PROSPECTORS BUY THE VALLEY LANDS

Two Salesmen of Portales Utilities Company Furnished Buyers for the Largest Land Deal Known

TO THE THRIVING INHABITANTS OF THIS FERTILE VALLEY

But a Very Short Time Until This Land Will be Tilled by the More Successful and Scientific Farmer

Portales and Portales Valley is now starting off on one of the biggest booms the county has ever experienced. A small number of buyers came in on the first excursion and we understand that they bought outright \$30,000 worth of irrigated land. In addition thereto some \$20,000 worth of additional land is being held until the buyers can go home and arrange financial matters. This causes us to do a little figuring. For instance, if one excursion, the first of the season before organization is completed and as we understand it, buyers produced by only two salesmen, can sell \$30,000 worth of land, how long will it take to sell \$1,000,000 worth? The answer, one year. Then one must remember that every man who buys, goes home and tells four or five of his neighbors so that the entire campaign increases in geometrical ratio.

In addition to the above, we are informed that the Portales Power and Irrigation company has contracts for six new wells. Six new wells is nearly ten per cent increase on their number of wells now down. We understand that there are another six or eight people who are going to put in wells and tie up with the power company this winter. This means that in the first thirty days of the selling campaign the local companies have increased the number of acres of ground under cultivation by 20 per cent. It is time for every local citizen to think this matter over and if he has one grain of doubt in his system, it is time that that grain of doubt was permanently and finally removed.

Portales Valley is being recognized by everybody who visits the valley as the very best proposition in existence anywhere. There is no other body of land having water so near the surface and in such quantities as in the underground river flowing through this valley. The companies operating in the Portales Valley are handling matters impartially and are giving every land owner absolutely a square deal so that with a broad-minded policy outlining the operations, it is certain that every man, woman and child in this valley is going to come into a profitable condition. Everybody here will make money. Land values are now on the jump.

There should be no holding back on the part of any citizen now in putting their shoulder to the wheel in co-operative effort and in assisting in booming the valley properly with the influx of new citizens.

We understand that as a result of the last excursion there is a new business enterprise to be opened up in the town within the next few weeks and that three car loads of household material, farm implements and ani-

mals may be expected to arrive within the next few weeks.

We also understand that the Portales Utilities company sold the highest priced land they had; that is, these buyers took up the highest priced land as being the most suitable to them. One piece sold at \$157 an acre and the gentleman buying this place has made the statement that he will double his money inside of three years time.

A representative of the International Harvester company who was recently through the town inspecting the valley and who had been over the entire southwest unhesitatingly pronounced this valley the best proposition he had seen.

It is a little early yet for full returns on cantaloupes but we understand that Reagan Connolly has shipped in the neighborhood of \$2300 worth off from a little over eleven acres. That is, his net returns on eleven acres of cantaloupes will be something over \$200 per acre. Mr. Connolly was secretary of the Cantaloupe association last year and therefore in a position to know what the possibilities of raising cantaloupe were. We are glad to note that his convictions have been borne out in actual practice and when you see his smiling countenance in his new automobile, you appreciate what cantaloupes mean to him.

The people of Portales Valley have been making a slow and steady development. They have faithfully stood by the guns while going through the preliminary development and are now in a position to reap the honest rewards due them for their patience and industry. The valley is sure to become famous over the entire southwest country. As a matter of fact it is already famous.

It may be expected that there will be not less than one hundred fifty new families in the valley before the first of January next. This means increased business at the stores, increased attendance at the public schools, increased attendance at the churches, increased deposits and funds at the banks, increased tonnage to the railroad, increased prosperity to everybody in the valley. Get on the Boomers wagon and put the valley on its feet right. Everybody should join in.

Coe Howard left Saturday morning for eastern points in the interest of his many real estate transactions. Coe expects to bring back with him a bunch of real live ones, and since the recent real estate activities in the Portales Valley it is safe to say that Coe will sell the land when he gets back here with the prospects, because after they once get here it is an easy matter to close a deal.

Collinsworth Killed

Last Friday evening just about sun down five shots were heard by the people who reside in the Macy community. This was somewhat unusual nevertheless no attention was paid to them until the little girls of Mr. J. W. Buckelew went to notify some of the neighbors that their father had shot Mr. Dean Collinsworth.

