Onion Harvest Begins

There were tears in the eyes of Dimmitt's vegetable workers Saturday, but they were the happy tears of the onion harvest.

AFTER BEING delayed briefly by wet ground, onion processing kicked off Saturday to lead Castro County's 1967 vegetable parade.

Apparently, the vegetable harvest will be a rich one.

La Mantia-Cullum-Collier & Co., Inc., which has contracted for 230 acres of onions with 16 growers in

Castro County, had already loaded and shipped 18 refrigerated rail cars of onions by Tuesday evening.

HOMER WEST, local manager of the vegetable firm, reported that 14,563 sacks of large and medium sweet onions were loaded in the first three days of processing for shipment to "all points east," where they will be sold through supermarket chains under the "Sugar Sweet" label.

West said the Castro County on-

ions will probably be available at local stores also.

He said the 740,700 pounds of large, firm onions processed so far have come from the fields of Fred Bruegel Jr., J. C. Newton, Jess Willard, H. L. Wilson, Stephen & Mason and H. C. Davis.

West said the onion harvest should reach full swing the middle of next week and will probably wind up about Aug. 15.

IN OTHER vegetable fields throughout the county, cabbage is now being harvested, and the carrot harvest is expected to start the latter part of next week. La by wet ground, onion processing contracts for these vegetables.

Ground is also being broken now in the county's potato fields, although processing isn't expected to start until next week.

New Church Has 'Showing' Sunday

More than 130 persons from throughout the area, including six ministers, gathered in Dimmitt Sunday afternoon for the open house of Iglesia de Cristo, Dimmitt's newest church.

THE LARGE brick church at Northeast Third and Lee was built at a cost of \$17,500 by the Fourth and Bedford Church of Christ, and was constructed by James Studer.

It's Spanish-speaking congregation, which currently numbers about 20, has been meeting in the new, modern church building for the past month. Spanish language services are conducted at 10 a.m. and 6 p.m. each Sunday and 7:30 p.m. each Wednesday.

Main speaker at Sunday's open house ceremonies was C. S. Zuniga of Plainview, minister of the Plainview's Date Street Iglesia de Cristo.

MINISTER of Dimmitt's new-

est church is Max Zamorano, 22, a July graduate of the Sunset School of Preaching in Lubbock.

As a ministerial student supported by the Fourth and Bedford congregation, Zamorano has served the local Spanish-speaking congregation on weekends for the last year and a half, along with V. E. Morin, who organized the congregation in 1964.

The son of a Church of Christ minister, Zamorano is looking forward to a father-son revival service in the new church this summer. He was born in Monterey, Mexico, and grew up in Texas cities where his father served as a minister.

ZAMORANO lived in Dimmitt last summer, working full time with the congregation under the sponsorship of the Fourth and Bedford Church. He and his wife, live at 506 W. Bedford St.

Team of Judges Selected For Miss Grain Sorghum Pageant

Judges have been selected for the eighth annual Miss Grain Sorghum of the Nation Pageant, according to Pageant Chairman, Bob Bryant.

HEADING the list of judges is Miss New Mexico, Clydia Newell of Clovis. She was a contestant in the recent Miss USA Pageant.

Also in the panel of judges is Johnny Shipman from the student publications department of Texas Tech.

Completing the three-member team is Don Patterson of Guymon, Okla.

MEMBERS of this year's pageant committee, in addition to Bryant, are Mrs. Martie Benton, Wade Maynard, Mrs. Dorothy Magness and Vaden Kirby. Pete Wright is in charge of publicity and Carl Bruegel is the Chamber of Commerce representative on the pageant committee.

Marilyn McLeroy Among Top 4 In 4-H Dress Revue

Marilyn McLeroy, 15-year-old daughter of Mr. and Mrs. Edd McLeroy, was one of four girls selected in the district 4-H Dress Revue Tuesday in Amarillo to represent this district in state competition.

MISS McLEROY competed with 18 other senior girls in the district and will compete in the state revue October 7 in Dallas.

This is the first time in about six years that Castro County has been represented in state competition, according to home demonstration agent, Mrs. Irene Keating.

Mill Plan Hits Snag

Directors of Dimmitt Wheat Growers, Inc., have hit another snag in their long, frustrating efforts to build a multi-million-dollar grain milling plant here.

THE LATEST blow, although not necessarily fatal to the ambitious project, crippled the board's new plan for financing the mill and locating it in Dimmitt.

The setback came at the final commitment stage, just when the board felt it had finally tied together the lengthy financial strings for a second time.

Aaron Isaacs, secretary and general manager of the cooperative, described the loss of an important financial source as "a

● Deck the Halls, Fa La-la-la...

The Chamber of Commerce has started working toward getting new Christmas decorations for Dimmitt.

JERRY WARREN, chairman of the Chamber's retail trade committee, is canvassing downtown business men to get their feelings and how much can be raised to help buy the Christmas street decorations.

At Friday morning's chamber board meeting, President Don Newman also appointed Directors Earl Brock, Wes Anthony and Ray Pool to assist Warren in his canvass.

NEWMAN said the chamber will cooperate with merchants to buy the decorations. He said the decorations being studied — large, scroll-type light pole ornaments — will cost approximately \$3,500. These ornaments will utilize the c'd lighted garlands, he said, and new garlands will be bought to span the downtown streets.

bitter disappointment after so much work and money has been put into this project."

IN A LETTER to Wheat Growers stockholders, Isaacs said, "We have exhausted all means of building the plant ourselves. Our intent now is to salvage the money invested in the project and find alternate ways to build the plant."

He told the News that the plant will probably still be built, "but whether it's built here or not is another question."

"We have reached a decision that it will be impossible to build the plant as previously planned," he said in his letter to stockholders. "We feel the only alternative is to row down a joint venture as a cooperative group or a joint venture with some other company."

ISAACS SAID that building the automated grain mill as a joint venture with other cooperatives would probably mean Dimmitt would be passed over as the mill site, in favor of some other area city with better rail connections.

He added, though, that "we haven't made any firm commitments with any business firm or cooperative yet," and said the Wheat Growers board is searching for another company willing to become a partner in the proposed mill operation.

THE BOARD originally lined up Union Starch & Refining Co., of Columbus, Ind., as a partner

when the mill plan was first announced. Union was to provide the engineering, plant management and marketing team for the new plant, and the cooperative was to own the plant and provide the grain sorghum for its production.

But just before the final con-

Talent Contest Set August 12

Plans are now being made for a county-wide talent contest to be held during the annual county celebration Aug. 11-19.

THE CONTEST is set for Aug. 12 at the high school auditorium. Competition will be divided into three age groups, according to Bill Henderson, who is in charge of the event. The first group, ages 6 to 11, is under the direction of Mrs. Helen Richardson, and participants in this bracket should turn their entries in to her.

