GRAND JURY SESSION SHORT

Congratulate Citizens For Peace and Good Order of County

TRUE, AND ONE NO BILL

County Officials Are Highly Complimented On Conduct of Offices

Portales, New Mexico

March 9, 1915.

The Honorable John T. Moore, Judge of the Fifth Judicial District of the State of New Mexico, sitting in and for Roosevelt County.

We, the Grand Jurors duly paneled, sworn and charged this March Term of the District Court for Roosevelt County, after two days of labor, beg to report as follows:

We have investigated all matters brought before us, or coming to our knowledge, and have examined twenty-one witnesses during our session, and have returned into court four True Bills and one No Bill.

We desire to congratulate, through this report, the citizens of Roosevelt County on the peace and good order of the county, as shown by this report and that of the last Grand Jury of the county.

Through committees appointed by the foreman, we have made examinations of the various offices of the county. We found the sheriff's office in good condition, and the books well kept.

We find that there are no prisoners in the Roosevelt County jail. We would recommend that the stairway in the jail be changed so that prisoners entering would not have to pass through the living rooms of the sheriff. The roofing on the jail is in bad condition, and we would recommend that the County Commissioners repair the roof of the jail and also that of the courthouse and we would recommend if the County Commissioners find it impracticable to repair the roof of the jail and court house, they put different roofs on these buildings.

We desire to compliment the sheriff on the condition of the jail, and especially its sanitary features.

We examined the Clerk, Assessor and Treasurer's offices, and find them in first class condition the officers obliging and courteous, and the books neatly and accurately kept.

We have also examined the County School Superintendent's office and find it in good condition, and Mrs. S. F. Culberson carefully attending to the duties of County School Superintendent.

We extend our congratulations and compliments to the County Commissioners on the general renovation of the court house, furniture and floors, and the general condition of the county.

We desire to thank the various county officials, the Judge and the District Attorney, and those with whom we have come in contact for their very kind and courteous treatment during our two days session.

Thus having completed our labors, we respectfully ask to be discharged.

J. B. Crawford
Foreman of the Grand Jury.
Attest: Roy W. Connally,
Clerk.

Signs of Prosperity

Many cars of products of the Valley and county were shipped from here last month and speak well for the prosperity of the country. During part of February the roads were muddy and the grain market was off which caused the shipment to be much less than it would have been under favorable conditions.

The carload shipments reported last month were as follows:— grain 20 cars, broom corn 18 cars, hay and sweet potatoes two cars each; hogs, cattle and beans one car each.

Eight emigrant cars were unloaded last month. Many farms have been sold in the Valley and the new owners are coming in and beginning work. Some bring their household effects and implements with them.

Moore Arrives

H. S. Moore, the new owner of the Morgan orchard is in town this week making arrangements for improving his property. He is going to purchase shortly an up-to-date sprayer. Mr. Moore will move his family here in about a month.

Inspection

The annual inspection of Company "M" National Guards of New Mexico, will occur at the Armory, Monday at 8 p. m. Gen. Harry T. Herring and U. S. Lieut. Test will be present and conduct the inspection. The public is cordially invited to be present.

Boys' And Girls' Clubs

County superintendent Mrs. S. F. Culberson has received a letter from Prof. W. T. Conway, of State college that he will be here about March 18 to organize Boys and Girls clubs in different parts of the county.

Kansas Club Meeting

There will be business meeting of the Kansas Club at Court House, Saturday, March, 20, at 1:30 p. m.

Jess Elrod, now of Hurly, Texas is here this week.

R. P. Connally and family have moved to Bethel where he is teacher in the Bethel school.

Clifton Whittle came up from Redlake Sunday to visit his uncle and aunt Mr. and Mrs. Jas. Monroe.

J. A. Tinsley and P. O. Naylor, of the Doss settlement, were business visitors to the city Monday.

Mrs. D. Hardy and baby returned Sunday after visiting in Texas. They were met in Clovis by Mr. Hardy.

C. J. Marins, foreman on the Portales-Clovis road was in town Sunday and reports that good progress is being made.

Inda Humphrey has purchased the Citizens Bank building. The lower part will be occupied by Humphrey and Sledge hardware store.

Dr. J. N. Bolard, of Denver, Colorado, a heavy property owner in the Valley came in Sunday and is looking after business interests.

Mr. and Mrs. E. K. Puckett returned from El Paso, Texas, Monday. Mrs. Puckett has been there for some time and Mr. Puckett was attending the Cattle-men's convention.

ROOSEVELT COUNTY'S LIVESTOCK FARMERS

The Journeyist Visits Among the People in Different Parts of the County. A Satisfied People Who Are Succeeding in a Big Way.

DAIRYING AND ALL KINDS OF STOCK FARMING INCREASING HERE

Took Long Trip on Train, Saw Some Good Country But Returned Feeling That Eastern New Mexico Has Them All Beated

The Journeyist has rambled about quite a bit and this will necessarily be a rambling story. I took a three or four-hundred mile jaunt on the train, saw some good country, but returned feeling that Eastern New Mexico has them all beated.

