Best meal in town, at Newsom's, and this is no dream.

Warren, Foosee & Co., are headquarters for Gents Furnishings.

Dr. Carroll, of Roswell, was in Portales last Sunday on professional business.

Carlsbad Springs Mineral Water by the bottle or cask, at G. C. Johnson's.

Keep cool ladies, by buying a parasol from Blankenship & Woodcock.

For Pasturage—See Jones & Morrison, section pasture adjoining town. Rates on application.

Miss Willie Ackinson spent several days in Portales this week, visiting relatives and friends.

Purple Top Strap Leaf Turnip Seed in bulk, at Jameson's Parlor Grocery, opposite Baker's office.

Mrs. Maud Stirk, of Shreveport, La., came in Wednesday of this week to take charge of the Alamo Hotel.

Big shipment of shoes and slippers just received at Warren, Foosee & Co's.

R. W. Jones and wife, of Bethel, were in town Monday of this week, and took in the roping contest.

Newsom's Delicatessen serves Ice Cream and Fruit Ices every afternoon and evening.

By the arrival of J. B. Sledge Jr., on July 4th, we should judge J. B. Sr., was trying to appear very patriotic.

If you want a bargain in a good second-hand wagon, hack or buggy it will pay you to see Slover, the blacksmith.

J. W. Gregg, the lumberman, was in this week and reports his business decidedly on the increase the last few days.

Say—Why don't you try some of Newsom's fine Steaks, Figs, Feet, Brains, Sweetbreads, Lamb's Tongue, Pork, Tenderloin and other meats?

Geo. Wood had his hand badly injured while working on a windmill this week. Dr. Pearce reports him improving.

Editor Hall, of Elida News, was in town again this week. He was driving alone when we noticed him. Could not say how far he went alone.

Little Joe Lang happened to the misfortune to get an ankle broken Tuesday of this week by a horse falling with him, at the ranch, some twenty-five miles from Portales.

Born—To Mr. and Mrs. J. B. Sledge, on July 4th, the finest boy in Mississippi. They are visiting relatives at Como, Miss., at present. We shall expect J. B.'s smiling countenance at the bank again ere long.

Rev. Lallance, Presiding Elder, preached several interesting sermons at the M. E. Church, South, beginning on Saturday night of last week and continuing until Monday night of this week. He is an able minister.

Mr. G. C. Johnson was fortunate enough to secure the exclusive agency for the Carlsbad Springs Mineral Water from the Carlsbad Springs Sanatorium. This water cures all Liver, Kidney, Bladder and Stomach troubles. Give Mr. Johnson an order for a dozen quart bottles and get well.

Dr. John Camp, dentist, a graduate of the Vanderbilt University, will arrive Sunday, and be ready to serve the public along the line of dentistry. He is well qualified to do all branches of the work, we are told, and gives satisfaction to his customers. He will be located at Hotel Vendome, and solicits your patronage.

H. B. Ryther, editor of the "Herald" received three religious papers this week, one from Calcutta, one from London and one from Oakland, Cal. He was reading them one day this week. He says he was not aware of the fact he was so widely known. Let the good work go on; there is hope, even for a Democratic editor.

Buck Dobbs returned from Lockney, Texas, Wednesday of this week.

Dobbs famous lemonades better than ever at Pearce & Dobbs soda fountain.

M. J. Logan and a Mr. Beacham, were pleasant callers this week.

A. Ragdale and family, of Texico, were in town shopping Monday of this week.

Those Duck Dresses for children are now one-fourth off at Cash Bazaar.

New Dress Goods just received at Warren, Foosee & Co's.

Carver & Witherspoon shipped three cars of cattle to Clements, Kansas, last Monday.

Finest Line of Toilet Soaps in town, at Pearce & Dobbs.

Born—To Mr. and Mrs. Snell, twins, a boy and girl. Dr. Pearce in attendance.

Did you ever try one of Newsom's Broiled Steaks? If not you had better do so.

Don't forget that those children's Duck Dresses at the Cash Bazaar will outwear two others.

Mrs. J. E. Raborn returned latter part of last week from an extended visit in Texas.

Reduced prices on Clothing at Warren, Foosee & Co's this week.

Ira Taylor and family, of Texico, are visiting Mr. and Mrs. C. M. Dobbs.

White Globe Turnip Seed in bulk, at Jameson's Parlor Grocery.

Mr. Bledsoe, of Lubbock county, Texas, is here this week.

Best shoes on earth are sold by Warren, Foosee & Co.