Ike Moore is in charge of the 12-16 year age bracket, and Don Nelson will direct the adult division, ages 16-21.

HENDERSON said participants must be residents of Castro County, and at least half of the members of a group entry must be county residents.

Entries may be turned in to any of the three department directors, to Henderson or to Bob Huckabay. Henderson said they would like to have all entries by July 24. Need of special equipment such as record players or sound equipment should be specified, he said.

NO CASH prizes will be awarded, to avoid conflict with University Interscholastic League rules applying to students. Trophies and ribbons will be awarded to the winners.

Admission to the show will be \$1 for adults and 50 cents for children. Gate receipts will be used to defray expenses of the Old Settlers' Reunion or will be turned over to the County Activities Committee fund, Henderson said.

tract stage, Union unexpectedly merged with Miles Laboratories, Inc., late last year and Miles dropped the grain mill project.

Without Union's partnership, the Wheat Growers board had to start from the midway point of planning again and go after new sources of financing. Directors thought they had the financing worked out until it fell through

at the "round table" stage two weeks ago.

ISAACS SAID a stockholders' meeting will be called later this month to review the ambitious plan and the problems that have beset it.

"We hope to be able to determine which way the project will go by the time we have the stockholders' meeting," he said.

Pianist Gains National Title

After taking top honors in Area I and in Texas, Janice Mooney has been named National FHA Pianist at the convention of the Future Homemakers of America now in progress in Los Angeles.

THE DIMMITT High School sophomore was one of two girls selected to accompany the National FHA Chorus. The co-winner was a high school junior from California.

One of 107 Texas delegates, Miss Mooney left Saturday night for convention headquarters at the Biltmore Hotel in Los Angeles. She phoned her parents Monday afternoon to tell them of her success.

She previously had won the title of Texas FHA pianist, and competed this week with top pianists from throughout the Nation.

HIGHLIGHTS of the national meeting included a Henry Mancini concert and a guided tour of Los Angeles. The convention will wind up tonight (Thursday) with a banquet.

Miss Mooney's parents, Mr. and Mrs. Bob Mooney, will join Janice in Los Angeles for a trip to San

Teacher and Brother Hurt, 2 Killed in Oklahoma Wreck

Mrs. Karen Cockerham, South Elementary School teacher, and her 6-year-old brother, Kyle, were injured near Hollis, Okla., Monday morning in a car-pickup accident that took the lives of two Hollis men.

MRS. COCKERHAM'S son, Brett, also 6, was a passenger in the car but was not injured.

Two elderly Hollis brothers, passengers in the pickup, were killed in the crash. Tom Gillentine, 86, and his brother, Jim, 84, died Monday in Harmon Memorial Hospital in Hollis.

THE DRIVER of the pickup, Floyd King, was treated and released.

Mrs. Cockerham and her brother were treated at the Hollis hospital, but were transferred Tuesday to the hospital in Hobart, where they are listed in satisfactory condition.

Mrs. Cockerham, suffered lacerations on the chin and shoulder, and her young brother received a concussion.

HER HUSBAND, Jerry, a Dimmitt Junior High School teacher, was working in the Migrant Health Office here while Mrs. Cockerham and Brett visited relatives in Hobart and Hollis. He left for Hollis Monday morning.

According to investigating officers, the King pickup was traveling north on Oklahoma 30, 15 miles north of Hollis, when it collided

with the right front of Mrs. Cockerham's late-model Volkswagen, which was going west on Oklahoma 9 at the intersection of the two highways.

All three of the Oklahoma men were thrown from the pickup.

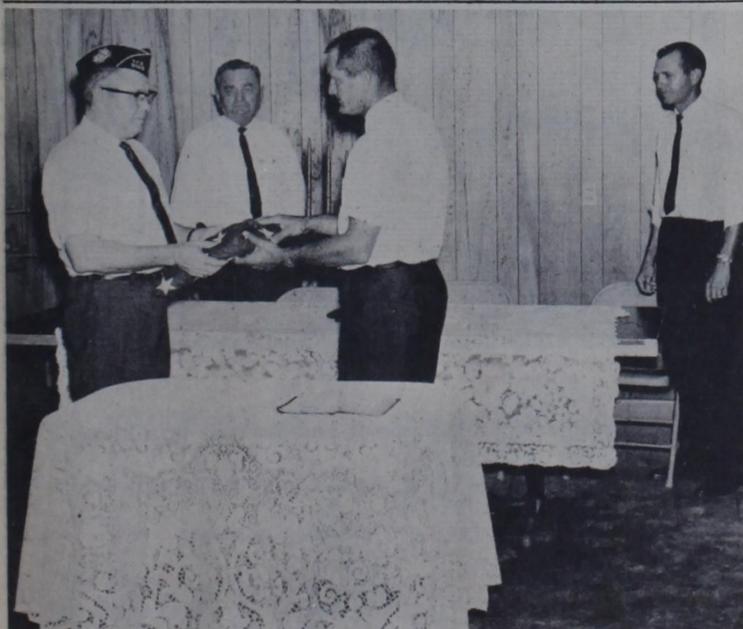

Wheat Harvest Is Complete — And Below Par

Harvest totals on Castro County's 86,000 acres of wheat land show this year's crop a mere shadow of the 1966 harvest.

TOTALS dropped as much as 50 percent, according to grain elevator operators all over the county. Average bushels per acre ranged from 25 to 40, they said.

Dimmitt Wheat Growers and Hart Grain Co., reported the lowest totals, with drops of 45 to 50 percent of last year. Farmers Grain Co. at Hart reported the least drop — only 20 percent under 1966.

Bruegel & Sons Elevator Co., reported its totals to be 65 percent of last year. Sunnyside Grain Co. gave no percentage but reported the average bushels per acre at 30.

'FROM PILLAR TO POST' is the rich story of a new flag presented Friday to Dimmitt's VFW Post 8056 by Bruegel & Sons Elevator Co. The flag originally flew over the nation's Capitol in Washington, D.C. Here, Fred Bruegel Jr. (right foreground),

a VFW member, presents the flag to Post Commander R. V. McMahon Jr. in ceremonies at the post home. In background are Fred Bruegel Sr. and George Derrick (right), senior vice-commander of the post.

UP GOES OLD GLORY for the first time since it flew over the Capitol Building, with Bud Griffin doing the honors. The 5x8 silk flag was secured for Bruegel & Sons Elevator Co. by US Sen. John Tower, and was accompanied by a letter from J. George Stewart, Architect of the Capitol, certifying that it had originally flown over the nation's Capitol.

