J. B. PRIDDY, MANAGER
of the Warren-Fooshee Company's Store at
Portales, New Mexico

Probably in no line of trade is
the customer so dependent upon
the honesty and fairness of the
merchant as in the dry goods
business. There are many hundreds
of varieties and quantities of
goods and in a vast number of
instances they all look so near
alike that it is an easy matter to
substitute an inferior article and
charge the regular high graded
price. The public knows this,
and that is the reason why a
merchant who establishes a reputation
for absolutely fair dealing
seldom has cause to complain
of poor business even when times
are dull. The public has entire
confidence in such a house and
will instinctively turn to it and
ignore the blandishments of the
order house that advertises
"Something for nothing." Our
own town is peculiarly fortunate
in this respect. The firm of
Warren Fooshee & Company is
one to tie to. It has built up an
enormous volume of business by
the simple method of being absolutely
frank and open with its
customers and telling them the
exact truth about their goods,
and their business is experiencing
a healthy and steady growth
as the months go by. There is a
great deal of satisfaction, as
well as economy, in dealing with
such a firm. Just now the ladies
are especially interested in their
new arrivals of summer goods.
Clothing is another line in
which it is comparatively easy
for an unscrupulous dealer to
"soak the suckers." Certain
firms in the cities make a prac-

tice of advertising extensively in
the country districts and offering
a \$20.00 suit for \$9.98, or some
such ridiculous price, always
supposedly about half of its value.
A little consideration should
tell any person that the price has
first been boosted in order to
make a spectacular cut and
catch the suckers," and that
whatever price you pay, you are
paying all or more than the suit
is worth. Not all city merchants,
follow this practice, but it is
difficult for the country buyer to
tell the honest city merchant
from the cheat and shark. The
better and safer policy is to buy
at home, where you know your
merchant and you know that his
word and reputation back up the
quality of his goods. And in
this latter respect the well
known and popular firm of Warren
Fooshee and Company who have
sold clothing to the people of
Roosevelt county for more
than thirteen years, have long
since established a reputation
for strict business integrity.
Their honesty and fairmindedness
is a household word, and the
customer knows for a certainty
that he gets the full value
of his money when he buys
his clothing from them.

No, this is not a rap at any
other dealer. We have other
business men in this town who
we can recommend, but when
you send your money to some
foreign city you have to take
what you get. This is an age
when if the dollar is to be earned
the pennies must be saved.

Roosevelt County Still Leads.

There was an entertainment
given at Las Vegas for the students
attending the Normal
University at that place by
Bacharach's big department
store and there were three prizes
awarded in which Roosevelt won
first. Each county was asked to
furnish part of the entertainment
and Roosevelt County was
represented with a burlesque on
the Cowboys' Reunion. The
prize awarded Roosevelt County
a \$10 gold necklace and the student
body voted the necklace to
Miss Edith Reagan, one of their
party.

J. W. Ballow and family visited
friends in Elida Sunday.

Reduce the Cost of Living.
If every family in Roosevelt
county would raise enough bags
for home consumption and a few
to sell, it would reduce the high
cost of living.

Dry Goods Man to Market.
Frank J. Theiler, manager of
the Joyce-Fruit Dry Goods department
of the Roswell store was in Portales
the latter part of last week on his way to
New York where he will buy dry goods
for their line of stores.

Let Them Quarrel.
Republican fractional rows in
several republican counties are
giving the leaders considerable
anxiety, and there is promise
that some good will become of
them, inasmuch as openings for
effective Democratic work are
being created.

Building Elevator.
Work is progressing nicely on
the grain elevator which is being
built by C. O. Leach, the coal
and ice man. The elevator will
be of no little value to the farmers
of this country.

Move Cattle to Grass.
E. T. Robertson and family,
of Melrose was in after supplies
Tuesday. Mr. Robertson has recently
moved his cattle from the
Elida country to Melrose on account
of scarcity of grass on his
ranch.

Roosevelt County Values.
The following is a table showing
the amount and value of property
in Roosevelt County.

Value of Real Estate and Improvements \$2,395,704; value of railroad, \$2,135,870; value of Livestock, \$1,494,139; value of all other property, \$605,338.

Total Assessment, \$6,632,051;
Less Exemption, \$289,900; Final
Assessment, \$6,342,151.

There is on the tax rolls, 7512
horses and mules, 38014 sheep
and goats and 1980 swine.

Democratic State Convention to Open Aug. 30.
The Democratic state convention,
at which time the state
ticket will be named, will open
in Santa Fe on August 30. The
date is only a little more than
five weeks off. The period intervening
should be one genuine
preparation on the part of the
Democrats of every county.