L. E. Forbes

Mr. Forbes resides in the Lakeside settlement, some twenty-five miles southwest of the city. This is a mighty good part of this mighty good county, and it was my intention to prepare a mighty good story about it, but I can't do it yet, because when I was in that section the weather was so very bad that about all I could do was to "jaw" L. E. Forbes and make away with a big lot of that good grub he furnishes. Mr. Forbes is an enthusiastic churchman, an enthusiastic dairyman, farmer and booster for this country. He stands four-square for all those things that make for the development of his community, mentally, morally and temporally. He has under his control several sections of land, owns a number of horses, a good bunch of Poland China hogs, a lot of chickens and a dandy bunch of dairy cattle. There is a large family of the Forbes, and some thirty-five cows are milked on this ranch, the weekly cream check the whole year through being a great big item. The cream is whittled to Elida, fourteen miles away, in an automobile. Mr. Forbes has been here eight years, and he said: "This is the greatest country on earth for a man to make money who has a little to begin with. Stay here? Of course we will."

O. W. Carter

Rev. O. W. Carter and his good lady live some five miles west of town, happy, growing old beautifully, like all should and may. Rev. Carter has lived in this country twelve years and will be here until he is "called hence." He has a small bunch of good dairy cows, sells cream, has two horses, a colt, a bunch of chickens, and 100 acres of land.

F. R. Holmes

Fourteen years ago Mr. Holmes came to the Portales Valley, and he has a home that is made attractive by the great number of beautiful shade trees and shrubbery, a fine well, windmill and tank. He has some very good improvements in the way of residence, barn, sheds and lots. Ten head of horses, four cows, some hogs and Rhode Island Red chickens help to make farming a success.

L. B. Thrash

Nine years ago Mr. Thrash came to this country "nearly dead." Is able now to cultivate a lot of land and raise good crops. From 25 acres in 1914 he harvested enough stuff to last him for two years. He owns 400 acres, 19 head of cattle, three horses and one mule. A bunch

of hogs, a bunch of chickens which he says pays better than anything he has found in this country. The Thrashes have been getting from 60 to 80 cents worth of eggs per day from their chickens. Enough eggs the past year were sold to more than pay for the chickens, after paying for two good hogs from the proceeds.

J. A. Tinsley

Mr. Tinsley lives some five miles southwest of town. He came here in 1908 and is here to stay. He is making good stock farming. In 1914 his crop was simply immense. After selling more than \$600 worth, he still has grain and feed stacks galore. Enough sorghum to last two years. He has some real good cattle, mules and horses, a lot of chickens and some hogs; is a splendid man and is succeeding.

P. O. Naylor

Mr. Naylor owns 320 acres of choice land, a few good dairy cows, some horses and mules, a bunch of chickens, a piece of money coming in regularly from the sale of butter cuts down the high cost of living in this home.

Miscellaneous

Commissioner Ed Johnson is enlarging his stock interests. He is also preparing to put out a small orchard and vineyard.

Postmaster M. V. Cummings at Delphos has recently put out five-acre vineyard.

Joe Dodd of Delphos has been lured to the farm and is turning the soil over with a vim.

Mrs. Ed McAllister, so far as I know, holds the blue ribbon as the champion chicken raiser of the county. She has more than 200 little chicks hatched and as many more eggs in the incubator and under the "old Bettys." Early friers and ready money.

Tom Slocum took the Journeyist out for a rabbit hunt one day last week. It was great sport digging those pesky little cotton tails out of their holes. Nit.

When I was at Rogers recently Sam Anderson, merchant and postmaster, took me for a spin in his automobile and in many ways made my stay delightful. Mr. Anderson carries a splendid stock of general merchandise and enjoys a good trade. I understand he has hied himself off to market and will no doubt bring back a goodly supply of the things his people want and need. The Journeyist.

Buyers Meet Market

W. M. Cox, who has recently purchased the Faggard meat market, needs no introduction to the people of Portales. He is a good business man who is ever ready to accommodate his customers and give them the best possible service. In Ed Williams he has secured a competent meat cutter and an experienced butcher.

Needs College Help

"The present extension force is not large, the work being started only last September," says A. C. Cooley, the extension director of the state college.

"Since that time five county agriculturists have been placed. In addition to these county men, a state leader in boys and girls club work, and a state leader in home economics have been appointed to give their entire attention to the organization and development of their respective work."

Six counties, Luna, Colfax, San Miguel, Mora, Chavez, and Dona Ana, have agriculturists. The funds being exhausted, no more can be appointed until further funds become available after July 1st.

Roosevelt county is progressing nicely along the right lines, both in farming and stock raising, yet at the same time, this county needs to take advantage of the help from the state college.

A. M. Howe.

Eighth Grade Examination

The dates for the Eighth grade examination will be the first Friday and Saturday in April and the first Friday and Saturday in May. The teachers of Roosevelt county, should promptly advise the county superintendent of the number of pupils, who will take this examination, and date, in order that the required number of sets of questions needed, may be reported to the office of the state superintendent, also the places to which such questions should be sent. This notice is made by order of the state superintendent, Alvan N. White, to the county superintendent of Roosevelt county. Signed Mrs. S. F. Culberson, County Supt. of Schools.

Mrs. Chas. Anthony of Elida is visiting at the home of her sister this week.

P. E. Jordan disposed of another Ford last week. John Swagerty of Elida was the purchaser.

Dr. Jno. L. Reid, proprietor of the Red Feather Farm, left Sunday for San Antonio, Texas and vicinity on business.

Rev. Lee Evans and E. B. Strong prosperous stockfarmers of the Cromer community were in town the first of the week.

Stanford Moore, son of Mr. and Mrs. S. F. Moore returned Sunday from Childress, Texas, after an absence of several months.

County Supt. Mrs. Culberson returned Friday after visiting the school in the Midway precinct in the north east part of the county.

