50th Year — No. 23

WIND 2, TRUCKS 0—That was the score last Wednesday afternoon when the 45-mph gusts of wind knocked these two trucks around. William Jess Sutton of Amarillo had just pulled his empty double-decker cattle truck (top photo) to the side of the road 7½ miles north of Dimmitt on US 385 when a big gust blew it over with Sutton still in the cab. He was not injured and his truck suffered only minor damage. A wrecker service was called out of Lubbock to upright the truck. The truck

is owned by John Morrell Co. of Amarillo. The other truck (bottom photo) was hauling around 600 bales of hay. The truck had just turned at the Y south of Dimmitt, following US 385 south, when the wind dumped 400 bales on the road. Only 10 to 15 bales burst. The truck turned around and, with the help of a bale loader, reloaded. The loose hay was loaded into a pickup truck.

All school posts contested

Trustee elections in all three Castro County school districts drew full slates of candidates and some city races are also contested for the spring elections of April 2.

ABSENTEE voting will begin Monday and continue to March 29 in all elections except those for the City of Dimmitt, when the dates are March 21 to 29. Absentee votes in the Dimmitt trustee races will be cast at the school administration building and for city offices at the City Hall.

Balloting will be in the Hart school tax office for trustees in that district and at the Nazareth school superintendent's office. For board members of the Plains Memorial Hospital District, absentee voting will be at the hospital administrator's office, March 14-29. There are seven candidates for three places on the board.

ALL THREE of the Dimmitt Independent School District board members whose terms expire this spring will be in the race for re-election, with announcement by Donald Wright that he will be a candidate. Wright filed for a place on the ballot just before the dead-

line March 2, and Charles Nutt and Fred Brugel Jr. had announced for re-election earlier.

Deanne Clark's name was also entered in the race before the deadline. W. J. Hill and David Schaeffer are other candidates.

Four candidates seek two places on the Hart ISD board. C. R. Jones is asking re-election while Bill Brantley, James Jackson and Jerry Bonsal have also filed as candidates.

Cleve McLain is completing his term on the board and will not be a candidate. Board members whose terms do not expire this spring are Waymon Foster, Bill Rich, Joe Edd Carson, Weldon Jones and J. D. Myrick.

At Nazareth the school trustee candidates are Jimmie Schulte, Rita Book, Hubert Backus and Richard Hoelting. Two places are to be filled there as Edward Ramaekers and James Wilhelm leave the board.

HOSPITAL BOARD candidates are Frank Wise, Juanita Welch, Miguel Zuniga, Dr. Bill Murphy, Joe Bailey of Hart and two present board members who seek re-election, Dan Nelson and James Welch.

Tuesday was the deadline for filing for these positions, and each candidate was required to present a petition with the signatures of 100 qualified voters in the hospital district.

A CANDIDATE to oppose the incumbent corporation judge, L. G. Manning, in the City of Dimmitt is Carmen Catano, whose candidacy was filed just before the close of the final filing day. Manning previously filed for re-election.

The other city office to be filled in the election is that of mayor, with present Mayor Elmer Youts unopposed in his bid for another term.

W. T. King and Bob Bowden ask election to the Hart City Council, to replace Aubrey Myers and L. C. McLain who are not seeking re-election. Frank Barnes, the present mayor who completed the unexpired term of Richard Franks, is the sole candidate for that post.

Only one place on the Nazareth City Council will be vacated this year and the incumbent, Gregory Schacher, is an announced candidate. He drew an opponent on the final filing day when Jerry Lange entered the race.

Shooting is investigated

The Castro County Sheriff's Department was investigating at presstime Wednesday a shooting which left Tex Conrad of Dimmitt with a gunshot wound to the head.

THE VICTIM was taken to Plains Memorial Hospital and then transferred to a Lubbock hospital.

He was found early Wednesday beside his pickup, which was parked at the Ezell Sadler place north of Sunny-side. Sheriff's officers were called to the scene at 8:25 a.m.

LESS THAN 15 MINUTES was all it took Monday for Connie Stallings (left) to complete the necessary procedure to get her 1977 plates and sticker from Kitty Owen (right),

deputy clerk at the tax office in the courthouse. But it may take a lot longer for others if everyone follows the usual custom of waiting until the last minute.

Time running out for '77 motor vehicle licenses

Motorists will have no one but themselves to blame if they wait until the deadline April 1 to get their 1977 vehicle registrations, then find themselves in "the big crunch" and long lines, Tax Assessor-Collector Kent Birdwell says.

State champs' coach says Cats 'would have won it'

As it turns out, the District 3-AA playoff game at Level-land—which Morton's Indians won in overtime—DID determine the state champion.

THAT'S the opinion of Morton Coach Dan Smith, whose Indians captured the state title over the weekend in Austin.

The only close game the Indians had in their climb to glory was in the state championship contest Saturday night, when they defeated the Kountze Lions, 63-60. The Indians mowed down all other playoff opponents by big margins.

"If we had not won state, Dimmitt would have," Smith said flatly. "I think we could beat Kountze nine times out of 10, but if we played Dimmitt 10 times I think our two teams would split the games right down the middle. Dimmitt has as good a ball club as we have."

COACH Ken Cleveland and his Bobcats were on hand in Austin to see the Indians capture the state title. After Morton's championship victory, Smith said, "I told the Dimmitt kids that I thought they were the No. 1 team in the state, along with us. I don't feel like we played any tougher team than Dimmitt all year. I'd a whole lot rather play Kountze any day of the week than to play Dimmitt."

Smith expected Kountze's Lions to use the same "hully-gully" run-and-shoot offense in the championship game that they had used in defeating Weimar in the state semifinals. "But against us, they didn't play the same kind of game—we were the ones that played run-and-gun in that one," he said. "We love to run and shoot, and they let us do it. We shot more during the first half than they did the entire game."

BUT KOUNTZE, "probably the quickest team we played all year," did manage to break Morton's full-court press, Smith said, and the Indians had to adjust their defense.

"On our press we were leaving a hole in the middle and they were so quick that they got through it," Smith said.

5-8 sophomore Bobby Patton saved the championship for the Indians when—with nine sec-

Danelle Schmucker wins Spelling Bee

Danelle Schmucker, a seventh grade pupil in the Nazareth School, will represent Castro County in the Regional Spelling Bee at Amarillo April 23, as winner of the County Spelling Bee here.

SHE PLACED first in the senior division and another girl from Nazareth, Mary Jane Huseman, was first for juniors. The junior spellers do not compete at regional level.

Karen Huseman was second for seniors, Jackie Washington third and Jay Reeve fourth. The latter two are Dimmitt students.

Beth Mohon of Dimmitt was

second in the junior division, Jeanie Wilhelm of Nazareth third and Katie Lapins of Dimmitt fourth. Cash awards went to the top three in each division.

Each school in the county was allowed an entrant in each division of the county contest, but Hart did not have entrants this year, according to County Judge Weldon Bradley, local director for the Spelling Bee which sends its winner each year into competition for a trip to Washington, D.C. and competition in the National Spelling Bee.

Paving project, jail removal talked by city commissioners

The City Commission considered a possible \$35,000 paving project and voted to take bids on removal and disposal of the city jail at the meeting Monday night.

CITY Manager Garnett Holland revealed that Bill McMorris & Assoc. of Amarillo, city engineers, evaluated the condition of city streets and recommended that 100 blocks in various areas be resealed.

They estimated the cost of this at \$35,000 at current prices, or 33 cents per square yard. The commission took the matter under consideration for future action.

The commission also discussed re-topping the city park tennis courts. Holland suggested checking with Jake Diehl Paving Contractors to see what that firm would do it for after finishing the new parking lot for a local business.

THE NEED for more office and working room in the city hall prompted the move to begin asking for bids on the jail.

Holland said that the police will retain one holding cell which is already plumbed. The police department will move into the rest of the area vacated by the jail, and the present police offices will be converted to use by the city judge and building and plumbing inspectors.

A cost of living salary adjustment for city employees on

the agenda was tabled until next meeting so that more extensive figures on the present pay scale could be obtained.

Discussion on the matter centered on whether to give a set-amount raise to everyone or a 10% raise based on present

Illness cuts attendance

School absenteeism due to illness has been higher than normal recently, but absences Tuesday were well below those of Monday in all three Dimmitt schools and officials emphasized that there has been no thought of closing schools here.

RESPIRATORY illnesses, virus infections and also such contagious diseases as measles and chicken pox have taken their toll of the students.

Pupils are immunized for measles when they enter Dimmitt schools, but the current form of the disease is either an unusual strain, or the immunization has been weaker than expected, school officials said.

