Bonds for Portales Are Approved.

Some Modifications But Now Approved.

Last Saturday, Judge W. E. Lindsey received a telegram from the people who have contracted for the \$75,000 public service bonds of the town of Portales, in which it was stated that bonds are approved and the assurance was given that after a second publication of the ordinance—made necessary by a technical change and a 20 year optional clause which the company desires inserted—the money for the bonds will be forthcoming.

While these steps will necessarily delay for two months the letting of the contract for the installation of a splendid sewer, light and water system for Portales, it greatly relieves an ur-

gent and critical situation with reference to this much-to-be-desired and heartily endorsed forward movement in the town of Portales. And it also saves the expense of holding a new election on this matter.

What's the matter with Portales any how? She is to have an up to date sewer, water and light system for the city and an unmatched irrigation plant, all installed and in operation by the coming March.

New Townsite Company Organized.

The early part of last week the following citizens of Portales and Holloway effected the organization of what is to be known as the Holloway Townsite company, viz. J. A. Fairly, Ben Smith, B. J. Reagan, W. H. Garrett, R. A. Bain, Coe. Howard, R. G. Bryan and E. P. Alldredge of Portales, and F. F. Bain and J. W. Holloway of Holloway, New Mexico. Mr. Howard took surveyor Tallant with

him to Holloway and made survey and plat of the townsite. Yesterday followed a day or two later to spy out the land and see what he could see. We submit to our readers, below, what we saw.

HOLLOWAY (Gallinas) NEW MEXICO.

THE LOCATION: WHERE IT IS.

The town of Holloway, New Mexico is situated in a beautiful mountain cove, about Midway between Torrance, on the north, and Carrizo on the south, on the El Paso and Southwestern Railway (Rock Island), in Lincoln county, New Mexico. Holloway is also about 200 miles north of El Paso, Texas, and about 150 miles south of Albuquerque, New Mexico. The railway station is designated Gallinas at present; but will likely be changed at an early date to Holloway, in keeping with the name of the post office, for the reason that another town in a different section of the territory bears the name of

Gallinas and the change will necessarily save confusion.

THE RESOURCES: WHAT IT HAS

The resources of the country about Holloway are indeed remarkable. We call attention briefly to the following things which speak for themselves. There is at Holloway, New Mexico:

1—RAILROAD FACILITIES

The Rock Island railway, leased and operated under the name of the El Paso & Southwestern railway, runs four passenger trains through Holloway each day in addition to a large number of freights, all making the large centres of trade at El Paso on the one side and Albuquerque on the other, within a few hours.

2—BUILDINGS AND TOWN ENTERPRISES.

Holloway has a post office, general store, pump house, railway station and section house, saw mill, three or four residences and a townsite company recently organized and capitalized at

\$8000.

3—ALTITUDE, CLIMATE AND SEASONS.

Holloway has an altitude of 6000 feet above sea level; is one of the healthiest spots in the United States; is visited by heavy snows throughout the winter, spring showers or snows in March and April and constant and unfalling summer showers in July, August and September. The heavy snows are plowed into underground cisterns, constructed at a very small cost, and stored there for drinking water—and it is the very best. The summer rains pour great floods upon the mountains round about, and these floods, by means of a furrow or two by a turning plow, are directed downward to large surface tanks built by the farmers and in this way furnish an abundance of the best stock water and also water for irrigating large acreages when desired. In addition, wells are sunk when de-

sired and an abundance of water found at a depth of 180 feet.

4—GOVERNMENT LANDS

A careful estimate discloses the fact that there is sufficient vacant government land for 400 homesteads round about Holloway. Indeed but three or four settlements, apart from some land scripted by the cattlemen, have been made; and all this vast acreage of as fine soil as can be found on earth, lies there untouched. Much of it, and perhaps the best of it, lies upon top of the mesas which are smooth and unbroken and gently sloping toward the valleys. These mesas are covered with the finest gamma grass and crowned with sufficient cedar and piñon timbers for all the posts and much of the fire timbers for all time, although great areas are without brush of any kind and spread out in beautiful grass carpeted

(Continued on last page.)

MILLER & LUIKART

Our fall opening sale has far exceeded our expectations. We sold more goods than we thought we would, and from the way people bought goods we know we had the right price. If you haven't been one day already you had better get in line and come and see how we are selling the goods. Remember something special every week. So read every ad and get the habit of trading at the Good Stuff Store.

EVERY man in this town ought to have for business wear at least two good suits of clothes; one a fancy weave of some sort, the other a blue serge, or a dark blue pattern weave of some kind, or a black suit. They should both be of

Hart Schaffner & Marx

make; all-wool, finely tailored, perfect fitting.

