COMMERCIAL CLUB AT WORK

A Canning Factory for the Valley Thoroughly Discussed

ARGE ATTENDANGE AT MEETINGS

Will Take Census of City and Get Out First City Directory

Last Thursday evening, Feb ruary 26, the commercial club met in the office of Messrs. Braley and Ball in regular session. The attendance showed that that party is once more coming to life and getting ready to start something in the Portales Valley. The meeting was called to order and the subject of the canning factory was immediately taken hold of. It was thoroughly discussed and the club unanimously decided that it was one thing that the Valley was badly in need of and must have, and that they were the men that could and would get it. The secretary was ordered to write to the parties that have been contemplating placing a factory here, and to get in touch with all the points regarding the installation of the factory at this place. A comnittee consisting of W. H. Gar rett, A. J. Smith and W. H. Ice Cream Given Away

C. M. Dobbs, in accordance with his usual enterprising spirit has built a modest, modern, sanitary ice cream factory on the lot to the rear of his place of business.

The factory is equipped with gasoline engine, hot and cold wato the manufacturing of first-class ice cream.

Mr. Dobbs will use from 80 to 100 gallons of cream each week during the ice cream season which is no small item within itself. He will do a wholesale business. He is experienced in the ice cream business and Portales people can cool their parched tongues and refresh their tired bodies with ice cream thats as good as the best and better than the rest, made here in Portales by one of our own citi-

And listen, you can try this cream absolutely free next Saturday March 7. Dr. Dobbs will serve his famous cream free from two until five o'clock p. m. The mothers are especially invited to come and bring all the children. Treat the children at Mr. Dobb's expense.

The Knocker

After God had finished the rattlesnake, the toad and the vampire, he had some awful substance left with which he made the subject of this article. The "knocker" is a two legged animal with a corkscrew soul, a water soaked brain and a combination backbone made of jelly and glue. Where other people have their hearts he carries a tumor of rotten principles, and when one of these specimens comes down the street honest men turn their backs, the angels in heaven weep tears and the devil shuts the gates of hell in order to keep him out. No man has a right to knock as long as there is a pool of water deep enough to drown his body in or a rope long enough to hang his carcass with. Judas Iscariot was a gentleman compared to a knocker, for after betraying Jesus he had character enough to go out and hang himself. - Ex.

One of the Modern Irrigated Farms In the Portales Valley

It was the pleasure of the Herald Times man to visit the Humble place Saturday af ternoon of last week. This place adjoins Portales on the south and is one of the real choice places of the Valley. It is a demonstration of what can be done here. It is unanswerable evidence of the productiveness of this Valley soil and of the adaptibility of this Valley and climate to fruit growing. This is a delightfully ideal place; with modern residence, barns lots, chicken houses, wells, windmill and gasoline engine, large reservoir. There are 160 acres; 40 of which is in orchard, there being above 1,400 bearing trees, mostly apple. There are a few peaches, plums, cherries and a small vineyard. The apple orchard is one of the very best in this section. E.A. Reid has recently plowed and harrowed the orchard and has most of it trimmed and in the best possible condition. Reid is a born worker. He has most of his land plowed and in good condition now although he but recently moved here from Texas. He will cultivate about 60 acres in feed, and ten acres in sweet potatoes and cantaloupes which he will irrigate from the engine and irrigation plant that belong to the Humble place. He also expects to have a dandy garden and will look after the big orchard with its grapes, cherries, plums, peaches and oodles of big red apples. Mr. Reid has four good horses, four splendid milk cows and a bunch of full blood Buff Orpington chickens that are shelling out the eggs. And say, we were not at all surprised to hear him say "We are delighted with this country. It's great. There is a splendid future for it. The man who gets in now is getting in on a sure enough ground floor proposition."

Mexico against Roy Elder, in Curry County, mentioned elsewhere in these columns, Judge John T. McClure Wednesday morning handed down an opinion that is of great interest to the entire bar of the State of New Mexico. The decision was rendered on a demurer interposed by James A. Hall, of this place, counsel for Mr. Elder, in which it was claimed that the old criminal libel law of 1889, reenocted by title in 1905, was un constitutional, and that the common law of crimes relative to criminal libel had been obolished by reason of the enctment of the statutory libel law in 1889, and that the common law had never been subsequently re-enacted by sgatute. There were many other points raised in the demurer, which were sustained by the court, but it is understood that the opinion of Judge Mc-"Were all medicines as merit- Clure was bused upon these two ous as Chamberlain's Cholic, propositions. Cow Brings In \$200.00 Ticket agent, W. S. Merrill,

id to the Herald Times man just as a little evidence of what can be done in this country in the dairy business. I will give you the results from our cow in 1913. "We sold \$160.00 worth of milk to our regular customers and didn't keep a record of the amount sold to others, who would buy milk quite often. There are six in my family and counting the milk we used it is safe to say our cow brought us in \$200 00. I feed a block of alfalfa, morning, noon and night. I do not feed bran or shorts, I have tried this and find that I get better results by feeding a quart of cotton seed meal morning and night, and I cut my feed bill down considerably." Mr. Merrill's manner of feeding his milk cow is new to us. Who else has tried this? How do you feed your milk cow? day, March 11, at at three o'clock Do you get better results with The following domestic science bran or shorts and cotton seed program will be given: Candy meal, or just with the meal?

W. H. Ball Talks

In conversation with the Herald Times man, W. H. Ball said 'I came here from Kansas two years ago. I have practically seen every foot of the Portales Valley, consequently I think I know it and it looks better to me all the time. I looked over the irrigated sections of Colorado and western Kansas before coming here. The ease of getting water in this Valley, the price of it, and the independence of it appealed to me. I have invested about \$15,000 here and would invest that much more if I hadit.'

Mr. Ball is one of our wide awake real estate men and having studied this Valley closely what he says should carry much weight.