Messrs. A. G. Blakey and G. W. Jones, of the Causey community, were business visitors to Portales Friday and Saturday of last week.

Mr. and Mrs. J. R. Darnell went to Stephenville, Texas, Sunday where they were called on account of the sickness of Mr. Darnell's mother.

Senator A. J. Evans writes the Herald-Times that he expects to get a state appropriation for the Portales volunteer fire department.

Mr. and Mrs. J. B. Friddy returned last Friday from the eastern markets where they purchased a large supply of dry goods for the Warren-Foodsee store.

MEETING FOR THE FARMERS

Conducted By Santa Fe, Assisted By State Experimental Station

LIVE STOCK VALUABLE ADJUNCT

Clear, Practical, Convincing Talks With Proofs To Substantiate Speakers

Amarillo, Texas, March 10.— assisted by the Extension department of the New Mexico Agricultural College, the Agricultural Department of the Santa Fe has announced a series of farmers meetings for the Pecos Valley and Eastern New Mexico points to be held at the following points on the dates given, beginning at 1:30 o'clock sharp, in the afternoon:

Loving, Monday March 15.
Carlsbad, Tuesday March 16.
Lakewood, Wednesday March 17.
Artesia, Thursday March 18.
Hagerman, Friday March 19.
Roswell, Saturday March 20.
Elida, Monday March 22.
Portales, Tuesday March 23.
Melrose, Wednesday March 24.
Clovis, Thursday March 25.

These meetings are designed for the benefit of every man and woman who is in any way interested in betterment of conditions on the farm. Speakers engaged for these meetings are men who believe that the farms of the Pecos Valley and Eastern New Mexico are not returning sufficient profits to the man who works them. They insist upon the belief that there are ways and means through which the yields and incident profits may be materially increased. It is for this reason they are coming into the communities named, and tell to the people how their better profits may be assured.

Livestock will be considered as a most valuable adjunct to every farm, and this thought will occupy time and attention at the hands of some of the speakers, while others will discuss the orchard, garden, poultry and co-operative activities for the people.

It is stated that the talks will be clear, practical and convincing, with proofs to substantiate the utterances of the speakers, and a general benefit is assured to all who attend the meetings, as announced.

Firm Changes

Capt. T. J. Molinari has disposed of his interest in the White House Grocery company to his partner, C. B. Thompson, and his son, Temple. Capt. Molinari will now devote his entire time to the realty and investment business.

The new firm of C. B. Thompson & Co., will retain the name of White House Grocery. These young men are both experienced in the business, are courteous and obliging to their customers and have the qualifications of successful business men and no doubt the new firm will continue to draw a good share of the grocery business.

Dan Smith of Valentine, Texas, son of A. J. Smith left Saturday for home after spending some time visiting and looking over the country. He is well pleased with what he saw here and proposes to locate.

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs"

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

When the Laws Met.

The Laws sat about the long green table. All the fundamentals were there save one. Even the decrepit Sallie Law was present, dozing between the Mosaic Laws and the Law of Primogeniture.

The chairman, the Law of the Land, called the meeting to order.

"Are all present?" he asked.

It was the Blue Laws who responded.

"I don't see nothin' of the Law of Nations," he squeaked.

"The Law of Nations has been abolished," the chairman sharply replied.

"The business of the convention will now proceed."

Mistaken Diagnosis—Doctors Guess Wrong Again

About five years ago I wrote to you that I had been a terrible sufferer from kidney and bladder troubles, and that my physician informed me that my left kidney was in such condition that there was no hope for my recovery. I was advised to try your Swamp-Root as a last resort, and after taking four fifty-cent size bottles, I passed a gravel stone which weighed ten grains. I afterwards forwarded you this gravel stone. Have had no return of any trouble since that time and cannot say too much in favor of your wonderful preparation, Swamp-Root, which cures, after physician's fail.

Very truly yours,

F. H. HORNE,

Route 3, Box 30

Roseboro, N. C.

Personally appeared before me, this 31st day of July, 1909, F. H. Horne, who subscribed the above statement and made oath that the same is true in substance and in fact.

Notary Public.

FOR BETTER ROADS

ROAD BUILDING IN OKLAHOMA

State Superintendent of Public Instruction Takes Steps to Teach Boys Art of Construction.

"Not to be outdone by Missouri and Kansas, the state of Oklahoma is to take up educational work in road-building," said R. E. House of Muskogee, while in Washington recently. "Governor Major of Missouri and Governor Hodges of Kansas stirred the imagination and ambition of the boys of Missouri and Kansas by getting out on the roads and handling pick and shovel in the making of roads. Oklahoma is going to begin at the beginning and teach the boy in the school how to build good roads. The state highway commissioner is co-operating with the state superintendent of public instruction, and the latter has taken up the matter with the county superintendents.

"When the federal government had spent thousands of dollars to encourage scientific farming and when so few farmers adopted the methods advanced, the officials changed their plans and went after the boys in the schools. They sought to teach the new methods to the older persons through the boys in the schools, and they succeeded.

"If the farmers were made to realize the advantages of better farming methods through their boys in the schools, it seems to me there is little doubt they can be brought to appreciate the great advantages that will result from improved roads. For that matter, however, the farmer ordinarily understands that good roads are

An Improved Southern Road.

advantageous. Education in the benefits of good roads perhaps would be more profitably undertaken in the public schools of the big cities. It is the state legislatures and the federal government that have failed to appreciate the profits that will accrue from good roads. It is far better to spend money on good roads than on great armies and navies, and it would seem that the highways had better be made passable before the government undertakes to make the rivers navigable, for there is more traffic over the country roads than on the rivers."