The result would be that by having a chance to change often, say once a week or ten days, both suits would wear much longer, keep in better order, and you'd look better dressed all the time.

We'll help you take care of your clothes; keep them pressed for you at very small expense; provide at very trifling cost hangers for them; and generally save you money on them. Come in and see about it.

Suits \$20 to \$45 Overcoat \$16.50 to \$60

This store is the home of Hart Schaffner & Marx clothes

E. P. ALLDREDGE
EDITOR and MANAGER

Subscription \$1 Per Year

Entered at the Postoffice at Portales, N. M. as Second Class mail matter.

Away From Home.

Unfortunately for our readers the editor has been away from the past two weeks and could not have the opportunity to see what was going in the paper nor how it was being run. It turns out that all sorts of mistakes have occurred for which we desire to express our regrets. Just as soon as possible we will eliminate these mistakes and though we hardly expect to reach perfection, we can and will greatly improve our present efforts.

WE ARE NOT TO BLAME.

It comes to our office that the people at Turner, Arch, Rogers, Mann and other country places are not getting their papers until the week after they are published; and we here and now desire to say that we are not to blame. With one or two exceptions we have placed our county list of papers in the post office at Portales on Friday morning at 7 o'clock of each week for the past eight or ten weeks. Not only so, but we have done this at a cost of working over time and night and with the distinct understanding that we put the papers in the Portales postoffice by they would be sent out. See your postmaster and find out what the trouble is. We have done our part; and we think our Portales postmaster is doing his part. But be sure and let us know if you fail to get your paper on Saturday of week published. For we want you to have it then; and we believe that we can find the trouble somewhere, if you don't get it.

PARTY LINES CRUMBLING

Before the Non-Partisan Political Voters.

A Valuable Object Lesson.

By putting aside the partisan spirit in a municipal contest, New York has given all the other cities of the country an object lesson which, if taken to heart, will be worth untold millions to American municipalities.

"This is a non-partisan campaign and a non-partisan ticket will be placed in the field," said Timothy L. Woodruff, in his notification speech to the nominees of the republican city convention.

Mr. Bannard, in accepting the republican nomination for mayor, referred to himself not as a party candidate but as the representative of the anti-Tammany sentiment, and pleaded for a board of estimate chosen irrespective of party politics.

For twenty-five years the New York World says it has advocated the principles of independent, non-partisan administration of municipal affairs, but this is the first New York campaign in which that principle has been universally recognized. It is the first campaign in which the leading candidates themselves have striven to eliminate partisan prejudice and combine the contest strictly

to the issues that affect the immediate welfare of the people of New York. Mr. Bannard does not pretend to be a republican candidate; Judge Gaynor does not pretend to be a democratic candidate. It is indeed the beginning of a new era, as Judge Gaynor says.

"Party government in American cities," the World declares, "has broken down, and in no city is that fact more generally understood than in New York, which is the most conspicuous victim of the system. There is no way of overturning the rule, no way of dethroning the corruption, except by the election of municipal officials of known capacity and character who are pledged to carry on a progressive, honest, independent administration of the city's affairs. Every time the boss is compelled to nominate a good man for office, the cause of party government profits to that extent. Every time a political machine is obliged to surrender to the independent voters, the goal of good government is that much nearer."

All of that is sound doctrine, and although it comes from a democratic source is none the less entitled to republican respect. The greatest enemy of each party, and of the general public without regard to party, is the corrupt party machine—Albuquerque Journal.

\$65 New Buys Best Typewriter Ever Made.

That we live in a progressive age is fittingly illustrated by the tremendous improvements that have marked the advance of the typewriter. When the original typewriter appeared, the men who manufactured it advertised for "a lady who understands music to operate a new invention." The idea was that a knowledge of "fingering" would be necessary to the operation of the original typewriter was of the "blind" variety, and this style of machine may occasionally be seen in use even now, but they are largely replaced by the later and more practical "visible" machines, which have proven much more rapid. The change from "blind" to "visible" marked a step in the right direction, but the price remained at \$100. The latest typewriter marks another step, and what the future will evolve remains to be seen, but as the case now stands, we have an ideal machine, combining all the modern features, both visible and durable, and sold at the reasonable price of \$65. No machine will ever again be sold for \$100, except to such customers as have not seen the latest typewriter wonder. Even when the other standard machines are offered at the same price, they will hardly appeal to prospective purchasers who have seen the truly wonderful features of merit incorporated in the \$65 marvel. A careful examination of the \$65 machine will readily convince any one at all familiar with typewriters that a new epoch has dawned, and the \$100 machine has passed to the realm of the "long ago." At this writing it is impossible to predict just what course the other standard makers of typewriters will do, but it is absolutely certain that no purchaser will ever again pay \$100 for a typewriter. We welcome the advent of the \$65 typewriter and bid adieu forever to the \$100 machine.—Scientific American.