We notice it in our business and have heard a few others express themselves, that trade is getting better.

Now is a splendid time to buy a water-cooler at Blankenship & Woodcock's.

Mrs. J. B. Priddy is expected home Sunday.

Anything in Dry Goods that you want will be found at Warren, Foosee & Co's.

Rev. Meeker left Tuesday of this week for a camping-out trip with the small boy of his Sunday School. Don't you know they are having a swell time.

J. N. Donohoo is in the city for the purpose of attending the stockholders' meeting of the Donohoo Mercantile Co., of our city, in which concern he is largely interested.

After August 1st this paper will be \$1.00. Renew for 50c to August 1st only.

From local subscribers we will take anything we can use on subscription—Wood, Chickens, Butter, Eggs, Vegetables, or even the CASH.

There is a wealthy club in New York known as the Civic; which heretofore has been in the habit of giving a grand excursion early in August, as many as 15,000 women and children participating. This year, in view of the awful Slocum horror, and the inadequate inspection of steamships, the excursion will be abandoned and the funds of the club devoted to charity. This is sensible and wise. People can enjoy themselves without flocking together en masse.

By and By.

If we could know that some sweet day, Beyond the flight of years, We'd feel again the joys of earth Without her bitter tears, How trifling would our burdens seem, In view of Heaven's crown, We'd meekly bear them to life's close, And calmly lay them down.

If we could only lift the veil, That hides the other shore, And see within the Pearly Gates, Our loved ones gone before, With glittering jewels in each crown And robes of beauty rare, Then would we trust the beacon light, To guide us over there.

If echoes form the bright beyond, Could break upon life's strand, And we could catch angelic sounds That comes from glory land, Sweet notes of dear ones over there, In songs that never die, Our fondest hope would ever be, To join them by and by.

If scenes from Zion's sunlit hills Could open to our view, If we could see God's ransomed hosts, And thus our faith renew, Then, drifting to the other side, Upon time's silent stream, Beautiful fields of Paradise, Would be life's sweetest dream.

Yet if we will accept God's Word, Which shows salvation free, We'll rest upon His promises, And hithering doubts will flee, Then, as we near life's eventide, Triumphantly we'll sing, "Oh! grave where is thy victory, Oh! death where is thy sting?"

Rev. W. C. Meeker, brother to the pastor of the Presbyterian church, came up from Roswell Wednesday of this week, to be here for sometime.

We are informed that the school board, only two of which were present, cannot decide or agree upon a Principal for the school, but have sent for Mr. Spencer, the other member, to return from Albuquerque, to settle the question of Principal. The following teachers have been employed: Mesdames Culbertson, Gordon, Nixon, Miss Stella Seymour, and Mr. Hall of Elida. A very efficient corps of teachers.

LATER J. W. Gregg takes Mr. Spencer's place on the board.

The last meeting of the Woman's Club was far above the average because of its practicable application. The topics were thoroughly discussed and very instructive. "The Care of Baby," by Mrs. Curtis was of great help to mothers who have little opportunity of learning what is the best method of caring for children. Mrs. White gave a splendid illustrated lecture on "The Care of the Sick, The Making of Beds, The Various Uses of Bandages, The Nursing of Fever, etc." The next meeting will be at the home of Mrs. Neer. Panhandle Rains.

In the early part of last Friday night, a rain commenced from a heavy cloud that came up from the west and rapidly spread toward the north and south, and there was a steady downpour that continued throughout the night. Next morning's sunshine beamed down on a thoroughly soaked soil, but its efforts toward the process of evaporation were not permitted to continue long, for about the same hour on the following night another heavy rain came up and yet a third on Sunday night. It is understood that these rains were general and that the greater portion of the Panhandle was benefited by them. Their value to the cattle interest and growing crops is incalculable; however, the farmers are eager to see a few weeks of dry weather and warm sunshine so that they may have an opportunity to annihilate some of the weeds from which their crops are beginning to suffer—Hereford Brand.

Election Called for on August 2nd.

The Honorable County Commissioners have ordered an election to be held on August 2, 1904, for the purpose of voting on the bond proposition as set forth sometime since. It is for the purpose of issuing bonds to raise money for the purpose of putting down a test well for artesian water. This is the best and most feasible way it seems and equalizes the cost on the citizens of the county, that is certain, and we believe the matter should be properly considered by the voters of the county, for with artesian water we have one of the best sections in New Mexico. Its up to you. So make up your mind by Aug 2nd and vote according to your best judgment.

