J. en of Rock Springs, Wyoming, asant principal; Mrs. Grace Hall, San-Miss Gretrude Duhresen of Esla, Miss Bertha Schaffler of La Colorado. Other teachers will be ed at a future meeting.

message sent to Albuquerque by iam C. Barnes, secretary of the Mexico Cattle Growers' Associand member of the cattle sanitary d, announces that heavy rains in northern counties of New Mexico effectually broken the drouth. that the cattlemen of that section jubilant, as the rain will enable to get through the season with alno loss. Mr. Barnes denies the ence of mange in cattle in Lincoln nty, and says that an examination a government inspector has proven rumors absolutely groundless.

tecent investigation has brought to ht the fact that the man who com-tted audide at Tularosa shortly afattempting to rob No. 4 passenger in on the El Paso & Northeastern ilway, was not Tod Carver, the noious Arizona outlaw, as had been posed. The dead man's name was ide W. Swanner. He had a brother ill Swanner, living at Elida, Rooseelt county, who wrote Sheriff Hunter letter describing his brother which ft no doubt of the identity of the ad man. The man who was placed in ail as being a party to the hold-up heme has made no statement as yet. Santa Fe New Mexican.

An Albuquerque dispatch says: In pite of the prolonged drouth, prounced to be the worst this territory has known for twenty years, and rhich has been only partially broken within the past few days by scattering ains, the New Mexico wool clip will ot fall far below the average for the spring season. Thus far yers and commission men here have purchased 1,000,000 pounds of the clip, which 600,000 pounds will be marketed in Albuquerque, going through wool scouring mill here. The largest sales of the week just closed are 00,000 pounds by the John Becker company of Belen, 100,000 pounds by Frank A. Hubbell of Albuquerque and half a dozen lots of 50,000 younds. Says Gallup Wants Peace.

An Albuquerque dispatch says: Sheriff W. A. Smith of McKinley county is in the city from Gallup, one of the division towns on the coast lines. Regarding the strike situation at Gallup he said:

"We have no strikes at Gallup, and the people who built up the country, who are law abiding, intend to see to it that Gallup and vicinity in the future are purged of agitators, walking delegates and dynamiters. Gallup has lost thousands upon thousands of dollars and the wage earners an equal amount in the loss of wages, in years past, through the viciousness of coal strikes but I think the days of strikes in Mc-Kinley county have ended.

"I see the people do not understand why the railroad company keeps up the guard system. It is not to especially guard against the home striker, but against imported men who, like those at Cripple Creek and Victor, use dynamite to blow up and kill unarmed and unprotected workmen who desire to work and thus obtain support for their

families. "In Gallup only one striker remains and the force of guards has been cut down, but for some time to come the mpany intends to keep guards at its shops to protect them from dynamiters and agitators who, day by day, are holding Colorado up to the disgust and ridicule of other states."

Aged Ranchman Missing.

An Albuquerque dispatch of June 13th says: The ranchmen and raisers of the Escobosa neighborhood, the Manzano mountains, about thirty miles from this city, are considerably agitated over the mysterious disappearance of G. W. McComber, an aged ranchman. He was seen at work near his house about fifteen days ago, since which time his whereabouts has

been shrouded in mystery.
Yesterday several ranchmen called at his place for the first time in fifteen days, and found his house locked. They found six dead calves and two dying from starvation. Several cattle, sheep and horses, were in an enclosure near the house and they were almost in a dying condition for the want of water

An investigation of the house vealed the fact that nothing inside had been disturbed, and it is thought that the old man was warned to leave and, on refusing to do so, was murdered. Searchers are looking for the body. Mr. McComber came to Escobos from San Angelo, Texas, several years

ago. He has a son, G. A. McComber. residing at Prescott, Arizona. A desthe Mansano mountains and it is feared that they got rid of the old ranchman.

In the District Court at Las Vegas on the 6th inst., Edward M. Hale of the P. D. Strain company of Mora, who was convicted of embezzling more than \$2,000 of the funds of Mora county, was sentenced to two years and a half in the territorial penitentiary. He gave notice of an appeal to the Supreme Court.

A Las Vegas dispatch of June 9th says: Two determined men charged with cattle stealing, Seab Sorrell and Henry Shaeffer, escaped from the county jail in Mora last night. They piled up the furniture in their ceil to reach the top of the cage and then climbed to an open skylight in the jail roof. They carried strips cut from their bedclothes and with these descended to the ground. They have a good start of the officers.

A Las Vegas dispatch of June 10th says: J. C. Orin, who until last Tuesday was mayor of Raton, came here today to engage A. A. Jones, a leading attorney, to bring suit against the city. council that summarily expelled him from office for alleged dereliction of duty. Mr. Orin claims that he did not exceed his power. He declined to approve a warrant in favor of the city attorney until he had made investigation. The plea will also be made that the council in no case was clothed with authority to dispossess the mayor. The feeling at Raton is bitter and the case will be fought to the last resorts.

