TEST WAR NEWS SHOWS JAPAN STILL BOLDLY PUSHING HER ADVANTAGE

On Wednesday, the 3d, at midnight, Japanese torpedo boats pushed lighted lumber rafts into Port Arthur and the fire of Russian forts to make them waste ammunition.

Passenger service has been resumed by a Japanese line between Chemulpo and Kobe, the Japan and Vellow seas having been cleared of Russian warships.

Russian sallors wounded at Chemulpo have been taken to Japan on a hospital ship and are well treated.

Unconfirmed reports are published of a three days' attack on Port Arthur early last week and of the sinking of tossian and a Japanese vessel near the Migo Tao Islands. The latter disaster is said to be reported by twenty-eight Japanese, the only survivors, who landed in China.

#a The indications seem to be that a land battle is not much farther in the future. In addition to its previous teentration of forces in Korea, Japan has continued landing men from transports at Chinnampo, and they have gone to Ping Yang, in the northern part of the Hermit kingdom. Between that point and the Yalu river the first meeting of the Russian and the Japanese armies may be expected.

A noteworthy development of the past week was the sailing of the Japanese general staff for Korea some days

The final attack on Port Arthur is expected any day. The Czar's forces will defend the city with their last drop of blood, according to proclamations, and the Japanese navy will try to take it at any cost. Meantime landings of Japanese are reported from various points on the Liao Tung peninsula.

Russia is preparing to call out its entire army and the movement by rail across the great width of Siberia con-

The feeling in Russia toward both the United States and Great Britain is said to be much better as the result of recent acts at Washington and the visit of Ambassador Benckendorff, stationed at London, to the Czar, on which occasion he presented a friendly letter from King Edward and described the attitude of the British government toward

in a tight place. It is conceded that they are at sea and soon must engage the Japanese warships, which have gotten between them and Vladivostock.

St. Petersburg admits the gravity of the situation, but believes the great vessels will be able to take the measure of their opponents.

Tokio goes beyond this and sends out a report that a battle already has taken place and that the cruisers have been captured or destroyed.

This rumor, however, appears unlikely to be true, as it would not seem probable that Tokio could learn of of the house of peers have refused to and off Vladivostock to prevent the refirmation appearing in some other continuance of the war, and it is be they are caught in the open sea.

territory, including all the leading mining camps surrounding Silver City. Albuquerque will soon have its new lectric city railway in operation. W. H. Greer, president of the Albuquerque Traction Company, has received a letter from the Illinois Steel Company stating that the rails are on the way, having been shipped from Joliet on February 27th. All the ties and poles have been cut and the line has een surveyed, and on the arrival of the rails active construction work will begin and be pushed to completion. It is expected that within six weeks after the arrival of the rails three miles of the road will be built and in operation. The coaches have been ordered from St.

Louis The bitter fight over the estate of the late Lord A. L. Coape of Lumberton, Rio Arriba county, who shot himself after killing his wife, was settled on the 5th inst. in the Probate Court at Tierra Amarilla. The immensely valcable collection of curios, and a quit claim deed to a mining company at Silverton, Colorado, go to the heirs in England, while the mother of Mrs. Coape, Mrs. Hernandez, gets the residue of the estate, consisting of 160 acres of land, houses and lots in Lumberton, and the personal estate, which is said to be very valuable. A legal fight over the estate has been begun in England.

The Hachita Mercantile Company was incorporated March 5th by Joseph A. Leahy, Carl F. Dunnegan and William B. Walton of Grant county, who are also the directors. The capitalization is \$12,000 and the headquarters are at Hachita, Grant county. The San Juan Canal and Development Company has also filed incorporation papers, the incorporators and directors being Jay Turley and L. Bradford Prince of Santa Fe, Joseph C. Thurman and Robert M. Johnson of Durango, Colorado, and Juan N. Jaquez of Blanco, San Juan county. The capitalization is \$1,000,000 and the headquarters are at Blanco. The company has surveyed an irrigation canal twenty miles long out of the San Juan river, which will put under irrigation 40,000 acres of fine land.

Prospecting on Grants.

Delegate Rodey's bill, authorizing the exploration and purchase of mines within the boundaries of private land ciaims in New Mexico, has been unfavorably reported upon by the secretary of the interior, to whom it was referred by the House committee on mines and mining.

This bill relates to grants of lands the title of which was passed on from Laguna, on the Santa Fe, a track walkthe time of the treaty of Guadalupe er. Jesus Salamandin, was struck by Hidalgo and which have been referred to the Court of Private Land Claims He was on his track velocipede and and confirmed, with the exception of the mineral rights, which were re-Suit against Higho Sanchez, treasur-er and tax collector of Taos county, and his bondsmen, has been filed by District Attorney Abbott, for the terriserved. The reservation of these trial. rights, however, has in many instances prevented the exploitation and working the valuable mines. The parties who held possessory title of the surleged has not been properly accounted face have not worked the minerals, and their possession of the land has prevented others from doing so until leg-A gun club, to comprise all lovers of islation had been enacted to carry into effect a section of the act of March 3, querque. The members will arrange 1891, establishing a Court of Private shotgun events with prizes to take Land Claims in certain states and terplace during the territorial fair to be ritories, including New Mexico. held in Albuquerque during the com-

This section provided that the allowance or confirmation of any claim should not confer any right or title to bought a 260-acre reservoir site in the any gold, silver, or quicksilver mines, outskirts of Santa Fe from the Santa or minerals of the same, unless the Fe Water and Light Company, A dam grant claimed affected the donation or will probabaly be built and sufficient sale of such mines or minerals to the grantee, or unless such grantee has become otherwise entitled thereto in law or equity. Therefore, under this act. these mines and minerals remain the property of the United States, the same and illustrations, of the report of the as any other unentered land, with the exception that the title to the same tary of the interior for the year ending also rests in private parties so far as June 30, 1963, and the printing of 1,000 the surface is concerned.

This, Mr. Rodey states, is a condition of affairs which needs remedying and he has provided the remedy by his bill, which provides that the gold, silley are said to be worrying about the probable scarcity of water during the ver and quicksilver deposits, or mines, or minerals of the same, on lands emcoming summer. It seems that we braced within any land grant claim heard something of the kind last year, confirmed by the Court of Private Land Claims, are open to exploration and ried a healthy cargo of hen coops and purchase under the mining laws of the United States. Provision is made for compensation of parties having surface title, and regulations prohibiting pros-Otero for Porter Morrow, wanted in

pecting upon improved tracts, etc. The department objected to the bill on the ground that it was the intention of the act of March 3, 1891, to only reserve title to minerals in grants the needs of Denver and told the comwhere the presence of these minerals mittee that an hour's visit in Denver then known; and not to future discoveries. In other words, it only new buildings. It is Mr. Bonynge's applied to developed claims, and the discovery of mineral by the holder of the tract makes him the owner of the

The bill has again been referred to the department, with an amendment meeting the objection of the depart- now purposes vigorously to take steps ment, and if the bill then receives the looking to the protection from mals endorsement of the secretary the com- ria and yellow fever of the large nummittee on mines and mining will probably report it.

Hundreds of thousands of acres of title to grants has developed.

First Suspects Liberated.

A second dispatch from Albuquerque, on the 5th inst., says: Although the officers were almost certain vesterday afternoon that Jose Trujillo and wife murdered Mrs. Mary Ann Boone, further investigation proves otherwise, and late last night the two suspects were liberated, but will be called as witnesses.

The coroner's jury heard testimony all of to-day and finally adjourned late this afternoon, after returning a verdict fastening the crime upon no particular person. The most conflicting testimony before the jury came from the owner of the bouse where the murder was committed, Mrs. Barbara Sanchez, and the police believe that she knows more about the murder than she has yet told.

Mrs. Sanchez attempts to make it appear from her evidence that a shoemaker, and a Mexican named Guadalupe Mendos, committed the deed. As this is the second murder of a woman here within three weeks, the officers are more determined than ever to ferret out the man or woman who beat Mrs. Boone and then choked her to death.

The Territorial Supreme Court met March 3rd in the. capitol with Chief Justice W. J. Mills of Las Vegas and Associate Justices John R. McFie of Cruces and Benjamin S. Baker of Albuquerque on the bench. Two judgments of lower courts were

EVENTS IN WASHINGTON AND TRANSACTIONS OF CONGRESS

The committee on foreign commerce has reported in favor of the bill pend ing in Congress authorizing the President to correspond with the principal maritime powers for the extension of the exemption principle to private property of sea not contraband of war. Justice Pritchard overruled the motion of Samuel A. Groff, one of the

recently convicted defendants in the postal trial, and sentenced him to two years in the Moundsville penitentiary and to pay a fine of \$10,000, sentence to begin on arrival at the penitentiary. Groff immediately furnished bond for \$20,000, pending a motion for a new

The Senate committee on military affairo has agreed to incorporate in the army appropriation bill an item of \$250,000 to continue and complete a military wagon road in Alaska from Valdez to Fort Egbert or Eagle City. Also an item of \$321,580 to complete the construction and extension of the sub-marine telegraph line from Sitks to Fort Liscum.

