The New Roosevelt County Creamery to Begin Receiving Cream Monday August 14

Rogers Picnic A Hummer

Everybody and their dog was out at the picnic at Rogers last Thursday. There were 165 automobiles there and several of them made two trips and were loaded to their capacity. It is a safe estimate to say that there were 2000 people there and the way they were fed at noon hour was amensse as there were enough people there to eat more than half of what was prepared and as to variety, there was some of everything that was good to eat there. The who's program was a general success and everyone enjoyed the day to the fullest extent.

A business man from Clovis made the remark that the Rogers picnic was the "Only picnic in the State"

The business men of Portales closed their places of business and all spent the day with the Rogers people and it will be a day long remembered by both the Portales and Rogers people.

In a business way it was a good investment for the business men of Portales, as it gave them a chance to get better acquainted with some of their customers.

One of the most thrilling scenes ever presented will be witnessed at the Cosy on Friday August 11. In this production a gigantic dam is blown up and the released flood undermines and destroys a large country house. See "The Immigrant" at the Cosy Friday August 11.

Selling Roastingears

The editor was in Elida Saturday and our old friend Ben Pendleton was selling roastingears and he informed us that they were raised without irrigation or rain and they were nice large ears.

Miss Del Wilson gave a surprise party last Wednesday in honor of her mother. Those present were Mrs. Lendsey, Mrs. C. O. Leach, Mrs. Pue, Mrs. George Williamson and her guest, Mrs. Baily, Mrs. Hardy, Mrs. Callaway and Mrs. Molinari. After spending a delightful hour, they served peach ice cream and cake.

The domestic class under Mrs. Nixon, last Saturday entertained the institute with a mid-day luncheon.

Many of the school teachers attend the Rogers picnic last Thursday. Special arrangements were made in order that no time should be lost from the classes.

The Portales barber shop changed hands last week. W. M. Day is proprietor now.

Mr. and Mrs. Colligan left last Saturday for Texico where they will make their future home.

For Sale - Some good milch cows also stock cattle. One mile east, four miles south of Portales 3p. J. B. H. Young.

Place your order for Ford with us now to insure delivery out of next carload. Highway Carage Co.

C. J. Pendergraft and wife of Los Vegas, are visiting his sister Mrs. N. F. Wollard.

FOOTPRINTS ON THE SANDS OF TIME

(Elizabeth Evening Times)

Roosevelt County Teachers Insitute

The sixteenth annual session of the Roosevelt County Teachers Normal Institute convened at the high school building in Portales, July 31, 1916, with an attendance of 106 students and teachers.

The first session was opened with a heartfelt singing of America, followed by an unctious invocation by Rev. A. C. Bell, of the M. E. church south.

The welcome address was delivered by Judge W. E. Lindsey. It was a pithy welcome, a clear-cut, logical exposition of the teachers' rare privilege and great duty and responsibility in their labor of love.

Unusual enthusiasm is shown by the unusual enthusiastic faculty and teacher student body.

Notwithstanding the long years of hard service in her official capacity, and the fact that she is soon to retire from these onerous duties and therefore has no ax to grind or political fence to build or repair, our ever faithful County Superintendent, Mrs. S. F. Culberson, is just as buoyant as of yore and just as keenly alert to the best interest of the teachers of her county.

She announced, betimes, that she would have the examination before the beginning of the institute. The results are most gratifying. The institute is serving its legitimate purpose of being a real professional-2001' function and an intellectual love feast. All forces are unfettered. It is gratifying to note that a much larger percent of those attendance have selected the industrial branches, agriculture, manual training, and domestic

science and the soul inspiring subject of music. Only one of these must be passed on examination.

Leaves For Vacation

Dr. Johnson will leave on August 20th for Davenport, Iowa, where he will attend the Lyceum of the Falmer school of Chiropractic, and the convention of the Universal Chiropractic association during August 27, to September 2nd.

The Dr. and family will also visit relatives in Oklahoma, returning September 10th.

Cumbie-Moore

Miss Lucille Moore, one of our most beautiful and popular young girls stole a march on many of her friends in Portales on July 29th. The Herald-Times man asked her about this talked of wedding, and she denied it with so much grace that we believed there was nothing of the kind going to happen, but later we have learned that on the above date she and Drue K. Cumbie were married just at sunrise, at her home in Portales by Rev. Taylor of Texico. They left on the early morning train for Texas, Louisiana and other eastern points where they will spend some two months on their honeymoon, after which they will be at home at Marshall, Texas.