An Albuquerque dispatch of June 6th says: Delegate Bernard S. Rodey returned to-night after the winter and spring in Washington. He was given a reception at which his friends tended congratulations on his fight for statehood. Mr. Rodey said to-night that he believed the joint statehood bill for the admission of New Mexico and Arizona as one state would ed early in the short session the Senate. He gave it as his further opinion that there would be no chance for statehood in any other form for the next generation. Rodey is here to make his fight for renomination and reelection in the fall campaign. It is said he has the backing of nearly all of the Republican leaders. At this time the campaign is New Mexico promises to be on the issue whether or not joint

statehood shall be accepted. Professor Edwin J. Vert, president of the faculty of the Territorial Normal School at Las Vegas while at Santa Fe on the 11th inst., said: summer normal now being held in Las Vegas is a pronounced success. The enrollment at the end of the third day was thirty-one, and we are assured of enough more to make the number more than forty before the of the season. I have ceived letters from all parts the Territory stating that the extremely dry weather and the consequent hard times have reduced the number one-half. A significant fact. however, is that all except six of our students come from outside of San County. They come from Miguel Carlsbad, Roswell, Clayton, Deming Taos, and intermediate points, thus making the school thoroughly territorial in its membership. The students are particularly pleased to have an opportunity to study the more advanced branches required for a first grade certificate. They inform us that they have never before had an opportunity to take two months' work in physics botany, zoology algebra and vanced pedagogy.

Big Water Works Project. Mimbres River Water Company were filed on the 8th inst. with the secretary FROM VICTOR TO NEW MEXICO. from Victor To New Mexico.

\$2,000,000. The principal place of business will be Albuquerque. The directors are George W. Delamater and Allan G. Kennedy. The incorporators are George W. Delamater, James S. Delamater of Pittsburg, Pennsylvania, Allen G. Kennedy of Santa Fe, William B. Children and Edward L. Medica of Alburans and ers and Edward L. Medler of Albu-

The men named belong to the same group of capitalists who built the San-ta Fe Central railway. The preliminary arrangements for the construction of a large water works system to supply the city of El Paso have been completed. A natural reservoir site on the Florids plains south of Deming, in Luna county, will be utilized.

The underflow of the Mimbres has been tested and measured and has been ample to supply a much larger city than El Paso with water. The water will be pumped into the main reservoir and subsidiary reservoirs and piped to El Paso, the survey of the pipe line following the Southern Pacific railway via Cambray and Lenark for the greater part of the distance.

The water is the purest to be found in the Southwest and enough to supply Paso for drinking purposes has been hauled from Deming to El Paso for The project has been determined to be a feasible one, although the pipe line will be almost 100 miles long and

will cost about \$7,000 a mue. Engineer A. G. Kennedy has opened an office at El Paso where the drafts and plans for the plant and pipe line are being completed under the direction of John C. Balcomb of this city. The entire works are to be completed within less than two years, as ample capital is ready to put through the enterprise.

Badger Case at Roswell,

At Roswell a few days ago, before Judge W. H. Pope, a case which involved a claim for only \$15 damages, but which was of more than ordinary interest and furnished an abundance of laughable incidents, was heard. John R. Gill was plaintiff and W. B. Plaint, county marshal, A. Ridder-son and Charles Brown were the de-fendants. The plaintiff's horse be-came frightened by the commotion caused by a badger fight which was in progress on the main street of Roswell and ran away, some damage being done to the carriage. Gill there upon brought suit for \$15 damages against the city marshal for having permitted the fight. Charles Brown the owner of the badger, who released the animal frfom his cage, and A. Rid-

ticipated in the fight Judge Pope ordered a special venire and upon this were placed the most prominent residents of Roswell. Ex-Congressman Jerry Simpson was the foreman of the jury and was an active examiner of witnesses, asking ques tions such as:

derson, who owned the dog that par-

"Was it a regulation badger?" etc. After long deliberation the jury brought in a verdict against the plain tiff on the ground of contributory negligence in not having had the horse

Slight Crop Improvement

The crop report issued June 8th by the weather bureau for New Mexico is only slightly more favorable than previous reports. It says that the temperature has averaged somewhat be low normal, the nights, especially, being cool, causing slow growth even where conditions otherwise were favorable.

Good local showers occurred over the northern half of the territory, greatly improving farming and the range conditions. Elsewhere light showers or entire absence of rain are reported and conditions continue serious. Hail accompanied the showers and in some places damaged crops. In the northeastern counties the range is greatly improved, streams are flowing and water is available for irrigation. In the southern district, however, no material improvement is reported barring small irrigated areas and farming and stock conditions remain

grave. Wheat is turning yellow from drought and is heading very slow. losses from starvation great. Plowing and planting have been impossible and timber losses continu heavy. The alfalfa harvest is beginning in northern counties, but the crop is light even on trrigated lands.

