George Wall, 22, Dies Aboard USS Forrestal

★ — ★ — ★ — ★ — ★

Dimmitt's flags will fly at half mast soon when the body of one of her sons comes home from Vietnam for burial.

AVIATION Electronics Technician George Wall, 22, son of Mr. and Mrs. Fred Wall, 700 W. Grant St., was one of 141 men who died aboard the carrier USS Forrestal Saturday in the Navy's worst disaster at sea since World War II.

Although the Walls haven't yet received word of when their son's body will arrive from its 10,000-mile trip home, his funeral will be conducted at First Methodist Church, they said. He will be buried in Castro Memorial Gardens, with military graveside rites by a Navy honor guard.

His survivors, in addition to his mother and father, include his brother, John Dana, 17, and his grandmother, Mrs. G. A. Shwen of Dimmitt.

THE YOUNG Naval technician was on his first voyage and in and Mrs. Fred Wall of 700 W. the Forrestal was rocked by multiple explosions Saturday that apparently started when the fuel tank of a landing A4 Skyhawk jet ignited.

The explosion set off bombs and rockets on other fighter planes along the four-acre flight deck, and the damage swept through seven of the supercarrier's 10 decks.

Wall apparently was asleep in his quarters below deck after working through the night to help prepare the ship's 80 planes for their morning combat missions over North Vietnam. Most of the 141 men who died were highly trained technicians who had worked the night shift and were trapped in their sleeping quarters below the flight deck.

AS THE NAVY'S third largest carrier, the USS Forrestal carried a crew of 4,300, the equivalent of Dimmitt's population.

The battered supercarrier, still fighting flash fires and secondary explosions, limped across the South China Sea to Subic Bay in the Philippines, docking Monday night.

Wall was among the first crewmen to be confirmed as killed in action. His body was transferred to the hospital ship Repose as the Forrestal's communications center began transmitting names of the known dead back to the US so families could be notified.

NAVY COMMANDER Earle Hallberg of Amarillo made a personal visit to the Wall's home here Saturday night, officially notifying them of their son's death at 9:45 p.m. The family received a telegram of confirmation Monday.

And Tuesday, the Walls received their son's final letter home. He had apologized for a lull in his correspondence explaining that he had just worked two 20-hour days, then had shifted from day to night duty.

"We're in the Tonkin Gulf about 50 miles off the coast today," he wrote. "We start our raids tomorrow. . . ."

Burglar Hits Potato Plant

A burglar "dropped in" on the H&S Produce Co. office via an air duct early Friday, and left with \$545 in bills and coins.

DEPUTY Granville Martin, who investigated, said one or more persons took an evaporative cooler off the top of the large potato processing building west of Hart and got into the office through the ductwork.

He said the money was taken from a filing cabinet which was apparently pried open with a quarter-inch screwdriver.

Ralph Futrell of H&S Produce Co. said the burglary must have been committed between 3:30 and 8 a.m. Friday.

Frye Dies in Accident

Funeral services were conducted Saturday for Harden Houston Frye, 26-year-old farmer who was killed in a freak explosion last Thursday while weeding a tank on his father's farm at Easter.

Rev. Russell Wingate, rector, conducted the final rites in Hereford's First Presbyterian Church at 3 p.m. Saturday. Burial was in West Park Memorial Park under the direction of Dennis Funeral Home.

THE YOUNG farmer is survived by his wife, Verna Brown Frye; a son, Hilton Houston; a daughter, Shandra Von; his parents, Mr. and Mrs. Harland Frye of Easter; and two brothers, Kenneth of Hereford and George of Friona.

Investigating officers said Frye was weeding a tank in a trailer-mounted spray tank on his father's farm when the explosion occurred.

Frye had discovered the leak while using the tank to spray insecticide earlier in the day, they

said. Apparently, some of the insecticide had vaporized to a point where enough heat could cause it to explode.

THE ACCIDENT occurred at 6:30 p.m., blowing out the end of the tank where Frye was weeding. His mother found him lying near the tank, badly injured, and reported the accident.

Fire departments from both Dimmitt and Hereford responded to the call, and Frye was taken

Five Appointed To Industrial Steering Group

Bob McLean, president of Dimmitt's First State Bank, has been appointed to head a five-man steering committee to work toward an industrial development corporation for Dimmitt.

OTHER STEERING committee members, appointed by Chamber of Commerce President Don Newman, are Allan Webb, Dr. B. H. Lee, A. C. Hays Jr., and Don Nelson.

In addition, Newman appointed James Horton, the chamber's industrial development committee chairman, to serve as a liaison between the steering committee and the chamber's board of directors.

THE NEW committee will study the feasibility of establishing a non-profit development corporation with the power to buy, sell or lease land and negotiate with new industries seeking to locate here, the chamber board in June.

to Plains Memorial Hospital, where he died shortly afterward of extensive head and body injuries.

Born May 27, 1941, Frye had lived in the Dimmitt area all his life. After graduation from Dimmitt High School, he attended Spartan Aircraft School in Tulsa, Okla., where he earned his aircraft engineer's license and pilot's license. He had also attended West Texas State University.

HE WAS A member of the Easter Lions Club, First Presbyterian Church of Hereford, and was secretary-treasurer of Hereford Aero, Inc.

'Water' Board Adopts Budget

The newly formed Water, Inc., continued its organizational buildup last Thursday as directors of the three-state organization met in Dimmitt's First State Bank community room.