A bill has been introduced in Con gress setting aside a tract of land in the Akron, Colo., land district as a public park. The movement was started by the Beecher's Island Memorial Association, which is desirous of making a park of this land and erecting a monument thereon in commemo ration of memorable battles between acouts and frontiersmen and Indians.

Secretary Shaw has notused all spe cial national bank depositories, including those of New York City, that they will be required to pay, on account of the Panama canal purchase, twenty per cent. of their holdings of government funds on or before March 25th. The twenty per cent. aggregates about \$30,000,000, leaving about \$20,000,000 to be supplied from the treasury. The two payments to the canal company and to the republic of Panama will be made concurrently a out April 1st.

Representative Bonynge appeared before the House committee on public buildings and grounds and presented the invitation of the Denver Chamber of Commerce to go to Denver and as certain the need of a new federal building. Former Member Shafroth pre sented the bill and made the suggestion to the chamber that the invitation be extended. Mr. Bonynge backed up Mr. Shafroth's assertions in regard to personal belief that the committee will visit Denver after the adjournment of Congress.

Having acquired the right of way for the Panama canal, the United States ber of Americans who undoubtedly will be attracted to that section when the work of construction begins. It land are involved, and considerable has been decided to send Col. William opposition on the part of those having Gorgas, the yellow fever expert of the army, for a conference with Admiral Walker. Dr. Gorgas is an immune, and will go to the isthmus prepared to put into execution the methods adopted by him in Havana, which brought such effective results, yellow fever in that city now being a thing almost unknown.

The administration ic puzzled to know how to deal with San Domingo. Every report that comes from the island indicates the existence there of a state approaching anarchy. If there were a capable government-either regular or revolutionary—the State Department would call upon it to preserve the peace, protect American interests and cause a cessation of the frequent and annoying interference with American commerce. But it is said there is no such government, and the department is loath to embark on a policy of policing the island and chasing small guerrilla bands through the jungle. The whole subject is under serious consideration by the administration, which realizes that foreign interests are looking to the United States to relieve their own governments of the necessity of taking hold in San Domingo. President and Mrs. Roosevelt, Jus-

tice Brewer of the United States Supreme Court, Senator Dolliver of Iowa, the British ambassador and Lady Durand, and many other persons prominent in official, diplomatic and social circles, attended the service Sunday, March 6th, in commemoration of the 100th anniversary of the British and Santa Fe, Frank W. Parker of Las Foreign Bible Society, at St. John's Episcopal church. Justice Brewer and Senator Dolliver was the principal speakers. Dr. Daniel C. Gilman, president of the American Bible Society, presided, and made a few remarks in which he said that during the lifetime of the British and American societies they had circulated 250,000,000 copies of the Bible and parts of the Bible to the nations of the world. Justice ever and always she has striven to national law the parable of the good Samaritan and the Golden Rule.

During the discussion of the Philippine shipping bill in the Senate it was stated that Secretary Taft, recently governor of the Philippines, had expressed a willingness that the proposed law should be enacted in case the tariff on Philippine products was revised. Mr. Patterson accepted the suggestion of a revision of the Philippines tariff as a threat of another raid on sugar and tobacco, and said the friends of the sugar and tobacco industries would resist every effort of that kind by all legitimate parliamentary tactics. He predicted that a bill of the kind, if an administration measure and presented by Mr. Lodge, would receive unanimous support of the Be

Our Porto Rico Trade.

The Department of Commerce an Labor, through its bureau of statistic makes an interesting report upon the growth of commerce between the United States and Porto Rico.

This commerce during the cale year of 1903 amounted to \$22,000,000: in 1897, the year prior to annexat it amounted to \$4,162,912. Of the total \$22,000,000 trade between the ere for domestic products of the United States shipped to Porto Rice, and \$9,000,000 domestic products of Porto Rico shipped to the United States, \$400,000 for foreign products shipped from the United States to Porto Rico, and \$200,000 foreign products shipped from Porto Rico to the United States.

Of the shipments from the United States to Porto Rico, the more impor tant items were bread stuffs, \$1,199, 052; cotton manufactures, \$1,950,803; manufactures of iron and steel, \$1, 156,273, and provisions, \$1,403,634.

Of the articles shipped from Porto
Rico to the United States, brown sugar amount to \$6,813,854, cigars \$1,4

\$314,094 and coffee \$610,982. Porto Rico coffee is growing in favor in the United States, the quantity shipped in 1903 being 5,400,000 pounds, against 1,900,000 in 1902. Porto Rice tobacco is also enjoying increased popularity, the total quantity shipped to the United States in 1903 being 1,268,-000 punds, against 417,000 pounds in

Canal Commissioners.

The President sent to the Senate the following nominations: Chairman of Isthmian Canal Commission, Rear Admiral John G. Walker, U. S. A., retired, District of Columbia.

Members of Isthmian Canal Con mission—Maj. Gen. George W. Davis, U. S. A., retired, District of Columbia, William H. Burr, New York; Benjamin M. Harrod, Louisiana; Carl Edwald Grunsky, California; Frank J. Hocker, Michigan; William Barclay Parsons, New York.

Navy-Commander, Lieut. ander William G. Cutler.

The sommission as constituted is essentially a body of engineers, six of the seven members having distinguished themselves in engineering work. The law under which the comm members should be skilled in the science of engineering. Col. Hecker is the only man on the commission who may be classed as distinctly a business man. He is a man of large affairs and during the Spanish-American war served the government as dire

of transportation. Rear Admiral Walker has been identified with this government's investigation of isthmian canal routes for many years and is regarded as the best informed man in the country on that

subject. The commission, as a body, will go to Panama, within a month. Preliminary work will be begun immediately.

Upon the motion of Solicitor General Hoyt Congressman Robert W. Bonynge of Denver was admitted to practice before the Supreme Court of the United

The statement of the comage executed in the mints of the United States during February shows a total of 13,928,-510 pieces. The gold coined amounted to \$35,603,500; silver, \$1,475,000; minor coins, \$22,350. This coinage includes 3,545,000 pieces for the Philippines government.

President Roosevelt has had several conferences with senators and representatives in the Congress who are interested in the proposition to create new states. It is understood to be the President's solution of the problem that two Lew states be created, one from Oklahoma and the Indian Territory and one from the territories of New Mexico and Arizona.

Senator Gallinger has introd bill increasing the salaries of the executive officers of the government, and also of senators and members of the House of Representatives, The bill fixes the following scale: President, \$75,000; vice president, \$15,000; er of the House of Representatives, \$12,000; members of the cabinet, \$15, 000 each; senators and members of the House, \$8,000 each. The bill provides that the new salaries shall take effect March 4, 1905.

In the United States Supreme Court an order has been issued for the re-lease of John Turner on ball, and setting the hearing of his case by court for April 4, next. Turner i British subject, who was taken into custody upon arrival in New York last October on the charge of being an anarchist and his deportation ordered stituted habeas corpus proceedings in the circuit court. His petition for a writ of habeas corpus was denied and he brought the case to the Supreme Court! It is claimed in behalf of Turner that he is only a theoretical and archist. He came to the United States to engage in lecturing and writing. The application for release on ball partly for the purpose of permit Turner to fill lecture engagement other countries.

The architectural change ms the White House was the subject of discussion in the Senate and was generally criticised as falling far she of the improvements which show have been secured with the \$500.0 appropriation for the pur Gallinger referred to the W

barely announce myself a candidate for the county, commissioner for Roosevelt may, subject to the action of the Democratic E. C. PRICE.

tes such a law.

The restoration of the whipping set for wife beaters and kindred id in the east. Delaware now HIGH-POORISY.

Walter Wellman, the Washington nt of the Chleago Record ferald, and who is, probably closer to Mr. Roosevelt than any other depulican, in writing to his paper with reference to the president's standing with Wall street, says:

It requires genuls of a high order to carry on a little crosade against Wall street and through it gain immense popularity with the masses of the people as the foe of the trusts, and then to turn round and gain the approval and help of a considerable majority of Wall street itself. That is requires a certain amount

of genius to successfully carry on such a crusade, we are frank to confess, but we are equally certain that it manifests the lowest order of hypoerlsy and duplicity that has ever marked an incumbent of the executive office. That, through it he has succeeded in gaining "Immense popularity with the masses of the people as the foe of the truste," but emphasizes the necessity of a national appreciation of the true character of the man who, by dint of accident, coupled with a peculiar freak of fortune, has been thus permitted disgrace the republic and, through false pretense, "gain immense popularity with the masses of the people."