HUNTERS MUST HAVE LICENSES

New Game Law Passed by Last Legislature.

There is no more need for all in New Mexico. Under the terms of the new game law passed by the last legislature, all residents who desire to hunt either for birds or big game must pay a nominal license fee, while the licenses of non-residents who care to take advantage of the sport New Mexico offers must pay licenses ranging from \$2 for fishing to \$25 for hunting big game. The law became effective immediately upon its passage but, owing to the necessity of reorganizing the deputies under the license system, it has not been rigidly enforced up to this

closed season.
Trout (All species)—With rod, hook and line only. May 15th to October 15th of each year. Size limit, not less than six inches in length. Weight limit, fifteen pounds in any one calendar day, twenty-five pounds in possession at one time.
Bass (large and small mouth)—With rod, hook and line only. Size limit, not less than seven inches in length. Weight limit, fifteen pounds in any calendar day, twenty-five pounds in possession at one time.
CLOSED SEASONS.
Esk. Mountain Sheep, Beaver and Ptarmigan (or White Grouse)—Killing, capturing or injuring prohibited at all times.
Antelope, Bob White Quail,

E. J. NEER
SELLS
Furniture, Crockery, Drugs, Paints, and all things that are found in a first-class Drug Store.

Now, however, as of the district deputy has been appointed by Game Warden Gable, and from this time on the man who hunts without a license will probably get into trouble. No license is charged to residents for fishing, but all non-residents who go after the festive trout must pay into the game warden's treasury the sum of one dollar. Rigid penalties are provided for violations of the law.

Fred Fisher has been appointed deputy warden for Albuquerque district and will have his office at 209 South Second street, where licenses may be obtained. The following is a general synopsis of the game laws, the full text of which has been displayed at the Morning Journal office for some time:

OPEN SEASONS FOR GAME AND FISH.

Deer, with horns—With gun only; October 15th to November 15th of each year. Limit, one deer to each person.
Wild Turkey—With gun only; November 1st to December 31st of each year. Limit, four in possession at one time.
Grouse—With gun only; October 1st to December 31st of each year. Limit, thirty in possession at one time.
Native or Crested Quail—With gun only; October 1st to December 31st of each year. Limit, thirty in possession at one time.
Doves—With gun only; August 1st to October 31st of each year. Limit, thirty in possession at one time.
Snipe, Curlew and Plover—With gun only; September 15th to March 1st of each year. Limit, thirty in possession at one time.
Ducks—Limited to thirty in possession at one time.

Pheasant and Wild Pigeons—Killing, capturing or injuring prohibited until March 15, 1914.
Prairie Chickee—Killing, capturing or injuring prohibited until January 1, 1915.

LICENSE FEES.

Big game, meaning deer and turkey, resident \$1.
Bird license, resident \$1.
General license, covering big game and birds, resident \$1.50.
Big game license, non-resident, \$25.
Bird license, resident alien, \$5.
Transportation permit for live game, \$1.
Bird license, resident alien, \$10.
Permit to ship deer out of territory, per head, \$2.
Permit to ship fish out of territory, per shipment, \$1.
Duplicate license, permit or certificate, \$1.
All non-residents over twelve years of age will be required to pay a fishing license of \$1.—Albuquerque Journal.

A Telling Thrust.

A striking feature of the prohibition parade in Chicago the other day was a procession of shrouded figures, each bearing a banner reciting some recent tragedy due to drink in the Windy City. At the head of this division of the parade was a hearse with a black coffin inside. It was a telling thrust at the so-called "person liberty" advocates.—Tribune-Citizen.

Holiness College at La Lande

The editor, on his return from
 Gallinas the latter part of past
 week, stopped off to see his 160
 acres, situated between La Lan-
 de and Fort Sumner. The
 blight of the continued drought
 has little or nothing for Jack
 Frost, not to speak of the dry
 land farmers, except the irrigated
 lands around Fort Sumner.
 The Holiness college buildings at
 La Lande however, are going up.
 These include a barber shop and
 bath house, a two-story concrete
 structure 14x28 feet, a girl's
 dormitory 8x40 feet four stories
 high, a laundry house with dor-
 mitory above, a 2 story building,
 about 20x30 feet. All these
 buildings are under process of
 construction and will be com-
 pleted by first of coming year.

BUILDINGS PROJECTED.

Other buildings projected and
 to be built within the next year
 are (1) a conservatory of music,
 which building will be a large
 handsome structure, 3 stories
 high, (2) an administration build-
 ing 60x80 feet, 3 stories, (3) and
 a second dormitory as large as
 one now being built.