THE BOARD reaffirmed the corporation's basic goal of getting surface water imported to the High Plains area, adopted a \$200,000 budget, set up two new committees and authorized the hiring of a \$15,000-a-year public relations director.

Four new directors also were named to complete the board. They are from San Angelo, Abilene, Fort Worth, El Paso and Wichita Falls.

President John Kendrick of Brownfield announced the establishment of a membership committee, to be headed by Homer Garrison of Plainview, and an inter-agency relations committee under the chairmanship of K. Bert Watson of Amarillo.

Farm Hand Dies In Field Mishap

A 28-year-old harvest worker was killed southeast of Nazareth Monday afternoon when he fell beneath the wheels of a trailer loaded with 1000 lbs. of cucumbers.

HE WAS Rogelio Reyes, father of two, who was pronounced dead on arrival at Plains Memorial Hospital.

Reyes, an employee of Western Vegetable Co., was helping with the cucumber harvest on the Charles Heck farm three miles south of Nazareth when the fatal accident occurred.

ELVON DeVANEY, manager of Western Vegetable's operations here, said Reyes was in a crew harvesting the cucumber field

with a mechanized picker. He was riding on the back of a tractor and fell under the wheels of a trailer following the picker, DeVANEY said. One of the trailer's wheels reportedly crushed his chest.

The accident occurred at 4:45 p.m. Monday. Heck called for a Dennis Funeral Home ambulance and notified the hospital, but Reyes was dead on arrival.

Funeral services are scheduled for 9 a.m. today (Thursday) in Dimmitt Immaculate Conception Church.

Reyes' only known survivors are his wife and two children.

GEORGE E. WALL

"He felt he should do his share"

He Saw His Duty, Realized Danger

"We never were too much about blowing our horns about our kids, but that boy deserves the full measure. . . ."

FRED WALL, an employee of El Paso Natural Gas Co. here, calmly but firmly relayed his pride in his son, George, who was killed Saturday in the explosive ho'caust that rocked the USS Forrestal.

"I thought he was a precious person," said his mother, Georgia, head bookkeeper at First State Bank. "He wanted everyone to be happy, and he worked at it."

THE WALLS were beginning a sad vigil Tuesday, awaiting the return of their oldest son's body from a war zone 10,000 miles away.

They had absorbed the shock of the official notification of his death Saturday night.

They had received the telegram Monday confirming his death, with the postscript that a full letter of explanation would follow.

And that day, they had received their son's final letter home.

THE STORY of George Wall, 22, is the story of a bright, sensitive, ambitious, responsible young man. He was serving his country because he felt it needed him.

He had gone through all 12 grades of public school in Dimmitt graduating in 1963.

He had loved the outdoors — fishing, hunting, water sports — and had shown a knack for dramatics, appearing in school plays.

He had spent two years at Texas Tech studying agriculture, business and agronomy. Then he had volunteered for the Navy in January 1966, after his sophomore year at Tech.

BEFORE JOINING the Navy, he had talked it over with his parents.

"He said it looked like something was going to have to be done, that somebody had to do it, and that he felt he should do his share of service for his country," said his father, who had served four years in North Africa and Japan with the Army when George was a baby.

"He always said he couldn't bring his children up without serving his time in the service," his mother recalled.

GEORGE CHOSE the Navy, and became a valuable technician as he mastered the complexities of aviation electronics.

He took his basic training at San Diego's Naval Training Center, where he was named the outstanding recruit of his company. Then he was assigned to the Naval Air Technical Training Center at Memphis, Tenn. From there he was sent to the Naval Electronics School at Jacksonville, Fla., for further training.

He was in the Navy 16 months before he walked onto a ship. That ship was the gigantic USS Forrestal, a supercarrier, a floating airport city with 4,300 residents.

IN HIS FIRST 42 days on board he sailed 15,000 miles — from the Forrestal's home port of Norfolk, Va., around South America, across the South Pacific to the Gulf of Tonkin off Vietnam. There had been a girl. While

stationed at Memphis, he had met and dated Terry McLeod, an Arkansas girl, who had made medical history as a child by undergoing 14 operations to conquer polio.

"She was one of the sweetest, most talented girls you'll ever meet," Mrs. Wall said. "She was Miss Jonesboro and Miss Teenage of the South. They weren't engaged, but they had decided to make a serious decision when he got home. I think you could say she was as much a member of our family as the boys."

BEFORE GEORGE sailed from Newport, Terry computed how long it would be before he would receive any mail at sea, and she gave him 10 sealed envelopes to be opened at three-day intervals. Each contained an inspirational, optimistic or light-hearted message.

Also before he sailed, he told his mother that in addition to his personal letters home, he would record his experiences in separate "diary" letters, and that he wanted her to compile them into a book for him to keep.

IN ONE of these letters he described the initiation of the "pollywog" seamen by the "shellbacks" as they crossed the equator for the first time. He recorded his impressions of Rio de Janeiro.

On June 29 he wrote:

"Today was one of spring and I felt the acute pains of homesickness as I sat on the fantail and watched three large albatross ride the air currents that endlessly circulate behind the ship. I wonder where these birds hail from, as we are some 1400 miles from land. . . . How long do they ride the wind looking for fish?"

"WE ARE traveling at some 30 knots and yet the albatross are able to pace us with only the slightest movement of their three-foot wings."

"The sun is warm and the wind is spring cool. I would like to lie in the sun and read a good book while munching on a crisp apple. I would also enjoy digging in the brown soil of home. . . ."

