PORTALES, NEW MEXICO, THURSDAY FEBRUARY 24, 1916.

Number 10

Waters Rise in Well.

The noted underground water supply of the Portales Valley has again outdone itself and is steadily getting stronger. Five men besides pumpman Jim Huffman spent practically all of last week raising the railroad pump out of the water that had submerged it in the past few months. Mr. Huffman states that the water has risen over thirty inches in the well since the last of August. He also stated that they had to put in another pump that was shipped from Clovis in order to lower the water enough to remove the pump that was submerged.

Send In Books.

Special attention is called to the fact that many of the books that belong to the public school library have gradually been carried away by the children of the school and probably unthoughtedly have been left at home. Very earnest request that all parents look into this matter and if you find any of the school library books that have been left at your home please have the children return them at once. One book here and one there soon does away with a good sized library.

Connally Sells Out.

Roy Connally this week sold C. O. Leach the Connally Coal Co. located on the railroad tracks east of the depot. Roy has been here since about 1908 and his original coal sheds were where the Santa Fe depot now stands. He has built up the enormous patronage he now caters to from the bottom round of the ladder his original office, bins etc. being a small shed covered with sheet iron roofing. Mr. Leach will take charge in the near future and Mr. Connally will probably go on farther west where he expects to embark in coal business again.

New Books For Library.

The Portales public schools this week received a shipment of fifty dollars worth of good books. These books are the gift of the citizens of the town of Portales to the children of the public school as a Christmas present the money being solicited by Mesdams Maude Smith and Jim Stone. The children are very much delighted with the new books and will no doubt get more good from the money spent this way than in any other way that it might have been spent. The students of the school hereby thank all who was instrumental in the gift.

Pucket Buys Buick.

Bob Puckett, the well known cow man, this week purchased a Buick from Amarillo agency. It is a new style six cylinder and a beauty.

Washington's Birthday.

Washington's birthday was celebrated in Portales Tuesday only by the banks and the postoffice. The public schools gave their holiday last Friday in honor of the "Father of his country." Many people had become so unpatriotic as to forget when this holiday came and to them we wish once more to call to their attention this date and remind them that all George Washingtons are not dead and that more George Washingtons may be needed before the great cataclysm in Europe is over with. Don't be so unpatriotic as to tell that you have forgotten the holiday even if you have. Sneak around and ask some fourth grader. He knows.

Gets Car Soft Wheat Flour

O. V. Harris this week received a car of soft wheat flour from Missouri. Mr. Harris says that although the price is reasonable for the grade of flour it may seem high to some but that his customers have been after him to get some sure enough good flour and that he now has it. The name is Bultes Excellence.

Visiting Nears.

Milton Brown and family and Mrs. Chas. Holden were the guests of Mr. and Mrs. Edwin Neer from Friday to Monday of this week. The Browns are well known here and are now located at Hagerman while Mrs. Holden is from Galveston. Both Mrs. Holden and Brown are sisters of Mrs. Neer.

Mayor Buys Car.

E. B. Hawkins, the well known and honored mayor of the city is now the proud possessor of a Ford and is "sure nough" ready to make the race for sheriff. He says that his only trouble is in missing the telephone poles in town and the wire gates in the country.

Union Prayer Meetings.

Union prayer meetings are being held this week, Tuesday, Wednesday and Thursday nights. Special prayers are being offered for the meeting that is to begin next Sunday at the Methodist church under the charge of Rev. McIntosh.

Howard Leach Buys Ford.

Howard Leach, son of C. O. Leach, last week purchased one of "the old reliables" Howard says there is no use buying an automobile when Fords are the order of the day.

R. K. Puckett and family.

R. K. Puckett and family and O. S. Hart and family motored out to the Hart ranch in the northern part of the county in Bob's new Buick last Saturday.

Birthday Dinner.

Mrs. E. T. Dunaway entertained a few of the friends of her son, O'Dwyer, at their home last Sunday. The cause of the occasion was the rolling around of another of those birthdays that come so slowly to the young men and women of O'Dwyer's age.

