There will be no preaching services until the second Sunday when I will hold my last service in Portales. Then we hope to have good attendance. In order that the community may know I will state some of the work done by the Methodist church since I have been its pastor.

First.—A church debt of \$650.00 has been paid. Also a hardware bill for \$25.00, a debt of \$60.00 on the organ has been paid, also a debt of \$10.00 on a lamp, \$6.00 on Rev Hill have been paid, a stove fuel and pulpit, together costing \$40.00 have been put into the church. The windows have been screened which cost \$12.50.

There has been an increase of twenty in the membership, one hundred percent in the Sunday school, fifty percent in the attendance at church, and twenty-five percent in the monthly salary of the pastor. I leave some harmony where I found wrangling and confusion.

J. H. MESSER, Pastor.

Notice to Shippers.

Beginning Saturday, August 26th and continuing thereafter on every Monday and Saturday up to and including December 23rd, 1905, we will run regular stock trains for Kansas City, St. Joseph and Chicago markets on the following schedule:

Floyd Jettings.

Wanted—A good rain. More hogs to eat the corn and make plenty of home made bacon. More cane mills to make up the crop of cane, more preparation toward sowing wheat this fall, more co-operation among the farmers in raising a moneyed crop in this country, what to plant and how to plant it.

The baptists are holding a protracted meeting at Floyd school house this week with a good interest manifested.

Loren Johnston whom we stated last week of having a broken arm, we are glad to say is getting along nicely.

Hugh and Stonevall King each took a load of produce to the new railroad this week.

A contractor from the cut-off was through this part of the country the other day looking for hands.

They Were Both Wrong.

During some army manoeuvres in England, two officers were disputing about the classification of a tree. One was sure it was a birch, the other was equally certain it was an ash. A private was at length appealed to to settle the question. He looked up and down the tree, walked around it, stripped a piece of bark off and dug into the trunk with his bayonet. "What are you doing that for?" asked one of the officers. "To find out what kind of a tree it is, major." "Well, what is it?" The private gave another dig and made a minute inspection of a splinter, then he delivered judgment. "You are both wrong," he remarked respectfully, though authoritatively. "It ain't a birch tree, and it ain't a ash tree; it's an ordinary wooden 'un."

Snake Killed by a Mouse.

A remarkable instance of a snake having been killed by a mouse is recorded by Mr. F. F. Francis of Wimbledon. He states that an ordinary grass snake which he had in confinement was given a mouse for food. The snake made several attempts to catch the mouse, but in every case missed. The next day the snake was found to be dead, and there was evidence that it had been attacked and killed by the mouse, which was alive, and had eaten a part of the snake's body. The skill of the mongoose in tackling the cobra is well known, but we fancy that a case of this kind, which could, of course, only occur with a captive ophidian, must be rare. —London Telegraph.

Montenegro Tobacco.

It is officially announced that the government of Montenegro has leased its tobacco monopoly to a Venetian company, which has been formed with a capital of 1,000,000 francs (\$19,000). Besides furthering the production, manufacture and export of Montenegro tobacco and tobacco products, this company will reorganize the monopoly, building a factory, with head office in Montenegro's chief city, Podgorica, and establishing stores in Niksic and at the port of Antivari.

Wise Sandy.

An English lady meeting her lover in the grounds said to him: "Sandy, I am surprised you do not marry. You have got a free house, coals, and gas, also a weekly wage of thirty shillings, so I think all you want to complete your happiness is a wife." And, to lend weight to her argument, she added, "Adam, who was the first gardener, was given a wife." "Trop for the man," replied Sandy, "but he hadn't her long till he lost his job."

ECONOMY NATURAL WITH HIM.

Uncle informs Reggie that the Trait is inherited.

"I would never think," said Reggie Pa' Inham, "of go'g in to dinner without wearing evening clothes."

"That's good," said his uncle on his mother's side. "Don't ever wear out your mornin' clo's when you can save 'em as well as not. I remember how you pa used to lay his chaw of tobacco on the window sill when he went to eat, so as not to waste it. There was a man that was always gettin' everything out of a thing there was in it. It was that disposition that kept him from ever bein' satisfied till he'd got the business down so the only thing about a steer that went to waste in his establishment was the grunt the critter makes when they hit him with an ax. I guess you must git your habit of wastin' to do things right from him."

The Strange New Language.

"By Greek, say, Japanese, to me; But Cynthia, whenever I meet her, Can never well contain'd be Till I declare her very true. And then all made I know far two-er.