The New Mexico Historical Society has acquired the iron grated door of the ancient jall at Las Vegas in which Rudabaugh, Webb and many other desperate persons of early days were con-fined. The presentation was made by

The census bureau has issued a desummary by states and territories of the mineral production for the year 1902. Considering that New Mexico lays claim to being a mineral producer, the showing made by the territory is not very gratifying. Even Florids and Louisians, both without mountains and laying no special claim to mineral production, pass New Mexi-co in the aggregate of value of mineral products. According to this census bulletin, New Mexico in 1902 only produced \$2,686,473 worth of minerals of which over half or \$1,500,230 is credited to coal. To gold and silver \$677,-168 is credited; to copper \$271,270; to precious stones \$51,600; to sandstones and quartzites \$12,291; to all other minerals \$173,914. The number of producing mines and quarries is given as 161, of these thirty are coal mines, ninety-one gold and silver mines, and placers, seventeen copper mines, eight mines of precious stones, seven quarries number of mine operators is given at 207, number of salaried officials at 175. receiving no salaries, \$209,569; total number of wage earners, 2,275, earning \$1.646,833; of these 1,439 are employed in the coal mines, earning \$1,027,460 per year; 519 in gold and silver mines, earning \$409,779; 164 in copper mines, earning \$128,483; thirty-six in mines of precious stones, earning \$22,087; eight in quarries, earning \$6,515; 109 in other

Articles of incorposation of the THIRTY-FIVE GO A MINER'S PLEA

to the News last night says: Thirty-five men were deported to-day by the military. The men were residents of different sections of the district, but mainly lived in Cripple Creek and Vic-tor. There was a large crowd at the 3 o'clock in the afternoon. But little excitement or demonstration of any kind was made when the trainload of

The destination of the deported men was given out officially as New Mex-A strong guard of the local military will accompany them until they are finally released. The train left Cripple Creek at 2:30 o'clock p. m. with fourteen prisoners, and after it arrived here about thirty minutes later twen-ty-three additional prisoners were marched from the military bullpen in

Armory hall and placed on the train.
The report that headquarters of the Western Federation of Miners of Denver was about to send \$1,000 to the district to be applied to the support of families of deported miners was discussed to-day by a peace commis and it was decided to recommend to the officers of the Western Federation of Miners that they devote this money to taking the families to Denver and car-

ing for them there. The following special order was issued to-day by Sherman M. Bell relative to the disposition of the men who were deported this afternoon:

Upon receipt of this order Lieut. Col. Leo W. Kennedy, First infantry, N. G. C., will proceed by special train via the Florence & Cripple Creek railway to Canon City, taking with him the persons whose names appear on the lists hereto attached. Upon his arriva! at Canon City he will proceed by the same special train or such other train as may be furnished by the Denver & Rio Grande Railroad Company via the railroads of the said Denver & Rio Grande railway to Sailda, thence to lamosa, thence to the southern boundary of the state of Colorado, where he will deposit the persons whose names appear upon the annexed lists, seeing to it, however, that said persons are deposited upon ferritory within the boundary of the state of Celorado. Col. Edward Verdeckberg, comman

der of the Teller county military dis-trict, to-night issued the following important order: Headquarters Teller County Military District, National Guard of Colo-

"Victor, Colo., June 14, 1904. "Special Order No. 19,
"No organization will be allowed while this county is under military control to furnish aid in any form to the members of any organization or their families in this county unless the same is done through midtary channels. Major Thomas E. McClelland is provost marshal of this military district and he stands ready to receive from any person or organization any money or other supplies which are for distribution to any persons rendered needy by reason of the military occupa tion of this county for the suppressi of insurrection, and all money and other supplies so furnished will be applied to the relief of the persons above eferred to. (Signed)

"EDWARD VERDECKBERG. Colonel First Infantry, N. G. C., Commanding Teller County Military District in the Absence of Brigadier

General Sherman M. Bell." The cause for the above order is due to the fact that since the union gro cery stores in the district were closed by the military, which occurred one week ago last Monday, the Western Pederation of Miners, through its officials in Denver, made arrangement with the grocery house of John Kettelsen in this city to furnish supplies to the destitute or needy families of Miners' Union members who were deported from the district. It is understood that any money or other form of supplies for the union miners here or their families which are furnished by the Western Federation will be handled under the above order.

Preparations are under way here looking to the eventual abrogation of martial law, which it is expected occur within one week. A large num-ber of deputy sheriffs will be commissioned to take charge of the district under Sheriff Bell's direction when martial law is called off, but the number of deputies is not yet known. A list men to act in that capacity is being prepared.

Henry George at Victor. Victor, Colo., June 15.-Henry

George, Jr., representing the New York American, came into camp yesterday afternoon to cover the situation for W. R. Hearst. George has been discussing the situation with prom nent people and last night secured a permit from General Bell to confer with F. J. Hangs, local attorney for the federation criminals now under arrest, which he will make use of

At his request General Bell also readily granted Mr. George a permit to confer with C. H. Moyer president of the Western Federation, now con fined in Telluride as a military pris-oner. After concluding his work here George will go to Telluride to see Mr. Moyer.

On learning of the presence and mis-sion of Mr. George, General Bell today issued a characteristic proclamation in which he instructed all the of-ficers of the militia to treat Mr. George as an honored guest, assuring him ev ery courtesy and attention under military jurisdiction, with every convenience and protection so long as he may desire to remain in the district.