A turkey dinner was served by Mrs. Dunaway that will not be forgotten for many more birthday times by those present and true southern hospitality, for which Mrs. Dunaway is noted, was the order of the day. Those present were Misses Vera Humphrey and Edith Connally, R. P. Connally and family and Archie Williams, Bryan J. Moore and Goodwin Humphrey. All left expressing a desire that O'Dwyer's next birthday would come again soon.

Mrs. Culberson Returns.

Mrs. S. F. Culberson, county superintendent, returned Sunday from an extended trip to the Elliott ranch out near the Peecos and various schools over the north part of the county. Mrs. Culberson reports all schools over that part of the county doing fine and says that she is proud of them. She attended the Teachers' Association at Taiban last Friday and Saturday and states that the showing made was a creditable one. She made a talk along school lines before the Teachers' Association of Guadalupe county that was in session in Ft. Sumner during her absence.

Visits J. P. Deen's Family.

Winfield Scott and wife of Roff, Oklahoma came in Sunday to spend a few days visiting with the family of J. P. Deen. Mr. Scott is a brother of Mrs. Deen, and had not been heard from by her in over ten years. The visit was very much of a surprise to Mrs. Deen but a very, very agreeable one. Mr. Scott is a stockman.

Little Folks Entertain.

Carl and Joe Johnson, both sons of Carl Johnson, entertained several of their young friends at a birthday dinner last Saturday. The boys spent the time hunting rabbits, riding horses and eating Miss Vera Humphrey assisted Mrs. Johnson in taking care of the young men's appetites.

We Dare You.

We dare you fellows that are coming to town about once a week to drop around to our office once in a while and tell us how it is that we always get your name without you knowing it and incidentally tell us how you like the paper. If not how we can make it suit you.

Arthur Terry is in town from the Hart ranch this week.

Folk Williams in Town.

Uncle Polk Williams, the veteran postmaster at Inez and all round booster for the county was a visitor in the city the first of the week. He was accompanied by one of his old friends from Fayetteville, Arkansas, A. J. Ingram. Mr. Ingram stated that he was delighted with this country and that he would probably settle in the Inez community. Uncle Polk tells us that Inez is still the best town on the map and that hogs, cattle and all other stock look fine and ready to commence another prosperous year.

Good School at Langton.

O. E. Wantland, one of the leading farmers and old timers of the Langton community was a business visitor in the city Saturday. Mr. Wantland is one of the school directors and states that they have one of the best schools that they have had in the history of their district.

From Richland.

M. H. Chancellor, Clyde Hardy, A. J. DeBord and Sam McBeath, the tall man, were grain haulers from Richland neighborhood, Monday. Mr. McBeath is still as tall as ever and they are now telling the tale on him that he can see the mail coach all the way from Richland to Elida.

More Good Cows.

The Williamson Cattle and Loan Company Tuesday received one hundred and thirty-eight head of good grade cows at the stock pens west of town. Big Johnson had been to Lubbock at I bought this bunch and as per usual brought back some good stuff.

Showing Cream Separators.

Deen-Neer are this week making an excellent showing of the famous De Laval cream separator in their north show window. They have only recently taken the agency for this machine but it is well known enough to need but little advertising except to tell the farmers where to go and buy it.

Baptist Notes.

Last Sunday was a very gratifying day with the pastor and people at our church. Good attendance in the Sunday school and preaching service. Brother Welborn preached a great sermon at night on the subject of "Repentance." Everyone seemed to be delighted with the discourse. We will have our regular preaching service next Sunday morning as usual, but will call in the night service on account of the revival meeting that begins at the Methodist church. We should put our hearts in the meeting and go in for a great revival. Remember you are welcome at our church.

W. E. Dawn, Pastor.

Doc Hough Also Buys.

Buying cars and Fords seems to be the order of the day around our little town. Doc Hough, our genial dentist is the latest buyer at this time. Doc bought a six cylinder Paige from the Clovis agency and to say that she is a beauty is putting it mildly.