E. P. White after spending a pleasant visit in Mississippi returned to his post of duty at J. B. Sledge hardware store.

Mr. and Mrs. W. H. Ball are starting today on an overland trip in their car for Hutchins, Kansas, for a two weeks visit.

"The Immigrant" Valeska Suratt, one of the most famous actresses on the American stage, will be seen at the Cosy Theater on Friday Aug. 11, in the Jesse L. Lesky photodramatic production of Marion Fairfax's thrilling drama, "The Immigrant." It is a Paramount picture.

Mr. and Mrs. H. L. Hutcherson and children of Wichita, Kansas is here visiting Mrs. Hutchinson's parents, Mr. and Mrs. Shapcott. They expect to remain three or four weeks.

As Renee Dupree, the cafe singer, who is offered the triumphs and glories of an operatic career, but spurns them rather than lose her sweetheart's love, this brilliant woman is seen at her best. Gone is her thirst for excitement, the shrug and smirk of the adventures, and instead is the deep affection, sympathy and respect of a sincere woman. Miss Farrar shows her wonderful ability as a dramatic actress in "The Temptation." Cosy Theater Aug. 14.

For Sale - Thoroughbred Scotch Collie pups. Call at this office or write Mrs. Sealy, Portales, N.M. 2t-p

Rev. E. P. Kuhl will fill the pulpit at the Methodist church next Sunday owing to the absence of Rev. Bell.

Messrs. Luther Temple, Wesley Herrington and Miss Paulene Gooch from Texico visited Miss Bessie Jones Sunday.

Rev. A. C. Bell left Monday morning for Haggerman N. M. to engage in a meeting. We wish him success.

As It Looks To Me

Mr. Cowman's question is a very live one indeed, will give me my humble opinion in regard to solving it.

It is true the stock farmer is the most successful where he raises his own feed and his own stock, so why won't it work for the farmer who has no grass to raise the feed for the stockman who has no feed? If it will work for the stock farmer, why not for the stockman and farmer?

I consider the cowman on the on the grass in the deep water and the farmer in the shallow water of Roosevelt county, have the best thing going if we will pull together.

If each eighty acres in the valley had crops for ensilage and alfalfa and given plenty of water they could carry two hundred cows on good feed from December 1, until grass, say 125 days for less than ten dollars a head for feed and care and take them through in good shape past the critical time of calving the early calves, it is the early calves that bring the money, and probably give a ten per cent better calf crop, give them a good start on grass; this may seem high for wintering a cow but if she is the right kind of an animal watch her pay for it and a good sum for profit.

If on the other hand there is plenty of grass some years to keep the herd on the range, the farmer with the feed can buy the calves you have for sale, feed them his feed, and put your calf crop and his own feed on the market in the shape of baby beef with a good profit to all.

If a ranch under ordinary conditions will carry a cow herd that will produce 120 calves the year round, it should carry a herd that will produce 200 calves from grass until the first of December. If they are good stuff those calves should bring \$35 a round; 35 times 120 is \$4,200; and 35 times 200 is \$7,000; 7,000 - 4,200 what it would cost to have them wintered, leaves \$5,000 - \$4,200 leaves \$800, saves the work of looking after them and what cake would be fed if keeping them on the range all winter. Pretty good interest on money for the extra cows, is it not?

Now then, Mr. Farmer, will you fill your part of the contract by using a good ensilage corn, standard kaffir, or some rank growing cane. You can raise a large amount of ensilage if given plenty of water, which doesn't cost much on row crops; you can raise some alfalfa for dry feed and for pasture for hogs to run with the cattle, and still have enough land left to raise all the vegetables, fruit, chickens, etc., to make a big share of your living.

We farmers should be digging trenches in time of peace, so as to be ready for war, but our trenches shall consist first of a good well with a motor attached, the greatest power for stationary work, and then enough pit silos to hold all the feed we can raise.

When the farmer and the stockman show what they can actually do, our credit is going to be better at the bank for the man who has the stuff to get the money any time and at a better rate of interest if the lender knows that stuff is worth the money, and who ever heard of

good cattle not being worth the money. If you have any to sell this fall sell the poor ones as the county needs the all good ones it has at the present time.

If we can work out some plan that will leave every man his individuality, that will not be socialism, communism or co-operation, in the sense it is generally used, we will better our selves and our country.

Yours for better cattle, hogs, farms, town, and above all a better fellowship.

R. B. Converse.

Doss Dots

This community was visited with two nice showers Sunday. There seems quite a few of this neighborhood going sow wheat this fall.

Quite a few of our farmers sold hogs lately.