Bible Thoughts
DESTROYING OURSELVES
By Ronnie Parker
Hosea once cried, "My people are destroyed for lack of knowledge" (Hosea 4:6). A later statement of his was, "Oh Israel, thou hast destroyed thyself." (Hosea 13:9).
Without a knowledge of God and things Divine a person can only grope in darkness. Too many people remain content without a knowledge of God and His word simply because of an unwillingness to pay the price for knowledge. Diligent study and effort must be made for the knowledge of God does not just come by accident.
If we would know God and His word, constant study, prayer, meditation and devotion toward things Divine is required. We must have a regard for deep Bible study. Many of us pick up our Bible and read at random a chapter here and there and lay them down. At intervals we repeat the process and wonder, after years of such practice, why we know so little about our Bible.
Constant, systematic, methodical searching for truth is the price of knowledge—without which we destroy ourselves. We must begin now to open and study the book of God at home and in Bible study.
At the Fourth and Bedford Church of Christ classes for all ages are held on Sunday morning at 9:30 and on Wednesday evenings at 8:30. You are welcomed at anytime!

MR. AND MRS. J. M. LAIN ENJOY CHAIRS Handmade rockers now in third generation of use

Hickory Rockers Are Almost 100

Two hickory rocking chairs estimated at almost 100 years old, stand in the yard of Mr. and Mrs. J. M. Lain, 403, SW Sixth.

THE CHAIRS were handmade by Mrs. Lain's grandfather, Jacob Ramsey, in Honey Grove, Texas, near Gainesville. Ramsey, a carpenter, cut and bent the hickory himself.
At his death in 1944, the chairs were passed down to Mrs. Lain's uncle, Egbert Ramsey, who remembered playing on the chairs as a child. He died several years ago at the age of 85.
The backs and seats of the chairs had been laced with the hickory bark that has since rotted out and been replaced with wires, with the exception of one chair back.

RETURN FROM CONVENTION

Rev. and Mrs. Bedford W. Smith of the First Christian Church have returned from the North American Christian Convention held in Tampa, Fla., June 28-July 2.
They visited relatives in Texas, Oklahoma and Arkansas both enroute to the meeting and on the way home.
Cara Lee and Richard Lee Koele of Cushing, Okla. came home with their grandparents for a visit in Dimmitt.

The Carpenter's FRIEND
To build... one must have plans, and plans give exact measurements. The carpenter who makes careful measurements finds that the work is made easier. Careful measuring prevents waste... waste of time and materials. Therefore the measuring device is truly a friend to the carpenter.
The church wants to be your friend, and help you to a easier and better way of life. The Bible clearly gives us a way to measure life. Through many centuries man has found no better rules than those given in the Bible.
Attend church and receive the friendly welcome that awaits you.
The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Sides to Host Open House Sunday

By MYRTLE SHEFFY
George and Carolyn Sides are extending this invitation to attend their open house Sunday from 3 till 5 p.m.

SANDY BRUEGEL, who is with brother Mike and John Howell attending school in Hawaii, writes me they are having much fun, meeting many interesting people and boys.

Alice Anthony, Elizabeth Huckabay and Helen Richardson are at Helen's place in Ruidoso this week. They are painting pictures. There is a big art colony at Ruidoso I hear, also horses and skiing, big pine trees, hills and rivers on and on.

Sydney and Pam Harrison of Odessa are here for a few week's visit with grandparents, Earl and Margie Harrison. They are Tom and Doris' kids.

Mrs. Elvis (Jennie) Burch writes from Hawaii to the Cecil Vandivers that she is a grandmother of a boy, son of Jesse Airforce stationed in Hawaii. Jesse Burch who is with the Navy and wife have another son. The Elvis Burchs, longtime residents of Castro County, live in Colorado now.

Cecil also told me that Sam Lane was the lucky winner of a FM-AM radio and record player (Monday I think) which was given by Dimmitt Parts and Supply at the bank program.

Mr. and Mrs. Joe Paul Weatherford and children went up to Red River for a few days, then plan to go to Missouri to visit relatives.

MRS. LEOLA HABERER was hostess at a dessert and '42' party Friday night. Her guests were Messers, and Mesdames P. L. Cunningham, who won high score, Wes Anthony, No'an Froehner, George Bradford, Sid Sheffy, Ira Brown, Ann Singer, Cletha George, Ethel Womack and Ruth Wilson.

I hear that Lena Ramey at her daughter Decima Beene of Friona are on a trip to Hawaii, a gift from husband and father, Edwin Ramey.

Mrs. Ira Clingsmith and Mrs. N. A. Clingsmith were in Amarillo Thursday to visit Ira, who is in St. Anthony's Hospital for throat treatment.

Nick and Alivia Gonzales have bought the Heoten house on West Grant. Nick is manager of Anthony's. The Heotens moved to Canyon, where Donald will attend school at WTSU.

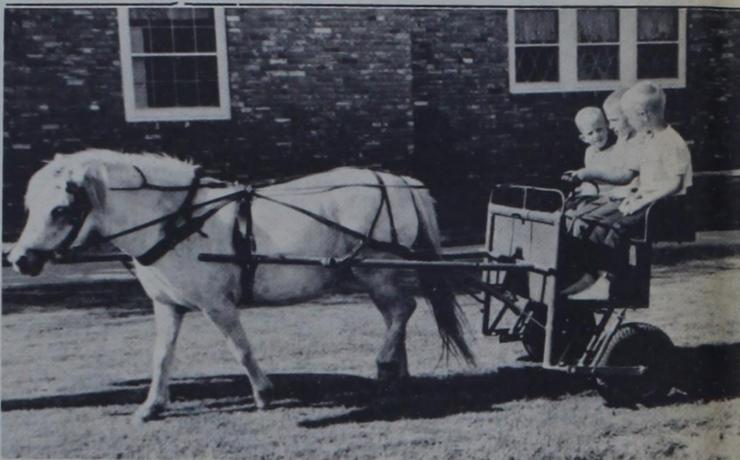

Mr. and Mrs. Joe Arguayo visited his parents in Brownfield last weekend. Joe is also at Anthony's.

JERRY AND Dale Munde'l of Clovis, are visiting for a few weeks with their grandparents, Mr. and Mrs. Marvin Munde'l. The boys are the sons of Earl V.

The M. E. Cleavingers, the Norman Cleavingers and the brothers and sisters are spending this week at their place at Tres Ritos, N.M.

Gladys Benson visited her parents Mr. and Mrs. A. T. Jones in Hereford a couple of days. She also visited her friend, Mrs. Eugene Morton, who has been ill.

Lee and Bell McAfee spent the weekend with son Mr. and Mrs. J. Lee McAfee and girls at marillo. The McAfees also saw Charlie and Jean Coffman at

JOE DEE JOHNSON

Dimmitt FFA Boy to Compete In State Convention Contest

Joe Dee Johnson, 1967 graduate of Dimmitt High School, will represent Dimmitt and Area 1 at the state FFA convention in Dallas July 19-21.

