PORTALES NOW HAS A MILITARY ORGANIZATION THAT IS A HUMMER

Sixty-Eight Enlisted Men and Three Officers.

Enthusiastic Meeting at the Commercial Club.

As per announcement in the Herald, the meeting called by Capt. Molinari was held in the commercial club room, and it was the best attended and most harmonious gathering that has assembled in Portales for many a day. There were something like one hundred present and they were all boosters for the military company, too; those who were incapacitated from joining and those who, for various reasons were not in a position to become members were enthusiastic in their support of the movement, and used their influence to fill the enlistment roll. Short addresses were made by Capt. Molinari, Judge G. L. Reese and Carl Turner, all of whom are enlisted members of the organization, and their addresses were listened to with close attention and received with enthusiasm. In less than twenty minutes after the meeting was called to order, the muster roll showed that sixty-eight of the huskiest men of the Portales valley had become members of the national guard.

- Following is the muster roll:
- | | |
|-----------------------|--------------------|
| T. J. Molinari, Capt. | Joe Howard |
| J. B. Priddy, 1st Lt. | William Green |
| A. B. Seay, 2nd Lt. | J. A. Fairly |

| J. B. Langston | J. B. Compton |

From the list of names above given can be selected three or four of the best shots in New Mexico and a considerable number more who are much above the average in marksmanship and it is confidently expected that, when encampment time comes, some of the Portales boys will "gloom" some of the prize money awarded at rifle practice.

It has been suggested by some of the good-looking unmarried boys that an effort be made to coax the best looking young ladies of the town to get busy and make a flag for the new company one that will have the two stars lately added to the field. Of course, if this was done it would be a piece of patriotism that would long be remembered by each member of the company, yet they would hesitate to ask this of the ladies.

At this meeting the measure for the uniforms were taken by Brackett Lawrence

and Ed McMinn, after which the meeting adjourned to meet again on command of the captain. The commissioned officers have furnished the necessary bonds and have sent in their orders for uniforms and accoutrements and it is confidently expected that the company will be thoroughly equipped by the first of the year.

The state furnishes all the equipment for the enlisted men except the lockers which will have to be furnished by the men. These lockers will cost about \$3.50 each, and it is the intention to get some help from the citizens to meet this expense.

The old armory building has practically been decided on as headquarters. Mr. Hardy, the owner, has agreed to have this building put in good condition and in readiness for the equipment when it arrives.

Fifth Grade Entertained.

R. P. Connally, instructor in the fifth grade, entertained his thirty odd pupils at a masquerade party at his home Friday night.

The first thing on the program of course was to get the pupils there and to accomplish this Mr. Connally made a trip over the town, gathering together all the girls. The boys were all at the house when the girls and Mr. Connally arrived and had to be herded into another room while the girls were getting their wraps straight and their wraps off. Before anyone noticed it three new girls were in the room and no one seemed to know where they had come from. The girls who had come with Mr. Connally were rather shy of these new girls and tried to stay away from them but the new girls wanted to get right into the crowd and did so, though they said never a word.

As soon as all were ready the girls were sent in among the boys and even Mr. Connally who knew them all so well could not tell who many of them were. There were costumes worn that would have done credit to any set of grown people, and it was very hard for the judges, Mrs. S. F. Culberson and Mr. N. Connally, to decide who should get the prize. They eventually came to the decision that Miss Juanita Ryther, the smallest one present, should receive it.

After this prize had been awarded all were requested to remove their masks and, lo and behold, there was Heck Harris, Martin Beasley and Johnnie Hinton, dressed as girls. This was quite a shock to some of the girls because they had been telling these same "girls" some of their secrets. All were then requested to be seated and after they were quieted their teacher explained that he had spelled all of their names on cardboard and had cut the cardboard up so that each letter was separate and that he was now going to give them as many letters from the whole as their name contained. They were then to see what letters they lacked and after he said "ready" to trade any letter they did not have use for, for one that they could use in their name, the one first spelling his or her name to receive a box of candy as a prize. As soon as "ready" was said, pandemonium broke loose and for ten minutes it was hard to even think for the noise that was going on. Heck Harris was the first to finish and

received the prize, although several more finished just after him. The guests were then all lined up and each girl was given a candy baby with a thread three feet long run through it. She was told to put one end of the string in her mouth and to let the boy who was her partner put the other end of the string in his mouth and when the signal was given to see which could eat their end of the string the quickest and get the baby. Johnnie Hinton ate his string the quickest, with Vera Merrill, Bessie Warnica and one or two others close seconds. Apples were now passed to the crowd and amidst singing, laughing and some excellent music furnished by Maurice Seay, Darrena Ficklin, Bessie Warnica and Eddy Lee Hall, all were satisfied for a few minutes.

