Weekly Crop Sulletin. The New Mexico weekly crop bulletin, issued at Santa Fe, April 26th,

The drought remains unbroken

throughout the territory, the past week, especially the latter part, being characterized by high winds during the day and with low temperatures during the night. On the nights of the 21st and 23rd temperatures dropped below the freezing point all over northern counties. Peaches, plums, pears, cherries and most of the apples were in full bloom, and the damage sustained by northern orchards, although irreg-ular, was very considerable. In some sections it was thought that about three-fourths of the early fruits were killed. Lambing is well started over the most southern sections, but with poor prospects. The lack of green grass for the ewes, combined with the effects of the high winds and frosty nights, renders it difficult to save the The percentage being saved at lambs. present is variously estimated, but under the most favorable conditions it is doubtful if fifty per centum will live. As a rule, cattle remain in fairly good condition, but on some southern ranges, where feed and water are particularly short, there has already been considerable loss. Farming operations are well advanced where water can be obtained, but owing to the general scarcity of moisture work is at a standstill. As yet there is no water in the lower Rio Grande, although the river continues to rise in its upper courses,

New Judicial District.

Roswell has been designated as the headquarters of the new judicial district which will include the counties of Chaves, Eddy and Roosevelt. These three are in the Pecos valley and on the line of the Pecos Valley & Northwestern railroad.

The Fifth district is to include the counties of Otero, Lincoln, Leonard Wood and Quay, these being on the line of the Rock Island, and Judge Pope will be assigned to this district with his headquarters at Alamogerdo. Judge Parker's district should include the counties on the Santa Fe lines, namely, Grant, Luna, Dona Ana, Sierra and Socorro counties, with headquarters at Socorro. The other counties will remain the same except that Quay and Leonard Wood counties will be taken from the Fourth district and given to the Fifth. Following are the candidates for the new judgeship:

Col. George W. Pritchard of White W. C. Reid, Carl A. Snyder and James M. Herhey of Roswell, Jouge A. olding up a man and relieving him of A. Freeman of Carlsbad, Judge A. J. Abbott of Santa Fe. Frank W. Clancy of Albuquerque, W. E. Kelly of Socorro and C. A. Mann of Las Cruces.

Rodey Hit New Yorkers.

Delegate Rodey of New Mexico, the unterrified champion of the admission of his territory as a state, made a which he referred to the people of New York in this fashion:

"I utterly repudiate the charge that state government. Why, sir, two or three years ago, after a session of witnessed there the crowds coming down from New York and bathing in the ocean day by day. It takes an ocean to clean such people. I went among these people and talked to them, or tried to talk. The spoke every language ever dreamed of at the Tower of Babel or anywhere else, except the English language. Those people do not know any place except the particular place in the old country where they came from-Bohemia, Turkey or somewhere else-and New York City. Yet those jack-legged foreigners become citizens and voters in New York in five years, and some, it is said, do on arrival."-New York World.

Albuquerque Machinists Strike.

An Albuquerque dispatch of April 27th says: The expected happened today, and by 3 o'clock this afternoon all the machinists, apprentices and helpers in the local Santa Fe shops walked out. As far as the machinists here are concerned the long looked for strike is on, although no order, as Third Vice President Buchalew of the International Association of Machinists requested, has been received from headquarters.

At 1 o'clock several imported machinists were assigned work by Master Mechanic Bean, and as they walked into the shops and took up tools it was a signal to the union men to law down their tools. When asked what they quit for, they replied:

"We will not work with scabs." The machinists here have been greatly depleted the past ten days by resignations, and to-day about seventy quit. The new men are living and eating in boarding cars in the stockade around the immense shops and to night of Van Horn, Otero county, to Je- an extra guard of deputy sheriffs was sworn in for duty at the shops.

