### ROOSEVELT COUNTY INSTITUTE IN SESSION

Fifty Teachers From This and Surrounding Counties Attending the First Two Weeks Session Here

ONE HUNDRED TEACHERS EXPECTED FOR LAST TWO WEEKS

The Present Session Is Proving To Be the most Interesting in the History of the Normal School

The Roosevelt County Institute opened Monday morning with the same splendid enthusiasm that has always characterized the institutes of this county. Judge Washington E. Lindsey made an eloquent address of welcome to the teachers, to which Supt. V. L. Griffin of Clovis fittingly replied. Quite a number of the leading citizens of Portales were present, among whom were: Dr. J. S. Pearce, of the Board of Education; Dr. Dunaway, with Rev. Kirkpatrick, of the M. E. church; Revs. Stout and Smith, of the local Baptist and Presbyterian churches. A number of representative ladies were present to lend special interest to the occasion.

Addresses were made by Prof. Kelly, the instructor in mathematics, and Mr. Zingg, the specialist in manual training and industrial arts. Rev. Shepard of the Christian church, conducted the devotional exercises.

The enrollment of fifty two the first day has steadily increased to sixty at the close of the third day and County Superintendent Culberson freely predicts an enrollment of more than one hundred before the close of the session. A number of the young men and young ladies of the city have enrolled and others are expected in Monday. Supt. Griffin who is in charge until the arrival of Dean Carroon, says that classes, that will be of special interest to these young people, will be organized next week if such are desired.

The people of Portales have opened up their homes and the teachers are all very conveniently located. Mrs. Culberson is working over time, and true to her predictions, the institute is being made to "hum".

A more extended account of the workings of the Institute will be given in next week's issue.

#### In Memory of Our Dead.

Mrs. Grace Glasscock, wife of L. P. Glasscock, was born at Sheboygan, Wis., Oct. 9, 1852. Her mother died when she was young, leaving her to battle with the cold world at an early age. She first married a Mr. Palmer. They lived happily together a few years when he died. After that she lived with her brother Jim until he died leaving a son with her to raise, which was a joy and a comfort to her. In 1895 she was married to Mr. L. P. Glasscock at St. Paul, Minn. They moved to Texas, lived there several years, and came to New Mexico when Portales had only a few business houses. She professed religion and joined the church in 1898. Her membership was with the Portales Missionary Baptist church when she fell asleep in Jesus Thursday, June 12, 1913. She was a helpmeet indeed to her husband. She leaves two sisters and a brother besides many warm friends to mourn. But, we do not mourn without hope. We are looking forward to a meeting in a brighter world. We miss her so much in her sphere of work. She was always ready to help the needy and gave freely to the poor. She said she was ready to go just a few weeks before she left us. Weep not, dear friends, she is not dead, but sleepeth.

Rev. Kirkpatrick made an instructive and impressive talk at the church. The Daughters of Confederates and others sang some sweet songs, "Nearer My God To Thee," "Jesus, Lover of My Soul," and "Asleep in Jesus," after which her remains were laid to rest in the Portales cemetery by the side of Mr. Glasscock.

We pray the blessing of God on us, realizing that she is in the presence of Jesus, whom she trusted.

A Friend.

#### Cantaloupes Getting Ready

Cantaloupes are this week in the full stage of netting on all of the earliest patches and will by the first of next week be ready to ship from several farms. The earliest melons of the season will come from the Connally farms as they have already eaten ripe ones and have about an acre and a half that are ripening this week. Dr. Bailey will also have ripe ones this week according to reports.

#### Mrs. Mears Entertains

Mrs. T. E. Mears entertained Tuesday afternoon for her sister, Miss Kate McManaway, of Petersburg, Virginia. Rook was the chosen diversion, Miss Pearl Leach gaining high score. At the close of the afternoon a delightful two course luncheon was served. The favors were dainty baskets of sweet peas. The guests were: Misses Corne Smith, Belle Wilson, Sarah Monroe, Irene Smith, Nettie Chesher, Pearl Leach, Vera Humphrey and Marguerite Patterson.

#### Notice

There will be a called meeting of the Yucca Cantaloupe Growers Association Saturday afternoon at two o'clock at the office of the Irrigation Company. At this time the employment of a Secretary will be considered along with other things of interest to the producer.