Death of Captain Robinson.

Leadville, Colo., June 15 .- Word was eceived in this city yesterday of the death of Captain S. S. Robinson at Detroit, Michigan. Captain Robinson, who was eighty years old, was a pio eer mining man of Leadville and was well known throughout the West.

IN DEFENSE OF THE STRIKERS

Statement Issued by Secretary Haywood in Behalf of the Western Federation of Miners. Denver, June 14.-Secretary W. D. Haywood of the Western Federation of Miners has issued a statement for sev-

eral eastern papers, in which he sets forth his views with reference to the present strike in Colorado. The executive board of the Western Federation was requested to prepare a statement of their side of the trouble by an Eastern news service which supplies tele graphic matter to more than 200 Eastrn newspapers.

The statement follows in full:

The cause of the strike of the Westdeported left shortly after that hour.

ern Federation of Miners in Colorado is one of long standing and involves the failure on the part of the mine managers in various parts of the state to live up to their own written agreements. As far back as 1894, as a result of the strike at that time, the mine owners agreed that eight hours should constitute a day's work; that the minimum daily wage should be \$3.00 and that there should be no discrimination against union men in the hiring and discharge of labor. At the putset of the present trouble Manager MacNeill of the Standard mill at Colo rado City peremptorily discharged for ty-five men, members of the Western Federation of Miners, for no other reason than that they had become union men. All of these were old employed

of from two to six years' standing. Millmen are affiliated with the Western Federation of Miners and are entitled to all of the protection that goes with such membership. To-day the only questions involved are the enforcement of the eight-hour day, the right of men to organize in the unions and to prevent discrimination against union men of all kinds. The responsibility for the lawlessness connected with the contest rests entirely on the shoulders of the mine operators, the Citizens' alliance and their allies, backed up by the assumed military power of the state government. The responsibility has

placed on these persons and organiza tions by District Judge Theron Stevens, who denounced the military usur-pation in Telluride in strong language from the bench; by District Judge N. Walter Dixon, Republican, who openly condemns Gov. Peabody and severely criticises his acts involving the depor tation of men from the state without trial or other chance of hearing: by ex-Governor Charles S. Thomas, who plainly points to the Mine Owners' Association and Citizens' Alliance as being responsible for the many outrages committed on the persons of helpless and innocent miners; by the recent Democratic state convention, which denounced in scathing terms the

line of policy pursued. The events of the present week in the Cripple Creek district justfy every accusation contained above. The fol-lowing crimes upon citizenship have followed swiftly upon one another:

The resignation of Sheriff Robertson of Teller county, forced by a mob at the point of the pistol, and the coil of the rope; the forced resignation Coroner Doran of Teller County; the city marshal of Victor; of various aldermen and justices of the peace in the district; the entire official direc-tory of the city of Goldfield; assault upon and demolition of the union hall in Victor; foreible entrance into the four union co-operative stores and destruction of the contents; destruction of the Victor Daily Record by an armed mob; invasion of Dunnville, outside the military lines, by armed force under military command; arrest of men at their work and incarceration within the military lines; hundreds of men confined in unsanitary bull-pens forcible shutdown of the great Port land mine, employing union men, by order of the military commandant on the plea of military necessity and sub-sequent deportation of men therein

Concerning the explosion wrecked the depot at independence and killed sixteen unfortunate non-union miners, it need only be said that the self-confessed train wrecker, Mc-Kinney, in the employ of the Mine Owners' Association, had a few days previously been released from custody at the behest of the attorney for the association, and that this same Mc-Kinney was observed going down Pott's canon in the immediate vicinity of the wreckage only a short time after the disaster. McKinney stated under cross-examination during the trial of the union miners who were accused the attempted trainwrecking, that he and other detectives did, that for a money consideration he would pul spikes and wreck a train. Blood-hounds used to follow the trail of the criminal went directly to a house occu-pied by a detective in the employ of the Mine Owners' association and were

promptly called off.
Photographs of marked miners ferred to by General Bell who, he claims, were marked for death, must be regarded as an invention of his own brain. The photographs in question are those of strike breakers and were kept for the purpose of publishing a "scab" list with the pictures of the men ac-companying their description, so that members of organized labor all over the country would become thoroughly acquainted with these men who have committeed treason to themselves and to their class. These pictures are nothing more than those having charge of the strike in the district have put licly used for many months.

Charges that miners are not allowed to vote on questions of strike are ut-terly abourd. As a matter of fact, according to the constitution of the Western Federation of Miners, it is absoimpossible for the executive board to call a strike of its dwn voli-

The present strike to the result of a direct vote of the members of the various unions in the district, which left the matter entirely in the hands of the proper delegated authority for adjudication and settlement. The twelfth annual convention, recently held in Denver, appointed a special investigating committee, consisting of Malcolm Gills of Batte, Montana; H. B. Seaman of Rossland, British Columbia, and R. Allen of Dillon, Wyoming, which com- perience must govern,

mittee made a personal investigation by a visit to the Cripple Creek district only last week and reported to the convention that the constitution of the Western Federation of Miners had been observed in the minutest detail during the entire prosecution of the contest.