Our Well.

J. B. Knight, who went to Roswell and Artesia last week for the purpose of securing or purchasing a well drilling outfit, has returned and made the deal and is now figuring with Jessup Bros., to consummate a deal whereby they can combine their efforts on the well now started on the public square and is now down to a depth of 45 feet, with a weak flow of water, with some gas. While the deal is not closed, the contract is drawn and is likely to be signed any moment, then the work will proceed both day and night with heavier drill and it will not be long before we have real "agua" thrown in the air from four to thirty feet high, more or less; then Portales will be a city of from 3,000 to 5,000 in 90 days, and this is no pipe-dream, either.

Should we give to missions? D. H. Covington and Wm. Cox.

What is Sanctification as taught by the Bible? Uncle Jimmy Williams and H. A. Covington.

Is it right for church members to engage in dancing and card playing and such like?—Bros. Wood and J. C. Welch.

Preaching arranged by the pastor and deacons. Brethren come and let us do work for the Master.

COMMITTEE.

Common Sense.

Our readers are well aware of the fact that the subscription price of this paper is and has been from its first issue, only 50c a year, less than a penny a copy. It was unfortunate for the paper that the price was put so low, it is not near cost. The "Texico Trumpet" is one column smaller, yet he put his price at \$1.50, and its none too high his express and other expenses considered. Here, where coal oil is 30c per gallon, groceries, rents and general expenses in proportion, a man cannot come out even publishing a paper at 50c a year, and no thinking, reasonable man asks or expects it. So we will state here, after August 1, 1904, we will charge \$1 per year for the PORTALES TIMES; now if you want to take advantage of the cheap rate, you can do so before Aug. 1st. If your time has not expired, you can pay 50c or \$1, and extend the time for one or two years, as desired. Thanking you for past patronage and trusting for same in the future.

Old and True.

Parker and Davis

A United Democracy, a Conciliatory Platform and Acceptable Candidates of Well-Known Qualifications Presage Victory.

St. Louis, July 11.—The big convention has come and gone. The Democracy has made much party history within the few days of its session. From all over the country had come up a cry of compromise and "get together." There was evidence in Texas as that the Eastern end of the great party machine intended to dictate platform and men. The careful reader of the platform finds that just that thing was done. The two most cherished contentions of Southern and Western Democracy have been in the one case reversed and in the other dropped. We refer to the silver doctrine in the first place, which was reversed by an absolute silence on the money question in the platform and by Judge Parker's plain and unequivocal declaration in the following telegram to the convention:

Convention Hall, 9:45 p. m.—Following is the text of the telegram addressed to Wm. F. Sheehan: "Hon. Wm. F. Sheehan, Hotel Jefferson, St. Louis: 'I regard the gold standard as firmly and irrevocably established, and shall act accordingly if the action of the convention of to-day shall be ratified by the people. As the platform is silent on the subject, my views should be made known to the convention, and if it is proved to be unsatisfactory to the majority, I request you to decline the nomination for me at once so that some other may be nominated before adjournment.'

"A. B. PARKER." Mr. Bryan was there and Senators Bailey and Culberson were there and they accepted the conditions, after sacrificing everything save honor and party peace. The other was the omission of any reference to an income tax. But it is argued that now is no time to quibble over every wish of everybody, so long as peace and harmony can be preserved.

After all the wrangle and struggle over organization and platform of principles were finished, the vote was taken and stood on first ballot. The following is a copy of the official ballot for President:

Cervera Honored. Medina Sidona, Spain: As a demonstration of gratitude regarding his conduct at Santiago and his care of American sailors, Admiral Cervera was presented here with an engrossed message, bearing the signatures of a number of well-known Americans, besides letters from the subscribers, bound in a volume. The presentation was made by Mr. Bird of Vienna, in behalf of his fellow Americans.

Confess to Four Murders. Pittsburg, Pa.: John Johnson, a negro, who with Frank Ouseley, also a negro, will hang Thursday for the murder of James Donnelly, has confessed to four murders. Johnson says he was born in Georgia. Two of his victims were with him traveling in a box car, and he murdered them for \$5 and threw their bodies from the car while the train was going. His other victims suffered a like fate on a Georgia railroad.

Bay City Gets Lott Road. Bay City: A mass meeting of citizens of Bay City met with Messrs. Lazarus and Summerfield of the St. Louis, Brownsville and Mexico Railroad. These gentlemen demanded right of way, depot grounds, etc., with a \$25,000 bonus, which was raised in a very short while. The committee will now secure the right of way, and it is now assured that Bay City will have another road, in addition to the Southern Pacific and the Santa Fe.