About eleven o'clock that night Mr. Buckelew rode up to the jail here in Portales and notified Mrs. George Deen, wife of sheriff Deen who was absent, that he had shot a man, probably killing him, and that he wanted to surrender himself to the sheriff. Mrs. Deen telephoned B. B. Clayton, deputy sheriff, who came down to the jail and placed Mr. Buckelew in a cell. Mr. Clayton then telephoned Mr. Hall, of the district attorneys office, and they accompanied by Dr. W. E. Patterson immediately proceeded to the scene of the tragedy, which was about seventeen miles southwest of Portales, arriving there about two o'clock in the morning. The body of Mr. Collinsworth still lay just where it fell and some of the neighbors were keeping watch waiting until the proper officers should arrive. A hasty examination was made when the body was removed to the Collinsworth home, only about a half mile distant. Collinsworth had been shot three times with a 308 Savage Winchester, the wounds being in and about the breast, having apparently entered rather from the side. Either of the wounds would have proved fatal.

It is impossible to learn the exact details of this tragedy, since there were no eye witnesses who saw the shooting. It is currently rumored that there was some bad feeling between was also on his own land. These

Splendid Price

Captain Fritz Muller of the land department of the state was here one day last week and sold at public auction a school section in the Bethel community. This tract of 640 acres of land is in the shallow water belt, some six or seven miles west of Portales, and is totally undeveloped. The bidding was rather spirited, the two principal bidders being B. Blankenship and George M. Williamson. The land was knocked down to Mr. Williamson at \$20.25 per acre, and he thinks he secured an unusual bargain. The bargain was, indeed, a rare one and the investment will yield Mr. Williamson several hundred per cent. Had this land been in the hands of an individual it could not have been bought for less than \$100.00 per acre.

These two gentlemen having been engendered some three months or more ago about some horses which Buckelew accused Collinsworth of having killed, and also the accusation is said to have been made that Collinsworth had protested the proof on Buckelew's homestead a few weeks ago. Whether or not the difficulty arose about these matters, however, no one knows for certain. It seems that Buckelew was on his own land at the time of the shooting, and at the time he was shot Collinsworth gentlemen had places which cornered, the southwest corner of Collinsworth's place being the northeast corner of Buckelew's homestead. Near the body of Collinsworth at the time it was found was a .22 target gun, such as is usually used by farmers for shooting rabbits, and the body lay in the Collinsworth field and only about 100 yards from the Buckelew home. It is understood that Buckelew claims that he shot in self defense.

OPENED FALL TERM OF THE PUBLIC SCHOOLS

Fall Term of the Public Schools Opened Monday Morning With Signs of an Excellent School Year

APPROPRIATE PROGRAM RENDERED AT METHODIST CHURCH

Program Proved to be of Great Interest to Enthusiastic Educational Builders of the Portales Valley

The Portales public schools opened the fall term Monday morning with all signs propitious for a most excellent school year. At the big meeting held at Methodist church where students, parents and the general public all gathered together for the purpose of getting acquainted with the new faculty and to speak some few words, or to hear them spoken, that would be encouraging to teacher, pupil and parent alike, an unusual interest was manifested by everyone. There was not standing room in the building, the crowd at the opening of the school being fully as large and equally as enthusiastic as was the audience at the commencement exercises held in the same building last spring. The idea of Superintendent Long that the opening of school should be celebrated in the same manner as is the closing of school—that is by an appropriate program rendered by the public—proved to be an excellent drawing card, and if we are not mistaken will be productive of a greater degree of harmony during the entire school term.

The first day there was a total enrollment of 329, of which number the high school enrollment was 74. This is a splendid enrollment and the proportion which the high school enrollment bears to the total enrollment certainly speaks highly of the interest the young people of Portales take in the cause of higher education. Where the interest of

the young people is as great as is here shown, the interest of the parents of our children is shown to be that real article that it takes to build the educational centers of our country. The opening of the school finds us with a strong, enthusiastic and zealous school spirit. The entire faculty of nine teachers have entered upon their duties with a vim and vigor which demonstrates to the public that our board of education has been wide awake when it came to the matter of selecting our instructors—a matter of very great importance to the success of our public school system. One member of the board is now predicting that within two weeks it will be necessary to employ another teacher because of the greatly increased attendance that will have materialized by that time.