> Broad Gauge to Antonito. A Santa Fe dispatch says: A. S. Barney of Santa Fe, traveling agent of the Denver &Rio Grande railroad, has just returned from a trip to points along the line. In speaking of the broad

gauging of the line between Antonito and Santa Fe. Mr. Barney said: "The order for broad gauging the line was given last September, but the company has been waiting for a decrease in the price of some property it desires to purchase. As soon as this can be secured it will commence to widen the line. An entirely new route will be followed when the new line is constructed which will be better suited for the running of heavy trains and which will cut the time between Antonito and

A Durango, Colorado, dispatch, April 29th, says: Five familles, consisting of twenty-four people, arrived last night from Hereford, Texas, and left this morning for San Juan county New Mexico, where they have bought farms and orchards and will locate part near Farmington and part on the La Plata river.

Coloradans at the Fair.

St. Louis, May 1.—Governor James H. Peabody and wife, with his mili-tary staff, and commissioners T. J. O'Donnell, Harry Cassady, I. N. Stevens, Paul Wilson and Mrs. L. R. Anthony, A. D. Frenzel, commissioner of rare minerals from Colorado, and Charles H. Hooper, left their hotel early yesterday morning for the Exposition grounds and participated in all the opening ceremonies.

The Coloradans occupied prominent places at the foot of the Louisiana Purchase monument, and were among the most enthusiastic admirers of the Exposition, expressing in cordial terms their enjoyment of the beautiful picture there spread out before them and their wonder and amazement that so much could have been accomplished since they were last here for the dedication, one year ago to-day. Governor Peabody said last night:

"The World's Fair is far in advance of my most sanguine expectations. Compared with Chicago it is superbly in advance. The people cannot realize this until they come to see it. "The fair is practically complete, It is the greatest show that was ever

built and there will never be such another while this generation lives. I am amazed that the exposition is so nearly completed. I can see that the men who have produced this marvel will make it perfect in a few more weeks and that those crudities and roughnesses which exist to-day are merely the superficial remnants of the work of preparation. All honor to St. Louis and her exposition, say I."

Trying for Artesian Water.

Gus Mulholland, well known all over New Mexico as an expert driller of wells, is in Santa Fe looking over the grounds of the government Indian school with an eye to locating the most favorable spot for the first experimental well of the several which the government will pay for sinking in the hope of securing artesian water, says the Albuquerque Journal.

The drilling machinery is now at Alamogordo, fills about two cars and will be brought to Santa Fe, without delay, so as to reach there May 1st. when it will be set up and actual work commenced. By dist of hard and energetic work Superintendent Crandall managed to get the approval of the Indian office for this appropriation and Delegate Rodey aided greatly in having the bill passed. It amounts to \$5,000. Bids for the work were advertised for last year but none were received. Superintendent Crandail was authorized to make a private contract for the work and entered into such with Mr. Mulholland. His bid was finally approved and the Indian ice authorized dall to go ahead. If an artesian well flow can be struck on the Indian school grounds it will prove of vast benefit not only to the school but also to the people of the entire valley and especially of Santa Fe.

Mr. Mulholland is an experienced and successful well digger and drifler and for the past three years has been actively engaged along the line of the El Paso & Northeastern railroad and speech in the House the other day in the towns adjacent to that road between El Paso and Tucumcari, and Tucumcari and Dawson. He has a complete and modern outfit of well my people are not fit to carry on a drilling machinery and work as soon as commenced will be prosecuted day and night without intermission. It is Congress, I went down to Rockaway understood that he is to drill 1,000 feet Beach, adjacent to New York City. I or until a satisfactory flow of artesian water is struck.

Oppose Forest Reserve.

A Kingston dispatch says that the settlers along the eastern slope of the Black range in Sierra county are greatly agitated over the attempt being made to attach a strip of country six miles wide and fifty miles long, along the west line of Sierra county, to the Gila river forest reserve. 'A petition protesting against the scheme has been circulated and everybody but two men in Kingston signed. The petition has been forwarded to the secretary of the interior.