BUT IN addition to being a sensitive observer, George Wall was also a realist.

On his first day at sea, the young man from the plains had looked over the USS Forrestal and recorded his prophetic assessment of the huge vessel:

"The flight deck seems to offer the greatest hazard as the planes are continually sweeping the deck with the hot breath of their exhausts. . . ."

Wood Receives Confirmation

John Hardy Wood has been notified of his confirmation by the US Senate as postmaster of Dimmitt.

WOOD WAS placed in charge of the post office here last August after the death of Postmaster Ernest Davis. He was appointed as acting postmaster by President Johnson last Oct. 7, but his confirmation had been pending since that time.

Fort Worth Orphanage Is Hackers' 'Mission'

Mission work, like charity, can sometimes best begin at home. THAT'S BEEN the lesson of Mr. and Mrs. Leland Hacker, who became missionaries at home when they found their way blocked in the foreign mission field.

THE LELAND HACKERS
... With children, Brad and Robin

Hacker, son of Mr. and Mrs. Earl Hacker of Hart, is executive director of the Lena Pope Children's Home in Fort Worth, which is the home for approximately 150 children.

He was raised in Hart and graduated from HHS in 1947.

HIS WIFE Jerrle, a registered nurse, is the author of an article, "Missions Are Where You Find Them," published in the latest Baptist Standard. (Editor's Note: Her article is reprinted below.)

Their children, Brad, 7, and Robin, 2, are both adopted.

The Hackers originally hoped to serve as missionaries to China, but their hopes were dashed at the physical testing stage—they found that other people can have migraine headaches, but a missionary cannot.

SO THEY followed a different mission path. He received his BA degree from Baylor and bachelor of divinity degree from Southwestern Theological Seminary. Then he added a master of science degree in social work from the University of Texas.

Mrs. Hacker graduated from Baylor University as a registered nurse.

Today, they're putting their multiple talents to use for the benefit of orphaned children.

HACKER described his past with the Waco children's home as "a challenge because I will be touching more lives." He interned at the Family Service Association in Houston and the Austin State School while doing his post-graduate work at UT.

"Today's problem is not the total orphan, of which there are now only about three percent. Instead, it's the children with multiple parents," he said during a recent visit with his parents in Hart.

In the latest issue of the Baptist Standard, Mrs. Hacker describes their original frustration over not getting to go to China as missionaries, and the rewards they have since experienced working with adopted children:

"MISSIONS ARE WHERE YOU FIND THEM"

By Mrs. Leland Hacker
I must go to China; God called me to go there when I was just a teenager. I've spent four years at Baylor preparing to be a nurse, a profession in which I felt I could be most beneficial, and attended the mission courses at Southwestern Seminary to complete the requirements to be appointed.

WHY WOULD migraines headaches keep me from doing what I felt God called me to do, and what I wanted to do? All of these questions came so vividly to me about 10 years ago, when my husband, Lee, and I learned we could not go overseas.

He had also felt a commitment to mission work when he was a teenager and had completed Baylor and Southwestern Seminary.

Utter dejection is stating a very mild reaction; we didn't know where to go or what to do.

THEN, despondency gave way to a realism and the need for useful service; and "by chance" after graduation from the seminary, we found ourselves at the Waco State Home for dependent and neglected children. Lee was chaplain for the 250 children and we both were house parents for 15 teenage girls.

During that time I believe I learned more about what the world is all about than I had ever known. The girls had a reputation for running off most house parents, and they wanted to live up to this. We were next on the list.

LATER, most of the children called us "Mom" and "Dad" and before long we felt their problems as you do those of your own children. We tried to help with studies, with what to wear for school and those special occasions, how to act, problems with boys that only teenage girls can have; and we tried to give extra encouragement to enter in school, whether for sports, art, cheer-leading, drama or anything they might enjoy and excel in.

There were also times of fun, playing in the home's gym or swimming pool, going on picnics or to parties, and just an occasional drive in the car "to get away

from it all." Sometimes they felt more like talking over problems in this small group, because privacy in a children's institution is most difficult to achieve.

Needless to say, even with all the problems and confinement, the frustrations and disappointments, we began to learn to love the girls, each for herself. We still enjoy hearing from them and finding out that most have married good people, have become good parents, many graduating from college, and have become respect-

able citizens.

DURING THOSE 10 years, we have served at different homes in different capacities with a population of around 600. However, I'm sure that at least 1,000 children have influenced us and caused us to realize God's purpose for service is a unique and a very real thing.

Service to others is the heart of missions, and I'm glad we have found this area so close, so very close — one might even over look it.

Bible Thoughts

NO CONDEMNATION

By Ronnie Parker

The Bible is very clear in its teaching concerning the condemnation of the wicked. In the sermon on the mount, Jesus informs us of two ways, one broad and one narrow, and shows that the broad way "leadeth to destruction, and many are they that enter in thereby." Matt. 7:13. When he gave the great commission he promised that "he that believeth shall be condemned." Mark 16:16. John 5:28-29 teaches us that all that are in their graves shall be raised — those who have done good to life, those who have done evil to damnation.