#### Resolutions

Whereas, our beloved brother Luther P. Smith, was on the 12th day of February, 1913, by the decree of an overruling Providence, called from his earthly sufferings to a home where pain and sorrow are unknown, and where the weary find rest, be it therefore,

Resolved, that in the death of Brother Smith, the members of this lodge fully recognize that they have lost one of their number, who was at all times imbued with the pure principles of the order, and whose life and conduct suffer no reproach to be on his character, either as an Odd Fellow, or Fellow Citizen,

Resolved that the sincere and heartfelt sympathy of the members of this lodge be and is hereby extended to the bereaved family and relatives of our deceased Brother, whose loss we deeply mourn.

Resolved that as a token of love and esteem for our deceased Brother, the Lodge room be draped in mourning, and that the members wear the usual mourning badge during that time.

Resolved that these resolutions be recorded on the Memorial page of the records of the Lodge, and that the Secretary deliver a copy thereof, properly engrossed, to the family of the deceased.

John W. George,  
C. W. Carroll, Committee,  
Moses B. Jones,

#### Onions.

Onions are one of the best money crops that can be raised in the Portales Valley and still they are not given the attention that should be given them.

This year there are more acres in the valley than have ever been in before but there is no central organization nor house to handle this crop as there is for the cantaloupe crop and the matter of forming an organization to handle them must be attended to.

Will Faggard has in about seven acres that are as fine as a man ever looked at and there are numerous small patches over the valley. Among the small patches in town we might mention that of Mr. Dickbreeder's as one of the finest. He has onions now that weigh a pound and two ounces and thinks that the same onions will make the time they are ready to harvest.

#### Reid Receives Payment

Dr. John L. Reid, who was accidentally hurt some few weeks ago by a horse is up and going again and thinks the accident will not hamper him longer.

He was a member of the Modern Woodmen Accident Association and received prompt payment from them on the policy that he carried. He seems to think a great deal of his company and his advising friends to join if they care to carry any accident insurance at all.

#### Watermelons on Market

The first watermelons of the season raised locally are on the market this week. They were raised on the Connally farms and though not very large are very good eaters. They are commanding a good price for the size.

Mrs. A. J. Adams who has been visiting her parents, Mr. and Mrs. F. E. Wilson left Monday for her home at Ada, Oklahoma.

#### Dairy Statistics

Data will be compiled by the Herald for reference of all those who may be interested. Each week the result of the preceding week will be published.

The Herald is now preparing report blanks which will be sent to every cream station in Roosevelt County. The cream business has within the past year reached enormous proportions in this County, and in fact has demonstrated that it is indeed a money making proposition. In order to secure the correct data upon this great business of the County we are sending these printed blanks to the managers of the stations, and asking that they be forwarded to us every week. The following issue of the Herald will contain the result of these reports. This will continue the period of two months beginning with the week ending August 9th, and ending with the week ending October 4th.

There are many of the business men in our County who believe that a Creamery at Portales will be paying proposition. If such were to prove to be the case it would be a great thing for the farmers. Naturally the home Creamery could pay a better price per pound for the cream than foreign Creamery to which cream is now being shipped by express. This data may result in a Creamery being located in our midst, but whether it does or not it will surely result in giving to the citizens of one part of the county a full knowledge of the extent of the business in other parts, and will give to the prospective investors information that will prove to be an eye opener. It will be equal to the morning's morning usually taken by some of our drowsy friends—it will wake us up to the opportunities that are before us.

A copy of the report which is being sent out appears in this issue. Will every farmer who ships cream please see the manager of the station procures from him the data desired, and assist him in every way to report to us the data of his station correctly? The Herald is very desirous that compilation of data be correctly and accurately done, and if so every one must assist. It will prove an interesting game. Just watch the business grow from week to week when the publication of the data begins; They will all get busy.

#### Longs Prosperous

T. H. Longs, post master at Longs, N. M., was a business caller at the Herald office this week and reports that the people were never better satisfied around his office than they are now. He states that he is paying out from \$100 to \$140 per week to them for cream and that they all have a smile on their faces that would do some of the people who are not selling cream for a living good to see.

#### Union Revival Services.

Rev. Ira Kiker will begin a series of union revival services at the Methodist church next Sunday. An invitation is extended to all to attend these services. Let us put our energies together and work and pray for a truly great meeting.

Sebs Kirkpatrick,  
Pastor Methodist Church.