JOHNSON will compete in the farm machinery repair competition of the agriculture cooperative part-time training program.

He was named area winner at the Area I FFA convention recently in Amarillo.

Now a full-time employee of Dimmitt Engine Service, Johnson was employed with that firm during his last two years in high school while enrolled in agricul-

ture cooperative part-time training. OTHER DIMMITT FFA'ers planning to attend the state convention are Johnny Davis, chapter president, Darrell Pope, Tommy Martin, Keith Gross and Larry Bills, voting delegate. Pope, Martin and Gross are candidates for the Lone Star Farmer.

'Senseless' Drownings Set Record

Drownings have soared upward at a record rate with 38 deaths recorded during the last three weeks, according to Robert G. Mauermann, deputy director of the Texas Parks and Wildlife Department.

UNOFFICIAL records kept by the department show 63 drowning deaths occurred during the past six weeks, while 69 persons drowned previously in 1967.

The total now stands at 132 drownings so far in 1967. The total for all of 1966, as registered by the department, was 236.

Records indicate that drownings are more numerous during the peak outdoor recreation period from Memorial to Labor Day.

WITH TWO long holiday weekends and 10 weeks of prime outdoor recreation time left, the total drownings could reach the 300 mark for the year, department sources say.

The department cites carelessness and exceeding one's limitations in swimming as being the greatest causes of drownings.

As an example, a small fishing boat with four persons aboard swamped due to heavy waves and wind. Three held on until rescuers arrived, and one drowned. None wore life preservers.

ANOTHER man was sleeping on the deck of a large boat. He rolled over, accidentally fell into the water and never surfaced.

Two fishermen, seining on the Texas coast, were caught by undertow. One's body was recovered the following day, the other's five days later. Neither wore life saving devices.

Another two fishermen rented a boat in a large Texas lake. The motor conked out midway across the lake. One jumped overboard to check the prop and meanwhile choppy water and wind moved the boat. The swimmer couldn't make it back to the boat, even though his companion threw a life preserver.

YOUNG CHILDREN on family outings make up a high percentage of the drowning death list. In most cases, a youngster ventures too far from shallow water, steps into a deep hole or off an underwater ledge and drowns.

Donna Summers On Dean's List

Donna Summers, daughter of Mr. and Mrs. Elbert Summers of Route 1, Dimmitt, has been named to Abilene Christian College's Dean's Honor Roll for the spring semester.

TO ACHIEVE this honor, a student must take at least 12 semester hours and have a 3.5 grade point average out of a possible 4.0.

Miss Summers is a freshman business major at the college. She was valedictorian of the 1966 graduating class of Dimmitt High School.

Pheasant Crop Appears Good Despite Hail

Texas Parks and Wildlife Department personnel remain optimistic about the fall ring-necked pheasant crop in the Panhandle, despite severe weather setbacks in some areas, according to Wildlife Biologist Phil Evans.

DESPITE weather losses, production of young has continued with above average regularity, Evans said.

Evans reported numerous broods of very young pheasant chicks along roadsides in irrigated areas north of Dalhart and Dumas in early June. Heavy hail swept across the northern Panhandle in late June, killing many of the birds.

One landowner, north of Hereford, reported 15 adult ringnecks killed by golf-ball sized hail. Much larger hail was reported in eastern Panhandle areas.

Severe summer storms are an integral part of the High Plains weather but usually are not widespread. Therefore, wildlife losses from storms are generally low, according to Evans.

A SECOND conference to assist local officials on the Gulf Coast in their hurricane preparedness planning has been scheduled by the Department of Public Safety for July 13 in Galveston.

Russell Burwell

Burwell Joins B&R Law Firm

Russell Burwell, 1967 graduate of the University of Texas Law School, became the third member of the Burkett and Ross law firm last week.

Mr. and Mrs. Burwell and son, Rusty, 3, moved into their new home at 720 Oak about two weeks ago.

BURWELL DID undergraduate work at Tarleton State College in his hometown of Stephenville for two years before transferring to the University of Texas. His law studies were interrupted in 1964 when he began two years of Army service.

Burwell returned to Texas after completing his military service and received his law degree in June of this year.

His wife is also a graduate of the University of Texas with a degree in business education.

West Texan at Expo

Inside the Pavilions

By JASPER SANDER (Fourth of six articles.)

It is hard to convey the vastness and variety of Expo 67. ACCORDING to the Montreal Gazette, Expo played host to 215,460 people yesterday, a week day. The record day was Sunday, April 30, when 569,500 visitors attended.

Despite the mammoth crowds, the lines move quickly and there is little waiting. The total attendance figures were already nearly 12 million by June 14.

Perhaps we are painting too rosy a picture of things here, but it is a memorable, rewarding experience. After a year's rest we may be ready to tackle the HemisFair at San Antonio.

A FEW DAYS before we arrived there was a bomb scare at the Cuban pavilion. A small device exploded but did not damage. The Cuban pavilion was one of the few in which we could find few redeeming features. It seemed to be about 99 percent propaganda.

The interior of the Chinese pavilion was heavily damaged by fire of undetermined origin a few days ago also. Workmen are busily repairing it.

KUWAIT, a small country on the shores of the Arabian Gulf where people depended on pearl fishing and seafaring until a few short years ago, is now the world's second largest exporter of oil. Because of the war situation, Kuwait has closed up shop and gone home.

There are some 250 attractive hostesses and guides at Expo to welcome, direct and escort visitors. In addition, 30 male guides are on duty. More than 9,000 students are employed on the grounds in various jobs. Maybe we'll just leave our son Dave up here when we head back to Texas. The minimum wage is \$1.60 and David is looking for a summer job (when he isn't looking at the Canadian girls).

THIS IS A risky business, but I believe I will try to evaluate some of the exhibits and pavilions as they appeared to us. It is well to remember that there is something for everyone at Expo 67. The six members of our family were often not in agreement over what was excellent, good or mediocre.

The environment of the fair is excellent, situated on two islands and a bit of mainland. Fresh breezes blow in from the surrounding St. Lawrence River. The grounds are paved and clean. The colorful throngs of people are continually faced with the pleasant problem of which interesting thing to see or do next.

AFRICA PLACE in Expo has special tourist appeal, for there is no part of the world with more glamor and color.

Fourteen nations are housed in this complex with each having a separate entrance. I could have spent days here observing the mixture of old and new, pagan and Christian superstition and progress that was an integral part of all these exhibits. Some I especially remember are Kenya, Uganda, Togo, and Tanzania. Many of these people were in native dress and graciously posed for pictures with visitors.

The wood carvings and other art forms of the Africans are often of high quality. Of course, pictures and stuffed figures of snakes and big game were much in evidence. I examined the skin of a boa constrictor that was about 30 feet in length.