But there is the wonderful promise of no condemnation. In Rom. 8:1 Paul says, "There is therefore now no condemnation to them that are in Christ Jesus. The state of this safety is "In Christ Jesus." In 2 Cor. 5:17 says, "Wherefore if any man is in Christ, he is a new creature: the old things are passed away; behold, they are become new. But all things are of God, who reconciled us to himself through Christ." While a person lives in rebellion and sin he remains an "enemy" of God, but through Christ, the believing person can be "reconciled" (made a friend) by God, "For ye are all sons of God, through faith, in Christ Jesus. For as many of you as were baptized into Christ did put on Christ." (Gal. 3:26-27).

LOOKING BACK...

There is a need to look back occasionally to get our bearings for the future. Past experiences often guide future action. What has proved good and profitable in the past will often prove to be the same in the days ahead. Serving God and our country through our churches and through civil and community service has always elevated us as a people and contributed to our image as a free and just country. We will not go wrong in adhering to these practices. Attend the church of your choice this Sunday and receive inspiration and courage for the future.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

MRS. CHARLES LOUIS BIRKENFELD
... Formerly Teresa Jean Cranford

Couple Establish Home at Nazareth

Miss Teresa Jean Cranford became the bride of Charles Louis Birkenfeld in a double ring ceremony performed by Rev. Larry Nicholl in the Immaculate Conception Church July 22 in Dimmitt.

THE BRIDE is the daughter of B. R. Cranford and Margie Cranford of Dimmitt.

Birkenfeld is the son of Mr. and Mrs. L. H. Birkenfeld of Nazareth.

Best man was Leslie Birkenfeld of Nazareth, cousin of the bridegroom. Ushers were Freddie Ball of Nazareth, Richard Britting of Amarillo and Michael Cranford, brother of the bride, of Dimmitt.

Matron of honor was Beverly Gerber of Dimmitt. Bridesmaids were Magaine Birkenfeld of Nazareth, sister of the groom; Charlotte Allison of Dimmitt; and Stephanie Birkenfeld of Nazareth, cousin of the groom.

THE ALTAR was decorated with baskets of red roses on each side. Mrs. Leonard Conrad, organist, played traditional wedding music.

The bride, given in marriage by her father, wore a floor-length

dress of peau de soie with bell skirt, a long lace train and long patai point sleeves. Her headpiece was three peau de soie roses with attached silk illusion veil. She carried a bouquet of an orchid surrounded by stephanotis.

The bride's attendants wore street-length dresses of blue satin brocade with white roses with three-quarter length bell shaped sleeves and rounded necklines. Their headpieces were blue satin roses attached to layers of blue illusion. Their bouquets were g'adioli trimmed with blue leaves and white ribbon.

A reception was held at 3 p.m. in the Nazareth Community Hall, and a wedding dance followed later in the evening.

FOR A WEDDING trip to Ruidoso, N.M., the bride wore a white cotton tuxedo shift with white accessories and the orchid from her bridal bouquet.

The bride is a 1967 graduate of Dimmitt High School, and her husband graduated from Nazareth High School in 1962.

The newlyweds are now at home two miles east of Nazareth, where the groom is engaged in farming.

Hosts and hostesses at Sunday's event will be Mr. and Mrs. Rayphard Smithson, Mr. and Mrs. Fred Bruegel Jr., Mr. and Mrs. Robert Benton, Mr. and Mrs. Jack Clark, Mr. and Mrs. Lewis McDaniel and Mr. and Mrs. Jimmy Presley.

OES Schedules Special Program

VFW Juniors Plan Float

The Junior Girls' unit of the VFW Ladies Auxiliary registered a 100 percent turnout of members as it met Wednesday of last week in the home of Kathy Griffin.

MEMBERS heard a report on the 1967 officers' banquet held July 1, and discussed ways to raise funds for a float entry in the Castro County Roundup Parade Aug. 17.

VFW to Sponsor Magazine Drive

Commander R. V. McMahon Jr. announced this week that Dimmitt's VFW post will sponsor a magazine subscription campaign to obtain sickroom equipment for public use in Castro County.

HE SAID the post will receive the equipment as part of a contract with South Plains Reader Service of Lubbock. He added that this organization has conducted campaigns here twice before under VFW post sponsorship, and that it has provided the post with two wheelchairs for local residents' use.

Neither the salesmen nor the VFW post are authorized to solicit donations during the campaign, McMahon said.

Correction

The VFW Ladies' Auxiliary has set its meetings for the second Monday night of each month, instead of a Tuesday night as reported in last week's issue.

Here's a Good Recipe For White Chocolate

By IRENE KEATING
Home Demonstration Agent

This week I'd like to share a white chocolate cake recipe that Argen Draper gave me. It is a delicious cake. If you'll call me at 647-3455 I'll tell you where the chocolate can be purchased.

WHITE CHOCOLATE CAKE

- 1/2 pound white chocolate
- 1/2 cup hot water
- 1 cup butter
- 1 cup sugar
- 4 eggs
- 1 teaspoon vanilla
- 2 1/2 cup cake flour
- 1 teaspoon soda
- 1 cup buttermilk
- 1 cup pecans
- 1 cup coconut

MELT chocolate in hot water; let cool.

Cream butter and sugar; beat until fluffy. Add one egg yolk at a time, beating well after each addition. Sift 2 1/2 cup cake flour 1 teaspoon soda. Add to mixture alternately with 1 cup buttermilk.

Add melted chocolate and 1 teaspoon vanilla.

Beat 4 egg whites until stiff, but not dry; fold into mixture. Gently stir in 1 cup pecans and 1 cup coconut.

Bake in three layers at 350 degrees for 25-30 minutes.

