HOG INDUSTRY INCREASING

Roosevelt County and Portales Valley Offer Splendid Opportunity.

BEST WAY TO MARKET FEED CROP

J. B. Priddy Ships Fine Car To Market, At Fort Worth, Texas.

The live stock activities in Roosevelt county are not confined to cattle alone for the raising of hogs is a fast growing industry and one that is proving to be one of our most profitable industries. The entire county and especially the Portales Valley offers most splendid opportunities in this line.

The farmers of the county through experience have learned that this is the most profitable manner to market their feed and are raising and buying hogs. The immensity of the feed crop, together with the high quality of the hogs which are raised here, which command top prices have been the factors which have caused the production to grow.

The Valley presents the best opportunities where hogs are allowed to run on alfalfa and require but very little grain until a few weeks before shipment. One of the most successful hog farms in the Valley is owned by J. B. Priddy, manager of the Warren-Fooshee store. Starting with a small bunch the number has grown to several hundred, under the care of H. P. Beard. The first of the week they shipped a car to Ft Worth. The hogs were in fine condition and it is expected that they will continue the record made by most of the hogs shipped from here by topping the market.

Work Tied Up.

County Assessor J. E. McCall has been forced to suspend work on his books until the Tax Commission at Santa Fe will grant permission to allow the special sewer tax to be placed on the books. The recent city ordinance provides that the sewer tax be levied against the abutting property and as this is in excess of the levy permitted by law it was necessary to take the matter up with the commission.

Done at Santa Fe.

Many of the taxpayers of the county, seem to have the idea that the raise made in the valuation of the various classes of property was made by Board of County Commissioners. This is incorrect. The final valuation of property is fixed by the State Tax Commission, at Santa Fe, a body composed of five members appointed by the Governor. This is the body that is responsible for the recent raise in valuations.

Notice K. of P.

All members of the order of K. of P, whether in good standing or not are requested to meet at W. H. Braley's office at 7:30 o'clock p. m., Friday November 19th. We are about to organize a live K. of P. lodge in Portales. Come out and help.

Change in Contest Law.

An important change in procedure and practice covering contests in the federal land office is announced. Hereafter the statements in the application must be corroborated by the affidavit of at least one witness having personal knowledge of the facts in relation to the contested entry, as, if proven, would render it subject to cancellation, and these facts must be set forth in the affidavit.

Transferees and incumbents of land, the title to which is contested or is in process of acquisition under any public land law, shall upon filing notice of the transfer of incumbency in the office, become entitled to receive and be given the same notice of any contest or other proceeding thereafter had affecting the land which is required to be given the original entryman or claimant. Every such notice for a transfer or incumbency must forthwith be noted on the records of the land office and reported to the general land office where like notations will be made. Thereafter, such transferees or incumbents as well as the entryman must be made a party defendant to any proceeding against the entry.

School Notes.

The third week of the third month of school, even with the cold weather is holding up to the average and all teachers report good attendance.

J. F. Jones made the high school one of the best talks and gave them one of the best lessons they have received this year last Tuesday morning at assembly. We always appreciate Mr. Jones' talks.

Paul Keachie and Will Ross, from Stewart, Wisconsin and Arch, respectively are new high school students this week. We welcome both of the boys and believe that they will make good additions to the high school. Paul is a Freshman and Will a Sophomore.

Carl Owens has been selected as the Portales High School representative at the State Oratorical contest to represent the boys and Leota Merrill to represent the girls. Both of these students are fine in their respective lines and we predict success for them in the statewide contest.

Janice Wyly and Virginia Paulsell were the last ones to have a chance at the statewide spelling contest and Janice won by a small majority.

Janice, Leota, Carl and Mr. Long will leave Sunday or Monday morning for Albuquerque to attend the contests and also the state teachers' association. We have not learned the names of any other teachers who are going.

Next week is Thanksgiving week and also monthly exam week and everybody is looking for more or less trouble ahead. We expect to finish our monthly exams Wednesday and have Thursday and Friday for our Thanksgiving holidays.—Con'd.

Walker Caswell, of Ft. Worth, Texas who has recently been visiting the Buchanan Bros. has purchased a five acre block from H. Fickencher and will improve it in the near future and locate here.

ROOSEVELT COUNTY CREAMERY OPENS

Twelve Hundred Pounds of Alfalfa Brand Butter, Made Under the Most Sanitary Conditions by Expert Butter Makers and Put on the Market.