WE VISITED the State of Maine pavilion, colonial in appearance, and not too big. A mountain stream operates the water wheel of a grist mill and then cascades down waterfalls through the center of the pavilion.

Revolving islands in each of three pools show animated illustrations of the recreation that Maine offers — hunting, fishing, camping, and beach fun. Solid entertainment was our verdict.

NEW YORK Pavilion? I plead the Fifth Amendment. Maybe we were just too "square" to understand it.

The Pavilion of Economic Progress was thought provoking. Did you know it took hundreds of people to give you a cup of instant coffee? How about that? Are you aware of the vast stores of food, medicine, and other products we harvest from the watery depths of the sea? Me either, I confess.

Next week: La Ronde for sure. Sorry we didn't get it today.

FEAR OF SCABIES infections has resulted in massive visual inspection of cattle in the Panhandle and clearance of herds by the Texas Animal Health Commission and the U. S. Department of Agriculture.

STEVE BIRDWELL of the Giants foul tips a pitch during the bottom of the ninth inning in Saturday night's Giants-Indians Pony League game. Birdwell drew a walk, but was stranded on base as the league-

leading Indians put out the fire and won a 16-4 victory to continue their march toward the league championship. The Indian catcher is Kenny Doss.

Pony All Stars Named; Indians Dominate List

The league-leading Indians dominated the 1967 Castro County Pony League All Star Team with eight players on the dream squad.

THE ALL STAR team, announced Tuesday night after the Indian-Pirate tilt, also includes three boys from the Pirates, two from the Giants and two from the Nazareth Tigers.

Castro County's Pony All Stars already have their playoff schedule. They'll meet Littlefield July 24 at 8:30 p.m. in Littlefield, in the first round of the District 1 tournament.

Pony League adult leaders who will guide the all star team into

the playoffs are Charles Doss of the Indians, manager; Earl Buchanan of the Pirates, coach; and Oscar Wylie, league vice-president, business manager. Carroll Webb is the players' agent.

THE ALL STAR lineup: Mark Wehlgemuth, Indians pitcher and infielder.

Kenny Doss, Indians pitcher and catcher.

Charles Lane, Indians catcher.

Randy Griffith, Indians outfielder and infielder.

Perry Floyd, Indians first baseman.

Kent Bradford, Indians infielder and pitcher.

Jeff Myers, Indians outfielder.

Notie Ames, Pirates pitcher.

Steve Montgomery, Pirates first baseman.

Daniel Friersten, Pirates first baseman and pitcher.

Pat Barrios, Pirates outfielder.

David Nino, Indians, infielder.

Rex Alsop, Giants, Outfielder and pitcher.

Gordon Wilhelm, Tigers, outfielder.

Tommy Aberant, Tigers, catcher.

THE INDIANS have a firm grip on first place and seem headed for the league championship.

If they win it, they'll be the third team to capture the title in the Pony League's four-year existence here. The Giants won the pennant the first two years and the Pirates were last year's champs.

The Indians, coached by John Weed, are sponsored by Castro Co-op Gin and Killingsworth Builders Supply. Northern Gas Co. sponsors the Giants, who are coached by J. R. Matthews. The Pirates are sponsored by Community Grain, Inc., and coached by Earl Buchanan. The Tigers, coached by Ralph Brockman, are sponsored by Dimmitt Wheat Growers, Inc.

Mrs. Cagle Buried In Hale Center

Services for Mrs. Wallace Cagle 55, were held Sunday at 3 p.m. at the First Methodist Church in Hale Center. Rev. Mike Burnett, pastor of the Hale Center Four Square Gospel Church officiated, assisted by Rev. Oscar Buco, pastor of the Methodist Church there.

Burial was in Hale Center Cemetery under direction of Freeman Funeral Home.

Mrs. Cagle died at 2:15 a.m. in Hale Center. She had been ill for eight months.

She was born at Hico and had lived at Dimmitt, Tulia and Earth.

Survivors include her son, Bobby Wayne Cagle and a brother, Oliver Hall, both of Dimmitt.

Water, Inc., Opens Office

John J. Kendrick, president of Water, Inc., has announced that the association has opened its permanent office at 1611 Avenue Q in Lubbock.

WATER, INC., was formed by interested individuals to inform the public of the need for, and assist in the planning for, the acquisition, importation, distribution and storage of water for the continued growth and prosperity of this area.

J. W. Buchanan of Dumas, interim manager of the association, is now distributing membership applications for membership in the association.

Office hours for the association will be 8:30 a.m. to 5 p.m. Monday through Friday.

The control of insects on cotton is one thing that should not be overlooked when considering ways of insuring good quality and yield. As heavy fruiting is just beginning, we should especially be concerned with controlling the fleahopper.

THE WINGED adult and wingless young fleahoppers are very active and are hard to see. Both stages feed on the juices of the tender parts of the cotton plant, especially the terminal buds and small squares. The leaves become deformed and somewhat ragged in appearance.

The greatest damage is done to the small squares. Many of the squares are killed when they are no larger than a pinhead. They turn brown or black and fall from the plant. These are frequently overlooked because they are so small. This damage causes a "reserved" or "mottled" appearance which is some- times attributed to other unfavorable conditions.

The appearance of fleahopper damage can readily be seen late in the season by the appearance of whip-like plants with very little bottom crop. Uncontrolled fleahopper infestation is just another way of shortening the growing season for Plains cotton farmers.

FOLLOWING the recent rains, our cotton is in a succulent condition and very susceptible to fleahopper and other insect infestations. Since we are more quality conscious this year, and since good quality and net dollars go together, it seems more important than ever to be alert and do a good job of insect control.

Sign-ups to Be Taken Monday For '67 Conservation Program

By CHARLEY HILL
 County Office Manager

We will have our next Agricultural Conservation Program sign-up Monday for cost-share practices under the 1967 Agricultural Conservation Program in Castro County. A farm limit of \$500 is still applicable. Applications accepted at this time will be for conservation practices to be carried out during July, August and September, 1967.

BURNING WHEAT STUBBLE

Any producer who deliberately burns his wheat stubble will not qualify for ACP payments during the 1967 program year.

PRODUCER CERTIFICATION

Certification of your cotton, feed grain and diverted acres may be made anytime until Aug. 15. All participating producers in the county must certify their acreage regardless of whether they are receiving the measurement service or not. When 50 per-

cent of the operators have made certification reports, final payments can be made to them, and as the rest of the certifications are reported, payments will also be made.

You are urged to take care of this at your earliest convenience. THOUGHT: Habit is like a cable - we weave a thread of it every day and at last find we cannot break it.

'68 Wheat Allotments For Texas Announced

State wheat acreage allotments based on the national allotment of 59.3 million acres have been announced by the US Department of Agriculture.