COCONUT - PECAN FROSTING

- 1 cup evaporated milk
- 1 cup sugar
- 3 egg yolks
- 1/4 pound margarine
- 1-one-third cup coconut
- 1 cup pecans
- 1 teaspoon vanilla

Combine in sauce pan: milk, sugar, egg yolks, margarine and vanilla. Cook and stir over medium heat until mixture thickens — about 12 minutes. Add coconut and chopped pecans. Beat until frosting is cool and thick enough to spread.

★ ALL OF US are concerned about our clothing budget. Here are some helps for you.

Take a good look at your present wardrobe. Repair and clean all items that need it and discard garments that are never worn. Keeping them in the closet just wrinkles and crowds good garments.

Make a list of the activities you take part in. See if you have needs, and, if not, make a list describing the necessary garments.

You will probably not be able to buy all of them at the same time, but the list will help develop a clothing plan. Allow a certain amount for each purchase. Decide which garments you need immediately and which you can buy later.

Take advantage of sales. If trying to match a purchase with a garment you already have, wear that garment or take it with you to the store. Don't allow yourself to get into the predicament where you will need to buy something else to go with the new article you just bought.

By ANN ALEXANDER

Two squares of the Dimmitt Promenaders Club trekked to the home of Wes and Helen Brown, after midnight to awaken our caller Sid Pedkins so we would be eligible to order our "Idiot" and "Grasshopper" badges.

The members who qualified for these badges are Wes and Helen Brown, Bill and Paula Harman, Andy and Ann Alexander, Muriel and Judy Bussey, A. V. and M'dred Barnes, Ten and Jean Robb, Billy Harman, Dana Harman, Cynthia Williams, Joe Langford and Jim Young. "Square Dancing is Fun."

A SMALL CITY is taking shape at the site of the Castro County Migrant Housing Project, the biggest project of its type in the US. Construction has reached the second story level on many of the apartment buildings. The Castro County Agricultural Housing Association, Inc., and H. A. Padgett Construction Co. of Lubbock, contractor,

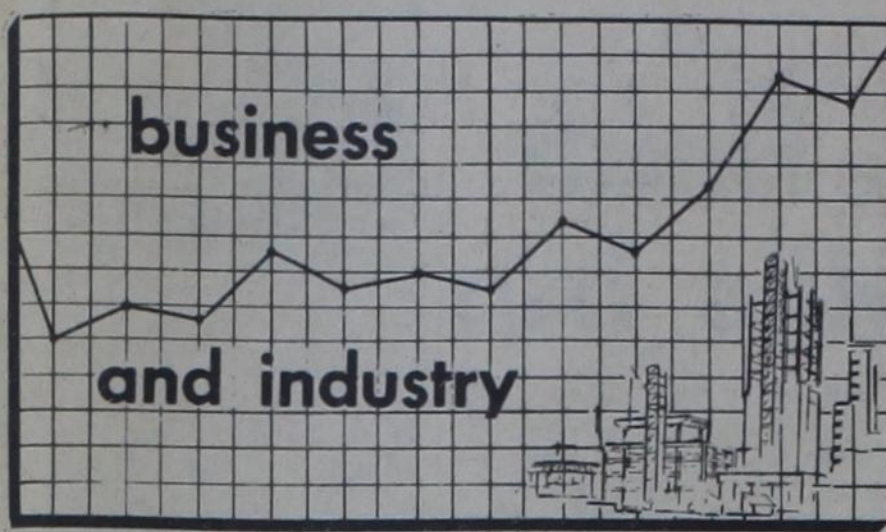

UP GOES THE BOOM of a Dickey's Dozer Service crane, and into place goes a long steel I-beam to serve as the "foundation" of a second floor in one of the Migrant Housing Complex buildings. Operating the boom is Harold Portwood.

hope to have several of the units ready for occupancy before the end of this year's harvests. This block of two-story apartment buildings represents only one part of the huge complex. Apartments will probably be rented to migrant farm workers' families for \$12 and \$15 a week.

UP GOES THE MORTAR, sent via mechanical mule by Ken Campbell and Gary Jennings, to Joe Flores on the second story level of an MHP apartment building. The project called for the biggest single concrete-block order in West Texas history.

Wright to Move To Port Lavaca

Soil Conservationist Pete Wright, Dimmitt's "Outstanding Young Man" award winner in 1964, will fill a post with the Soil Conservation Service in Port Lavaca.

HE WILL be a work unit conservationist in the Gulf Coast city — the same title he held here while working with the Running Water Soil Conservation District.

Wright will assume his new duties Aug. 14. He said he and his wife, Suzie, and their small daughters, Pam and Megan, will probably move to Port Lavaca Wednesday.

Wright's main project in conservation here has been the continued development of the ambitious Running Water Draw Watershed Project for water storage and flood control. The \$2½ million project is now awaiting approval of the City of Plainview before being submitted to Washington for funding.

DURING HIS eight years here, the 34-year-old Wright has been quite active in civic work, posting his main milestones in the Jaycees. He has held every office in the Dimmitt Jaycees, including president, and went on to serve as area vice-president of the Texas Junior Chamber of Commerce, and national director of the US Junior Chamber.

He also founded the annual Miss Dimmitt Pageant and served as its first chairman; has been chairman of the Castro County Activities Committee; and for two years was chairman of the grow-

ing Miss Grain Sorghum of the Nation Pageant here.