A millionaire by birth, whose wealth consists largely of business properles in the heart of New York City, it is small cause for wonder that his blases and sympathies should be with the class among whom he was reared, and who have been his friends and associates since boyhood; indeed it would seem rather anomalous that he should forsake his lifelong companions and assume the attitude of a friend of the people as against these millionalse trust propagators. That he has done so, nevertheless, is evident from the fact that a strong following has been mustered in his hehalf from the body of the people. That he has now succeeded in gaining "the ayproval and help of a considermajority of Wall street itself" is a strong elecumstance tending to show that Wall street possesses substanreasons for believing that he would 'then turn round" and deliver unto them the fruits of his duplicity

THE ARTESIAN WELL.

There have been many and varied opinions rendered during the past week as to whether or not an artesian flow had actually been found in the prospect well now being drilled at this place, none of which have been proven or successfully controverted. The well men have not, as yet taken the public into their confidence, desiring first to prove to themselves the accuracy of their judgement. Little, if any, doubt has ever been felt by those who have studied the surface indications and geographical location but what ar- first and truly wonderful perfortesian water could be had here at a mance. You will get your money's woodmen Hall over Bank of Portales. Visiting Woodmen Hall over Bank of Portales. Visiting Woodmen Cordially invited.

W. M. Cox, C. C. tions have been extremely favorable up the greatest band on earth-in G. W. CARR, Clerk. and it believed that the drill is now this county. By going, your curion the cap rock which covers the osity will be satisfied; you will see water. The stone is of grey sand what a green band can do in sixty and is identical with that found in days. Your head will swell up with G. E. RAGLAND, Financier. the other artesian well districts.

tive, yet it would be good policy for amateur performance. Popular prices property holders to retain their hold- 15c and 25c. The program will be Preaching morning and evening at ings until further developments. It about as follows: will be a flowing well when you see

INDA HUMPHREY.

The subject of this sketch was born in Southern Indiana in 1965, educated at Patriot high school and moved to Kaufman county, Texas, where he taught school three years. Mr. Humphrey came to Portales in 1901 and embarked in the hardware business. Those who desire to look into his voting record can do so by writing to St. Louis. Should Mr. Humphrey receive the nomination for the office of probate clerk, he will be elected add will make a good officer.

Thirty-eight carriages and thirtysix horses are kept for private use by official subordinates in Washington at a cost of \$30,000 and their thirty 21-Waltz coachman are borne on the "mes- 22-March. senger" pay roll and paid with public money. Thus does Teddy, the great exponent of "sturdy American manhood and uncompromising integrity" live to those high ideals he so industriously prates of.

BANK OF PORTALES,

The Bank of Portales, the oldest financial institution in Portales, sends greetings to the people of Roosevelt county, and wishes a happy and prosperous New Year to all. We are are in a better condition than ever to accomdate our customers, and if you are in search of a safe and conservative institution with which to do business; you can find none better than the Bank of Portales.

Out of the 18,425 banking houses in the United States only about 5,000 are National Banks, and bank statistics show that in proportion to numbers, more National Banks

failed during the past year, than any other kind.

The banking laws of the territory are so framed as to protect the depositor and, under its wise provisions, but

lew, if any, bank failures occur. The Territorial Auditor is compelled, under the law, to visit all Territorial Banks twice a year and make an examination of their condition, and report the same, and the banks are required, by law, to make two reports, thus making four annual reports.

We want your business. Our motto is, "Live and Let Live." Call and see us and be convinced that it will be to your interest to do business with us.

J. P. Morgan Drew a Big Check.

\$121,821 54

J. P. Morgan recently drew his check for \$23,000,000. How much can you draw yours for, with the assurance that it will be paid? If you are not already a depositor with us, you should commence without delay, that you may be able to draw checks. Idle money is as useless as idle men. Take the money you carry in your pockets or keep at home, deposit it with us and let it circulate in the channels of trade. A better friend you will never have than a bank account with The First National Bank of Portales; it puts you in line to get accommodations when you need them; you never know when misfortune will overtake you. You can start a bank account with us with \$1.

Bear in mind, the man who spends all he makes is a slave, and one dollar in bank is worth two in hand. It's the first step in economy to open a bank account and it will be a pleasure to us to have your name on our books. Let the boy or girl start a bank account; teach them the

importance of saving money and the value of a dollar.

Take the first step today towards economy by starting an account with us, and tell the old woman and children to follow, and the first thing you know, the whole family will be riding the waves of prosperity. If you love your family, protect them with a bank account, and remember, the man who does not take care of his money will, sooner or later, bring his family to want. Plan and arrange your business according to your income and make it a point to save something every month. Start an account with us, watch it closely and encourage it with constant deposits. You may have sickness, you may lose your property, you may lose your position, but if you have a bank account with us you are not dependent on the cold charities of the world.

Our Motto is. "Safety First, Liberality Afterward."

BATTAN Co., Buffalo, N. Y. YORKTOWN, ARK., Mar. 1, 1904. Gentlemen:—I have been engaged in the practice of medicine in this section for ten years. This is a very sickly climate, on the Bayou Bartholomew, near the Arkansas River. It is particularly malarious and miasmatic; we meet with many and various abnormal conditions of the human family, prominent among the cases in which I have been called upon to prescribe is kidney disease. Many of these disorders manifest themselves by pains in the back, often extending to other parts of the body; sometimes headache is present, caused by uræmic or chronic uric acid poisoning, soreness in region of kidneys, cloudy, thickened and foul-smelling urine, discharges of pus or corruption; inflammation of the kidneys, extending to the bladder, is caused by excess of uric acid and decomposition of the urine. Hemorrhage is sometimes met with, caused by high state of inflammation or congestion.

There is no class of diseases a doctor is called oftener to treat than the variety of kidney diseases, in many of which the patient will have

the variety of kidney diseases, in many of which the patient will have chills or rigors, followed by fever, a result of the kidneys failing to eliminate the uricacid poison from the system. Such cases require the kidneys restored to their natural functions, then the poison and foreign substances are removed—shock to the nervous system averted, and natural

alth restored.

I have, for some time, been using Doan's Kidney Pills in these many tations and with uniform success, curing most cases. I can further say that even in hopeless cases where they have waited too long, Doan's Kidney Pills afford much relief and prolong life. I can recommend the pills in conditions of excessive or deficient secretion of urine, as also in convalescence from swamp-fever and malarial attacks, as verified by the following cases in my practice.

Thos. Orell, Bear, Ark., age 60.
Pain in back for several weeks, then chills, irregular sometimes, severe rigors followed by fever. Gave good purgative of calomel and padoph, and Doan's Kidney Pills. After taking four boxes of the pills, patient up and enjoying good health for one of his age.

MRS. SHITH, Tarry, Ark., age 29, sother of four children. Had female complaint and kidney trouble, maniest by pain in back and urine irreguometimes very clear, changing ady, and with much sediment anding in chamber. Gave local ment for female complaint and ribed Doan's Pills; after using oxes she regards herself as CASE 3.

BROWN EARS, Wynne, Ark., age 21. Had severe case of mainrial homataria or swamp fever. Gave necessary liver medicine, calomel and padoph, and morph-sulph., Lo sulive pain, and ordered Doan's Pills for the high state of congestion and inflammation of the hidneys. Recovery resulted in two weeks. Prescribed Doan's Kidney Pills, to be continued until the kidneys were thoroughly strengthened and all pain in back subsided.

CASE 4.

EDMAN ELLIOTT, Tarry, Ark., age 34. 'Pain in back and legs and headache. Uric-acid poisoning. Prescribed Doan's Kidney Pills. After taking several boxes pain subsided—urine became normal, or natural, and patient able to resume his work. These are a few of the typical cases in which I have used Doan's Kid-

ney Pills. In a great many instances I use them alone with curative results, while with some others indicated remedies are associated. I believe that by the judicious use of Doan's Pills many serious com-plications are arrested and many hopeless and incurable cases of Bright's disease prevented.

I have often found that one box of the pills is all that is required to effect a cure, but in some cases I continue their use until all symptoms are entirely absent and the cure effectual and permanent. Yours truly,

"Central figure in the 400!" Uncle George gazes in awe. Reembers what the central figure in 100 is. Then says: "By jumps, he looks it!"-Browning's Magazine.

