ROADS GOOD INVESTMENT

W. O. Oldham Urges the Citizens to Take This Matter Up.

SET A DAY FOR ROAD WORKING

Building and Maintaining Good Roads a Forerunner of a Good Country.

The sentiment for good roads is sweeping over the country and it is clear to my mind that if there is a town in the United States that stands in greater need of good roads than Portales I pity that town. The people of this county and the business men of this town seem fully awake to the importance of good roads but to date but little has been done except to "cuss" the Road Board. I venture to say if we want the roads had enough we can get them, and in my judgment it is about the best investment we can make for the town and county. Portales has a reputation of doing most any thing she undertakes. Heretofore we have gone after many things which cost much time and money that we really did not need. But it is a foregone conclusion that we do need good roads.

One way to get them is to pull off our coats and go to work and make them. It may go against the grain for most of us to go out and do real work on the road but if we are careful there will be no danger of hurting ourselves. I would suggest that the business men of Portales have a meeting at once and take the first steps toward the organization of a crew to spend one day in this month and one in next month and keep on the job until it is finished. We will need all the available tax money for road purposes to maintain the roads after they are built. We hope to get sometimes a little money through the State Highway Commission Board, but this is uncertain and we cannot afford to wait depending upon that.

The State Highway Commission expects to spend the money for sale of state bonds—and \$12,500,000 is the portion for Roosevelt county—on the state road running south by Delphos and Elida. What we most need at this time is the completion of the south road so the farmers can haul their products to Portales. Now, let's get busy and build this south road. I believe the farmers will help us and I know the County Road Board will help us. We have been wedged in between two sand hills long enough and it is a wonder we are not buried so deep we could never scratch out.

My idea is that all the business houses close once a month for the next few months and go out and put this road through. This would be a splendid contribution to the community and as a business proposition it would be a splendid investment upon which handsome dividends would come to the town of Portales. It is an opportunity for every able bod-

ied man to do some real service to his fellow-man and to the community.

The man who cares for his team and wagon does not want to pull our sand hills and it is inhumane to do so. The man who cares for his automobile does not want to wreck his car by pulling it over such roads. Roswell, Hagerman, and Artesia have made good roads to the Texas line and as a result we have lost all the good trade we used to get on the east from Chaves county.

Now, let us call a meeting and set a day and organize ourselves for some real team work. and put this road through.

Do You Ever Laugh.

If you ever laugh when you see a mistake you may have the opportunity of doing so if you will read the Herald-Times this week.

This office has just installed a linotype machine and we are using our utmost efforts to put what print you see in the paper by the use of this machine, and as with all machinery it has to be mastered by the operator before the limit of success is reached.

We will say to you that the operation of this machine without any previous experience is not as funny as lots of things you have heard of, but it is interesting, and if you will pardon our mistakes until we are a little better on to our job we will try to give you the best paper service that has ever been handed down to the people of Roosevelt county.

Officials Mandamus

The County Commissioners, County Assessor and The County Clerk of Roosevelt county have been mandamus by the town council of Portales to show cause why they should not include the special sewer tax in the levy for 1915.

The Commissioners take the stand that the levy requested is out of their jurisdiction and if made should be handled by the council themselves. The case will be taken before Judge G. A. Richardson at Clovis, Saturday. Judge Jas. A. Hall is special counsel for the defendants and Judge G. L. Reese represents the city.

Residence Completed

Another has been added to the many beautiful residences of Portales by the completion of the C. W. Carroll home. Mr. Carroll has demonstrated that alittle ingenuity goes a long way in the matter of construction with the result that his house has cost him perhaps little more than one-half of some others which do not look any better. It is modern through out and equipped with all the latest conveniences.

Bill Howard Returns.

Uncle Bill Howard and family have returned after an absence of about five years in Oklahoma. During much of the time uncle Bill has been sick and has been glad to get back to the plains. He is a typical cow man and he denounces the herd law vehemently. "Oklahoma is all fenced now" says he.

No impression could be gotten from Mr. Howard as to his intention but we imagine he has returned to stay.

Mrs. W. O. Oldham, Secretary.

On Vacation.

F. R. Smith has departed from the strenuous for the time being and has hied to the suburbs of Rogers. His trip has a two-fold purpose, that of getting away from the activity of the city where he may find quietude and recreation and also to inspect that herd of red hogs which have been for some months on the farm of that excellent german farmer H. Bepperman.

We understand Mr. Smith has about 100 hogs down there and in the near future will ship a car load off one to market.

Mrs. A. A. Rogers returned Tuesday from eastern points where she had been for some months with Mr. Rogers who is east on business.

Full line of optical goods, C. J. Whitcomb, Jeweler.