Born to Mr. and Mrs. Guy Mathews, August 1st, a 10-pound girl. The baby and mother seems to be doing well, although the father is in a critical condition.

The Naylor girls are visiting with their brother, Joe and Orrel Naylor.

Mr. J. N. Howard left with a good bunch of work mules last week for Texas points.

Frank Smith Returns

After some six weeks or more one of the most pleasant summer trips, Frank Smith returned to his home in Portales, after attending a big family reunion in Cambridge, Illinois, where there were forty present. From Cambridge he visited his nephew, Dr. Lester of Streeter, Ill. Thence on to Des Moines, to visit his daughter, Lula, and another daughter Laura, in Anita, Iowa. From there he journeyed over to see his brother, who is station agent at Andubon, Iowa; then his sister, Amy, at Niesca, Iowa. On his return trip, stopped of Kansas City.

Portales To Have A Big Barbecue

Portales will have a big celebration on Saturday August the 19th. The Ladies band, of Clovis will help to make merry this occasion with their splendid music. The Herald-Times will contain the program next week if the proper amount of money is subscribed that the committee expects to get this will be the biggest day that Portales ever had.

Portales School Notes

The Portales Public Schools will open on Tuesday, September 5th.

All patrons who now reside outside the district and expect to send to school in this district, should be in Portales by September 1st, in order that their children may be enrolled in the census of this district where they will attend school.

The school board has purchased about 68 additional seats for use this year. These were badly needed.

All rooms of the building and the school grounds will be put in sanitary condition before school begins.

Have your children ready for school the first day.

"Well begun is half done," lets start off well. Be ready to cooperate in all things. It takes cooperation of the school board, teachers, parents and children to make a good school. The lack of cooperation of any of these will to that extent handicap our school. Are you willing to do your part.

Suffering in silence is commendable, but it is a blessed hard job to pull off.

Mr. Hughes assures us that we are living in a fateful hour. Correct, but it is even better to live than to die.

United States prestige is said to be growing abroad, according to a Washington dispatch. No mention is made, however, of our standing with our dear friends across the Rio Grande.

The Germans want peace because they think they have won the war, and the allies refuse to accept it because they are sure they will win the war. Therefore, on with the carnival of blood.

"Europe has reached the point where it refuses to count the cost," is the latest from over yonder. Possibly on the theory that it is easier to forget to count than it is to pay.

If Carranza and Villa will stay put for a short time we may enjoy a few square meals without being marshaled for the defense of our sacred soil against the marauding foot of the hated invader.

It is said that thirty thousand manufacturing plants in America are suited for turning out munitions of war. Here's hoping for one, that insofar as the United States is concerned they never have occasion to turn a wheel.

Correspondents are warned not to send us any poetry for publication. The people won't read

READ THIS

SAVE A PENNY

No purchase is too small for you to effect a saving at this store. It is generally a penny or two less even on the small purchases. Our coffees and tea are strictly O. K., and you always save a little. Noted for its purity and strength. Nothing more satisfying.

SAVE A DIME

You don't have to spend much for your savings to reach a dime or two. Savings accumulate rapidly at this store on everything in the grocery line. Everybody likes our Rose of Kansas, flour and they all get in on the savings. It makes great biscuits and bread.

SAVE A DOLLAR

Anybody can save a dollar here. They can save many dollars by doing there trading here. This is the "savings" house of this town. Our groceries are par excellent, and here is where you save the dollars. Get in the dollar class, and keep in. It's easy.

Strickland and Bland

ours and we'll be everlastingly hoo-hooed if we are going to make a poetical reputation for any other fellow.

The Story of a Cow

New records and greater performances follow each other in such rapid succession that he who sees or hears must be convinced that the present century is one of real progress and development. The past has been an era of waste, the present is one of efficiency in economical production, science and ability to perform assisting each other in answering the universal question of the cost of living. By products in manufacturing are being converted into natural resources, while in food production the dairy cow is being highly developed for giving an ever increasing amount of finished product from a given amount of raw material. Such marvelous yearly records have recently been made in the dairy industry that the general public may well ask where the end will be.