Yesterday morning, says the Albequerque Journal, we copied a statement given out by a Washington correspondent of an eastern paper, to the
effect that the election frauds, through
which Mr. Shafroth lost his seat, ware
mainly the work of women. But Mr.
Shafroth comes gallantly to the defense of his female constituents, and
denies this story very emphatically.
Being interviewed by the Associated
Press in regard to the matter in question Mr. Shafroth said:

"Of the persons implicated very few
were women—not more than one in
ten at the outside. The frauds were
committed in the lowest part of Denver, where not many women live. The
incident was not characteristic of the
women's voting in Colorado, and it is
preposterous to make it an argument
against female suffrage. Everybody
knows there are bad women as well
as bad men; but what would any good
man think if it were proposed to take
his vote away from him begause a few
had men somewhere had sheated at
an election. In Colorado the women
vote as generally as the men, and
fraud is much rarer among them. As
a rule, their election methods are konorable and the influence of women suffrage on the state has been distinctly
for good."

A Physician's Advice-Yorktown, Ark., March 7th .- Dodd's

Kidney Pills must not be confounded with the ordinary patent medicine. They are a new discovery, a specific for all diseases of the Kidneys and have been accepted by physicians only after careful tests in extreme cases. Dr. Leiand Williamson, of this place heartily indorses Doed's Kidney Pills "as a remedy for the various forms of the diseases of the Kidneys, pains in the back, soreness in the region of the Kidneys, foul-smelling urine and cloudy or thickened condition of the urine, discharges of pus or corruption. Gout, Rheumatism, In-flammation and Congestion of the Kid-neys and all kindred complaints." Continuing he says: "I could mention many cases in

which I have prescribed Dodd's Kidney Pills with success. For instance, Mr. Robert Weeks, farmer, malaria, haematuria or swamp fever three times, kidneys weakened, continual pain and soreness in back, which made him very nervous, had a little fever and sometimes chilly. Urine changeable, but generally very highcolored; an old chronic case who had taken much medicine with little effect. After taking Dodd's Kidney Pills about six weeks he was entirely cured and had gained fifteen pounds in weight. The last time I saw him he was the picture of perfect man-

A man must be mighty crooked these days to get into the penitentiary.

Boys Should Work.

J. P. Dolliver, United States senator have your son," pleaded the fair ap from lowa, recently delivered an Brooklyn, filling the pulpit usually occupied by the Rev. Dr. Newell Dwight Hillis.

The senator's subject was "The Republic and the Spirit of Patriotism," and he spoke of the poor boy as the most important factor in the making of the Republic.

"I'm not wasting my sympathy on the children of the poor," he said. "What little sympathy I have I will give to the children of the rich. "If you have \$100,000 and give it to

a boy to start him out in life, he doesn't start. I suggest keeping that hundred thousand and that boy apart; it will be better for the boy, and as the facts seem to prove, better for the hundred thousand."

"The real American type, with its background of poverty, discipline and hard work was characteristic of every President of the United States," he continued, "since Washington, and could have been said of W. J. Bryan if he had been elected."

Russian Press Censorship.

Newspaper work in Russia is not pleasant. The government spends more money on its press censors than on its schools. Last year eighty-three papers were suspended for various periods and twenty-six were forbidden to accept all advertisements, while 259 editors were told they could have a short vacation in Siberia if they continued their methods of reviving various public questions.

ON A RANCH.

Woman Found the Food That Fitted Her. A newspaper woman went out to a Colorado ranch to rest and recuperate

and her experience with the food probably is worth recounting. "The woman at the ranch was preeminently the worst housekeeper I

have ever known-poor soul, and poor "I simply had to have food good and plenty of it, for I had broken down from overwork and was so weak I could not sit up over one hour at a time. I knew I could not get well un-

less I secured food I could easily di-

gest and that would supply the greatest amount of nourishment. "One day I obtained permission to go through the pantry and see what I could find. Among other things I came across a package of Grape-Nuts. which I had heard of but never tried. I read the description on the package and become deeply interested, so then

and there I got a saucer and some cream and tried the famous food. "It tasted delicious to me and seemed to freshen and strengthen me greatly so I stipulated that Grape-Nuts and cream be provided each day instead of other food, and I literally lived on Grape-Nuts and cream for

two or three months. "If you could have seen how fast I got well it would have pleased and surprised you. I am now perfectly well and strong again and know-exactly how I got well and that was on Grape-Nuts that furnished me a powerful food I could digest and make use

"It seems to me no brain worker can afford to overlook Grape-Nuts after my experience." Name given by Postum Co., Battle Creek, Mich. Get the miniature book, "The Road to Wellville" in each pkg.

IOW TWO BEAUTIFUL WOMEN ESCAPED DREAD GATARRH BY USE OF PE-RU-NA.

Catarrh Robs Women of Health and Beauty. Pe-ru-na Makes Women Healthy and Beautiful. Miss Amarits Johnson, Fairchild, Wis., writes:

"I write to tell you haw much Perusa benefited me. For a number of years I had pain in my head around my eyes, and I thought it was because my eyes needed treatment, so I went to an occulist and had glasses fitted to my eyes and wore them for some time, but felt no relief whatever. In fact, I felt worse than before, and came to the conclusion that the trouble was not with my eyes, but with my head and that it must be catarrh. As so many of my friends had used Peruna with benefit for this trouble, I thought I would try it. I was not sorry that I did so, for in a short time I began to improve, and in four weeks my eyes were in splendid condition, my general health was much improved and all the catarrh of the head was gone. I was glad to get rid of this trouble and am glad to endors such a good medicine as Peruna."—Miss Amanda Johnson.

Miss Flora Hauser, 1032 S. New Jersey Street, Indianapolis, Ind.,

writes:

"I think I must have been troubled with catarrh ever since I was very young, aggravated each time I caught a cold. This did not prove sufficiently serious to be obnoxious until last winter. Then my head and nose were so stopped up that I felt I must do something. Peruna was recommended to me by a friend. I used it for four weeks and found to my relief that it cured me, I have not had a bit of trouble since. My head is clear, and I can safely affirm that Peruna cured me."—Miss Flora Hauser.

Hundreds of Women Cured by Pe-ru-na of Annoying Catarrh.

DR. HARTMAN has probably done more than any other physician toward popularizing a means of sscape from the facial deformities, such as watery eyes, twisted nose, offensive breath, dry cracked lips, due to the rav-aging effects of catarrh.

He has made chronic catarrh a life-long

Peruna, is the most famous remedy for catarrh in existence.

Probably there is not a man or woman, boy or girl, within the bounds of the United States that has not heard of Peruna. By far the largest majority have used Peruna.

The multitude of people that have been cured of chronic catarrh by using Peruna can sever be known.

Many a girl has regained her faded beauty, many a matron has lengthened the days of her comely appearance by using Peruna.

Peruna produces clean mucous membranes, the base of facial symmetry and a perfect complexion.

The women have not been slow to discover that a course of Peruna will do more toward restoring youthful beauty than all the devices known to science.

While it is true that Peruna cures catarrh wherever legated, yet it is advisable for everyone to use Peruna as a preventive and not wait until catarrh

COSTIVENESS

As a matter of fact there is only one disease, although its manifestations may be various, and there is only one cause for it and that is the retention of waste matters in the system. An eminent physician says: "A large number of the American born suffer from constipation from the time of the diaper until death."

Here lies the secret of all disease: The effete material must be regularly removed or good health is an impossibility.

WHEAT FLAKE CELERY

DESPERATE FIGHT AT PORT ARTHUR LEADS TO RUMORS OF EVACUATION

Reports gained currency both in New York and in the East that the Russians had decided to evacuate Port Arthur. Shanghal heard from Tokio that the evacuation practically had taken place and that the town was in flames. Russians were prompt to deny the report, adding that Port Arthurwas not evacuated and would not be under any circumstances. From Port Arthur itself came this message: "All is quiet here." That the rumor is baseless is evident, not even the most enthusiastic pro-sapanese here or abroad appearing to give the slightest credence to it. Vice Admiral Togo's report to Tokio of his bombardment on Thursday and the accompanying sea fight proved the engagement to have been one of the most desperate in which warshaps have taken part. Great courage was

displayed on either side, especially in the close range work of the torpedo craft, and there is no doubt serious damage was inflicted, both on town and the Russian fighting craft inside the harbor. The vice admiral's report contra-dicts the reports from the Russian side. The fifth week of the Japan-Russo war was marked by bembardments beginning with the sudden appearance

of the Japanese fleet off Vladivostock Sunday. There was no eply to the savage attack upon the fortifications, probably due to a lack of ammunition, which had been sent to Port Arthur. One woman was killed and several persons wounded during the bombardment. The Russian fleet was absent from Viadivoetock, and ofter the Japanese departed it was reported and gener-

ally expected that a great havel battle had been or would befought. No confirmation of this has come thus far. Several combardments of Port Arthur, beginning with a attack Tuesday on that fort and Dainy, culminated Thursday night in a battle between the Russian torpedo flotili and Japanese torpedo destroyers encountered in the Liatschin strait. One vessel was sunk on each side and thre must have been considerable loss of life. This was followed by a severe bombardment of the birbor Friday, in which there was some loss of life,

two women in the town being among the victims.