S. E. Moore, the Pioneer photographer, of Portales will be in Elida the first and third Thursday, Friday and Saturday of each month and will be prepared to do your photo work in a first class manner at reasonable prices at the Boddy gallery. 50tf

President's Sentiments.

President Wilson in his annual address to Congress last Tuesday laid down the administration plans for National defense and told them it was necessary to have a new, broad doctrine for Pan-America.

With sharp words he arraigned American citizens who by their sympathy for the foreign belligerents had endangered the neutrality of the United States. Close attention was given while the president spoke of the fiscal situation, and there was more applause when he said:

"I for one do not believe that the people of this country approve of postponing the payment of bills."

When he referred to foreigners within the United States borders who, while small in number, "have brought deep disgrace upon us and necessitate use of processes of law by which we may be purged of their corrupt distempers," shown and loud applause interrupted.

The president's outline of the plans for national defense and the need of them was received in silence by the senators and representatives, but with rapt attention.

An Object Lesson.

The near completion of the Portales-Clovis road is a good illustration of the wisdom of state aid in road construction that might with propriety be extended to include national help. There was a stretch of eighteen or twenty miles through the sand hills, that practically cut off the two towns from each other and interrupted the normal auto travel to the southwest and northeast making advisable a wide detour rather than to attempt it under normal conditions. With a dab of state money spent by engineers that knew how, the thralldom of the shifting sands has disappeared. It is an object lesson that should be noted all over the Southwest.

Baptist Notes.

Last Sunday morning we preached upon the theme "grace" to a splendid and attentive audience. At night Miss Henderson the president of the W. C. T. U. of N. M., spoke upon the subject of national prohibition. Her arguments were strong, logical and forceful.

Last Sunday morning Miss Henderson delivered a fine address on "Total Abstinence" to a very attentive and appreciative congregation. The Baptist Union met in the evening and had a good session. Owing to sickness we did not have any preaching in the evening. Subject next Sunday morning "Paul's passion for Israel." Bro. F. G. Calloway has a special message for the church and people for the evening service. Come and hear Bro. Calloway. Let's attend the meeting of the Baptist Union. W. E. Dawn, pastor.

Methodist Church.

We extend a general invitation to all who will to come and worship with us at our church next Sunday. We try always to make our services spiritual and truly evangelistic.

Do not forget your presence at all of our services upon the evening Sabbath will be greatly appreciated. A. C. Bell.

MORE CORN AND MORE HOGS

In Our Opinion is One Of the Best Combinations On the Farm.

GRINDING CORN FOR FEEDING

J. A. Fairly, One of Our Best Farmers, Makes a Good Yield.

A trip over the county this fall or an inspection of some of the wagons that come to town, will entirely dispel the idea if you have such, that corn cannot be raised to an advantage in Roosevelt county. Hogs and corn go together and this is a combination that is coming to the front in this county. Thousands of bushels in every section of the county and the bulk of it will be used to fatten hogs. Much of it however is being manufactured into meal as there is several mills in the county that are kept busy.

J. A. Fairly has proven to be one of the best raisers in the Valley and his corn field has excited the admiration of many homeseekers last summer. His field was one of the best in the Valley and shows that irrigation will pay with corn as with other crops.

The Fairly farm, while not so large as some other irrigated farms in the valley, grows a great variety of crops much of which is kept right at home and used to feed the dairy and hog herds.

A. J. Smith, R. P. Connally and the Herald-Times man happened along a short time ago and assisted in gathering one of the loads of corn which when weighed and the land measured showed a yield of 54 bushels per acre. This was on the south side of the patch and was far from being the most prolific portion. There were other parts in the field that would easily have yielded an amount 10 per cent greater.

The Federation club will meet with Mrs. Nixon next Monday at 2:30 o'clock.

L. Pritchard, of Texas is visiting J. W. Yates and family this week.

Photographer Setser is going to Clovis and engage in the harness business.

Roosevelt county has been visited by a nice spring rain this week.

A. G. Whitt and son who lives near Lubbock, Texas, were visiting at their old home in Portales the first of the week.

The fire which started in the residence of A. A. Williams late this evening was extinguished before serious damage was done to the property.

Miss Bess Dohoney, of Elida, spent a day with Mrs. S. N. Hancock here this week. She was on her way to Temple, Oklahoma to visit friends.

TREES! TREES! TREES!

If you want home grown trees that are healthy and propagated from varieties that have been tested and do best in the West, it will pay you to investigate all that claim to have nurseries on the Plains. Plainview Nursery will pay \$5.00 a day to anyone who will investigate, if they do not find that we have the largest and best stock of home grown trees anywhere in Texas west of Fort Worth or in New Mexico. We are practically the only institute that has a stock of fruit trees ready for the market. For your good and ours too, we solicit your investigation. Plainview is not far away. Would it not justify you to visit our nursery and see what can be done on the plains in the way of propagating and growing fruits.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side. The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After nothing seemed to do me any good.