It will be seen, therefore, that
 La Lande will have college prop-
 erty within the next 19 months
 worth \$150,000.

PROTRACTED MEETING.

For two weeks the camp meet-
 ing of the holiness people has
 been going on at La Lande, the
 services being held in a large
 tabernacle, 60x80 feet. The
 meeting has been a decided suc-
 cess. The services closed Sun-
 day.

COLLEGE OPENS

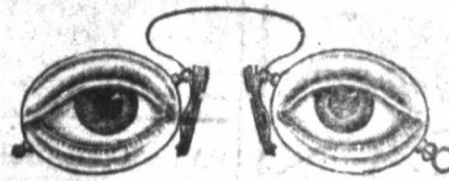

Following the close of the
 camp meeting Sunday, the Hol-
 iness college opened its doors in
 the large temporary building,
 known as the tabernacle, Tues-
 day October 12th. We will be
 glad to present a report of the
 opening to our readers next
 week.

How much is a gallon of paint
 worth? Depends on the paint.
 The trouble is, paint isn't always
 paint; there are true and false
 paints, and short-measure
 paints. How much is a short-
 measure gallon worth? How
 much is false paint worth? How
 much is Devco Lead and Zinc
 paint worth? It is a full gallon
 it is all paint, and strong paint,
 and nothing but paint. It goes
 farther and lasts longer than
 any other. Riply-London Lbr.

 tickets will be delivered to those
 who subscribed next Tuesday
 and Wednesday. Season ticket
 \$2; family ticket \$4; single num-
 ber 75 cents. Every family
 should have a family ticket,
 making the cost to a family of
 four, only 25 cents per number.
 School children presenting a
 certificate from Superintendent,
 25 cents. Everybody in Portales
 should see each and every num-
 ber as they are all of very su-
 perior talent. The Quaker Male
 Quartette cannot be surpassed.

VIRGINIA CITY.

Editor Herald,

Dear Sir: The farmers are
 busy harvesting kafir, maize,
 millet, pulling peas and beans,
 etc. The scarcity of rainfall,
 early and late has damaged the
 crops, yet all report sufficient
 feed. One year ago last spring
 the three Smith Brothers located
 on section 47, set up a tent to
 live in, broke 65 acres and planted
 it. The Vaughn Land Company
 Hotel was the only house in the
 vicinity. Since then Virginia
 City has been located and sur-
 veyed. The hotel moved to that
 place, a good and neat store room
 built and well supplied with
 goods, other buildings erected,
 being 17 dwelling houses and
 other buildings built and occu-
 pied by farmers in the vicinity
 over six hundred acres of
 land broken and planted, 3 we-

drilled, in addition to the
 wells on the pasture ranch.
 A large amount of land has
 been sold during the last year,
 too increased in value, from
 \$10 per acre. A church ho-
 tel and school house is expected
 to be built soon. One year ago
 there were no children in the
 school. Now there is twenty
 and small. A mutual
 system; a government
 and postoffice is being
 and agitated for the ben-
 efit of the community. A number
 of purchasers are intending to
 dwell on the houses and make
 improvements during the winter.

The best and latest farm
 machinery has been introduced
 and has proven to be well adapted
 to the mellow soil and broad
 plains. M.C. Vaughn brought
 the settlement a traction engi-
 ne, threshing and well drill.
 Bussey brought a forty-five horse
 power oil traction engine pulling
 a fourteen disc plow, a ten foot
 seed drill, a three row planter
 and two cultivators, all doing good
 and rapid work.

M.C. Vaughn has an uncle from
 Illinois, also wife, daughter, and
 brothers. His wife arrived at
 Virginia City lately from Water-
 Iowa and is now visiting and
 enjoying the scenery of the coun-
 try. Len Ackerman, wife, and
 Bussey are at Waterloo doing
 some land business every Satur-
 day will return soon.

C.M. Kisor has returned home
 from Ft. Collins Colorado, where
 he has been visiting his daughter
 and friends.
 Mesdames Bessie Benson, Kirk
 and Miss Nettie Ackerman made
 a flying trip to Portales, one day
 last week.
 Mr. Bisk of Gilton Nebraska,
 is building an eight room house
 on section seven and will move
 his family soon.
 Wm. Hughes and Mr. Cartright
 of Causey are drilling a well for
 him and report water in abun-
 dance with a quick sand propen-
 sion to deal with.

When in need of any
 of feed and the best of
 we have it at all times.

DOUBLE TRACK FOR SANTA FE COAST LINE.

... Undertaking to Commence At Once
Means Practically Rebuilding from Albuquerque to the Pacific Ocean and Expenditure of Millions of Dollars.

