New Harvesting Efficiency...
New OLIVER "66"
New GRAIN MASTER

Cash in on the advanced crop-saving, time-saving, money-saving features of this all-purpose outfit. Both are newly designed—farm-engineered to bring you new harvesting flexibility.

Into this modern Model 15 Grain Master Combine are incorporated all the improvements that 100 years of experience in making world-famous harvesting machines have brought.

In harvesting you'll especially appreciate the direct drive power take-off of the new 2-plow "66" . . . the advantages of its 6-forward-speed transmission, Fuel Miser governor, battery ignition and automatic spark advance. In addition, you have a choice of three new engines—for gasolines, tractor fuels, and a diesel that will be available later.

The Grain Master has a full 6-foot scoop type header . . . low height and narrow width . . . a new, sturdy one-piece agitating rack to do a thorough job of separating . . . 24-bushel grain tank or roomy sacker platform and many other beneficial features for handling all your seed crops. We'll be happy to give you all the details on this new harvesting combination. See us soon.

NAZARETH

Nazareth Leads Central Plains Baseball League

The Nazareth Baseball Team has trailed in the League for the past several games, but Sunday, June 27, in an excellent, exciting game, Nazareth reached a goal

worth fighting for. They beat the Hereford Baseball team by a margin of 2 points, closing the game with a final score of 8-6. The playing of the entire team throughout the game was outstanding.

Mr. Robert Bowers left Thursday June 24 for Lamarr, Colorado, where he will work on a farm. Robert has been visiting his par-

ents in Olpe, Kansas for the past several weeks.

Mr. and Mrs. Ed Dalton of St. Francis spent Sunday, June 27 in Nazareth visiting with friends and relatives.

Miss Estelle Hoelting was the honoree at a birthday party held in the home of her parents, Mr. and Mrs. Frank Hoelting Sunday June 27. A host of friends attended the dinner. Refreshments were served to the entire group in the afternoon.

Mr. and Mrs. Francis Wilhelm returned home Thursday, June 24 from their honeymoon. The couple went to Wyoming, Yellowstone National Park, Glacier Park, and other points of interest in Canada.

Mr and Mrs. Ray Bearden visited relatives in Lubbock Sunday.

Bascom Nelson spent last week end visiting friends in Amherst.

You Can Handle ALL 3 with an **EVERSMAN Automatic**

DIRT MOVING, LAND LEVELING and SEED BED PREPARATION

HERE'S A LABOR-**SAVING, MONEY-MAKING MACHINE** ...with an Eversman you get land in table top condition quickly and easily. Eversman-leveled fields irrigate themselves. You save time, labor, water, grow better crops—mechanized equipment works faster, more efficiently. The Eversman levels land **AUTOMATICALLY**—when wheels go on high place blade lowers to take a cut, when wheels go into a low place blade raises to release dirt. It levels the land, breaks clods, firms and packs the surface, forming a finely pulverized seed bed as the machine moves along.

MODEL 25—Width 12'10", length 32', cutting blade length 9'3", depth 22", requiring 38 H.P. (drawbar).

MODEL 12—Width 12', length 21', cutting blade length 9'3", depth 16', 3 plow tractor. Model 9 shown at top of page slightly smaller for 2 plow tractor.

MODEL 35—Larger, longer, more dirt capacity than Model 25. Both 25 and 35 have main frame spliced for converting to field to maneuverable dirt mover.

Same machine is fastest dirt mover on the market today for power required. Excellent for rebuilding fields or reclaiming land. After dirt is moved it can be graded down and **AUTOMATICALLY LEVELED** with the same machine. Here's a 3-way machine used not only for the initial job of dirt moving and leveling, but for maintaining contours, soil conservation work and preparing seed beds year after year.

BOYCE HOUSE

Little deeds that cost a slight amount of effort and yet show consideration -- how important they are.

A good many years ago, your columnist was on a Fort Worth good will trip. When our bus arrived in Garland, the welcoming delegation said, "All of you come over to the cafe and have coffee with us." It was a cold and gloomy day and a cup of coffee was welcome and the opportunity to visit with Garland citizens while having the coffee made it doubly pleasant.