Meantime Japanese troops are reported at various poins west of the Yalu and the Russian forces are being held at Harbin to swalt the enemy. than to await the enemy.

In Korea there has not been the expected battle, bussmall skirmishes between scouting parcies are reported.

It is believed a great engagement may be six weeks in the uture. The international situation is better. Russia has waned China that she will be held responsible if her troops are not kept in check.

One of the features of the week was the order by Pesident Roosevelt that Americans in the civil and military

branches were to avoid any action or utterance that woul give offense to either Japan or Russia. The departure of General Kuropatkin from St. Petesburg for the front was marked by a great demonstration.

Damage at Port Arthur.

New York, March 13-The Herald publishes the following from its correspondent:

Che Foo, March 12-3:55 p. Eastern Time.—Captain Hale of the British steamer Foxton Hall, which nas arrived here from Port Arthur, states that he was there when the one hour. The attacking fleet came from the direction of Talien Wan. Owing to the distance of the attacking veszels, he says, their early firing did no damage. A signal was immediately given by the forts to prepare for the attack. The Novik weighed anchor and proceeded outside the harbor, but after she had been struck twice in the stern, she retired and returned to the naval anchorage. The other Russian vessels took no part in the combat. but allowed the forts to do the work. After a quarter of an hour only one fort remained active, the other maintaining a complete silence. It is reported that in this fort two guns were disabled. One shell struck a mud dredger, which sank, but the others fell into the harbor, causing no damage. General Volkoff's house was completely demolished and two guards Russia has fleets at Kronstad on the Gulf of Finland and at Odessa and Sevatopol in the Black Sea. To obtain Dassage for the Black Sea fleet through the Dardanelles would relieve the big mored ships Kriaz Potenkine and Tavritchesky, 12,500 tons; Ekaterina and Rostislav, about \$000 tons each; ten freedo atchers, and about twenty-five torpedo boats, a force which would turn to vital question of the command of the sea in the Far East in favor of Russi To drop down the Gulf of Finland from Kronstad, cross the Baltic, pass thigh the channel and across the Mediteraness Sea to the mouth of the Suez Cal with the many delays of traffic and the weather would require almost two wis. The run from the Black Sea ports could be made in as many days. After It Said the route of the fleets would be the same. The harbors of the Gulf of inland are ice-bound. As time would be Russia's greatest ally, to secure t release of the fleet would mean freedom of the sea usain for her in Japanese wirs. In the picture are shown the forts which guard the heights of the Danelles. In the map the route of the Black Sea: fleet is shown in the dotted lined the home squadron in a heavy line. were killed by a bursting shell. The Japanese losses are unknown. The Russians are constructing new forts at the land entrance to Port Arthur. Several thousand Chinese laborers are working on these forts. A refugee from Port Arthur reports that the Retvizan. the Czarevitch, the Pallada and the Bayan are under repairs in the naval dock. The rest of the fleet is anchored west of the harbor.

Ovation to Kuropatkin.

St. Petersburg, March 13.-General Kuropatkin, accompanied by his entire staff, left here last evening on a special train for the Far East, where he will take command of the Manchurian army. The departure of the general was

marked by demonstrations of patriotism and personal regard such as seldom have been witnessed in the Russian capital. Thousands of persons who lined the Nevsky Prospect and at Liao Yang, but he did not reveal the approaches to the Nicholas railroad station vied with the highest personages in the empire, including the principal military authorities, members of the Imperial Council, news The first edict of General Ku- military attaches, members of the French embassy and sons prominent in society, who had assembled inside the station, in giving vent to expressions of confidence in the new commander who is to lead the

He was accompanied by Cleofues Romero, sheaff of San Miguel county, at whose home he will stay until his recovery. Dr. Besmarais is a prominent physician of Santa Rosa and division physician for the Santa Fe railway. At the time of his attempt at self-destruction he was suffering from temporary

> In the Inited States Court at Santa of transgressing the Edmunds act, was acquitted and discharged. The case was of unusual interest, having been twice before the territorial Supreme Court. It was tried in the United States District Court in 1901, and a verdict of stilty was given. An appeal was taken to the Supreme Court, and the verdical of the lower court was affirmed. A schearing, however, was granted, the case reversed and remanded to the wer court for a new trial, which has just been decided.

> It is beginning to look bright for single statehood for New Mexico. The political wind is veering in Washing ton in favor of giving to New Mexico what she fully deserves and is entitled to, by right, by population, by wealth. by ability to support a strong, stable and efficient state government and by the treaty of Guadalupe Hidalgo. New Mexico has a much stronger case in this respect than any state that has been admitted to the Union since 1850. A state government was guaranteed to it by solemn treaty between this country and Mexico, and the Congress of the United States is morally bound to carry out this treaty stipulation .--Santa Fe New Mexican.

Douglas Wilson Johnson, lately of the University of New Mexico and Co. tion is prepared, it ought to be sent to lumbian University, now an instructor in the geological department of the Massachusetts Institute of Technology, has written a remarkably interesting (for a technical work) and apparently a remarkably thorough paper on the "Geology of the Cerrillos Hills of New Mexico." The paper is reprinted from the School of Mines quarterly of Columbia University, where it appeared in serial form and goes with great detail into the general geology of the region around Cerrilios and Madrid in Santa Fe county known to geologists all over the world as the Cerrillos hills. Thorough attention is also given to the paleontology and petrography of the region. The work is thoroughly illustrated with photographs, charts and disgrams and will be of the greatest value region of which it treats. Mr. Johnsen was assisted in his field work by E. Dana Johnson, lately of the Morning Journal staff, and by Dr. W. G. Tight, president of the university.

Day for Planting Trees. Following is the text of Governor Otero's Arbor Day proclamation: Executive Office, Santa Fe, N. M.,

March 11, 1904.

Whereas, Under toe laws of the territory of New Mexico, the second Friday of March in each year is designated as Arbor Day, to be observed by the public schools, their officers and teachers in the territory, but that the actual planting, of trees may be done on such other and more convenient time as may be best to conform to the local climatic conditions:

Now, therefore, I. Miguel A. Otero governor of the territory of New Mexo, in pursuance of said law, and by virtue of the authority in me vested. quest from C. A. P. Gardiner of New do hereby designate and proclaim Fri-Orleans to be put in communication day, the 25th day of March, 1904, as with mule raisers in New Mexico as Arbor Day, to be observed by all the he desires to purchase 200 mules public schools of the territory as such by the planting and setting out of trees and shrubbery for the beautifying and adornment of public school grounds and places, or in the streets or private homes of citizens of the communities of the territory; and the county superintendents of the several counties throughout the territory are admonished to give particular care and attention to see that the same is observed by the school children under their charge, in order that not only they may derive the benefit and pleasure which such observance will give, but that those who come after them may share in the same.

Done at the executive office, this. the 11th day of March, A. D. 1904. Witness my hand and the great seal of the territory of New Mexico.

MIGUEL A. OTERO. By the Governor:

J. W. RAYNOLDS. Secretary of New Mexico.

Terms of City Officials. The following is the new legislation

concerning the municipal elections in New Mexico. "Hereafter in the cities, the term of

office of mayor, clerk and treasurer shall be two years, the term of office of the aldermen of the council of offices shall be two and four years, and the terms of office of members of the board of education of cities shall be two and four years,

"The qualified electors of cities shall on the first Tuesday of April, 1904, elect one mayor, one clerk and one treasurer for the term of two years, and two aldermen of the city council from each ward, one of whom in each ward shall be elected for the term of two years, and the other for the term of four years, and shall elect two members of the board of education from each ward, one of whom in term of two years and the other for four years. And on the first Tuesday of April, 1906, and each two years The Pueblo Indians must pay taxes thereafter the qualified voters of cities shall elect one alderman and one member of the board of education from each ward, who shall hold their offices for the period of four years. The provisions of this act shall apply to Judge Frank W. Parker in the case of all cities in the territory, whether incorporated under general or special

Money for New Mexico.

The Indian appropriation bill which be unable to give title to their lands. has passed the House of Representatives, includes the items to build a girl's dormitory at the United States Industrial school at Santa Fe to cost \$25,000, as well as the item of \$50,-000 to improve the Indian school and plant at Albuquerque.

The chances now are that these two items will stick in the bill through the Senate, and this will prove quite a triumph for this section of the coun-

Besides these the bill contains an appropriation for a large sum of money for day schools at the different pueblos, and irrigation projects in the territory, and for the support of the Navajos and other Indians. Delegate Ro-Fe, March 10th, Benito Greigo, accused dey helped very materially in getting these latter items made quite large, and has the assurance of the Indian office that New Mexico will not again be cheated out of its share of these funds,

as it has been for many years past. The Zuni irrigation project will be finished, if possible, within two years, and this will involve, before it is done, probably an outlay of \$150,000 .- Albuquerque Journal.