The actual campaign, following
the nomination of Democratic
candidates, will be limited
to sixty days, the date of the
election being November 7. As
much preliminary work as possible
should be done between
now and the time of the state
convention.

Back From Mountains.
Judge T. E. Mears of Portales
and A. A. Beeman, of Elida, with
their families, returned Tuesday
from on a two weeks trip to the
border and several places of interest
over the state. El Paso,
Alamogordo, Albuquerque, Santa
Fe and Las Vegas, were some of
the principal towns made, and of
special interest was the Elephant
Butte Dam, where there is enough
water stored to irrigate the land
under the entire project for 3
years if it does not rain another
drop.

Moore Hones was in Elida
Saturday on business for the
Highway Garage.

Villa has been resurrected.

'Perspiration' is the pass word on the border.

A clean town never needs to advertise the fact. It spreads.

Our own little border warfare appears to have reached the grasshopper stage.

Of course famine is sweeping over northern Mexico. Villa and his horde are abroad again.

Great men are often great in the eyes of everyone but those who know them best.

Why not Portales have a summer sale the last of this month or the first of August?

There's a lull in the storm on the border, but the lull usually precedes the greatest blows.

Scarcity resulting from the war has advanced the price of quinine 750 per cent. But who cares? We don't like the stuff, anyway.

The smile of a good woman can pierce the darkest clouds of despair and illuminate the blackness of hope destroyed. It is woman's duty to smile.

When a fellow sits around, does nothing, and criticises everything and everybody he makes of himself the greatest object of all criticism. Speak the good word instead.

That man Villa is the most accommodating cuss on earth. Just when the daily press is short on material for scare heads he bobs up serenely and supplies the needful for more thrillers.

There comes a time in the life of most men when they see their own imperfections more vividly than others see them. It is then that are on the way to becoming better men of nobler deeds.

A German submarine of powerful proportions crossed the Atlantic undetected and entered an American port. And yet we talk of our isolation rendering us immune from attack from abroad. We have much to learn and but few seem to care to do the learning.

have to say about cream separators this week

In the last ten or fifteen years there have been dozens of cream separators come on the market which claimed to be "world beaters." But they couldn't make good in the hands of the users and one by one they dropped out of sight. Their owners were willing to take a risk and they lost. If you buy a cream separator from us you run no risk of dissatisfaction or loss.

The De Laval is tested and time proved.

Why experiment? What's the use of taking chances with a machine you don't know much about, or an inferior machine, when you know that a De Laval is recognized everywhere as the "World's Standard."

More than thirty five years of experiment and experience have made the De Laval pre-eminently the best machine on the market for the separation of cream.

If you have no separator now, or an inferior one, we can sell you a De Laval on such terms that it will pay for itself while you are using it.

Next Sunday will end my work as pastor of the Baptist church of this little city. During my stay here I have met some fine Christian men and women, in our church and other denominations. I cannot say any word too good for the fine professional and business of Portales. They have treated me royally for which I am truly grateful, I will not forget the many courtesies of the news papers. I cannot mention all the kindness that have been shown me, so here goes a good word for all.

L. W. Carleton Has Fine Ranch

The editor and wife taken dinner with L. W. Carleton and family last Sunday and we sure did appreciate the fine dinner, which was prepared by Mrs. Carleton and daughters. Mr. Carleton has the best dairy business that it has been our pleasure of visiting in New Mexico.

His dairy ranch is stocked with Jersey cattle and is paying him good dividends even during the drouth. He is milking 15 thorough-bred Jersey cows that became fresh since the first of January which is netting him some \$80 per month after paying for their feed. Mr. Carleton says that the people of this part of New Mexico must learn that in order to be successful, one must either turn his attention to either beef cow or preferable milk cows, and there is no breed of cattle that will give the best results in producing milk when the attention of her owner is given to the tendancies to produce a beef cow. There is where some of our dairy people fall down in our opinion. There is more work in the dairy business than some of our people wants to do and they turn their attention to the beef cattle instead of staying with the dairy business, and when the dry time comes they find that they have not a sufficient amount of grass to run enough beef cattle to make them a living and they have their herd ruined for profitable dairy cattle and then they become discouraged with the country. When if they would make up their minds that they could stand the work of a dairy and give that their whole attention they would find that the dry times would not have so many terrors in store for them, but could run enough cattle on their grass with what feed their cattle would profitably utilize to make some money at all times.

Mr. Carleton has two cows that is producing two pounds of butter a day each and he finds a ready market for this butter at 30 cents a pound which makes 60 cents a day that each one of these cows brings him and in ten months which is time that a cow is supposed to give milk makes them produce \$180 a year each. Say he never did sell a calf, where is the range cow that will produce the money that one of these cows will.