Portales has always ranked as one of the best school towns in the state. We have always looked well to the education of the young, endeavoring at all times to improve our facilities. The prospects for a great school year were never so bright as now, because the interest of parents and students is now of a deeper and truer nature than we have ever developed heretofore. The Herald trusts that such an interest will grow throughout the entire school year, and that the work of each succeeding year will be more successful than that of the preceding. By this means we will bring our community to the topmost rank of the educated communities.

Woman's Missionary Society

The Woman's Missionary society gave a Silver Tea at the home of Mrs. W. S. Merrill, Thursday, September the 4th. An excellent program was rendered consisting of the Missionary Voice lesson; music and readings.

Cake and cream were served by the hostess to the large crowd of members and visitors. The social hours were enjoyed by all present.

George C. Deen and son, Calloway, returned Saturday morning from Santa Fe where Mr. Deen delivered Charles W. Osborn to the warden of the state penitentiary. Osborn recently plead guilty in the district court to an information charging arson and was sentenced to a term of two years by Judge J. T. McClure.

Ben Hall, a prominent stockman of the Dereno country, who a few weeks ago happened to the accident of having a leg broken while branding cattle, is now reported to be able to get about by the use of crutches. He will soon be just as good a man as ever and will only remember the accident by reason of the pain which it caused him.

Misses Fannie Williamson and Mattie Doss Hightower left Sunday for Wichita Falls, Texas, to resume their work in St. Marys Academy. Both of these young ladies will complete the course at this institution this year, being graduates of the '14 class.

G. M. Slaughter of Roswell was a business visitor in our city this week. Mr. Slaughter predicts that the shallow water in the Portales Valley will eventually make of Portales one of the best and most thriving towns in the southwest.

The La Lande Enterprise announced in the late issue that the reclamation work under the Carey Act would soon begin, and that the thousands of acres of splendid land around that place will soon be blossoming as a rose in a desert. This means that in Roosevelt county there will soon be developed another irrigated district.

Charles B. Blakey one of the most prosperous farmers of the Redland country moved his family to town Friday for the purpose of taking advantage of the excellent school facilities which Portales affords. Mr. Blakey expects to invest in Portales real estate.

SOCIETY

A SURPRISE PARTY

Last Saturday night the many friends of Miss Mattie Doss Hightower gathered at her beautiful home for a few more hours of pleasure before she should depart for the Academy of Marys Immaculate at Wichita Falls, Texas, the following day, to enter her third and last term in the school. The gathering was entirely a surprise to Miss Hightower, the friends being invited by her charming friend and class mate, Miss Alice Burnside of Wichita Falls, who had been visiting her for the past month, and Miss Hazelwood Moore.

Meeting at the Cozy, they wended their way to the residence where they were invited into the reception room, each one looking for the "joker" to spring the deck of amusement. After a slight consultation, it was unanimously decided that a "little dance" would possibly be enjoyed more than anything else, and while some of the most popular musicians of the society set rendered that solesful harmony—that just won't let your feet behave—they closed their eyes to the weary world and glided about in blissful happiness. After the dance, which was indulged in by most all present and which was enjoyed to the fullest extent, some dainty refreshment were served in the form of cream and those delicious "Yucca Brand" cantaloupes, adding greater joy to the occasion. In the "wee" small hours of night the visitors extended to Misses Hightower, Burnside and Moore their hearty appreciation for the pleasant entertainment and after bidding to the "college girls" and Miss Burnside their fond farewell, they departed to their respective homes. Those present were:

Misses Lucille, Myrtle and Hazelwood Moore, Margurite and Zenoma Calloway, Eula Mae Teray, Fannie Williamson, Dell Wilson, Margurite Patterson, Very Humphrey, Mary Williamson, and Kate Farmer of Houston, Texas. Messrs. Wilson, Love, North, Hank, Henderson, Austin, Earle and Edwin Patterson, Connally, Buchanan, Mitchell and Arthur Terry.