If this particular section should be placed in the forest reserve it would destroy the Angora goat industry and drive more than twenty families from their homes in the mountains, where they have resided since the banishment of the Apache Indians. It would be a hard blow for Kingston, as the Angora industry is at present its main source of revenue. The contemplated addition to the forest reserve would cover all the Black range mining district, and none of the miners care about living on a reserve, thereby coming under the will and whim of some officious range rider.

The reserve asked for is not a timbered country; it is principally covered with scrub oak, mountain mahogany and other species of bushes that in 10,000 years would never grow into timber. It never has been timbered and never will be.

Convicts Brought Overland. The population at the New Mexico penitentiary at Santa Fe was materially increased April 25th by the arrival of convicts from San Juan, Leonard Wood and Dona Ana counties.

The convicts from San Juan county were brought overland, so that they would not need to be taken across the Colorado line. They were Prudencio Truillo, life sentence for criminal assault; Louis Gillam, two years, stealing sheep; Gifford Lutan, two years for burglary; Harry Roberts, one year for stealing sheep. From Dona Anacounty, by Sheriff Lucero: Jose Pena, five years for an offense against chastity: Juan Mestas, five years for burglary; Santiago Telles, two years for horse stealing; Timoteo Sierra, one year for larceny of gosts; Anastacio Chaves, one year for forgery; Francisco Munos, one year for larceny; Felix Rivera, one year for larceny of

goats. From Leonard Wood county: George Decker, three and a half years for horse stealing; Ernesto Martinez, three years for murder in the third degree; Narciso Romero, two years for larceny of horses; Abel Valdez, one year for burglary.

Work is in progress on extensive stock yards at Santa Fe by the Santa Fe Central railroad. The yards will be large enough to hold twenty-five cars of cattle and there will be facilities for watering and feeding the stock.

MANY INDICTED

FOR DENVER ELECTION FRAUDS

Grand Jury Does a Wholesale Business.--Prominent Officials Will Be Tried for Offenses Against the Election Laws.

Denver, May 4.-Forty indictments which were not served yesterday will be served by Under Sheriff O'Neill as quickly as they can be found. The grand jury delivered the indict-

ments to Judge Samuel L. Carpenter in the West Side Court yesterday afternoon at 3:30 o'clock, and almost immediately afterwards. Under Sheriff Felix O'Neill began to serve the capiases upon the defendants.

Following are the names of some of the principal officials and ex-officials indicted:

Julius Aichele, county clerk, receiving padded registration; Walter B. Lowry, supervisor, padding registration; Charles W. Cochran, alderman, padding registration; John D. Ross, alderman, padding registration; Gua Kappan, deputy constable, election frauds, 1902; John Kendricks, deputy constable, election frauds, 1902; John (Jack) Hall, election frauds, 1902; William Altman (deceased) interfering with watchers, and fraud, 1902; W. A. Dollison, Republican candidate for alderman, traud and conspiracy,

Within nine hours of safety and immunity for punishment for crimes of which evidence submitted before the grand jury indicates their probable guilt, the perpetrators of those election frauds will at least be brought face to face with their offenses, Of the twenty-six persons indicted, seventeen, are charged with crimes committed on November 4, 1902, and would to-day have been immune from prosecution on those charges. The other nine persons are charged with criminal connivance or with the actual manipulation of padded registration lists and of placing upon the lists of registered voters some 7,000 fraudulent and fictitious names.

The charge against Julius Aichele, county clerk, is that "he received as a public officer a false list of names to be retained upon the registration books of the city and county," and also "aided in padding the registration

The charges against Lowry, Cochran and Ross are the same. These members of the City Council are charged with placing among the duly certified lists of names of persons entitled to be retained upon the registration rolls a list of names of persons not entitled to be placed on said certifled list, and sending the same to the county clerk for retention on the registration list and for padding the registration.

The inuictment refers to 4,000 fraudulent names which were sent from the city council to the county clerk last Shortly after the list of names had been placed upon the registration books by the county clerk the affair became public, and investigation followed. Walter B. Lowry was appoint ed chairman of the committee of investigation, Supervisor Carl Lindquist and Alderman A. Newton Patton, Charles W. Cochran and John D. Ross were appointed as members. Ross failed to attend any of the meetings, The others held four sessions, in the court house, and examined witnesses. A report was made, but the matter was then dropped until the grand pury began its investigation at the beginning of the present term of court.