In Richardson Elementary School 97 pupils were absent Monday and 80 Tuesday. At the Dimmitt Middle School the figure was 106 Monday but had dropped to 89 Tuesday. Absences in Dimmitt High, gradually increasing the last two weeks, totaled 53 Monday and 31 Tuesday.

salary. MAYOR Elmer Youts said that since living expenses such as haircuts, groceries, etc., cost the same for everyone, why not give everyone the same raise. He added that a percentage type raise pushes the top earners "through the roof" while [See CITY PAVING, Page 8].

The Knowledge of the Lord

Habakkuk 2:14. "For the earth shall be filled with the knowledge of the glory of the Lord, as the waters cover the sea."

The Church is chosen of God to spread the good news that God has a plan to redeem men and reconcile them unto Himself through the vicarious sacrifice of Jesus Christ our Lord. The Church will be so successful in spreading this glorious knowledge in the world that God says the earth will be as full of it as the waters that fill the ocean. Attend church and become a part of this great undertaking.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Continuing from last week, I decided to mention some authors with which most of Dimmitt's patrons might be more familiar.

HERE ARE some: Anne Hampson, Racheal Lindsay, Emilie Loring, Lilian Peake, Violet Winspear, Anne Mather, and Barbara Carland. If you know one, you know them all, for they all have one thing in common. They write the short romantic novels which sell like hot cakes today.

Information about these authors is rather sketchy. However, I have found some interesting things. Barbara Carland, for example, who lives and writes in England, also works with a college for midwives and has worked for better salaries for nurses and midwives. This has brought her many honors. She has championed the cause for elderly people in Great Britain and started a camp for Gypsies. Besides writing romances, now she is interested in vitamin therapy and is President of the British National Association for Health. How do you like that?

Anne Mather is now read worldwide and lives in Scotland. Violet Winspear is a Londoner. She was born within the sounds of the Bow Bells, which means she is a real live Cockney. Lilian Peake got her experiences for romance novels by working as a secretary, journalist and an advise columnist like Ann Landers. Her husband is a college principal and she has three children.

TURNING to more local literature, there are three authors most widely read in the subject area of the western. They are, of course, Louis L'Amour, Luke Short and Max Brand.

Luke Short is the pen name for Frederick Glidden. Born 1907 in Illinois, he now lives in Aspen, Colo. Before he wrote westerns, he was a trapper near the Arctic Circle in Canada.

Louis L'Amour lives in Los Angeles now, but he comes from a real pioneer family in North Dakota. (His grandfather was scalped by a Sioux Indian.) He has been everything from an officer on a destroyer during World War II to an elephant handler. But it would be natural for him to be a writer, since he is the 34th member of his family to be a writer since 1816.

L'Amour has been very prolific. He has written more than 400 stories and 50 books.

You are probably familiar with Vardis Fisher. That is, you may well be more familiar with his work rather than the author himself. "Mountain Man", originally published by William Morrow and Co., Inc. in 1965, was the inspiration for the movie "Jeremiah Johnson" starring Robert Redford. Vardis Fisher is the author of "Mountain Man."

If you watch television reruns, you might be interested in knowing the author E. Kitzes Knox. Who, you say, is E. Kitzes Knox? Never heard of him. Mr. Knox is the author of a book, a very popular one, printed in 1965, called "Gomer Pyle, U.S.M.C."

Students at AC to stage opera

A meandering husband is put in his place in "The Candi Outwitted," a one-act opera to be presented by Amarillo College students at 8 p.m. March 17 and 18 in the Concert Hall/Theater of the Fine Arts Complex.

THE OPERA will be conducted and directed by J. D. Goddard, AC music instructor. The opera will be open to the public at no charge.

Local players reap post-season honors

Bobcats put four on all-3AA squad

Dimmitt and Morton dominated the 3-AA All-District Boys Basketball team for 1977, each placing four players on the first team chosen by the coaches.

THE 10-MAN squad included from the Dimmitt Bobcats lineup, Keith Crum, 6-3 senior forward; Jerry Schaeffer, 6-2 senior forward, Rocky Rawls, 5-7 junior guard and Johnny Hampton, 6-foot senior guard. Brad Glenn, 5-10 senior guard, was given honorable mention.

Other all-district picks were Lonnie Harrison, 6-0 senior forward, Morton; Troy Patton, 6-3

senior forward, Morton; Mark Neill, 6-3 senior forward, Friona; Narva Simington, 6-0 senior forward, Littlefield; Mike Wisian, 6-2 senior forward, Muleshoe; Bobby Patton, 5-8 sophomore guard, Morton, and Rusty Lamar, 6-2 junior forward, Morton.

Dimmitt and Morton battled to the finish for the district championship this year, each leading a half of the season's play. The Indians captured the playoff in overtime, 58-53, in a game billed as the state's top schoolboy contest of the week.

Bobbies lead choices on girls' all-district

Beth Cleveland was a unanimous choice as an all-District 3-AA forward for the third year, and Mel Nelson was picked unanimously for the second year in a row to a guard's position, when coaches made their selection for the girls' basketball team.

JOYCE WOOTEN, forward, and Nita Parker, guard, also won places on the team and honorable mention was given Sandra Tischler, forward, and Brenda Underwood, guard.

Dimmitt High School's Bobbies, who won district and bi-district championships before

losing to Abilene Wylie in the regional tournament, led in placing four girls on the all-district roster, Muleshoe supplied three, Olton and Littlefield two each and Morton one.

The all-district forwards include Susan Cadenhead of Morton, Monica Phillips of Littlefield, Elaine Rodriguez of Olton and Sheryl Stovall of Muleshoe.

Guard selections are Tanya Burton and Cynthia Isaac of Muleshoe, Janet Huguley of Olton and Lori Westmoreland of Littlefield.

Cleveland to coach North All-Stars

Ken Cleveland of Dimmitt has been chosen to coach the North All-Star Team in the Texas High School Coaches Association's North-South All-Star game at the organization's 1977 coaching school in July.

HIGH SCHOOL coaches from all levels throughout the state elected Cleveland for this, the highest honor a coach can receive from his fellow coaches. This is the third time he was nominated for North coach and in 1974 he was chairman of the North selection committee.

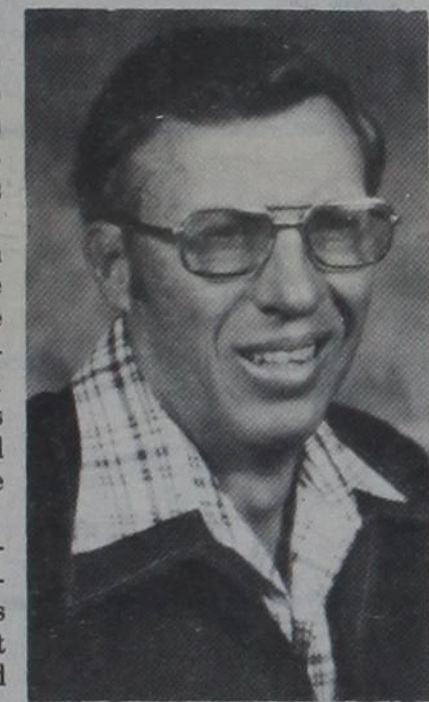

The Bobcat mentor is vice-president of the Texas Association of Basketball Coaches and will serve as its president next year. He was named Coach of the Year by the Panhandle Sports Hall of Fame.

As coach in Dimmitt, Cleveland has seen his teams win ten district championships with a record for the past two years of 66 wins and five losses.

HE COACHED the Bobcats to the state title in 1975 and in 1967 they were state runner-up. The Bobcats reached state competition in 1971 but lost the first round. His teams have participated in regional tournaments six times.

Cleveland holds a record of 414 wins and 119 losses in his 18 years of coaching, which began with his graduation from the University of Texas at Austin. There he was captain of the UT basketball team.

He was a 1954 member of the Texas High School Coaches Association basketball squad.

Ken Cleveland

In high school at Coleman he made all-state teams in both football and basketball.

COACHING school for the boys all-star team will be held in Dallas July 24-28. The all-star coach stays with the team, working out prior to the game July 27 in the Dallas Coliseum.

The team is made up of two players from each classification and two at large from the eight regions of Northern Texas.

A coach is nominated from each of the eight regions and voting is done by all members of the Texas coaches' association. Other nominees this year from the north were Steve Booth of Brownwood, Jim Nichols of Everman and Keith Thompson of Odessa.

Over-65 citizens given free passport to parks

For anyone, state and national parks are a hard-to-beat recreation bargain, offering a full variety of outdoor enjoyment for a very nominal fee. Now, an extra bonus is available to senior citizens in Texas' state parks as well as the federal ones.

