

...and sent to Portales. Then step by step did Captain Lee and the whole Lee family help to build the greater Roswell, and to the credit of Roswell let us say that the Lees yet on the earth side are the brightest flowers any town can boast of, who will continue to weave for the dearest spot to them on earth. The proprietor of this paper being most intimately connected with the Lees could fill columns of the grand attributes, but he is not an energetic as he used to be, before he realized how fast his relations and friends are slipping off to the spirit land.

It is not necessary to use radium to find hungry democrats for offices. Roosevelt is becoming a hotbed county of discontent in the untried ranks.

It is reported that three tickets will be nominated: a people's, a democratic and an independent republican. The discontented cannot narrow the breach, in the cause.

Accord others the same right you would expect from others. The anarchical press of the country refuses to do this, and therefore Herr Most publications were suppressed.

All republicans subscribe for the Times to see what the democrats are doing, and the democrats take it to see what the republicans are doing.

It is very fortunate that because one person calls another a knave or a fool that it does not make it so. There are a class of people built on the rule or ruin plan, but they seldom rule or ruin—only themselves.

Pesky Alfalfa
Some of the farmers are grumbling at the way their alfalfa is treating them. It grows so fast that they can't get any rest for having to be cutting it all the time to get it out of the way of the next crop. Tobe Mullins reports that he had four acres in alfalfa, that he had cut his alfalfa five times this season, and after doing all that work he only realized \$60 dollars per acre on the product of his land. Such things discourage farmers and is enough to make them long for bull weevils, which pest keeps them from laboring so hard in the fall of the year. Marve Thomas has three acres in alfalfa that is the peskiest stuff he has ever had anything to do with. He has cut it six times this season, and has got two tons to the acre each cutting. If it does not freeze in the next week or ten days he will be bothered by having to cut it again. Some farmers do certainly have a hard time.

Anyone who has read the history of Russia and particularly the way she treats her prisoners in the Siberian camps, cannot help but hope that she will be licked off the face of the map. Thousands of her prisoners have been marched hundreds of miles to the mines—women too—lashed with the Siberian cap o' nine tail when exhausted and starved to death in the mines of the frozen north, for what? For political opinions expressed. Russia has even hunted to death politicians who have escaped to America. Russia's whole makeup is overbearing and cruel and is therefore called the bear. Facts are facts. Her people are held as slaves. Her people in free America, are they sympathizing with the bear? are they enthusiastic? Not that we have heard of. They were too anxious to get away and they are not going back very soon. How about patriots, Japan? the pagan country where civilization is wide and broad. Are her subjects enthusiastic?

The Fifty Acres.
Last week Peter Thomas, the attorney, in acting as abstract of title to a piece of realty he ran up against an unclaimed fifty acres in town ran along from where W. K. Brooding's residence is located on out to the railroad. John Eiland, in order to be filed on the government's place. As abstracts do not always spell something, it is presumed that an omission has been made in a previous location on two pieces, one of 120 and one of 40 acres, when J. J. Hagerman laid the abstract. How it happened he nor does not state. It is speculated, however, on the other hand, that the land office at Roswell will have to reject the filing.