There are five more indictments in the hands of the under sheriff against persons charged with manipulation of the registration lists. Nearly all of those connected with this fraud are public officials or clerks, and it is probable that when the remainder of the capiases are served there will be further surprises.

Capiases have been served against five persons charged with fraud during the election of 1902. There remain twelve more persons who will be arrested to-day or to-morrow. In most of these cases more than one indictment is returned against each individual.

Big Santa Fe Strike.

Washington, May 4.—Approximately 5,000 men out on the Santa Fe system is the strike situation to-day as claimed by President O'Connell of the International Association of Machinists. This statement is based on reports received this morning. Of the 5,000 about 1,200 are machinists and the others are boiler makers, blacksmiths, tinsmiths, copper workers, helpers and semi-skilled labor of the allied metal mechanics.

The reports say that twenty-one shops and roundhouses are affected, all shops west of La Junta, Colorado, to the Pacific coast being completely tied up. The situation east of La Junta to the Chicago terminal is not so serious, it is said, but all machinists in that section are reported to be out and the allied interests in some shops as well. Telegrams from John McNetl of Kansas City, president of the Boiler makers and Iron Shipbuilders, and John Slocum say that they are in entire accord with the machinists.

Republicans Draw Race Line. New Orleans, May 4.—After a long and hard struggle the leaders of the Lily White Republicans in caucus yesterday decided against the negro and it was agreed to send a solid white delegation at large to the Chicago convention, instructed for President

Collector of the Port Henry McCall and Governor Warmoth fought hard to get a negro on the delegati lieving it would be beneficial to Presi dent Roosevelt in the doubtful states but Chairman, Frank B. Williams led strong fight for an all-white delegation. The delegates chosen are: Pearl Wright, H. C. Warmoth, W. J. Behan and L. F. Suthon.

Progress of Japan.

Reviewing the steam engineering progress of Japan, Professor Bunji Mano finds that the first land engine was placed in a spinning mill at Kagoshima in 1863 and that the first one made in the country came about ten years later. In 1901 the land engines in use numbered 3,258, with a horse-power of 7,267. The first railway, with four British locomotives, was opened between Tokio and Yokahama in 1872. were returned by the grand jury with 1,469 locomotives. The first against twenty-six persons. Those steamer was brought from Holland in 1855 the first built in the country dates from 1866. The present number of steamers is 1,079, with a gross tonnage of 645,926.

Coming Methodist Conference,

The Methodist general conference meeting in Los Angeles throughout the whole month of May will have much heated discussion and possibly an ecclesiastical fight or two. There will be 750 delegates, with 1,400 names on the roll. Bishops preside, but are not thembers of the conference.

The election of new bishops will attract most popular interest, but not most discussion on the floor, and oth er matters to come up are the removal of the manufacturing plants of the book concerns from New York and Cincinnati, the modification of the book of discipline, the consolidation of benevolences, the districting of bish ops and the recognition of the new St. Paul Brotherhood, which has a mem bership of 18,000 men and is growing rapidly.

Rheumatism in Utah.

Frisco, Utah, May 2nd,-There is a great deal of Rheumatism in this and neighboring states, and this painful disease has crippled many a strong man and woman among an otherwise healthy people.

Recently, however, there has been introduced into Utah a remedy for Rheumatism which bids fair to stamp out this awfully painful complaint. The name of this new remedy is Dodd's Kidney Pills, and it has already wrought some wonderful cures. Right here in Frisco there is a case of a Mr. Grace who had Rheumatism so bad in his feet that he could hardly walk. He tried many remedies in vain, but Dodd's Kidney Pills cured

His wife says: "We both had Kid ney Trouble, and my husband had the Rheumatism so bad that he could hardly walk. We used Dodd's Kidney Pills with much benefit. We have tried many remedies, but none have done us so much good as Dodd's Kidnev Pilla.