THE 64TH Legislature in 1975 authorized waiving the park entrance fee for persons 65 years of age and over. With adequate proof of identification, the Texas Parks and Wildlife Department will issue a free, annual State Parklands Passport in the form of a windshield sticker and registration receipt.

These admit the holder and all companions in his vehicle to any park where entrance fees normally are charged, but are not valid for pier fishing privileges or park conducted tours.

Daily entrance fees admit a vehicle and all occupants for day use, or overnight when purchased in conjunction with overnight user fee. However,

an annual permit in lieu of a daily park entrance fee is available for \$12 for those under age 65, while a \$5 restricted annual permit allows entrance to any one designated state park. These permits also are not valid for pier fishing or park conducted tours.

THE FEDERAL government issues Golden Age and Golden Eagle Passports to selected national parks, monuments and recreation areas.

The Golden Age Passport, free to person 62 years of age or over, is good for the lifetime of the permittee and allows entry to the holder and accompanying riders, plus 50 percent discount for use of non-concession facilities within the national areas.

The \$10 Golden Eagle Passport, available for those under age 62, is good for one calendar year. This entrance permit for holder and companions in a single vehicle does not cover facilities fees in the federal areas.

Girls picked for all-star games

Girls from Dimmitt, Hart and Nazareth High Schools have been selected to participate in the annual Golden Spread Girls' High School All-Star Game March 19 at Amarillo, playing on the West team. Others have been named to a North all-star team for a July game.

NITA PARKER, Dimmitt guard; Rachelle Pohlmeier, Nazareth forward, and Sharla Carson, Hart guard, are the three who will play in the game at Amarillo, preceding the finals of the National Women's Invitational Tournament in that city's Civic Center Coliseum.

All were chosen to all-district teams in their schools' classification at the close of the 1977 season. Parker was placed on the all-regional tournament team in Class AA.

Pohlmeier averaged 10 points a game for the season

and hit 100 percent in two games at the Class B regional tournament. Carson was selected most valuable guard in District 3-A this year and was on the all-district team three years.

TO PLAY on the North squad at the Texas High School Coaches Association's All-Star game July 16, Beth Cleveland was chosen from the Dimmitt Bobbies and Rosemary Schulte from Nazareth.

This game will be played in the Taylor County Coliseum at Abilene.

Both the Castro County girls have earned numerous honors during the season. Schulte, playing with the state championship Class B Swiftettes, earned a berth on the all-state tournament team and Cleveland, leading the Bobbies in scoring all season, was selected for the all-regional Class AA team.

DHS girls go to first track meet of season

Dimmitt High varsity girls tracksters competed in their first meet of the season at Tulia Saturday and amassed a team total of 41 points.

THEY WILL go to Olton for a meet Saturday, then travel to contests each week until the district meet at Littlefield April 15.

"Since this was the girls' first meet, and the weather was uncomfortably cold for track events, we are pleased with the showing Dimmitt made at Tulia," Coach Sam Nichols said after the Saturday meet.

Lou Phillips set a new school record of 66.1 in the 440-yard dash but finished seventh in the meet. Dorothy Rivers was second in the 100-yard dash

and Olivier Glover sixth in the 220. Vicki Cleveland placed second in 80-yard hurdles.

THE RELAY team comprising Lori Dyer, Phillips, Cleveland and Glover, finished fifth. Glover was second and Rivers fifth in the long jump, Rivers fourth and Glover fifth in the triple jump.

Lynna McGuire took sixth place in shot put and Sharon Castleberry sixth in discus throw.

The schedule for the coming weeks calls for a trip to Farwell March 19, to a meet at Friona March 25 and 26, to Lorenzo April 2 and Lubbock Roosevelt April 9, preceding the district meet.

Trees, vines, shrubs help keep house warm or cool

The biggest energy saver for your home is growing in your backyard.

A LANDSCAPE horticulturist for the Texas Agricultural Extension Service points out that trees, shrubs and vines can cut the cost of cooling and heating your home.

"With the correct plants and proper placing, trees and other greenery can become protectors from wind, heat and cold," says Everett Janne.

Plants can also collect the dust that might otherwise end up on your coffee table and can reduce the noise level. In addition to doing all these things, the plants provide their natural beauty.

"A row of evergreen trees or shrubs placed a short distance from a wall creates a dead air space," explains Janne. "This space provides for warmer air in the winter months since the air is not moving. Less heat escapes through the walls of your home and reduces heating costs."

THESE PLANTS also serve as a storm wind barrier, and if placed correctly, can direct cooling winds of summer months around your home. If planted on the northwest side of your yard, trees and dense shrubs can protect a home from chilling winter winds and direct the cool summer breezes, emphasizes Janne.

"For the hot summertime, trees, vines and other trailing plants can become a pleasing source of shade," says the horticulturist.

"Since the hottest part of the summer day comes with the afternoon sun, tall trees planted on the west side of your home can afford some relief from the heat."

"Vines or trellis plants can provide your home with extra cooling insulation during the hot summer days. Deciduous vines allow the sun to warm the home in the winter," adds Janne.

Need is key to planning for insurance

A decision to buy life insurance should depend on needs of those who will receive its benefits, Lynn Bourland, family resource management specialist, advises.

"**ADEQUATE** life insurance is one way to have financial security for a family in case the wage earner(s) should die—and it provides protection from debt collectors to a single person's heirs.

"Also, life insurance enables anyone with a modest income and little savings to build an estate large enough for surviving dependents to continue their accustomed standard of living," she said.

Miss Bourland is with the Texas Agricultural Extension Service and is author of "Life Insurance" (MP 1262), a publication available through County Extension Offices statewide. Among its several topics, the publication includes a chart to help families "size-up" their insurance needs, she said.

In determining whose life should be insured, it is most important to first protect a family from losing the main wage earner's income. A single person who owes no large debts has little need for life insurance, the specialist said.

All six make all-district

Three Swiftettes are selected for all-state tournament team

In the wake of their state championship, Nazareth's Swiftettes continued to reap honors during the week.

THREE of Nazareth's players were named to the all-state tournament team, chosen by the press corps that covered the tourney.

And all six starters were chosen for berths on the 5-B all-district team, announced by the district's coaches.

Named to the all-state tournament squad were forwards Cheryl Hartman and Karen Schulte, and guard Rosemary Schulte.

HARTMAN, a junior, scored 26 points in the Swiftettes' 61-26 romp over Maypearl in the state semifinals game, and netted 18 points against May in the championship game.

Karen Schulte, also a junior, had her biggest night of the season when she led Nazareth's scorers with 32 points in the Swiftettes' 73-54 victory over May in the state championship game. She netted 14 points in the semifinals against Maypearl.

Rosie Schulte paced Nazareth's poised corps of guards in the state tournament. The

Swiftettes' defensive strategy—and the ability of the guards to make it work as planned—were major factors in the team's state championship game victory.

THREE Schultes from Nazareth have now been named to the Class B all-state tournament teams in the past two years. Elaine Schulte, now graduated and playing for the Wayland Flying Queens, made the dream team last year in the Swiftettes' first trip to the state tourney.

Still to be named is the Class B consensus all-state team, and Swiftette Coach Cathy Wilson hopes one or two of her players will be on that one, too.

ALL SIX of Nazareth's starters were named to the 3-B all-district team, chosen by the district's coaches.

Cheryl Hartman was named the Most Valuable Forward in the District and Rosie Schulte earned Most Valuable Guard honors.

Other Nazareth players named to the 12-member all-district squad were guards Colleen

Gerber and Cindy Schacher and forwards Karen Schulte and Rachelle Pohlmeier.

THE SWIFTETTES will be honored at a public reception from 2 to 4 p.m. Sunday in the

Nazareth School Cafeteria. The game film of the Nazareth-May state championship contest will be shown. John McKissick of KVII-TV, Amarillo, will serve as master of ceremonies during the program.

'South Plains' picks include three Bobcats

Dimmitt's Keith Crum was named to the first team and two other Bobcats received honorable mention in the Lubbock Avalanche-Journal's Class AA All-South Plains Basketball Squad.

CRUM, a 6-3 senior post forward, averaged 20.1 points and 6.3 rebounds per game while helping the Bobcats post a 28-3 season.

Earning honorable mention in the All-South Plains selections were Dimmitt's Rocky Rawls, 5-8 junior guard who averaged eight points per outing, and 6-2 forward Jerry Schaeffer, who averaged 14 points and nine rebounds per game.

Joining Crum on the All-South Plains first team were

David Graves of Tahoka, Troy Patton of Morton, Lloyd Strong of Frenship and Mike Waldrip of Post.

NAMED TO the second team were Cardell Fields of Slaton, Loyd Joyce of Idalou, Roddy Shipman of Abernathy and David Taylor of Roosevelt.