K. P. Lodge Prosperous.

Knights of Pythias, Portales Valley lodge number 36, is now among the first rank in the state of New Mexico and claim that they are second to none, everything included, in the state. They have increased over one hundred per cent since their opening session in December and are taking in members as rapidly as possible from appearances. Five took the first rank last Friday night and several are scheduled for this Friday night.

S. N. Hancock made a business trip to his ranch north of Elida the latter part of last week.

J. K. Reese Becomes Cashier.

J. K. Reese, who has been book keeper at the Portales Bank and Trust Company for the past several months has advanced to the position of cashier of the same bank. Ben Smith's resignation made the opening and we presume that the fine work that has been done by Mr. Reese in his capacity as bookkeeper induced the management to place him in such an honored position, even though he had been with the bank but a few months. Mr. Reese is a jolly good fellow, well met, and he can not help but make a success of the position he has accepted. We believe the management made a wise choice.

Long and Russell Return.

Superintendent Long and Prof. John Russell, who accompanied Guy Mitchell to Taiban in his Dodge car and attended the Teachers' Association while there last Friday and Saturday returned home Sunday. They report that the Association was a success and that besides local county talent they were benefited by the presence and talks of Dr. Roberts of the New Mexico Normal University and Prof. R. B. Hill of the State University. The next meeting goes to Elida.

Ben Smith Out of Bank.

Ben Smith this week severed his connection as cashier of the Portales Bank & Trust Company and from here out will probably earn his salt by the sweat of his brow if what he tells is true. Ben says that he is a cattleman and that he had to harken to the call of the wild. He has made an efficient bank cashier and one that all liked and we wish for him the same kind of success in his new work.

Land Deal.

Mr. Stevens, of Knox county, Texas this week bought a half section of land in the Shelby community and will move to this county at once.

Jones Buys Property.

Arthur Jones this week bought the two D. Hardy houses recently purchased by C. O. Leach. The consideration was \$2500. Such deals as these again speak that word, PROSPERITY.

Roy Baker, son-in-law of D. A. Ferguson arrived the first of the week from Oak Hill, Kansas. Mrs. Baker has been here some time.

New Dry Goods Manager.

L. L. Campbell, a young and experienced dry goods man, who has been in charge of one of the largest and most up-to-date dry goods houses in Springfield, Mo., for the past several years, arrived Monday morning from Springfield and is now at home in the dry goods department of the Joyce-Fruit Company. Manager Hoagland states that he has done without a dry goods manager longer than he intended to but he wanted to get the best only and he considers that he has such a man in Mr. Campbell.

Vaccinate Calves.

Doc Hensley's, near Inez, was the scene of much cattle work the latter part of last week and reminded some of the old times when no more was thought of branding a few thousand head of cattle than is thought today of branding a few hundred. Ben Smith left early Friday morning for the ranch accompanied by C. V. Harris, Heck Harris, Mrs. Maude Smith, Mr. and Mrs. Arthur Baker and George Smith. All the day Friday was spent in vaccinating the three hundred calves at the Hensley place owned by the E. P. Smith Cattle Company. The visitors state that they were reared a "some" fine dinner and enjoyed the trip and sights very much. Flue Anderson and Joe Smith rode down as the cow punchers of the occasion and from all reports they were "esta bueno."

Lucky Accident.

Leo Braley, accompanied by Charlie Greers happened to what might have been a serious accident last Saturday night just inside the city limits of Clovis. Leo was driving the little racing Ford belonging to Blake Neal and in attempting to cross the railroad or at least in attempting to do something, he doesn't know exactly what, he ruined four casings on the car, threw Greers out and was thrown on to the steering wheel himself. Neither was hurt. Leo says racers are good enough, but that he will take his in just common old autos after this.

Selling Spinless Cactus.

