

PORTALES JOURNAL

VOLUME II

PORTALES, ROOSEVELT COUNTY, NEW MEXICO, FRIDAY, OCTOBER 18, 1918

NUMBER 10

From Bailey Stewart

Aug. 23, 1918.

Dear Folks—

I certainly hope that you are having better luck getting my mail, than I am yours. In your last letter you were going to the ranch, and look things over, and was going to write me all about things. Apparently this letter has been lost as I received one later and you and Aunt were in the mountains fishing and curing hay fever. I only wish I could take the trip with you, and when I get back I will take a two weeks vacation and go over all the places with you, and then I will get in the harness. The future looks good for us fellows over here. I have never worked as hard in my life as I have lately. We have no kick coming; the work has to be done. We are anxious to finish the job and get home. Don't misunderstand me when I say we are ready to come home; not until we whip the Huns, and I would gladly stay two years to help capture Berlin. We appreciate the fact that our folks are doing their part and by doing so we are able to give you many victories, and assure you of many more. These are hard won battles, such as I can not describe to you in a letter and you could hardly believe. But there is nothing that can stop our men. Although I am not in the trenches and do not expect to receive the praise that the fighting men get, do not want any; the praise goes to the dough boy, and he deserves it. The truck trains or ammunition trains are very necessary. They have no protection against artillery and machine gun fire, also aeroplanes and gas, but we are protected against some gasses by the gas mask. Most of our driving is done over mountain roads and at night with no lights. Even at this we are only doing our part, and after a man has been in the game on this side he looks at the thing in an altogether different light.

There is nothing that you can send me, as I would not get it. Did you ever get the government insurance policy of \$10,000. It is made out to you, and I pay premium on it each month.

There are two things you don't see in France that are grown in the States; it is water melon and corn. It has been a long time since I have eaten either—might include all vegetables, and spring chicken, that I was used to when at home. But by doing without all these things we will probably appreciate them more when we get back. By the way, I just thought of the biscuits Aunt bakes; you know I always was crazy about them, and even some of her cake would go good. Don't tell her I mentioned the cake, although I meant every word of it.

It has been very hot here this August. The crops are about all harvested, and I should say a large one. From all reports you must have fine crops in the States. Have not heard from Roy in a long time. He must have moved. The Dunlap boy was over to see me about two weeks ago. I am due a vacation soon. I shall go to the rest camp over in the Alps, that is if I get away. Guess Ben Smith will have a chance to see

THE PUBLIC IS WARNED

Help To Prevent Spread of Spanish Influenza

Every person is warned against sneezing, coughing, blowing the nose, or spitting in public or any public place, without first covering the mouth and nose with a handkerchief or other suitable cloth. In this way you can help prevent the spread of Influenza, a disease which is infectious and contagious, and at present is taking toll by the thousands.

What is good for the public in general is also applicable in your home.

DR. WOLLARD, Co. Health Officer.

France now that the age limit has been raised. Have had very few letters from my good friends in the States; of course there is a chance that many have written me and I never got their letters. Take good care of yourself. I am feeling fine.

CPL. B. A. STEWART,
1st Army Supply Train, Co. E,
A. E. F., A. P. O. 721.

Wiley Franklin, one of the very early settlers of Roosevelt county, and one of the best known cowmen of this section, died at Dalhart, Texas, Wednesday night of pneumonia. The remains were shipped to El Paso for burial.

Richland News

Miss Leona Forbes has been quite sick the past week. Center school of which she is principal has been dismissed until she can take up her duties again.

Johnie Chancellor is expected home this week from Sudan, Texas, where he has been working.

Shark Chamblee, formerly of Shady Grove community, has bought an irrigated farm near Roswell.

G. A. Bailey and son, Will, are doing government work near Little Rock Arkansas.

Little Marie Bates has been quite sick.

G. A. Beeman and family of Portales, were out here Sunday.

M. H. Chancellor is working on the state highway between here and Portales.

R. J. Fulton is out this week from Roswell visiting friends and attending to business.

Tar Top school house was moved from its former location to a place two miles south, Thursday.

Henry Miller began teaching at New Hope Monday.

Mr. and Mrs. J. W. Stigall and Mrs. Add Hobbs were in Portales Friday.

Jack Rolston, Doc Carroll, Jess Holford, Charles and Jack Betts, were in Portales on business during the week.

Dewy Henderson was in Elida Thursday.

Monroe Honea returned this week from a trip to Plainview, Memphis and other Texas points. He says that crops around Memphis were good but that in other places visited the drouth had hit the people mighty hard.

On a cold morning when you can't start your car see Braley's Service Station. 19, 21p

Robert P. Ervien, state land commissioner at Santa Fe, died at his home Monday of this week.

Mr. Ervien had been a resident of the state for eighteen years and land commissioner for about seven years. He had a wide acquaintance throughout the state and many friends.

Mose Smith Dead

Mose Smith, of the Floyd community, died at the A. & M. College Tuesday and his remains were shipped here for burial. He was a member of the Masons and the Oddfellows. Mr. Smith was attending the college for the purpose of fitting himself for service in the army.

Frank Warnica returned this week from Kansas City where he had been, with seven or eight crates of cattle.

Red Cross Election

October 23rd is the official date for the election of all Red Cross officers but word has been received that if the epidemic of Spanish Influenza is not under much better control by that date the election will be put off until the 20th of November. Definite word will be received here from Denver within the next few days.

Miss Vera Merrill arrived from Las Vegas Wednesday of this week.

Over the Top

Roosevelt county was the first in the state to go over the top on the fourth Liberty Loan. Chairman Jack Wilcox says that we are several thousand dollars to the good and that he has ordered the honor flag. Contributions are still coming in and there is every reason to believe that we will mighty near double our quota. Considering the three years' drouth Roosevelt county has just cause to be proud of her showing. We have no quitters and but few slackers, just a sufficient number for us to realize that there are such animals in America, but their breed is not popular and they do not fare well in this part of the state. Mr. Wilcox says that he did not ask a man to subscribe to the fourth loan that did not respond, not one single refusal.

Mr. and Mrs. Coe Howard and Malcolm Trout left Tuesday morning for Garden City, Kansas, from which place Mr. Howard will ship several cars of cattle to the Kansas City market.

Dr. J. L. Reid Dead

Dr. J. L. Reid, who formerly lived on the Red Feather farm, two miles west of town, is reported to have died in New York, some time this week. Dr. Reid was well known here and had a host of friends.

Mrs. John W. Thompson left Thursday morning for Arizona to be at the bedside of her son, Leonard, who is sick there with the flu.

Red Cross Notes

The Portales chapter of the Red Cross now has on hand 125 pounds of knitting yarns, which will be ready for distribution as soon as the influenza epidemic has passed.

The war department now has in a large order for pajamas and Roosevelt county's quota will be 200 pairs. These will be sent out from Denver already cut. When they arrive the chapters over the county will be notified through the paper so they may be called for and made up.

Leo On Way To France On Board S

Dear Mother and All:

Having a fine time—a bunch fine boys and officers. It has been a pleasant journey. sickness to speak of, and that we have had has been only a sickness. I happened to be one of the unlucky but it only lasted a day or so. Once again we have to thank the Red Cross and Y. C. A. for helping to make this pleasant for us. They were right on the job with writing paper and books for us to read, and gave us literature to help when we get across.

We have a fine bunch of officers and they allowed us all the liberties possible. We were fortunate in a way as our lieutenant could not be on board the same ship with us. But our major was in command of our train and made things as pleasant as could be.

It is certainly a wonderful sight to see so much water, after leaving dear old New Mexico where it hasn't even rained for two years, when we boys leave home.

It would be quite a sight for you to see so many of the boys sitting around writing to their loved ones at home. Well, as the old ship is rocking and the light is poor I will close. Tell all the (boys and) girls hello and I am on my way over there. Your next letter from me I will be over there. In your next letter to me let me know if you got my box from Camp Jacksonville. Tell Willie and Ruby to be sure and write me. I expect we will land in a day or two; been aboard 5 days tonight.

Hello Olen.

SGT. LEO C. BRALEY,
Motor Truck Company 508
Motor Supply Train 423
American Expeditionary Forces
France, via New York

District court convened Monday of this week. Both juries were dismissed for the term and one court case tried. The term was continued on the advice of the county health officer on account of the danger incident to the influenza epidemic that is sweeping the country.

Local Examiner Praised

October 11, 1918. — Dear Sir: The official record of rejections at camp for physical defects, covering the period from February 10th, 1918, shows that the state of New Mexico had the lowest percentage of rejections of all the states but one, during said period. I am pleased to convey to you directly this information as a matter of proof of the efficiency of your work. To you are due the thanks of the people of this state for your very efficient service, and I am extending same to you as its official head.

Respectfully yours,
W. E. LINDSEY, Governor.

Dr. N. F. Wollard,
Medical Examiner, Local Board,
Roosevelt County, New Mexico.

Mrs. S. F. Culberson, formerly county superintendent of schools, was here from Fort Sumner this week. She informed the Journal man that her grandson, Lieutenant Frank Culberson had landed safely in France.