In 1964, Dimmitt's Jaycees named him the city's "Outstanding Young Man of the Year."

"WE HAVE mixed emotions about leaving Dimmitt," he said. "We want to express our appreciation for having been allowed to become a part of the community."

Swim Meet Set Friday Week

Dimmitt's Jaycees will sponsor a public swimming meet Aug. 11, beginning at 6 p.m. in the Dimmitt Junior High Pool.

Competition will be in four age groups — 12 and under, 12 through 16, and 17 through 24, and 25 and over.

JIM RATCLIFF, chairman of the meet, said three events will be conducted in all age groups. They are back stroke, breast stroke and free style.

"If we have enough interest, we'll split each age group into boys' and girls' classes," Ratcliff said.

Individual awards will be presented to winners. Those wishing to enter the meet should contact Ratcliff at 647-3168 or pick up entry blanks at the pool. No entry fee will be charged, he said.

Foam's the News As Curtain Rises On New Draperies

Foam backed draperies are being added to nearly every manufacturer's line in the market, says Bonny Lay, Extension home furnishings specialist at Texas A&M University.

THE FOAM backings, first introduced last season, now appear on the fiberglass fabrics, linen and wool. The jacquard weave takes the primary position, but the backing appears on plain weaves, including prints and solids.

The backings will penetrate the retail scene in many variations during the rest of the year, says the specialist. The Home Cur-foam backing for draperies on the fall's first Milium elastomer. Most are guaranteed not to crack market.

Burlington House, which introduced the acrocellular acrylic lining, Sheffield 600, last year will also introduce this fall a crushed foam backing for draperies in the moderate priced range. It will offer complete opacity by removing the "spongy air bubbles" that give the present foam backings a kidskin effect.

THERE are several advantages to having foam backed draperies. The lining foam helps insulate against heat and cold, possesses some acoustical qualities, protects the fabric from sun fading and gives the drapery body, depth and dimension.

The backing is permanently bonded to the fabric by a machine, but it may be picked loose. Most are guaranteed not to crack or peel under normal wear. If the foam is bonded to a washable drapery fabric, it too is machine washable, but otherwise it should be drycleaned. Be sure to read the label to determine the correct method of cleaning.

Navarro County Reunion Slated

Castro Businessman Will Be Elected to PCG Board Today

Castro County cotton producers and businessmen will elect a businessman director to Plains Cotton Growers, Inc., at a meeting tonight (Thursday) at 8 in the community room of the First State Bank in Dimmitt, according to an announcement from M. Allen Webb of Dimmitt, current PCG businessman director, and Ray Joe Riley of Hart, producer director from Castro County.

THE 23-COUNTY cotton producer organization has two directors from each county, one a businessman and the other a cotton producer. Businessman directors are elected on odd-numbered years and producer directors on even years, each for a two-year term.

Both farmers and businessmen participate in the election of all directors.

Webb and Riley are emphasizing that directors to PCG are the men who set the producer organization's policy on legislative, research, promotion, financial and other activities which have a direct effect on the area's cotton economy.

RILEY said, "We think we have an effective cotton producer

CARROT HARVEST has been good during its first week, with the carrots plentiful and of excellent quality, and the market up. This carrot harvester is at work in a field on the northern edge of Dimmitt, farmed by O. A. "Shorty" Oldham. Meanwhile, for onion and potato producers, the news hasn't been as good — although production is holding up, their markets have dipped in the past week.

'MDMV' Virus to Be Discussed At Grainmen's Meeting Friday

Grain sorghum producers from Texas, Oklahoma and New Mexico will gather in Amarillo Friday for the fourth quarterly directors' meeting of the Grain Sorghum Producers Association.

The meeting will begin at the Herring Hotel at 10 a.m., according to Elbert Harp, the association's farmer-elected president from Abernathy.

Harp indicated that the officers of the county organizations will be asked to give direction on several items of business including: changes in the grain standards, membership and budget development, as well as subjects suggested by the participants themselves.

THE MORNING session will be utilized to gain expert background and technical information on sorghum related subjects of current interest, according to Bill Nelsca of Amarillo, executive vice-president. He said the new sorghum disease found in the area, "maize dwarf mosaic virus," will be discussed by the man who confirmed its presence, Dr. Robert Toler, virologist of Texas A&M University, and Dr. Tony Beckhoft, also of A&M.

Russell Bean of Lubbock will show slides about Water, Inc., and discuss proposed importation of surface water to the area.

The new service programs for area feed lots will be outlined by

Acreage Reports Are Due Aug. 15

By CHARLEY HILL
County Office Manager

All farm operators on participating farms are required to report the acreages of cotton, feed grains and soybeans used for feed grain price support payments, Diverted acreage and acreages of Castor Beans, Sesame or guar planted on Diverted acreage.

THE DEADLINE to make your acreage report is Aug. 15. However, the earlier you make your acreage report the earlier you will receive your diverted acrea and price support payments. As soon as you file your acreage report, the necessary data will be transmitted to New Orleans, where the payments will be computed by automation and your checks will be written.

Measure your acreage carefully, because if you exceed your permitted acreages or if you are short of diverted acreage, your payment will be reduced approximately three times the diversion payment rate for each acre you are out of compliance.

After Aug. 15 we will measure the acreage on 25 percent of the

farms in the county. There is no opportunity to make adjustments in crop acreages after this date.