### ROOSEVELT COUNTY IS THE DAIRY COUNTY

Some Statements Are Made Below By An Outsider That May Give Those Interested A Few Points

BETTER COWS AND MORE OF THEM IS OUR ONE MOTTO

Our Natural Advantages Necessarily Call For This To Be The Greatest Dairy County In The State

The matter of a creamery has been discussed a great deal lately, and especially in the Chamber of Commerce; so on my recent trip away I looked into the matter with greatest interest. The necessity for a creamery at Artesia is a fact—whether its agitation at this time is a good thing is something to think over.

The matter of getting better returns from the cows, however, is one that must instantly be answered in the affirmative. And it is on this question that I desire to write.

Elida ships more cream than any place in New Mexico—ships it to creameries at Albuquerque and Topeka. They receive an average of 24 cents; and, in fact, this is the average throughout the section covered by this branch of the Santa Fe. Shipments are usually made through merchants, who handle the cream in bulk, but the cream checks are distributed by the merchants or come direct to the farmer. At Elida the cream business is bringing them \$4,000 per month—spot cash—outside money every cent—no trading about with John and Tom and Henry in order to get a few dollars to pay Bill. Not a farmer in the Elida country who is shipping cream owes a dollar to a store; each one is paying on the principal they borrowed from the bank, if they did borrow—and each one is living better, buying better cows, and each one is preparing to go into the dairy business even deeper.

A man at Portales milked 17 cows last year, and his cream checks totaled \$1,216.56 for the year. It cost him \$85 for feed. He sold last year \$1,000 of calves and hogs—these raised absolutely without expense, as they were fed the skim milk and stuff from the field.

Mr. Farnham, living 7 miles from Portales clears \$8 per week milking 16 cows—and the

entire wages of a man is charged against this, when in fact more than half that man's time is in general farm work.

Mr. Hunter at Texico had four cows, but they were only affording him some milk and cream and butter for the home—and the rest of it was thrown away or given to neighbors. Somebody advised him to sell his cream to a creamery company. He began doing this the first of this year—and since that time cream checks have paid every cent of the expenses of the Hunter home. I could name 50 such cases. The cashier of the First National Bank of Elida told me that not a single farmer who had taken up dairying had made a failure and there are more than 100 of those farmers in this business. It takes constant effort and hard work to operate a dairy—that is, the work must be done promptly and at about the same time each day, and there must be no loafing about deliveries. If, however, one will put effort into the work and do it properly he cannot but make money.

Many of these Elida and Portales and Clovis and Texico people are milking just ordinary stock cows, though they are stocking up better all the time. They have demonstrated, though, that it is possible to start with just the cows you already have; and that there is no necessity for mortgaging things and raising funds for stock and all that. It will not be long until Elida has a creamery, for the people are beginning to thoroughly understand dairying. Now, it seems to me that here is a big thing for Artesia. The Artesia farmers might as well get \$15 to \$35 for their hay by feeding it to their dairy cows as to sell the hay for other dairy cows to eat and make their owners big money. Chas. A. Dinsmore, —Artesia Advocate.

#### A Few Plums

Romulus Jones, our old friend from the Bethel neighborhood was exhibiting on the streets Tuesday one of the finest bunches or sprigs we might say, of plums that it has been our favor to see.

The one limb or sprig about fifteen inches long had over fifty-one plums on it and all of them large ones. Romulus says that he has about twelve plum trees altogether and that the crop is certainly fine this year. He is another of the men who are going the irrigation route. He says that his long suit this year is milk cows and that he is running them on alfalfa and that they are certainly giving the milk. He seems to think that alfalfa makes as much by feeding to dairy cows as it does feeding it to hogs.

#### Mrs. Wolfarth Sells Out

Mrs. Pat Wolfarth, the well known milliner, this week sold her stock and equipment to Miss Minta Gilliam and Miss Gilliam is now in charge in the Warren Foshee stand.

Miss Gilliam states that she will leave for market in the next few days and that upon her return she will be accompanied by a first class trimmer. She also states that her fall stock will be first class and up to the minute in every particular and she asks all of the ladies of the town and country to make her shop their headquarters for millinery.

Mrs. Thomas Amos left Monday morning for Trinidad, Colorado, where her parents are now living. Mrs. Amos' mother and father are both sick and she will probably be gone until their recovery.