Seventeen Killed and Many Hurt. New York: Seventeen persons were killed and about a hundred injured in a collision which occurred at Midvale, N. J., just before noon Sunday, when a regular passenger train on the Greenwood Lake branch of the Erie Railroad ran into an excursion train that had stopped to take water. All the dead and injured lived in Hoboken, Jersey City and New York. The accident is believed to have resulted from a tower operator having lowered his signal too soon.

The vote for the other candidates was as follows: Cokerell—Kansas 1, Minnesota 1, Missouri 36, Nebraska 4; total 42. Olney—Maine 4, Massachusetts 32, Nebraska 1, Oklahoma 1; total 38. Wall—Nebraska 1, Wisconsin 26, total 27. Gray—Delaware 6, Minnesota 1, Nebraska 1, Porto Rico 4; total 12. Williams—North Dakota 8, Pattison—Nebraska 4, McClellan—Colorado 1, Oregon 1, Oklahoma 1; total 3. Miles—Kansas 2, Nebraska 1; total 3. Towne—Minnesota 2. Coler—Oregon 1. Gorman—West Virginia 2.

The vote was taken Saturday morning at 5:45, after which the convention adjourned till the evening. It was at the evening session that the Parker telegram was read. It created considerable discussion, and some warmth, but after a pyrotechnic display all quieted down and the convention, in the quietest period of its history—a pretty stormy one—nominated ex-Senator Henry G. Davis for second place.

The platform is in many ways a compromise, but it will have the loyal support of Bryan and his prominent followers and of Cleveland wing of the party. White winged peace hovers over the erst while divided democracy and hope dethrones despair, peace supplants discord and the ameliorating balm of time will heal all wounds.

Orient in Texas. Sweetwater: The Orient track link gang will begin laying track on once from Sweetwater north. The line is all graded from Sweetwater to Red River, and the connections with and crossing of that line and the Texas and Pacific Railway are completed and about two miles of line laid. The work is in fine shape to be rapidly pushed. It is expected that at least fifty miles will be laid in time to move the cotton crop of Fisher, Jones and Haskell Counties.

Prominent Chink Lazes Sparklers. Indianapolis, Ind.: Wong Kah Kah, Chinese commissioner to the World's Fair, who with his wife and two daughters is living in this city, was awakened Sunday morning by the presence of a burglar, who was rifling Wong's pockets. In answer to a question as to what he was doing the burglar jumped through the window and escaped. Mr. Wong declared that he had been robbed of diamonds valued at \$4000.

Bagged \$30,000. City of Mexico: A money changer's establishment next door to and under part of the Maison D'Or Hotel was robbed of \$30,000 in gold bank notes and securities by a man who had taken a room in the hotel and who came down through a hole in the floor. The robbery is one of the boldest and most ingeniously planned in the criminal annals of the city. Among the plunder was \$5000 in American treasury and National bank notes.

To Celebrate at Ardmore. Ardmore, I. T.: Many Indian Territory towns will mark their anniversary this year with big celebrations. In Ardmore a three days' celebration is planned, and indications are that the festivities will eclipse all previous events. The dates fixed are the 27th, 28th and 29th of July. The program includes Indian dances, baseball games and barbecues. A feature of one of the days will be a big street parade with decorated floats and carriages.

Oil Strike Reported in McCulloch. Brownwood: Considerable excitement has been caused by the discovery of oil at Lohn, in McCulloch County, and about eleven miles west of Mercury. A well was being drilled for water when at a depth of 200 feet oil was found. Reports from the well show a good quantity and good quality of oil. A party coming from the well says 200 gallons of oil was pumped from the well Wednesday, and still the oil stood 140 feet in the well.

TEXAS DEMOCRATIC PRIMARY.

Davidson Leads—Cooper and Pinckney Are Defeated.

Dallas, July 11.—Returns from the Democratic primary election held on Saturday are still coming in slowly. Except in the case of some of the smaller counties, which held county mass meetings or precinct conventions, there are but few complete returns. The reports thus far received, however, cover a majority of the voting boxes in the most populous counties, and are sufficient to indicate the result with respect to more important offices.