MRS. HALL ENTERTAINS

A very beautiful party was given by Mrs. J. A. Hall, on last Friday afternoon, in honor of Mrs. E. Hall of Altus, Oklahoma. The arrangements were perfect in every detail, displaying exquisite taste and capable management. The living room was very attractive in its decoration of Golden Glow and Nasturtiums, while the dining room adjoining was beautiful with its La France roses and ferns as principal decoration. Rook and bridge were the diversions during the afternoon, three tables of each being participated in and thoroughly enjoyed by all present. Delicious punch was served from a dainty table in one corner of the dining room. The dining table was attractive with its handsome cover of Mexican drawnwork over pink lining, and a large bowl of La France roses as centerpiece. An ice course was served from the table, consisting of ice cream, moulded in large pink rose form, with pink and white cake, mints, salted almonds and coffee. Mrs. Nixon served the cream, Mrs. Mundy served the coffee and Misses Marguerite Patterson and Edna Carter assisted the hostess in serving. The guests departed reluctantly, after bidding goodbye to the guest of honor, Mrs. C. E. Hall, and extending to the hostess many words of appreciation for her most gracious and charming hospitality.

Those present were, Mesdames Stone, Lindsey, Wylie, McMan-

way, Mears, Culberson, Trammel, Crosby, Leach, Connally, Deen, Vance, Nixon, Tyson, Hall, Monroe, Mundy, Howard, R. Culberson, and Misses Marguerite Patterson, Edna Carter and Sara Monroe.—Contributed.

"DEAR OLD SCHOOL"

Jo Patterson was honor guest Saturday evening when sixteen members of the younger set responded to the announcement of Mrs. Monroe that she would "hold school" from seven-thirty to ten-thirty o'clock. Chairs were arranged in rows to represent desks and desk mates were secured by matching numbers. The pupils were given little books made to represent states, and the contests were on sheets of paper within. In the alphabet contest Willie Ferguson won the favor, a pair of blue bird pins; in geography Thenie Mack Oldham was successful and was presented with a box of stationery; in physiology Helen Lindsey distinguished herself and was awarded a bottle of perfume; in literature Jo Patterson was applauded as the winner of a beautiful scarf pin. The contests were interspersed with school songs lead by Goodwin Humphrey. After "lessons" recess was declared and the pupils marched out through the "cloak room" where regular school lunches, put up in red boxes, were provided, and they then repaired to the porch for refreshments and recreation. Each responded with an appropriate speech when "diplomas" were awarded the sixteen distinguished pupils. School was dismissed at ten-thirty when they all dispersed after extending to Jo their best wishes for successful work in Kansas where he will study during the ensuing year.

The jolliest party of the summer was the "Camp Fire Stew" given by Mrs. G. W. Carr Saturday afternoon in honor of her little nephew, Joe Moss. The children came at four thirty and played games until just sundown when the fire was built under the big witch's pot and all helped in preparing the stew. None of them believed the old adage that "too many cooks spoil the broth" for surely a more delicious dish was never eaten by hungry campers. The children who enjoyed the hospitality of their clever hostess were Marjorie Pierce, Thelma and Myrtle Huffman, Agness Kemp and Grace Vedder Brown, Rachael Dunnaway, May Ferguson, Maurine Seay, Adalee Hall, Thelma and Bess Addington, Hollis, Lucy Evelyn and Ed M. Tyson, Mildred, John and Vera Merrill, J. W. Ballow, jr., Sanford and Clint Fairly, Caloway Deen, Ural and Hubert Yates, Everett Martin, Barnett and Jim Gether, Gladys, Norma and Baby Stone, Heck Harris, Jerry and Pete Hart, Mike Lindsey, Cecil Carroll, Jim Brown and Joe Moss.

On Wednesday afternoon, Mrs. G. W. Carr gave a delightful rook party for the members of her Sunday school class. The class colors, green and yellow, were used in the decorations. Delicious refreshments were served in two courses to the following girls, Misses Leota Merrill, Leta and Annabell Smith, Thenie Mae Oldham, Edith Reagan, Nora Fairly, Lucy Culberson, Nola Keen, Dora Smith, Lillian Smith, Willie Ferguson and Mignon Jones.

Delightful in every particular was the Tea given by the Missionary Society of the Methodist church last Thursday afternoon at the home of Mrs. Merrill. An interesting program preceded a pleasant social hour. A reading by Mrs. Dudley Hardy was much enjoyed. Participating in the musicale were Mrs. Nixon, Mrs. Seay, Mrs. Freeman and Miss Leota Merrill. Nearly forty guests attended.