Graves, a 5-11 senior who averaged 20.6 points per game—mostly on outside shots—while leading Tahoka to a 23-8 season and the regional playoffs, was named the South Plains Player of the Year.

Earning Coach of the Year honors was James Allen of Frenship, who guided the Tigers from a 3-27 ledger last year to a 20-11 record this season.

Lazbuddie to hold volleyball tourney

A double-elimination volleyball tournament for both men's and women's teams will be held March 21-26 at the Lazbuddie High School gymnasium, with the entry deadline on Friday.

The tournament is being sponsored by the Lazbuddie Lettermen's Club, and the entry fee of \$10 per team will go to support the club's projects.

ADMISSION will be 25 cents for students and players and 50 cents for adults. A concession stand will be open.

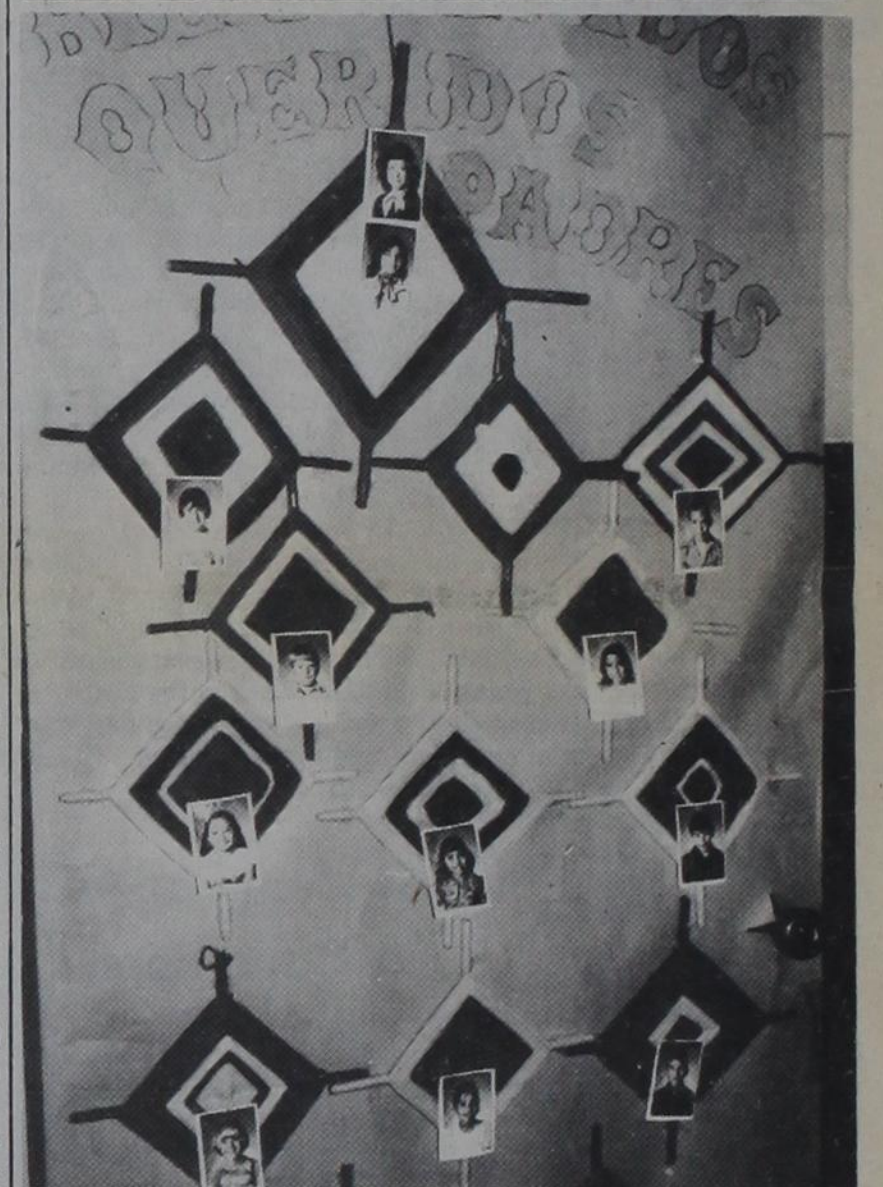

The hours of play will be in the evenings, but the exact times will not be determined until after the entry deadline.

4-H Club members to enter stock show

Twelve Castro County 4-H Club members will compete in the 1977 Southwest Junior Livestock Show March 12-16 at Lubbock.

SETH RALSTON, assistant County Extension Agent, says the 4-H members will enter 12 barrows and 3 lambs.

TEMIK® 15G

ALDICARB PESTICIDE

Start with more control of nematodes, aphids, leafhoppers & leafminers.

Finish with more sugar beets.

Just one application of granular TEMIK(R) aldicarb pesticide at planting gives outstanding control of cyst and root-knot nematodes. And there is no required waiting period between application and planting. Plant earlier and get maximum growing time.

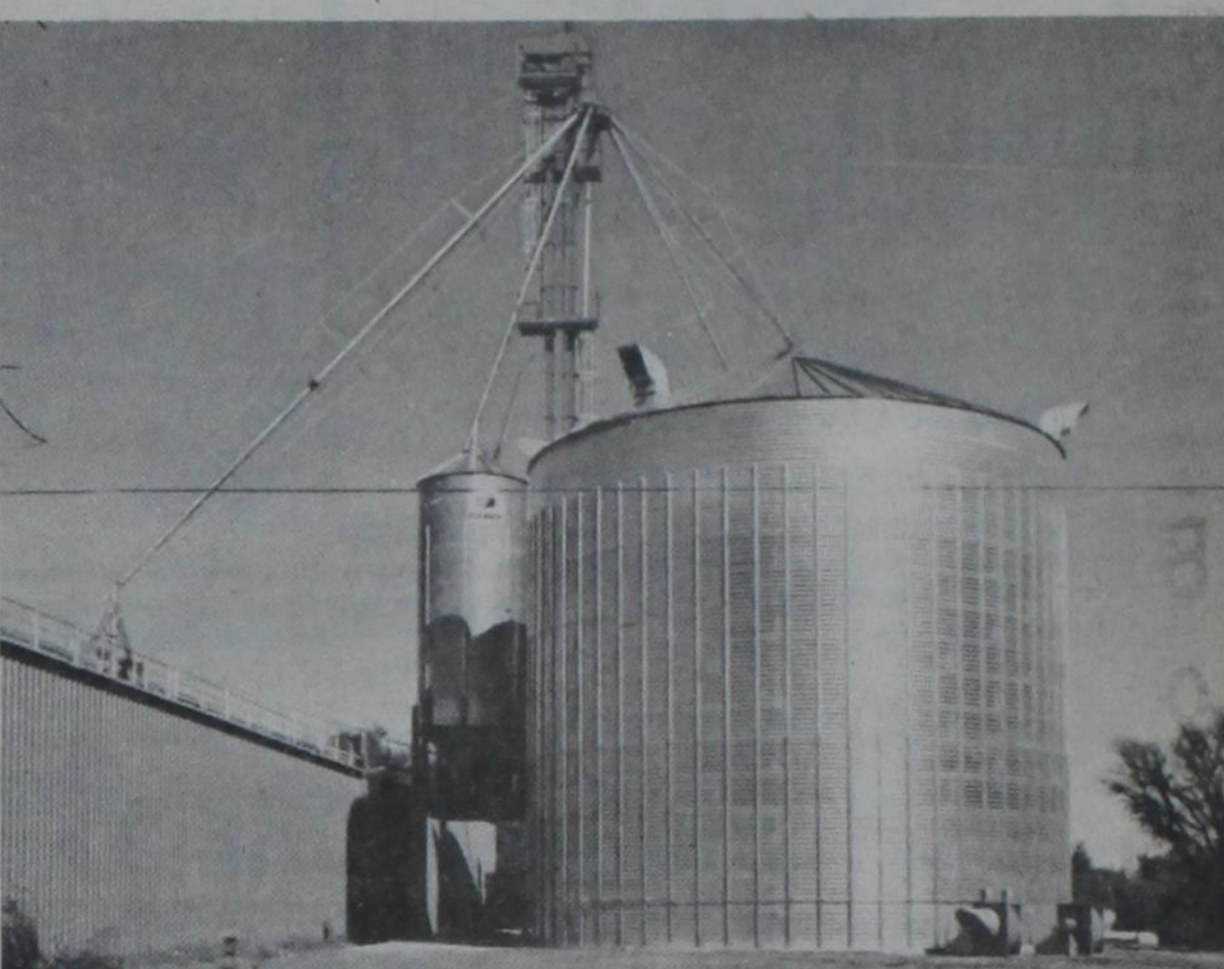

Only TEMIK provides dual action control of nematodes plus insects. Applied into moist soil, the active TEMIK aldicarb is released into the soil. It is then readily absorbed by the roots of the seedling and moves rapidly to all parts of the growing plant. You get both contact and systemic control of nematodes, plus insects.