FARMERS' CREAMERY STARTS UNDER MOST OPTIMISTIC CONDITIONS

Dairying Business Will Boom In County As the Prices the Producers Have Been Getting for Cream Has Retarded Growth of Industry.

Operations were commenced at the Roosevelt County Creamery Wednesday when 1200 pounds of "Alfalfa Brand" butter were churned. Twelve hundred pounds of delicious golden butter, with a flavor equal to that manufactured anywhere in the United States and made under the most sanitary conditions by veteran butter makers who are experts in their line. The butter is wrapped and packed in attractive pound cartons which are labeled and have an up-to-date look in every respect.

There is a big demand for the output and more orders for butter have been received than can be filled. The market for the product is assured as several good sized orders have been placed by concerns from distant points. The first buyer was Edwin Neer of the Deen-Neer Co. who was on hand to get the first packages that were ready for the market. The disposition of the butter seems to be the least of the problems of the managers of the Creamery. What they want is more cream so the big plant may turn out something like its capacity and fill the orders for the product as they come in.

Conditions seem most satisfactory for the creamery; everything points towards its success. The start has been made under the most flourishing conditions and a visit to the plant is sure to make one a booster for the institution because it has started in a manner which indicates that the management is equal to the occasion and the Roosevelt County Creamery will be an institution which the citizens of this county may regard with pride.

The dairy business in our county is certain to increase by leaps and bounds. It has not advanced as it should have because the farmers have not been getting a price for their cream that justified them in investing more money in cows. Under the present arrangement they are certain to get the standard market prices which will make dairying much more profitable than it has been heretofore.

In honor of the opening of the Creamery, the business men of Portales are going to entertain the stockholders of the Creamery and some other invited guests. This entertainment will occur Monday evening.

Many of the business men and prominent citizens of the nearby towns have been invited and when they are here they will have an opportunity to inspect the Creamery and see what a really fine plant it is. Mr. Blunt is being congratulated on every hand for perseverance and untiring energy in organizing and building the Roosevelt County Creamery. Every stockholder even those who live at a distance should avail themselves of the opportunity and be present next Monday.

THANKSGIVING DAY PROCLAMATION By the Governor

THE WAR CLOUDS of the world lower darkly and the future appears dim and uncertain in the eastern hemisphere. No one can foretell what the harvest of death may finally bring forth.

In the sunshine of our own State of New Mexico the future is illumined by our present prosperous conditions. In all lines of industry the past year has shown great advancement. In education and the things that make life better and of more worth we have made remarkable progress. Our blessings have been manifold and our disadvantages largely the imaginings of minds ill at ease, distorted by malice or warped by the prejudice of preconceived notions not in accord with the actual facts and conditions:

THEREFORE, I, WILLIAM C. McDONALD, Governor of the State of New Mexico, do hereby designate THURSDAY, the 25th DAY OF NOVEMBER, 1915, as THANKSGIVING DAY

May our hearts bow in unison with our heads on the altar of a peaceful, happy state and nation, in praise and thankfulness to an all-wise Providence. May the spirit of good cheer pervade the homes of all and impress those blessed with plenty that it is better to give than to receive, so that the homes of the poor and unfortunate may be made glad by the kind thoughtfulness of their more prosperous brothers and sisters.

Done at the Executive Office this, the 12th Day of November, 1915. Witness my hand and the Great Seal of the State of New Mexico.

Attested: WILLIAM C. McDONALD,
ANTONIO LUCERO,
Secretary of State.

Milking the Dairy Cow.

Now that dairying has the chief attention of many sections of the state articles on dairy herd management should be of general interest. Many men are contemplating buying some dairy cows for the first time, and one of the first lessons they must learn is that milk cows cannot be handled like range cattle. Rough treatment and roping have no place in the handling of dairy cattle. The next important factor, and one which is apt to be neglected, is regularity of feeding and milking. If a man does not intend to run his dairy on a regular schedule, every day in the year, he had better not buy any milk cows. Any changes in the feeding should be made gradually, and regularity of milking cannot be too strongly emphasized. Irregularity of time of milking will spoil any cow. The intervals between milking, morning and evening, should be as nearly equal as practicable. The cows should be milked in the same order each time and by the same milker. Never excite a cow, but be quiet and gentle with her. Milk rapidly, with the full hand, and never moisten the hand. If the cow has a sore teat, it may help to put a little vaseline on it. The quicker the milking, the richer the milk, if the work is done well and completely. It is better to milk the front quarters first, if they are less developed than the hind quarters, as this will tend to enlarge the fore quarters and make the udder more symmetrical. Some men are naturally good milkers, and others cannot become expert milkers. All of the milk that comes down into the teat should be forced out each time. The udder should not be swayed or pulled by the motion of milking, but should remain practically still. Completeness of milking is very important. The last streams are the richest milk, usually testing 12 to 15 per cent fat, and if left in the udder this will tend to diminish future secretion of milk, so that there is a double loss if the cows are not milked out clean.—R. W. Latta, in New Mexico Extension Circle No. 3.

