COUNTY TAXPAYERS MEET

Ex-governor H. J. Hagerman, President of State Association Talks

COUNTY ASSOCIATION ORGANIZED

To Make Appeal To State Tax Commission From Recent Raise

A good crowd of representative taxpayers turned out Wednesday night to hear Ex-Governor H. J. Hagerman, of Roswell speak at the court house on the subject of the state taxpayers association of which he is the president. Mr. Hagerman is one of the best informed men along this line in our state and his remarks were very interesting to the taxpayers of this section.

He set forth the purposes of the organization, that it wants to see the burdens of taxation fall upon all alike and see that there is a full and careful rendition of all the properties in the state. He also suggested that the taxpayers organize a local association to work in conjunction with the state organization. This met with the approval of our citizens and the organization was made with Representative R. G. Bryant, president; Judge W. E. Lindsey, secretary and Dr. J. S. Pearce, treasurer.

The taxpayers of this county think that the recent raise made by the State Tax Commission of 20 per cent on grazing lands and 50 per cent on agricultural lands is unjust and are going to present their claims to J. W. Poe, of Roswell, chairman of the commission and who is their representative in this judicial district. From the information we have it seems that lands in this county are assessed higher than some of the other counties of the state for the same kind of land.

C. V. Harris, chairman of the board of county Commissioners is writing Mr. Poe to ask him to come to Portales and allow the taxpayers of this section to present their claims for a revision of the valuations downward.

Better Prices Expected.

The enormous prices now asked for cottonseed meal and cake will make better prices for the enormous Roosevelt county grain crop. The advertising we secured at Albuquerque has resulted in some fifteen inquiries for feed and sweet potatoes here.

The increased demand for certain kinds of cotton, one of our dealers informs us, has caused the manufacturers of mattresses to greatly increase the price of their product.

Coe Howard was called away on business and was unable to be present at the meeting Friday night. He returned the first of the week and left Tuesday for Chicago on another business trip.

William Roman returned Monday from Pampa, Texas where he had been working.

A. A. Rogers left Saturday for Kansas City and other eastern points on a business trip. He was accompanied by Mrs. Rogers.

Highway Meeting.

The Roosevelt county delegation attending the State Highway meeting at Santa Fe returned Friday morning. There was a good attendance of members of the road board and county commissioners from all over the state and the meeting is said to have been one of the most enthusiastic and beneficial ever held.

Capt. T. J. Molinari led the discussion on road maintenance and suggested that part of the time of the convention hereafter be devoted to a school of instruction with practical demonstration by the state engineer. He also suggested the publication of a magazine devoted to the subject of good roads to be maintained by advertisements of road building necessities.

The Highway bond issue of which we get \$12,400 will be spent under the supervision of the state engineer who will probably improve roads suggested by the road board.

School Notes.

The Portales school is daily raising its good reputation to a much higher standard than it has ever been. The citizens of the city and from all over the State are taking interest in our school progress and are coming to see and know for themselves the nice things they have heard about the P. H. S.

Among the visitors who were honored with having with us last week was the well-known lecturer Dr. Lumpkin, who gave a very interesting talk. Tuesday morning of this week Judge G. A. Richardson of Roswell visited our chapel and we had the pleasure of listening to a very encouraging talk.

P. H. S. is taking the utmost interest in athletic work and has not been "beat" in any game with our rivals. Mr. Jones gave a very interesting and beneficial lecture on "Evolution" to the members of the botany class.

Much Interest Shown.

Much interest was shown by the school children in the unique ad. of the Deen-Neer Co. Many correct answers were sent in from all over the county. Sixteen answers came from Taliban, 12 of which were correct.

Mary Elizabeth Hancock was the first girl to submit a correct answer and received a box of candy. Sadie Six and Rachel Dunaway were second and third respectively. Jim Crow was first and won the boys' box of candy. Clay Nelson, Robert Puckett, Howard Sanders and Ruffin Sledge followed in the order named.

Gets Onions.

E. P. Kuhl returned today from Albuquerque where he succeeded in recovering practically all of his prize Denia onions which were misplaced. Mr. Kuhl valued his onions at \$10 each for seed and it is needless to say that he rejoices over their recovery.

Buys Home.

J. P. Pyeatt bought the T. M. Littlejohn residence, south of the square. This is one of the nicest small residences in Portales. Mr. Pyeatt and wife expect to move to their new home in a few days.