KEEP IDLE HORSES HEALTHY

Best Thing for Azoturia is Prevention, Says Doctor Reynolds—Water and Exercise Essential.

The symptoms of azoturia are easily recognizable. A horse comes out of the stable apparently in the best of condition. He is driven but a short distance before he shows signs of lameness or stiffness in his hind legs. He staggers and may fall before he can be unhitched. He perspires freely. The muscles over the loins and hips become rigid and frequently tender, often trembling and twitching.

According to Dr. M. H. Reynolds the best thing for azoturia is prevention. When a horse must remain idle for a few days the grain ration should be reduced. If a horse is very fat he should be fed no grain. Every horse should be given plenty of water and turned out for exercise daily. If the grain ration has not been reduced during a period of idleness in any case, the horse should have a cathartic before being put into harness again. A quart of raw linseed oil 36 hours before hitching is a safe dose. Work should be light for the first day after idleness, as violent exercise is likely to invite an attack.

Odor of Stale Eggs.
You cannot mistake the odor of stale or bad eggs. To a certain extent eggs like butter are susceptible to bad odors. Some believe that the egg absorbs odors after being laid by coming in contact with foreign substances. For instance a kerosene taste in eggs would not necessarily indicate that a hen had been drinking kerosene. Eggs that are exposed to odors of kerosene in some close back room or whose shells have become saturated with the oil will have a kerosene taste.

DISEASES OF POTATO

Problems of Increasing Importance to Agriculture.

No Trouble Has Caused Greater Difference of Opinion as to Nature and Cause Than "Leaf-Roll"—Symptoms Vary Greatly.

(By N. ORTON.)
No plant disease in this generation has been the subject of such general discussion as that known in Germany as the "Blattrollkrankheit," herein named "leaf-roll." None has aroused greater difference of opinion as to its nature and cause, and no other malady of plants is today receiving so much investigation by skilled pathologists as this. Possibly no disease which has appeared since the forties presents a greater menace to potato culture. The literature on leaf-roll has become so voluminous that few will undertake to peruse all the contributions.

Leaf-roll is a disease characterized by an upward rolling of the leaves, by

Comparison of Healthy and Diseased Hills of Same Varieties.

a decreased yield of tubers, and by transmission of the diseased condition through tubers planted. Its symptoms vary so much in detail that they can be most clearly outlined by separate treatment.

The rolling of the leaves is the most constant and conspicuous symptom of this disease. The leaflets curl or roll upward on their midrib, often assuming a nearly tubular shape, and giving a plant a stunted appearance. This rolling is sometimes restricted to the upper leaves, while in other cases all or nearly all of the leaves may exhibit it. This type of roll is distinct from the curly-dwarf condition, but a very similar roll may be induced by other causes.

The color of the foliage changes with the advent of leaf-roll, but these color symptoms vary greatly, from cases where the leaves assume an unhealthy, light-green color to those marked by pronounced yellowish, red-dish or purplish tints.

The effect of leaf-roll on the plant is a lessening or cessation of growth. The shoots remain short and the leaves stand more upright. There is, however, no such shortening of stems and leaf ribs as occurs in curly-dwarf, with its resultant deformation of the plant.

The duration of life of the plant is shortened by leaf-roll. This is a relative matter, since the leaf-roll cases may die earlier, as would be expected of sick plants.

The true leaf-roll is inheritable. The tubers from diseased plants produce diseased progeny, as a general rule.

Upper Illustration Shows Yields of Healthy and Diseased Hills Caused by Curly-Dwarf. Lower Illustration Shows Yields of Diseased and Healthy Hills Caused by Leaf-Roll.

This affords a means of distinguishing from the genuine leaf-roll those temporary conditions which give rise to a similar appearance of the plants.

All those who are best acquainted with the trouble agree as to the results of planting diseased seed stock. This point is one of capital importance in the control of the disease and of great interest in its bearing on the nature of the disease. That leaf-roll is not communicable from diseased to healthy plants is the conclusion to be drawn from all available evidence.

Sheep Parasites.
Sheep infested with ticks will not fatten no matter how much feed and care are given. The man who gives his sheep over to ticks through the winter may expect little return for the feed.

If, during the winter, your sheep show any indication of scab, give them a thorough dipping. If you wait until spring they may be alive, but the chances are against them.

Keep sheep dry, quiet and warm during the winter.

Green Feed for Ewes.
A little green feed in the form of roots such as turnips or beets, is good for the ewes, but too much of it is injurious, as it makes the lambs soft and useless when dropped.

OYSTER-SHELL BARK LOUSE

Insect Found on Over Forty Different Food Plants in United States—An Effective Spray.

(By GEORGE M. LIST, Colorado Experiment Station.)

As the name will indicate, this is one of the scale insects, taking its name from the scale covering that is secreted over the insect's body, resembling somewhat the convex side of an oyster shell.

This insect has been reported on over forty different food plants in the United States, including most of our fruit trees, also many ornamental and shade trees. It has proved especially bad in some sections of this state on lilac and ash.

If one of these scales be raised in the winter or early spring, there will be found beneath it a mass of very small yellowish or whitish eggs that hatch about the middle of May into small lice that appear as mere specks to the naked eye.

They move about for a few days, then insert their beaks into the bark and begin to feed. By the end of the season they are fully developed and have secreted a scaly covering over the entire body. In the fall, the adult deposits the mass of small eggs and dies.