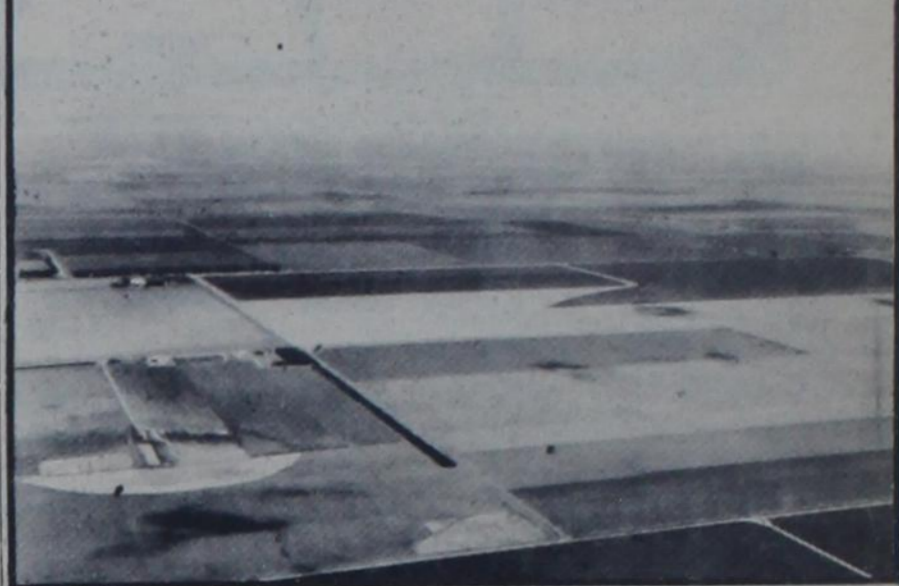

CROSS COMPLIANCE
If you are participating in any of the diversion programs you cannot exceed the allotment or base acreage on any farm in which you have an interest. Acreage adjustments on non-participating farms must be made by Aug. 15.

When You're Buying Dinnerware, The 'Little Things' Mean a Lot

If you're buying dinnerware, you may be wondering what to look for in workmanship. Jane Perry, Extension housing and home furnishings specialist with Texas A&M University, says some quality features can be readily checked.
COLORS SHOULD be even and decorative lines should be precise. Rims and edges should not be rough, warped or wavy. The feet and handle of the cup should be joined smoothly; tiny cracks sign origin since producers, at There should be no bumps, pits, blisters or tiny cracks (called crazing) in the glaze. A transparent glaze should be brilliantly clear so that colors come through in full strength. The dull matt and semi-matt glazes should not be muddy.
While checking quality, notice shapes and proportions. How does the cup balance in the hand? Is the handle comfortable to hold? How will the plates look with your other tableware?
FINALLY, take your time. Shop more than one store. Question salespeople freely, and ask for brochures on the lines that appeal to you.
If a bargain interests you more than best quality, take a look at

HART NEWS

Girl Scouts Finish Six-Day 'Dream Tour'

By MYRT LOMAN
Nineteen members of Hart's Girl Scout Troop 158 Saturday completed a memorable six-day tour of New Mexico in their "new" troop bus.

HERE IS the diary of their trip, written by Mrs. Max Stephens, who helped chaperone:

Monday morning 25 members and guests of Troop 158 eagerly boarded our Girl Scout bus and turned toward the Land of Enchantment. Girl Scout songs filled the air all along the way.

The first hint of excitement came by observing a small group of wild antelope grazing the wide ranges near Roswell. Our sack lunches tasted delicious while we rested in a park in Roswell. After lunch we exercised a bit by observing zoo animals, where the ostrich created the most interest. The Roswell Museum was our next stop. There the girls saw many of the Peter Hurd and Henrietta Wyeth paintings.

Sleepy Grass camping area, south of Cloudcroft, was our next stop. There on the grassy slopes, with tall pine and fir on the sides of high mountains we pitched our six tents which was to be our headquarters till Thursday afternoon.

THAT NIGHT we were initiated to the sound which would continue to quicken heart beats the entire trip. That was of the big brown and black bear entering camp, boxing off garbage pail lids and heaping themselves to leftovers of Texas home cooking. Each night we had at least three of these hungry visitors.

One night, due to a bear arriving much earlier than usual, the chuck box was not checked as carefully as usual. The smell of jam inside it made one bear try to box it open. If you have any desire to see the size of a bear's paw print, the girls are preserving it on the side of the chuck box. One bear we observed had a large white spot painted on his back. This was to let the rangers know that he had traveled back from the spot some 30 miles away where he had been taken after being trapped. He was known as Casper, the bear with bad table manners, and a grumpy disposition.

WHITE SANDS is the site of much rolling, digging, and fun. We ended the evening with another picnic dinner at the White Sands.

Forest Ranger Hammond took the group on a very informative nature tour Wednesday morning. In the afternoon he guided us into an area which had had a forest fire in May which had cost one-third of a million dollars to extinguish. He showed the group the numerous dunes, grass, and seedlings which will start the rebuilding of the area. The evidence of erosion since the May fire was practically unbelievable.

The girls were so impressed, they re-wrote this round and sang for Ranger Hammond.

Bad, bad matches,
Bad, bad matches,
I touched you
I touched you
You made quite a fire
Here comes Ranger Hammond
To get you
To get you

THAT TOUR was followed by one through the solar observatory at Sunspot which is over 9,200 feet in altitude. One statement

made by our guide should interest West Texans. Due to certain solar conditions, we are entering this year into a period of weather conditions which will produce more moisture for the next several years.