Absolutely no deaths have occurred

during the contest for which the Western Federation of Miners can be or ought to be held responsible. Some fitteen men were killed in the Stratton Independence mine through the incompetency of the men employed and the culpable negligence of the management. These men wer unfamiliar with the work and were such as this mine and other mines in the district have been compelled to employ at the beheat of the Mine Owners' Employment Agency. We are unfortunately forced to abid

by the acts of an unbridled military lespetism that is driving our members from pillar to post. Their fortitude un-der the circumstances is the marvel of the age, and shows that the Western Federation of Miners is composed of the highest type of American citizen-Our attitude is fully expressed by the

following telegram:

'Hon. Theodore Roosevelt, President Inited States, Washington, D. C.-A futy devolves upon you as President of the United States to investigate the terrible crimes that are being perpetrated in Colorado in the name of law and ordet. We will render every possible as-sistance to the proper authorities in such investigation, to the end that the people of the country may realize the outrages that are being inflicted on innocent persons by those in temporary

official power.
"W. D. HAYWOOD.

Lynching Narrowly Averted

Denver, June 14.-A News special from Cripple Creek last night says: Late this afternoon a lynching was narrowly averted at Goldfield, when a party of citizens started to secure John Brothers, formerly marshal of the town, who was deposed from office, and Robert McCarthy, the night marshal there, who was also deposed from office. Both of these former officials were arrested last week by the military and were released under military guard until they could straighten up their personal affairs in Goldfield, after which they were ordered to leave the district. The time stipulated for their departure having expired and known was the cause for the gathering of a crowd of citizens there whose pur pose, was, it seems, to lynch both of the men, or at least drive them from the district.

The military, however, was informed of what was going to take place and took charge of both the former officers, and at their request returned them to the bullpen in this city. Both prisoners were later taken to the county jail in Cripple Creek. To-morwill leave for Colorado Springs. Ther is little doubt that if the two men had been secured by the mob they would have been severely dealt with.

Hallsterm and Flood

Denver, June 14.-A special dispatch from Brush, Colorado, last night, says: To-day has been one of sorrow. Never did the crops of the valley look more promising than they did yesterday forenoon before the hallstorm, which was the most severe ever known here, utterly ruined them. The territory covered reaches from Sterling to a point four miles from Brush, a dist-tance of fifty miles. The estimated damage to crops and buildings will easily reach \$100,000. The hall destroyed the composition roof of the Brusk Mercantile Company, the larg est general store building in Brush, and the water ruined a large part of the stock of goods. Many windows were broken out, but the damage in town is as nothing compared with th

Farmers who have come to town say their crops and fruit are a total loss Many report lambs, pigs, poultry and calves killed, and in some instance grown cattle were beaten and bruised until the blood dripped from their

World's Fair Attendance.

St. Louis, June 12.—The statement of recorded admissions for the week ending last night, given out to-night by the World's Fair officials, shows a total of paid and free admissions of 499,228, which is 100,000 more than during any previous week since the Exposition opened. The statement follows:

Monday, June 6 Saturday 97,310

The paid attendance yesterday was the largest since the opening day, the record showing that 68,467 persons paid the entrance fee. On Wednesday, when the Liberty bell was received from Philadelphia and welcomed with ceremony to the Exposition, the number of paid admissions was 61.148.

Speed Departing Quest.

London, June 14.—It is understoo that John Alexander Dowle has de-cided to return to the United States by the first steamer.' In strongly worded denunciatory editorials the London pa pers this morning express unbound satisfaction with Dowie's speedy de-

It is a great mistake to allow pear

trees to overbear. As a rule, gre profits are secured by regular annual yields than by heavy crops during oc-casional years, for at such times the fruit is apt to be generally plentiful and cheap and therefore the profit in handling is small. Thinning not only improves the quality of the fruit of the present season, but prepares the tree to lear better the next year. The thin-ning should be done when the fruit is about an inch in diameter. Look over the trees carefully, taking one brai at a time, First pick off all imperfect fruit and then such as seems to over-E. can be given for thinning trees, but ex-

BUILDING RAILWAYS

STRETCHING SOUTH AND WEST,

Nearly \$1,000,000 Will Be Put Into Thirty New Roads.-Important

Colorado and Oklahoma Line.

Thirty new railroads are now under construction in the southern and western states. Reports from different localities within the past few days indicate that, with rare exception, all of them are being pushed to completion as rapidly as possible. Nearly \$1,000,000 is being put into these thirty new railroads. The greater part of this rum was obtained prior to the business depression of the past few months.

It is estimated that between \$,000 and 10,000 miles of new railroad will be completed in the south and the couthwest this year. In Oklahoma three new lines, aggregating 1,250 miles, are now building.

The most important of these is the Colorado and Oklahoma Line.