Spraying with kerosene emulsion 5 per cent kerosene in May or June just after hatching time has proved very effective in controlling this pest.

CONVENIENT IN THE APIARY

Brush Made of Manila Rope is Handy for Cleaning Combs of Bees—Tool Box is Useful.

I have several little conveniences that I use in my apiary, one of which is a brush for clearing the combs of bees, writes B. A. Manly of Milo, Iowa, in Bee Gleanings and Culture. Take a round stick, 16 inches long, and with a rip-saw divide it for about nine inches, leaving the other end for a handle. Take a piece of one-inch manila rope six inches long, and with the strands fill the opening in the stick, allowing them to project on both sides of the stick. At the end secure it with bee wire and securely

Bee Brush Made of Rope.

fill the stick with one-inch brads. This makes the best brush I have seen, and is almost indestructible.

Another convenience is my covered hive seat and tool box. My hive seat is 14 by 16, with a pocket on each end 6 by 14. These pockets come within an inch of the top, and a cover is made to telescope over the seat and rest on the top of the pockets. Under the seat I have my smoker fuel; in one of the pockets my smoker, and in the other my tools. The framework of the cover is made of 1/4-inch white pine. The roof is rubberoid. Everything under it keeps dry, though I leave it standing in the apiary all summer, and at the same time I take no chance of setting anything on fire in the honey house.

FEEDING MASH IN DRY FORM

More Equal Distribution of Food is Obtained by Use of Hoppers—Feed Some Cut Bone.

Some of the most experienced poultry breeders claim that the best results can be obtained by feeding mash in dry form in hoppers where fowls have access to it at all times. This allows a more equal distribution of the food.

A slight feed of moist mash about three times a week in addition to this dry mash is good. It is essential in preparing this mash that the mixing process not be slighted, as a little longer mixing will result in a much better mash and prevent the using of an excess of water, which tends to make the mixture pasty.

By mixing green cut bone with the mash in the quantity hereinafter given a food will be obtained that is unequalled for laying hens.

Probably the best way to feed this ration is to give the flock a quantity which they will consume entirely in from eight to ten minutes.

This should be given them three times a week and the amount usually runs so that each fowl will receive on an average of one ounce at each feeding or every two days. In other words, about one-half ounce of green cut bone per fowl per day is considered the right amount.

Alfalfa Versus Timothy.
In one ton of alfalfa hay there are 1,044 pounds of digestible nutrients, of which 220 pounds are digestible protein. In one ton of timothy hay there are 926 pounds of digestible nutrients, of which 56 pounds are digestible protein. The nutrients in the timothy hay are furnished a little cheaper than in the alfalfa, but the protein in the alfalfa is far cheaper than in the timothy. As a dairy feed we would consider alfalfa hay cheaper at \$26 per ton than timothy at \$20.

Cracks Bad Ventilators.
Having cracks in the barn is not a good system of ventilation. A draft of cold air causes the cow much discomfort. Windows hinged at the bottom when partly open will allow the fresh air to enter and not strike the cow directly.

Happy Baking Days

CALUMET BAKING POWDER

The cook is happy, the other members of the family are happy—appetites sharpen, things brighten up generally. And Calumet Baking Powder is responsible for it all. For Calumet never fails. Its wonderful leavening qualities insure perfectly shortened, faultlessly raised bakings. Cannot be compared with other baking powders, which promise without performing. Even a beginner in cooking gets delightful results with this never-failing Calumet Baking Powder. Your grocer knows. Ask him.

Her Travels.

Two little Los Angeles girls were talking about the big cities of the United States. Rosie, who had traveled a great deal, and had been in many of these places, was telling Goldie about them, at the latter's request.

"I want to go to Mexico very much," concluded Rosie. "I have never been out of the United States."

"Haven't you?" asked Goldie in tones of superior pity. "Why, I have. I have been in San Francisco and Nebraska."

Canada is Calling You to her Rich Wheat Lands

She extends to Americans a hearty invitation to settle on her FREE Homestead lands of 160 acres each or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta.

This year wheat is higher but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help to feed the world by tilling some of her soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think what you can make with what around \$1 a bushel and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed farming is fully as profitable an industry as grain growing.

The Government this year is asking farmers to put increased acreage into grain. Military service is not compulsory in Canada but there is a great demand for farm labor to replace the many young men who have volunteered for service. The climate is healthful and agreeable, railway facilities excellent, good schools and churches convenient. A GLASS OF SALTS WHEN BLADDER BOTHERS

Business to Flush Kidneys and Neutralize Irritating Acids—Splendid for the System.

Kidney and bladder weakness result in uric acid, says a noted authority. Kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and cause a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging the sufferer to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation, is very profuse; again, there is a guilty in avoiding it.

Bladder weakness, most folks call because they can't control urination. While it is extremely annoying sometimes very painful, this is only one of the most simple ailments to overcome. Get about four ounces of salts from your pharmacist and add a tablespoonful in a glass of water before breakfast, continue this two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then normally again.

Salts is inexpensive, harmless, is made from the acid of grapes, lemon juice, combined with lithia, is used by thousands of folks who subject to urinary disorders caused by uric acid irritation. Jad Salts is a mild for kidneys and causes no effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Adv.

POLICY OF FAIRNESS

Democratic Attitude Toward "Big Business."

Follow the Rules of the Game, Says President Wilson, and the Country Will Be Behind Him in the Stand Taken.