The latest great achievement dates from twelve o'clock on September 11, 1913, at Roycroft farm, Sidnaw, Mich. Since 1905 the Jersey cow, Jacoba Irene has held the championship of the world for this breed with a yearly record of 17,257 lbs. 3 oz. milk, 964 lbs. 3 oz. butter fat, 1121 lbs. 2 oz. butter, while since then Spotswood Daisy Pearl has held it for the Guernsey breed with a yearly record of 18,602 lbs. 1 oz. milk, 957 lbs. 6 oz. butter fat, 1126 lbs. 5.2 oz. butter. The crown of glory and the blue ribbon of economical production, however, must again rest with the Jersey bred by virtue of the wonderful achievement of that queen of dairy matrons, Eminent's Best, of Roycroft farm, who by making a yearly record of 18,782 lbs. 15.6 oz. milk, 967 lbs. 13.2 oz. butter fat, 1127 lbs. 12 oz. butter under the supervision of the Michigan Agricultural college, establishes a new world's record for both the Jersey and Guernsey breeds.

Long has the Jersey cow been looked upon as a frail and delicate creature, a sort of a house hold pet which needs to be blanketed at the least approach of cold. But the startling news that perfection in the breed is to be looked for, not in the sunless regions of the South, but in Cleveland, the very northern limits of the United States. Among breeders and farmers in general many will ask the question: Has the beautiful Jersey cow been changed in character?

The rains this week have been worth thousands of dollars to Roosevelt County. However there are some parts of the county that have not had the amount of rain that is needed.

Still Tongues and Others

There is a saying that a still tongue makes a wise head, but there are times when the tongue should work for the public good.

Candidates for public office sometimes imagine that a sphynx like attitude inspires public confidence. It does not. The people have a right to know where every candidate stands on every question upon which he can exert the slightest influence while in public office.

Some candidates understand this and are quick to explain their attitudes to voters. Usually they are successful at the polls, if their views are in harmony with the welfare of the voters of their districts.

Others are "num as oysters" during the campaign, on all vital subjects, but talk loudly about rotting and expect the voters to support them on faith or friendship alone.

They deserve to hold the bag, and they usually do.

The American voter of to day goes through life on his own, but he can't give the fruit of that brain for the benefit of any candidate who fears to take him to his confidence on public matters.

Let the candidates speak. The public is ready to listen.

G. W. Stroud

We are in receipt of a letter this week from G. W. Stroud, of Grand, N. M., brother of Sam Stroud of this place, in which he states that he had been nominated for the Democratic ticket for the office of Representative of his county. Mr. Stroud at one time was a resident of Slater, Saline County, Missouri. Since leaving here he says he has been teaching and preaching. He will be remembered by many of the older Slater citizens, who will also be glad to hear of this honor which the Democrats of his country have conferred upon him. Mr. Stroud was born in Kentucky and at the age of 48 years, moved to Missouri and was educated in the public school of this state and attended William Jewell college for four years. After completing the course at this college he taught school for thirteen years and moved to Oklahoma and from there to New Mexico, his present state. He has resided in New Mexico for eight years. Standing for the platform of honesty and squareness, opposed to graft, an advocate of good schools and good roads, he will no doubt easily defeat his opponent in November. We predict a victory for Mr. Stroud and we wish to congratulate his many friends in that part of New Mexico for this wise and safe selection of a man who justly deserves to win. The Slater Rustler.

"ROLL THEIR OWN"!

Making Your Own Cigarettes With "Bull" Durham the Fad of the Year—It's Easy to Learn

Among smokers who know it's the fashion to carry a sack of "Bull" Durham and a book of "papers" and daily "roll their own" cigarettes.

The swift spread of this snappy custom has followed the discovery that in no other way can you obtain a cigarette so fresh, mild and satisfying.

"Bull" Durham is made of golden Virginia-Carolina leaf—the tobacco that made American cigarettes the most popular smokes in the world. This wonderful "Bull" Durham leaf is cut into tiny flakes just the right size to roll quickly and easily into smooth, round cigarettes that are cool burning and sweet.

Any man can get the knack of rolling cigarettes with "Bull" Durham in a very few trials. To help you learn, an illustrated booklet showing how will be mailed to any address in the U. S. on request. Address "Bull" Durham, Durham, N. C.

Get a 5c sack of "Bull" Durham today—ask for the free book of "papers" that goes with it and start "rolling your own"!

Saved Girl's Life

"I want to tell you what wonderful benefit I have received from the use of Thedford's Black-Draught," writes Mrs. Sylvania Woods, of Clifton Mills, Ky.

"It certainly has no equal for la grippe, bad colds, liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles, they went in on her, but one good dose of Thedford's Black-Draught made them break out, and she has had no more trouble. I shall never be without

THEDFORD'S BLACK-DRAUGHT

in my home." For constipation, indigestion, headache, dizziness, malaria, chills and fever, biliousness, and all similar ailments, Thedford's Black-Draught has proved itself a safe, reliable, gentle and valuable remedy.

If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents.