Mr. Carleton is still building up his herd and next year he will head his herd with a bull from one of the very best herds in the United States. He says that he will eventually get his herd up to where his cows will make \$200 worth of butter a year.

Wanted—Cheap saddle. Apply at Faggards. 32-34p.

The Merchants matinee was a big success.

A Treat to the Farmers

It has been the foremost thought of some of the leading merchants in Portales as to how we might offer some inducement to the farmers of the surrounding country to bring their families to town once a week and entertain them in some way.

Through the co-operation of most of our merchants and S. D. Beaver, manager of the Cosy theater, they have arranged a plan whereby the merchants will give their farmer customers tickets good for a special matinee show at the Cosy theater on each Saturday, 2:00 p. m., to 4:00 p. m. These tickets will be honored only at the Merchants matinee on Saturday of the week you receive them, and are to be used only by the farmers in living outside of the city corporation.

The Cosy management is giving a high class entertainment that will please the children as well as the elder folks. The house was crowded last Saturday twice, to its capacity, and we hope to see all their smiling faces here every Saturday.

These free shows will continue as long as the farmers attend in goodly numbers, so it is up to you, Mr. Farmer.

Tickets will be issued at the following business houses: Ask for them.

Joyce-Pruit Co., dry goods, groceries and hardware; C. V. Harris' dry goods and groceries; Deen Neer Co; White House Grocery Co; Callaway Grocery Co; Strickland and Bland; Warren Foshhee Co; Inda Humphrey Hardware; J. B. Sledge Hardware; J. S. Is It Another Trick?

A great many people view Carranza's present role of "good Indian" with suspicion, and with reason.

Carranza is tottering on his throne. His power is on the wane. His army is disgruntled and his generals are dissatisfied and defiant.

And there's a reason. The self styled first chief is out of money, and without money or loot or the prospect thereof the Mexican does not fight. He prefers to loiter around in the sun and roll cigarettes.

There appears to be but one source from which the Mexican government can secure the financial assistance of which it stands so distressingly in need. That is from the United States. And we, strangely enough, seem to be willing to furnish the gold that will enable them to regain their position and ultimately turn their guns against us again.

No sooner had Carranza announced his desire to re-open diplomatic relations with Washington than the information was allowed to filter out that he was in the market for big loans, and American financiers immediately pricked up their ears in anticipation of another slice of interest "bacon." Their patriotism appears to begin at one end of the pocket book and end at the other.

The Mexican is a adept at playing good Indian when he has something to gain, and the first chief greatly desires American gold.

He may get it, but if he does

It costs us a little more, and we have to meet the same prices of other dealers, but we find from experience that it pays in the long run, because we never lose our customers and are always gaining new ones. It's the quality that does it.

we will probably be receiving bullets in return for it instead of interest money.

Keep both eyes on the good Indian, and don't let him come too close to you in the dark.

All pigs grunt and some men too.

Knowles, in Eddy county, will go "dry" September 1st, when the only saloon there will be closed.

It looks very much like the 640 acre homestead law would become a reality in the near future. It should be a good law judging from the time that has been spent in trying to pass it.

As the Editor Sees It.

Has it ever occurred to you that the American people are about the most indifferent class on earth—that is, of the civilized portion of the globe?

From a handful of savage Indians in the days of the Columbus discovery in 1492 the Americans have become the fairest spots of the earth. Today there is no equal in all the world.

A small band of patriots who threw off the British yoke in 1776 have grown and flourish and multiplied and expanded until today the United States dominates the financial and commercial world. And again there is no equal.

But with all of our power and our greatness we still remain a people of supreme indifference in many of the essentials of life—excepting, always, the accumulation of more gold.

As a point illustration, take the movement of troops of the National Guard to the border. When history is written it will be another smug on our record.

For weeks prior to the movement, railroad officials had given glowing accounts of their preparedness for handling any required body of troops promptly and efficiently. But when the call came they made a lamentable failure, and because their stops toward "preparedness" had consisted of words instead of deeds.

The government contracted for tourists sleepers for the regiments going from the north to the border. In some cases they were supplied, but in others the men were required to travel the long distance in ordinary chair cars or day coaches. And these men were going forth to fight the battles of their country and the railroads who failed to give them ordinary comfort on the journey.

For a few days there was a great hue and cry in the newspapers and the railroads were lambasted from Maine to California. The roads in an effort to defend themselves, admitted that the shortage of cars was brought about by the large number of the civil population who were moving from point to point

and using up the sleeping car accommodations.

And thus did the cat hop out of the bag.

In any other country on earth the sleepers would have been immediately commandeered for the use of the troops who were to defend the country from aggression. The men who were to do the fighting would have been the first consideration.