Taiban Election

In a decision rendered by Judge John T. McClure of Roswell last Thursday the constitutionality of the prohibition law enacted by the last legislature was upheld.

On the 11th, of August, pursuant to a petition of twenty five per centum of the qualified voters, as required by law, an election was held in the Taiban district which comprised township 3 north of range 28 east. The majority of the votes cast were found to be in favor of the prohibition of the sale of intoxicating liquors, and under the law the sale of such liquors was thereafter unlawful. Mr. B. S. Everman, who was engaged in the retail sale of such liquors by virtue of a license heretofore issued and which had not expired at the time of the election, on Monday morning after the prohibition law had gone into effect sold a bottle of whiskey, and thereupon closed his saloon in compliance with the law. He then took the train to Portales and procured a complaint to be filed against him charging him with the unlawful sale of intoxicating liquors within the prohibition district, and thereupon his attorney, Judge H. D. Terrell of Clovis, took the train for Roswell and sued out a writ of habeas corpus directed to sheriff Deen requiring that he appear and show cause why he held Mr. Everman in custody. The district attorney's office, represented by Mr. Hall, appeared in behalf of the sheriff in response to the writ.

The only point raised by Mr. Everman was the constitutionality of the law, the regularity of the election being admitted by stipulation. Judge McClure after hearing the arguments in the case, and after having searched the law very thoroughly himself, decided the law to be constitutional. Mr. Everman states that he desires to comply with

the law, but that he expects to carry the matter to the Supreme court of the state merely for the purpose of testing the constitutionality of the enactment, since he is interested both in Taiban and Melrose, at each of which places the sale of liquors has by election recently been prohibited.

The law provides that the county commissioners shall refund on a pro rata basis the unused part of the license, thereby protecting the retail dealer in so far as the money paid for the license is concerned. But the point as to constitutionality is that since the legislature never created any districts, nor did they recognize districts already created, but left the matter of

carving out and creating the district to a minority of the voters to create by petition, the law is unconstitutional because it is a delegation of power which the legislature is directly forbidden to do. Judge McClure held, however, that it was not such a delegation of power as would render the law void.

Elmer Hank left Tuesday for his home at Vaughan, having been transferred there by the Santa Fe. He was relieved here by Walter Fine of Carlsbad.

Freight Rates Hearing

Hearing in the suit brought by the New Mexico State Corporation Commission against the Santa Fe, Rock Island, and other railroad systems operating in New Mexico, before the Interstate Commerce Commission, with the object of decreasing the discriminatory rates now in effect in New Mexico, has been postponed from August until October at which time one or more members of the Interstate Commerce Commission will be detailed to take evidence in this case at Roswell and Albuquerque.

The State Corporation Commission has secured the services of an attorney who is a specialist in connection with railroad hearings and his presentation of the case, with the assistance of Mr. Siegerson, the rate expert of the Commission, will be a very forcible one and the New Mexico Commission have very little doubt but that they will succeed in securing a very material reduction on all eastern shipments into New Mexico.

Forest Service

During the past fiscal year, according to a report of the U.S. forest service, 31 local organizations of stockgrowers using national forest ranges have applied for and secured the official recognition of their advisory boards by the forest service. This brings the number of associations officially recognized by the forest service to a total of 116.

Through the medium of these advisory boards several thousands and stockmen who graze stock upon the national forests now take an active part in discussing all problems of forest administration which affect their interests. The result, states the forest service report, has been the elimination of misunderstanding regarding the requirements of the stock interests and an improvement in methods of range control which has won the endorsements and approval of the large majority of the persons who depend upon the national forests for the pasturage of their stock.

Two of the stockmen's associations are national in their scope and one is a state organization. The remaining 112 are local organizations. The stockmen have, it is said, been successful in securing advisory boards composed of broadminded, unselfish men of wide practical experience who have worked for the best interests of their industry but at the same time have given intelligent consideration to the need for forest protection, and who therefore have directed their recommendations along constructive lines.

The recent order of Secretary Houston extending official recognition to organizations, of other classes of forest users is said to have resulted mainly from the large measure of success won by the cooperation of the government with the stockmen.