That was the first time I ever met Bill Bradfield, publisher of the Garland News, by the way.

Another time, or it may have been on that same trip, our bus rolled into the picturesque little city of Palo Pinto. Just as we stepped off the bus, there was a series of sharp, crackling explosions. Gib Abernathy had given our arrival an appropriate touch of the Wild West by setting off a string of firecrackers. At least, they told me it was my friend, Gib, who is a former sheriff and former Texas Ranger.

You see, I still remember the visit to those towns because somebody did something that showed they were glad we came.

I wonder how an old pioneer who wore a coonskin cap and fired a muzzle-loading rifle would feel if he could return and see a beautiful high school named for him?

Or how Jean LaFitte, the pirate, would feel if he re-visited Galveston Island and see a hotel bearing his name?

One of fate's greatest ironies is named for "Father of Texas," with exemplified by Austin, a lovely city a beautiful hotel there, the Stephen F. Austin, with air-conditioning, steam heat, paintings and swift elevators.

Stephen F. Austin died from pneumonia contracted from working for the advancement of Texas in a log house in the winter time without a fire.

Vern and Billy Beck of Compton, Calif., arrived here Friday to spend the summer with their grandparents, M. and Mrs. W. T. Beck.

STEPS TO LAUNDERING LUXURY

ELECTRICALLY

First you'll want an electric washer, easy on your clothes, yet capable of turning out an entire week's wash sparkling clean. Then a dryer, a convenience any time, a blessing when bad weather holds up line drying. And then to top off your "luxury laundry" an electric ironer, so easy to operate, so efficient, and so wonderfully suited to giving your ironing that professional look.

Have all of this home equipment if you can now, or begin with the unit you think will suit your immediate requirements. Even if you're not ready now... start planning today for the day when Reddy Kilowatt will do your laundry work... economically and electrically.

Mr. and Mrs. Clifford Weed were last week-end visitors in the home of Mr. and Mrs. Roy Bussy and son at Plainview.

AVOID CLOSET CATASTROPHE

Clothes moths feed upon animal hair, fur, feathers and articles made from these materials, according to Mary Routh, extension clothing specialist of Texas A. & M. College. Woolen lint and hair, which has accumulated in floor cracks, under the quarter-round and baseboard, and other hard-to-reach places are often fertile breeding grounds. The batch of dog and cat hairs may yield a supply of moths.

After cleaning the clothes closets this spring, apply DDT spray to the walls, woodwork, baseboards and shelves as a protection against clothes moths for the warm weather season, Miss Routh advises. Approximately one-half pint DDT spray is necessary for an average size closet. An oil spray is preferred because it does not leave a white deposit as a water spray does. The best DDT spray for this purpose is a residual spray, rather than one of the "aerosol bomb" or space spray type, if it is to be effective over a period of months in killing insects which come into contact with the closet surfaces. The aerosol spray is fine for killing flying insects, or those which happen to be exposed at the time, but it does not have the lasting effect because it doesn't leave a residue.

DDT solutions may also be sprayed lightly on wool clothes without injuring the fabric. Too much of the solution, however, may show up in whitish traces on dark clothes, but these can be removed by brushing or dry cleaning.

DDT spraying is useful for protecting clothes hanging in closets, while the more familiar moth flakes or crystals are advised for clothes stored in tight bags, trunks or other containers where a fumigating effect is desired. Added protection may be given stored clothes by spraying them and their container with DDT.

All woolen clothing, of course, should be treated before storing in either treated closets or tight containers, says Miss Routh.

Mrs. Daisy W. Thomas and Dell of New Castle, Wyoming are visiting in the homes of Mrs. Ethel Womack and Mr. and Mrs. Harold Stephens this week.

Mrs. Claude Forson returned home Saturday after a weeks visit with relatives at Stephenville and Temple.

WHERE DO WE GO FROM HERE?

The cost of telephone operation is zooming off into space like a rocket ship. Equipment, labor and other costs are all following the general pattern of business. Our planned expansions will increase our output far beyond our income. Do you blame us for asking, "Where do we go from here?"