JAMES A. HALL, Editor  
J. R. DARNELL, Business Manager

The new management of the Herald fully realizes the responsibility resting upon the editor of the County paper in a County of great resources such as are possessed by Roosevelt County. Considerable hesitancy was indulged in before the final determination incident to the consummation of the transaction whereby I became the editor of the Herald. However, the decision has been made, and I shall use every endeavor to my command to give to the readers of the Herald a newspaper of which they may justly feel proud. Anything that is for the betterment of Roosevelt County, and that does not savor of factional feelings, shall always have a hearty welcome in the columns of the paper. While I essentially feel a great interest in Portales and naturally desire that Portales shall grow by leaps and bounds, yet it is my earnest desire that every section of the county shall be exceedingly prosperous, and the Herald will at all times be a paper for the entire County.

Politically it will be as heretofore always supporting the Democratic party. Those in Roosevelt County who know we could name the political party with which the paper is affiliated with out ever seeing a copy, and those who do not will be fully able to discern its affiliations by scanning the columns. Nevertheless, while some few may disagree with me politically, we shall all work for the general upbuild of our community and our County.

Here's wishing you and the Herald prosperity.

The Herald wishes to extend to the many teachers, who are now in our midst in attendance upon the Roosevelt County Institute, a hearty welcome in behalf of Portales. Before you have departed the hospitality of our citizens will have been shown you in numerous ways. There is no more noble calling than that of teaching the young, and if the teacher is in the profession because of his natural inclination in that direction, and not from purely mercenary motives indeed if one is there for mercenary motives his time must be worth but little at the other vocations of life there is no end to the great amount of good he can and will accomplish in life. Most of us now hold in reverence the memory of bygone school days and the teacher who instructed and fitted us for the lives we now live. Next to the name of mother and home should be linked that of the teacher in our common schools.

An eastern newspaper remarks that if President Wilson were to issue a statement defining the policy of the United States with reference to the situation in Mexico, it would couched in such logical, philosophical and rhetorical language that it could not be understood. Bad, indeed, isn't it? Yet, when the money powers of Wall Street started to begin their threatened panic, just a few words from Washington and the panic was all off. Did they understand, or not? In just what logical, philosophical or rhetorical terms the message from Washington was couched, we are not informed, but the information was imparted that the United States had the immense sum of \$500,000,000.00 which would be loaned to the country banks in event a panic was begun. The effect was magical and 312 call money immediately dropped to 2. May the effect of such rhetorical language continue.

The Commercial Club should be up and doing. It is now high time that the park and exhibit well were in full blast at the depot. This talk about the franchise should not be indulged in longer. There is not a man in Portales who would cast a straw in the way of granting the franchise to the Irrigation Company, and the proper steps should be immediately taken by the Commercial Club. The park should be completed by the time the fall tide of immigration begins to look this way. That 2000 gallons of water per minute will be a beautiful sight from the windows of the cars and will be the means of locating many a well to do farmer in the Portales valley. Let us have this at once—there should be no further delay.

The columns of The Herald are open for all the interesting social events that happen in and around Portales. The ladies are especially invited to call telephone number 101 and notify Mrs. Hall of all such important events, whether they be startling or not. It is our intention to give our patrons a paper which will be interesting reading to all, both old and young alike, and we do not intend that it shall be strictly a man's newspaper. The Herald is interested in the affairs that interest the ladies. You can help this department of the paper by communicating to us the news. Please do not compel us to urge you in this matter, but take this invitation at full face value—we mean it.

The Yucca Cantaloupe will soon be on the eastern market. The field is open as the cantaloupes from other sections are about exhausted and the price should be at the top notch. The Commission men who handled this cantaloupe last year say that it is the best flavored melon that has ever been on the market. The real advertising of this valley is done through products such as the Yucca Cantaloupe, and the carload shipments which will begin within the next ten days will do much toward the further development of Portales.

The property owners on either side of the street should be more than glad to care for all the water that is turned loose by the exhibit well. Of course they will some have already said so, George Williamson says he will not only care for that on his side of the street but that he will join with Joyce Fruit Company in caring for it as it crosses the intersecting street. How many others would do likewise?

## BROOKLYN TABERNACLE

BIBLE STUDY ON

MOSES CALLED TO SERVICE.

Exodus 3:1-14.—July 20.

"Blessed are the pure in heart; for they shall see God."—Matthew 5:8.