Similar reports come from all over the state, and it would seem as if Rheumatism had at last been con-

TRAVEL BY TROLLEY.

Not little by little, but with mighty strides the trolley is spreading its meshes over the country. The lines extending in all directions from the cities meet local lines and so reach further until, in the closing of the evershortening breaks, trunk lines are suddenly established. Philadelphia is now to be joined to New York by trolley New York joins Boston, and the trollevs of Boston run to the uttermost parts of Cape Ann. Presto! The Phila delphian can journey by trolley to Gloucester and to where the cool breezes sweep over Norman's Woe.

The trolley with all its progressive ness means a reaction, and with all its up-to-dateness is a return to nature. It takes us into fields and among flowers, through narrow woody ways where the trees meet overhead. The speed is not so great that the scenery cannot be leisurely enjoyed: the sweet fresh air blows cinderless upon the face, and the right of way is not charred and blackened-as when nature spreads a bit of mourning along the tracks for the birds that the screaming locomotive has frightened away, for the noble trees have been cut down, and the railroad's broad band of ugliness. The clean, ight trolley is taken to nature's heart, The wild flowers creep up to the track, the grain nods friendly to the car it can almost touch, and when the car has passed the birds light again on the wire to talk the matter over and to discuss the merits of that strange new singer, the little trolley wheel which fearlessly skims along the wire above the car, Singing as it goes.

SOAKED IN COFFEE.

Until Too Stiff to Bend Over. "When I drank coffee I often had sick headaches, nervousness and biliousness much of the time but about 2 years ago I went to visit a friend and got in the habit of drinking Postum.

"I have never touched coffee since and the result has been that I have been entirely cured of all my stomach and nervous trouble. "My mother was just the same way,

we all drink Postum now and have never had any other coffee in the house for two years and we are all well. "A neighbor of mine a great coffee drinker, was troubled with pains in

her side for years and was an invalid. She was not able to do her work and could not even mend clothes or do anything at all where she would have to bend foward. If she tried to do a little hard work she would get such pains that she would have to lie down for the rest of the day. "I persuaded her at last to stop

drinking coffee and try Postum Food Coffee and she did so and she has used Postum ever since; the result has been that she can now do her work, can sit for a whole day and mend and can sew on the machine and she never feels the least bit of pain in her side, in fact she has got well and It shows coffee was the cause of the whole trouble.

"I could also tell you about several other neighbors who have been cured by quitting coffee and using Postum in its place." Name given by Postum Cc., Battle Creek, Mich. Look in each pkg, for the famous

In a graceful speech the speaker de-

by President Roosevelt at the White House recently with prominent members of both houses of Congress. They included Senators Aldrich, Spooner, Hale, Platt of Connecticut, Lodge and Allison; Speaker Cannon and Chairwas also present. It is understood the discussion covered a wide range and it is not at all unlikely that it embraced features of the platform which will be presented for ratification by the members of the national Republican convention when it assembles in Chicago in June.

The Wyoming delegation in Congress is somewhat disappointed at the defeat in the House at the last moment of the motion to concur in the Senate amendments to the bill to open part of the Shoshone reservation, thus delaying the final passage of the bill until the fall session of Congress. The amendments adopted in the Senate related to the amount of money to be expended for the benefit of the Indiana in purchase of chattels, and in building irrigation works, with a further amendment that the bill should go into effect without waiting for its ratification by the Indians. Opposition to the measure came from the secretary of tne Interior, who has constantly hampered and delayed the effort to open the conditions of the country were this and other Indian reservations.