Square dance lessons due to begin Friday

Square dance lessons to be given at the Boy Scout Hut here each week will begin Friday at 8:30 p.m. and anyone interested is invited to be present then.

LESSONS will continue 16 weeks for a fee of \$20 per couple. Johnny Gillenwater, caller for Dimmitt Promenaders Club, will be the instructor.

After graduation from these lessons, the dancers may become members of the Promenaders at dues of \$5 a month per couple. Information is available from Johnny Ethridge, Bill Harman or Nathan Pevehouse.

Square dancing that is done in this area is not the strenuous type seen on television shows, Harman says. The Promenaders Club has several dancers who have had open heart surgery, and the dancing is not too tiring for them.

FmHA rural housing loan program launched

The Farmers Home Administration has begun a program through which it will guarantee rural housing loans made by commercial banks, savings and loan associations and other private lenders, Donald W. Pipes, FmHA County Supervisor for Castro County, announces.

FmHA, the rural credit agency of the US Department of Agriculture, will guarantee up to 90 percent of the principal and interest of these loans.

GUARANTEED housing loans will be available for moderate income borrowers who cannot get housing mortgage credit without a guarantee. Applicants who cannot qualify for guaranteed loans may apply for loans made by FmHA.

At present, the USDA agency will offer loan guarantees only under its single-family housing loan program. FmHA will continue to make single-family housing loans with its own funds. It will also continue to make, but not guarantee, loans for rural rental housing, farm labor housing, housing site development, and other purposes.

Single family housing loans are made in open country, towns of up to 10,000 population and certain designated towns of between 10,000 and 20,000 population. They finance modest but adequate housing and related facilities, Pipes explains.

LOANS MAY be used to buy, build, improve, repair, or rehabilitate houses and related

facilities, and to provide adequate water and waste disposal systems.

Guaranteed loans will be made only to applicants with moderate income, defined by FmHA as adjusted gross income of less than \$15,600 per year for residents of Texas, and not eligible for FmHA subsidized rural housing loans. Low income applicants may be eligible for subsidized rural housing loan made by FmHA.

Loans to be guaranteed are limited to 97 percent of the market value of homes and sites for the first \$25,000 and 95 percent of the loan in excess of \$25,000. The borrower must have equity from his own resources, in the form of cash or land for the down payment, notes Pipes.

THE TOP limit for a guaranteed rural housing loan to a resident of Texas is \$33,000. The maximum repayment period is 33 years.

Pipes also reports that FmHA regulations provide lenders who obtain guarantees for rural housing loans options for selling, assigning, or selling participations in the guaranteed parts of these loans.

FmHA regulations require that the lender making a guaranteed rural housing loan to be a local lender—located in or doing business in the area where the house is located.

To apply for an FmHA-guaranteed rural housing loan, an applicant should contact his local lender, Pipes said.

Visitor will hold revival

Special services at the Fourth and Bedford Church of Christ beginning Sunday will feature the preaching of Conrad Steyn of Capetown, South Africa. Viggo Ulrich, minister, invites the public to attend the meetings.

THE SPEAKER for the three-day revival has spent several years in mission work at Capetown.

Sunday services will begin with Bible classes at 9:30 a.m., and preaching is scheduled at 10:30 a.m. and 6 p.m. On Monday and Tuesday services will be held from 7:45 to 8:15 a.m. each day, and at 7:30 p.m.

Book review given at Earth

Mrs. Frank Wise of Dimmitt was the program guest for the Earth Methodist women at a salad supper Monday in the fellowship hall of their church. Opal Bearden and Myrtle Shely accompanied her to hear the review and greet acquaintances at Earth.

MRS. WISE presented a review she has formerly given to the Dimmitt Book Club and Tops Club of the book "Tishia." It is the story of a girl who went as a teacher to Alaska several years ago and the problems she met in a primitive community.

Mrs. Holland presided for business and Mrs. Bee De Welch gave the benediction.

VETERAN'S SERVICES

By BEDFORD W. SMITH
County Service Officer

Income tax information concerning VA benefits provided by VARO of Waco:

AS THE nation's taxpayers ponder the new federal income tax returns, the Veterans Administration reminds recipients of veterans benefits that these payments generally are exempt from taxation.

Major tax-exempt VA benefits are compensation, pension and educational assistance. The latter includes subsistence payments to vocational rehabilitation trainees. These monthly payments need not be reported on federal income tax returns, Jack Coker, VA Regional Director, stated.

Also exempt are VA grants to military service-disabled veterans for specially adapted homes and automobiles and clothing allowances paid to service-disabled veterans whose usage of prosthetic or orthopedic appliances result in undue wear and tear on clothing.

DIVIDENDS and proceeds from government life insurance policies are exempt from federal income tax, but the proceeds are subject to federal estate tax.

Interest accrued on government life insurance dividends left on deposit or credit with the VA is not exempt and must be reported on federal income tax returns.

INFORMATION concerning educational benefits: Non-service connected disabled veterans have 10 years from the time of their discharge to complete GI educational plans.

Veterans who may need financial assistance to continue full time schooling under the GI Bill could be eligible for increased benefit payments under the provisions of the Veterans Administration "work-study" program.

Eligible veterans may earn as much as \$625 per semester by working a maximum of 250 hours for the VA under this program. The VA work-study program allows selected veterans enrolled in schools under VA educational programs to hold part time jobs in the agency. Veterans who are disabled 30 percent or more from service-connected disabilities are given preference in selection for the work-study program.

In many cases, the jobs relate to or complement the veteran's field of study. Some veterans in the work-study program will be assisting other veterans as members of the VA's "outreach program," which is designed to acquaint former servicemen with various VA benefits.

In certain cases tutorial assistance is also provided for qualified veterans in need of such services.

"IT'S BEEN A LONG TIME," some of these Kiwanians were saying, since they last ate in a school cafeteria. All Dimmitt civic clubs were invited to eat in the school cafeterias for their regular meetings during Public School Week. About their meal

of chicken-fried steak, mashed potatoes and gravy, green beans, plums, hot rolls and milk, most of the Kiwanians commented, "Not bad for 70 cents."

the ones who need it most—those at the bottom—are still left at the break-even line.

Holland countered that those who make more have more technical knowledge and therefore should be paid more. Commissioner Chet Braafladt added that a set amount would be a lot harder to figure out than a percentage raise and still be fair.

IN OTHER business, the commission approved an ordinance providing for codification of city ordinances according to state standards. The Panhandle Regional Planning Commission is paying for the technical help in doing this while the city pays for the printing of about 50 copies.

Also Mayor Youts ordered the city election for April 2 and named Bill Clark as election judge, and Deanne Clark, Pete Garza and Nancy Fuller as his helpers.

A motion was made and seconded to see about paying off the lease-purchase agreement on the old A-1 Mechanical building as soon as possible to avoid additional interest since funds are available.

Clara Vick attends abstracters school

Clara Vick, owner of Cowsett Abstract & Title Co., has just returned from San Antonio where she attended a week-long school for Abstractors and Title Insurance.

Animal ag conference dates set

Animal agriculture representatives from throughout Texas are expected to register for the annual Texas Animal Agriculture Conference, April 4 and 5, in the Rudder Center at Texas A&M University.

"A LOOK into the Future" will be the conference theme. Short courses in beef, dairy, horses and swine will be offered, as well as special programs relating to range, pasture, forage production and wildlife management, says L. A. Maddox Jr., beef cattle specialist with the Texas Agricultural Extension Service.

Maddox, general chairman, said the conference will be keyed to producer profits. Short courses will deal with marketing, animal nutrition, health and reproduction.

Dr. O. D. Butler, head of Texas A&M's animal science department, will moderate the general session which will open the Animal Agriculture Conference. Five speakers will discuss key issues of concern to animal agriculture.

Rotary hears about wills from Miller

"I don't want my brother Oscar should get anything. He owe me \$4 fourteen years ago," attorney Jack Miller read from an actual will that had been probated in Lamb County in 1934.

THE WILL was an example of a holographic will, which is legal in Texas, according to Miller, but not in many other states.

These and many other facts concerning wills and estates taxes were presented to 13 members, two guests and the club sweetheart at the Rotary Club meeting Friday.

Club President Al Gibbs reminded members that they and their wives are invited to eat at the Helen Richardson Elementary School east cafeteria for their meeting Friday.

Gibbs also announced that the club's International Convention will be June 6 in San Francisco and that reservations should be sent in as soon as possible.