FAIR COMMITTEE AND ASSISTANTS HONORED

Reception Given in Their Honor at Presbyterian Church By The Citizens of The County Which Was The Greatest of Its Kind Ever Held Here

JUDGE G. A. RICHARDSON MAKES PRINCIPAL ADDRESS OF EVENING

Proposition Launched To Have Permanent Fair Association In Roosevelt County With Grounds and Buildings and Maintain Our Position

The banquet and reception to the fair committee and their assistants last Friday night at the Presbyterian church was the most successful event of its kind ever pulled off in Portales. It was one of those get-together meetings where the booster spirit was everywhere prevalent with general rejoicing on all sides for the work accomplished by the Fair Committee. It was a meeting at which everybody received due praise for the part he had taken in the great accomplishment, for that was what it was. The greatest credit is due that progressive farmer and consistent booster, E. P. Kuhl for promoting the meeting and doing so much toward its success. Judge Jas. A. Hall was master of ceremonies and his ability to perform this duty is well enough known not to need any comment.

The first speaker was Capt. T. J. Molinari who had just returned from Good Roads meeting at Santa Fe where he heard many things complimentary to our exhibit and our county. The Captain thanked the Fair committee and their assistants in behalf of the business men in his most eloquent manner. The Committee and their assistants certainly could not help but know how much their work was appreciated after hearing this talk.

The second speaker was A. A. Rogers, president of the Portales Utilities Co., and chairman of the Fair Committee on "advantages derived from our Fair exhibits." He reviewed at some length the progress made in the Valley and county since his coming here four years ago. He also read the report of expenditures made by the committee which will appear in our next issue. Mr. Rogers took occasion to thank the gentlemen who worked so hard and assisted the Fair committee and the farmers who made it possible to have such a great exhibit at Albuquerque. He said that Roosevelt county now stood at the top and if we wanted to maintain that position we must start now to get ready for next year. Mr. Rogers said that he believed that Roosevelt county is now the best advertised county in the state and is already getting results in the way of sale of products.

The next speaker was W. O. Oldham, president of the First National Bank who spoke on the "Industries of Roosevelt County." Many thought it was the best talk that Mr. Oldham has ever made. It was practical, full of wit and humor and the cause of much merriment. Mr. Oldham is for "more and better live stock in Roosevelt county" and naturally his discourse was principally along that line.

E. P. Kuhl who has made a better showing on his farm than any other man in the Valley in the same space of time spoke for the farmers. He was loud in his praises of the Committee and their assistants and mentioned some who other speakers had omitted. He spoke of the wonderful progress that has been made by the farmer and of the importance of his work.

Secretary J. L. Reid was the next speaker and his subject was "Winning the Prize." Too much credit cannot be given Dr. Reid as he was a hard worker and one of the best Fair men in the entire state. He thanked the County commissioners for the money they appropriated to the Committee; the business men for their contributions and the farmers for their excellent exhibits.

The most important address of the evening was made by Judge G. A. Richardson, of Roswell, who is one of the pioneers in Eastern New Mexico. His subject was "Advantages of a permanent Fair Association." For several years in the early day he was one of the most active fair workers in Chaves county and spoke with a full knowledge of the subject. The Judge paid many compliments to the people of this county for their progressiveness and also made some suggestions along the line of improvements. He urged that by all means we should have a permanent Fair Association with grounds and buildings. He takes a keen interest in public improvement and matters that are for the advancement of his district. His remarks were greatly appreciated.

A. A. Rogers and E. P. Kuhl then submitted to the audience the proposition of a permanent fair organization. A subscription list was drawn up setting forth the purposes and signatures were secured for shares at \$10 each. The idea met with the general approval of the audience and several shares were taken immediately.

The last but perhaps not the least important part of the enjoyable meeting was the lunch which was served by the ladies. It was most delicious and contributed greatly to the pleasure of the occasion.

Pleased With Encampment.

The Boys' and Girls' encampment at the State Fair was a success in every detail judging from the reports of the pupils and others who were there. Mrs. S. F. Culberson, County Supt. has received several letters from the pupils who attended thanking her for making it possible for them to attend.

Mrs. Culberson is very much elated over the success of the meeting and joins the many pupils and parents in the county in wishing that it may be made a permanent part of the State Fair.

Roosevelt County Leads.

A recent issue of the "Education Bulletin" published by the State Board of Education at Santa Fe has just reached our office and shows that Roosevelt county has less illiterate voters and a less percentage of illiterate voters than any other county in the State, the percentage being 1.7 per cent. Curry county is a close second.

Success With Siberian.