The most important of these is the Denver, Woodward & Southwesters, which will extend from Denver across the Indian Territory and Oklahoma to Texarkana, a distance of about 1,000 miles. This road is designed to open up Oklahoma to the surrounding coun

The Missouri, Kansas & Oklahoms railroad is also building an extension of 150 miles from Oklahoma City to the Texas state line. Not the least interesting of the new railway projects is that of the Houston-Galveston Inter-Urban Railroad company, which is building a fifty-mile electric line from

Houston to Galveston. In Louisians a railroad fifty miles long is being constructed from Baton Rouge bridge and a seventy-two-mile line is rapidly connecting Morreauville

and Crowley. Thirteen new roads are building in rkansas with a total of 304 miles. The Arkansas Western is the longest of these, extending from Waldron to Hot Springs, a distance of eighty-two miles. Eastern capitalists are interested in this project, which is designed to make Hot Springs more accessible. The Hoxie, Strawberry River Valley and Western is building fixy-six miles of line from Hoxie to Franklin, Ark.

Three new railroads of importance are under construction in Kentucky. Virginia and Tennessee report two roads each: Chattanooga is to be benefited by a new road seventy-five miles long extending from that place to Oliver Springs, Tenn., with a branch to Harriman and the Rock Island peole are separately interested in the

The Immensity of London. If the city of London were surround ed by a wall, having a north gate, a south gate, an east gate and a west gate, and each of the four gates were of sufficient width to allow a column of persons to pass out freely four required the immediate evacuation of the city, it could not be accomplished under thirty-six hours, by the expiration of which time the head of the four columns would have advanced a no less distance than 112 miles from their respective gates. The head of the column moving north would have reached Lincoln, while the last file was passing out of the London gate.

Ties Trout That Got A way. One of the lines the less ing lady had to, say was, "Here are so ne trout for supper." She was a Southerner and her pronunctation of trout sounded veird to the stage manager. When guest always a guest when visiting ner, Seth Morrison, has a wide circle she had spoken the line at the last of friends and acquaintances releasersal the stage manager asked throughout the county. Mr. Mor- craimly: "What was that, Miss Woth-Roosevelt county's only hope of rison, besides being the bookkeeper e zingay?" "Here are some troot for ever getting Artesian wells lies in for the Blankenship and Woodcock supper," she repeated. "That's the fifth time you've said 'troot,' he remarked icily. "Cut it out. Say fth. and we'll guess at the kind."

> A Plant Witivout Roots. There is a plant in Chill, and a simflar one in Japan, cidled the "flower of the air." It is so called because it appears to have no root, and is never fixed to the earth. It wines round a dry tree or sterile rock. Each shoot produces two or three flowers like s lily-white, transparent and odorifor ous. It is capable of being transported 600 or 700 miles, and vegetates as to travels sur ended on a twis-

THE SMALLEST ON RECORD.

Entire Printed Bible Could Se Placed in Walnut Shell. Probably one of the tirdest MSS. ever recorded was the little Bible in

a wainut shell the size of a small hen's egg, an account of which has been preserved among the Harleian manuscripts by Peter Bales, an Englishman and a clerk of the chancery. It contained as many leaves are a large Bible, and as much reading matter on each page. With a powerful glass it Lanson Terrell could be read easily. The author of this tiniest book on record lived in the fi'me of Queen Elizabeth, and, in 1575, presented her majesty with the Lord's Prayer, the Creed, Ten Coramandmients, two short Latin prayers, his oven name and motto, and the date, all written on a bit of paper the size of a fireger nail, and set in a ring of gold, ocwered with a crystal. In this case als o a magnifying glass made the writing guite legible.

Miss M. Cartledge gives some helpful advice to young girls. Her letter is but one of thousands which prove that nothing is so helpful to young girls who are just arriving at the period of womanhood as Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINEMAM!—I cannot praise Lydia E. Pinkham's Vegetable Compound too highly, for it is the only medicine I ever tried which is the only medicine I ever tried which cured me. I suffered much from my first menstrual period, I felt so weak and dizzy at times I could not pursue my studies with the usual interest. My thoughts became sluggish, I had headaches, backuches and sinking spells, also pains in the back and lower limbs. In fact, I was sick all over "Pinally after many other remedies."

" Finally, after many other remedies had been tried, we were advised to get Lydia E. Pinkham's Vegetable Compound, and I am pleased to say that after taking it only two weeks, a wonderful change for the better took place, and in a short time I was in erfect health. I felt buoyant, full of life, and found all work a pastime. I am indeed glad to tell my experience with Lydia E. Pinkham's Vegetable Compound, for it made a different girl of me. Yours very truly, Miss M. CARTLEDGE, 533 Whitehall St., Atlanta, Ga." - \$5000 forfelt if original of

Hard Working.

it has been said that few men die of old age and that almost all persons die of disappointment, personal, mental or bodily toil, or secident.