Painting Residence.

J. W. Yates, who lives near the Irrigation plant, in east Portales, is treating his residence to a new coat of paint which adds much to its appearance. If more of the residents of that part of town would follow Mr. Yates example this part of town would be one of the most attractive sections of our little city. Recently several of the old buildings have been removed and some other improvements are contemplated.

Gathering Strawberries.

Gardener E. P. Kuhl was in town a few days ago and reports that he is still picking strawberries from his patch. These plants which are of the ever-bearing variety were planted last spring and have done exceptionally well considering their age. Mr. Kuhl is very enthusiastic about growing strawberries and will plant more next spring as he will find a ready market at a fancy price.

CROP EXCEEDS EXPECTATION

Broom Corn Continues to Pour Into Portales By Carload.

BRINGS BIG MONEY TO PRODUCERS

Gurley Company Has Spent Nearly One Hundred Thousand Dollars.

Broom corn by the dozen wagon loads continues to pour into Portales. The big warehouse of the A. L. Gurley & Co. and the house adjoining it have been filled to overflowing and at times it is necessary to pile the corn outside. The immensity of the crop is exceeding all expectations even those who had been over the county, estimated much too low.

It now appears that the crop which is being marketed at Portales is going to total over 100 cars. No doubt some which has been grown in our county has been marketed at other towns but by far the large majority of it comes to Portales.

The A. L. Gurley Co. the largest buyers alone have paid out to the farmers tributary to Portales about \$75,000 and are still buying. Mr. Gurley and his local manager Frank Shaw seem mighty well pleased that the company has built a warehouse for their business has justified it.

Like many other industries in Roosevelt county, broom corn raising is growing. The farmers of this county have learned to diversify and broom corn raising is getting to be one of their big money crops. They have learned that it pays to produce the best grade of corn possible and the grade gets better every year.

"The rains we had at jerking time slightly injured some of the corn," said Mr. Shaw, but generally speaking each year there is an improvement in the grade of corn produced here." He also said that many of the farmers are planning to erect sheds and racks to take care of the corn when it is jerked and keep it in good condition until it is baled.

W. H. Rosson Dies.

W. H. Rosson, one of the oldest and most highly respected citizens of the Arch community died Sunday at Amarillo, Texas where he had gone for an operation. Mr. Rosson had been in failing health for some time and it is supposed on account of his advanced age could not survive the operation. The remains were taken to Bell county, Texas his old home, for interment.

By his death, the Arch community has lost a man who was well liked by everybody and one who will be greatly missed. The deceased is survived by his wife and several children who have the sympathy of their many friends and acquaintances at this sad time.

Country correspondents must get their items in early in the week to insure publication. They should arrive not later than Wednesday morning and earlier if possible.

CROPS IN NEW MEXICO

FINAL ESTIMATES BY DEPARTMENT OF AGRICULTURE.

Increase Shown in Yield of Corn, Wheat, Oats and Potatoes, and Decrease in Apples.

Santa Fe.—A summary of preliminary estimates of crop production and prices for the state of New Mexico and for the United States, compiled by the Bureau of Crop Estimates (and transmitted through the Weather Bureau), U. S. Department of Agriculture, is as follows:

Corn.
State—Estimate this year, 2,820,000 bushels; final estimate last year, 2,576,000; price Nov. 1 to producers, 67 cents per bushel; year ago, 87 cents.
United States—Estimate this year, 3,090,000,000 bushels; final estimate last year, 2,673,000,000; Nov. 1 price, 61.9 cents; year ago, 70.6 cents.

Wheat.
State—Estimate this year, 2,020,000 bushels; final estimate last year, 1,828,000; price Nov. 1 to producers, 91 cents per bushel; year ago, 103 cents.
United States—Estimate this year, 1,002,000,000 bushels; final estimate last year, 891,000,000; Nov. 1 price, 93.1 cents; year ago, 97.2 cents.