Q. L. Metz who bought the Hoover place, southeast of Portales, is one of the farmers of this county who has been successful raising Siberian alfalfa. Last year he procured one half pound of seed from Jack Wilcox who introduced it in Roosevelt county and this year he saved eight pounds of seed. Some of it grew to be eight feet tall. We understand that Mr. Metz says that it is fine feed for cattle and hogs.

Some Calves.

There is no better place in the southwest for the raising of cattle than in Roosevelt county. No place is there a more prolific yield of calves than here. Oscar Evans one of the prosperous stock farmers of the Nobe community has a cow which is a very good example of a Roosevelt county Durham. He has a Durham cow which is less than five years old and is the mother of five calves. She has had three heifer calves in the last 12 months.

Make Improvement.

The Joyce-Fruit Co. is making some improvement in the shelving in their grocery department. The new arrangement is much more convenient for the clerks and shows the goods up to a better advantage for the convenience of the customers.

Reports For Schools.

Our job department has just finished printing the school reports for the rural schools of the county. These have been delivered to the county superintendent who will furnish them to the different districts.

The Fair Committee wishes to announce that the canned fruit which was sent to Albuquerque is at the office of the Portales Utilities Co. and the owners are requested to call for it.

Roy Smith, assistant cashier of the Portales Bank and Trust Co. resigned his position last week and went to Needles, Ariz. where he has secured a responsible position with the Santa Fe.

ANOTHER BIG CATTLE RANCH

Wilcox Receives Calves From G. P. Smith Cattle Company

BEST COUNTY FOR CATTLE AND HOGS

Ranch South of Portales Equipped To Handle Big Herd

Jack Wilcox of Fairbury, Ill., is here this week receiving the 175 head of calves he bought some time ago from the G. P. Smith Cattle Co. of this place. The G. P. Smith herd is one of the famous herds of this county and the bunch Mr. Wilcox bought are composed of about an equal amount of steers and heifers about 95 per cent of which are Herefords.

These are a part of the herd which will be kept on his ranch on the railroad strip, south of Portales where he has 6000 acres of good grass land on which there is already 60 head. Mr. Wilcox said that he expects to buy 200 head more if they can be secured at right price. He thinks that this is a great cattle country and proposes to utilize all the land he owns in this manner.

The Wilcox ranch is on the edge of one of the most prosperous farming sections of Roosevelt county and he proposes to buy feed from the neighboring farmers to feed his cattle. He has already bought the crop of B. J. Nash, whom he has hired to look after his cattle. Mr. Wilcox has recently bought a pair of stock scales to use on the farm when feed is bought. Another recent acquisition to his ranch is a feed crusher which will be used to crush maize and other feed.

Mr. Wilcox is a man who has traveled extensively and has investigated much of the west, but he thinks that Roosevelt county has them all beat when it comes to the cattle and hogs. He thinks that the immense amount of feed that is raised in this county should be utilized right at home and thus insure greater profit to the farmer as well as making a profit to the cattlemen who feeds it.

Fine Shooting Contest.

Chas. Thomas of Co. M. who was among the members of the New Mexico National guard who went to the National shoot returned Wednesday. He was very enthusiastic over the affair and reports a most enjoyable trip.

The New Mexico team advanced from a low position in class three to a strong position in class B. They stood 21st among 44 contesting teams. Last year the team was near the tail end. Private Thomas ranked seventh among the New Mexico contestants.

One of the members of the New Mexico team took along a one-year-old wolf for a mascot, which attracted much attention in the camp and along the road.

Notice K. of P.

All members of the order of K. of P. are requested to meet at W. H. Braley's office at 7:30 o'clock P. M., Wednesday Nov. 3rd. Matters of interest to all Knights will be discussed.

The nature and objects of said suit are as follows: The plaintiff sues the defendant to collect a note dated Dec. 11th, 1914, for the sum of six hundred dollars, due Oct. 15th, 1915, with twelve per cent per annum interest thereon from maturity until paid, with ten per cent additional on the amount due thereon as attorney's fees, if placed in the hands of an attorney for collection, it being alleged that no part of said note either as to principal, interest or attorney's fees have ever been paid, but that the whole thereof is past due and owing to the plaintiff and that said note has been placed in the hands of attorney for collection, and said suit is further to enforce an attachment against the property of the defendant in said action and his property, to wit: "The East thirty feet of Lot No. four (4) in Block No. seventeen (17) in the original town of Elida, Roosevelt County, New Mexico, together with all improvements thereon including the building located there, on known as the First National Bank Building in said town of Elida, N. M., except the West half of the West wall of said building," has been duly attached in said action, and plaintiff claims a lien thereon by virtue thereof for all said sums so claimed to be due with all costs of this action and prays that same be so decreed by the court.