The true American attitude toward business was admirably defined by President Wilson in a single paragraph of his speech to the American Electric Railway association:

"You are not to be barred from the contest because you are big and strong, and you are not going to be penalized because you are big and strong, but you are going to observe the rules of the track and not get in anybody's way, except as you can keep out of his way by having more vigor and skill than he has."

This is the sum and substance of the Sherman antitrust law and of the Clayton amendment. Every business man knows whether or not he is following the rules of the game.

The case against the Standard Oil company was not for being big but for fouling its competitors on the track, and that is the case against every conspiracy in restraint of trade which has been dealt with under the Sherman law.

So far as business is concerned the period of uncertainty is over, as the president has said. The rules of the game have been defined, and these rules are an expression of the general public conscience. For years the managers of big business have insisted that they could adapt themselves to any conditions if they only knew what those conditions were. This was a just complaint, but it has been met. There is no manager of a great industry in the country who does not know in a general way what is expected of him, or who does not know that nothing unjust or unreasonable is expected of him.

What the president calls "the maze of interrogation points" has been left behind. American industry has a clear field and no favors. All it needs now is courage.

Scholarly Veto Message. President Wilson never has written a finer or more convincing state paper than that which accompanies his veto of the immigration bill. Brushing aside all the "darkening of counsel by words without knowledge" which has afflicted congress in considering this matter, he goes at once to the heart of the heart of the question, and rejects the bill because it violates the principles on which the great republic is built.

"It seeks to all but close entirely the gates of asylum which have always been open to those who could find nowhere else the right and opportunity of constitutional agitation for what they conceived to be the natural and inalienable rights of men, and it excludes those to whom the opportunities of elementary education have been denied without regard to their character, their purposes or their natural capacity."

"Restrictions like these, adopted earlier in our history as a nation, would very materially have altered the course and cooled the humane ardors of our politics."

"The right of political asylum has brought to this country many a man of noble character and elevated purpose who was masked as an outlaw in his own less fortunate land, and who has yet become an ornament to our citizenship and to our public councils."

"Unless this journal is much mistaken, the people will back the president in his action. There may be need to restrict immigration; there is no need to base restrictions on injustice and prejudice."

As to the Income Tax. With whom is the income tax "unpopular"? Surely with those who have to pay it. That, however, is true of all taxes. No one enjoys paying them. A tax is a necessary evil. But the best tax is that which is imposed, not on needs, but on property. We have in this country for years been taxing people, not on their property, but on their needs. The man with an income of, say, \$2,500 a year, and with a half-dozen children, paid to the federal government vastly more than the bachelor with an income of \$100,000 a year. Nothing could be more unjust than that.

We believe that the principle is thoroughly established in this country and that even were Joe Cannon elected president—which is, of course, unthinkable—there would be no suggestion looking to the repeal of the income tax. It is here to stay—and it ought to stay. For it is a good tax. There could be no better proof of its merit than its supposed "unpopularity."

See Democratic Success. "I am sure business conditions would be no better if a Republican succeeded Mr. Wilson than if Mr. Wilson succeeded himself," says "Tom" Taggart of Indiana. "As for 1916, the success of the Democratic party may depend upon the business conditions in the next two years. I have a great deal of faith. If prosperity comes nothing can prevent the renomination and election of the president. Even if the European war continues, the people of this country cannot afford to change horses."

CALOMEL IS MERCURY, IT SICKENS! STOP USING SALIVATING DRUG

Don't Lose a Day's Work! If Your Liver Is Sluggish or Bowels Constipated Take "Dodson's Liver Tone."—It's Fine!

You're bilious! Your liver is sluggish! You feel lazy, drowsy and all knocked out. Your head is dull, your tongue is coated; breath bad; stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick, you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tone. Your druggist or dealer sells you a 50-cent bottle of Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your

sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working; you'll be cheerful; full of vigor and ambition.

Dodson's Liver Tone is entirely vegetable, therefore harmless and cannot salivate. Give it to your children! Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.

GREAT HELP TO A SICK WOMAN

This Lady Says, "I Cannot Find Words To Express How Thankful I Am To Cardui."

Jonesville, Va.—"I certainly appreciate what Cardui, the woman's tonic, has done for me," writes Mrs. Owen F. Wells, of this town. "Before I began to take Cardui, I could hardly go about. I had several womanly troubles, which caused me much suffering, and were very troublesome. But now I feel like a different person."

I had often read of Cardui, but had little faith in it. My husband urged me to try it, and now I cannot find words to express how thankful I am. Cardui is a wonderful medicine and I feel that it was a greater help than anything I could have taken.

I had scarcely no pain or suffering at childbirth, and I feel I owe it all to Cardui. I know that no woman would make a mistake in using Cardui at that most critical time. It will save them so much suffering.

It is my sincere desire that this statement may be seen and read by all sufferers who suffer as I did. I am telling all my friends and acquaintances of the great cure I have received."

If you suffer from any of the ailments so common to women, give Cardui a trial. Thousands of women have voluntarily written, to tell of the great benefit that Cardui has been to them. Why shouldn't it help you, too? Try Cardui.—Adv.

Notice for Yourself. "Old Mr. Grabbles says there is nothing too good for his daughter." "He has a hard job coming to him some day."

"What makes you think so?" "A girl who is brought up that way almost invariably picks out a man to marry who isn't worth killing."

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Beautify Your Hair! Make It Soft, Fluffy and Luxuriant—Try the Moist Cloth.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any store and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all. Adv.