Oats.
State—Estimate this year, 2,160,000 bushels; final estimate last year, 1,976,000; price Nov. 1 to producers, 34 cents per bushel; year ago, 52 cents.
United States—Estimate this year, 1,517,000,000 bushels; final estimate last year, 1,441,000,000; Nov. 1 price, 34.9 cents; year ago, 42.9 cents.

Potatoes.
State—Estimate this year, 945,000 bushels; final estimate last year, 900,000; price Nov. 1 to producers, 86 cents per bushel; year ago, 100 cents.
United States—Estimate this year, 359,000,000 bushels; final estimate last year, 405,921,000; Nov. 1 price, 60.8 cents; year ago, 52.8 cents.

Apples.
State—Estimate this year, 273,000 barrels; final estimate last year, 300,000; price Oct. 15 to producers, 96 cents per bushel; year ago, \$1.10.
United States—Estimate this year, 76,700,000 barrels; final last year, 84,400,000 barrel; price Oct. 15 to producers, \$2.14 per barrel; year ago, \$1.79.

Increase in Production of Metal.

Albuquerque—In the past ten years New Mexico has produced gold, silver, lead, zinc and copper to the amount of \$51,129,758, of which \$11,049,932 was produced last year, against less than \$2,000,000 ten years ago. Unlike most other mining states, the production of New Mexico is rapidly increasing.

In weight the ores of these five metals aggregated 7,202,574 tons, of which 2,322,853 tons were mined last year, as against 103,329 tons ten years ago. In gold the production the past ten years was \$5,943,999, of which \$1,171,896 was mined last year. The lead produced in ten years was 35,824,947 pounds, 1,763,641 pounds last year and 3,122,872 pounds ten years ago, lead being the only metal whose production has steadily decreased, 1905 and 1908 being the only years in which the production was less than last year, while in 1909 and 1912 it exceeded 5,000,000 pounds. Of zinc, the state produced the enormous amount of 140,159,755 pounds the past ten years, of which 18,403,392 pounds were produced last year and 13,493,885 pounds ten years ago.

Six Bean Threshers at Roy.

Roy—Six bean threshers on this mesa are hammering away early and late preparing the finest crop of beans ever grown for the market.

Oil Combines Seek State Lands.

Santa Fe—The state land commissioner has received a proposal from the New Mexico Petroleum and Gas Development Company to lease all the state lands of New Mexico for oil exploration purposes. The blanket lease proposal has been rejected, but a counter proposition is being worked out under which by separate contracts practically all the state land will be leased for oil, not to interfere with the surface utilization of the lands. The H. M. Bylesby interests of Chicago are the chief backers of the company.

Recommended to Pen.

Santa Fe—Donaciano Gallegos has been recommended to the state penitentiary from Taos, for breaking his parole. He was originally committed two years ago and was paroled this spring. He is charged with being intoxicated.

Carlsbad—It is expected that the Carlsbad mill will handle about 200 bales of cotton this year.

Mail Carrier Convicted.

Santa Fe—Guilty on two counts, forgery and embezzlement, was the verdict in the case of the United States against Roy Houston, the colored mail carrier, accused of forging the signature to a \$50 money order.

Villa Wards at State College.

Las Cruces—Seven Mexican boys, wards of Mrs. Francisco Villa, wife of the Mexican revolutionist, were brought to Las Cruces by Mrs. Villa and later were entered at State College by her.

NOTICE OF PENDENCY OF SUIT.

The State of New Mexico to L. M. Guthrie, Kate F. Guthrie, and Arkansas Valley Bank, defendants, Greeting: You will take notice that a suit has been filed against you in the District Court of the Fifth Judicial District of the State of New Mexico, in and for Roosevelt county, New Mexico, wherein J. G. Howard is plaintiff and said L. M. Guthrie, Kate F. Guthrie and Arkansas Valley Bank are defendants, said cause being numbered 1147 upon the civil docket of said court.

The general objects of said action are as follows: The plaintiff sues the defendants to foreclose a mortgage deed executed and delivered by the defendants L. M. Guthrie, and Kate F. Guthrie, to the plaintiff on the 23rd day of February, 1914; the plaintiff claiming an amount due hereon in the sum of \$250.00, with interest thereon at the rate of eight per cent per annum from the date of said mortgage till paid together with costs of suit; that said mortgage is upon, and conveys the following described property for the security of said debt, to-wit:

The west one-half of section one and the southeast quarter of section two, all in township four south of range thirty-four east of the New Mexico Meridian, New Mexico, containing 400 acres, with all improvements thereon, to have plaintiff's said mortgage declared prior and superior to any claim or lien of the defendant, Arkansas Valley Bank who is alleged to claim some interest in said property by virtue of a mortgage subsequent to plaintiff's mortgage hereon, to have said mortgage foreclosed, and said property sold and the proceeds of such sale applied to the satisfaction of plaintiff's said demands and costs of suit.