You are further notified that unless you enter your appearance in said cause on or before the 11th day of Dec., 1915, the plaintiff will apply to the court for the relief demanded in his complaint and judgment will be rendered against you for the amount of plaintiff's demands with all costs of suit and your property sold to satisfy the same.

T. E. Mears is attorney for the plaintiff and his Post-office and business address is Portales, N. M.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theodor's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Theodor's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

PROBABLE ACTION OF SWEDEN.

Is Sweden to be the second nation of the world to outlaw the liquor traffic—the first to follow the example of Russia? From the statements of Mr. Frederick Peterson in a recent magazine article it seems probable. He says: "The present crown prince, who will be the next king if he survives his father, is a total abstainer and forbids the use of liquor in his household. Both houses of the parliament are increasing their temperance membership. Edward J. Wavrinsky, the head of the Good Templars of the World, is the temperance leader, as well as leader of the Social Democrats in the upper house." Mr. Peterson states that "133 of the 220 members of the house are total abstainers, and the majority of these are Social Democrats. This party has 87 members in the lower house and 14 in the upper, it being in the majority. In 1896 there was one member representing the Socialists in the lower house and exceeding in total abstainers. Now the Socialists are the leaders on this question. The working classes, the small wage earners, constitute the party. Who better than they know the evil of intemperance? Women municipal suffrage has placed manable women in city governments. They are leaders in the temperance arm and it is sublime to see them and hear them speak for home against the rum seller whether it be in the public forum or in the city councils."

LAST WORD IN BREWERY BUILDING.

An immense placard on the top of a big brewery recently erected in Philadelphia was a cause for comment citizens who saw in it an unintentional prophecy. It read, "The Last Word Brewery Building." Harry H. Paine of Philadelphia, treasurer of the Reading railway and allied corporation, in a speech made at the annual banquet of the Pottsville Y. M. C. called attention to the appropriateness of the placard in view of the fact that the liquor traffic is doomed. He declared that the one service for uplift of society today is the bringing about of the death of the liquor traffic. He said the handwriting on the wall and all liquor dealers brewers would do well to get on the business at once.

Arch, N. M., Oct. 10, 1915.
Editor:
It seems that Gen. Lew Wallace was a Carpet Bagger from the article by Mr. Robertson. Well, he may have been one but I hope not such a one as we have in eastern New Mexico, from the Magnolia state. Say, do you know that if the Democrats of this state could elect a majority of the legislature of one vote and should have a Democratic governor, they would disfranchise every Mexican in the state.

Mr. Editor, you remember when "Billie McDonald" sent his representative from the traveling auditor's office over here to examine this county's books, he spent most all his time in a certain saloon. I did not know until then that the saloon was the proper place to get a Democratic record but I consulted my old friend Judge W. E. Lindsey and he soon satisfied me that it was the place to get a perfect record of the bunch. Excuse haste as I am in a hurry.
I am yours Respt.,
W. B. Hensley.—State Record.

The republican party are in such a minority in Roosevelt county that they grasp at anything that it seems possible to make a little campaign thunder. This is the first time we have ever heard of the traveling auditors being accused of frequenting a saloon during the time they audited the books of this county. While here they attended strictly to business. It is strange that anyone should wait a year and one half before making such an accusation. The records show that even the socialists beat the republican candidates in this county in the last election, so after this it is not surprising that one of their party should make accusations like the above against the party in power. A thinking man will merely consider the source.

ENJOY MOTORING IN WINTER

More Owners Are Now Using Their Cars in the Days of Snow and Ice.

In this country, we have not advanced quite so far as has Europe in the matter of outdoor winter sports. We are still inclined to hug the fireplace, when we are able, and there is still a very large class of motor car users which puts up its cars for the winter, or uses them only as utility vehicles on the cleared streets of our larger cities. But even at that, the tide is turning, for the motorist of a few years ago was own brother to the bear in his hibernating habits, says Suburban Life. The bear, we are told, on the coming of cold weather, retires to his den and sleeps until a more propitious season. The early motorists, on the approach of winter, retired to their garages and ceased to exist as motorists until revived by the warm sunlight of late spring. Today there is a large and constantly increasing group of motor-car enthusiasts who have learned that winter is by no means a closed season for the enjoyment of their favorite sport.

The motorist who declines to motor simply because the calendar tells him that it is winter loses a supremely delightful experience. There is exhilaration in the onward rush through the biting wind. There is health and healing in the pure, clean cold. There is tonic in the sweep of the crystal clear air, keen as a whetted scimitar, and whipped home by the added impetus of flight in a fast moving motor car.