The Texas allotment is 4,258,167 acres. This compares with 4,896,216 acres in 1967 and 3,704,785 acres in 1966.

Farm allotments will be announced after county allotments have been determined.

Texas' total retail sales of \$1,553,000,000 in May were 10 per cent above the total for April and seven per cent above the May total a year ago, reports UT's Bureau of Business Research.

New GI Bill Benefits Given

By SEN. JOHN TOWER (R-Tex.)

Last month the Senate unanimously passed some amendments to the GI Bill, thereby extending benefits to Vietnam veterans and also increasing a wide range of benefits to veterans of earlier wars.

The bill in its final form was actually a combination of two bills introduced in January—both of which I co-sponsored.

THE FIRST bill — called the Veterans Pension and Readjustment Act of 1967 — extended wartime benefits to veterans who served during the "Vietnam era" — that period beginning Aug. 5, 1964, the date of the Gulf of Tonkin incident, and ending on a future date to be determined by Presidential proclamation.

It insured that men and women serving their country during this "hot" wartime period would receive, among other benefits, full compensation for any service connected injuries or illness, pensions for non-service connected disabilities and death, a 250 burial allowance and — if severely disabled — a \$1,600 automobile allowance.

THEN, ON the Senate floor, other provisions to improve and extend the GI Bill were added by amendment to this original "Vietnam Veterans' bill. The resulting legislation will:

—Define Vietnam Veterans as those serving after Aug. 5, 1964.

—Extend Small Business Administration and Federal Home Loans to World War II veterans through July, 1970.

—Increase the limit on veterans' home loans to \$30,000 where cost loans so require.

—RAISE monthly educational allowances to \$130 for a single veteran, \$155 for a veteran with one dependent, \$175 for two dependents and an extra \$10 for each additional dependent.

—Permit veterans to use educational allowances for full-time on-farm training.

—Change the formula for computing entitlement to allowances from one month's benefits for one month's service to one and one-half months benefits for one month's service.

—Permit veterans to use educational allowances for full-time apprenticeship and on-the-job training programs.

—PERMIT veterans to enroll in flight training with 75 percent of the charges to be paid by the Veterans Administration.

—Authorize the Veterans Administration to pay \$1 per month for enrolled veteran to schools to defray the administrative costs of reports and certifications.

—PERMIT veterans to receive educational assistance allowances while pursuing high school training needed to qualify for higher education. Time spent in high school would not be charged against the basic entitlement for higher education.

THE TOTAL cost of the bill through 1972 is estimated at \$3.7 billion — \$1.4 billion more than the five-year cost of the present legislation.

The new legislation serves an important two-fold purpose. It equates the present pensions being allotted to

Tuesday, Marilyn McLeroy, Julia Hotel and I attended the District I 4-H Dress Revue in Amarillo.

MEMBERS of the 4-H expansion committee are reminded that there will be a meeting Friday at 2:30 p.m. in the assembly room of the courthouse. Plans to increase 4-H enrollments will be formulated. Suggestions will be gladly accepted. Just come by the office or call us at 647-3455.

COLOR is one of the best tools for bringing a fresh look to the interior of your home. Remember these guidelines for selecting colors for walls.

The walls of a room serve as the background for furnishings. Off-white or warm beige are always a safe choice. But you can use almost any color if it is light and neutralized — not bright. Gold or green are harmonious with many colors. In a bedroom, gold, green, blue, very pale pink, or blue-green may be suitable.

Rooms with off-white walls need accent colors in the furnishings to keep them interesting. Consider the color for rugs, furniture, upholstery, and draperies in planning your wall color or any new upholstery.

REMEMBER that a large amount of green, blue, or blue-green will make a room seem larger and cooler. A large amount of red, orange, yellow, or red-orange will make a room seem smaller and warmer. Light colors will make the room seem larger.

If you are planning new draperies, you can make them appear part of the background if they are a similar color to the walls and are plain in design. Figured draperies can be the main accent in a room. An odd window can be made into a charming focal point for the entire room, particularly with the use of whimsical shades, unusual valances, and surrounding appointments.

However, if the room is small and has several windows, plain draperies may be a better choice.

IF YOU don't like strong contrasts in colors used together, choose related colors. These are colors that have something in common such as orange, orange-yellow, yellow and yellow-green, green or blue, and blue-green, and several other combinations.

If you like more contrast, use contrasting colors such as red and green or blue and orange together. Have one more grayed than the other for the larger areas, and use the brighter one in smaller amounts.

WHAT'S NEW in carpet backing? One of the fastest growing backing fibers for today's carpets is polypropylene. Many carpet manufacturers are praising the advantages of the new fabric, adding that it may be the future replacement of the now popular jute backing.

A few of the advantages of polypropylene include its resiliency, high stain resistance, lightness of weight; it is non-water absorbent and has no dust. The end product is a more disciplined carpet.

The special construction of this backing provides tufters with production efficiencies such as better dimensional stability and firmer tuft anchorage during tufting.

The non-absorbency of the back-

ing won't interfere with today's dye can be extruded into the yarn as it is made. Because of its non-absorbency, the backing does not affect the dye bath or stain the finished carpet as some types of backing do.

A secondary fabric backing is not necessary when the polypropylene is used. The latex foam is poured directly onto the primary backing fabric. This means that bowing of carpets caused by drying and backsizeing is eliminated. According to leading tufted carpet manufacturers, the primary polypropylene backings will be appearing more and more on carpets of the future.

HOMEMAKERS on the go often face a refrigerator problem — what to do with it? For away-from-home time periods of three weeks or less, the refrigerator should be emptied, but left turned on.

For extended periods of a month or more, or if the refrigerator

is to be moved or stored, it's important that specified care procedures be followed.

The refrigerator should be emptied of all food, defrosted completely, cleaned thoroughly,

and disconnected. The door should be left open for 24 hours or longer because the hidden insulation holds moisture even after the inside appears completely dry.

Thorough cleaning and drying is

most important in preventing the development of odor, mildew, and mold.

When the refrigerator is again connected, it should be thoroughly cooled before placing food in it.

Sen. Ralph Yarborough Hill-Burton Program Now In Its 20th Year

By Sen. Ralph Yarborough
(D-Texas)

Dear Fellow Texan:
The Hill-Burton Federal Aid to Hospitals program keeps quietly purring along, like a smoothly running engine. Now, 20 years after its first passage, it is a popular program for communities large and small. In every one of the fifty states, the Hill-Burton program has proved a blessing hundreds of times over.

SENATOR Lister Hill of Alabama and **Harold Burton** of Ohio fought for this system in the 1940s. They believed that the federal government had an obligation to assure the American people adequate medical protection. They introduced a bill that would make federal funds available to the states on a matching basis for constructing and improving hospital facilities, clinics and treatment centers.