I 'ze got a sneakin' idea, but I dunno—I dunno!"—Pittsburgh Dispatch.

ONE ON SECRETARY DANIELS

Head of the Navy Evidently Not an Expert as to the Odor of Alcoholic Liquors.

A story is going the rounds in Washington about Secretary of the Navy Daniels which may or may not reflect credit on that official, according to the point of view. According to this story the secretary was one morning conferring with an officer and in the middle of his conference interrupted the proceedings to say:

"This is the second morning that I have smelled whisky on your breath, sir!"

To which the officer is said to have replied: "I beg your pardon, Mr. Secretary, it was whisky yesterday, but it is gin this morning."

No name has been allowed to leak out in connection with this story, and it may be that there is more fiction than fact in it.—Boston Transcript.

IS EPILEPSY CONQUERED?

New Jersey Physician Said to Have Many Cures to His Credit.

Red Bank, N. J. (Special).—Advices from every direction fully confirm previous reports that the remarkable treatment for epilepsy being administered by the consulting physician of the Kline Laboratories, of this city, is achieving wonderful results. Old and stubborn cases have been greatly benefited and many patients claim to have been entirely cured.

Persons suffering from epilepsy should write at once to Kline Laboratories, Branch 48, Red Bank, N. J., for a supply of the remedy, which is being distributed gratuitously.—Adv.

At Last It's Reached. Father Vaughan tells a good story of a certain minister who was preaching on "Perfection." "Did you ever know anyone to be perfect?" he asked. "Did you ever read of any man or woman who was quite perfect?"

As he paused and looked around among his audience, a pale-faced woman rose up and said: "Yes, from all accounts, my husband's first wife was perfect."

The Only One. "There goes Rev. Dr. Fourthly, one of our most prominent ministers. He stands on a pinnacle alone." "Because of his great sanctity?" "No. He's the only minister in town who hasn't preached an antitango sermon."

The day has passed when we can pretend to know things. People want to be shown.

Advantage of Silence.

This crash of the bullet makes the value of the Maxim silencer very little, so far as military efficiency is concerned, in the way that the action writer imagines the silencer to be useful, but not to prevent the enemy from discovering the position of the men firing as many fancy.

Its value lies in the fact that it eliminates fully half of the recoil of the rifle from the action of the gases in its chambers, and it gives the officers much better control over the fire, because of the lessened noise of the rifles. It cuts down the roar of the Springfield to about the noise of the .25-20 and thus the roar of the rifles at the firing line is much reduced, and the commands of the officers can be heard.—Outing.

Consternation at the Front.

The archbishop of York, in his early days, did a great deal of work among the uneducated classes, and on one occasion a very illiterate woman was godmother to a child at a christening. In the course of the ceremony she was asked in the usual way if she renounced the devil and all his works, etc.

"Oh, yes, sir," she replied briskly. "I recommend them all."

WHAT ABOUT MEAT?

The farm value of corn, as reported by the Department of Agriculture, in 1899 and the four preceding years averaged twenty six cents a bushel. Since then the price of corn and other grain has been pretty steadily advancing; and the supply of meat animals in this country has been pretty steadily decreasing—not only relatively to population but absolutely.

Of course the price of cattle and hogs should be a product of the prices of forage and grain, and, in a general way, it is; but with dear grain and dear meat there seems to be a constant tendency to kill young stock and so finally reduce the meat supply.

Prairie chickens and venison were rather common articles of diet twenty-five years ago. A little farther back buffaloes were plentiful. Possibly beef cattle are on the way to join those virtually vanished creatures.

Of course we can get on very nicely with fish and chicken, as considerable part of Europe already does.—Saturday Evening Post.

Doss News

Many of our farmers are taking advantage of the nice weather and much plowing is being done.

Henry Freeman has installed a new gasoline engine in his grist mill.

J. B. Naylor and wife were shopping in Portales Saturday.

We are glad to announce the arrival of three new families in our community; Mr. and Mrs. Phillips, Tom Lacy and family, and Mr. Kyte and family. They are attending Sunday school and helping the good attendance.

The "Dossonian Literary club" has been organized in our school and an interesting Washington program was rendered last week. Mr. and Mrs. C. Evans went to Portales to attend the Sunday

school convention but did not remain on account of the threatening weather.

Pastor-Evangelist J. H. Shepard will preach here the first Sunday night of each month and Rev. G. W. Stroud will preach in the morning and afternoon of every second Sunday.

Doss has lost one of its best and most useful families in the departure last week of J.M. Read and wife, for Alleton, Iowa, where they expect to reside in the future. They came here eight years ago and have added no little to the moral and intellectual status of our people.

Rogers Happenings

(Delayed from last week.) A good rain fell last Friday continuing until noon.

Ezra Watts the "Master broom corn man" sold his 1914 crop of about 12 tons. It being a good quality topped the market, bringing home the kale seed.

S. F. Anderson, our merchant, left for the eastern markets to lay in a supply of dry goods.

The box supper and entertainment were postponed on account of the weather till Friday night March 26. Everybody welcome.

W. W. Van Winkle continues feeding the bunch of white face steers. My! but they are dandies. "Silos are the remedy" says W. W.

The Garret thresher is now working in this vicinity. Mr. Garret says he has 100,000 bushels to thresh yet.

The mail through Rogers has been delayed some on account of rain and auto trouble but we hope to have a daily mail soon.

A large crowd gathered at the Sunday school Sunday and much interest was shown. "Come early" says Supt. McCormick.