MOSES was forty years old when he fled from Pharaoh, discouraged. He was eighty years old when God called him to be leader of Israel. The first forty years were an ordinary schooling; the last forty, a special schooling in meekness. He was now ready for service at exactly the time when God wished to use him. So thoroughly discouraged had he become that he who was so ready to lead the hosts of Israel without a special Divine commission was now so distrustful of himself that even when called of God he apologized, pleading his unfitness, etc. He did not realize that he had only then become fit.

Moses was tending Jethro's flocks, and perhaps considering how wise it was that forty years before he had been unsuccessful in arousing his brethren to flee from Egypt. He could now see, in the light of maturer years, what a herculean task he would have had as their leader. He could better understand the difficulties that would have attended his people in the wilderness journey and also in attempting to take possession of the land of Canaan. Quite possibly he philosophized that people unfitted to be delivered were wise in remaining in bondage.

The Burning Bush Consumed Not. This meditating, while his flocks pastured on the mountainside, Moses caught sight of something most unusual. A bush was aflame, yet it was not consumed. Moses approached the bush to investigate. From it came a voice, declaring the phenomenon to be a manifestation of God's presence and power. Moses obeyed the command to take off his sandals, for it was holy ground, by reason of the presence of the Angel of the Lord. Moses then covered his face in reverence, while he listened to the Divine message.

The statement, "I am the God of Abraham, the God of Isaac, and the God of Jacob," brought to this Israelite man of God a clear understanding of what was signified by his experience. By it God reminded him of the covenant which He had made with Abraham, and renewed with Isaac, and confirmed to Jacob for an everlasting covenant. Thus Moses learned that God's time had come for the deliverance of Israel and for their attainment of the Land of Promise—Canaan.

If Moses had ever wondered whether God really cared for the Israelites and why He had permitted them to be oppressed by the Egyptians, he now had God's own assurance that He did care, and that He had a purpose in withholding so long. The Lord's explanation closed with an invitation to Moses to be His servant and messenger to Pharaoh, calling upon him to liberate the captive Israelites.

"Certainly I Will Be With Thee." Then Moses, who forty years before was full of confidence and courage, and ready to lead the Israelites, but who now was lacking in self-confidence, replied to the Lord, "Who am I, that I should bring forth the children of Israel out of Egypt?" This meant, I am a failure; with all the educational advantages that I had, I am fit for nothing better than to be a sheep-tender.

God's reply was: "Surely I will be with thee." I shall not expect you to do it yourself. I realize that it is a mighty work. By way of emphasis, the Lord declared that not only should Moses lead the people forth, but they should worship God in that very mountain.

Moses, remembering his previous failure, was cautious. He inquired what response he should make if the Israelites should inquire which God had sent him. The Divine response was that God's name is, "I AM THAT I AM"—the self-existent One. But Moses was so distrustful of himself that he urged that the Egyptians would not let the people go, and that the Israelites themselves would not believe that God had really appeared to Moses.

Answering these objections, the Lord gave Moses certain signs, convincing him that he was talking to the Omnipotent and assured him that these signs would convince the Israelites, and also the Egyptians.

No meek was Moses that although he fully believed the Lord and trusted His power, he could not feel competent to do this great work. Humility, lack of self-confidence, meekness, had become so pronounced in him that he prayed that, even if he should be used, some one else might be the spokesman. God heard his request and granted that he should have his brother Aaron for a companion and mouthpiece before Pharaoh.

Humility is a quality most essential to all Christians who would be used of the Lord. Let us say with the poet, "I'll go where You want me to go, dear Lord, Over mountain, or plain, or sea; I'll say what You want me to say, dear Lord, I'll be what You want me to be."

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this hearing restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. **Echoes From Clovis**

**CLOVIS HAPPENINGS ALWAYS INTEREST OUR READERS.**

After reading of so many people in our town who has been cured by Doan's Kidney Pills, the question naturally arises: "Is this medicine equally successful in our neighboring towns?" The generous statement of this Clovis resident leaves no room for doubt on this point.

L. R. Barry, P. O. Box 684, Clovis, New Mexico, says: "Sometime ago I suffered from an attack of sciatic rheumatism, brought on, I believe, by the large amount of uric acid in my system. It crippled me quite a bit for some time. Hearing of Doan's Kidney Pills, I got a box and began using them. They brought much relief."