CONSTRUCTION of the Pentagon was finished on Jan. 15, 1943. It spans 34 acres and was built at a cost of 83 million dollars.

Hearing tests set for Dimmitt

Electronic hearing tests will be given at the Senior Citizens Center March 16 from 10 a.m. to 2 p.m.

Factory-trained Hearing Aid Specialists will be at S.E. 3rd and Lee to perform the tests.

Anyone who has trouble hearing or understanding is welcome to have a test using the latest electronic equipment to determine if his loss is one which can be helped. Some of the causes of hearing loss will be explained, and diagrams of how the ear works will be shown.

Everyone should have a hearing test at least once a year if there is any trouble at all hearing clearly. Even people now wearing a hearing aid or those who have been told nothing could be done for them should have a hearing test and find out whether the latest methods of hearing correction can help them hear better.

The free hearing tests will be given Wednesday, March 16 from 10 a.m. to 2 p.m. at the Senior Citizens Center. If you can't get there March 16, call 647-2654 and arrange for an appointment at another time. In-home testing is also available.

Foster homes are sought for old, disabled adults

The State Department of Public Welfare is looking for foster homes for low-income aged, blind, or disabled adults whose homes are no longer safe, or who, for one reason or another, have no homes.

"WHEN AGED or disabled adults are no longer able to live in their own homes, they are faced with the choice of living with friends or relatives or moving into an institution," according to David W. Melber, welfare department social service worker at Tulia.

"Unfortunately, the choice is not always there. In the absence of friends or family, many are sent unnecessarily to institutions, such as mental institutions or nursing homes."

"However, the welfare department is trying to give those individuals another choice with

the foster home program," Melber continued. "This is for ambulatory people who need shelter and some help with activities of daily living."

"WE ARE seeking warm hearted people who have room in their homes for one to three aged or disabled persons who are not related to them. The foster family must be willing to help provide opportunities for social, recreational and religious activities as appropriate, as well as room and board.

Cost of the care is shared to the individual and the welfare department. Payment to the foster family is \$220 per person per month.

Melber asked persons interested in learning more about providing this service to contact him at 105 Hospital Dr., Tulia, or to call at (806) 995-4184.

Senior Citizens learn and earn

By GENEVA SCHAEFFER

"Busy fingers—happy mind" is obviously more than an old wives tale at the Senior Citizens Center of Castro Cou-

ty. UNDER THE direction of Mary Acker more than 100 senior citizens participate in an endless array of craft classes. Macrame, quilting, wood-

working, crocheting, decoupage and needlepoint are among the most popular. These classes are provided free of charge to all members of the center. Membership is available to anyone over 50 years of age for a minimal fee of \$12 a year.

New needlepoint classes are being formed to begin Monday. There will be four levels of classes ranging from those who have never needlepointed to those who are proficient enough to create original designs.

Materials are available in Dimmitt from Mona Merritt. Instructors for the classes are Shirley Wise, Murna Miller, Jackie Byrnes and Geneva Schaeffer.

THE CLASS membership is limited so students are urged to call Mrs. Acker at the center, located at S.E. Second and Lee Streets, to sign up. There is no charge for these lessons.

Approximately 20 women have just completed a needlepoint session. All agree that this ancient art is one of the most satisfying of the needle arts.

In needlepoint, blank canvas is changed to a richly textured design of heirloom quality. The

beginner class members have created beautiful pillow tops with twelve unique stitches. The more advanced students have created colorful patchwork designs while learning to read patterns.

Birdie Neill has just begun a crochet class and some members are doing afghans of more than forty patterns. A quilt is also now in progress, with another being prepared.

Custom work on quilts is available. The women will use your pattern and make a quilt

for a modest price.

Everyone is invited to come by the center on Mondays from 1:30 to 4 p.m. and see what the members are doing. There are display cases of handwork on sale.

Night activities are also very popular. Call the center at 647-2654 for dates and times of other activities or to register for classes.

MRS. DWAYNE SCHULTE ... The former Jolene Pohlmeier

Pohlmeier-Schulte vows solemnized

Mr. and Mrs. Dwayne Schulte are at home at Nazareth after a honeymoon in the New Mexico mountains which followed their recent marriage in the Holy Family Catholic Church at Nazareth.

MRS. SCHULTE is the former Jolene Pohlmeier, daughter of Mr. and Mrs. LeRoy Pohlmeier. The groom's parents are Mr. and Mrs. Gilbert Schulte. Both families are residents of the Nazareth community. Rev. Stanley Crochiola, pastor of the church, officiated for the nuptial mass in a mid-afternoon ceremony.

Sisters of the couple were bridal attendants, Karen Schulte as matron of honor, Rachelle Pohlmeier, Elaine Schulte and RoseMary Schulte as bridesmaids.

GERALD Birkenfeld was best man, Greg Schulte, Olen Schulte and Keith Birkenfeld served as groomsmen. Mass servers were Calvin Schulte, Rodney Schulte, Danny Gerber and Wayne Heiman.

Lisa Pohlmeier and Karen Schulte carried the offering. Ushers were Doyle Kleman, Ricky Kleman, Cecil Braddock and Mark Hoelting.

With guitar accompaniment by Noreen Kleman and Analeen Venhaus, wedding songs were presented by Tricia Gerber, Michelle Schmucker and Mona Brockman.

The bride's gown had an empire bodice and fitted sleeves of brocaded lace, with a snow-white drift of sheer silk polyester in the skirt floating to carpet length and forming a train in layers of ruffles.

HER ILLUSION veil was held to her blonde hair by a beaded caplet and she carried a cascade of white carnations tipped in blue.

Over the attendants' dresses of royal blue they wore sheer ponchos of floral print in lighter blue shades. Each carried a long-stemmed white chrysanthemum tipped in blue.

A reception, supper and dance at the Nazareth Community Hall followed the wedding.

The bride is a nursing student in Plains Memorial Hospital and the groom is a rancher-farmer at Nazareth.

Small Talk

By SUE COLEMAN

Every once in a while somebody brings some information into a newspaper office about a promotion or award or advancement a member of their family has received in another town, and offers it with apologies lest it seems they are bragging or being pushy.

IN ALL my knowledge of newspapers I never heard of one that didn't receive such items happily, because they usually pertain to someone who formerly lived in that town and so they are certainly of interest to readers.

Even if a parent seems to be boasting about the accomplishments of a child off at college or at work somewhere else, that's quite understandable and the most hardboiled news writer doesn't object. No apologies are called for.

Of course this matter, like any other, can be carried to extremes. A clipping from a paper in Kalamazoo about your nephew's daughter who never was in Dimmitt just might not be considered of interest to readers here, but that kind doesn't show up often. The others are welcome.

IT WAS nice to meet Mrs. Al Cameron from Nazareth lately, and she made a friend of me when she said my hair looked nice.

Gotta admit I love compliments even when I'm sure they are not deserved. Sincerity is a fine virtue, but in some cases kindness is better, in my opinion.

MR. AND MRS. JEFF LATIMER ... Married at Higgins

Jeff Latimer and bride to live in Louisiana

The marriage of Jodi Nuna-maker of Amarillo and Jeff Latimer, son of Mr. and Mrs. Franklin Latimer of Dimmitt, took place recently in the home of the groom's uncle and aunt, Mr. and Mrs. Roland Wheat of Higgins.

AFTER APRIL 1 the couple will reside in Baton Rouge, La., where Latimer will be manager of the Glidden Paint Store. He is a graduate of Dimmitt High School and West Texas State University.

The daughter of Mr. and Mrs. Norman Carrell of Arrow-smith, Ill., the bride attended South Plains College at Levelland and is a legal secretary employed by an Amarillo law firm.

Marriage vows were spoken as the couple stood before the mantel in the Wheat's living room, with blooming chrysanthemum plants set on either side of an archway in the background.

MRS. ROLLIN Garrett of Lubbock attended her sister as

matron of honor and Jim Wheat, a cousin of the groom, was his best man.

The bride wore a frock of powder blue with lace trim at the wedding ring neckline, on the long sleeves and around a wide flounce which finished the softly gathered skirt.

Guests from Amarillo, Plainview and Shattuck, Okla. attended the wedding.

family doctor. Too often parents are "embarrassed" because their child may have some handicap and delude themselves by hoping the child will "grow out", or overcome with maturity this condition. Great strides have been made by all the sciences and education in correcting handicapped children in recent years and conditions that were once considered incurable now can, in many cases, be corrected so that the child can be socially acceptable and skilled to provide his own living. The "dark ages" of ignorance concerning handicapped children is over and many parents are confronting the problems that accompany disabilities without feelings of guilt or embarrassment. The modern parent realizes that handicaps are not necessarily related to social status of the family, ed-

ucational attainment, intelligence, economic influence or environmental setting. Disabilities respect no one and, because of this, handicapped children come from homes representing the complete panorama of American life. **BECAUSE** of better medical care, improved nutrition and planned parenthood, children are less likely to be born with handicaps in our society, but some do occur and early recognition of exceptionalism is important because early correction can be begun. Some disabilities are easy to recognize—others very difficult to detect. In the next several weeks we will be dealing with early warning signs that may indicate some exceptional condition in your child.