But not so with us.

The railroads could make more money by using their sleepers for the regular traffic—hence, for the sake of gold, they were so used and the troops paid the penalty.

And to illustrate our supreme indifference you have but to note the fact that even now, but a few days since the movement, the public takes practically no interest whatever in the subject. It has past and gone—and that's enough, it seems.

True, in the flush of indignation of the movement a congressman or two proposed an investigation, but, as in other cases, it will probably never be made—or if made of all, it will be but a farce with a coat of whitewash for adornment.

We repeat, Americans are a great people and they dominate the world, but in the matter of indifference and forgetfulness they are the whole van itself.

The loafer, the kicker, and the bluffer are three of a kind, and the bread is not conducive to the welfare of any community. If they could see themselves as others see them they would not be seen at all.

Young Men Must Have a Chance.

"If our country is to have a permanent and real growth, the young men—and when I speak of young men I mean all men up to forty at least—must have a chance. If such men are to be prepared for the chance there must be legitimate success awaiting their hopes and ambitions and their hard work. This Mr. Wilson and the Democrats have made possible and they have strengthened that possibility for just opportunity for all, both rich and poor, by a series of other legislation dealing with trade, transportation, interstate business—big business—and the whole field that should in justice be open to all of our citizens. Our common sense as business men, whether we be Republicans or Democrats, will make us unwilling to take any chances with our present prosperity—unwilling to swap horses in crossing a stream."

The next time you meet a grouch take a good look at him. It is the way you appear when you are in the same class.

"Letting the other fellow do it may save you a little exertion today and lose you your job tomorrow." Do it yourself.

Speak gently of the one who speaks ill of you, and the world will regard you as a gentleman, and him not at all. You win.

Keep right on telling people this is a good town and in time they will make you believe it yourself.

have to say about cream separators this week

Ninety-eight per cent of the world's creameries use De Laval's exclusively.

CREAMERYMEN have better opportunities than other separator users to see which separator is most efficient and durable. That is why they use De Laval's.

More De Laval's are in use on farms than all other separators. Time and experience have proved to a vast majority of farmers that no other separator gives as good service as the De Laval.

Each year, in the United States and Canada, thousands of farmers discard inferior separators and replace them with De Laval's. They do it at their own expense. They would have saved money if they had bought a De Laval in the first place.

If you will bear the facts in mind and select a separator, you will realize that the wisest course is to buy a De Laval.

We will be glad to bring a De Laval out to your farm and let you try it out and see for yourself that it does give you the greatest value for your money. We are willing to give you a full year's trial on the De Laval. Just phone us or send a post card and we will see that you get all opportunities to try a De Laval.

Sooner or later you will buy a DE LAVAL

It is mighty nice to be able to have both. Worlds of pleasure can be derived from either, from the automobile for a year or two; from the home for a life time. Every man should have a home. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill. I wish every suffering woman would give

RAILROAD WAGES

Shall they be determined by Industrial Warfare or Federal Inquiry?

To the American Public:

Do you believe in arbitration or industrial warfare?
The train employes on all the railroads are voting whether they will give their leaders authority to tie up the commerce of the country to enforce their demands for a 100 million dollar wage increase.

The railroads are in the public service—your service. This army of employes is in the public service—your service.
You pay for rail transportation 3 billion dollars a year, and 44 cents out of every dollar from you goes to the employes.

On all the Western railroads in 1915, seventy-five per cent of the train employes earned these wages (lowest, highest and average of all) as shown by the pay rolls—

	Passenger		Freight		Yard	
	Range	Average	Range	Average	Range	Average
Engineers	\$1747	\$2195	\$1537	\$2071	\$1056	\$1378
Conductors	1543	1878	1454	1935	1151	1355
Firemen	1033	1317	751	1181	418	973
Brakemen	854	967	874	1135	862	1107

The average yearly wage payments to all Western train employes (including those who worked only part of the year) as shown by the 1915 payrolls were—

	Passenger	Freight	Yard
Engineers	\$2038	\$1737	\$1218
Conductors	1772	1624	1292
Firemen	1218	973	832
Brakemen	921	1000	1026

A 100 million dollar wage increase for men in freight and yard service (less than one-fifth of all employes) is equal to a 5 per cent advance in all freight rates.

The managers of the railroads, as trustees for the public, have no right to place this burden on the cost of transportation to you without a clear mandate from a public tribunal speaking for you.

The railroads have proposed the settlement of this controversy either under the existing national arbitration law, or by reference to the Interstate Commerce Commission. This offer has been refused by the employes' representatives.

Shall a nation-wide-strike or an investigation under the Government determine this issue?