A Mr. Smith, representing the Burbanks nurseries of California was in the city first of the week taking orders for the celebrated spinless cactus that Mr. Burbank has originated. It is understood that he sold W. S. Merrill an order and we shall watch with interest the development of the plant in this country.

106,310 OF SCHOOL AGE ATTENDANCE AT HIGH SCHOOLS SHOWS BIG INCREASE.

Total Expenditures for the Year Were \$1,549,825.65, Leaving a Balance of \$409,804.56 on Hand.

Santa Fe—Very illuminating are the figures on school attendance and enrollment furnished by Chief Clerk Rupert F. Ashland of the state department. Especially gratifying is the increase in one year in the high school attendance, being 20 per cent greater than in the year before. It was 2,212 in 1914 and 2,625 in 1915, of whom 1,253 were in the ninth, 673 in the tenth, 418 in the eleventh and 208 in the twelfth grades. The increase in the grammar grades was equally noticeable, being from 2,573 to 2,952 in the seventh, and 2,270 to 2,562 in the eighth. This is in part due to the county high schools. The following are the figures in the other grades: Sixth, 2,750 to 4,152; fifth, 4,782 to 5,964; fourth, 6,032 to 6,579; third, 10,691 to 11,307; second, 10,691 to 11,307; first and primary, 24,258 to 27,050.

The school census shows 55,165 males and 51,145 females, a total of 106,310 persons between the ages of 5 and 21 in the state. Of these 66.33 per cent, or exactly two-thirds, are enrolled in the public schools, as against 65.9 per cent the year before. The number enrolled being 37,073 boys and 33,714 girls. Attendance was 66.45 per cent of enrollment, 24,256 boys and 22,061 girls, as against 74.2 per cent the year before, the falling off in the average daily attendance being due in part to the lengthening of the minimum school term.

The total expenditures for the year were \$1,549,825.65, leaving a balance in the school treasuries of \$409,804.56.

Mrs. Haymaker's Pay Raised to \$100. Roswell.—In the future Mrs. O. R. Haymaker, clerk and member of the Roswell School Board, is to receive \$100 a month for her services. This was decided at a meeting of the board. The question of the legality of Mrs. Haymaker's position as a member of the board is now before the Supreme Court, on an appeal from Judge McClure's court. Judge McClure, on former proceedings, held that she could not hold her position as a member of the board and receive pay for acting as clerk. In the past she has received \$25 a month, and this was held as exorbitant by those who opposed her and sought to have her disqualified.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

THE WISE CANDIDATE—

The seeker for public office who possesses the wisdom necessary to qualify him for the position is alive to the fact that the voter of today has to be shown, that deeds count for more than empty words and cheap cigars. A few years ago the candidate circulated around passing out rag weed in guise of cigars and declaiming upon the glories of the republic and the voter in particular. He promised everything and delivered little on nothing. Today he goes to the editor of the local paper, contracts for a liberal amount of legitimate display advertising space, and talks to the voters in an honest and manly way. In the old days he reached only a few of the voters, whereas by the present method he talks through the medium of his advertisement to every voter in the community. What he says is on record in cold type, and carries conviction. It is the method that produces tangible results, that gets the votes, that appeals to the intelligence of an honest people. Keep your eye on the advertising columns of this paper, and see what your candidates have to say.

KNOW YOUR MAN— Every qualified voter in this community should know his man before casting his vote. He should know ALL candidates thoroughly before deciding for whom he will vote. Every candidate for public office has certain traits of character which should receive the spotlight of scrutiny before he receives even a single vote. The people should know that he is honest, that he is intelligent, that he is energetic and progressive, that he is competent to fill the position he seeks, and this knowledge can only be acquired by a careful study of the man and his deeds. The day when people voted for men just because they were "good fellows" is past. Now we are looking for men who are real men. Know your man before you vote.

Democratic Opportunity.

The Democrats of New Mexico have an opportunity, this year, which if taken advantage of by a united party should result in a notable victory for the national state, legislative and county tickets in November.