That lovely tongue, she will sigh, Is two-capo-griets hood'er me. And while I weep to see her cry, I'd dare all deaths to kiss her. If you'd translate her language for me.

Since my dear fate is to be here, For with rare charm doth she tread man, I'd have her mine, but she averts It is a woman she prefers a man. New 3 am man, but what's a man?

To my dismay it adds despair, A search for knowledge risky. For when I asked what "cosier" were from beneath her cold, hard stare, And stern response that I was dinkie. The mystic language of the Smart Set. —Fall Mall Gazette.

Century-Old Custom Ceases.

The century-old practice of ringing Storrington church bell at 8 o'clock at night has been stopped by the vicar. A romantic story attaches to the origin of the ringing of the bell. One stormy night a lady was lost on the Sussex downs, and she had given up hope of ever reaching the village, when she heard Storrington church bell ringing. She walked in the direction whence the sound proceeded, and reached home in safety. In token of her gratitude she made arrangements for the bell to be rung every night at 8 in perpetuity, and left an acre of ground for the use of the person tolling the bell. —London Express.

Earnestness.

Take life earnestly. Take it as an earnest, vital, essential matter. Take it as though you personally were born to the task of performing a noble task in it—as though the world had waited for your coming. Take it as though it was a grand opportunity to do and to achieve, to carry forward great and good schemes, to help a heart-broken sister. The fact is, life is undervalued by a great majority of women. It is not made half as much of as should be the case. Now and then a woman stands aside from the crowd, labors earnestly, steadfastly, confidently and straightway becomes famous.—Exchange.

Nothing has ever equalled it. Nothing can ever surpass it.

YELLOW JACK HOLDS ON. LITTLE GAINS OR LOSSES

Sunday Shows an Increase in Death Roll.

New Orleans, Aug. 28.—Following is the official yellow fever report up to 6 p. m. Sunday:

New Cases	31
Total to date	1,743
Deaths	13
Total deaths	255
New foci	12
Total	402
Remaining under treatment	199

The record shows the smallest number of new cases since Aug. 6, and the largest number of deaths on any one day since the fever made its appearance. The unusual number of deaths is attributed in a measure to the change in the weather, the night being cool and pleasant, in great contrast to the weather of the preceding week. Three well-known merchants are among the new cases. Only two names that can be traced to Italian origin are among the thirty-one. Of the deaths, eight are Italians. Two died in the Charity Hospital and two in the Emergency Hospital. All but two of the deaths are down town.

The principal news from outside the city was the announcement from Natchez of the discovery of six cases there and the attempt to blame New Orleans for them. This is regarded as rather strange in view of the fact that all of the tight quarantines against New Orleans, Natchez has maintained the tightest, not even allowing her own people to enter if they had been near New Orleans.

Other reports from the country are as follows:

- Patterson, no new cases and no death.
- Amelia, two cases.
- Bayou Boeuf, one case.
- Pecan Grove, three cases and one death.
- Elizabeth plantation, one death.
- Hanson City, four new cases and one death.
- St. Rose, two cases.
- Port Barrow, two cases.
- Ninth Ward of Jefferson Parish, one case.
- Lake Providence, three cases.
- Gulfport, three cases.
- Mississippi City, no new cases.
- The Southern Pacific, at the request of the State Board of Health, has put on a special coach for the accommodation of people traveling between infected points on that road. It will be run every other day.

Vicksburg, Miss., Aug. 28.—Physicians of the Natchez Board of Health at noon today examined and pronounced as yellow fever two patients, a white woman and a negro man.

Examining further, five negroes convalescent from yellow fever were found in the northeast end of town, together with seventeen suspected cases of sickness, thirteen of which are undoubtedly yellow fever.

The infection is traced to a negro woman who came from New Orleans July 19.

Lake Providence reports five new cases making a total of fifteen.

The farmers of Travis and adjoining counties are sadly in need of cotton pickers to pick the cotton crop which is now fast maturing. Fifty cents per hundred and sleeping quarters are offered to hands.

Boil Weevils Disappearing.
Hillboro: James McCown, a farmer of the Brazos region, in speaking of the practical disappearance of the boil weevil, accounts for it on the theory of the crop being early last year and mainly gathered by November 1. The farmers being thus enabled to plow their lands early and turn the cotton plants under. He thinks it would be profitable for farmers to destroy the foliage early every fall and rake and burn the stalks.

Encouraging reports come in from the country around Belton regarding the pecan crop of this section. The crop is said to give promise of being one of the most prolific of that section for years.

