver. Can those who want the legal sale of beer point to one area where beer is sold that does not produce a drunken driver? Twenty-seven seconds after the first drink is taken, the brain receives the first effect of alcohol. How many would be 30 miles closer to becoming a drinker of alcoholic beverages? 30 miles closer to becoming one of the nation's 9 million alcoholics? What parent or friend could wish this kind of future on another? Must we risk the future of our young people and this community for the sake of the sale of beer? Vote NO at Saturday's election.

Kenneth C. Green  
Citizen of Robert Lee

# A Vote AGAINST Beer Is A Vote For A BETTER COMMUNITY

- WE BELIEVE** the more available beer is in a community, the more of it is consumed. (In most communities where it has been legalized, we see this to be true.)
- WE BELIEVE** the more alcoholic beverage that is consumed the more traffic accidents we have. (State records show approximately half of the accidents have alcohol as the major cause.)
- WE BELIEVE** that if we "vote in" beer, our law enforcement problems will increase.
- WE BELIEVE** that more tax dollars will be spent on extra law enforcement and related problems than we gain through taxes on beer.
- WE BELIEVE** legalized beer will affect the children and homes of our community.
- WE BELIEVE** that Robert Lee and Coke County are getting along well WITHOUT legalized alcoholic beverages.

# FOR the Legal Sale of Beer

A Vote FOR the Legalized Sale of Beer for Off-Premise Consumption Means Economic Growth Through More Tax Revenue.

\*Last year revenue from the sales of alcoholic beverages was approximately \$95 million. Of this, \$16.25 million went to the School Systems. Fifty-three million went to the State Commission for the Blind, Health and Welfare, State Hospital operations, Teacher Retirement and state employee retirement.

Fifteen million dollars of alcoholic beverage sales revenue went into the state's General Revenue Fund. The attorney general's operating fund received \$39,000. Six million dollars of revenue from these sales supplied the entire operating fund for the Texas Alcoholic Beverage Commission which controls and enforces liquor and beer sales.\*

\*—Statistics provided by T.A.B.C.

We all profit from this revenue. We will need more such revenue in the future.