Points for Repair Men.

In using the impulse tire pump the engine should not be run very fast. As the suction of the retreating piston serves to draw the pump to its momentum, it cannot act as rapidly as the engine pistons. Some pumps have springs to return the pistons. It is quite common for a patron to be surprised at the size of a repair bill, and to go away "sore." This causes him to shun the shop in the future, and also to tell his friends that the repairman is unfair. It would be better policy if an estimated price could be given for the work before taking the job.

The unwritten law is always liable to make terrible mistakes. Often it does make them. That is why the experience of men have found that written laws conserve vastly better the safety and interests of society. It is true the written law makes mistakes at times, but it gives itself time to think and to investigate. It is the first characteristic of the unwritten law that it does neither.

WHY SHOULD WOMEN VOTE?

WOMAN'S SUFFRAGE FROM THE VIEWPOINT OF LEADING FARMERS.

Why should women vote? That is the question that is ringing from ocean to ocean and reverberating from the Canadian boundary to the Mexican border. It is the mission of a newspaper to give the news and the action of the Texas Farmers' Union in opposing woman's suffrage when that question was recently before the Texas legislature is significant as representing the attitude of the organized plowmen. We reproduce in part the argument presented by Hon. W. D. Lewis, president of the Texas Farmers' Union, in opposing the bill: "It is gratifying to note that it is not the farmer's wife who is clamoring for the ballot. She is too busy trying to make happier homes, molding the minds of future citizens and sharing with her husband the cares of life to indulge in political gossip. The ballot will give her no relief from drudgery, give no assistance in clothing the children or bring to the home additional comforts, conveniences or opportunities in life. It is, as a rule, the city woman promoted to idleness by prosperity, who is leading the suffrage movement. "From many standpoints, perhaps a woman has as much right to vote as a man. So has she as much right to plow as a man; she has as much right to work in a factory as a man; she has as much right to shoulder a musket as a man, but we would rather she would not do so from choice and we regret that necessity oftentimes compels her to earn a living by engaging in gainful occupations. We do not consider misfortune a qualification for suffrage or a business accident a reason for granting franchise. We are opposed to woman at the ballot box the same as we are opposed to woman in the field, in the factory or in the army and for the self-same reasons. We had rather see her plant flowers than sow wheat; gather bouquets than pick cotton and rear children than raise political issues, although she may have as much right to do one as the other.

Opposed to Unsexing Humanity.

"Sex qualification for suffrage may have its apparent inconsistencies. No general rule adjusts itself perfectly to all conditions. It is a favorite argument advanced by the proponents of woman's suffrage that many cultivated and noble women are far more capable of intelligently exercising sovereignty than a worthless negro, but the South never was anxious for negro suffrage, and while culture and refinement, and even morality, are desirable virtues, they are not the only qualifications for franchise. "The primary, inherent and inseparable fitness for suffrage is supporting a family. The plow handle, the forge and the struggle for bread afford experience necessary to properly mark the ballot. Government is a great big business and civilization from the very beginning assigned woman the home and man the business affairs of life. "There has been much freakish legislation enacted during the past decade that no doubt appeals to woman's love for the ridiculous, but to undertake to unsex the human race by law is the height of legislative folly and a tragedy to mankind. "We are opposed to the equal rights of woman—we want her to ever remain our superior. We consider woman's desire to seek man's level the yellow peril of Twentieth Century civilization. "Woman is the medium through which angels whisper their messages to mankind. It is her hand that plants thoughts in the intellectual vineyard; it is through her heart that hope, love and sympathy overflow and bless mankind. Christ—the liberator of woman—was satisfied to teach the lessons of life and He was a man. He chose to rule over human hearts and refused worldly power and men followed after Him, women washed His feet, little children climbed upon His knees and the Ruler of the universe said that in Him He was well pleased. Can woman find a higher calling?"

THEMISTOCLES

When Themistocles was asked by his host at a dinner party to entertain the guests by playing the lute, he replied that he could not play the fiddle, but that he could make a small town a great city. We have in this nation many politicians who are good "fiddlers," but they cannot make a small town a great city. We are overrun with orators who can play upon the passions of the people, but they can't put brick and mortar together. We need builders. Let those who hunger and thirst for power understand that the highest glory of a statesman is to construct and that it is better for a man that he should build a public highway than that he should become Governor of a state, and that he start a plow than that he become the author of a law. The true test of statesmanship is the plow and the hammer, so let those who would govern, first build.