The Need of Discovering Handicaps Early:
Many children are born with or acquire physical and/or mental conditions which handicap their normal growth and development. Fortunately, many of these conditions can be helped or completely corrected if parents recognize the problem early and seek help. Some parents of exceptional children choose to ignore early signs of handicaps, even those that are pointed out to them by their

Five youths in contest finals

Five high school juniors from Castro County are among the 11 finalists in the annual youth tour contest sponsored by the Deaf Smith Electric Cooperative. **BILLY RAY** Chance of Dimmitt, Joyce Acker, Ladonna Brockman, Naomi Ramaekers and Darryl Birkenfeld of Naz-

areth are the five finalists who were scheduled to compete March 9 against six from other counties in the area served by Deaf Smith REC. Winners in the contest, a girl and a boy, will be given an

all-expense-paid trip to Washington, D.C. early in June. The subject of the contest speeches was "Rural Electric Coops - Good for All Americans."

THE SUCCESSFUL farmer is the guy who puts the "arm" in farm.

Farmers' training session scheduled

A training meeting is scheduled for farmers and other private applicators of pesticides who wish to be certified under a new federal law, from 8:30 a.m. to noon March 18 at the County Expo Building, according to County Extension Agent Charles Hottel.

THE NEW law is the Federal Insecticide, Fungicide and Rodenticide Act which will be enforced by the Environmental Protection Agency. Under it, pesticides will be classified as either registered use or general use.

All applicators, private or commercial, will be certified for legal use or supervision of the use of registered pesticides.

One who uses or supervises the use of a registered pesticide to produce any agricultural commodity, is defined as a private applicator.

The Texas Extension Service has the task of providing farmers with needed information, Hottel says. The state department of agriculture monitors training sessions and issues certificates to farmers who complete the training. No formal testing or scoring of papers is required.

THE PROGRAM requires about four hours and one who completes it will receive a certificate and card showing he is approved to buy registered chemicals. Dealers must keep records for two years.

For those who cannot attend the training sessions to take advantage of slides and other equipment provided, there are two other ways to be certified in Texas. One is a home study

course with use of a study manual and application form from a county Extension office.

The other is to be certified in emergency conditions, with instructions given a farmer in his home. No fees will be charged and no advance registration is required, Hottel said.

By next October, unless the law is changed, producers of agricultural products must be certified applicators if they use restricted-use pesticides, Hottel added.

WITH OUR 360 THRIFTY-RAIN™
PIVOTAL SPRINKLER SYSTEM.**

If you have relatively level land, and you've been putting off buying an electric-drive pivotal system because of price, we've got just what you've been waiting for. The new Gifford-Hill 360 Thrifty-Rain™

Finally, there's an electric-drive system that's within the budget reach of farmers who would ordinarily buy either hydraulic or water-drive systems. The 360 Thrifty-Rain™ is a "long span" version of our classic 360. The basic difference being the distance between towers (164 ft. on the Thrifty-Rain™ 124 ft. on the standard 360).

The 360 Thrifty-Rain™ 164 ft.

The standard 360 124 ft.

By using longer spans, we reduced the number of towers necessary to cover the same

acreage. That means less cost to manufacture. And less cost to you!

The 360 Thrifty-Rain™ is also equipped with heavy duty drive systems. Both the original 360 and the 360 Thrifty-Rain™ feature a unique computer-designed sprinkler head spacing and nozzling concept that provides uniform water distribution and reduced pumping costs. Both systems use heavy-walled 6% O.D. pipe for extra strength.

Consequently, the 360 Thrifty-Rain™ is structurally stronger than other "long span" systems on the market today. It operates efficiently even under high wind conditions, and can handle up to 10% grades.

Standard 360 spans are interchangeable with 360 Thrifty-Rain™ spans. That means you can use standard spans to allow flexibility of tower location and accommodate special terrain problems.

So if you've got wide open spaces to irrigate, and you don't want to pay for capabilities you don't need, get a Gifford-Hill 360 Thrifty-Rain™. And save yourself some money to boot.

Irene's Ideas

Watch for energy waste

By IRENE KEATING

Lately I've heard many complaints about the high cost of utility bills. Also there seems to be much fluctuation from month to month. This has made us all more aware of energy conservation and more of us are honestly trying to use our energy resources more efficiently.

ONE AREA where we can really save is in the laundry process we use. Instead of rinsing clothes in hot or warm water, use cold. Use warm or cold water to wash clothes that aren't heavily soiled. Set the water level to correspond with the load. If you have a machine with all these controls, use them and save yourself money. The machine isn't worth your investment if you don't use those deluxe features.

Dryers should always be vented outside the home. Clean the filter often as this increases efficiency.

In the kitchen, use the size pan that best suits the burner on your range. Use low settings and put lids on pots.

If you have a dishwasher, don't wash a load until it is full, which may be two or three days. Pre-rinse dishes before loading the dishwasher.

Keep the condenser coils on the back and bottom of your refrigerator and freezer clean. A vacuum cleaner works well for this. Keep your appliances clean inside.

DO YOU have any leaky faucets? One that drips can drip up to 700 gallons of water a year—it would be much cheaper to buy and install new washers. Little changes can do a lot towards better energy efficiency which reduces our utility bills.

If you want more information on energy use, call or come by the Extension office in the courthouse basement.

CERTIFICATE OF MERIT winners at the Amarillo art show last month are [kneeling, from left] Jerry Sanchez and Ricky Dimas, and [standing, from left] Gus Ortiz and Brian Hufhines. Not shown is James Johnson. The

students are standing around a pencil drawing by Boyd Moyers, which, along with many other items, was on display during the open house Tuesday night for Public School Week.

March is Youth Art Month

Last week Mayor Elmer Youts signed a proclamation declaring March as Youth Art Month, and urged all citizens to become interested in, support and encourage the art programs presented in the schools and youth organizations of Dimmitt.

"ONE OF our class projects in honor of National Youth Art Month will be the painting of the stone monument at the southeast corner of the intersection of US Highway 385 and State Highway 86," said Dimmitt High School art teacher Sue Broderson. "Right now we are working on the designs we want to use. We won't begin painting until we can come up

with some funds to purchase the paint."

Correction

The name of the fiancée of Lee Cole Jr. appeared incorrectly in the announcement of their engagement on the social page of last week's Castro County News. It appeared in the News as Cheryl Laine.

COLE AND Cheryl Laine Thomas, daughter of Mr. and Mrs. Clarence O. Thomas of Littleton, Colo., are to be married May 21 in Denver. Both are students in Abilene Christian University and he is the son of Mr. and Mrs. Lee Cole of Amarillo, formerly of Dimmitt.

school Tuesday night for Public School Week.

The Dimmitt High School Art Club is one of the largest in the area, boasting 63 members. Five members placed in the recent Amarillo art show. According to Mrs. Broderson, several members are planning to enter the Plainview art show coming up soon.

WESTERN DANCE has proved one of the most popular subjects taught at West Texas State University, and a Dimmitt student, Larry Robb, third from left, is one of more than 100 enrolled for classes this spring. Interest in western dance is not confined to the campus, says Mary Hill, the instructor,

who observes that it is a state-wide movement. Dancers learn the polka, schottische, waltz, two-step, cotton-eyed Joe and "put your little foot" which were popular dances in pioneer Panhandle communities. Robb is an agriculture major at WTSU, a freshman and the son of the Ted Robbs of Dimmitt.

Funeral rites conducted for Melvin Witt

Funeral services for Melvin D. Witt, 41, formerly of Dimmitt but recently a resident of Denver, were conducted Wednesday morning in the First United Methodist Church here with Rev. Marvin Roark, pastor, officiating.

BURIAL was in the Castro Memorial Gardens, under direction of the Dennis Funeral Home.

Mr. Witt, who was in the process of moving with his family from Denver to Gallup, N.M., was spending a night in a motel at Raton, N.M., where he was found dead early Sunday apparently due to heart attack.

A native of Dimmitt, Mr. Witt was born Oct. 2, 1935, and grew up in this city. He graduated from Dimmitt High School in 1954 and married Gwendolyn Smith of Dimmitt in 1956. They moved to Gallup the next year and then to Denver.

He was employed as an insurance adjuster. He was a member of St. Andrew's Methodist Church at Littleton, Colo.