Mistakes in the Map.

Delegate B. S. Rodey has discovered that the new map of New Mexico is not entirely perfect. The criticism of father died at Pulaski, Tennessee, the press has reached him and he has to-day, aged eighty-nine years. Mr. been quick to act, as is shown by the following letter to the chief of the

March 7, 1904. Hon. Frank Bond, Divison Chief, died. Land Office, Washington, D. C. Dear Sir:-The enclosed is a pretty severe criticism of the new map of New Mexico. I, of course, didn't have time to notice that there were so many errors on it. They are largely errors in spelling, and I consider the map in

other respects a splendid one. I think you had better file this and when the next proof of the next edisomebody in New Mexico, say an expert in the surveyor general's office: there, for correction in spelling, etc.

Very truly yours, B. S. RODEY Delegate in Congress from New Mex-

A Santa Fe dispatch says that Elias Brevoort, one of the oldest residents of the territory, having come to Santa Fe in 1845, died several days ago at the Victoria hotel, Salao, Mexico, where he had been for the past five months on account of ill health.

The contest case of W. H. Fritchman manager of the Santa Fe Water and Light Company vs. John L. Zimme man which involved the tract upon

Opposing Joint Statehood.

A Santa Fe dispatch to the Denver Kepublican March 8th says: The Republicans have thus far held seven county conventions, and six of these, those of Santa Fe, San Miguel, Sandoval, Chavez, Mora and Taos, have de clared unequivocally for statehood for

It seems certain now that the territorial convention at Las Vegas on March 19th will pass strong resolutions against the proposed jointure of New Mexico and Arizona. Republican and Democratic newspapers alike are one after the other coming out against the proposed consolidation of the two

territories. Of those which have expressed themselves thus the leaders are the Santa Fe Daily New Mexican, Carlsbad Argus, San Marcial Bee, Socorre Chieftain, Roswell Daily Record, Raton Reporter, Raton Gazette, El La brador, New Mexican Review, El Nuevo Mexicano, El Tiempo, La Bandera,

Governor Otero, J. W. Raynolds, Sol omon Luna, and other Republican leaders express themselves strongly for single statehood and assert that if an election were held to-day the joint statehood proposition would be over-whelmingly defeated by the voters of New Mexico alone.

A later dispatch adds: Reports from three more Republican county conventions, making a total of eleven held thus far, show that not one has declared in favor of joint state hood, while eight have adopted em phatic resolutions in favor of statehood without Arizona being joined to New Mexico. The action of the territorial Republican convention at Tucson in declaring, emphatically, its preference for a territorial form of government to state government with New Mexico, has made the Republicans of this territory, and most of the Democrats, more determined than ever to reject the offer of joint statehood.

New Mexico Grape Juice.

Every member of the House com mittee on agriculture is asking other #mmitteemen what they think of Delegate Rodey's bottles, says the Washington Post. A few days ago the delegate received from New Mexico a case of grape brandy, about 160 proof: He distributed the bottles among various committees of Congress, with which he has to do business. Each bottle was labeled: "This was raised from grapes imported from Valencia, Spain, eighteen years ago." But there was nothing to show whether grape brandy or grape wine reposed within. The House agriculturists took it for grantd that it was wine.

Each man, however, was quickly convinced to the contrary on taking a stiff drink of the stuff. The first man simply batted his eyes, shed coplous tears, and passed the bottle on in silence to the next member of the committee. Before the bottle went the round of the long committee table more tears were shed than as many temperance women could have mus tered, had they been able to witness the remarkable consumption of intox-

But the House agriculturists are curious to know what kind of an experience the territories committee and other favored committees had with Delegate Rodey's brandy bottles.

Serious Drouth Conditions.

The snowfall bulletin issued March 9th by the weather bureau for New Mexico holds out little hope of irrigation water for the crops this year. It

SAYS:

The drouth continued throughout all parts of the territory. On the highest mountains of the north there was but little snow lying on the ground on the last day of February and this only on north and west sides. Generally east and south sides were bare. What little snow there is in the mountain canons is well packed, but quite insufficient to insure the usual water supply.

As there is practically no snow in the Mogolion, Black range and Sacramento mountains many streams are almost dry, which is very unusual at this season. All reports indicate that stock is as yet in very good condition, but the old grass will soon be gone and moisture is needed to make new grass. Nearly every one of the weather bureau's local observers consider the outlook very unfavorable.

An Albuquerque dispatch of March 14th says Mrs. W. B. Childers is in receipt of a telegram from her busband, United States Attorney W. B. Childers, for New Mexico, that the latter's aged Childers received word & few days age that his father was dangerously ill. He left at once for Pulaski and reached his old home the day before his father

United States Deputy Marshal Baca has been the busiest man in the two territories since his appointment two weeks ago by Marshal Foraker. He has made at least eight arrests and if in American sentiment, the peop be keeps up his present gait will make there realizing the danger of support has made at least eight arrests and if record for himself. He and Marshal Foraker have been friends of twenty years' standing and when the vacancy occurred by the resignation of Fred Fornoff, Marshal Foraker appointed Mr. Baca, knowing him to be an excellent officer and a man of high character.-Albuquerque Journal.

An Albuquerque dispatch of March 10th says: The name of the sheep herder killed in the San Mateo mo tains several days ago is Pedro Alva-rez, and Jose Alarcca, also a sheep rez, and Jose Alarcon, also a sheep herder, is raid to have killed him. The men quarreled over the branding of a stolen sheep and bitter words passed. In some instances do stolen sheep and hitter words passed between them. Finally both grabbed for their guns, but Alarcon was the quickest and sent a bullet into one head of Alvarez. Peath resulted in about an hour after the shooting. The mur-derer used a 45-caliber revolver. The shooting took place in a valler of the man which involved the tract upon which one of the large reservoirs of the company is situated, was decided at Santa Fe in favor of W. H. Fritchman by Register M. R. Otero and Receiver Fred Muller. The contest will be taken to the land office in Washington by appeal.

BALFOUR BEATE

NATIONALISTS JOIN LIBERAL

Government Defeated on Irish Sch Question.—Rally Secures Majority of Twenty-Five.

London, March 16,-Premier four's government yesterday was leated in the House of Commons the combined Liberal and National vote. The reverse was due to the pr hibition by Mr. Wyndham, chief secretary for Ireland, of the teaching a Gaelle in the junior grades of the Iris

Mr. Balfour, though defeated by majority of all on this question, do not regard the vote as one of want of confidence, and he will not resign of this account. His determination, no this account. His determin to resign was strengthened by the fathat shortly after the foregoing defe he was able to secure a majority twenty-five.

The failure of the government carry the House with it on a que of purely administrative policy Irish departments, is generally admit-ted to greatly weaken its already wan ted to greatly weaken its already waning prestige with the country, although
it is not thought probable that any
immediate developments will ensue.
In the House of Commons itself, to
use the words of a prominent member
of the opposition, "all the artillery in
the government arsenals would not

make them surrender office!" The Associated Press learns that Premier Balfour regards it as one of the essential principles of his party to hold on to the reins of government for the present, at any rate. What he may do after Easter still remains in he may do after Easter still remains in doubt. The blow administered yesterday makes the premier's task of holding his party together doubly difficult and many supporters of the government frankly said to-night that they favored an early dissolution of Parliament rather than again undergo the

humiliation experienced yesterday. "Those Terrible Irish" as they described for the moment by the ionists, were engrely responsible for Mr. Balfour's defeat. On the question of Catholic education; Monday night, the Nationalists had voted with the Unionist government, but even while so doing they were planning the downfall of the Conservatives. Yesterday afternoon the mine so ingeniously laid was set off with a success that thrilled the country. The strategy with which the whole coup was planned and the scenes that marked its culmination re-called the times when Gladstone and Parnell waged a titanic struggle in the ваше вгепа.

Greeley Electric Line

Denver, March 15 .-- A Greeley sp cial to the Republican says: Thirty miles of survey have been practically completed on that portion of the Greeley & Northern Railway and Utility Company, better known as the with the Burlington railroad at Idaho creek junction. The surveyors have taken side notes, making progress at the rate of fourteen miles per day, which is a record-breaker in this line of work and indicates that the country traversed offers but few obstacles in the way of bridges, culverts, deep

cuts or fills. Estimates are not quite ready, hence it has not been decided over which of two routes the road will be construct-2d. One route follows St. Vrain creek, the other the Little Thou and thence to the Highland lake country. Each route has its advantage The former has an easy grade.

latter traverses a fertile district. Farmers in the B. B. Lockard and Thomas Howlett neighborhood, on the St. Vrain, will hold meetings this week and offer inducements to the builders of the road in their locality. The Highland lake farmers met last week for the purpose of attracting the road to their country. George H. Sethman of Denver property manager of the of Denver, general manager of the road, is in Chicago. He will return in a few days, when the route will be determined and grading begun.