I had gotten so weak I could not stand and I gave up in despair. At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Reports on Conditions of Business Make the Statement of the Ohio Congressman That Bankruptcy is Near Appear Silly.

The American people, gentlemen, under this administration, are riding hell-bent to bankruptcy and paying for the privilege with a war tax.

The demand for pig iron and various lines of steel is in excess of the producing capacity of the furnaces and mills of the United States.

EXCEL TRAIN SPEED

Over a Long Distance Automobiles Can Travel Faster Than Locomotives.

SOME JOURNEYS ON RECORD

Figures Have Been Carefully Kept on Account of the Rivalry Existing—Drivers of Cars Think Limit Has by No Means Been Reached.

Since the automobile ran a mile a minute there has been a keen rivalry between it and the locomotive.

In March, 1901, a Plant System train covered five miles in Florida in 2 minutes 30 seconds—120 miles an hour.

Dario Resta recently broke a world's record on the Sheepshead Bay speedway by traveling ten miles in 5 minutes 32.45 seconds, a trifle below 109 miles an hour.

The superiority of the automobiles over a long distance is unquestioned. The world's record for 500 miles was made in Chicago by Resta at an average speed of 97.58 miles an hour.

June, 1905, Pennsylvania railroad, New York to Chicago, 897 miles, 56.97 miles an hour; July, 1904, Great Western of England, Paddington to Bristol, 118.5 miles, 84.6 miles an hour; June, 1906, Lake Shore, Buffalo to Chicago, 528 miles, 69.69 miles an hour; October, 1905, Pittsburgh, Fort Wayne and Chicago, Crestline, O., to Clark Junction, Ind., 257.4 miles, 74.55 miles an hour.

These railroad records were made ten years or so ago. Managers seem to think that the limit has been reached. In the meantime automobile drivers have continued to increase their speed.

The new Sheepshead Bay speedway has been constructed with 120 miles an hour as the maximum. Experienced drivers say that if manufacturers will develop the cars, 135 or 140 miles an hour is possible.

Again the cow begins to look expectantly at the straw hat.

Save first is as good as a young man's motto as safety first.

This is perhaps the best season of the year in which not to eat toastnuts.

NOTICE OF PENDENCY OF SUIT.

The State of New Mexico. To Eva Foster and J. V. Baird, defendants, Greeting:

You will take notice that a suit has been filed against you in the District Court of the Fifth Judicial District of the State of New Mexico, in and for Roosevelt County, wherein Stella L. Cheyney, is plaintiff and you, the said Eva M. Foster and J. V. Baird are defendants, said cause being numbered 1163 upon the civil docket of said court.

The objects of said action are as follows: The plaintiff sues the defendants upon a promissory note and to foreclose a mortgage deed given for its security, said note and mortgage having been executed and delivered by the defendant, Eva M. Foster to the plaintiff on the 12th day of December, 1908, and assumed by the defendant J. V. Baird, the plaintiff claiming as due thereon the sum of \$600.00, with interest at the rate of 12 percent per annum from the 12th day of December, 1913, till paid less a credit of \$40.00, 10 per cent additional upon said amount as attorney's fees, and the further sum of \$15.25, paid by the plaintiff for defendant for taxes against the land conveyed by said mortgage; that said mortgage is upon, and conveys to the plaintiff the following described real estate, to-wit:

The northwest quarter of section twenty-three in township two south of range thirty-six east of the New Mexico Meridian, New Mexico, containing 160 acres; to have plaintiff's said mortgage declared a prior and superior lien to any claim of the defendant J. V. Baird, who is alleged to have acquired some interest in said land since the making and recording of plaintiff's said mortgage; to have said property sold and the proceeds of such sale applied to the satisfaction of plaintiff's said judgment and demands, and costs of suit;

You are further notified that unless you enter your appearance in said cause on or before the 28th day of January, 1916, judgment by default will be taken against you in said cause and plaintiff will apply to the court for the relief demanded in the complaint.

You are further notified that George L. Reese is attorney for the plaintiff and that his post office address is Portales, New Mexico.

Witness my hand and seal of said court this 3rd day of December, 1915.

[Seal] J. W. Ballow, Clerk.

VENTILATION FOR THE BARN

All Stables Should Be Fairly lofty. Because Horses Need Abundance of Good Fresh Air.

The horse is very susceptible to cold; and the horses that are stabled when not being worked or exercised feel the changes of weather quite as readily as do those enjoying a more free life.