There is every argument why the Democrats should get together, bury trivial fractional differences and petty quarrels and work for the nomination and election of the best men in the party to public offices.

The Republicans are going to have the biggest kind of fight within the party among the several candidates for governor and United States senator and this scrap is not going to promote party harmony in the G. O. P. ranks.

Then there are the Progressives. They certainly are not going to trail with the Republicans with this party returning to its "rule or ruin" regime of territorial days. In fact the Progressives are going to put up a ticket of their own and past elections in New Mexico have shown that this party draws its strength not from those of Democratic faith, but from the large number of Republican voters of independent leaning who are against old-time G. O. P. methods, on general principles.

From our observations the Democratic problems this year are insignificant in comparison with the troubles afflicting the Republicans and that is why we are so optimistic of a Democratic victory—a sweeping victory in fact, if the Democrats will only take advantage of their opportunity. We believe they will.

England Will Mobilize Women.

The British Government has instituted a campaign looking toward the recruiting of 400,000 women who are willing to work on hand. Those who enlist will be given armbands and uniforms which will consist of boots, skirt, coat and gaiters. It is estimated 250,000 men have already been withdrawn from agriculture and that 100,000 more will be called, leaving only shepherds, ploughmen and others indispensable in the tilling of the soil.

The Herald \$1.00 a year and worth it

Just a Suggestion.

It might simplify matters and avoid friction if it were understood that schools are maintained to serve the pupils and not the teachers, and that the buildings and equipment and teaching staff are supplied to serve the scholars and not the scholars to serve the teachers. Taxpayers cheerfully provide the money on the above basis.—XX.

Query of the Ages: Just why does one woman kiss another when so many willing men are waiting to be sacrificed?

When you meet a gronch on the street, smile at him; if you see him in church, sing to him; when he is at home, feed him; if he creeps into heaven,—but he won't.

There are lots of good things we could say about this town—things that we have said before, and expect to say again. But we would like to hear a few warbles from your own lips. Tune up.

If a show troupe should come along and advertise a free performance the people would jam the hall and line up a hundred deep outside the door. And yet the door of every church is open Sundays and the show is infinitely better than that of troupes that travel the road.

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Gardui, the woman's tonic. She says further: "Before I began to use Gardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Gardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

Garrison Notes.

The farmers of this community are busy hauling grain to market and preparing ground for another large crop.

Rev. Night will preach for us the second Sunday in March. We now have preaching and Sunday school every Sunday at our school house. Everybody is invited to come.

An infant of Mr. and Mrs. Jack Walters was buried in the Longs' cemetery Sunday the 13th. People of this community extend their deepest sympathy to the bereaved parents.

Mrs. H. H. Talley returned home last week from Petersburg, Texas, where she has been visiting her daughter, Mrs. James A. Thompson.

Quite a crowd attended the musical at the home of Mr. Hitts a few nights ago. Everyone reports a pleasant time.

Our school, together with the most of our citizens and their families went to Causey Friday the 11th at noon to spend the afternoon with their school in ball playing and etc. The score was in favor of our boys. Causey agreed that they should come to our school soon. We enjoyed our stay very much with the good people and pupils of Causey until four o'clock when we returned home.

Dereno Doings.

C. M. Johnson went to Portales the first of the week in his car after his nephew, who is going to work for them this summer.

Curtis Haga and Stanley Elliott spent Saturday night with Elvy Bell at the sheep camp. Mrs. Ackerman's sister is visiting her now.

Several of the Dereno young people attended Sunday school at Blanco Sunday morning and then took dinner at the Garrett home. Then attended the singing at Stanton in the afternoon.

Quite a crowd attended the peaking at the H-bron school house last Thursday night by Profs. Deen and Cornett of Tabor.

Mr. Stephen made a business trip to Tolar Saturday.

Teacher Helps Pupils.

We hear of one school teacher who has been teaching the pupils at school to keep a record of the milk production from the cows on their farms. On certain days samples of milk from all the different cows were brought to school and tested with a Babcock tester. The result has been that a lot of unprofitable cows have been "shown up" and weeded out in that neighborhood, and the patrons of the school are reaping a benefit as well as the children.