The entire coast line system of the Santa Fe railroad is to be double-tracked at once, from Albuquerque to the Pacific coast, and the work is to be commenced within sixty days.

This is the statement made to a reporter for the Morning Journal last night by a man in a position to know the full details of an improvement which is the most important the Santa Fe has undertaken in its history. The double-track system west of Albuquerque means practically the building of a new line of railroad to the Pacific coast, and indicates that the Santa Fe extension to the coast will be a double-track line to the east of Albuquerque to be taken up in the immediate future.

The cost of the double-track system will be enormous and will require a big construction program. The field for many of the new work is to be between Williams and As...

... Albuquerque end will be begun... at a recent meeting... executive board... at P... work will account... heavy purchase of... Santa Fe system made some months ago and... which could not be accounted... by the construction papers... and proposed in Tex... elsewhere—'Abuquer...

... returned... county grand... morning are... residents of... school... is a violation of the territorial compulsory education law. These are the first indictments to be returned under this law in New Mexico.

... indicted under this law were: Manuel de... Cruz Abeyta, Jesus... Rafael Candelaria, Leonardo Candelaria, Juan Chirino, Santos Chihuahui, Fred Lucero, Juan Lucero, Lupe Martinez, Lupe Nuanes and Louisa Paltinnon.

Other indictments returned yesterday were: Manuel de... receiving stolen property, indicted on two counts also with Florencio Pfeiffer on the same charge;... and Mary Cornetto, of Albuquerque, selling liquor without license; Fidel Gonzales, allowing women in a saloon owned by him; Leopoldo Luna, burglary in a shop.

Several other indictments were returned which were not made public.—Albuquerque Journal.

If you need a new suit it will pay you to call on T. E. Landers and inspect his large samples before buying.

COLEMAN-TEXICO ROAD.

Work of Track Laying Will Be Pushed Rapidly.
Coleman, Texas, Oct. 6.—Track laying on the Coleman-Texico road began yesterday morning. The work is progressing rapidly, about one mile a day being laid. The first twenty miles will be ready for the cars by Nov. 1, and it is expected to reach Sweetwater by Jan. 1.

The chief surveyor of the Coleman, Llano & Southern, Mr. Keber, has made his report on the route from here to Brady, a distance of forty-one and three-fourths miles. The route shows a much better grade than was hoped for. The survey runs near the towns of Fick, Gouldleusk and Rockwood, passes through a fine agricultural section and the coal fields in the southern part of the country. Committees are now at work securing the right of way and the engineer is making preparations for a permanent survey. No time will be spared to push this road to an early completion.—Special to Ft. Worth Record.

When in need of any kind of feed and the best of coal, we have it at all times.

For Sale or Exchange.

A well improved patented quarter section of land, on Belen cutoff, 3 miles from Fort Sumner, New Mexico, and 4 miles from La Lande, N. M. \$1700 in improvements, as follows: four-room box house, good well of water with windmill, 3 miles of good fence, plenty of sheds, granary, etc; over one hundred acres in cultivation; the best red loamy land; rents for \$185 cash. Will sell cheap and give some terms; or will exchange for business house or residence property in Portales or Clovis. See E. P. Aldredge, Herald office, Portales.

Notice of Pendency of Action.

W. O. Dunlap, plaintiff, No. 526, vs. John D. Kerr, defendant, and A. J. Smith, garnishee.
TO THE DEFENDANT, JOHN D. KERR, in the above entitled cause: You will take notice that a suit has been filed against you in the district court in and for the county of Roosevelt, New Mexico, by W. O. Dunlap as plaintiff in said cause, and that the general object of said suit is to collect the amount of \$100.00, with interest and costs of suit claimed by plaintiff as due by defendant as commission on the sale of certain lands effected through the agency of plaintiff, all of which is fully set out in plaintiff's complaint; also the same is a suit by garnishment against the garnishee named herein, A. J. Smith, of which defendant will take notice that his money and effects have been garnished in the hands of said A. J. Smith, of Portales, N. M.

You are further notified that unless you appear and answer plaintiff's complaint and plead in said cause on or before the 15th day of November, 1908, judgment by default will be rendered against you and the plaintiff will apply to the court for the relief demanded in the complaint.

T. E. Mears is attorney for plaintiff and his Post Office address is Portales, New Mexico.
Witness my hand and seal of said court, this 20th day of September, 1908.

News of the County.

PLAINVIEW

It is getting very dry in here just now.

The farmers are very busy harvesting their crops, which are exceedingly good in this part of the county.

Mr. Wiggin's residence is about complete on the new town site.

Mr. Doyle is building a new residence and is going to put in a stock of drygoods and notions soon.