There were but five of the present Congressmen who had opposition. Of these Cooper, Second District, has been defeated by M. L. Brooks of San Augustine County, Pinckney, Eighth District, has been defeated by O. T. Holt of Harris County. Slayden of the Fourteenth District and Henry of the Eleventh District have been re-elected. The race between Congressmen Gillespie and Judge Poindeexter in the Twelfth District is very close, and it may take the final count to show the result.

Reports thus far received indicate that Davidson for Attorney General has carried counties that will give him 212 votes in the State convention; Schluter has 31 votes, Simmons 45 and Wear 62. The vote in twenty-eight counties heard from will be pronounced, as no candidate for this office received a majority in them. It will require 474 votes to nominate in the convention. Davidson may pick up enough votes from counties yet to hear from and in the pro rating to give him a majority, but at present the outlook is that the convention will have to decide the Attorney General's race.

The strength of other candidates in the counties heard from is as follows:

Controller—Stephens 443, Blanchette 148. State Treasurer—Robbins 503, Strong 99. Superintendent of Public Instruction—Cousins 406, Letevre 212. The election of Stephens, Cousins and Robbins is indicated.

STATE OFFICERS. United States Senator—Charles A. Culberson (re-election). Governor—S. W. T. Lanham (re-election). Lieutenant Governor—George D. Neal (re-election). Land Commissioner—John J. Terrell (re-election). Associate Justice Supreme Court—T. J. Brown (re-election).

Associate Justice Court Criminal Appeals—M. M. Brooks (re-election). Justice First Court Civil Appeals—R. A. Pleasant (re-election). Chief Justice Second Court Civil Appeals—Truman H. Connor (re-election). Associate Justice Third Court Civil Appeals—J. A. Elison (now serving in the court by appointment). Associate Justice Fourth Court Civil Appeals—H. H. Nell (re-election). Justice Fifth Court Civil Appeals—Anson Rainey (re-election) and J. M. Taibot (now serving in that court by appointment).

Senators ailey and Tillman Hurt. St. Louis: Senator Tillman of North Carolina, and Senator Bailey of Texas, had a narrow escape from death at Jefferson avenue and Chestnut street Sunday afternoon. An automobile in which they were riding collided with a Jefferson avenue car. The automobile was wrecked, Senator Tillman sustained a sprained ankle and Senator Bailey was bruised about the body but neither was seriously hurt.

Fruit Interest at Chandler. Chandler: Chandler has secured a canning factory, which is running daily with a capacity of 20,000 cans per day. The peach crop is very large this season. The Truck Growers' Association has already shipped ten cars of the finest Elberta peaches grown in Eastern Texas and are still loading daily. The prices realized on the last cars are not entirely satisfactory, owing to the market being glutted.

Horses and Mules Go East. Waco: Dealers in this city have forwarded ponies and mules to Atlantic ports, purchased. It is believed, for the use of the Russian or the Japanese army, probably for the latter, as Japan is lacking in horse flesh, the Russians being better supplied in that respect. The order specified horses and mules not under fifteen hands high and not over seven years old, sound and suitable for the saddle and pack saddle.

Grim Visaged War Still Wears a Wrinkled Front

New York, July 8.—The Journal, under date of yesterday, from Shan-Hai-Kwan, says: Little news has reached here of the fighting above Liao Yang.

Gen. Keller is said to be making a desperate defense along the great Peikia road above the Motien Pass to hold Kuroki until the Russian lines at Liao Yang can be properly reinforced, and, according to advices from Russian sources, is meeting with success.

Samsoneff is also said to have gained some advantage over the Japanese below Ta-Schi-Kiao. No fighting is reported about Hal-Cheng for the past two days. The heavy rains due to the torrential rains is seriously hampering the Japanese movements. Tokio, July 7.—The military strength in the Empire is by no means exhausted. Double the number of men now in Manchuria, well trained and well armed, can be put in the field should they be needed and regardless of the reinforcements which may reach Kuropatkin, he still will find himself outnumbered. Nobody outside the war council knows how many men Japan now has in Manchuria. The popular estimate is that the number approaches 200,000, and the transport fleet is constantly adding to this number more rapidly than the trans-Siberian railroad can bring reinforcements from Russia to Kuropatkin. The estimate is made in some well informed quarters that Japan can if

necessary pour a million soldiers into Manchuria. This, however, in all probability is an exaggeration.

There is no question that the Vladivostok squadron is a source of irritation and worry to the war council, and plans have been made which is believed will result either in its destruction or making it innocuous. What these plans are is of course a profound secret, but those high in authority are confident they will be successful.