French Sugar Mills Destroyed

France must import sugar today, most of it from this side of the ocean, because the largest portion of French sugar beet land is in German hands. As a result, the French people have been placed on a sugar ration of about 18 pounds a year for domestic use; a pound and a half a month. This photograph shows how the German

troops destroyed French sugar mills. Thanks to the French rationing system the annual consumption has been cut to 600,000 tons, according to reports reaching the United States Food Administration. Before the war France had an average sugar crop of about 750,000 tons of sugar and had some left over for export.

FLAT BUILDINGS PROVE POPULAR

Multiple Dwelling Offers Solution of Housing Problems.

ECONOMY IN CONSTRUCTION

Through Use of Concealed Beds It is Possible to Make Three Rooms Perform the Service of Five and Some of Six.

By WILLIAM A. RADFORD.

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1827 Prairie Avenue, Chicago, Ill., and only enclose three-cent stamp for reply.

In developing plans for industrial housing projects one of the greatest problems confronting the building committees and architects is to decide what type of building will best suit conditions and meet requirements. Each type of house has its particular advantages and the decision is largely governed by climatic conditions, class of workmen catered to, proximity to large cities and the facilities for transportation.

Heretofore the detached house has generally been conceded the most satisfactory solution to the problem, but after a careful survey of the situation throughout the country are rapidly awakening to the fact that the multiple dwelling or apartment building possesses many advantages over the single house.

In the multiple dwelling a number of families are housed under one roof. The number of apartments in each

building, but when it comes to the floor plan no idea should be overlooked which will economize space or save housework. It costs no more to build from a good plan than it does from a poor one. In fact, poor layouts are often more expensive.

In building for industrial purposes it is absolutely necessary to keep the building costs down as low as possible, whether the apartments are to be rented or sold outright. The average workman is a man with a family of from three to five, consequently maximum sleeping accommodations must be provided without materially increasing the cost of the building. In carrying out the modern ideas of efficiency, all unnecessary rooms must be dispensed with entirely.

The accompanying floor plans are for buildings for four or six families each (depending on whether two or three

Plan No. 2—Four-Room Apartment With Six-Room Accommodations.

stories high), and the striking feature of each building is the vast saving of space effected by eliminating bedrooms.

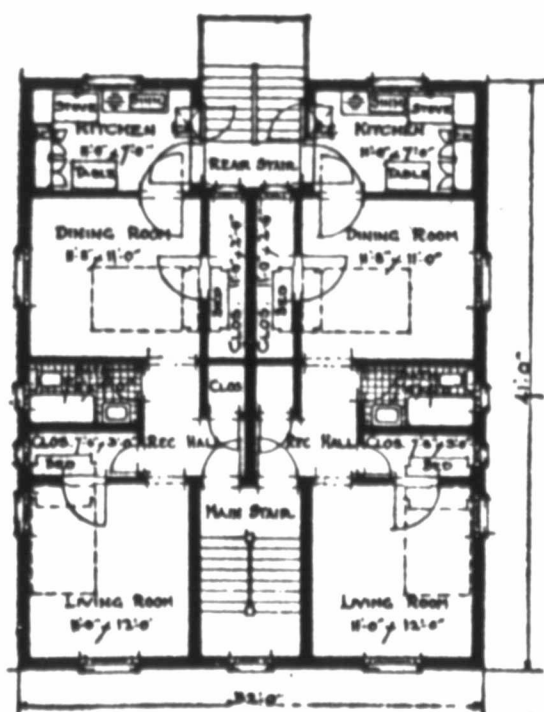

Plan No. 1 is for a building only 32 feet wide and 41 feet long, and can be built on a lot only 40 feet wide, yet

Building varies to meet conditions. Some communities find the four-family house more successful, some the six-family and others find the larger buildings, housing from eight to twenty-four families, best suited to their needs. At this time we will discuss the smaller buildings containing four to six apartments each. The advantages of this type of building are worthy of much consideration.

Construction Costs Reduced.

First of all, construction costs are greatly reduced by housing a number of families under one roof. On ac-

Plan No. 1—Three-Room Apartment With Five-Room Accommodations.

count of the party walls, less material is required and a big saving is also effected in plumbing, roofing, painting and excavating.

Next comes the saving of ground. By building multiple dwellings more families can be accommodated on a given ground space, thereby overcoming any lack of transportation, as more concentration is made possible and it is not necessary to spread the industrial cities over so much territory.

In order to make the small apartment building a distinct success, the most important thing to consider is the floor plan of the apartments. An elaborate elevation is entirely unnecessary and only adds to the cost of the

there are two apartments on each floor, each apartment having sleeping accommodations for four people. These are really the old-style five-room apartments "billed down," so to speak, to the modern "efficiency" apartments of three rooms. The two bedrooms of the five-room apartment are completely eliminated by concealed beds, which convert the living and dining rooms into sleeping rooms at night. During the day we have the same living room, dining room and kitchen as the old-style five-room apartment. At night we have a kitchen and two large, airy sleeping rooms. Each room has a private access to the bathroom. This plan is used successfully in many sections of the country and is much more efficient than the old plan of eliminating the dining room, compelling the housewife to serve meals in the kitchen.

Sometimes it is advisable to have at least one regular bedroom. In such instances a plan such as No. 2 is used. This plan is for a building 34 feet by 42 feet and represents the old style six-room apartment with two bedrooms eliminated, reducing it to four rooms. In addition to the living room, dining room and kitchen there is one bedroom. Otherwise the same ideas contained in plan No. 1 are carried out.

Eliminating Bedrooms Economy.
Great economy in construction, furnishing and housework is gained by eliminating as many bedrooms as possible and making the living and dining rooms do double duty, serving as bedrooms at night when they are no longer needed for other purposes.

Concealed beds have been used successfully for many years in high-grade apartments and residences, but only in the last two years have their advantages been recognized in connection with industrial housing.

A full size, all metal bed, sanitary in every respect, is concealed in an ordinary clothes closet behind a door only three feet wide. The operation of the bed does not interfere in any way with the closet for clothes-hanging purposes. The expense of installing these beds is but a small fraction of the cost of a bedroom. Closets must be provided anyway, and it is simply a question of planning and arranging these closets properly to receive the beds.

CHATEAU THIERRY PEOPLE GREET THEIR LIBERATORS

In this, one of the first pictures to reach this country of the battle of Chateau Thierry, are shown some inhabitants of the town who remained during the German occupation walking through the destroyed streets to meet the American soldiers.

WILL MAKE BRITON CHEER

Bombing of Berlin and Defeat of Hun Navy May Break Their Calm.

London.—The Englishman's pride in being calm and undemonstrative in the face of good news from the front has been a great mystery to American officers, one of whom has gotten from a British brigadier general enlightenment as to what is worth cheering for. "There are two events which, when

they come to pass, will make us throw our hats in the air and smile as loudly as you please," the general said. "The bombing of Berlin and the coming out of the German navy."

Fooling the Cooties.

Mansfield, O.—"It is the fashion here to have your hair clipped and then have your head shaved," writes Darrel, youngest of the three sons Charles M. Nichols has at the western front fighting against the Huns. "As I have not allowed myself to

fall behind the styles, my head looks like an egg," Darrel continued.

Owes Life to Button.

Mansfield, O.—The breaking of a collar button in his shirt saved Leslie Stagers from death. He was at work on a drill press in an electrical plant here when his clothing caught on some machinery in such a way as to tighten his collar. He was rapidly choking to death when the button broke, releasing him. His shirt and underclothing were torn from him.

"Cannon Fodder."

"At Belleau, with three of my men, we ran into a bunch of twenty Germans. They shouted 'Kamerad!' but changed their minds and began to shoot. We rushed them with bayonets. We brought back two prisoners."

"I know about the prisoners, but did you kill a German yourself?"

"Yes; I killed three, one with my bayonet, which broke; one with the butt of my rifle and one with this trench knife."

"Did they kill any of your men in the close in-fight?"

"No, they can't fight unless they're all together and have machine guns and grenades."—A Serbian Sergeant to Don Martin.

Catarrhal Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are cured by Catarrh, which is an inflamed condition of the Mucous Surfaces. ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists 75c. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

Quite a Difference.

Bill Bashem was not a safe person to deal with. On the contrary, he dealt with safes; but the lady visitor to the slums was not to know this. "So," she said to Bill's little son, "they've put your father away for safe keeping?" "Nah! For safe-breakin'!" replied the grubby one, with a wink.

A wise man knows all he tells, but he never tells all he knows.

A DEMOCRATIC NEWSPAPER

This paper has enlisted with the government in the cause of America for the period of the war.....