The passions kill men sometimes, even suddenly. The common expression "choked with rage," has little exaggeration in it, for even though not suddenly fatal, strong passions shorten life. Strong bedied men often die young, weak men live longer than the life. Strong bedied men often die young, weak men live longer than the strong, for the strong use their atrength and the weak have none to use—the latter take care of them-selves, the former do not. As it is with the body, so it is with the mind and the temper; the strong are apt to break, or, like the candle, run; the weak burn out. The inferior animale, which live temperate lives, have generally their prescribed term of years. Thus the horse, lives twentyfive years, the ox fifteen or twenty, the lion about twenty, the hog ten et twelve, the rabbit eight, the guines pig six or seven.

The numbers all bear proportion to the time the animal takes to grow its full size But man, of all animals, is one that seldom comes up to the average. He ought to live 100 years, according to the physiological law, for five times twenty are 100, but instead of that he scarcely reaches an average of four times the growing period. The reason is obvious-man is not only the most irregular and most intemperate, but the most laborious and hard working of all animals.

He is always the most irritable, and there is reason to believe, though we cannot tell what an animal secretly feels, that more than any other animal, man cherishes wrath to keep it warm and consumes himself with the fire of his own reflections. Health Culture.

Old Soldier's Story

Sonoma, Mich., June 13-That even n actual warfare disease is more terrible than bullets is the experience of Delos Hutchins of this place. Mr. Hutchins as a Union soldier saw three years of service under Butler Barke in the Louisiana swamps, and as a result got crippled with rheumatism so that his hands and feet got all twisted out of shape, and how he suffered only a rheumatic will ever know. For twenty-five years he was in misery, then one lucky day his druggist advised him to use Dodd's Kidney Pills. Of the result Mr. Hutchins

The first two boxes did not help me much, but I got two more, and before I got them used up I was a great deal better. I kept on taking them and now my pains are all gone and I feel better than I have in years I know Dodd's Kidney Pills will cure rheumatism."

Say, pa, what's an idiom?" 'That's the Latin meanin' for more than one idiot. I don't know what your're goin' to school for if they don't learn you them kind of things there."

Every housekeeper should know that if they will buy Deflance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz .- one full pound-while all other Cold Water Starches are put up in %-pound packages, and the price is the same, 10 cents. Then again because Defiance icals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 ozs." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

Don't you think Mr. Sirius Barker is very hard to please?" "No," an swered Miss Cayenne. "He seems very well satisfied with himself

There is more Catarrh in this section of the country There is more Catarrh in this section of the country than all other diseases put together, and ustil the last few years was supposed to be incursible. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incursible. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hali's Ostarrh Cure, manufactured by F. J. Cheney & Co., Tofedo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it falls to ettre. Send for circulars and testimonials.

Seventy-Five Strikers and Sympathic era Essorted Esyond Kanasa Line by National Guard. Victor, Colo. June 11.—The follow ing order was issued by Adjt. Gen. Sherman Bell yesterday "Headquarters Teller County Military

District, National Guard of Colorado, Victor, Colo., June 10, 1904.

Special Order No. 6.

"Col. Leo W. Kennedy: "You will proceed by the Colorado

Springs & Cripple Creek District railway to Colorado Springs, thence by the Atchison, Topeka & Santa Fe railway to the east line of the state of Colorado, taking with you the parties on the list herewith attached, and there deposit them without the state of Colorado, returning at once to these head-quarters and make your report to me.

By command of "SHERMAN M. BELL,

Brigadier General, Commanding Teller County Military District." The seventy-five men whose names appeared on the list referred to in the

district yesterday afternoon: The men had previously been sub-mitted to a rigid examination by the committee of inquiry, and while not found guilty of specific crimes for which they might be held amenable, were adjudged undesirable citizens and fit subjects for deportation.
Of the seventy-five men, only four

were sent from Cripple Creek yesterday. This small number is accounted for by the fact that the committee of inquiry held its first sitting in Cripple Creek yesterday morning and the greater number who were brought before it were remanded for further investigation, or ordered taken to the

The deportation party, consisting of about 150 deputies armed with rifles, marched the prisoners from the Mining Exchange hall in Cripple Creek, where bey have been confined, to the Flornce & Cripple Creek depot, where a special train was in waiting, at about 2 o'clock. Sheriff Bell was present, while the special guard of twenty-five picktd men who were to accompany the deported party to their destination were in charge of Deputy Sheriff D. H.

A large crowd of citizens lined the streets as the men in double file escortit the prisoners to the train.

The destination of the men was not made public until after the train had passed Colorado Springs. and the prisoners were in ignorance their destination and their trans-state

AARON GOVE RESIGNS.

Noted Educator Retires After Service of Thirty Years. Denver, June 11.-After thirty years'

service at the head of the school system of Denver, Aaron Gove tendered his resignation as superintendent of District No. 1 at a meeting of the Board of Education held last evening. The resignation, which was presented by Attorney Caldwell Yeaman, representing Mr. Gove, was accepted by a vote of 3 to 2. Mr. O. H. True and I.

and Dr. P. V. Carlin and Ben C. Hilhard against, forcing President Thomas Keely to cast the deciding vote. COST OF STRIKES

Figured at Over Twenty-Three Million Dollars in Sixteen Months.