All stables should be fairly lofty, be-

cause horses need plenty of fresh air, and this can only be properly given during intense cold when ventilation can be given above the heads of the animals so far as elevation is concerned, the position of the ventilators pattering little so long as they are at a good height and placed with judgment.

The stable should feel cozy upon going in, but not stuffy, otherwise the horses will feel chilly upon coming out.

Autumn Care of Colts.

Look out for the weanlings and colts as cold weather approaches. Be sure that they go into winter quarters in the pink of condition, for there is where the profit comes in.

Keep Sows in Condition.

It is not wise to allow young sows to become too fat, as they never make as good breeders as those with more development of muscle.

It is said the cost of running the motor cars of the United States amounts to \$7.30 per capita per annum. Here's where we saddle a little outgo per capita on somebody else.

A California man wants a divorce because his wife voted him out of a job. This seems to be one of the drawbacks to woman suffrage that was not foreseen by the opponents of the cause.

In Memory Of

Mrs. Ferguson, mother of Mrs. E. T. Dunaway. Mrs. Frances R. Ferguson was born in Weekly county, Tenn. Feb. 12, 1841, departed this life at Portales, N. M. Dec. 6, 1915. Mrs. Ferguson was visiting her daughter, Mrs. E. T. Dunaway, her home being Murray, Kentucky. Sister Ferguson was converted at the age of 12 and united with the Cumberland Presbyterian church of which she remained a member until her death. She was happily united in marriage to Mr. E. C. Ferguson in 1856 and to this union were born ten children. Her husband and five of the children preceded her to the better land. She leaves one son four daughters, grandchildren and other loved ones to mourn her loss.

It was Mrs. Ferguson's lot to be thrown in communities where her church was not represented and for this reason she always affiliated with the Methodist church and loved it as her own.

We only had the privilege of knowing Mrs. Ferguson for a few months but in this short acquaintance we were greatly impressed with her noble, beautiful and saintly life. Mrs. Ferguson was confined to her bed about three weeks, suffering greatly but bore it all with great patience. One consoling thought about her suffering was that everything was done to relieve her suffering that loving hands could do. I visited her on her sick bed Saturday before she died Monday and while there she told me that the end was near but conscious of the presence of her Savior she had no fear of death. Sunday evening before her decease Monday morning, her last words were, and the last words she ever uttered, "Now I lay me down to sleep I pray the Lord my soul to keep, if I should die before I wake I pray the Lord my soul to take." This had been her prayer from childhood, and Monday morning after praying this prayer for the last time on Sunday evening the Lord came and took her life to be with him.

Her body was shipped back to Murray, Kentucky to rest by the side of her husband to await the resurrection morning. I will say to loved ones that her place cannot be filled but you have the precious memory of her beautiful life to comfort you as you continue the journey of life without her. A. C. Bell

Obituary.

In loving memory of W. H. Ross son of Arch, New Mexico, who was born in Izzard county, Ark., Oct. 22, 1841, and died at the Baptist Sanitarium in Dallas, Nov. 14, 1915, where he had gone for an operation.

He was married to Miss. Susar May, Sept. 15, 1861, in Arkansas who with two sons, two daughters, and a host of relatives are left to mourn their loss.

He was a former resident of this city, a kind neighbor and a good man; and an honored citizen he counted his friends by score—his jovial manner won and held friends. His wise counsel and good judgment was eagerly sought and widely followed.

His son Ed of Arch, N. M. and daughter, Belle Perdue, of Sulphur Okla., were the only relatives at the bedside when the Death Angel called, and he answered the summons bravely and willingly, though he would rather had his business arranged more satisfactorily, though his house was in order spiritually, having made his peace with the Lord in his early days. He had lived a noble and useful life—having been a Confederate soldier and fought bravely for his

country in his early manhood. He served as senate clerk under his father, who was a state senator. Fate and fortune were very unkind to this good man for many years and just as the sunshine of prosperity beamed down upon his pathway ill health overtook him. He fought this enemy as bravely as he had served his country, but to no avail; the cruel fangs of death claimed him as a victim and all we have left of him is the loving memory.

The funeral services were conducted in the home of his brother-in-law and sister, Mr. and Mrs. Clay May, at Holland, by Rev. A. J. McCarty of Bartlett, who in a kind and gentle manner conveyed a soothing message to the broken hearted loved ones, after which the body was followed to the Holland cemetery and gently laid to rest at the feet of his mother by friends and children—grand-nieces and a little friend literally covered the cold earth from sight with beautiful wreaths and garlands of flowers, till it seemed a flowery bed of ease.

In humble submission, because Gods will, not ours be done we commend his soul to the all-powerful and Supreme Ruler of the universe. His Niece.