You are further notified that unless you enter your appearance in said cause on or before the 7th day of Jan. 1916, judgment by default will be taken against you in said cause and the plaintiff will apply to the court for relief demanded in the complaint.

You are further notified that George L. Reese is attorney for the plaintiff and that his post office address is Portales New Mexico.

In Case of Fire

WHAT is the first measure always taken to protect buildings located near one that is afire? The roofs are wet-down. They form the most vulnerable point—always in danger from flying sparks and brands.

TEXACO ROOFING

is as nearly fire-resisting as a roofing may be. It reduces to a minimum the danger from flying sparks. When your buildings are covered with Texaco Roofing you can devote your energies to the saving of the burning one, not to the protection of the others.

This is the only reason why you should use Texaco Roofing. There are many others.

The Herald \$1.00 a year and worth it.

...of the New Mex. Association at next week is expected to be one of the greatest gatherings of educators that has ever been held in New Mexico.

It will be a most helpful meeting for the teachers who attend. Noted educators from the east will be present and make addresses before the body. The best educators of our state will be present and matters of vital interest to every teacher will be discussed. From some counties every teacher will be present and it behooves our county, though we are somewhat disinclined to have a good delegation to be properly represented. Our county superintendent is wide awake to the situation and is urging the division of different districts to create \$10 toward the expense of each teacher who desires to attend. This has been done in other counties. Important national matters will come before the meeting and eastern New Mexico should be well represented that our interests in this line may be looked

cream producers of this county, before selling their cream to an outside concern. I think, "what sort of a cream would my cream bring had it been built?" The prices paid on these outside concerns has to a large extent stopped the development of the cream industry in this county. The local creamery was built by the farmers of this county that they might get a better price for their product. A creamery has cost more than \$12,000 practically all coming from the farmers of this county. This creamery is an institution of which Roosevelt county is and should be proud. The farmers have put at the head of their institution, a board of directors, composed of the best men in the county. There remains only one thing to insure the success of the creamery and that is patronage. Every farmer and business man in the county should be anxious to see the local creamery succeed whether he is engaged in the business or not, not only because it is a home institution but because it insures the cream producers a high price for their product. The business men of our county are and should be interested in the prosperity of the farmer for it is to them they must look for their business. In a statement to the farmers of the county Manager J. L. Blunt writes "stick by the Roosevelt county creamery for one year, when you find that you have not received nearer the market price for your butter fat, than before we will ask no further favor from you."

HAS AIDED COUNTRY THREE DAYS IN ONE

James J. Hill Praises New Banking System.

Democratic Measure Has Proved its Worth and is Now Important Factor in Contributing to the Country's Prosperity.

James J. Hill, the greatest empire builder in America, spoke recently of the financial revolution which has changed this country from a debtor to a creditor nation in a single year, of the possibilities both of gain and disaster which such a change involves, and then said:

"Fortunately, a banking system has been put into effect which makes it possible for the country to handle its new interests without disturbance."

That new banking system is the work of the Democratic party and especially the work of President Wilson. It was put through in the teeth of the fiercest opposition from Wall Street. It is standing every test it saved the country from utter financial collapse a year ago last August and now it is providing the machinery for guarding and extending American commerce.

It is working so smoothly that the country almost forgets it is there. But the next time any partisan rant begins blathering about the Wilson administration being "hostile to business," remind him of the federal reserve act and quote the words of James J. Hill.

Oklahoma Solidly Democratic. Republicans of Oklahoma have no ground for the belief that they have a chance to carry the state next year, according to Col. J. W. Zeverly, a prominent lawyer of Muskogee. "There has been a lot of talk, I know, among Republicans that they will carry the state next year, but there are no good reasons for it," said Colonel Zeverly, at Washington. "Oklahoma is just as solidly Democratic today as it ever was, and it will be Democratic next year. The president is strong throughout the state, not only among Democrats, but among Republicans."