Thursday, four patrols of girls prepared lunches for their own patrol and guests. This included building fires, foil cookery, and meal planning. After lunch, each group did a quick packing job, then dismantled tents while keeping watch over threatening clouds. Our final moments in camp, we celebrated Elizabeth Stephens' 13th birthday with a beautifully decorated cake and Cokes.

On our drive out, Mrs. Mae Bradley gave us a guided tour of the Burgett's Greenhouses. The girls observed growing, cutting, refrigeration and shipping of the flowers.

ARTESIA'S Girl Scout Camp Turnweek was our home Thursday and Friday. The cool temperature of Cloudcroft hardly prepared us for the 103 degree temperature of Artesia. A dip in the Country Club pool refreshed the group.

Mr. Dean Robinson, the principal, took us through the completely underground Abo School. The group was delighted with class work left on exhibit in one of the classrooms. The emergency supplies of water, food, medicine made the girls more conscious of how planning might save the lives of people in emergencies.

Friday morning the girls visited the new City of Artesia College.

The Conoco Refinery gave a guided bus tour, relating many facts about the changes made from the crude oil flowing from the fields around Artesia, till the time it is made into asphalt, gasoline or fuel for airplanes.

CARLSBAD Caverns was the big event of the day. The girls enjoyed walking down, through and cut by elevator. They spent some time buying curios and making pictures. Tired girls spent the evening cooking, making down beds, and happy reminiscing.

Saturday morning the girls made some kind of a record by cooking breakfast, repacking, cleaning, mopping and dusting, the Scout house in one hour and five minutes.

The finale to the trip was another swim in the Levelland pool on the way home. At 4 p.m. our bus returned to the Miller residence to let off tired, happy campers.

Those making the trip were Vickie Newsom, Debbie Bailey, Debra Hardy, Cathy Nelson, Dee Ann Clevenger, Elizabeth Stephens, Nancy Graves, Lisa Lacy, Rhonda Newson, Carolyn Cel, Vickie Nolan, Carol Miller, Becky King, Jeton Jones, Kathy Kennedy, Brenda Covington, Debbie Heck, Rita Heck and Terry King. Dwight Miller and Dub King were our bus drivers. Mrs. Dwight Miller, Mrs. Dub King, Matthew and Kelly, Mrs. Max Stephens accompanied the group. Mr. and Mrs. James Kennedy and Jimmie were with the group most of the time.

The Girl Scouts would again like to express thanks to the many people of Hart, and especially to the school board for making this trip possible.

COACHES, leaders and wives of the Little League honored the boys with a hamburger cookout Friday night in the back yard of the home of Mr. and Mrs. Weldon Bates and family.

Adults present were Mr. and Mrs. Claude Cox, Mr. and Mrs. Jack George, Mr. and Mrs. Jack Dyer, Mr. and Mrs. Cleve McLain and families.

Special guests were Mr. and Mrs. Ardy Gardenhire and family Mr. and Mrs. Lanny Tucker and family, and the members of the Redlegs and Colts teams.

The group enjoyed hamburgers, potato chips, soft drinks and a feast of watermelons.

MRS. BILL BELL was host Tuesday evening of last week for the Zealot Club's regular meeting. Miss Thelma Joyce Martin presented a program on "Glass Decoration and Paper Mache."

Eight members were present. Guests were Mrs. Bass, Mrs. Granville Martin and daughter, Thelma Joyce.

MRS. JOE BAILEY and Mrs. Lanny Tucker entered the Tulia Women's Golf Tournament last Thursday and Friday and tied for sixth place.

Mrs. Lillian Dalrymple Owens

of Eden spent Saturday and Sunday in Hart visiting with friends. Mrs. Owen taught school here several years ago. Some of her former students were seniors this year.

Mr. and Mrs. Harmon Bishop and family left Sunday afternoon for Lawton, Okla., to attend funeral of her grandfather.

The Beta Sigma Phi Chapter has received several letters of thanks for the "goodies" the chapter mailed to Hart boys now serving in Vietnam.

Mrs. Eula Mae Spruill of Estelone returned home Saturday after spending two weeks in home of her daughter, Mr. and Mrs. Lanny Tucker and family.

T. R. Davis was re-admitted to Nichols Clinic in Plainview last week suffering from puris pneumonia. Mr. Davis has been ill for some three weeks or more.

HART HIGH School Coach Don Ewing and his assistant, Jim Rich, are in San Antonio this week to attend Coaching School.

A heavy schedule was promised during the four-day sessions with lectures; live field demonstrations of plays and films of special play patterns will be shown at night.

Lectures will be given on football, basketball and track.

On Wednesday night at the coliseum the men saw a basketball game and on Thursday night they will see the Coaches All-Star Football game.

Junior High Coach Ronald Shaw was unable to attend the school since he is working on a degree this summer at Wayland College. He finishes at the end of the summer classes.

JUNIOR AND Intermediate boys from the First Baptist Church attending camp last week at the Baptist Camp near Floydada were Leslie Davis, Barry and Danny George, Danny Bishop, Jim Tucker, Leon Follis, Paul Gould, Dirk Rambo, John D. Rodgers, Graig Harlan, David Barham, Carl Lacy and James McLain.

Adults assisting with transportation and spending nights with the group were Weldon Davis, Preston Upshaw, Harold Smith, Richard Murray, and Bro. Van Earl Hughes.
