to lay the line as the pipe comes in. The estimated completion date is about six weeks from now. Cost of the project is \$130,000.

The pipe is coming from a Denison firm and has been delayed because of shortages.

The waters situation in Robert Lee continues to be a difficult matter with lots of complaints about the quality of the water. The City Council is hoping, however, to solve the problem for a long time to come with the laying of the new line which will give the city a dependable water supply from Lake Spence.

Recent rains have put 1½ feet of water in Mountain Creek Lake, and Water Supt. Sherman Williams said, "We're hoping it will last until the pipeline is laid."

Retirement.

**The end of work,
 or the beginning
 of worry?**

Most people look toward retirement as a time of relaxation and enjoyment. And it can be if you prepare for it. But if you don't, it can be a time of worry and discontentment. A time when you can look back and think of a million ways that you could have saved, but didn't.

Well, there's no better time to think about retirement than now, while you're working.

One easy way to save on a regular basis is by purchasing U.S. Savings Bonds through the Payroll Savings Plan where you work.

Now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds; 5½% when held to maturity of 5 years, 10 months

(4% the first year). That extra ½%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with a comparable improvement for all older Bonds.

Buy U.S. Savings Bonds. They'll help make your retirement just what you want it to be.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America.

Now Bonds pay a bonus at maturity.

Pack Wisely for Vacation

Vacation travel often means living out of a suitcase for a week or two—but it won't be hard to keep clothes looking nice if you follow these secrets to successful packing.

Basically, try to choose clothes like knits that travel well and learn to pack carefully.

A 24 to 26 inch suitcase is best for a long trip because it will be large enough to keep carefully packed clothes in good condition.

* When you are ready to pack, lay out everything you plan to take or think you will need.

* Separate these things into like groups.

* To make all space count, put small things, or hose, inside shoes.

* Belts and small accessories go in the bottom of the bag. Shoes and bulky things, on the bottom toward the back.

* Fill the corners with undergarments or wrinkle proof articles.

* The real secret is to smooth off the top and make a flat surface for dresses and blouses.

Now for the dresses:

* Close all openings on the dress. Lay it flat, front down. Spread tissue over the entire dress.

* Measure the suitcase length. Then if possible, make only one crosswise fold in your dress.

* Avoid folding dresses or any garment down the center front or center back.

* In general, pack the things you'll need first, such as nightgowns or slippers, on top in the suitcase.

Henry and Effie Carwile were Sunday guests of Mr. and Mrs. Bryan Gartman.

Douglas Walker of San Angelo is spending this week with his grandparents, Mr. and Mrs. Curtis Walker.

Plan Ahead

If you're between ages 20-45, these questions are for you. (1) Do you have a retirement program (in addition to Social Security)? (2) Will it be sufficient when you are 65? OR Are there things you and your family will do without?

No one plans to fail—Some just fail to plan.

For the retirement program you want, contact:
