# Send Your Holiday Orders Early

Every holiday season there are some disappointments because the expected goods do not arrive until too late. We are not to blame, as we always clear our shipping room of all shipments wanted by Christmas. To do this we work night after night for months before the holidays. Some orders do not reach us until the eleventh hour, but we ship them out as quickly as possible. We are known as quick shippers, but the holiday rush crowds the railroads to their limit, and some of the late orders are necessarily delayed. No one can afford to be disappointed at that time of the year, and we are anxious that you should not be.

We receive as high as 30,000 letters per day during the season before the holidays, but will make prompt shipment of your order, no matter when you send it. There are too many chances for disappointment in ordering late, and we advise you to avoid all risks by sending your order early.

If you have looked through our large and new Catalogue No. 72, you will realize that the city buyers have not the slightest advantage over our customers, either in prices, quality or selection. Our stock is the cream of the world's best markets and the prices are such that you can easily save from IO to 50 per cent on everything you buy: If you want our 1100-page catalogue, we will send it free if you will -Cut this slip out and send it with 15c in stamps Tor

fill out the blank in the corner and enclose 15 cents to partly pay the postage. You cannot afford to be without it. Send for it today.