There has been a very marked improvement in business," continued Colonel Zeverly. "Crops are fine. The recent hot spell has been good for the corn, and wheat and oats never were better. There has been some reduction of acreage in the cotton section, and the crop this year probably will not reach more than 700,000 or 800,000 bales."

Just now the oil industry is booming. The price of the crude oil has advanced in a short time from as low as 20 cents a barrel to 80 cents, and it is going up. Oil men look for the price to reach \$1.00 by Christmas. Necessarily this will bring about an increase in the price of gasoline."

Little Doubt of One Thing. Victor Murdock, chairman of the Progressive National committee, brought from Kansas on his visit to the East the information that the Democratic party will "blow up" with in six months. Like predictions have been made so often, and so many tropes directed at the party have struck it, and it has survived them and it has lived through so many storms, and still triumphantly rides the waves of life, reasonably happy and serene, that there is room for serious doubt as to the reliability of Mr. Murdock's prophecy. But no one would question a statement to the effect that Mr. Murdock's own party, the Progressive, blew up some time since.

Prosperity Enough for All. The saying "there is glory enough for 'all' when American valor has triumphed in clanging fight, is one to be remembered and applied. In such times as these all domestic controversies should be quickly adjusted that the most splendid opportunity within living memory may be realized. If we but boldly grasp and bravely go forward with our own affairs, leaving warring nations to their fate, we shall assuredly find that there is prosperity enough for all.

Country's Two Ex-Presidents. The United States has two ex-presidents. One believes in sustaining the present chief executive and the other believes in discrediting him. It is easy to tell which one of the ex-presidents stands highest in public esteem.—Tuladega (Ala.) Daily Home.

Worth Having. Comment is made upon the fact that when President Wilson visited Secretary Lansing, he found him with his coat off. Most people will agree that we cannot have too many shirt-sleeved diplomats of the Lansing variety.—Charleston News and Courier.

Country's Splendid Opportunity. The evidence accumulates of the hooding in of the tides "which taken at their flood lead on to fortune. Thus the logic of the argument becomes irresistible that the American people have but boldly to welcome in the importunate opportunity knocking at their doors, repel all incitements to permit an irrelevant partisanship to sway their sober business judgment, think first of America's welfare and their own, to possess and share

This Queer Condition Lasts Half an Hour Every Day.

A FREAK OF CHANGING TIME.

When it is Noon on Monday in London, Tuesday Has Just Begun at Cape Deshnev, Siberia, but Sunday Has Not Yet Ended at Attu Island.

Three days can exist at the same time! It sounds impossible, but it is nevertheless a fact that when it is very late Sunday night at Attu Island it is Monday noon at London and Tuesday morning at Cape Deshnev, Siberia!

If one travels westward one loses a day in going round the world. If one travels eastward one gains a day. Could one travel at the rate of 15 degrees a day one would lose exactly one hour each day. In twenty-four days the circuit would be complete.

Inasmuch as sun and earth are constantly revolving and day merging into night, Sunday passing into Monday, etc., it is obvious that at one point on the world's surface an arbitrary line must be set, to the east of which is one day, to the west of which is the next day. This immediate "jump" of a day regulates the calendar for one circumnavigating the globe.

This "international date line," as it is called, passing north and south and dividing our world into two equal parts, is the one hundred and eightieth meridian and crosses the Pacific ocean—where, fortunately, there is very little land—taking a slight bulge outward to include Siberia, and one the other way to include Attu Island, which belongs to Alaska geographically. The map will show this. West of this line is Monday and east of it is Sunday.

When it is noon on Monday in London Tuesday has already begun at Cape Deshnev, Siberia, but Monday morning has not yet dawned at Attu Island. Nearly half an hour of Sunday still remains there. We are thus confronted with the paradox of three days coexisting at the same time.

We must remember that every day begins at midnight. If we could travel round the world at the same rate that it travels, beginning our flight at noon, it would be perpetually noon all the way round! Yet we should lose a day. While at any particular point on the surface of the earth a day is twenty-four hours long, every day, as a matter of fact, lasts forty-eight hours—sometimes even longer. This seems another contradiction. Yet it can be explained.

Any given day, say Christmas, begins (as that day) immediately west of the 180th parallel. One hour later Christmas day begins 15 degrees west of the date line, two hours later 30 degrees west of the line and so on round the globe.

Those living just west of the date line would have enjoyed twelve hours of Christmas when it began in the United States and twenty-four hours (a whole day) when it began in Alaska. Already Christmas had existed twenty-four hours on this globe, but having just begun in western Alaska it will last there twenty-four hours longer.