LODGE'S BONEHEAD

For some time past the Republican press of the state has been holding up to the voters of New Mexico the records of Senators Fall and Lodge, contending that they were the real prop of the president, and that without their support he would have been unable to get the legislation needed for the prosecution of the war. This sounded good to the average American who does not follow closely the acts of his representatives in congress. Had the contentions of this Republican press been well founded, and had Messrs Fall and Lodge always stood manfully and loyally behind their president and the government, in which they seem to have such a great love then, indeed, would they have just cause for preening themselves in the public view. The facts, however, do not bear out their fame. The expected plaudits from a grateful nation may not be theirs. Last week the president addressed a reply to the camouflaged peace offerings tendered by the Hun. France, England and the thinkers of the world, vied with each other in praising that reply as a master stroke of diplomacy. Did Mr. Lodge join with the allied nations in praising that document? Not so as you could notice it. Instead he used the time of the senate in heaping abuse and ridicule upon that message. It is a peculiar circumstance that the document referred to received such an ovation among the allied nations of the world, and also from patriotic people of America, yet failed to hold any attractions for Mr. Lodge. He, alone of all the petty trouble makers in the United States senate, raised his voice in denunciation. Is his the master mind, the all wise, like the Kaiser, enjoying a co-partnership with the deity, he und Gott? Forget it, draw the mantle of charity over this bonehead. Forget that there are such men as Fall and Lodge. Use your time in helping Wilson to win this war. Remember your duty in sending only such men to congress as will hold up the hands of the president. We can eliminate one of those gentlemen. Let's attend to that and forget Lodge, leaving him to the tender mercies of his own constituency.

SECTIONAL LINES

The Santa Fe New Mexican is making a desperate effort to resurrect the sectional strife and bitterness occasioned by the civil war, and which the present war has obliterated. Happily, this may not be. The efforts of the New Mexican will bear no fruit.

Mason's and Dixon's line exists only as a bad dream. The soldier boys of the south and the khaki clad sons of the north are fighting side by side, are falling side by side. Their life's blood is flowing just as freely and just as copiously as is the life blood of the boy from the north. They are fighting a common war, against a common enemy, and are equally as valiant and patriotic. The New Mexican offers insult to every American citizen when it attempts to stir up the buried hatreds of the civil war. Why should a northern Republican be any more patriotic than a southern Democrat. The attempt of the New Mexican constitutes one of the dirtiest pieces of political chicanery thus far attempted in the campaign, yet this same paper had much to say about political hypocrisy. If the attempt of the New Mexican is condoned by the Republican office seekers, or the Republican state central committee, then that alone is enough to warrant every decent American in fighting that party

to the last ditch. Talk about German propaganda, he who would resurrect the bitterness and the hatred of the past, simply for a little political advantage would not balk at any of the crimes committed by the Hun or the German high command.

It is a peculiar coincident that the reply of President Wilson to the German peace proposal not only aroused the ire of Senator Lodge but also caused the resignation of Ludendorf, the German general.

PUBLISHER'S STATEMENT

of ownership, management, etc., of the weekly Portales Journal, required by the act of congress of August 24, 1912, for October 1, 1918:
State of New Mexico,
County of Roosevelt.
Before me, a notary public in and for the state and county aforesaid, personally appeared H. B. Ryther who, having been duly sworn according to law, deposed and says that he is the editor, managing editor, and business editor of the Portales Journal, published weekly in Portales, Roosevelt county, New Mexico, by the Portales Publishing Company, G. L. Reese, president, and A. F. Jones, secretary, that the bondholders and other security holders holding 1 per cent or more of the ownership are G. L. Reese, Jim P. Reese, J. B. Priddy, A. F. Jones, G. M. Williamson, P. E. Jordan.
H. B. RYTHUR.
Subscribed and sworn to before me this 11th day of October, 1918.
JAMES A. HALL, Notary Public.
My commission expires December 19, 1918.

015548
Department of the Interior, U. S. Land Office at Fort Sumner, N. M., Oct. 4th, 1918.
Notice is hereby given that Charles L. Gunn, of Upton, N. M., who on May 15th, 1918, made additional homestead entry No. 015548, for north half southwest quarter, section 5, township 2 south, range 31 east, N. M. P. Meridian, has filed notice of intention to make final proof, to establish claim to the land above described, before R. H. Grassom, in his office, at Eлда, N. M., on the 14th day of November, 1918.
Claimant names as witnesses:
W. L. George, William H. Cook, Volney E. Newman, Gur Ford, all of Upton, N. M.
W. R. MCGILL, Register.

NOTICE OF SUIT

IN THE DISTRICT COURT OF ROOSEVELT COUNTY, STATE OF NEW MEXICO.
N. B. Chatelle, Plaintiff,
vs.
Charles W. Bence and Mary H. Bence, and all unknown heirs of the said Charles W. Bence and Mary H. Bence or of either of them, Defendants.
No. 1425.

The State of New Mexico to Charles W. Bence and Mary H. Bence, and all unknown heirs of the said Charles W. Bence and Mary H. Bence, or of either of them, GREETING:
You are notified that suit has been commenced in the District Court of Roosevelt County, New Mexico, numbered and entitled as above, wherein N. B. Chatelle is the plaintiff, and you are the defendants; that the general objects of said suit are to foreclose a mortgage deed against the southwest quarter of section twenty nine in township three south of range thirty east of the New Mexico Meridian, New Mexico, and for judgment on the promissory note given to secure the same, it being alleged that there is in due on said note the principal sum of \$650.00 with per cent six per cent per annum from April 14, 1916, and ten per cent on the amount thus due as attorney's fees; that unless you appear, plead or answer in said cause on or before the 25th day of November, 1918, you will be adjudged in default and plaintiff will be granted the relief prayed.
The attorney for plaintiff is James A. Hall and his business address is Portales, New Mexico.
Witness my hand and the seal of court at Portales, New Mexico, this 9th day of October, 1918.
[seal] SETH A. MORRISON, County Clerk.

NOTICE OF PENDENCY OF SUIT

The state of New Mexico to Oval Keen and El Paso Bank and Trust company, defendants, greeting:
You are hereby notified that a suit has been filed against you in the district court of the Fifth judicial district of the state of New Mexico, in and for Roosevelt county, wherein J. B. Sledge is plaintiff and you, the said Oval Keen and El Paso Bank and Trust company, are defendants, said cause being numbered 1322 upon the civil docket of said court, that the general objects of said action are as follows: The plaintiff sues the defendant, Oval Keen, for the sum of five hundred fifty four and ninety five one hundredths dollars (\$554.95) for goods, wares and chattels, furniture and other improvements of whatsoever description, located upon the ranch known as the Keen ranch in Roosevelt county, New Mexico, and lease hold interests of the Keen Cattle company, or Oval Keen, and all other property, fixtures and personal effects belonging to the defendants, has been attached in said action, it being alleged that the defendant, El Paso Bank and Trust company, claims some interest in said attached property, and you are further notified that your money and effects have been garnished in the hands of Ursi Keen and T. L. Keen. You are further notified that unless you appear in said cause on or before the 19th day of October, 1918, judgment will be rendered against you and said garnishees, and your money applied, and your effects will be disposed of as provided by law, to pay said judgment. You are further notified that George L. Reese is attorney for the plaintiff and that his post office address is Portales, New Mexico.
Witness my hand and the seal of said court on this 5th day of Sept., 1918.
S6-27 [SEAL] SETH A. MORRISON, Clerk.

Notice of Foreclosure Sale

Whereas, on the 5th day of June, 1918, in cause numbered 1362, civil, pending in the district court of the Fifth judicial district of the state of New Mexico, in and for Roosevelt County, wherein J. C. Meredith is plaintiff and Lyda Caddell, Lydia Caddell and Woodrow Caddell are defendants, the plaintiff recovered a judgment upon a promissory note and a mortgage given for its security against the defendant, Lyda Caddell, for the sum of \$1264.37 with all costs of suit, and at said time in said cause recovered a decree of the court foreclosing said mortgage given for the security of said sum against all said defendants, upon the following described real estate, to-wit:
The southwest quarter of section twenty-seven and the northwest quarter of section thirty-four all in township two north of range thirty east of the New Mexico Meridian, New Mexico, with all improvements thereon, said decree declaring plaintiff's said mortgage a first and prior lien upon said described premises and real estate, and superior to any claims of the defendants.
Said judgment at the date of the sale hereinafter mentioned will amount to the sum of \$1264.37, together with costs of suit, and whereas, at said time, the undersigned, Ben Smith, was appointed by the court special commissioner and directed to advertise and sell said property according to law, to satisfy said judgment and costs;
Therefore, by virtue of said judgment and decree and the power vested in me as such special commissioner I will, on the 23rd day of October, 1918, at the hour of two o'clock, P. M. of said day, at the northeast front door of the court house, in the town of Portales, New Mexico, sell said described property, at public vendue, to the highest bidder for cash, for the purpose of satisfying said judgment, interest, and costs of suit.
Witness my hand this the 19th day of September, 1918.
BEN SMITH, Special Commissioner.

It's Poor Economy to Endure a Bad Back

In these days of rising prices, we need every ounce of strength and the ability to do a full day's work every day. The man or woman with weak kidneys is half crippled. Sore, aching kidneys; lame, stiff back, headache, dizzy spells and a dull, tired feeling and urinary disorders are daily sources of distress. You can't afford to neglect kidney weakness and make it easy for gravel, dropsy or Bright's disease to take you. Get a box of Doan's Kidney Pills today. They have helped thousands. They should help you.

Personal Reports of Real Cases

AN OKLAHOMA CASE.

Otto Besse, city fireman, 306 McAlester, Okla., says: "I have used Doan's Kidney Pills for three years and they have always removed any attacks of kidney disorder and kept my kidneys in good shape. Before using this medicine I was able to get but little help from severe attacks of kidney trouble. I had dull pains and soreness in my back that would tire me out, and my kidneys acted too frequently especially at night. Doan's Kidney Pills proved to be the best medicine for this trouble. I always recommend them to anyone I hear complaining of kidney disorder."