Denver, June 11.-The Republican in an article on the labor troubles in Colorado estimates the cost to employers, employee and the state at large as follows:

Colorado City Strike. State's expense.....\$ 26,000 Loss to men in wages 750,000

Cripple Creek Strike. State's expense..... \$ 400,000 Loss in wages to union men 4,000,000 Loss in wages to other labor 3,000,000 Denver and Pueblo Smelter Strike,

Loss to smeltermen and min-Loss to dependent labor Telluride Strike.

State's expense..... \$ 175,000

Loss to union miners..... 1.750,900 Loss to dependent labor..., 850,000 Coal Miners' Strike.

State's expense..... \$ 35,000 Loss in wages to miners.... 4,000,000 Loss to steel works employes 1,000,000 Loss to men in allied trades 1,500,000 Loss to employers, through idle capital, interest, profits, etc. 5,600,000

Total cost in dollars of Colorado's sixteen months of labor trouble\$23,036,000

Two Robbers at Large.

Denver, June 11.-A Glenwood Springs dispatch last night says: The officers in search of the train robbers spent a fruitless day in pursuit of them and many of them returned to Glenwood Springs to-night much discouraged and expressing the fear that the bandits will-make their escape. This morning the Leadville blood hounds were put on the trail, but they were unable to follow it and were not used. Tracks thought to be those of the robbers were found leading toward the river and guards were stationed along the river roads and a sharp lookout kept by them, but none of the

posse got sight of the robbers during the day. According to a Vladivostok dispatch much excitement has been caused by the reported discovery of gold in the vicinity of the mouth of the Amur river. Several hundred prospectors have already gone to the locality and others are starting.

MORE DEPORTED CATARRH IS THE CAUSE SENT SEYOND THE STATE LINE OF MOST KIDNEY DISEASES.

PE-RU-NA CURES CATARRH.

Captain James L. Dempsey, Captain 2nd Precinct Troy Police Force, writes from 198 Ferry St., Troy, N. X., as follows: N. Y., as follows:

"From my personal experience with Peruna I am satisfied it is a very fine remedy for catarrhel affections, whether of the head, lungs, stumech oppolic organs. It cures colds quickly, and a few does taken after undue exposure provents liness.

"Some of the patrolmen under me have also found want railed from Perusa. found great relief from Peruna. It has cured chronic cases of kidney and bladder troubles, restored men suffering from indigestion and rhoumatism, and I am fully persuaded that it is an bonest, reliable medicine, hence I fully endors and recommend it."

JAMES L. DEMPSEY.

Officer A. C. Swanson writes from 607 Harrison St., Council Bluffs, Ia., as follows: "As my duties compelled me to be out in all kinds of weather I contracted a severe cold from time to time, which settled in the kidneys, causing severe pains and trouble in the pelvic organs.

"I am now like a new man, am in splendid health and give all praise to Peruna."—A. C. Swanson.

CAPTAIN JAMES L. DEMPSEY

"I came here a few years ago suffering with catarrh of the kidneys, in search of health. I thought the climate would cure me, but found I was mistaken. But what the climate could not do Peruna could and did do. Seven weeks' trial convinced me that I had the climate could not the could be seen weeks' trial convinced me that I had the climate could not the could be seen to the right medicine, and I was then a well man. I know

of at least twenty Friends and members of the tempt to which I belong who have been cured of catarrh, bladder and kidney trouble through the use of Peruna, and It has a host of friends in this city." SAMUEL R. SPRECHER. Catarrh of the Kidneys a Common remedy. The trouble may be catarrh sician are received by Dr. Hartman Disease - Kidney Trouble Often Fails to Be Regarded as Catarrh by

Physicians. Catarrh of the kidneys is very common indeed. It is a pity this fact is not better known to the physicians as well

People have kidney disease. They take some diuretic, hoping to get better. They never once think of catarrh. Kidney disease and catarrh are seldom associated in the minds of the people. and, alas, it is not very often associated in the minds of the physicians. Too few physicians recognize catarrh of the

Btick to Colorado.

Don't he deluded. Don't go a thousand miles, far from rallroads and markets to find a location. Go where you can take your tools and stock to start with. Colorado is and always will be better than Idaho or Wyoming. We have good land, absolutely no alkali, right on the railway line, with splendid markets, a good potato country, water rights dating back to 1855, which we sell cheap and on easy terms to good farmers. Conejos County Land and Investment Company, Zeph. Chas. Felt, president, \$16 Majestic Building. Denver, Colorado.

First Deacon-I wonder why it

that we have so many pennies in the collection? Second Deacon—The only reason I know of is because we have

Mrs. Windlow's Soothing Syrup.
For children teething, softens the gures, reduces in-flammation, aliays pain, cures wind coite. 25c a bottle.

Angel cake is a square meal on the honeymoon; afterward nothing will do but steak and fried potatoes.

Piso's Cure is the best medicing we ever used

of kidney difficulty. Remove the cause and you remove the effect. With unerring accuracy Peruna goes right to kidneys. They doctor for something

would cure them.