Claude Singleton reports good feed crops in his section of the county.

The Plainview school is good this year, with Mrs. Whitman as teacher. They have over one hundred pupils enrolled.

FLOYD

The very disagreeable weather which we have been having has made the farmers of this vicinity wonder where their summer wages are resting.

Most of the farmers have their little crop of fodder cut as there will not be much grain to gather this year.

Devine Cook is improving very fast.

Russell Carter is some better at this writing.

Mr. Carter has been cutting feed near Pearson the past week.

The sand storm which passed over Monday evening was very unpleasant.

BETHEL

It is cold weather here at Bethel and we are enjoying fresh pork to eat.

Mrs. J. B. Jones and her daughter returned from Lockney, Texas, Saturday.

Miss Bertha Johnson of Lacy made the Bethel school a pleasant call a few evenings ago.

The well machine will be at work on Mr. Elliott's place this week.

Mr. Savage and family have left for Jones county, Texas, to spend the winter.

Most all the Bethel people were in Portales the 7th seeing the sights.

Mr. and Mrs. Alex. Ellberry left for their home in Texas, Monday.

ARCE

We have just finished our primary school building. Last Monday was our opening, both

rooms were filled to the brim. There being more primary pupils than advanced, the large room had to be given up to the little fellows. Watch the little people take hold, they are soon to take the ruling hand in our government.

The lowering temperature this week is causing quite a hurry scurry among our farmers in getting coal into the bins, potatoes into their cellars and feed into ricks.

Miss Sadie Jones of Trammell community is attending school at this place, boarding at Mr. Tubbs'.

Saturday night's atmosphere glazed our watering troughs.

Patrons met Saturday to do a little finishing and repairing on the school rooms.

MACY.

Farmers are about done gathering their crops. Most all in this settlement will make enough to do them.

The Macy school will begin first Monday in next month.

Macy Sunday school still moving.

The farmers union at this place is growing and have the best men of the county.

A little child of Luna Gresham died last night. The parents have the sympathy of the neighbors.

Dame fortune says there will be a wedding in the near future.

Mart Bailey came in after an absence of five or six months in Kansas.

C. E. Morris and two sons Elvis and Lyles left for Texas last Wednesday.

Proceedings of Commissioners' Court.

Proceedings of the board of county commissioners of Roosevelt county, New Mexico, at a regular term, thereof, held at the court house, at Portales, the county seat of said county, on the 4th day of October, A. D. 1909.

Present: C. V. Harris, chairman, E. C. Palmer, commissioner, W. H. Montgomery, commissioner, C. P. Mitchell, clerk.

The following accounts examined, approved and found correct, and ordered drawn in payment of same, viz:

J. E. M. Arizona, commission on tax collected \$99.83
R. A. Bain, board of prisoners, 172.50

PORTALES, N. M.

REV. EDGAR L. YOUNG,

Pastor of the Methodist church, this city, was born in Tennessee, thirty years ago. He was educated in his native state and at Epworth University, Oklahoma City. For five years, Rev. Young was a member of the Oklahoma Conference and was transferred to Clovis last year. During the year at Clovis Rev. Young received 172 persons into the church and raised for all purposes \$5,000. In February, 1903, Mr. Young was married to Miss Alva Griffin, of Bonham, Texas. The local church has given him a royal welcome and a successful year is predicted.

NEW TOWNSITE COMPANY

(Continued from 1st page)

prairies. The descents from the mesas to the valleys are for the most part covered with post and fire timbers, but too much broken to be farmed. The valleys are many, both large and small. The valley soil is perhaps as rich as that of the mesas; but the sheep and cattle have pastured out the grass in some instances. The character of the soil differs in different localities; but for the most part, it is the richest "light land," of a brownish chocolate color and sticks when wet. Surrounded by the most beautiful mountain scenery one can select his homestead out of thousands of acres of the best land on earth.

5.—BUILDING MATERIAL.

Perhaps no place on earth possesses greater wealth of building material than can be found within a radius of 6 miles round about Holloway. There are enough cedar fence posts within 4 miles of Holloway to fence an ordinary county and on almost every 160 acres enough post timbers are growing to furnish the homesteader with fence posts for all time to come. In the Gallinas mountains, five miles out from the Holloway, there are 26,000,000 feet of merchantable pine and spruce timbers, in what is known as the Gallinas Forest Reserve, all of which must be marketed at Holloway. And there are sufficient fire timbers, including the dead and fallen trees in the reserve, to furnish fire wood to all the people who ever settle around Holloway. In addition to this, there is a limitless supply of the best builders sand-stone; also some limestone; and it is estimated that the black and red-granite fields within 5 to 7 1/2 miles of Holloway cover a thousand acres of ground.