AN OKLAHOMA CASE.

Mrs. J. W. Randolph, 512 E. Broadway, Enid, Okla., says: "For years I suffered from gravel and used all kinds of remedies without success. Once I was laid up for several weeks and the misery and pain I endured was awful. A friend, knowing my condition, recommended Doan's Kidney Pills and I used eight boxes. The gravel stones were dissolved and passed off and the pains were relieved. The cure Doan's Kidney Pills gave me has proven permanent for years. I have endorsed this remedy before and my statement still holds good."

CHRONIC CONSTIPATION IS A CRIME AGAINST NATURE

Stop it or you never can keep well. If you wake with a bad taste in the mouth, coated tongue, perhaps headache, your liver is torpid. A torpid liver deranges the whole system, produces dyspepsia, costiveness and piles. There is no better remedy for these disorders than DR. TUTT'S LIVER PILLS. Try them just once and be eternally convinced. For sale by all druggists.

Dr. Tutt's Liver Pills

ALLY SEEMED ONLY WAY

Smith's Idea Was Bright Enough if the Horse Would Only Do His Part in the Game.

John Smith bought a horse. The first Sunday after the purchase he and his bosom pal harnessed the horse to a trap and went into the country on a fishing trip. At the shore of the lake they unharnessed the horse, and let it loose while they fished.

Presently the sun began to go down, and Smith and pal decided to get ready for the return journey. They caught the horse, and Smith began to harness it. But here they met a difficulty. The horse wouldn't open its mouth for it.

They tried every means they could think of, but still the stubborn animal stood with closed mouth, placidly watching them.

At last Smith sat on the ground and began to tell jokes—horrible, mother-eaten jokes, that Adam would have thought chestnuts.

"What on earth are you doing?" asked Smith's pal.

"Trying to get the beast to yawn," said Smith.

Milk and Water.

Bilkins had bought his cow now about a week, and asked a friend over to give his opinion on the purchase.

The visitor arrived, and was shown into a room to wait, and commenced chatting to Bilkins, Jr.

"How much milk does your cow give a day?"

"Bout eight quarts, sir."

"And how much of that do you sell?"

"Bout twelve quarts, sir."

Collapse of Bilkins, coming in the door.

Not a Line Officer.

"I thought you told me June married an officer." "So she did. He's president of the Boon Powder works."

Happy's the woman who can make home so clublike that her husband doesn't care to leave it.

Problem for Home.

"Good morning, children," said the arithmetic teacher. "How many of you have prepared an original problem in multiplication as I requested?" Only one hand went up.

"Well, William, you may give your problem and the rest of the class may solve it."

"If my baby sister is a year old now and weighs 20 pounds, and keeps on gaining two ounces a day until she is sixteen years old, and if the price of living doubles again in the next ten years how much will my sister's graduation outfit cost? Mother says she would like to know."—Rehoboth Sunday Herald.

FRECKLES

Now is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

More "U" Boat Victims.

"And this," said the keeper, "is what we call 'Inventors' row.'"

"I see," replied the visitor. "All the poor lunatics in this ward tried to invent something."

"That's right. There are eighty patients in these padded cells and every one of them has a different solution of the submarine problem."—Birmingham Age-Herald.

The KITCHEN CABINET

If our America is to become ever greater and better, her citizens must be loyal, devotedly faithful, in every relation of life.—W. J. Hutchins.

GOOD WARTIME DISHES.

We cannot say that we are doing our part in food saving and serving unless we waste absolutely nothing. Not a crumb of bread should be wasted. The crumbs that fall from the bread board in cutting bread will amount to at least a teaspoonful from a few slices. Put them in chopped meat, in puddings, in gravies for thickening instead of wheat flour. Any number of uses will occur to the cook who is trying to save.

Veal Sweetbreads.—Sweetbreads spoil quickly and should be used as soon as possible. Plunge them into cold water and let stand an hour, changing the water twice. Put them to cook in slightly salted acidulated water, boiling hot. Cook for thirty minutes rather slowly. Drain, plunge into cold water which keeps them white and firm. Now they may be used in various ways.

Liver.—Parboil one pound of beef liver five minutes. Drain. Remove the skin and veins, then brown in a little hot fat, chop, add a fourth of a teaspoonful of mustard, a teaspoonful of salt, a few dashes of pepper, a fourth of a teaspoonful of Worcestershire sauce and thicken with a teaspoonful each of butter and flour. Add a hard cooked egg and a teaspoonful of lemon juice. Serve on corn dodgers.

Brown Stew.—This is a good dish to make a little meat go a long way. Cut a pound of the neck of a beef in inch cubes, season, dredge with flour, brown in fat, then add potato water to cover. When it boils up set it back and let it simmer slowly for three hours. Three-quarters of an hour before the end of the cooking, add carrots and turnips cut in cubes; a half hour before serving add potatoes. Three-fourths or a cupful of each vegetable will be a good proportion.

Don't you wish that you might see Spring peep out behind each tree? Don't you wish that you might hear all the brooklets shouting clear?

GOOD THINGS WITH BARLEY FLOUR.

In many of the darker cakes, using spices, molasses and chocolate, barley flour may be used exclusively in place of the wheat flour.

Sponge Barley Flour Cake.—Beat four egg yolks very light, add one cupful of sugar, beating it in gradually. Then add a table-

spoonful of hot water, a cupful of barley flour mixed and sifted with one and a half teaspoonfuls of baking powder, a fourth of a teaspoonful of salt and a teaspoonful of lemon juice. Fold in the egg whites, beaten stiff, and bake in a slow oven 15 minutes.

Plain Barley Cake.—Sift one and a half teaspoonfuls of baking powder with two cupfuls of flour, a pinch of salt. Cream a fourth of a cupful of fat, add three-fourths of a cupful of corn sirup, a beaten egg, two-thirds of a cupful of milk added alternately with the flour and well beaten. Add a cupful or less of raisins well floured and stirred into the cake. Pour into a shallow pan and bake 20 minutes.

Barley and Oatmeal Drop Cakes.—Take a cupful of barley flour, one and a fourth cupfuls of rolled oats that have been well parched and put through the meat grinder, a half a cupful of fat, one-fourth of a cupful of brown sugar, the same of corn sirup, one egg, three tablespoonfuls of water, two teaspoonfuls of baking powder, with a teaspoonful of salt mixed with the flour, and lastly a half-cupful of nuts.

Barley Pie Crust.—Prepare the pastry just as usual, using barley flour instead of wheat. It will be a little harder to handle but will be tender and flaky. A most dainty pie can be made of custard, using three or four marshmallows to sweeten, and two or three teaspoonfuls of coconut stirred into the meringue instead of the sugar, which does away with using sugar.

Barley Cakes.—Take two cupfuls of barley flour, three teaspoonfuls of baking powder, a half teaspoonful of salt, sifted together. Cream a fourth of a cupful of fat with three-fourths of a cupful of sugar, add a half cupful of milk and three-fourths of a cupful of nut meats. Drop on well-greased pans and bake in a moderate oven.

AN ATTACK OF GRIP USUALLY LEAVES KIDNEYS IN WEAKENED CONDITION

Doctors in all parts of the country have been kept busy with the epidemic of grip which has visited so many homes. The symptoms of grip this year are often very distressing and leave the system in a run-down condition, particularly the kidneys which seem to suffer most, as almost every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to dangerous kidney troubles. Druggists report a large sale on Dr. Kilmer's Swamp-Root which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root, being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed in most cases by those who try it. Dr. Kilmer & Co., Binghamton, N. Y., offer to send a sample size bottle of Swamp-Root, on receipt of ten cents, to every sufferer who requests it. A trial will convince anyone who may be in need of it. Regular medium and large size bottles, for sale at all druggists. Be sure to mention this paper.—Adv.

Recruiters Please Notice.

In our city they were recruiting a battalion of short men known as the "Bantams."

One day our little four-year-old soldier came in complaining of tiredness. When asked what he had been doing he said, "I've been recruiting all day."

"Which battalion are you recruiting for?" he was asked.

"The Bantams," he replied.

"How many did you get?" was the next query.

"Oh," he said with a little sigh of weariness. "I recruited 500 bantams and one rooster!"—Canadian.

His Retort.
She—Do you believe in spells?
He (tenderly)—No, but I do in witches.

When a young man begins to spout hot air it's up to the wise girl to turn on a cold wave.

REMINGTON UMC

Wetproof Steel Lined Shot Shells

MAKE your showery hunting days this Fall the good days for ducks they really ought to be, with the right shotshells—Remington UMC Smokeless "Arrow" or "Nitro Club" Wetproof Steel Lined "Speed Shells." No matter how much water may get to them, they will actually stay just as dry and serviceable as your Remington UMC Pump Gun or Autoloading Shotgun.

Those finest of shoal-water fowl, the big mallards—which you can seldom get with-in gunshot of when it is calm and fair—are then not so quick to take wing. But your shells must be right. Hunting has no worse luck than a water-soaked shell that has swelled and sticks in the gun at a critical moment—to say nothing of a "miss" caused by wilting of the turned-over end of the shell.