The above is not an isolated case. Mr. Barry is only one of many in this vicinity who have gratefully endorsed Doan's. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Barry had. 50c at all stores. The picnic held at the home of Dr. and Mrs. Burrows was a decided success. The morning was spent in talking and playing games. Dinner was spread under the stately old cottonwoods, everyone ate to their hearts content and ice-cream and lemonade were served in the afternoon. The many people left for their homes about six o'clock wishing many more such days may be spent in the future.

It was built little at a time; so are great Fortunes

The Pyramids of Egypt that were built many centuries ago are still standing. The whole world looks at them with inquisitive admiration. Storms and time have not destroyed their magnitude nor their symmetry. But they were built one stone at a time. If the FIRST STONE had not been properly placed, the Pyramids would not be there today. ### Ten Commandments

Washington, July 12.—The forest service has devised a decalogue for the use of farmers in the plains regions. These ten commandments are to be displayed as part of the exhibit which the forest service is preparing for an exposition to be held during October at Tulsa, Oklahoma, in connection with the eighth international dry farming congress. The Commandments for owner of windbreaks are as follows:

I. Place the windbreak at right angles to the direction of injurious prevailing winds.

II. Devote from one-eighth to one-fifth of the farm to timber. Its protective value more than pays for the ground it occupies, to say nothing of the timber yield.

III. Plant only species suited to windbreak use, to the region and to the locality.

IV. Plant rapid growers for quick results; but underplant with slower growing species, which are usually longer lived and more valuable.

V. Supplement a deciduous windbreak with evergreens to afford protection in winter.

VI. Separate trees by the spacing proper to the species used. The trees should be close enough to produce a dense windbreak and to yield good poles, but should not be so crowded as to produce spindling growth.

VII. Make the windbreak thick from the bottom up, especially on the side toward the wind. This may be done by using species which branch near the ground, by planting outside rows of low growing trees, by encouraging natural reproduction, and by underplanting.

VIII. Cultivate the plantation thoroughly while it is young.

IX. Do not allow excessive grazing where reproduction is desired.

X. Do not thin your woodlot too heavily or take out the best trees for minor uses. Remember that a timber tract should be improved by use and that each clearing should leave it in better condition than before.

Other exhibits will show the proper locations for windbreaks, suitable species for planting, and the direction of harmful prevailing winds in various regions.

The general objects of said action are as follows: plaintiff sues the defendants, Weber and Lykins, upon six promissory notes aggregating \$1800.00, said notes being in a series numbered from 1 to 6 inclusive, and each for the sum of \$300.00 each dated January 21st, 1910, and bearing interest at the rate of six per cent per annum from date until paid, payable semi-annually, June first and December first of each year after the date of said notes, each of said notes have been executed and delivered by the defendants, Weber and Lykins, to the Portales Irrigation Company, and by said Portales Irrigation Company assigned to plaintiff, number 1 of said series of notes falling due December 1, 1911, and each succeeding number one year later than the preceding.

Plaintiff also sues all the defendants for the foreclosure of a mortgage of even date with said promissory notes and given by said defendants, Weber and Lykins, for the security of said notes, upon the following described real estate, to-wit:

Beginning at the northeast corner of the southeast quarter of section ten in township one South of Range Thirty-three East of New Mexico Meridian; thence West one-half mile to the North-west corner of said quarter section; thence South three hundred thirty yards; thence East one-half mile to the east line of said section; thence North three hundred thirty yards to the place of beginning, the same being sixty acres of north side of said quarter section ten.

Plaintiff prays for a decree declaring said mortgage a first and prior lien against said land and superior to any claims of the defendants, or either of them, and superior to any claim or title of the defendants, E. Renfro and Mary E. Jackson, who it is alleged, make some claim to said described real estate; for interest as provided for in said notes; for a reasonable attorney's fee, for costs of suit, and for general relief.

Plaintiff also sues the defendants, R. L. Weber and K. S. Lykins, on a second cause in said cause for the sum of \$91.80, with interest, and costs, due for, and upon assessments against said land for water for irrigation purposes, for the year of 1912.

You are further notified that unless you enter your appearance in said cause on or before the 12th day of September, 1913, judgment by default will be rendered against you, and each of you, and the plaintiff will apply to the Court for the relief demanded in the complaint.

G. L. Hesse is attorney for plaintiff, and his business address is Portales, New Mexico.

Witness my hand and the seal of said court this the 21st day of July, 1913.