It is probable that through a personal letter written by Governor Peabody to Secretary Moody of the navy, an old bell which once adorned the frigate "Colorado" as early as 1861, will be placed on the new United States arm-ored cruiser "Colorado." This bell has Inscribed upon it the name "Colorado" and the year "1861." When the friga's which carried it originally was destroyed the bell was placed on another frigate called the "Puritan," where it is at this time. Learning of this fact the governor wrote to Secretary Moody and received a reply stating that the secretary would be giad to render his services in securing the transfer to the new cruiser and that he had turned the matter over to the bureau of instruction, where the transfer, if found practicable, will be carried out. Whether the President shall order

the construction of the battleship pro

vided for in the naval appropriation bill or wait until the war in the far East demonstrates the comparative utility of the big sea fighter and the torpedo boat or submarine craft was a question raised in the Senate by Mr. Hale of Maine, on the adoption of the conference report. It was developed that the language of the bill was permissive and the President and the ecretary of the navy could delay action if they deemed it advisable. Hale declared that if he were secretary of the navy he should not dare to go on now and commit the government to | who is in St. Louis as the personal the building of an immense battleship for it would not surprise him if events of the Russian-Japanese war demon strated that the \$150,000,000 paid for big battleships were a bad investment for this government. Several other senators counseled delay. Representative John Sharp Wil-

liams of Mississippl, the Democratic leader of the House, in an authorized statement, says he believes the nomination of Judge Parker is assured. "It seems clear to me now,' said Mr. Willams, "that Judge Parker will ominated by such an overwhelming vote that there will be substantially no opposition when the time for the convention arrives. Individually, I favor his selection." Mr. Williams, when questioned concerning the report that | Exposit dential nomination, said: "I think you know me well enough to know that I have never been idlot enough to take | name of the American peo this talk seriously. Replying to Mr. Allison, Mr. Gorman placed the total appropriations of this session at \$781,000,000 and the obligations incurred at over \$24,000,000, or more than \$800,000,000 all told, not including the appropriation for the Panama canal. He said the figures were amazing, and predicted that it would be impossible to make expenditures at this rate without increasing taxes. He attributed the rapid crease to the ambition to make of the United States "a great world power" and said that we had reaped no barvest except the loss of life and demoralization in every branch of the government service.

Mr. Allison characterized Mr. Cuf-bertson's tables as "old and worn out" totally different from the present conditions. He said the extraordinary expenditures of the McKinley administration had been due to the Spanish war, which was forced upon the President. He combatted also the statement that the expenses of the military establishments were greater than those of the European nations, saying that pension expenditures could not properly be included in such esti-

President Pressed the Key. President Roosevelt preheed the golden key which completed the electrical circuit releasing the gigantic power of the Louisiana Purchase Exposition at St. Louis. The ceremony occurred in the east room of the White House precisely at 1:14% o'clock, standard time. As the President pressed the key

the Third battery of United States artillery, stationed on the grounds of the Washington monument, fired a national salute of twenty-one guns. Congratulatory messages were then exhanged between the President and David R. Francis, president of the Louislaun Purchase Exposition Com-

The historic ceremony was witnessed by a notable assemblage. Among these were guests of the President in the east room, the members of the Cabinet except Secretary Taft representative of the President; the chief justice and associate justices of the Supreme Court of the United States; Senator Frye, Speaker Cannon, ambassadors, ministers and other representatives of foreign governnents at the capital, the Missouri del egation in the Senate and House, prominent people in the various walks of life.

The President delivered the follow ing brief address: "I have received from the Exp tion grounds the statement that the management of the Louisiana Purchase Exposition awaits the press of the button which is to transmit the electric energy which is to unfur! the Cage and start the machinery of

The man who votes against the bond issue is simply adding his little mite toward driving the settlers and farmers from the country. We so, we must have artesian water. We are certain of our ground, and we are sincere in our contentions.

It is now openly charged that the biography of President Roosevelt, which was presented by Grosvenor and permission given to print, emanated direct from the executive. It asserted that this remarkable docu-It must be a great relief to Grosvenor to thus have the responsibilty for this questionable campaign spiel

Roosevelt's book, devoted almost entirely to the maligning of all the great statesmen who have preceded him, and especially his irresponsible and caustic effusion when dealing with Thomas Jefferson, is making him no friends very rapidly. If Mr. Roosevelt could just comprehend how really idiotic and imbecile are his public exhibitions of ill humor he might be enabled to realize the utter impossibility of his ever attaining greatness in any capacity above a country auctioneer.