Remington UMC Smokeless "Arrow" and "Nitro Club" Wetproof Steel Lined "Speed Shells" are made waterproof by a wonderful process, invented for them and used exclusively in their manufacture.

It took three years to perfect this process. The result is a shell that will work and shoot right throughout an all-day downpour—keeps hard and smooth with no softening of the turned-over end or bulging of the top wad in the wettest coat pocket.

You buy the same favorite brand, at the regular price, and get the Wetproof improvement without cost. The first completely waterproof shotshell, at the same time having the uniform superiority of speed, pattern and penetration for which Remington UMC "Arrow" and "Nitro Club" Steel Lined "Speed Shells" are famous.

In black powder, buy the old reliable "New Club," now Wetproof sealed at turnover and top wad.

WOOLWORTH BUILDING NEW YORK CITY

shall not be shut off, and such addition shall be so arranged that it may be heated from the heating plant supplying the present Capitol Building and such addition shall be connected with the present Capitol Building on the ground floor by a passageway properly constructed according to the plans and specifications of the architect, and said addition shall be as near fireproof as it is possible to make it, and when completed shall be occupied by the State Library, State Supreme Court and all offices connected therewith, and the Attorney General.

Sec. 12. The said commission shall have full power and authority to do any and all acts deemed necessary and proper in and about the construction of said building, the determination, and adoption of plans therefor and the arrangement thereof, and shall draw its voucher in the proper form for the payment of all indebtedness contracted in and about said work and building on the State Auditor, and the State Auditor shall draw his warrant on the State Treasurer for the payment, and the State Treasurer shall pay the same on presentation thereof out of the funds realized from the sale of said bonds hereby authorized.

Sec. 13. The members of such commission shall qualify by taking the oath required by other state officers and shall hold their offices until the completion of said addition unless removed, for cause, by the Governor, and in case any vacancy shall occur in such commission, the Governor of the state shall fill such vacancy in the same manner as other vacancies in state offices are filled. When such building is completed the architect employed by such commission shall file with the Secretary of State copies of the plans and specifications for said building; and when said building is completed, it shall be inspected by the Governor, State Auditor and State Treasurer, and if found to be in accordance with the plans and specifications, it shall be accepted.

Sec. 14. This act shall be submitted to the people of the state of New Mexico for their ratification at the next general election to be held the month of November, A. D. 1918; and all ballots at said election shall have printed thereon and at the end thereof the words "For the Capitol Addition Bond Issue, and in a separate line under the same, the words "Against the Capitol Addition Bond Issue." Opposite said lines there shall be a square in which the voters may make or stamp a cross to indicate whether they vote for or against this act and said bond issue, and those voting for this act and said bond issue shall do so by placing a cross in the square opposite the words "For the Capitol Addition Bond Issue," and those voting against the said bond issue shall do so by placing a cross in the square opposite the words "Against the Capitol Addition Bond Issue."

Sec. 15. The votes cast for or against said bond issue shall be counted, returned, canvassed and subject to the same rules as votes cast for state officers, and, if it appears that this act shall have received a majority of all the votes cast for and against it at such election aforesaid, then the same shall go into effect upon publication of the certificate of the Secretary of State declaring the result of the vote thereon.

Sec. 16. It shall be the duty of the Secretary of State to have this act published once a week in one newspaper in each county, if one be published therein, throughout the month of November, A. D. 1917, for four weeks next preceding the general election to be held the month of November, A. D. 1918; the cost of publication shall be paid out of the interest on deposits in the hands of the State Treasurer.

Sec. 17. All acts and parts of acts in conflict with the provisions of this act are hereby repealed.

The publication of this act has been ordered by me as Secretary of State in accordance with Section 16 of this act.

ANTONIO LUCERO
Secretary of State

CHAPTER 103, LAWS of 1917

An Act authorizing the construction of an addition to the Capitol Building at Santa Fe, New Mexico, making an appropriation therefor and providing bonded indebtedness for the payment of the same, and to create a commission with authority to construct and complete such addition. Committee Sub. for H. B. No. 56; approved March 13, 1917.

Be it enacted by the Legislature of the State of New Mexico:

Section 1. That for the purpose of constructing and completing an addition to the present Capitol Building at Santa Fe, New Mexico, the Governor shall appoint three reputable citizens of New Mexico, not more than two of whom shall belong to the same political party, as a commission, with full power and authority to employ an architect, and to let contracts for the erection of such building to the lowest and best responsible bidder, upon thirty days published notice, letting the same in one entire contract, or portions thereof to different contractors, as in the judgment of the commission may be most advisable.

Sec. 2. It shall be unlawful for any member of such commission to become or be, directly or indirectly, interested in any contract so let, or to make any profit, directly or indirectly, out of any such contract; or to furnish or supply, directly or indirectly, any labor, material or other commodity used in and about completing any such contract or contracts. The members of such commissions shall be paid their actual and necessary expenses incurred by them in and about such work, but shall receive no further, other or additional compensation.

Sec. 3. There is hereby appropriated out of the state treasury the sum of two hundred thousand (\$200,000) dollars, or so much thereof as may be necessary for the purpose of paying for the construction and completion of said building, said fund to be available upon the sale of the bonds hereinafter provided for.

Sec. 4. For the purpose of providing funds for the erection of said addition to the Capitol Building, there is hereby authorized and created a bonded indebtedness of the State of New

Mexico in the sum of two hundred thousand (\$200,000) dollars, and there shall be issued two hundred (200) bonds of the denomination of one thousand (\$1,000) dollars each. Said bonds shall bear interest at the rate of four and one-half per cent per annum, which said interest shall be payable semi-annually in gold coin, or its equivalent in lawful money of the United States, on the first day of July and the first day of January of each year at the office of the State Treasurer of the State of New Mexico. The principal of said bonds shall be made payable to the bearer in gold coin, or its equivalent in lawful money of the United States, thirty years after their date, and it shall be provided by said bonds that they may be redeemed at the option of the state at any time after ten years from their date. The said bonds shall state when and where payable, rate of interest, and when and where the interest shall be payable, and shall be signed by the Treasurer and Governor, and shall be attested by the Secretary of State and bear the seal of the state and shall be known as the "Capitol Addition Building Bonds." The faith and credit of the state is hereby pledged for the prompt payment of said bonds and interest thereon as herein provided. If the state shall elect to exercise its right to redeem any of said bonds after ten years from their date, and in advance of maturity, notice thereof shall be given by publication by the state Treasurer, in a newspaper published in Santa Fe, New Mexico, once a week for four successive weeks next prior to the date fixed for redemption, and if a bond so called for redemption be not presented at the time requested it shall cease to bear interest from and after the date so fixed for redemption.

Sec. 5. Interest coupons shall be attached to the said bonds and the said coupons shall be consecutively numbered and shall specify the number of the bond to which they are attached, and shall be attested by the lithographed or engraved facsimile signature of the State Treasurer.

Sec. 6. The State Treasurer, when the bonds authorized by this act to be issued, shall have been signed, countersigned, endorsed and sealed as in

this act provided, shall sell the same to the highest and best bidder, for cash, upon sealed bids, at not less than par and accrued interest. Notice of such proposed sale shall be given by the State Treasurer, by publication inviting sealed proposals thereon, at a day and hour stated therein, which said notice shall be published once a week for three weeks in some newspaper published in the State of New Mexico, and a like notice published in some financial journal in the City of New York; the last insertion of such notice shall be made not less than seven days before such date so fixed for such sale.

Sec. 7. Seventy-five (75) of said bonds shall bear date the 30th day of November, 1918, and seventy-five (75) of said bonds shall bear date the 31st day of May, 1919 and fifty (50) of said bonds shall bear date December 31st 1919. All of said bonds shall be sold at the same time and shall be issued and delivered at the times and in the amounts as specified in this act, and the proceeds realized from the sale of said bonds shall be turned over to the State Treasurer to be kept by him in a separate fund for the purpose of the construction, furnishing, equipping and completing said Capitol Building Addition.

Sec. 8. That to pay the interest on said bonds as it shall become due, the State Auditor and the State Treasurer shall transfer to the interest fund, which shall be used exclusively for such purpose, all the income derived from lands belonging to the state which were granted to the state by Act of Congress, entitled "An Act to enable the people of New Mexico to form a Constitution and state government and be admitted into the Union on an equal footing with the original states, approved June 20th, 1910," "For Legislative, Executive and Judicial public buildings heretofore erected in said Territory, or to be hereafter erected in the proposed states, and for the payment of the bonds heretofore or hereafter issued therefor," which said income shall be applied toward the liquidation of the interest on said bonds, and to create a sinking fund for payment of the principal thereof.

Sec. 9. To provide for the payment

of the interest on the bonds issued pursuant to this act there shall be and there is hereby imposed and levied during each year any of said bonds shall be outstanding on all property in the state subject to taxation for state purposes, an annual tax sufficient to produce a sum equal to one year's interest on all such bonds then outstanding, less the amount in the state treasury received by way of income, from the land belonging to the state granted by Act of Congress as stated in Section 8 hereof; and to provide a sinking fund for the payment of the principal of said bonds the State Treasurer shall retain and use for such purpose all the proceeds derived from the sale of the land so granted to the state for the purpose in this act stated, which said proceeds, or so much thereof as may be necessary, shall be applied exclusively towards the payment of the principal of the bonds authorized by this act; and to further provide for a sinking fund for the redemption of said bonds there shall be and there is hereby imposed and levied during each year after any of said bonds shall have run for ten years after the date thereof, during each year any said bonds are outstanding an annual tax on all property in the state subject to taxation for state purposes sufficient in addition to moneys derived from the sale of said lands and held for such purpose, to pay the principal of the said bonds at maturity.