Survivors include his wife; three daughters, Mistie, Kim and Melissa; his mother, Mrs. Melvina Witt of Dimmitt; a sister, Mrs. Dee Stamps of Knox City, and a grandfather, J. L. Witt of Springtown.

Both the Castro County girls are 17 years old. Miss Hand is the daughter of Mr. and Mrs. Robert Hand of Dimmitt and Miss Carson the daughter of the Joe Edd Carsons of Hart.

Kiwanis to induct five new members

"We want to induct five new members at the next meeting," said Kiwanis Club President Joe Nelson. "I'm trying to get the Lieutenant Governor of Division 33 to come and perform the ceremonies."

THE FIVE prospective members are Robert Benton, Bill Hickey, Ewell Kelley, Gene King and Bill Scott. They must be present to be inducted.

The inductees will also be recognized at the Governor's visit March 22 in Tulia at 7:30 p.m. at the Tulia High School cafeteria. All Kiwanians and their wives are invited to hear the Governor of the Texas-Oklahoma District. The cost will be around \$3 per plate, according to Nelson.

Fifteen club members and two guests ate at the Helen Richardson Elementary School cafeteria Monday in honor of Public School Week.

AT THE club's Feb. 28 meeting, Nelson informed the group that Dimmitt had lost the bid to host the regional Little Dribblers tournament.

The club voted to purchase backboards and goals to fit the brackets which were installed in the Dimmitt Middle School gymnasium last year.

The Kiwanis basketball team received a challenge from the Dimmitt Jaycees to perform a benefit game to defray Elvon DeVaney's medical expenses. The challenge was accepted.

One of the major reforms expected of the Carter Administration was a sweeping control of hospital costs. Although last month it seemed as if the project would be dropped, it looks as if the reform is on again.

THE Administration is proposing a flat ceiling on the percentage by which hospitals can increase rates. According to Joseph Califano Jr., Secretary of Health, Education &

HAYS IMPLEMENT CO.

Welfare, this will be the beginning step in a national health insurance program. The proposal is designed to limit the "stunning and intolerable" increases in hospital bills.

Sen. Herman Talmadge (D-Ga.) claims he was not consulted about the new legislation proposed by HEW. This could lead to a full-scale legislative battle in Congress because Sen. Talmadge has drafted a bill assigning target costs for medicare and medicaid patients to each hospital. It would then offer incentives for meeting the targets and impose penalties for missing them.

The HEW legislation will be introduced in two weeks and will call for a maximum rate increase by any hospital of 9% a year, although that figure isn't finalized. At 9%, HEW estimates that the federal government will save \$800 million in the next fiscal year and \$3 1/2 billion by 1981. Hospital costs

COMMODITY HEDGING was the subject of a recent workshop at Texas A&M University, sponsored by the state Extension Service, and Gary Park of Dimmitt, right, was one of the banking representatives to receive certificates of completion. now account for about 40% of the nation's \$139 billion health tab.

The Administration expects to propose a national health insurance program within the next twelve months. Without a lid on hospital costs Califano estimates spending under such a health insurance plan would double in five years. The reasons given are that there is a lack of competition among hospitals and that 90% of hospital services are paid for by health insurers and/or the federal government rather than by the individual patient.

The American Medical Association and most of the medical community are expected to oppose the bill. But, health insurance companies back the legislation. They claim that budget review programs which are called for in the HEW bill have been effective in states that have tried them, such as Connecticut and Maryland.

Yvonne Wilcox, an accredited records technician, was named Plains Memorial Hospital's Employee of the Month for March and was awarded a \$25 US Savings Bond.

MRS. WILCOX first started working in the hospital office in 1964 after her graduation from Nazareth High School.

In 1966 Medicare regulations called for more careful and detailed record keeping, so Mrs.

After time out for marriage and starting a family, Mrs. Wilcox returned to her old job in 1971 where she has worked since.

FOUR MORE WEEKS is all the time these woodworking students have to finish their projects. Louise Fagan (left) said, "I thought I'd sand my life away" about her tall curio case, still lacking a back, trim on top and bottom, glass shelves and doors. Sesario Saenz (right) declared that the work on his hexagon curio "is getting easier all the time." Doors, glass sides and top will finish it. These projects, along with many others, were on display in the woodworking department during the open house Tuesday night at the high school for Public School Week.

BUSINESSES succeed when someone attends to the small details that the average boss is "too busy" to fool with.

small talk from South Hills Manor

By DOROTHY HOPSON

The many activities that Dorothy Musick has been working so hard to get started are beginning to materialize, and we are excited about the response. Last Tuesday Reba Fleming had Floy Hart, Esie Vaughn and Lorena Harris at the quilting bee. Dorothy Mayfield met with a few of the residents and lined up several crafts to do on Wednesdays.

A REAL special event is scheduled for today (Thursday) at 2:30 p.m. Francis Flaherty from Happy will be in the dining room to give instructions for making different kinds of things from rocks. She really has some good ideas, and it will be very interesting to learn to make these pretty things from rocks. The public is invited, and let me encourage you to attend.

Friday evening at 6:30 the King's Kids, a singing group from Muleshoe, will entertain. This is a group that is among the favorites of the residents and we invite you to come out for this also.

I want to introduce Mr. Clarence Kern to you. Mr. Kern has lived at the home for over a year, and is very faithful to attend the church at Nazareth. He is the retired postmaster of Umberger. He became postmaster in 1940 and retired in 1970. Mr. Kern said Uncle Sam allowed him to be postmaster on leave for three years while he served his country in the Air Force. Go by and visit with Mr. Kern and the other residents at South Hills.

ANOTHER of the residents I want to tell you about is Esther Galloup. Esther's hometown is Amarillo, but she says South Hills Manor is home now, and she really enjoys living here. Esther has one daughter, Helen Braafladt of Dimmitt, and one son, Rex Galloup of Odessa. Rex has been visiting Esther and Helen this week. Esther plays bridge and that is the way I became acquainted with her. Betty Patterson and I went out to play bridge with Prudy Black and we enlisted Esther to come in for our fourth player. We really had a good time, and I want to recommend

that you other bridge players go out and play with Prudy and Esther. You will have a ball!

Prudy Black is from Hereford and enjoys getting together almost nightly with some of the other residents for a good game of dominoes. Prudy's husband, Jim Black, passed away last fall after they came to the home for a rest. Prudy has continued to live out here and has an active life here. She has one niece, Jane Davis of Post, and one nephew, Jimmy Prichard of Bartlesville, Okla. who are very good to come regularly to visit her. Prudy and Esther are very cheerful, delightful ladies, so if you need a boost, come out and get acquainted.

Gayla McClenney, an LVN at the home, is in High Plains Hospital recovering from surgery. She is in room 464. We wish for Gayla a speedy recovery.

Another one of the staff members that brings sunshine into the lives of those she attends is Maria Montiel. Maria is a LVN and has worked at South Hills for about a year and a half. Maria says caring for these little people is very rewarding and she enjoys her association with everyone at South Hills Manor.

WE'D LIKE to extend a special thanks to Pete Garcia who has decorated our bulletin board this month in keeping with St. Patrick's Day. It looks real pretty, Pete.

Our new friends at South Hills are Mrs. Jonnie Chapman from Littlefield. She is the mother of Jimmie Chapman of Dimmitt. Mrs. Harriet Osborn from San Antonio, niece of Mrs. John Perrins of Dimmitt and Mrs. Grace Underwood of Dimmitt. Mrs. Underwood is the wife of E. G. Underwood and the mother of two sons, Roy Dale and Doyle of Dimmitt.

Our people who are in the hospital are Sonny Lemons, Ruby Coke, Mary Kirkpatrick and Lorena Harris. Remember them with a visit or a card.

THANK YOU, CASTRO COUNTY

For the first two months of 1977, your community efforts and dedication to a cleaner environment, has been overwhelming. January and February have been so successful we have paid area residents over \$2,000.00 for 12,640 lbs. of aluminum beverage cans. This represents a 50.3% of recovery of all aluminum that we have shipped into this area and we anticipate nothing but increases in the coming months.

To thank you for your concern and to increase your service, we are happy to announce the employment of Doris Wait. Doris resides at 220 N. W. 11th with her husband John and four children. A life time resident of Dimmitt, she is active in Girl Scouts, Cub Scouts and is secretary of pack 267.

With the appointment of Doris as our recycling expert, we wish to inform you that our reclamation center at 900 E. Bedford will now be open Mon. - Wed. - Fri. from 10:00 A. M. til 4:00 P. M. We are presently paying 17¢ a lb. for all aluminum beverage cans, regardless of brand name and 1¢ each for returnable bottles.

DORIS WAIT