When considering the proposition to issue bonds for artesian well purposes, it is well to bear in mind that You secure the proposed issue does not, in any manner, interfere with, or prejudice any private or joint stock company enterprise, which is at present contemplated, or which may, in future be attempted. Necessity of Etiquette. Etiquette is necessary as a sort of public dress rehearsal of that fraternal graciousness of character that recog nizes the right of the other one to our consideration. Dr. Trall, the celebrated hygienist, often said: "If it were not for women, men would soon revert to barbarism." So much for social form with its civility, cordiality, incerity and fraternal interest.

Heroic Love Custom. This is the trial imposed upon their suitors by Dongolowee girls. BANK OF PORTALES,

The Bank of Portales, the oldest financial institution in Portales, sends greetings to the people of Roosevelt county, and wishes a happy and prosperons New Year to all. We are are in a better condition than ever to accomdate our customers, and if you are in search of a safe and conservative institution with which to do business; you can find none better than the Bank of Portales.

Out of the 18,425 banking houses in the United States only about 5,000 are National Banks, and bank statisti show that in proportion to numbers, more National Banks failed during the past year, than any other kind.

The banking laws of the territory are so framed as to protect the depositor and, under its wise provisions, but ew, if any, bank failures occur. The Territorial Auditor is compelled, under the law,

to visit all Territorial Banks twice a year and make an examination of their condition, and report the same, and the banks are required, by law, to make two reports, thus we want your business. Our motto is, "Live and Let

Live." Call and see us and be convinced that it will be to your interest to do business with us.

To Vote Bonds For Deep Well

Question Meets With Unqualified Approval From All Sections of the County

A STRAIGHT BUSINESS PROPOSITION

Should the Bonds Be Issued the Artesian Well Proposition will Be on a Sound Financial Basis.

THE EXPENSE WILL THUS BE EQUALLY DIVIDED

Well Will Be Sunk on Private Property and Paid for by Owner if the Well Proves Successful.

The acts of 1897, governing the issuance of bonds for the purpose of securing money for the sinking artesian wells, by the Comdoing nicely under the efficient manmissioner's Courts, of the respective counties in the territory,

640. Any county in this territory may issue and sell bonds to the amount of six thousand (\$6,000.00) dollars for the purpose of sinking artesian wells.

641. The object of said wells shall be to ascertain whether flowing water be procured on lands, at present, considered above and beyond the belt wherein it has been demonstrated that flowing wells can be obtained, and to encourage the boring of such wells, for the purpose of increasing the area and productiveness of our agricultural lands and to reclaim high mesa lands, which are now valless for agricultural purposes.

642. Before any bonds shall be issued for the purpose set forth in the preceding sections, not less than twentyfive tax payers of the cnunty shall present a written petition to the board of county commissioners, requesting them to call an election within and for that particular county, for the purpose of voting on the proposed bond issue. When any such petition shall have been presented to the board of county commissioners, at a regular meeting of said board, it shall be the duty of said board to call an election to be held within thirty days, for the purpose of letting all qualified voters vote on the said bond issue. form as general elections are now held.

643. If two thirds of all the votes cast at said election be in favor of the bonds, it shall be the duty of the county commissioners to forth with issue and sell said bonds

644. Said bonds shall mature in not less than fifteen nor more than thirty years, and shall bear an annual rate 🚜 of interest not exceeding 7 per cent, and shall not be sold for less than their value.

645. The funds derived from said sale of bonds shall be known as the artesian well fund, and shall be under the control of the county commissioners.

646. As soon as the bonds are sold the commissioners shall advertise for bids for boring a well, and shall let a contract to the lowest responsible bidder.

647. Said well shall be sunk on the land of the person, or persons who will agree to give the highest price for the same, provided water is obtained; the person making the bld to accompany said bid with a good bond for the faithful performance.