We have just seen that each day lasts for forty-eight hours. As a matter of fact, a day lasts in some places more than forty-nine hours. This is because of the irregularity of the date line previously mentioned.

Let us begin an imaginary journey from Cape Deshnev, Siberia, at midnight. As midnight sweeps westward successive places see the beginning of the day. When the day begins in London it has been that same day at Cape Deshnev twelve hours and forty-five minutes.

When this same day arrives at Attu Island it has been twenty-five hours and twelve minutes since it began officially at Cape Deshnev. Since the day will then last twenty-four hours at Attu Island, before it is spent forty-nine hours and twelve minutes will have elapsed from the beginning of that day until the time it closes.

Thus three days can exist at one time, as before explained.—Hereward Carrington in New York World.

Poor Literary Pay. Dr. Johnson is commonly reckoned as a successful author, yet he received for many of his compositions a comparatively small sum. His most profitable undertaking was the Dictionary, for which he asked £1,575 and received more. But the task occupied his time for seven years.—Pearson's Weekly.

Necessary Precaution. "Life is just one long and rocky road." "Of course. It is constructed that way purposely in order to keep nine-tenths of the human race from lying down and going to sleep."—Richmond Times-Dispatch.

Worker and Worked. "So you worked your way through college? Your father must be proud of you." "Not much! He's the man I worked"—Boston Transcript.

How many men do you know that do just as they please?

Interesting Find in Attic.

Attics in old houses are always interesting places. The cleaning of an attic in Wilmington, Vt., resulted in the discovery of a record book dating back to 1796, in which year there was organized a "social library," with constitution, by-laws and subscribers, manifestly a forerunner of the free libraries that are now found in every community. Entries in the book show that fines were assessed whenever one of the precious volumes was even slightly soiled by fingering or marred by the turning down of leaves. That there was much reading by candle light may be inferred from the fact that Israel Lawton was fined 17 cents for dropping tallow on book No. 93, and Timothy Castle six cents for getting a single drop of tallow on book No. 16. It is an interesting glimpse of days when books were rare and their personal a privilege for which the studios paid gladly.

HUSBAND RESCUED DESPAIRING

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Patron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not get up and I gave up in despair. At last, my husband got me a bottle of Cardui, the woman's tonic, and commenced taking it. From the first dose, I could tell it was helping me. I can now walk two miles without tiring me, and am doing all my work. If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

FLOOD OF IMMIGRANTS COMING AFTER THEM

Uncle Sam Must Be Careful to Bar the Unfit.

Washington—Eternal vigilance is the price of freedom. The immigration department is restricting the number of immigrants trying to enter this country.

Although immigration had a tremendous drop, paupers, insane, epileptic and feeble minded persons, professional beggars, those likely to become a public charge, contract laborers, assisted aliens, those living on immorality and others debarrd from entering this country still seem to be entering though probably in smaller numbers.

Last year 33,041 individuals were received into this country, a percentage to the total number of aliens resident and nonimmigrants landing in this country, 1,015, 15,208 were deported being 5.1 per cent of the total immigration during that time.

Of those trying to enter during the last six months 249 were insane, 1,000 were feeble minded, 67 were insane, 1,144 were suffering from disease of dangerous contagious character, 1,889 were likely to become a public charge, 1,746 were contract laborers, 244 were assisted aliens and 171 were coming for immoral purposes.

It is a fact that there is a large number of people who are attempting to enter this country in the near future. At the time the war Europe will try to keep its own people and its healthy population, while enormous financial resources will probably induce a marked tendency toward emigration, active promoters of persons of those who are likely to become a burden on the state.

Such persons as far as possible will be shifted to other shoulders through a process of emigration. Only intelligent regulations on the part of the American government and extraordinary efficiency in its immigration service.

NOTICE OF SUIT.

No. 1145
In the District Court of Roosevelt county New Mexico.
P. N. Valliant, Plaintiff.

vs.
S. A. Tipton, Belle Souther, Emma Hall, Frankie Tipton, Edward Tipton, Vena Tipton, Howell Carr, Ida E. Dyer and all unknown claimants of interest in the premises adverse to Plaintiff, Defendants.
The defendants, S. A. Tipton, Frankie Tipton, Howell Carr, Ida E. Dyer and all unknown claimants of interest in the premises adverse to Plaintiff, hereby notified that suit to quiet title to Block No. (7), in the Bogard, addition to the town of Portales, Roosevelt county, New Mexico, and to establish a lost or destroyed deed dated the 14th day of June, A. D. 1909 signed, acknowledged and delivered by P. S. Tipton and S. A. Tipton, his wife, to Mrs. Blanche Goodloe and her husband, J. Rush Goodloe, has been commenced against them in the District Court of Roosevelt county, New Mexico, by said plaintiff.