Russians Becoming Pacified.

St. Petersburg, March 16 .- Prestdent Roosevelt's recent proclamation regarding the observance of neutrality by all officials and the abs from either action or speech which might cause irritation to either Japan or Russia, has produced a great im pression here. The newspapers this morning print prominently article commending the substance and spirit of the proclamation in the his

Further mar festaflence fahrene. aption existing in the po-tolice department i oder Republican inis-ruie developed in the house of representatives on the 9th and 11th of this onth, amid scenes of wild disorder. intensified by a spirit of desperation characteristic of those who are apprehended in and forced to explain the manner of their wrongdoings. Many honorable (?) gentlemen were. so to speak, caught with the goods, and their explanations were forceful and, in several instances, hisirionic, and were complete in every sense, save that they failed to explain. The language employed was, to say the least, rather tropical, abounding in denunciation, villification and in counter accusations. The attempted vindication of themselves was successful only to the extent that it tended to incriminate others. Indeed, it seems that the report of General Baistow, the fourth assistant postmaster-general, while successful in directing the public attention to the spirit of graft pervading congress, incidetally acted as a boomerang, and has the calcium of publicity upon the official malfeasance reeking in that department. We have no inclination to protect or shield the members of congress implicated, no matter to which party they belong, but we insist that the people have the right to demand a complete investigation of the frauds committed by and in the postoffice department. That the former investigation was a superficial affair is apparent to anyone who has kept posted upon current events. As far as it went, it was productive of great good, but that it stopped at a point where, had it proceeded, it would, doubtless, have inculpated the "blood royal," is evident to every impartial observer. The impression that Postmaster-General Payne is the arch flend of the whole Mephistophelean aggregation is not lessened by the fact that he, when apprised of the crimes of First Assistant Postmaster-General Perry S. Heath, "just laughed." However, in view of the highly perfected system. of graft which seems to stigmatize the department, and the accomplished state of proficiency with which long practice has endowed its higher officials, permit us to point out to the Republican party that it may amount to a sin of omission upon their part should they overlook the claims of the postoffice department for eligibility as the presidential nominee of that party. Surely no one can be found who can surpass these gentlemen in official rottenness and, therefore, we know of no one more fittingly qualified to be the standard bearer of the Republican

B. J. REAGAN.

B. J. Reagan, the subject of this sketch, and who is a candidate for county treasurer and tax collector before the coming Democratic primaries, was born in Jacksboro, Texas, and moved to Portales in October, 1901. Since his residence here he has earned the confidence and good will of the people, who recognized in him a man of sterling integrity and sound business ability. He has always been a Democrat, true and unyielding in his convictions, and ever reany to do anything in his power to advance the interests of the party. If nominated for the office to which he aspires, the people will have no occasion to regret their to the timber land every week. selection. It is to such men as B. J. Reagan that a new country is in- day that everybody went to Sundebted for its development and for day School. its civilization.

President Roosevelt, Governor Otero, Territorial Secretary Reynolds and Chief Justice Miller have declared for joint statehood with Arizona, but this was done before these gentlemen had been served with a copy of the resolutions adopted by the Republican county central committee of Roosevelt county, in which they peremptorily demand single ling steers to J. E. Brown, who statehood. Now, of a verity, will moved them to his Frio ranch. Teddy, Otero, et al, have to rightabout face and get their statchood opinions on straight.

Newspapers which prate of their iberality in donating to public institutions should tell the truth about seekers took a good look at Texico what said dons ion consisted of. BANK OF PORTALES,

The Bank of Portales, the oldest financial institution in Portales, sends greetings to the people of Roosevelt county, and wishes a happy and prosperous New Year to all. We are are in a better condition than ever to accomdate our customers, and if you are in search of a safe and conservative institution with which to do business; you can find none better than the Bank of Portales.

Out of the 18,425 banking houses in the United States only about 5,000 are National Banks, and bank statistics show that in proportion to numbers, more National Banks failed during the past year, than any other kind.

The banking laws of the territory are so framed as to

protect the depositor and, under its wise provisions, but few, if any, bank failures occur.

The Territorial Auditor is compelled, under the law. to visit all Territorial Banks twice a year and make an examination of their condition, and report the same, and the banks are required, by law, to make two reports, thus making four annual reports.

We want your business. Our motto is, "Live and Let Live." Call and see us and be convinced that it will be to your interest to do business with us.

Stop and Think...

Before you purchase your tickets for points north, east,

The Southern Kansas Railway, of Texas,

Is the only direct route to Kansas City, Chicago, St. Louis and points beyond, and

The Pecos Valley Lines

Penetrate the heart of the far famed Pecos Valley, justly reputed to be the finest fruit growing district in the United States, connecting closely at Pecos. Texas, with the Texas and Pacific railway, for El Paso and all points in Old Mexico. All of our trains make close connection at Amarillo with the Fort Worth and Denver City railway, trains both north and south, eliminating the necessity for stop overs enroute for passengers traveling over that line.

Write your friends in the east to ask their local railway gents regarding homeseeker's rates to the Panhandie and Pecos Valley, via the Santa Fe System.

A full line of descriptive literature of the Panbandle and Pecos Valley always on hand, which may be obtained free by

Amarillo, Texas.

J. P. Morgan Drew a Big Check.

J. P. Morgan recently drew his check for \$23,000,000. How much can you draw yours for, with the assurance that it will be paid? If you are not already a depositor with us, you should commence without delay, that you may be able to draw checks. Idle money is as useless as idle men. Take the money you carry in your pockets or keep at home, deposit it with us and let it circulate in the channels of trade. A better friend you will never have than a bank account with The First National Bank of Portales; it puts you in line to get accommodations when you need them; you never know when misfortune will overtake you. You can start a bank account with us with \$1. Bear in mind, the man who spends all he makes is a

slave, and one dollar in bank is worth two in hand. It's the first step in economy to open a bank account and it will be a pleasure to us to have your name on our books. Let the boy or girl start a bank account; teach them the importance of saving money and the value of a dollar.

Take the first step today towards economy by starting an account with us, and tell the old woman and children to follow, and the first thing you know, the whole family will be riding the waves of prosperity. If you love your family, protect them with a bank account, and remember, the man who does not take care off his money will, sooner or later, bring his family to want. Plan and arrange your business according to your income and make it a point to save something every month. Start an account with us, watch it closely and encourage it with constant deposits. You may have sickness, you may lose your property, you may lose your position, but if you have a bank account with us you are not dependent on the cold charities of the world.

Our Motto is. "Safety First, Liberality Afterward."

RUN OVER THE CASING AT 9:15 P. M.

The Citizens Celebrated the Flow with the Firing of Anvils, Shouting, Etc.

Wednesday night of this week, at exactly 9:15, the water began flowing over the top of the casing in the artesian well. There were several citizens present, and they soon spread the glad tidings. A crowd rapidly gathered, whose enthusiasm knew no bounds, and anvils, horns, and divers and sundry other noise producing instruments were pressed into service. The pressure was not great, but was sufficient to raise the water to the top of the casing, a distance of about three feet above the surface level, and flow a small stream. The work so far done amply proves the existence of artesian water underlying Inland Valley, and striking this light flow at the surprisingly shallow depth of 300 feet, indicates a gusher as the result of further work. The well drillers are now replacing the rotary machinery and will push the work to a country. In consequence of this the successful conclusion at once.

The Band Concert.

The band concert is over. The curious and music loving people of our city througed the avenues leading to the hall last Thursday night, bent on getting back seats. All the small boys bravely marched to front seats and sat down. Sprecial trains ran from Elide and Texico. The stage was tastefully decorated, as usual, and exits in the rear provided ample opportunity for the graceful, if hurried, retreat of performers whose reception was over enthusiastic. A

few ladies in the audience wore their Easter bonnets but the band boys played with bare heads and bare fists. However, after the audience became adjusted to the situation following program was rendered in road Friday. a manner highly creditable to the boys and complimentary to their in-

veals some curious facts. Canada reaped the greatest wheat crop ever grown in the Dominion. Australia, on the other hand, had to endure the worst of all the disastrous droughts it has known, and the grain harvest was nearly ruined, and many millions of sheep, with thousands of cattle, per ning kind,

Philippine Coast Line. A geographical magazine makes the statement that the Philippine islands have a coast line double that of the main part of the United States. The measurement given is 11,444 statute miles, while the total area is stated as 115,026 square miles. In the Philippines there is one mile of coast line to every ten miles of area; in the United States the proportion is one to 555. It is said that 3,000 islands and islets can be counted on the charts.

