The doctors make the emphatic

Pearl millet has been grown in this country for about thirty years, and in that time has not excited very much interest. It has a few things in favor of it, principally its size and rapid growth. From time to time different seedsmen have taken hold of it and have pushed it before the people under new names, and in various ways a great deal of seed has been sold, sometimes at extravagant prices send an expedition against Panama. It thus happens that this plant has now come to be known by numerous names, and in the same seed catalogue it will sometimes appear under more than one name and the seed quote

for soin-g purposes. On poor soils six to eight pounds are used per acre, tut on rich soils the amount need not exceed four pounds. Some follow the practice of sowing it broadcast for the purpose of making millet hay, in which case about half a bushel of seed is needed. But little can be said in favor of this as a hay crop, for two reasons: If it is allowed to become mature it is too large and coarse and woody for good hay; if cut for hay when only three or four feet high it contains about 80 per cent of water and is extremely hard to cure. It is probable that if it were made into silage at this point of growth the resultant silage would be entirely too acid, as is the case with corn when cut too green. If hay is to be made of it, it should be cut just as the heads are appearing. We believe, however, that it will best serve the purposes of our farmers as a summer soiling crop.

#### Watering Horses.

A discussion of the subject of way tering horses should take into account the reasons why water is needed, the amounts required, the proper time for government bulletin. Horses, like other animals, require water to moistjuices may permeate it readily, to dilute the blood and other fluids of the body, and for other physiological uses. It may be assumed that under any given normal condition the body contains a definite amount of water. When any considerable amount of water is lost from the body, a sensation of thirst is experienced, showing that

Practically all the water excreted leaves the body in the feces, urine. perspiration, and breath. The amount eliminated in each, according to Wolff, ncreases with the amount of water consumed, the largest amount being excreted in the feces. In experiments which he carried on, the total amount of water consumed ranged from 17.363 kilograms to 34.272 kilograms (38.3 to 75.6 pounds). The feces contained from 40.3 to 47.3 per cent of the total mount excreted; the urine from 21.2

In addition to the water drunk by horses, a considerable amount is obtained in the more or less succulent food eaten. The amount of water required is influenced by a number of ment of partitions between the three factors, including the season of the lests. When this board is on, the year, temperature of the surrounding nests are light enough for the fowls air, character of the feed, the individ- to find them, but too dark for them ual peculiarities of the horse the to see the eggs very distinctly. Amateur Art Association, tells young women what to do to avoid pain and suffering caused by female troubles.

"DEAR MRS. PINKHAN: -- I can con-scientiously recommend Lydia E. Pinkham's Vegetable Compound to those of my sisters suffering with female weakness and the troubles which so often befall women. I suffered for months with general weak-ness, and felt so weary that I had hard work to keep up, I had shooting pains, and was utterly miserable. In my dis-tress I was advised to use Lydia E. Pinkham's Vegetable Compound, and it was a red letter day to me when I took the first dose, for at that time my restoration began. In six weeks I was a changed woman, perfectly well in every respect. I felt o elated and happy that I want all women who suffer to get well as I did." - MISS GUILA GANNON, 359 Jones St., Detroit, Mich., Secretary Amateur Art Association. - \$5000 forfelt if original of above Letter proving genuineness cannot be produced.

When one considers that Miss Gannon's letter is only one of the countless hundreds which we are continually publishing in the newspapers of this country, the great virtue of Mrs. Pinkham's medicine must be admitted by all.

It is not considered correct to talk with a cigar in your mouth, so perhaps the time may come when men will encourage their wives to smoke.

If you don't get the biggest and best it's your own fault. Defiance Starch is for sale everywhere and there is positively nothing to equal and must say that I almost gave up it in quality or quantity.

Russia, Roumania and Servia are at six boxes of Dodd's Kidney Pills. the top of the list in illiteracy, 80 per | "At first I could see but little benecent of the population in these counfit, but after two weeks, I could see tries being unable to read or write.

Figures may not lie, but it's different when women's figures are concern

If more men would only take wives then their complaint that some women dress too young would certainly cease.

