Now that you've retired, put your savings to work.

Trade your E Bonds for H Bonds

Bought a lot of Series E Savings Bonds over the years? Well, you probably want to keep your nest egg intact. But retirement is the time when you need some extra income.

Here's how to get that income. Just exchange your E Bonds (in cash value amounts of \$500 or more) for Series H Bonds. H Bonds pay out interest every six months by Treasury check mailed right to your door, and at a rate averaging 6% annually when held to 10-year maturity.

Just the thing for retirement, when you need steady income coming in.

You'll get a tax break on the exchange, too

When you exchange your E Bonds for H Bonds, your tax liability on your accumulated E Bond interest continues to be deferred. Right up until the H Bonds are cashed or reach final maturity (there's an optional 10-year extension privilege after original maturity).

The result? You get more for your money in the exchange. And when your H Bonds are redeemed, and you finally pay your deferred E Bond tax, it's at your lower post-retirement rate.

Get income as it's earned

Steady, dependable income. Twice a year. Or, if you prefer, get interest checks every month. Just buy an H Bond a month for six consecutive months. That way, you've got a regular income guaranteed.

Purchase \$500 to \$5,000

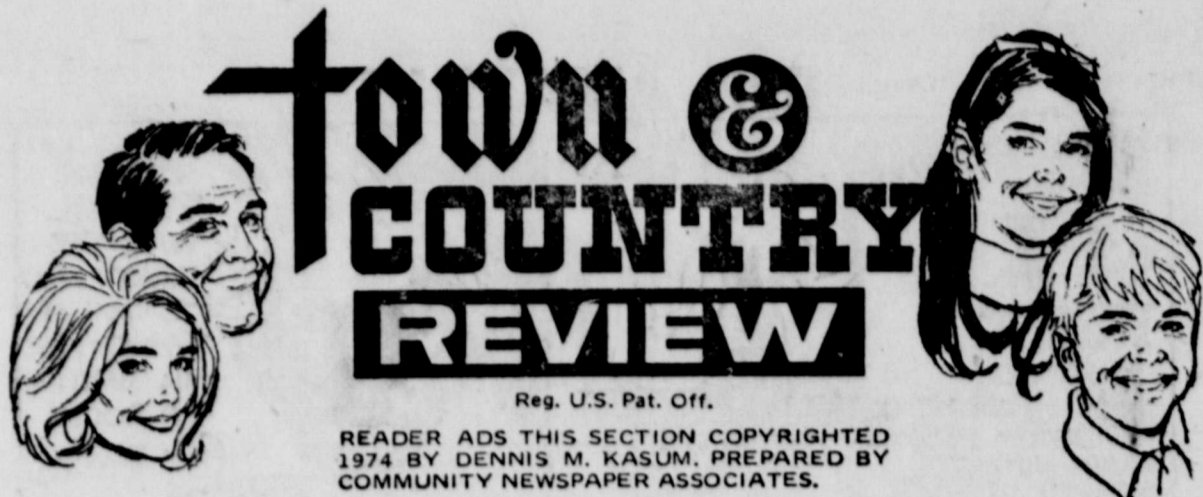

Your banker has exchange (as well as new purchase) applications for H Bonds. At face values of \$500, \$1,000 and \$5,000. There's an annual purchase limit of \$10,000 (\$20,000 with a co-owner), but this won't apply if you're trading in E Bonds.

H Bonds. A good way to make sure your money won't retire when you do.

Take stock in America.

Buy Series H Bonds—now averaging 6% when held to maturity of 10 years.