Sec. 10. That the taxes for the payment of the interest and ultimate redemption and payment of said bonds, shall be levied and collected at the same time and in the same manner as other taxes are levied and collected in the state for other purposes, which funds provided for the redemption of said bonds shall be kept separate in a fund for that purpose by the State Treasurer.

Sec. 11. The said Capitol Building Addition shall be not less than two stories high, not less than one hundred and fifty feet long and seventy-five feet wide, and shall be erected at Building, and not more than fifty feet the south end of the present Capitol distant therefrom, and shall be so arranged that the light in the second story of the present Capitol Building

THE VICTORY TICKET.

- For U. S. Senator—W. B. Walton of Grant county.
- For Congress—G. A. Richardson of Chaves county.
- For Governor—Felix Garcia of Rio Arriba county.
- For Lieutenant Governor—Elmer E. Veeder of San Miguel county.
- For Supreme Court—R. H. Hanna of Santa Fe county.
- For Attorney General—T. J. Mabry of Bernalillo county.
- For Secretary of State—Juan J. Duran of Union county.
- For Superintendent of Schools—J. S. Long of Roosevelt county.
- For State Auditor—Marcus C. de Baca of Sandoval county.
- For State Treasurer—T. W. Medley of Socorro county.
- For Land Commissioner—G. A. Davison of Chaves county.
- For Corporation Commissioner—D. J. Finegan of Quay county.

William B. Walton, the Democratic nominee for senator, has voted for every war measure asked by President Wilson and the administration during his service in Congress. A vote for Walton is a vote for the administration, is a vote of confidence in President Wilson. It means that vote from New Mexico will be cast to aid in the earnest prosecution of the war, not to nag the President, as his opponent would do.

Judge Richardson if elected to Congress will vote in the House as Walton will in the Senate; that is, for every war measure which President Wilson asks from Congress to carry on the war. A vote for Richardson is a patriotic vote and a vote of confidence in the President.

Felix Garcia is not a politician but a business man. He has proved that in his careful, sensible handling of the affairs as a member of the state tax commission. He will make the people of the state a business governor. Elmer E. Veeder is one of the best

lawyers in the state and was the legal adviser to the late Governor De Baca. He knows law and parliamentary practice and will make an admirable presiding officer for the Senate.

Seven years on the bench of the state of New Mexico has proven that Richard H. Hanna is a just, a capable and a fearless jurist. There is not a breath of attack on his ability or his integrity. He is a sound lawyer, stands for the rights of the people and has always been fair to labor.

Tom J. Mabry is one of the rising young lawyers of the state and as its attorney general will not be in the hands of any corporate or big business interest. He will construe the law without fear or favor in the interest of the whole people of the state.

Juan J. Duran has made an efficient, active county clerk of Union county. His promotion to the office of secretary of state is logical and he is amply qualified for its exacting and precise clerical duties.

Prof. J. S. Long has been principal of the schools in several cities of the state and also vice president of the New Mexico State Teachers Association. He is an able educator, qualified by training and experience and will take the schools of the state out of politics.

Marcus C. De Baca is a capable business man and has always stood for the best ideals in political affairs in New Mexico. Unlike many other Republicans when De Baca broke away from the party because of the domination of a corrupt Republican machine he broke away for good. He is clean and fearless and competent. His opponent is the brother of the perpetual present auditor of the state. The only way to end the Sargent 20-year dynasty is to vote for De Baca.

T. W. Medley is one of the strong, influential and trusted bankers of the southwest. He knows finances and financial operations thoroughly and is exactly the man to have charge of the disbursements of the state. He is of the same type as his predecessor,

Koy L. Hall, whose service has given complete satisfaction to the people of the state.

George Davison has been in the real estate business and the cattle business in the state for more than a decade. He knows the land business of the state of New Mexico, will safeguard the interests of the state in the disposition of all lands and may be depended upon to so manage the important business of the state land office as to protect the taxpayers and serve the schools and the public.

D. J. Finegan is a railroad man, a representative of union labor, who has made an efficient county officer at Tucumcari and will when elected to the state corporation commission give the Democratic party control and put an end to the weak and insincere policy which has permitted the railroads of the state to dominate the commission and retain a representative of the big railroads of the El Paso district to hold in office as the commission's rate expert one of their former employes, who has always favored them in every controversy.

The most extensive non-voting record which has been made by any member of the United States Senate is that of Albert Bacon Fall, who is asking to be re-elected as a Republican because the nation needs him. If that is true, as his posters say, why has he been absent so much of the time? Would his record be any better in the next six years?

Every candidate on the Victory ticket nominated by the Democratic state convention is a 100 per cent American, for America and Americans.

It is the same old Bursum story of the "burning of the books." They say that C. U. Strong, the treasurer of Mora county, kept his records at his home and unfortunately there was a fire there which destroyed the house and the records of the treasurer's office and now the traveling auditor can't audit his books. Has a familiar sound, doesn't it?

The boys over there are helping Wilson win the war. Help him over here by giving him a vote of confidence when you go to the polls on the 6th of November. A vote for the administration is another bullet fired at Hindenburg and Ludendorff.

Take the GERM out of Germany,
Take the HUN out of Hungary,
Take the BULL out of Bulgaria,
Take the GOBBLE out of Turkey,
That is the way to win the war.
How?
By voting your confidence in Woodrow Wilson.

Commerce and Finance, a dyed in the wool big business paper which opposes the President, says in a recent issue: "An over subscription of the Liberty Loan means the early surrender of Germany, because it will bring her to understand that the wealth of the United States will be unreservedly used to support the rights that she had tried to trample on."

Now, if that sort of thing is true about mere dollars isn't it true about the spirit and the will to win of the American people? Of course it is, so let's read that statement this way:

"An overwhelming vote of confidence in the Wilson administration means the early surrender of Germany because it will bring her to understand that the courage and will of the people of the United States will be unreservedly behind the President to support the rights that she had tried to trample upon."

Helping the Meat and Milk Supply

(Special Information Service, United States Department of Agriculture.)

DO THEY LIKE ICE CREAM? WHY ASK?

This Frozen Dairy Product is One Way of Using Nature's Chosen Food.

DAIRY PRODUCTS ARE OVERLOOKED

Dairymen May Help to Increase Production by Insuring Higher Quality.

KNOWLEDGE OF MILK VALUE

Average Quantity of Milk Used Each Day is Hardly More Than Mouthful—Start Well-Organized Campaign of Education.

Take a big tablespoon. Place in it about three-fourths of an ounce of butter and about one-sixth of an ounce of cheese, together with slightly less than half an ounce of ice cream. Swallow the contents of the spoon, and wash them down with milk of a quantity just under a pint. When you have done this you will have partaken of the daily average portion of dairy products to the inhabitants of the United States, based on the production records of 1917.

"It would be laughable were it not so pitiful," writes a dairy specialist of the U. S. department of agriculture. "Something like a dose of medicine to be gulped down in one dose!"

"American people do not begin to eat enough dairy products for their own good. Let's get together, produce the very best goods possible and then start such a well-organized campaign of education that all may have the correct knowledge of milk value. Remember, it took the farmers to fire 'the shot heard round the world.'"

Nature's Chosen Food.

Mother Nature gave milk and milk products to the world. She supplies milk to the helpless infant, struggling for strength, and as well to the octogenarian, trying to retain or regain it. The value of milk as a producer of health and strength is recognized everywhere, but despite this the quantity of milk and milk products available daily for the average inhabitant of this country would be far less than enough to meet the specifications for a good square meal with round corners.

Granted that some people drink a quart or two of milk every day, use far more than three-fourths of an ounce of butter on their hot biscuits or toast or sweet potatoes or whatnot, eat twenty or more times as much cheese as is coming to them on the basis of averages, and are regular patrons of the ice cream man. They are hardly to be blamed for that. They like milk and its products, and doubtless they never stop to think that they are eating the shares of other people. And they are to be blamed not at all when it is known that the demand for dairy products in this country has never been so continuously great that there has been a lasting shortage in production.

The department of agriculture is engaged not only in encouraging the production of milk and milk products, but their use. It hopes, through this double-barreled campaign, to save more of the meat needed for shipment overseas, and also to make it sure that at the end of the war dairy production and use of dairy products will be greater in this country than ever before.

As an instance, take cottage cheese,

which provides a valuable use for the millions of gallons of skim milk that in past years have been thrown away or fed to animals. In a few months 41,499 persons have been encouraged to take up the manufacture of cottage cheese, and hundreds of thousands have been convinced that they should eat it, not only because it will save meat, but because their palates, their stomachs and their bodies in general will like it.