J. R. DARNELL BUSINESS MANAGER

The Herald is a booster for the county fair—are you?

The tariff bill and the currency bill of the administration which have been occupying the attention of Congress for some months are now each almost ready for passage, and yet the much threatened money panic has not materialized.

The Herald notes with pleasure the appointment of Mr. Henry G. Coors, an estimable member of the Curry county bar, as assistant United States District attorney. Mr. Coors will be located in Albuquerque. His many friends are unanimously of the opinion that Mr. Burkhardt, the United States District attorney, chose wisely.

The Herald has received many words of commendation of the efforts upon part of the management in giving to Roosevelt county a big eight page weekly. Roosevelt county is entitled to a weekly of this size and it is our aim to furnish to our readers and advertisers something of which they can well be proud. Thanks, for the encouragement.

There seems to be considerable discussion as to whether Governor McDonald will call a special session of the legislature in order that the tax muddle may be straightened out. It needs straightening out alright, but whether the New Mexico legislature would do such a thing or not, if it were in session, is very problematical—with the odds on the "nots."

The state corporation commission is busily engaged in its efforts to secure material reductions of freight and express rates on commodities shipped into New Mexico from the east. If they succeed in this the people of New Mexico will feel that that have at last secured one of the great blessings of statehood. There certainly is plenty of room for material reduction.

Fourteen thousand dollars have been subscribed by the farmers and business men of Don Ana county for the establishment of a canning factory at Las Cruces. As has often been said before, Portales and Roosevelt county is an ideal place for a canning factory. This would prove to be a splendid commercial proposition, and should be carefully investigated by the Commercial club.

Several real estate transfers have been made within the last few days, which goes to show that business is not on a standstill around Portales. The lands sold brought excellent prices and the sales were principally made to gentlemen from the east who expect to move here and develop their tracts. Our wonderful supply of water is attractive to those who really know that irrigable land can be depended upon.

The big forty page special edition of the Roswell Morning News was a peach. It will prove to be one of the greatest advertisements that Roswell has ever attempted, and no doubt will produce results for years to come. The Roswell Printing company and the compilers of this edition, chief among whom was our old friend Will Robinson, have certainly proved to the general public that "they are there" when it comes to producing an attractive and readable edition.

The attention of all Herald readers is especially called to the article concerning homemade silos, which appears in this issue. We cannot vouch for the success of this kind of a silo—since we are not farmers—but it appears that it would be successful and that every farmer in Roosevelt county could afford at least one silo of this kind. The Herald is a strong believer in the silo way. If our farmers would adopt this method it would mean many thousands of dollars placed into their pockets, and when the farmer prospers we all prosper.

The La Lande enterprise has now reached our editorial department for four successive weeks. It is a bright and newsy sheet edited by D. K. Smith, one of our county commissioners. We have always thought well of D. K. and have known him to be a splendid guardian of the county affairs, but never thought he had any inclinations in way of the newspaper; however, he is demonstrating his ability by giving the citizens of La Lande the best newspaper they have ever had. We gladly welcome the Enterprise to our exchange table.

In the late issue of the Literary Digest appears a splendid photograph showing the results of the modern way of plowing as compared with the old way—that is the results of breaking up the subsoil by dynamiting. The virtue of this is obvious. It was long ago demonstrated that the setting of trees in dynamited holes was much more productive of fruit than the old method of hand dug holes. It is claimed that when the subsoil is torn up by dynamiting the crop yield is from thirty to fifty per cent greater. It seems to us that this new method may be a little easier than the plowing, though perhaps a little more dangerous if carelessly indulged in. By the new method you touch a match to the lines and run to a safe distance, instead of pulling on the lines when you reach the turning point.

WHO IS MY NEIGHBOR?
Exodus 20:12-21—Sept. 14.
"Thou shalt love thy neighbor as thyself."—Luke 10:27.

THE Ten Commandments were written upon two stone tablets. One bore the first four commandments, appertaining to God; the other, the remaining six, appertaining to humanity. The essence of these last six was expressed in Jesus' words, "Thou shalt love thy neighbor as thyself."