6.—MINING INDUSTRIES

The Gallinas mountains, 5 miles out of Holloway, is one solid mine of iron, copper, lead, zinc, silver and gold ores. Assays of the lead ores found here

have shown 47 per cent. Eight car loads of this ore have been shipped from one of these mines which assayed an average of 40 per cent of lead with small per cent of silver, copper and lime. The Red Cloud and Dead Wood shafts—both on one mining claim—recently sold for \$140,000. The Colorado Coal & Iron company now hold an option on the iron mines of these mountains and have announced their intention of beginning their development at any early date, in which case a spur of the Rock Island railway will be built out to their property. The Buckhorn shaft a copper mine—sold recently for \$15,000. The red and black granite fields, within 5 to 7 1/2 miles of Holloway cover perhaps 1000 acres ground and no one can even approximate a valuation of these quarries. Indeed the development of the mining industries round about Holloway has hardly begun. Hundreds of mines just as rich as those mentioned, have never even been filed on as yet; and

7.—CATTLE AND SHEEP INDUSTRIES.

The cattle and sheep industries around Holloway began at an early date. Rock Grumbles, who has about 700 head of cattle at present, began operations in this community some seventeen years ago, while Lovelace Brothers, sheepmen, have carried on their ranching interests here for fifteen years and have 20,000 sheep at present. Following these pioneers came Bob Owens, who is twelve miles south, in the Gallo Canyon, and who, along with his father, Mr. Z-b Owens, has 35,000 head of sheep and perhaps 100 head of cattle. Hal Herring, who came to this section some five years since and settled on the west side of the Gallinas mountains, now owns 300 to 4,000 head of blooded cattle which he finds a paying investment. Spence, Wilson & Company are perhaps the leading

sheepmen of the community, running more than 40,000 head of sheep. Nicano Trujillo, the only Mexican ranchman in the community, has 13,000 head of sheep. Round Tree also has large ranching interests here, running between 8,000 and 10,000 head of sheep. Five years since the firm of Atkinson & Sons began handling sheep on shares and now own at least 7,000 head of sheep. Besides these we should mention Stroops Brothers, who have been here four years and have some four or five hundred head of cattle; Holy & Vermillion, who have been here two years and have perhaps 250 head of cattle; W. T. Crabtree, who came about the same time and who has near 500 head of cattle; Corn Brothers, who run about 9,000 head of sheep. To sum up, there are at least a dozen to fifteen large ranches about Holloway with perhaps 200,000 sheep and 5,000 head of cattle. And yet the range in many parts of the community is absolutely untouched. It is expected that the Rock Island railway will put in stock-yards and a wool depot at Holloway, in the near future, and that this will become one of the chief shipping points on the road.

8.—SETTLERS.

At present there are not over thirty settlers within ten miles of Holloway, and so far as we were able to ascertain, all but a half dozen of these are ranchmen. The people, moreover, are almost altogether white people, there being but one or two Mexican families in the community. The country is all new and undeveloped, awaiting the coming of the homesteader.

9.—FARMING INDUSTRY.

Until the past three or four years absolutely nothing had been done to develop the farming industry about Holloway. And even now only a beginning has been made. Yet even this beginning has proved beyond a peradventure of a doubt that any and everything can be produced on the farm at Holloway which can be grown anywhere in an altitude of 6,000 feet. Corn, wheat, barley, millet, oats, all kinds of garden vegetables, alfalfa, maize and Kaffir—all these have been and are being grown with splendid success. Mr. Ledbetter made \$30,000 an acre this year on millet and even more on his oat crop. Others have done equally well, as will be seen by their own personal statements, which we submit herewith.

10.—DAY LABOR.

As soon as the mines start up again, hundreds of men will be given work at from \$2.00 to \$3.50 a day. The ranches pay \$30.00 per month and board. The saw mill pays \$2.00 per day for efficient help. One family may make as high as \$12.00 per day, gathering pinon nuts. The rock crusher, nine miles below Holloway, employs 150 to 400 men. The Holloway Townsite Company expects to organize a development company in the near future to develop the mines and the rock and granite quarries.

11.—HUNTING AND RECREATION

It is but a few miles south of Holloway to the high mountains and natural range of big game, including bear, deer, turkey, etc. It is but twenty miles to Jicarilla, where one can look upon the ruins of the cliff dwellers. And it is less than thirty-five miles, to the west, to the prehistoric city of Cebera, with its eight-story Pueblo building, which is one of the wonders of the prehistoric age.

12.—NEW ENTERPRISES NEEDED.

Holloway needs:

1.—Four hundred homestead

settlers who will come to stay and build up the country.

2.—Twenty dairymen to launch a skimming station and later on a creamery.