648. If water is secured and said business proves suc-

cessful, the commissioners shall keep all moneys so derived from the sale of wells, in active use until said bonds mature at which time they shall apply the money then on hand to the payment of said bonds, and convert the surplus, if any, to the general expense fund of the county.

DEER AND DOGS

PLAYING TOGETHER AS FRIENDS

California Writer Tells Interesting Stories About the Companionship of These Animals.

In the town of Oroville, California now a notable gold dredging center-where I live, I very recently saw a fawn, still in its spots, unconcernedly abling about the main street. Dogs that were in no wise accustomed to it went up, smelled it, as is their canine custom, and passed on, writes a cor-respondent of the Hartford Times. The fawn was perfectly unconcerned.

Two years ago there was another deer, over half grown, in the same town, which had as its companion and safeguard a large Newfoundland dog. These animals were often seen play ing together, and went down town to gether at their own desire. On these tr.ps the Newfoundland seemed, by instinct, to know that the deer was at the mercy of other dogs, and saw to it that no dog molested the deer. The family owning these two attractive animals has moved from Oroville, taking their interesting friends.

Another nearly grown doe I saw last year (adjoining the same town) standing in a little creek with some cattle. I was told that it came and went to pasturage and to milking (of course the deer was not milked) daily with the cows. In 1897 I was at Eden Valley ranch for a month. A wild, rough country in Mendocino county, California, environs this gem. Big and small game abound there. The wild cattle in the "roughs" are the most interest

ing feature there. The cattle dogs and wild hog dogs, bear dogs and deer dogs, are taught to attack and pursue tirelessly. - The most exciting chase and fight I ever witnessed was between these dogs and a great wild hear that succeeded in ripping two out of six of the largest and best trained dogs. The bear was finally secured alive and dragged into the corral at the tail of a riata, snubbed to the horn of the saddle of the chief vaquero.

For a month I saw a male and fe male fawn move with perfect unconcers among these dogs and all lap milk from the same trough (the fawn does not lap, but drinks like a pig, and drinks milk like a starved pig). If was laughable to see them pushing each other while gulping milk. These dogs that ran off the mother doe were first to discover her young, but did not seize them as they would have done the doe. When strange dogs passing the ranch house on the road espled the fawns in the orchard or the meadow they naturally "went for" the fawns. I expressed apprehension, but I was told by the wife of the proprietor that the home dogs kept a sharp lookout for strange dogs and always protected the fawns. I saw evidences there of

I know a gentleman in Virginia whose shepherd dog chased a tame deer all about the grounds at top speed, to the infinite delight of both animals. After the race, deer and dog would come up to their master.

Only 104,416 acres of land to the Devils Lake reservation in North Dakota are to be opened to settlement. This land is very rich and has for many years attracted the attention of Western people who are anxious to acquire possesion of it.

Officials of the interior department are now preparing to divide this tract into quarter sections, to be lotteried off to bona file applicants for homesteads.

The successful applicants must pay the government \$1.50 per acre for the land if they settle upon it. If any of it remains untaken for a period of six months, then the President may, in his discretion, reduce the price to such a figure as will permit the sale of the entire tract. The opening of this reservation will occur in July.

of this life, its big enjoyments and its smaller comforts, there is an offset or antithesis which we have to contend with in the form of aches and pains. In some way and by some means every one has a touch of them in some form at some time. Trifling as some of them may be, the risk is that they will grow to something greater and rack the system with constant torture. There is nothing, therefore, of this kind that we have s right to trifle with. Taken in time. worst forms of pains and aches are easily subdued and cured by the free use of St. Jacobs Oil. No well regulated household ought to be without a bottle of this great remedy for pain. It is the specific virtue of penetration in St. Jacobs Oil that carries it right to the pain spot and effects a prompt cure even in the most painful cases of Rheumatism, Neuralgia, Lumbago, Sciatica. You want it also in the house at all times for hurts, cuts and wounds, and the house that always has it keeps up a sort of insurance against pain.