West Growing the Fastest.

Census bureau experts at Washington estimate the population of the United States at 101,208,315 and that the population on July 1 will be 102,017,302. Western states have led in the growth, Washington heading the list, with Oklahoma, Nevada, North Dakota and New Mexico following in the order named. The bureau's estimates based on the rate of increase between the 1900 and the 1910 censuses.

Inez Items.

The Literary and Debating Society gave a very interesting program on last Friday night. The debate was good. Messrs. Ballou, Stroud and Owens, of Portales were present and each made a short speech announcing his candidacy.

There was a box supper at Rogers Saturday night.

Misses Marguerite Philips and Laura Fullerton, who are attending school at Portales, visited homefolks the last of the week.

Uncle Polk Williams and B. B. Greathouse made a trip to Portales last week.

Jim Jenkins, of California, who formerly resided in New Mexico, was at Inez a day or two the first of the week shaking hands with old friends. He says New Mexico has improved wonderfully since he left here some five years ago.

Rev. Thurston held services on Saturday night and Sunday. He preached helpful and inspiring sermons, as usual.

Messrs. Broyles and Ingram arrived in Inez Sunday. These gentlemen are just from Arkansas and have come with a view of locating.

Domestic Science Demonstration.

Miss Gail Kiehn, leader of home economics in the extension work of the Agricultural and Mechanical college at Las Cruces is in the city this week. She gave a demonstration and lecture Wednesday afternoon at the Deen-Neer store on "Meats and Meat Substitutes." Thursday she demonstrated and lectured at the same place on "Salads and Salad Dressings." Thursday morning she lectured to the high school pupils on "Textiles and Clothing."

Miss Kiehn was induced to come to Portales by the Domestic Science Department of the Women's Club. All of their work for the present year is being based upon Miss Kiehn's plans.

Deming Sheriff Killed

Sheriff D. R. Stephens of Deming, N. M., was killed Sunday afternoon in the foothills near Rincon, N. M. during a running fight with five men who escaped during the morning from the Deming jail.

Joe Oranson, one of the escaped prisoners, was killed during the fight between the bandits and the sheriff's posse. Back Se-

vier, a member of the posse, was seriously wounded, as was J. O. Starr, another of the escaped prisoners.

Receiver is Mounted in End of Pocket Knife.

A novelty of recent appearance combines the functions of a revolver and pocket knife in one article. One end of the invention resembles an ordinary jackknife, having the usual hinged blades of assorted sizes. In the other end, however, is mounted a steel block, bored out to receive a .22 caliber cartridge, either blank or ball. Attached to the back of the knife is a suitable trigger arrangement for firing the cartridge. A picture of the device appears in the March Popular Mechanics Magazine.

Tree Planting Time.

A veritable forest of young trees have been purchased by the farmers on the plains this year. It is shade trees for the farmstead and fruit trees for the family orchard.

But time slips by and soon the tree planting season for this year will soon be gone forever. It is yet time to order trees and get them started this year. It need not cost much money either.

Tree planting needs no long argument in its favor. Trees are ornamental and useful. They soon furnish shade and break the wind. In a few years the farm groves will change the appearance of the country. The spring winds will cease to be full of stinging.

Tree planting has in a few years time changed the appearance of the northern prairies. What was the lonely forsaken home of the new settler, now sits snugly in a clump of trees. Back around the barn and feed lot, trees form a wind break for the stock.

Trees cost little money. Few so poverty stricken that they can not buy a few trees. It just requires a little get-up to order the trees and later give them care and protection from stock. The varieties to plant will depend on the taste of the planter. It is best however to get trees grown as near home as possible or grown under similar climatic conditions.

This is just a reminder that the tree planting time this year will soon be over. It is still time to get the wife and the children will thrive better with a few trees around the farmstead.

Plant trees.—A. M. Howe