3.—More experienced saw mill men who will push along the work, already begun, of developing and marketing the lumber interests of Holloway.

4.—A development company who will organize and begin immediately the development of the granite and sandstone quarries, as well as the great mining industries of the community.

5.—Another and larger general merchandise store.

6.—A wholesale and retail meat market.

SOME PERSONAL QUESTIONS.

1.—Do you want to select a homestead for yourself, where you can have FIRST CHOICE out of thousands upon thousands of acres of the best land on earth? You can find it at Holloway (Gallinas).

2.—Would you like 320 acres of the best land, where you have your fire wood without cost and easy to get; where your water would cost little or nothing, and where you would have all kinds of building materials within five miles of you and at the lowest cost? You can find it at Holloway, N. M.

3.—Would you like to be able to file on a good mineral claim of some sort, in addition to your homestead? You can find it at Holloway, New Mexico.

4.—Would you like to get into a country where you could farm some and have an unlimited range for some fine blooded cattle, horses, hogs or milk cows? You can find it at Holloway, New Mexico.

5.—Would you like to join with some neighbors in the dairy business, where you have the finest range and all the conditions for such a business? You can find it at Holloway, New Mexico.

6.—Would you like to get in on the ground floor of one of the best and cheapest townsite propositions in New Mexico? You can find it at Holloway, New Mexico.

For further information address The Holloway Townsite Company, Portales, or Holloway, N. M.

Irrigation Men Entertained.

Mr. C. M. Dobbs in his usual hospitable way invited Messrs. Reynolds, Webber, and Rose of the Western Construction Company to take an automobile ride with him into the country last week and they state after riding over some very fine country they arrived at the home of Mr. and Mrs. Morgan eight miles west of the city where they were very highly entertained at dinner which was elegantly prepared by Mrs. Morgan wholly from the products of their farm.

After each had fully satisfied their appetites with the many good things they had provided; Mr. Morgan showed them his fine apple orchard consisting of 54 acres, then a number of pictures were taken of their ranch and orchard, after which the trip was continued to Portales.

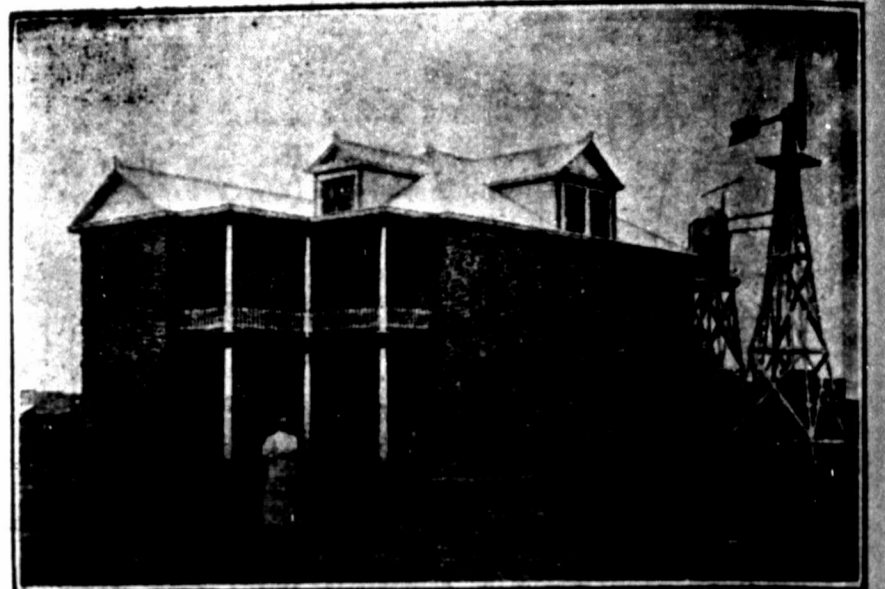

The boys brought with them some fine specimens of turnips and winter radishes which were produced on a portion of his farm which is under irrigation.

The entire trip was made without accident or mishap of any kind with the exception of Mr. Dobbs with his over supply of avoirdupois bursted the tire on his corner of the machine causing a delay of fifteen minutes and a little labor on the part of the chauffeur.

No services at the Baptist church next Sunday, Oct. 17. Brother Alldredge being in Artesta holding a meeting.

Infant child of W. H. Snell died this morning.

Alex Bloomquist left this morning for a visit with his children in Providence, R. I., and may visit his aged father in Sweden before he returns to Portales.

Rainy Days

May yet come to us. Life has more UPS than DOWNS. Some say this drouth has knocked 'em to their knees, but wait until we get irrigation. If you cannot see brighter prospects ahead, come to us for further information.

Yours very truly,