The inhibitory measures of Germany against the importation of American cattle and meat products have greatly advanced the price of meat in the consumption of fresh, dried and salted fish has largely increased, A Hamburg company has opened a depot and packing houses at Matarien-Menzalen, Egypt, for the curing and shipping of eels caught in the Nile and affluents.

Temperance in Japan. The temperance movement which began in Japan in 1873 with a society of foreign residents of Yakohanta, has grown until now there are forty-six of these societies united in a national temperance league. The league represents 3,617 members. As a result of their agitation a hill has been passed prohibiting the use of tobacco by children under twenty years of age.

To Protect Rueslan Grain-The produce exchanges of the Russian Black sea ports-Odessa, Nicholaiev and Rostoff-intend to locate agents at the ports of Hull, London, Rotterdam, Antwerp, Hamburg and Marseilles for the purpose of watching the arrivals of Russian grain cargoes and frustrating the fraudulent practices which have brought Russian

Electricity in Indian Palaces The wealthy Zemindars and Mahars iahs of India are using electricity very largely for the lighting of their palaces. Body Found on the Yukon With Half and 8kin Intact.

The complete form of a mastodon has been discovered at Hillside, on Quartz creek, according to a dispatch received by the Seattle Post-Intelli-gencer from Dawson, Y. T. It was mbedded thirty-eight feet in the earth when found, and it necessitated the use of a steam thawing plant to un-

COMPLETE MASTODON.

earth the immense animal.

The hair and skin of the beast are in a perfect state of preservation, al-though the fiesh is somewhat decomposed and the big tusks, which remain astened to the skull, are in good condition. It is estimated that the skeleton is worth \$50,000, as there are but one or two of them in existence in as good condition as this. The mastodon was discovered buried in an old channel well in the zone of almost perpetual frost, which accounts for its good preservation.

Few Negroes in France.

With a population of about 2,500,000 Paris has fewer than 100 negroes within its limits. It is claimed that the colored population of all France is less than 550.

This is Miraculous.

Manhattan, Kans., March 14 .- One of the strangest cases that has ever been heard of in Riley Co. is that of the three-year-old daughter of Mr. Jonas Brubaker of this place. Some time ago the little girl took

whooping cough, which was followed by pneumonia. When the pneumonia left her, she was taken down with malaria fever with at times symptoms of Spinal Meningitis.

The family doctor brought her safely through these troubles, but after the fever Bright's Disease set in and the doctors gave her up. Her father tells the rest of the story:

"We began to give her Dodd's Kidney Pills and after she had taken about three and a half boxes, she was entirely cured. Now she is well as any child, running and playing as if nothing had ever been the matter with her. The doctors said she was beyond the reach of medicine. Dodd's Kidney Pills certainly saved our little girl's life, when she was so far into the chronic stage of Bright's Disease that we thought nothing could

"Look at those jolly young people over there. Are they in love?" "Dear no! Why, they've been married two

80 Su. Macaroni Wheat Per A. Introduced by the U. S. Dept. of Agr. It is a tremendous cropper, yielding in good land 80 bu. per acre, and on dry, arid lands, such as are found in Mont., Idaho, the Dakotas, Colo., etc., it will yield from 40 to 60 bu. This Wheat and Speltz and Hanna Barley and Bromus, Inermis and Billion Dollar Grass, makes it possible to grow and fatten hogs and cattle wherever soil is found. JUST SEND 100 AND THIS NOTICE

to the John A. Salzer Seed Co., La Crosse, Wis., and they will send you free a sample of this Wheat and other farm seeds, together with their great catalog, alone worth \$100.00 to any wide-awake farmer. (W. N. U.)

Perhaps the good die young because they are so lonesome.

Defiance Starch should be in every household, none so good, other brand of cold water starch.

CULTURE OF THE OYSTER.

After many years of persistent effort science seems to have conquered the art of propagating artificially the delicious oyster. What part of the money usually coined from propagating trusts has been diverted into this use ful channel is not known, but certainly New Jersey deserves praise for the innovation.

Professor Julius Nelson, biologist for the State Bureau of Shell Fisheries, which has only been in existence a few months, has worked out a method of producing and propagating oyster germs or seeds, and the process seems to be quite simple as well as very interesting.

shifter preparing a sufficient quantiof spermatized water, a few minutes suffice to complete the fertiliza-The water is then drawn off and put into clear water, the operation being repeated several times. The zone occupied by the eggs is soon seen and in about an hour, at a temperature of eighty degrees, the development of the eggs begins.

In a few hours the eggs have so developed that they show positive signs of life, and then they are let into a tank, covered with sand, and exposed to every high tide. Thus, step by step, through processes known to fish hatchers, a young oyster bed is formed. which may be extended indefinitely. One bucketful of spawn, it is said,

would supply all the material a man could use for extensive planting, and if Professor Nelson can turn the tide of New Jersey enterprise so as to raise oysters artificially instead of trusts, he will have done the world a great service.—Boston Globe.

THIN DIET.

No Nourishment in It. It's not easy to keep up when coffee has so ruined the stomach that food won't digest,

A Mo. woman says: "I had been an invalid for two years from stomach trouble caused by coffee, got so bad I couldn't digest food and for quite # while I lived on milk and lime water -nothing but that-a glass of milk and lime water six times a day. In this way I managed to live, but of course did not gain.

"It was about 5 months ago I began using Postum Food Coffee; I did not need the milk and lime water after that, for I gained rapidly and I can now eat a good meal and drink from 1 to 3 cups of Postum each meal

"I would not go fack to coffee for any reasonable pay. I like Postum better than coffee now and make Postum by directions on box and it is just fine; never found a better way to make it than on box. Now this is all true and you can easily prove it." Name given by Postum Co., Battle Creek, Mich. Postum is a brew from field grains with all the nourselment left by te makes red blood and rebuilds partic-

DECISION OF SUPREME COURT. Northern Securities Company Over thrown-Dissent of Four Out of Nine Justices Opinion by Harlan.

Washington, March 15 .- In the United States Supreme Court fester-day an opinion was delivered in the merger case of the Northern Securities company against the United States, in favor of the government's contention that the merger was illegal. The opinion of the court was handed down by Justice Harlan, and it upheld the decree of the Circuit Court for the district of Minnesota in every particu-Four of the justices dissented from

the five constituting the majority. The division in the court was due to a difference of opinion as to the right of federal control of state corporations. The majority opinion proceeded on the theory that congress has a right under the Constitution to control interstate commerce, no matter by whom conducted, while the minority or dissenting opinion, was based on the theory that in the present case the ef-fort is to regulate the ownership and

not interstate traffic. Soon after Justice Harlan had concluded his presentation of the case it became evident that the court had divided on the questions at issue and as other opinions were announced it developed that there not only had been a very close shave for the government, but that one of the members of the court who cast his vote with the majority entertained opinions of his own, which fact rendered the division. all the more marked and interesting. This was Justice Brewer, who, while he concurred in the result, announced

in an independent opinion of his own that he held the view that previous anti-trust decisions, had been more sweeping than was justified. Four of the nine justices dissented outright. There were Chief Justice Fuller and Justices White, Peckham and Holmes. The opinions of Justices Harlan and White were long,

while those of Justices Brewer and Holases were comparatively brief. All told the court consumed two hours and three-quarters in disposing of the case. The fact was noted by: several persons that the argument in the case was begun December 14, just three months previous to the decision. For so important a case this is considered a very brief interim between

the arguments and the decision. The case decided yesterday was brought by the United States against the Northern Securities Company, a corporation of New Jersey, the Great Northern railway, a corporation of Minnesota; the Northern Pacific Rail-way, a corporation of Wisconsin; James J. Hill, a citizen of Minnesota, and W. P. Clough, D. Willis James, John S. Kennedy, J. Pierpont Morgan, Robert Bacon, George F. Baker and Daniel Lamont, citizens of New York, Its general object was to enforce as against the defendants, the provisions of the statute of July 2, 1890, commonly known as the anti-trust act, and

William Town Found Guilty.

Denver, March 15 .- A News special rom Fort Collins last night says: The jury in the Town murder case brought in a verdict of guilty in the first degree and fixed the punishment at life imprisonment. The verdict was given at 11 o'clock to night. The convicted man, young William Town, heard the verdict with emotion.

Curtis Town, the father of William Town, who is charged with holding up William Gardner at the point of a revolver, while his son secured a Winchester with which he shot Gardner, will be tried as soon as a jury can be secured. Deputy Sheriff Richart was sent this afternoon to the southern part of Larimer county to summons twenty-five men from among whom a jury will be selected.

Will Open Moffat Road.

Denver, March 15,-General Manager A. C. Ridgway of the Denver, Northwestern & Pacific railroad, on arrival from a trip to Chicago and New York yesterday morning, announced that arrangements have been made for running excursion trains overthe Moffat road about May 1st. By as far as Rollinsville, and it is the in tention to run daily excursions to that