#### Knewledge from Experience.

Is what we understand when Dr. Spald-ing, an eminent Baptist divine of Galves-ton, Texas, writes "send me two bottles of Taylor's Cherokee Remedy of Sweet Gum and Mullein. It is for a friend suffering from consumption. It is a preparation I know from experience to be good." At druggists, 25c, 50c, and \$1.00 a bottle.

#### Not Like His Mother.

Life tells a good story of the small son of a certain university professor whose parents are deservedly popular for their tact and courteous speech The youngster appeared at the home of course, granted, and Mrs. ---- felt some surprise to see the little fellow stoop over the rug and stare silently for some half-minute He straighten-ed himself up, and, meeting her won-dering expression. said triumphantly: "It doesn't make me sick!"

No Heaven-bent Mob For Him.

At an evangelistic service at Glasgow the preacher at the end of his address cried: "Now all you good people who mean to go to heaven with me, stand up!" With a surge of enthusiasm, the audience sprang to their feet-all but an old Scotchman in the front row, who sat still. The horrified evangelist wrung his hands and, addressing him, said: "My good man, my good man, don't you want to go to heaven?" Clear and deliberate came the answer: "Aye, Awm gangin' but no wi' a pairsonally conducted pairty!"

A foreigner can not own land in Japan.

#### A Dentist's Advice.

Toledo, Ohio, Jan. 25th .-- Mr. Harry L. Lewis, Dentist, 607 Sumit street, this city, says: "I certainly advise anyone, no matter how severe they may have Kidney Trouble to take Dodd's Kidney Pills.

"I was troubled with Kidney Disease for several years and Dodd's Kidney Pills cured me. I had used many so-called remedies without any benefit. Four months ago, I was flat on my back with this painful trouble hopes of ever getting any better. Through a friend's advice I purchased

an improvement. I had been getting up several times at night and pains in my back were very severe. When I had taken six boxes I felt better than I had for years. The pain had all gone and I didn't have to get up during the night at all. I continued the treatment until I had used several more boxes, and now I am glad to say that I am completely cured."

### Pe-ru-na. Other Prominent Physicians Use |

MEDICAL EXAN

and Endorse Pe-ru-na.

DR. LLEWELLYN JORDON, Medical Examiner of the U.S. Treasury De-partment, graduate of Columbia College, and who served three years at West Point, has the following to say of Peruna:

"Allow me to express my gratitude to you for the benefit derived from your wonderful remedy. One short month has brought forth a vast change and I now onsider myself a well man after nonths of suffering. Fellow suferers, Peruna will cure you."

A constantly increasing number of phy-iclans prescribe Peruna in their practice. t has proven its merits so thoroughly that ven the doctors have overcome their rejudice against so-called patent medi-ines and recommend it to their patients. Peruna occupies a unique position in oedical science. It is the only internal ystemic catarrh remely known to the redical profession to-day. Catarrh, as veryone will admit, is the cause of one-alf the disease which afflicts mankind. 'starrh and catarrhal diseases afflict one-alf of the people of the United States.

------Robert R. Roberts, M. D., Wash-ington, D. C., writes:

"Through my own experience as well as that of many of my friends and acquaintances who have been cured or relieved of catarrh by the use of Hartman's Peruna, I can confidently recommend it to those suffering from such disorders, and have no hesitation in prescribing it to my patients, Rob rt R. Roberts. A subscriber sends us a letter he re-

\* Dr. R. Robbins, Muskogee, I. T.,

writes: "Peruna is the best medicine I know of 'or coughs and to stengthen a weak stom-ich and to give appetite. Besides pre-scribing it for catarrh. I have ordered it for weak and debilitated people, and have not had a patient but said it helped him. It is an excellent medicine and it fits so This breeder claims his hens lay from 280 to 300 eggs a year, many of them \$6. The breeder who makes such many cases.

"I have a large practice, and have a chance to prescribe your Peruna. I hope you may live long to do good to the sick and the suffering. Dr. M. C. Gee writes from 513 Jones St.,

San Francisco, Cal.: "Peruna has performed so many won-derful cures in San Francisco that I am convinced that it is a valuable remedy. I have frequently advised its use for women, as I find it insures regular and painless menstruation, cures leucorrhom