Not only increased production, but a large part of the task of increasing consumption, rests with the dairymen themselves, says the department of agriculture. Dairymen are advised to maintain their products at the highest standard of quality, so that first buyers will come again and again and never leave the ranks of milk consumers because of dissatisfaction or distrust; to sell their products at neither less nor more than a fair price, but at prices as low as are consistent with quality and reasonable profits; and to advertise, not only the individual business, but the value of milk and milk products to every person, why dairy products are desirable, why the balanced diet demands the growth-promoting elements in milk, why milk cannot be displaced by substitutes, why milk and its products are worth all they cost.

MILK FOR CHILDREN

Don't skim the milk for children. Clean, rich, fresh milk and plenty of it makes them grow. It gives them rosy cheeks, bright eyes, strong bodies, and good brains. Each child can readily use a quart a day. Refuse the children tea and coffee but always give them milk. Encourage them to drink it. Put it on their cereals. Pour it on the toast. Make it into puddings. Mix it into custards. And stir it into soups. Yes, use milk and use it freely. Economize on other foods, but don't economize on milk.

Pasturing Improves Land.

Growing forage crops and grazing them with hogs are very efficient and economical methods of improving run-down land. This statement is based on the opinions and results of a large number of hog raisers and experiment station workers. Practically all the fertilizing elements of the vegetation produced on the land, except that stored in animal bodies, goes back into the soil in the manure and litter. The loss is more than offset where extra grain is fed to the hogs. The only danger of injury to the soil is in the trampling by the animals on heavy clays when they are wet. Such injury is easily avoided where a permanent sod pasture is available.

As one of the great needs of most soils is more vegetable matter, hog grazing offers an opportunity of restoring the exhausted humus without the expense of growing and using green-manuring crops. Another benefit which is usually overlooked comes from the hogs eating the weeds in the pasture fields. There are many common plants, usually classed as weeds, which hogs relish. They frequently clean these up first when turned into a new field. This not only makes good use of a number of waste plants, but also tends to lessen the trouble from these weeds in other crops.

ERADICATION OF CUTWORM MOTHS

Late Fall and Winter Plowing of Grass Lands Will Destroy Their Winter Homes.

HOGS DEVOUR MANY INSECTS

Injury Usually Consists in Cutting Off Plants Just Below Surface and Occurs in Spring — Eggs Are Hatched During Autumn.

(From the United States Department of Agriculture.)

If land that has been in grass for a considerable time and is likely to contain cutworms is to be planted to corn the following spring, it should be plowed in midsummer or early fall, about the time the moths' eggs are laid or, better, before the eggs are laid, for then vegetation which is suitable for the moths to lay their eggs upon is removed. The earlier the preceding year grasslands to be planted to corn are plowed, the less will be the probability that the cutworm moths will have laid their eggs thereon, and the less, consequently, will be the danger of injury by cutworms the following year.

Late fall and winter plowing of grasslands, although not as effective as early plowing, will destroy many of the hibernating cutworms, as well as such other important corn pests as white grubs, and should be practiced when earlier plowing is impracticable.

Insects Are Devoured.

Pasturing hogs upon land supposed to harbor cutworms is a beneficial practice, as these animals root up and devour insects of many kinds, including cutworms, in large numbers. Farm poultry, allowed to follow the plow, is of great value.

When cutworms are found to be abundant on corn land, the use of the poisoned bait is recommended. In

Variegated Cutworm (*Peridroma margaritosa*): a, Moth; b, Normal Form of Caterpillar, Side View; c, Same in Curved Position; d, Dark Form, View of Back; e, Greatly Enlarged Egg, Seen From Side; f, Egg Mass on Twig.

fields known to be infested, the distribution of this bait should be begun as soon as the corn appears above the ground, so that the cutworms may be eliminated as quickly as possible and the injured hills replanted promptly. During the warmer spring months cutworms do most of their feeding at night and burrow into the soil to the depth of an inch or two during the day, so that the bait usually will be more effective if applied during the late afternoon and early evening hours.

Frequently cutworms migrate to cultivated fields from adjoining grassland, and in such cases the crops can be protected by running a narrow band of the poisoned bait around the edge of the field or along the side nearest the source of infestation.

Cutworm injury, which usually consists in the cutting off of the plants

INCREASE NUMBER OF SILOS

More Beef Cattle Can Be Produced and Fed Economically During Winter Season.

(Prepared by the United States Department of Agriculture.)

A silo campaign to increase the number of silos on beef-cattle farms is being conducted by the bureau of animal industry in co-operation with state authorities and county agents. With more silos more beef cattle can be produced and economically fed during the winter. This campaign, therefore, has a direct bearing on increasing the meat supply of the nation. The campaign is being given special attention in the Southern states, particularly in territory which has recently been freed from cattle-tick quarantine, where the production of beef cattle is on the increase.

Provide Grit for Poultry.

Grit is essential to the health of fowls and to economy in feeding. Grit takes the place of teeth in preparing the feed for further digestion, and is

BIGGEST WHEAT YIELD

(Prepared by U. S. Department of Agriculture.)

The greatest wheat yield per acre that has been ascertained by the United States department of agriculture is 117.2 bushels, the average of 18 acres in Island county, Washington, in 1895. The field had been in cultivation for 30 years without any sort of fertilizer, except such as may have been left by crops. The usual production of wheat per acre in that state is 23 to 25 bushels; in the United States, 14 to 16 bushels.

at or a little below the surface of the ground, almost invariably occurs in the spring, beginning as soon as the first plants sprout and continuing until late June or early July, by which time the worms are full grown. The worms feed at night and rest during the day beneath debris or in the soil from one-half to one inch below the surface, and since in most cases they resemble the soil closely in color the cause of the injury often is not apparent. However, if the soil surrounding the cut-off plant be examined carefully, the culprit probably will be found curled up beneath the surface.

Parents of Cutworms.

The parents of cutworms are grayish or brownish moths, or "millers," which commonly occur at lights during summer evenings. Each moth may lay from 200 to 500 eggs, either in masses or singly, in fields covered with dense vegetation, and hence the eggs are to be found more often than elsewhere in cultivated fields which have been in grass or weeds the preceding fall. The eggs hatch in the fall, a few weeks after they are laid, usually during September, and the young cutworms, after feeding on grass and other vegetation until cold weather, pass the winter as partly grown caterpillars. If an infested field is left to grass, no noticeable injury is likely to occur; but when it is broken up and planted to corn or other wide-row crops, the worms, suddenly being placed on "short rations," play havoc with the newly planted crops, the nearly full-grown worms feeding greedily and consuming an enormous amount of food. In northern latitudes they attain full growth and stop feeding in late June or early July, and then change to the pupal or resting stage.

For a Family of Five.

A family of five, including two adults and three children under twelve years of age, under ordinary living conditions, should have stored for each month of the winter season the following food supplies: One bushel of Irish potatoes, one-half bushel of other root vegetables such as carrots, turnips, and parsnips; 25 quart cans of other vegetables; and 20 quarts of canned fruit and preserves. These figures are based on estimates by the United States department of agriculture, which add that most of this should come from the home gardens. With these figures as a basis, it is thought that almost any family may calculate its requirements, taking into consideration the length of the winter season in any given locality.

Efficiency of Work Stock.

Feeding, care and management of work stock are factors which have a direct bearing upon the efficiency of the animal for performing work.

Water is Very Necessary.

An abundance of water is very necessary. Before farmers can live comfortably or raise live stock they must have plenty of water.

Foolish to Burn Straw.

Lighting a cigar with a \$10 bill is foolish. How about lighting a straw stack?

required for the proper preparation of feed in the gizzard. When the feed is not properly taken care of in this organ, an undue strain is thrown on the fowl's system, often resulting in disease, and also allowing much of the nutriment to pass through the bird's body without being absorbed. In every pen or yard a box of grit should be kept. Investigators have asserted that grit is a part of the necessary feed, giving the fowls strong bones and a bright plumage.

Keep the Boar Hustling.

Don't overfeed the boar. A boar that hustles will throw stronger litters than one that spends all of his time from one feed to the next sleeping.

Supply of Seed Corn.

When corn ripens, drop all other business and select an abundant supply of seed corn from the standing stalks.

Horses Enjoy Cool Spot.

Work horses enjoy a cool lot or small pasture at night and do better there than in a hot and often dirty stable.

"HARD SKIN" AND FOOT CALLUSES

Magic! Peel them off without pain or soreness

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the toughened calluses or "hard skin" on bottom of feet, then lift those painful spots right off with fingers. Corns also!

When you peel off corns or calluses with Freezone the skin beneath is left pink and healthy and never sore, tender or even irritated. Try Freezone sure!—Adv.

One Lack.

"He's a man of iron, isn't he?" "Yes, but he's not well tempered."—Baltimore American.

The Strong Withstand the Heat of Summer

Better Than the Weak
Old people who are feeble and younger people who are weak, will be strengthened and enabled to go through the depressing heat of summer by taking GROVE'S TASTELSS CHILL TONIC. It purifies and enriches the blood and builds up the whole system. You can soon feel its strengthening, invigorating effect. —Adv.

Naturally.

"Doesn't he write machine poetry?" "Yes, it's mostly about automobiles."

NOW RAISES 600 CHICKENS

After Being Relieved of Organic Trouble by Lydia E. Pinkham's Vegetable Compound.