That bill became the Hill-Burton Act. It provides federal money to be administered by the states to build both public and voluntary non-profit, private general hospitals. By successive later amendments, it now helps in the building of mental hospitals and tuberculosis and chronic disease clinics, and it has been vital in the expansion of public health facilities and nursing homes in Texas and throughout the nation.

In July, the Hill-Burton Act marks its 20th anniversary — 20 years of providing federal funds to help relieve the suffering of the afflicted and to provide the best medical care in the world for Texans and for all Americans. It would be impossible to estimate how many thousands of lives have been affected, but the impact in Texas alone from Hill-Burton has been tremendous.

MORE THAN 400 Texas hospitals and research centers, including Plains Memorial Hospital, have received federal Hill-Burton money over those 20 years for projects totalling more than \$500 million. Hill-Burton money, combined with local or state revenue or private investments, has added 25,000 in-patient beds in Texas hospitals and nursing homes in that period of time.

Nationally, Hill-Burton funds have gone toward some \$9 billion in hospitals and nursing homes — about 9,000 different projects providing a total of 400,000 beds in hospitals and nursing homes. About half of these projects were publicly supported, while the others were private non-profit institutions with matching private funds.

I HAVE vigorously supported the Hill-Burton program in my 10 years in the Senate both as a member of the Senate Health Subcommittee for the past 8 years and on the floor of the Senate. I helped fight for an expansion of the bill in 1961 to provide more funds for nursing homes, and in 1964 I helped pass a broad revision and extension amendment.

The bill has already been extended, but it expires June 30, 1969. I am confident it will be ex-

tended again, and I intend to work to help it.

THE KEY to Hill-Burton's success has been the careful management of it here in Washington and the federal government's close work with each state gov-

ernment, leaving many of the key decisions up to local and state authorities.

In the past 10 months alone Hill-Burton loans and grants have gone to cities and towns in every corner of Texas.

TOP DRESSMAKERS in the County 4-H Dress Revue last week were Marilyn McLeroy (left), first place in senior division, and Julia Hottel, first place in junior division. Marilyn made and modeled a Navy wool suit with double-breasted jacket and top-stitched trim, pleated skirt and long, sleeveless overblouse of Navy and accent stripes. She made a matching wool beret, and wore the suit with Navy patent leather shoes and cotton gloves. Julia's dress is a yellow A-line of Dacron knit, with which she combined yellow gloves and yellow shoes with orange trim. Marilyn, 15, and Julia, 13, are both members of Dimmitt's Go-Getters 4-H Club.

50 Attend County Dress Revue As 19 4-H Girls Enter Contest

Fifty persons attended the Castro County Dress Revue Wednesday afternoon of last week.

Nineteen girls entered the contest. Narrator was Mrs. Charles Hottel. Ronnie Burks was the pianist, and judges were Mrs. Cricket Taylor, Parmer County HD agent, and Mrs. Rita Huckert, assistant HD agent in Deaf Smith County.

Following the style show and refreshments, awards were presented by Irene Keating and Estella Hottel.

Girls who won ribbons: Juniors — Julia Hottel, Judy

McLeroy, Janna Thanisch, and Rita Wornack, blue. Red ribbon winners were Jeannine Petty, Darla Bostick, Karen Hutto, Patty Hochstein, Debra Acker, Patti Robbins, Sue Smith, Genie Robbins and Lisa Simpson. Julie Huseman and Agnes Acker got white ribbons.

Seniors — Marilyn McLeroy and Diana Adams got blue ribbons. Red ribbons went to Betsy Simpson and Debra Hochstein.

Julia Hottel and Marilyn McLeroy won the right to represent Castro County at the district contest Tuesday in Amarillo.

New Office Seeks to Improve Migrants' Health Conditions

Castro County's new Migrant Health Office will begin its first regularly scheduled clinics next week, according to Mrs. Estela Lineweaver, registered nurse in charge.

THE OFFICE will hold bi-weekly immunization clinics in Hart every other Monday and in Dimmitt every other Friday. Clinics are open to all migrant workers living in Castro County, regardless of their length of residence.

Castro County has one of 22 offices in Texas, but is one of the few that offers in-patient hospitalization and physician care for migrant workers.

The program here was funded, June 1 with a \$39,977 federal grant for hospitalization and doctor bills for migrant workers, Mrs. Lineweaver said. This is part of the office's \$76,000 budget granted to carry through December of 1968.

SINCE ITS opening the first week in February, the office has held immunization clinics weekly and has treated about 15 families, Mrs. Lineweaver said. A tuberculosis control check was conducted for the whole county in February.

Mrs. Lineweaver said that 800 people were X-rayed in doctors' offices here and by the mobile chest X-ray unit from Lubbock. Not a single case of TB was found, she said.

In addition to Mrs. Lineweaver, the office employs a sanitarian, Jerry Cockreham; a clerk, Mrs. Martha Dannevik; and a health assistant.

COCKREHAM works with farmers employing migrant workers, inspects housing, helps with improvements and generally works for betterment in environment to

improve health conditions.

Mrs. Lineweaver enthusiastically commended vegetable growers in the county who employ migrant workers for their cooperation with the office in cleaning up housing units and giving leeway to Cockreham in improvement efforts.

Mrs. Lineweaver said Harold Smith of H&S Produce Co. had been especially helpful by improving some 45 units of worker housing — the largest collection of units in the county.

"ALL GROWERS have been very cooperative," she said.

Officers Search For Exhibitionist

The Sheriff's office is investigating an indecent exposure incident that occurred Monday morning in Hart.

TWO HART GIRLS, 12 and 15, reported the offender to be a white male, dark complexioned, driving a late model rust-colored car, probably a Chrysler or Plymouth.

According to Henry Ogletree, investigating officer, this was the first incident of its kind in some time. The Sheriff's Office apprehended a similar offender last year, he said.

Visit Mother

Mr. and Mrs. Dean Price and daughter, Linda, of West Covina, Calif., are here visiting her mother, Mrs. Dan Curtis, and her aunt, Mrs. C. O. Byrnes. After their stay in Dimmitt, they will go to Paris, Texas to visit relatives there.

Sen. Ralph Yarborough Bilingual Education Bill Aimed At Helping 'Forgotten Children'

By Sen. Ralph Yarborough
(D-Texas)

Dear Fellow Texan:

Could Albert Einstein, who grew up speaking German, have learned physics as a boy if his teacher had made him study it in Greek? Perhaps he could have, but he would first have had to learn a whole new language, and then catch up.

TODAY IN Texas there are hundreds of thousands of children entering the school's with a big handicap — they have little or no background in the English language.

Many of these youngsters are very smart, but they just haven't had the chance at home to learn English. And so they sit in that first-grade classroom struggling because they hear nothing in the language they know. They fall behind, and they make bad grades. They lose interest, and soon some of them drop out of school.