Dr. D. D. Swearingin, of the firm of Presley and Swearingin, eye ear and nose specialists of Roswell, New Mexico will be in Portales, at Neer's Drug Store 20-21 22 of each month.

NOTICE OF PENDENCY OF SUIT.

No. 1087
The State of New Mexico to Luis Stagg and Edith Knattenberger, Defendants, Greeting:
You will take notice that a suit has been filed against you in the District Court of the fifth judicial district of the state of New Mexico, in and for Roosevelt county, wherein G. L. Haas is plaintiff and the said Luis Stagg and Edith Knattenberger are defendants, said cause being numbered 1087 upon the civil docket of said court.

The general objects of said action are as follows: The plaintiff seeks to foreclose a mortgage, executed and delivered by Peter B. Stagg and Lulu Stagg to the plaintiff on the 1st day of Jan. 1912 for the sum of three hundred (\$300) dollars, with interest thereon at the rate of seven per cent per annum from the 1st day of January, 1915, the sum of ten per cent additional upon said amount as attorney's fees, the further sum of twenty-five and 4/100 (\$25.04) dollars paid by plaintiff for the defendant for taxes assessed against said land and all the costs of this suit; that plaintiff's said mortgage, given for the security of said sums, conveyed and mortgaged to the plaintiff the following described real estate, to-wit: the southwest quarter of section ten in township four north of range twenty-seven east of the 10th principal meridian in New Mexico; that since the execution of said mortgage, the said Peter B. Stagg has departed this life, and that his only heirs are the defendants named herein; to have said described premises sold upon the foreclosure of said mortgage and the proceeds derived applied to the satisfaction of plaintiff's said judgment and demands.

You are further notified that unless you enter your appearance in said cause on or before the 16th day of April, 1915, judgment by default will be rendered against you in said cause, and the plaintiff will apply to the court for the relief demanded in the complaint.

You are also notified that Beeson and Pardue are attorneys for the plaintiff, and their business address is Portales, New Mexico.

Witness my hand and seal of said court this 22nd day of February 1915

FARMS TO TRADE

The last 30 days we closed realty trades amounting to \$64,000, and we have some goods left that will go at a bargain. We have a 493-acre improved farm in Wyoming, also the following well improved farms near West Plains, Mo.: One of 165 acres, one of 110 acres, one 140 acres, one 44 acres, and one 240 acres. We will consider trades on above farms for New Mexico land.

We also have a 315-acre farm near Bay City, Texas, which we would consider trading for a good little ranch in Roosevelt county.

If you have anything to sell or trade and mean business, come and see us, as we are busy and our time is worth money.

NOTICE OF PENDENCY OF SUIT

No. 1085.

The State of New Mexico to R. J. Dillingham, Philander Wilcox and A. O. Cromer, defendants, Greeting: You will take notice that suit has been filed against you in the District Court of the Fifth Judicial District of the State of New Mexico, in and for Roosevelt County, wherein J. H. Sander is plaintiff and R. J. Dillingham, Philander Wilcox and A. O. Cromer are defendants; said case being numbered 1085 upon the Civil Docket of said court.

The general objects of said action are as follows: The plaintiff seeks to recover judgment upon a promissory note and mortgage deed executed and delivered by Benjamin F. Pendergraft and L. E. Pendergraft to Emma Wolfard on the 1st day of August, 1911, and later assigned to plaintiff, for a balance due of three hundred forty-three dollars, with interest thereon at the rate of ten per cent per annum from the 1st day of February, 1915, ten per cent additional upon said amount for attorney's fees, the further sum of four dollars and nineteen cents paid by plaintiff for taxes assessed against the land described in said mortgage and all costs of this action; to foreclose said mortgage given for the securing of said sums upon the following described real estate, to-wit:

The Northwest quarter of Section twenty-one in Township four South of Range thirty-five East of the New Mexico Meridian in New Mexico;

To have said mortgage declared a first and prior lien upon said described property against any claim or right of the defendants, or either of them; to have said property sold and the proceeds of such sale applied to the satisfaction of plaintiff's said judgment.

You are further notified that unless you enter your appearance in said case on or before the 8th day of April, 1915, judgment by default will be rendered against you, and each of you, in said case and the plaintiff will apply to the Court for the relief demanded in the complaint.

George L. Reese is attorney for plaintiff and his business address is Portales, New Mexico.

Witness my hand and the seal of said court this 15th day of February, 1915.

Hat for a Formal Occasion

There is never a time when a hat, moderately broad of brim and with a crown which is so conservative as to escape attention...

The hat shown in the illustration is a superb piece of millinery made of velvet over a frame whose brim droops, in the gentlest of curving lines...

Another hat which is in the same class with that pictured has a brim of equal width all around, a crown of medium size with soft top and a facing of the softest shade of coral pink.

To some complexions this facing of pink is much more becoming than a facing of white. One should experiment with color before using it.

Straw hats shipped abroad from British factories in 1913 numbered nearly 8,000,000, value, \$2,500,000.

WOMAN WOULD NOT GIVE UP

Though Sick and Suffering; At Last Found Help in Lydia E. Pinkham's Vegetable Compound.

Richmond, Pa. "When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully rundown state of health, had internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache."

"After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until I made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. Pinkham's Vegetable Compound." — Mrs. FRANK CLARK, 2146 N. Tullip St., Richmond, Pa.

Women Have Been Telling Women for forty years how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ailments. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It will pay you to do so. Lydia E. Pinkham Medicine Co., Lynn, Mass.