Operations of a paramount importance are going on within the war zone, but the government succeeds in veiling them in almost absolute secrecy. Since the operation of Dainey the government officials have been silent concerning conditions at Port Arthur. It is generally believed however that the Japanese army and navy are daily tightening their relentless grip on the besieged city and that a final assault followed by the fall of the fortress is now a matter of weeks. It is known that engagements of varying importance are constantly occurring on the hills surrounding the city. The fleet of Admiral Togo is in motion day and night and is frequently engaged, but the forces and number of guns of the besieged, as well as their positions, are secrets which probably will not be revealed until the final and decisive action.

Fragmentary information from various sources especially Chinese reach Japan, but its publication here or forwarding abroad is forbidden under severe penalty.

THURSDAY AT THE CONVENTION.

St. Louis, July 8.—The day was spent in organizing the convention. The big event of the day was a fifteen-minute oration of Hon. Wm. J. Bryan, which was finally overcome by a preponderance of Parker delegates and banners. The platform committee brought in its report, which declares for a gold standard, Monroe doctrine, reciprocity, necessity of Isthmian canal, pensions and reclamation of arid lands, and election of United States Senators by popular vote.

Colombia is Pacific. New York: It is the general opinion, says a Herald dispatch from Bogota, that the official proclamation of Gen. Rafael Reyes, as President, and Ramon Gonzalez Valencia, as Vice President, which occurred July 4, guarantees peace, order and the future prosperity of Colombia, owing to Gen. Reyes' personal and political prestige at home and abroad. The interior of Colombia is peaceful.

City Not Held Responsible. Chicago, Ill.: Litigation to the probable aggregate total of \$3,000,000 has been discouraged by a ruling of Judge Holden in the Superior Court to the effect that the city of Chicago was not liable in any degree for the Iroquois Theatre fire. A suit by Eva Catherine Gibson for \$15,000 damages because of a broken arm and an injured spine was the cause decided. Sixty other suits are pending.

Clark Withdraws Injunction. Victoria: Entomologist Hunter stated that Ross Clark has telephoned Judge Hambleton of Houston to set aside the injunction restraining Entomologist Cook and Hunter from bringing the Guatemala ants to Victoria. Mr. Clark has the injunction withdrawn after satisfactory explanation by Dr. Hunter how the experiments with the ants would be conducted. The ants are consequently expected here Friday.

Bud Browning Dies. Fort Worth: W. L. Browning of this city, familiarly known to his friends as "Bud" Browning, a well-known cattleman, died Thursday afternoon. Deceased was about 62 years of age and a prominent Mason. He had recently removed to this city, where he had a large number of friends. Hon. J. N. Browning of Amarillo and J. R. Browning of Weatherford, brothers of the deceased, were at the bedside when death came.

Dipping Wood County Cattle. Guthrie, Ok.: R. H. Hahn, the Territorial cattle inspector, has returned from Woodward County, where he has been superintending the dipping of cattle in the mange-infected district in that county. There are several townships involved, and the orders were for every head of stock dipped. Many of the owners objected, and Hahn, with the assistance of the sheriff, has been enforcing the order.

The El Paso Coal Field. El Paso: The excitement incident to the discovery of a vein of coal near Fort Hancock, forty-five miles east of here, is unabated, and the County Surveyor's office is besieged by a crowd of persons anxious to make filings. More than 64,000 acres have already been pre-empted. Several shafts are being sunk in the vicinity of the original Finlay shaft, and it is stated that in each instance coal was entered at a depth of about 250 feet.

Shun Over and Killed. Shawnee, Ok.: Charlie Buchanan, aged 10 years, was killed at McLoud, Ok., Thursday. He was standing with some other boys, and in some way fell in front of a team of heavy horses which became frightened and began to plunge and kick. The boy was kicked in the middle of the back and death ensued within ten minutes after he was pulled from under the horses. The boy was a member of one of the best known families in McLoud.

AGRICULTURE

Adapting Corn Varieties.

We are always learning something new about the corn plant. One thing, new at least to a good many students of the corn plant is that corn varieties differ so greatly in their characteristics that success or failure with corn depends on the selection of the right varieties for certain fields. It is not unusual to hear of a man declaring that the variety of corn he grows is one of the most profitable in the world and will give most astonishing yields. The fact is that he is growing it on a location that is admirably suited to it. We are now coming to have varieties of corn adapted to uplands and to lowlands. The lowland variety may do very well on the upland in a wet year, but in a dry year proves almost a failure, while the variety adapted to the upland yields well even in bad seasons. At the present time this differentiation is only beginning to be made. During this summer corn growers would do well to watch the behavior of corn on lowlands and uplands. At the present time we have only very meager data by which to figure out what kind of corn a man should select for the bottom lands and what kind for the uplands. Some of our experimenters are only now just beginning to study the corn plant from this standpoint. We have, however, much to hope for from our agricultural colleges in this matter. The students are taking great interest in such matters and are taking up every phase of corn growing. This study of varieties is one that may well engross the attention of some of the brightest minds.