A decade or so later we find them on the welfare roll, unable to hold a good job without an education.

During the past two weeks, I've been in Corpus Christi, San Antonio and Edinburg listening to this sort of story again and again. I have been conducting hearings on a bill I'm sponsoring in the United States Senate to try to change this situation. This is the Bilingual American Education Bill, S. 428.

This bill contains a whole new approach for the traditionally difficult language cases. It provides funds to local areas so they may set up programs which would help children from non-

English speaking homes to get started, and at the same time would encourage these children to preserve and take advantage of their rich cultural background.

IN OUR OWN state, for example, there are hundreds of thousands of youngsters from Spanish-speaking families who go into public schools not knowing one word of English. There are one million Spanish-speaking children of school age in Texas. How can that boy or girl be expected to compete academically with youngsters from homes where everyone speaks only English?

According to Dr. Faye L. Bumpass of the Texas Tech faculty, there are nearly two million young boys and girls in five southwestern states who face a language handicap upon starting school. One million of these youngsters are in Texas.

Dr. Bumpass testified before our committee for this bill calling these boys and girls the forgotten children in American education. Their problem is unique; it's difficult. My bill provides only \$7 million for the first year, not enough to remedy the situation. It will just be a start, a sort of pilot program. But it is a beginning. We hope that school districts in Texas and other states will take this money and decide the best way to use it to help children in bilingual areas.

IN OUR hearings in Washington and in Texas we have heard from professors, mothers, local teachers, representatives of the Spanish communities — all sides. Two University of Texas experts on bilingual education, Dr. Theodore Andersson and Dr.

In at least five states, there are privately owned preserves on which American sportsmen can hunt exotic game from Africa and Asia.

Herschel Manuel, has been especially helpful. Dr. Manuel has written a book on the Spanish-speaking children of the Southwest. He says, and I quote from his book: "The initial knowledge of Spanish, which these children have acquired in the home is an asset to be cultivated rather than neglected."

That is why I am sponsoring the Bilingual American Education Bill. We need to quit wasting this potential. These boys and girls must be given every chance at the kind of education that will enable them to become productive, good citizens.

THE FAMILY LAWYER

Prize Contests

"COUNT THE DOTS AND WIN A COLOR TV!"

So said the poster in a furniture store window. In case of a tie, duplicate prizes were to be awarded.

Sure enough, two contestants—a man and a woman—turned in answers that were exactly right. After due deliberation, the store named the woman as the winner on grounds of "neatness and legibility." The man was offered a small radio as a consolation prize.

But when the man filed suit, the court held that he too was entitled to a television set. The court said the store had no right to make new rules after the contestants, by submitting their entries, had already accepted the original offer.

For the contract created in a prize contest is just as binding, in the eyes of the law, as any other kind of contract. A winning contestant can enforce his rights in court.

But suppose the rules say: "The decision of the contest judges shall be final."

Even then, if the judges tamper with the rules or use other trickery to foil a winner, the law will still uphold his claim to whatever he has legitimately won.

What if the contest is an illegal lottery? Then, even if you do win, you should not expect a court to enforce your claim. As a general rule, the courts will not lend their aid to carry out an illegal contract.

The Supreme Court has given the reason: "No court of justice can be made the handmaid of iniquity. There can be no legal remedy for that which is itself illegal."

A public service feature of the American Bar Association and the State Bar of Texas.

State Pig Crop Up 11 Percent

Texas' spring pig crop totaled 590,000, 11 percent above the 1966 spring crop, reports the Texas Crop and Livestock Reporting Service.

BASED ON a survey of 6,700 operators, the Service says Texas farmers intend to farrow 100,000 sows this fall. Those farrowings should produce 700,000 pigs for next spring's slaughter. This is an increase of 6 percent over 1966's fall farrowings.

THIS HAS really been an unusual year for all sorts of vegetation, even to the flowers. In our yard we have a "sun-ball" plant blooming for the second time. The first time was in May, and it now has two beautiful clusters of white blooms. Also, a climbing rose that is supposed to bloom only one time each year now has second roses.

Not only are people sometimes confused, but perhaps the weather and vegetation are.

A good recipe for jelly made from any flavor of Kool-Aid:

- Jelly Jelly
1 package of powdered pectin
1 package of Kool-Aid
1/4 teaspoon red food coloring (if needed)
1/2 cup lemon juice
3 1/2 cups water
Bring to a rolling boil, and have measured six cups sugar. Add this and when liquid boils, time and boil for five minutes. Put in jars.

Rotary Official To Visit Dimmitt

Dimmitt's Rotarians will host Rotary District Governor R. G. Mills of Amarillo today and Friday.

Mills will address the Rotary Club at its regular luncheon meeting Friday at the Colonial Inn, and will confer with other club officers to obtain information on the club's plans for its service activities and to offer suggestions on Rotary administrative matters. Ronnie Parker, local Rotary Club president, said, "While in Dimmitt, the governor will talk with us about possible growth of membership, the organization of an Interact Club for high school boys, and the Rotary Foundation fellowships and scholarships. His visit will also give us a broader understanding of the world-wide Rotary organization that today embraces more than 613,000 men of practically all nationalities and political and religious beliefs."

A member and past president of the Rotary Club of Amarillo, Mills is vice-president of Cowe and Cowan, Inc. He was elected governor of this district last May at the international Rotary convention in Nice, France.

First Baptist News From My Heart to Yours

Dr. Warren Hultgren, pastor of First Church, Tulsa, Oklahoma, recently paid his church a high compliment. He told in the pastor's remarks in the church paper of a man who, converted in a revival in the church years before, returned to Tulsa after years of personal reversals and unhappiness. He visited the church and was greeted warmly, although the men who shook hands with him at the door were strangers.

"But," he said, "I felt that I was home at last. During the invitation I felt compelled to come for baptism, to do the thing that I had been putting off for twelve long, unhappy, tragic and frustrating years."

Dr. Hultgren then complimented his people for their warmth and vitality. He wrote, "You and I have no way of knowing how many strangers come our way who are hungry, lonely, heartbroken and trying to find their way home spiritually. The warmth of the services, the sincerity of your word and the handshake plus the quiet prayer that rises from your heart become the instruments by which people come to Christ and know that they really belong."

Nothing finer could be said about a congregation. Nothing enhances worship more than the friendliness and prayerfulness of the people. We too have a friendly church, but we can do more in this area. No stranger should enter our church without a warm word of welcome and encourage-

ment. Let us also take time to encourage one another. All of us carry burdens and our load is made easier when a Christian friend says a cheery word. There is no fellowship comparable to that found in church. God uses it, in ways we never know, to help a lot of people.

See you Sunday.

Your pastor and friend, Frank Pollard
