Homemade Dustcloths

Have you ever made your own dustcloths? Watchers of the TV series, "You Can Do It," saw Cindy Kidwell make hers recently. For those who missed her program, here are the ways it is done.

There are four preparation methods.

To use the first method, pour two tablespoons of furniture polish or liquid wax into a one quart jar or coffee can. Rotate jar or can to completely coat inside surfaces. Pour out excess liquid to avoid getting too much on the cloths.

Paste wax also can be used — by coating inside of the jar or can with a light film of wax.

Then place two or three dustcloths in the jar or can. Let them stand a day or two—they will absorb the liquid or wax evenly.

Another method combines one-fourth cup lemon oil with one pint of boiling water. Then add six to eight cloths and let them absorb as much liquid as possible. When the water cools, wring out each cloth and hang it up to dry thoroughly.

For all dustcloths, use old, soft cotton cloths. Always store treated dustcloths in a covered glass jar or can to prevent a fire hazard.

When they become soiled from use, wash in warm suds and treat them again if necessary.

A third method calls for one tablespoon of kerosene mixed with one quart of hot water. Dip the squares of soft clean cloth into this solution, wring out, dry and store in covered jar or can.

For the fourth method, mix one quart of warm water, one tablespoon of mild soap or detergent powder, one tablespoon of household ammonia and two tablespoons of boiled linseed oil or a good furniture polish.

Mix well and dip soft cloths into the solution. After cloth is saturated with mixture, squeeze out, dry and store in covered jar or can.

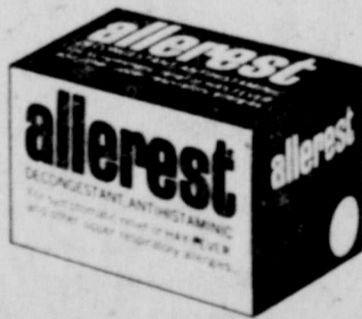

Don't forget the "You Can Do It" program Friday on Channel 12 at 11:30 a.m.

- DISHWASHER: Make sure it's empty. Shut the door, but do not latch.
- DISPOSER: Run and flush with cold water.
- ELECTRIC RANGE: Make sure all switches are in the "Off" position.
- WASHERS: Turn off water supply at faucets.
- WATER HEATER (ELECTRIC): Turn off at circuit breaker panel. When you return, run a small amount of water from a hot water faucet to make sure there is water in the tank before you turn the circuit on.
- TRASH COMPACTOR: Remove any accumulated trash.
- TELEVISION SETS: Unplug from electric outlet and disconnect the antenna lead-in cable.
- CLOCK RADIOS, ETC.: Check these and all other items with automatic "On-Off" controls. Disconnect the ones that won't be needed.
- LIGHTING: Be sure that all lights are off except those needed for security, such as: 1) yard light and/or other exterior lighting with automatic controls — on at dusk, off at dawn; 2) portable lamp in living area with automatic control; 3) hall or bathroom light.
- AIR CONDITIONING: Normally, air conditioning should be turned off completely while on summer vacation. However, if there is anything in your home that might suffer heat damage, the thermostat setting could be raised 5 to 10 degrees above normal operation and the unit left on. For comfort, you might have a friend or neighbor turn on the unit the day of your return.

ROBERT LEE OBSERVER

**The cost
of not saving
keeps
going up.**

If you need cash and you haven't saved it, you have to borrow. And that means paying through the nose to use someone else's money.

So it makes sense to put away a few dollars of your own. One great way to do just that is by purchasing U. S. Savings Bonds through the Payroll Savings Plan where you work. It's an easy way to build a nest egg.

Now there's a bonus interest rate on all U. S. Savings Bonds — for E Bonds, 5 1/2% when held to maturity of 5 years, 10 months (4% the first year). That extra 1/2% payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with comparable improvement for all older Bonds.

Buy U. S. Savings Bonds. It's a lot better to be receiving interest on your own money than paying it out on someone else's.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America.
Now Bonds pay a bonus at maturity.

Debra Thompson Wed to Allen Wayne Rogers

The bridegroom's parents are Mr. and Mrs. Jari Rogers of Midland. The Rev. Tom Rogers of Holdenville, Okla., uncle of the bridegroom, officiated.

Miss Cindy Rogers of Holdenville, cousin of the bridegroom, was bridesmaid, and Alan Bell, brother of the bride, was best man. Miss Vicki Stevens of Sweetwater was candlelighter and Mrs. Marie Thompson of Robert Lee was pianist.

The bride, who was given in marriage by her father, wore a white crepe gown overlaid with white lace, with long lace fitted sleeves and lace train. Her veil was white lace and she carried a white lace covered Bible topped with a white orchid.

The wedding reception was also held in the Thompson home, using the bride's chosen colors of blue and white. The table was laid with white lace over a blue flowered table cloth. The centerpiece was a floral arrangement of blue and white carnations accented with blue candles.

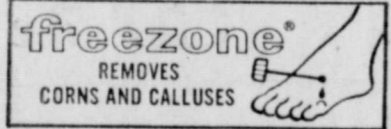

Silver and iridescent carnival glass appointments were used. The two tiered cake was white with blue decorations and had a miniature bride and groom on top. Mrs. Charlotte Hindman served cake and Miss Pauline O'choon poured the blue punch.

The bride's going away dress was a pink double knit trimmed in blue with white accessories.