The Potato Bug. One of the great obstacles to the raising of potatoes has been the potato bug; yet this insect is easily controlled, if the farmer will resort to the use of the arsenical poisons. A good many farmers, however, are afraid to have poison around, knowing that now and then very serious accidents happen as a result of its presence. Such farmers are forced to resort to the old methods of hand-picking. Indeed, such a potato grower as A. B. Terry hand-picks his potato bugs. The most popular course, however, is to use paris green either as dust or as part of a liquid solution. If the bugs are taken as soon as they appear, it will seldom be necessary to treat the entire field. The bugs being killed on the part of the field where they appear, will have no opportunity to extend their labors to other parts. There are many combinations used, but one pound of pure paris green to 150 gallons of water is enough. When dust is used one pound of the paris green may be mixed with 60 pounds of air slaked lime and the resulting powder applied by being sifted over the plants with some kind of a box in which are small holes. A good sized pepper box is found serviceable. In such a case it is better to apply the dust while the dew is on the vines.

Tornado Damages Guatemala Port. New York: Advice received by cable are to the effect that the port of Champerico, Guatemala, was almost, if not wholly destroyed last Tuesday by a tornado. Details are lacking, but it is feared that the port will not be able to receive or ship goods for two months. Champerico, as well as the rest of the Guatemalan coast, frequently has suffered from the elements, earthquakes and tidal waves being the most common trouble that come to Central American ports.

Green Manure. Green manure is the name applied to a crop that is grown for the purpose of being turned under. Some of the lands that are exhausted to such an extent that they will not bear good crops of grain yet will be found growing up to some kind of weeds. Sometimes this weed crop is the best thing that can be grown on the land, if the farmer is smart enough to turn it under. It adds humus to the soil. We have heard of fields that were practically good for nothing, yet were reclaimed by having the weeds plowed under for three or more years. The fact was that the fields were deficient in humus and nitrogen and needed an application of both of these, which they got in the green manures given in the form of the turned under weeds. The best green manure in most parts of the North is the clover plant. But cow peas and soy beans are excellent where they can be grown. All kinds of legumes are very good for turning under, as they always add nitrogen to the soil. Rye and such things are sometimes used, but they add little or nothing to the soil except fiber, which is not taken up by the roots of the growing plants. It may, however, do some good to the soil mechanically.

Tests with Oats. The Farm Crops Department of the Iowa Agricultural College is making a test on the College farm of 29 of the leading varieties of oats. In addition to the test, Prof. W. H. Olin of this Department, has arranged with Mr. A. E. Cook of the Brookmont Farm, Odebolt, Iowa, for a co-operative test on a large scale of three of the varieties of oats best adapted to Iowa conditions. Six hundred acres have been seeded to oats on the Brookmont Farm for this experiment. One variety has been selected as the best oats for feeding horses and as a heavy yielder. A second variety has been selected to meet the demands for a choice milling oats and samples of the crop will be submitted to the great oat meal combination to be tested for milling. A third variety was selected for good feeding qualities and high yields, it having shown a yield of 102 bushels per acre on large fields. Prof. Olin will make a careful study of the habits of growth of these varieties, their yield and adaptation to Iowa soils; and will report through press bulletins.

Question of Speed. The general farmer has little or no interest in the trotting horse except in so far as he may be used to cross on slow horses to give their progeny enough speed to make them useful as carriage horses. The farmer cannot afford to waste his time trying to develop trotters. The trotting horse is not a farm horse, as his great speed can be of no use except as a means of gambling. Who wants to drive a carriage horse at the rate of a mile in two minutes? What we do want in horses for the farm is the speed that appears in the walking gait. If our fair managers wanted to really improve the speed of farm horses they could establish contests in walking.

Almost every boy in a prison home today, and the once sweet, pure girl, banished to haunts of shame, by the world's fine scorn, represent somebody's lost opportunity. Godless social fads demand the presence of the incarnated tempter, and when he has wrought his undoing of purity and character, and this is revealed the same Godless compact quiescently issues its edict of social damnation, without remorse for its own share in the infamy, but responsibility attaches eternally nevertheless.—Baptist Standard.