Oregon, Ill.—"I took Lydia E. Pinkham's Vegetable Compound for an organic trouble which pulled me down until I could not put my foot to the floor and could scarcely do my work, and as I live on a small farm and raise six hundred chickens every year it made it very hard for me."

"I saw the Compound advertised in our paper, and tried it. It has restored my health so I can do all my work and I am so grateful that I am recommending it to my friends."—Mrs. D. M. ALTERS, R. R. 4, Oregon, Ill.

Only women who have suffered the tortures of such troubles and have dragged along from day to day can realize the relief which this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, brought to Mrs. Alters.

Women everywhere in Mrs. Alters' condition should profit by her recommendation, and if there are any complications, write Lydia E. Pinkham's Medicine Co., Lynn, Mass., for advice. The result of their 40 years experience is at your service.

RELIEVE Your HAY FEVER By Using

INHALATUM

Keep the little Inhaler with you and you'll not be bothered in your work or pleasures any more this summer. Easy to take—just a few drops of Inhalatum in the little Inhaler.

Council Proceedings

Portales, N. M., Oct. 12, 1918. Town council met in called session and upon roll call the following members were present: E. B. Hawkins, mayor, Trustees G. M. Williamson, C. J. Whitcomb, Jack Wilcox. Motion was made by Wilcox and seconded by Williamson that the town council invest \$3000.00 of the School Section fund in Liberty Bonds of the 4th Liberty Loan; upon roll call those voting Aye, Wilcox, Williamson and Whitcomb; absent and not voting, Morrison. Whereupon the mayor declared the motion duly carried.

There being no further business the council adjourned.

E. B. HAWKINS, Mayor.
Attest: W. H. BRALEY, Clerk.

Look at our stock of tires and tubes. — Braley's. 19

Editor McConnell, of the News, is in Iowa this week called there by the death of a brother.

FOR SALE—Bundles of feed. J. E. Wilson, 9 miles north west Portales, 21-2 miles from Bethel.

Ben Nash made a trip to El Paso, Texas, this week occasioned by the sickness of his brother-in-law.

Dr. L. S. Skelton sent to Judge James A. Hall a substantial subscription to the Fourth Liberty Loan.

Dr. and Mrs. R. H. Bailey passed through Portales Wednesday enroute to Gainesville, Texas, for a visit.

Judge George L. Reese this week purchased a new Willys Overland touring car from Roy W. Connally.

Captain T. J. Molinari was home for a couple of days this week. He is engaged in war work for the government.

Mrs. H. F. Jones returned Monday from Oklahoma where she had been during the sickness and death of her eldest son, J. W. Jones.

Mr. and Mrs. Charley Great-house and family, arrived from Hurley, this state, Monday and left that night for Kansas to look after some cattle they own there.

"Big" Johnson this week shipped back to his ranch here seven coops of cattle, about two hundred. He says that he has more grass than he thought he had and that he may buy some yearling steers.

OILS, gas and plenty FREE AIR at Braley's.

Will pay cash for clean empty syrup buckets with bails. F. G. Callaway.

Better take along blowout boots and cold patching; all kinds at Braley's. 19

Tires, tubes, blowout boots, all kinds, at Braley's. 19

Do you know that Senator Fall did NOT vote on the resolution declaring war on Austria-Hungary?

Do you know that Senator Fall did NOT vote on the food control bill under which Mr. Hoover has accomplished successful and marvelous results?

Do you know that Senator Fall did NOT vote on the amendment proposing nation-wide prohibition by constitutional amendment?

Do you know that Senator Fall did NOT vote on the act establishing the war finance corporation?

Do you know that Senator Fall did NOT vote on the great water power bill?

JAMES A. HALL

Attorney At Law
U. S. Commissioner

Homestead Applications, Final Proofs, Etc. Office in Howard Block, Phone 60

SAVE A SOLDIER'S LIFE.

In his telegram to the Democratic convention Senator A. A. Jones said: "I send greetings and ask you to give me your profound sympathy because I can't be with you. Only impelling public duty could force me to be absent from a New Mexico Democratic convention at this time. Our nation is passing through a world cataclysm and civilization is in the throes of a rebirth. We must make no mistakes. The cohorts of the Kaiser would keenly relish any evidence of weakness by America in support of our President, who is the recognized leader of world thought in this crisis. To console ourselves with the assurance that America is united in its war policies and that party success at this time should not be considered, would in my humble judgment be a colossal blunder. Should our country fail to return a Democratic majority in both the House and the Senate, our enemies would be encouraged to prolong the war and the potency of the President in advancing peace terms would be lessened. This thought surely will be recognized and I confidently expect this convention to name a ticket which will have the confidence and support of the electorate of New Mexico. If our state does its share, I am sure that the nation at the next election will send a message to the Kaiser in no uncertain language that the policies of our President and commander-in-chief shall and will be maintained. "A. A. JONES."

In 1898, when the Republicans were in power during the Spanish war, they demanded that the people elect a Republican Congress and insisted that to vote against the political party in power during a war would be construed by Europe as a repudiation of the President.

Colonel Roosevelt then said: "Remember that whether you will or not, your votes this year will be viewed by the nations of Europe, from one standpoint only. They will draw no fine distinctions. A refusal to sustain the President this year will in their eyes be read as a refusal to sustain the war and to sustain the efforts of our peace commission to secure the fruit of war. Such a refusal may not inconceivably bring about a rupture of the peace negotiations. It will give heart to our defeated antagonist; it will make possible the interference of those doubtful neutral nations who in the struggle have wished us ill."

Ex-President Harrison, during the same campaign, said: "If the word goes forth that the people of the United States are standing solidly behind the President, the task of the peace commissioners will be easy but if there is a break in the ranks—if the Democrats score a telling victory, if Democratic senators, congressmen and governors are elected—Spain will see in it a gleam of hope. She will take fresh hope and a renewal of hostilities, more war may be necessary to secure to us what we have already won."

They could only muster 118 for Governor Lindsey for nomination in the Republican convention. Was he too good in his intentions and too independent in his purposes for the Republican gang? Why did the bosses deny him a second term? Ask the question, answer it by saying that they demanded Larrazolo and then ask what sort of state government they offer the independent voter this year as the reward for voting the Republican ticket.

Vote as the boys over there shoot. That is straight and in line with the wishes, the hopes and the prayers of President Wilson. If he is a good enough leader for the boys to follow into the trenches, he is a good enough leader for us at home to follow into the polling booths.

They promised a clean ticket under news auspices but Bursum was temporary chairman of the Republican state convention, Uncle Tom Catron was its permanent chairman, and Charley Spless put Larrazolo across, aided by Secretary Romero? The voice was the voice of Jacob, all right, but the hand was still the hand of Esau.

If it is true that "every miser helps the Kaiser" isn't it true that every vote of lack of confidence in President Wilson's administration helps the Kaiser? Don't you think Kaiser Bill will watch your vote as closely in November as he will watch your dollar in October?

Germany is already squealing. Now is the time to stay with YOUR government. Don't you believe that every militarist in Germany if he were in the United States and had a vote would vote against the candidates of the Wilson administration?

MAKE GOOD YOUR PLEDGE

**OUR SOLDIERS IN THE TRENCHES
ARE MAKING GOOD THEIR
CAN YOU DO LESS?**

When you bought your War Savings Stamps you agreed to let "Uncle Sam" have the money for five years. He has spent that money for a gun, which has been placed in the hands of an American soldier, Who is fighting for you.

**DON'T TAKE THE GUN FROM THAT SOLDIER'S
HANDS BY DEMANDING THAT "UNCLE SAM"
CASH YOUR STAMPS NOW.**

Hold your War Saving Stamps. It is an unpatriotic act to cash them now except in case of dire necessity. Keep faith with the boys at the front. Let "Uncle Sam" have your dollars as long as he needs them.

Security State Bank

UNDER STATE SUPERVISION

Do You Know?

That the administration of the State Council of Defense is costly so that for every dollar it spends on war work 8 cents is required to pay for salaries and clerical help?

That the vice chairman of the Republican national committee is a man who wrote so strong a pro-German letter home from Berlin that the Republicans refused to stand even for him for national chairman?

That it was the Democratic counties of the state which showed the greatest increases in tax valuations for 1918 over 1917 and that Socorro and Valencia counties where Republican political leaders control the commissioners and assessors, there were very small gains?

That Charles Springer, Republican boss and chairman of the executive committee of the State Council of Defense, has refused to make public an itemized report of his expenditures, and that the State Council of Defense has refused to give out a list of its employes?

That a Republican Legislature appropriated \$35,000 to finish up 5 per cent of the work in the Texas Boundary suit and that only \$19,000 had been spent in five years by a Democratic administration in doing the other 95 per cent of the work?

That Bursum, Fall, Hubbell and Spless controlled the Republican state convention this year, and do you recall what the Albuquerque Journal and the Santa Fe New Mexican said about these bosses in 1916 when they were opposing the Republican ticket?

That in 1893, when the President and Congress were Republican, Theodore Roosevelt said that America who voted for Democrats then, were voting against their country?

Don't forget we have the Wind Mills, Eclipse, Leader, Star and Challenge, and we can make the price.