A drawing contest was next introduced and some of these Fifth graders would have made grown people ashamed of themselves if they could have seen some of the well drawn work done by them. As soon as the drawings had been handed in they were pinned upon the wall and all hands given so many minutes to guess what each represented. Obie Randall was given

The Christmas Home Song
by Wilbur D. Nesbit

The heart is singing home again—the heart is singing home,
Wherever up and down the world the restless feet may roam.
When comes the time of holly-leaves, of fellowship and mirth,
That marks the glory of the day the Christ-child came to earth—
Then all about and all around, on mountain-tops and plain,
The heart is singing home again—the heart is singing home.

The wander-love! It leads us on beneath the dreaming star,
It beckons us with tempting hands from many lands afar,
It lures us where the lotos dream is filled with rare delight,
It guides us where the silent snows gleam through the endless night,
But now, to all who wander far beneath the sky's broad dome,
The heart is singing home again—the heart is singing home.

It brings a picture of the past—a picture fair and free—
A picture of the good old home—wherever it may be,
And o'er the waves it sings to us, across the hill and plain,
Until the soul within us seems to ache to be again,
Wherever up and down the world the restless feet may roam,
The heart is singing home again—the heart is singing home.

To every man in every place there comes the haunting song,
It rises like a glory chant in cadence full and strong.
To him who sleeps upon his arms before the tireless loe,
And he who bends above his desk, the coaxing strains must know,
For sweeter than the clover-tang that drips from honey comb,
The heart is singing home again—the heart is singing home.

MUCH MOISTURE HAS FALLEN IN THE VALLEY IN PAST TEN DAYS

Best Season in the Ground Since Winter of 1906.

Rain and Snow and Snow and Rain—Sure Looks Good.

During the last ten days there has been more moisture fall in Roosevelt county than has fallen for five years before, at this time of the year in the same length of time. It began last week with a moderately good fall of snow, then followed a short clear spell, which, in turn, was followed by rain, which continued for an hour or two and then turned to one of the heaviest snow storms we have had in five years. It is estimated that not less than six inches of solid water was put into the ground. This moisture came at a very happy time for the farming interests of this community and came in just the right form to save every drop of it. Of course those who had taken time by the forelock and had their winter plowing done received the most benefit from this moisture, but there is no question but what we now have a better season in the ground than we have had for many a year and, if there is any such thing as the dry farmers making good in this country, they will certainly do so this coming year. And this "wetness" is equally good for those who have their places under irrigation, as it will not require half the water or time to get their farms in a good state of cultivation now as it would otherwise have done. With this good season and our splendid system of irrigation, combined with the certainty of a two million dollar beet sugar factory, there is no reason to doubt that Portales Valley will enter upon an era of prosperity never before dreamed of and that, too, almost instantaneously. Get ready for spring and the big boom.

Ladies of Central Christian Church Bazaar.

The Ladies' Aid of the Central Christian church held a very successful bazaar in the office rooms of Capt. T. J. Molinari last Thursday. They wish to extend their gratitude to him for giving up his business home, in his usual gracious manner, to wander in and out, while the women turned his office into a bower decorated with aprons and pin cushions, and other dainty articles usual in a Christmas bazaar.

The middle room was changed to a cosy tea room, by the artistic taste of Mrs. T. J. Molinari, who with the assistance of Mrs. S. A. Morrison served chocolate chicken salad, nut bread, beaten biscuit, pie and cake.

In spite of the unlikely weather they made the twenty-five dollars to finish paying for their lots one and two in block thirty-two. The lots were purchased from G. V. Johnson, who sold them on very easy terms.