Already 200 Porto Rican teachers have reached New York on their way to Ithaca to attend a summer school opened by Cornell University. The few hours they were in the world's metropolis they penetrated the city as far as Wall street. Four hundred other teachers from the same island have reached Boston. Many of them made great sacrifices to come to the United States, and they will return inspired with new ideas and a patriotism for America which will be most beneficial for the Porto Ricans at home. After all we do some things in this land of hurry and strife which are well worth doing. And this is one of them.

Governor Otero has received notification from James F. Hooker, of Vermont, secretary of the committee of notification of the Republican national convention that the committee will meet in New York on the 26th of July for the purpose of calling on President Roosevelt on the following day to officially notify him of his nomination as the candidate of the Republican party for President during the present campaign. Before leaving for Sagamore Hill on Long Island, the President's country residence, group photographs of the members of the notification committee will be taken by Falck, the noted New York artist. There will be a special train to Oyster Point to convey the committee, and carriages will be in waiting to take the members to the President's country home at Sagamore Hill. After the conclusion of the business of the visit, the President will entertain the members of the committee at luncheon, and thereafter the party will return to New York. The Governor expects to leave for New York about the 20th.

The fact that the Prohibition candidate for President has the suggestive name of Swallow will not prevent a good many nice cold water people from voting for him. But it takes more than one Swallow to make a President. Destiny has long since decided that the next President will bear the name of Roosevelt.

In old Faneuil Hall, in Boston, the "Cradle of Liberty," on the Fourth of July, the Declaration of independence was read by an Italian schoolboy 18 years old, in recognition of his proficiency. And the same thing has been done before by an Italian. This ought to make the blood run cold in the veins of all Yankee school-boys, if there are any left.

While the President remains at Oyster Bay he will receive but few persons. Even he, with all his youth and wonderful vitality, needs unbending and relaxation. He has been a continually busy man since the assembling of the extra session of Congress, and has had many perplexing problems to contend with. He is well entitled to a rest.

B. M. Cobb, who has run a gin in Vernon for the past 10 years, and a man who has made a study of cotton, says it will take two gins in Vernon two solid years of constant running to gin the Wilbarger crop. He says there is five times the acreage in cotton compared with last year, and the stand is simply fine. The trouble, he says, will be to get hands when picking time comes.—Vernon Hornet.

It is announced that there will be a reorganization of the Inspectors Office in New York City. There ought not to be any doubt about it. The present inefficient inspectors should be sent to jail at hard work, and now men of integrity and veracity put in their places. The whole inspection system is antiquated and needs overhauling with new laws, and the discarding of life-preservers made of granulated cork and glue. Mr. Metcalf, the new Secretary of Commerce, has a chance to distinguish himself.

It is humiliating to think that when a foreigner of distinction and a scientist of renown, like M. Santos-Dumont, goes to the expense of coming from Paris to St. Louis, to add to the attractions of the Fair, and brings his airship with him, some jealous wretch, should destroy his balloon. Along with our progress in civilization there follows a trail of crime and boodle, and graft, and diabolism, unequalled in history. The emphasis is greater because the contrast is so striking.

Rainfall for June.
The rainfall for this month has been 5 and 53 one-hundredths. This is sufficient to make Kafir and sorgham, and insures plenty of grass for stock. This is about the average for the month for the past twelve years.—Amarillo Advocate.

A \$1000.00 Bill.
The First National Bank received a one thousand dollar bill on deposit this week from one of its customers, and bills of this denomination not being in general circulation often, was on exhibition for awhile. There are no doubt many persons who never saw a one thousand dollar bill. This one incident shows something of the volume of business done by this bank.

Do You Want The Earth
"The Earth" is a new illustrated monthly journal, published by the Santa Fe. Tells the truth about the Great Southwest and California—the truth is good enough. Frequent articles describing your part of the country. Contains letters written by farmers, stockmen and fruit raisers; men who have succeeded and who give the reason why. Strong editorials and interesting miscellany. A very persuasive immigration helper. Why not have it sent to friends "back east," to do missionary work for the Southwest? Regular subscription price is 50 cents a year; worth double. Send 50 cents (coin or stamps) with names and addresses of five eastern friends; we will mail "The Earth" to them and to you for six months. Write today to "The Earth," 1120 Railway Exchange Building, Chicago, Ill.