Whoever loves his neighbor will not intentionally injure him in act, word or thought. Hence, Love expresses the full measure of the requirements of the Law. (Romans 13:10) Love is at liberty to do more than the Law requires, but cannot do less.

While only Christians are credited by the Lord with fulfilling the requirements of the Law—because of the allowance made for their weaknesses on account of their relationship with Christ—nevertheless, the Jews and many others have been blessed in proportion as they endeavored to fulfill the Law. Hence it is wise and proper to lift high the Divine standards.

Honor Father and Mother.
All parents are deserving of consideration from their children. Yet, of course, the degree of respect must depend upon the character of the parents, to some extent. With disobedience to parents rank and rampant everywhere, it may seem a hard saying, but we believe it true, that the child's disobedience is due to the parent or the guardian.

The child may have been ill-born. Discontent and rebellion in the mother's mind during the period of gestation may have so marked the child that no amount of training may fully recover it. In such a case parents may well be patient with unhappy, disobedient dispositions in their children.

Perhaps the parents were only partially to blame. Perhaps their minister did not preach the laws of God, their human operation and the penalties of their violation, but gave flowery essays and anecdotes containing neither food for the spiritual nature nor assistance in understanding and combating the human weaknesses. Perhaps the father forgot that he had a duty toward his offspring, chiefly served by assisting his wife to thoughts of kindness, gentleness, nobility, etc.

A modern writer of influence holds that Sunday Schools, while accomplishing good in one direction, have also weakened the respect of children for parents and released parents from appreciation of their parental responsibilities. One hour per week in Sunday School cannot take the place of continual parental supervision.

Statistics show that boys from sixteen to twenty years old constitute about one-third of all dangerous criminals, and that their proportionate number is increasing. Hence benevolent people should especially co-operate with the Divine command by encouraging obedience to parental authority.

"Thou Shalt Do No Murder."
Nothing in this command forbids the necessary killing of animals. Neither does it forbid the execution of criminals, for thus it would conflict with Divine Law elsewhere expressed, and practised by Divine direction.

This commandment teaches that life is to be prized, not jeopardized. Its spirit, Jesus declared, forbids an angry, murderous spirit, restrained merely by fear of consequences. This commandment makes it incumbent upon those employing labor or having supervision of others to safeguard against accidents. To allow self-interest or love of money to perpetuate dangerous conditions is to violate this commandment.

Commit Not Adultery.
One result of man's fall has been depravity of sexual appetites—unchastity, lack of self-control. These tendencies lead away from God and righteousness. The family unit of one husband and one wife, originally established in Eden, is a corner stone of righteousness in both family and national life.

"Thou Shalt Not Steal."
To steal is to take from another his possessions. Some subtle forms of theft are through stock speculations, fake companies organized to take advantage of others, etc. Making false returns to the tax assessor is stealing. So are smuggling and failure to give agreed upon services.

"Thou shalt not steal." Icos for wages received. But the worst form of theft is stealing another's good name, in violation of the Scriptures.

"Bear No False Witness."
Duly is the spirit of this injunction violated, not only in misrepresenting what we wish to sell or buy, but by indirect statements, by a nod, a shrug, or by silence when it is understood to mean consent.

"Thou Shalt Not Covet."
Covetousness is a heart-disease which has to do with every crime; for sins have their basis in selfishness, which is covetousness. Whoever would keep the spirit of God's Law must guard against covetousness.

"Were all medicines as meritorious as Chamberlain's Cholera, Cholera and Diarrhoea Remedy the world would be much better off and, the percentage of suffering greatly decreased," writes Lindsey Scott, of Temple, Ind. For sale by all dealers.

In the year 1626 PETER MINUIT bought the whole island on which New York City—now worth four thousand million dollars—is built. He paid \$24 for the island. Had he put out that \$24 at 4 per cent., compound interest in 1626 it would now amount to as much as the present value of New York City.

Bolts, rods from blacksmith.....	2.50
Lumber for frame.....	2.20
Nails.....	.25
Total cost of materials.....	\$44.00

In addition to this the time of two men for one day is necessary to bring the cost even to fifty dollars. From figures furnished by F.W. Smith of the Bonita farm near Raymore, Mo., who has four silos, none of which cost more than forty-five dollars.