Is Yours Written Here.

The secretary of the commercial club reports the following members as being in good standing: W. I. Luikart, T. J. Lomax, J. B. Priddy, C. P. Mitchell, Jeff Hightower, W. E. Lindsey, W. W. Van Winkle, T. J. Molinari, A. D. Wallace, W. S. Berry, R. M. Sanders, C. O. Leach, C. V. Harris, Roy Connally, W. B. Reid, G. M. Williamson, S. A. Morrison, J. P. Deen, Fred Crosby, G. L. Reese, H. B. Ryther, G. V. Johnson, Joe Howard, R. A. Larson.

There is really not one good reason why every business man in the city should not find his name in this list. Let's hope that by the time the secretary makes his next report there will not be one name of any business man in the town missing.

DEMOCRATIC IN POLITICS

That Apportionment.

The legislative apportionment of the state of New Mexico was the subject of an editorial in this paper last summer, during the special session of congress. In that editorial attention was called to the fact that Indians were counted in large numbers in some of the republican counties as a basis of representation.

This week the official bulletin of the population of New Mexico was received at this office from the census bureau at Washington and we are now able to make a somewhat more accurate comparison than was possible last summer.

Under the apportionment provided in the constitution the county of McKinley, a republican county, is given one senator and two representatives. The total population of that county as given in the census bulletin was 12,963. Of this total 5,527 were Navajo Indians and 1,752 were Zuni Indians, living respectively on the Navajo and the Zuni reservations. The total Indian population of the county was 7,279 or considerably more than half of the total population. These Indians are not citizens, are not permitted to vote and have no voice in the government of the state. Deducting these from the total population there remain but 5,684 citizens who have a representation of one senator and two members of the house of representatives.

The county of Curry is a democratic county and it had a population of 11,443 at the time the census was taken. That county has more than twice the number of citizens than McKinley county, yet it gets less representation. Curry county has one senator and one representative when, according to the basis of representation in McKinley county, it should have at least two senators and four representatives.

The county of Eddy is a Democratic county. It has one senator and two representatives in the state legislature and it has more than a thousand more than twice the number of citizens that there were in McKinley county, yet it has the same representation. Its citizens have less than half the representation in the legislature that McKinley county has in proportion to population.

Roosevelt county had a population of over 12,000 or more than twice the number of citizens that were found in McKinley county and Roosevelt county has only one senator and one representative. On the same basis as the apportionment was made in McKinley county, Roosevelt county should have at least two senators and four representatives, but Roosevelt hasn't.

Quay county is credited with a population of 14,912, or more than two and a half times the number of citizens that are found in McKinley, yet it has no larger representation in the leg-

islature than McKinley county. Chaves county has a population of 16,850, just three times as many citizens as are contained within boundaries of McKinley county and it has one senator and two representatives. It should have three senators and six representatives on the same basis McKinley. All of the above cases which have been compared with McKinley county are Democratic counties and there is no reservation Indian residing any of them.

The county of Valencia is credited with a total population of 13,320, but this number there are 1583 residents of Laguna pueblo and 28 of Acoma pueblo, leaving population of 10,809 exclusive of Indians. This county has one senator and two representatives, larger representation than either Curry or Roosevelt counties each of which has a larger citizenship. It has the same representation as each of the counties of Eddy and Quay and much smaller citizenship than either of them.

None of the above mentioned counties is joined with any other county for legislative purposes so that the comparisons can be made direct. More glaring manipulation is found in Taos and Rio Arriba counties and the, until recently, republican county of Sandoval in each of which counties there are numbers of Indians.

It is surprising that none of the Democratic members of the constitutional convention saw these tricks of the Republicans. It remained for the Eagle to bring this matter to the notice of the public and now, since the exact figures are available, we are again placing it before thoughtful Democrats for their consideration.—Santa Fe Eagle.

Han-Sell

Han Sell, the one man show will give a performance at the Cozy theater on Friday night, the 22nd, the price of admission will be 50c for adults and 25c for children. This entertainment will be given under the auspices of the Womans club. Mr. Han Sell is said to be something of a marvel in the way of an entertainer and a thoroughly good time is promised all who attend. Mrs. C. E. Mason, chairman of the Roswell Civic league has the following to say of this entertainer: "To whom it may concern—Mr. Han Sell gave his 'Old Man and New' to a large audience here under the management of the civic department. The entire program is good but his whistling alone is worth the price of admission. Mrs. C. E. Mason, Chairman Civic Department, Roswell, N. M."