Said plaintiff charges in his complaint that he is the owner of the fee simple title to said above described land and that same is evidenced by a certain deed executed and delivered to this plaintiff by one J. C. Coursey, and dated the 12, day of June 1915, a copy of which deed is attached to the complaint in this action.

Plaintiff further charges that defendants make some claim to said premises adverse to the estate of the plaintiff, and he prays that the plaintiff's title and estate in said described premises and that said deed be established, and plaintiff's title be established against any adverse claim of the defendants and that the defendants be barred and forever stopped from having or claiming any right or title to said premises, and that said plaintiff's title be forever quieted and confirmed and set at rest.

Said defendants are further notified that unless they enter their appearance in said suit on or before the 10th day of January, A. D. 1916, the plaintiff will apply to the Court for the relief demanded in his complaint and judgment will be rendered against them by default.

Plaintiff's attorneys are Compton and Compton and their business address is Portales, New Mexico.

Witness the hand and seal of the clerk of said Court this 9th day of November, A. D. 1915. J. W. Ballow, clerk.

"Dress Up Boys!"

SCHLOSS BALTIMORE CLOTHES

Why? Because Mr. Prosperity is coming. **Dress Up!**

Look prosperous and Prosperity will knock at your front door. **Dress Up!**

When President Wilson about a year ago remarked that such business depression as existed was largely due to psychological causes, he meant that the fear of hard times was the main factor in causing hard times.

Today we face a situation far different than that of last August. Business has passed through the "fear" period; lived through it; economized; discounted the worst; seen that the "fear" boogie was mostly imaginary; and now—

Now we see a great tide of Prosperity sweeping strongly and surely upon us. Each week ends with more millions of dollars to our credit in the balance of international trade. Billions of bushels of grain ripening into more dollars which will be spent to **Dress Up**. Two Billions of dollars in Gold suffocating to get into many times this amount of credit to buy things,—fairly bursting its sacks for opportunity to earn its interest in any enterprise.

All this money is seeking business; it must come into circulation to pay its way. And that means business, big business Prosperity, activity in every line. It means busy factories, new industries, busy trade, big prices for farm products; everybody prosperous.

"Prosperity" is not a prediction; it is a present fact right now. Don't be afraid to recognize it when you meet it face to face. What this country needs is One Hundred Million People Unafraid, who can understand the facts, and **Dress Up** to meet Prosperity.

Start something! **Dress Up** and every neighbor in your vicinity will follow suit.

The year old policy of retrenchment is no longer wise. Take that cash you have hidden in a stocking and **Dress Up** to hasten the new Prosperity which is coming faster every day. Be patriotic; look prosperous; talk Prosperity; help the good cause along. It's coming anyway; but you can make others realize its here!

Look Up! Cheer Up! Dress Up!

To The Stockholders and Patrons Of The Roosevelt County Creamery

I wish to announce that J. L. Blunt and John B. Keachie—who has joined Mr. Blunt in operating the Creamery—have paid to me as secretary and treasurer of your creamery 30 cents per pound for all butter fat delivered at the creamery this week.

Thirty cents being Elgin top quotations for this week therefore we have received the price our contract with Mr. Blunt calls for.

By order of the Roosevelt County Creamery Board of Directors, I am paying the patrons 29 cents per pound, for the butter fat delivered to the Creamery, the one cent per pound will remain with the Treasurer as a sinking fund to pay taxes, insurance and dividends on the stock.

The business of the Creamery will be conducted in this manner each week, and now that we have a contract that will assure us the top price for butter fat, I sincerely trust that there will not be one farmer who produces cream or a cream buyer, in the territory that will not patronize our creamery, for that is the only way we can make a success.

Yours truly,

BEN SMITH,

Secretary and Treasurer of Roosevelt County Creamery.

Clovis-Portales Football.

The football game between the Santa Fe shop boys and the Portales town team last Saturday at Clovis resulted in a score of thirty to seven in favor of Portales. The Portales boys were outclassed on size but on nothing else and the fast and heady work of Portales carried them through with ease. It has not been learned whether there will be a return game or not. There probably will be.