THE PROCESS IS SIMPLE

Here is the way Mr. Smith built his silos, figuring a single one at twelve feet in diameter and twenty feet high to hold fifty tons.

"After selecting a level piece of ground as near the feed barn door as possible, erect a circle frame fourteen feet square. To do this, set four posts in a square fourteen feet apart. Any kind of post may be used, two by fours being satisfactory. They should be at least sixteen feet above ground. To each post attach two one by six boards made in the form of a trough. The completion of the circle is built on the ground and requires six one by twelve boards fourteen feet long. Take four of them to make a square. Now saw four half lengths and place them across the corners. Then find the circle. This is easy with a pencil, a cord and a stake in the center of the ground intended for the silo. After the circle frame has been finished, raise it to the trough and nail securely.

"Two two by fours twenty feet high will construct the door. Through these two by fours twelve three eighth inch holes should be drilled, a foot apart at the bottom, the distance gradually increasing towards the top. Drill four five eighth inch holes five feet apart. Then start with flooring. The first piece will be attached upright to one of the door posts and the others joined, a small nail being used at the top. When the circle has been completed run twelve wire bands around it. Each band should have four strands wound tightly together. Twelve three eighth inch hooks should be placed in the holes provided for them in the door posts, and the wire attached. The end extending into the door should have a long thread, so that bolts may be used for tightening and loosening. The five eighth inch rods for the doorway which are intended to hold it solid should not be more than twenty-four inches long and the threads at each end should allow for a tap and washer in addition to the bolts.

"The closing of the door is a simple process. Build from the bottom on the inside of the door with pieces of fir flooring, fastening each with small nails. A

small piece of building paper placed inside the door from top to bottom will make the silo air proof. In emptying the silo a board at a time, as needed, may be removed."

Mr. Smith does not put roofs on his silos. They are not necessary, he says, and the absence of a roof permits the filling of a silo to the top. The circle square allows easy access to the top when being filled. A ladder may be used if desired, but Mr. Smith has found that the threaded hooks extending on each inside of the door provides a suitable substitute.

"The main thing to emphasize," Mr. Smith says, "is to tramp the silage down around the inside of the silo. Two men should be worked at this and they should know that much depends on the way they work."

GOOD telephone service depends largely upon mutual courtesy. The telephone is more useful to those who talk as if face to face, for civility removes difficulties and facilitates the promptest possible connection.

As is other intercourse, it often happens that two or more people wish to talk with the same person at the same time. Without courtesy confusion is inevitable, and the confusion is greater when the people cannot see each other.

The operators must be patient and polite under all circumstances, but they will do better work if they meet patience and politeness on the part of the telephone users.

The Bell Telephone Service enters intimately into the social and business life of each individual. The best results come through the practice of mutual courtesy

The Herald respectfully invites the attention of its readers to the splendid advertisements appearing in this issue. Those merchants who liberally patronize the newspaper and thereby assist in upbuilding the country are progressive people who have your interest at heart, and your appreciation should be shown them. In other words patronize the man who believes in the country in which he lives and does not hesitate to plant his dollars in the upbuilding of that country.

A. B. Crane the justice of the peace and prominent merchant of the Upton country was a business visitor in Portales Tuesday. G. M. Williamson left Tuesday to attend the big celebration at Ft. Sumner, and incidentally for a little hunting trip. Eagle Henderson was a visitor at Clovis the first of last week. Miss Hallie Mitchell is this week visiting with Mrs. G. C. Brock at Clovis. Mrs. L. When Curry county was organized Dr. Montgomery's homestead on which he now lives, was cut into the south part of that county. This is his first visit to Portales for almost eighteen months, and the Doctor states that he is astonished at the material development that has been accomplished in so short a time.

Said he, "I have not had an unusual amount of rain, but I have worked my crop and kept the tumbling weeds down." That is a mighty good course to pursue. The man who keeps faith with this country, any part of it, and does his part will be rewarded.

Bill Cavender, a prominent business man of Clovis, was a visitor at our city this week. Mr. Cavender took occasion to drive over the irrigated section, and was exceedingly well pleased with what he saw. Mr. James F. North left Saturday for Ordway, Colorado, where he goes to superintend the cantaloupe shipments from that place for Crutchfield-Woolfolk commission company. They have seven hundred cars to ship from that place.