"Grandma" Williams.

Mrs. A. A. Williams has aged wonderfully in the last few days and some fear has been entertained by her friends for her welfare, it is hoped, however, that with the advent of spring she will regain her former youthful appearance. The cause of this sudden extreme age is said to be the contents of a telegram received from Dallas, Texas, stating that an eight-pound boy was born to her son, Clarence Williams on the 14th, and of course, the knowledge that she was now "Grandma" to a bouncing boy was calculated to make the grey hairs become more prominent than they had heretofore been. Congratulations.

Ends Winter's Troubles

To many, winter is a season of trouble. The frost-bitten toes and fingers, chapped hands and lips, chilblains, cold sores, red and rough skins prove this. But such troubles fly before Bucklen's Arnica salve. A trial convinces. Greatest healer of burns, boils, piles, cuts, sores, bruises, eczema and sprains. Only 25c at all druggists.

We Can Get the Beet Sugar Factory if Everybody Will Boost.

The beet sugar factory is the most important matter before this community today. What are you doing to help it along and get the contracts signed so we can have the factory ready for operation in 1912? Every good citizen of us ought to get out and boost the proposition and help ourselves to an era of prosperity. Time is passing and the sugar company is still a little short of having the required acreage necessary to assure us the factory.

The greatest need of this section of the country now is the bringing in of large capital to develop the valley, and this will be supplied by the sugar company in lending aid to those farmers who may need help to cultivate their land. The proposition of the sugar company is a fair, square, business deal, in which they start the farmer in business full handed and equipped with everything needed to farm on a prosperous scale. They put in your irrigation system to water all of your land and you control the pump yourself; they will furnish you with teams, implements and tools to the work the land, and then buy your whole crop of sugar beets at good prices. Not only that but, if the farmer doesn't want to plant and cultivate the sugar beets himself, the company will furnish experienced beet raisers to plant, tend and harvest the crop and guarantee the cost to the farmer shall not exceed \$30 per acre.

In addition to this, at the end of twenty years, your mortgage is returned to you by the company fully paid, and you haven't paid a cent in money for the improvement of your land, but have had twenty years of prosperity and the assurance of good crops, with all your land under irrigation and the benefit of the increased value of the land. Even if you haven't paid for your pump and engine at the end of the twenty years, the sugar company cannot then take away from you and have no hold on your land; all they can do is to hold the preferred stock in the sugar factory, which they agree to issue to you to the amount of the mortgage on your land. So there is absolutely no chance for you to lose a cent in this proposition and you have everything to gain. The sugar company is here for business; they come here to make money for you and for themselves. Your success is their success and, in order to make money for themselves, they must help you to a successful and, therefore, a profitable sugar beet crop.

Let us all pull together and help the company to get the rest of the acreage for the beets. We need them and they need us and our co-operation. If everybody will help we will soon be able to see the work commence and will all take on new life in the prospect of good times and good crops.

Han-Sell

The whistler and magician will be at the opera house the 22nd. He whistles soprano and sings bass at the same time. Whistles both soprano and alto at the same time. The only known person who can do this.

The New York press association of New York city says the following: "Mr. Fred E. Han Sell appeared before the New York press club at the annual new years social and entertainment. It was the unanimous opinion of all the leading journalists that he is the finest whistler who ever appeared in this city. A. B. DEPRESE, (for committee)."

Capital and Surplus, \$75,000.00

A last New Mexico has been admitted into the union. No longer do we live under a territorial government. Our growth, our advantages, our splendid civilization have at last overcome the scruples of the government at Washington and from here out we must rely exclusively on our own resources. Now that is just exactly what the First National Bank has been doing for the past number of years. We have always had this time in view and consequently the increased demands upon our facilities consequent and incident upon the new order of things, finds us fully prepared and willing to enter upon and do our full share toward the advancement and prosperity of the best country the sun ever shone upon.