Five hundred and twenty-three bales of cotton were marketed in Taylor Saturday and business in commercial pursuits were rushing. Saturday's receipts make a total of 3,259 bales of new cotton marketed in Taylor this season.

Gold Output of Nome.
Seattle: United States Assayer Fred Wing, in charge of the local assay office, has made the statement that his estimate of the gold output of Nome for the season of 1905 was \$10,000,000.

This amount will be the record for Nome and will exceed the output of last year by \$3,000,000.

Mr. Wing bases his estimate on the amount of gold which has been sent out of Nome so far this year.

Children Play With Fatal Fire.
Denton: Klondyke and Harry Parker, aged 8 and 6 years respectively, were so badly burned around a fire burning while playing around a fire that the older boy died soon after, the other dying later.

The children were in the back yard of the home and were pouring coal oil from a can on to the fire when the flame rushed up to the can, causing it to explode.

BAD AS MEDIEVAL DAYS. INSANE BOUND AS FELONS.

No Remedial Care Possible to at Least 1000 People.

Austin: The care of the insane has become a serious problem in the State according to the representations made by the insane asylums. At this time there are 359 applications on file at the asylum in this city for admission but it is crowded to its utmost limit. The same number of applications have been pending at the two other asylums. It happens that some of the applications are duplicated, for, failing to get in one asylum, the others were tried. It is estimated that fully 500 applications for admission were rejected at the Austin asylum during the last twelve months because there was no room for the patients. The same ratio exists at the others as they too are filled.

Dr. Worsham, superintendent of the State Insane Asylum, states that, according to the records at the institutions, there are fully 1,000 insane in the jails and on the county farms of the State. In contrast, the last Legislature appropriated \$83,000 for three additional buildings at the North Texas Insane Asylum, which must accommodate at least 500 patients. The appropriation is available September 1, and it is expected that the contracts on the buildings will be let at once. In the meantime more insane are being lodged in jails and the legislature does not meet for nearly two years.

At this time there are approximately 1500 patients in the North Texas Insane Asylum, about 1,200 in the State Lunatic Asylum in this city and possibly 1000 in the Southwestern Insane Asylum at San Antonio. There are also 250 patients in the Epileptic Colony at Abilene. The latter will get a new building to cost \$10,000 which will give more room for patients.

Famine and Discontent to Meet.
St. Petersburg, Aug. 26.—The alarming situation in the interior of Russia has tended to make the czar tractable. The president of the famine relief committee, Prince Lyoff, after having been received in audience by the czar, said: "The latest interior troubles greatly affected the emperor. He realizes the difficulty of containing the war while the country is ebullient with discontent. The douma ukase has proved unsatisfactory, and larger concessions are demanded, while famine effects the people of twenty-four provinces and they require immediate relief."

Abilene's New Railway Assured.
Abilene: Major J. D. Beardsley of Gibsland, La., has just closed the contract with Abilene, Anson Stamford, Haskell and Munday for the construction of eighty miles of railroad to be built from this city through these towns, they having guaranteed a bonus of \$123,000, right of way and depot grounds.

The charter for the road will call for Brady on the south and some point, yet indefinite, in the Territory north of the Texas line. The final survey of the route will be begun in a few days and contracts for construction of the route will be begun in a few days in Knox County.

Why it is impossible for any barber to work on any man's face without working his own?

Evidently Committed Suicide.
Guthrie: Searching parties Sunday discovered the dead body of John L. McDaniel, a prominent Roger Mills County farmer, lying in a thicket about a half mile from his residence. He disappeared about a week ago and ever since searching parties have been busy trying to locate him. When found one finger was wrapped about the trigger of a rifle. A bullet had passed through his brain.

Wheat in Grayson.
Sherman: Forty days late, threshing still goes on in Grayson county. About 60 per cent of the grain in marketable, but grades a little low. Where care was taken in shelling the salvage in grain has been marked. The almost unprecedented season just over has given object lessons that promise just now to have an effect not heretofore realized.

Conscience is a still, small voice that tells us when we are found out.

Mrs. Troph Barbara, a woman 60 years of age was taken to the John Sealy Hospital at Galveston Sunday morning and died a few moments later from the effects of carbolic acid poisoning.

Two suspicious deaths have occurred at Ancon hospital, Panama. They are thought to be bubonic plague. One was a victim had been working in the lumber yard at La Boca, the other came from Lazaret, where lepers are kept.

Ed J. Williams was killed at Seabrook Saturday by a gunshot. The accident occurred by Mr. Williams loading a target rifle and giving it to a young boy, who accidentally discharged it.

M. Clarkson, aged 78, an inmate of the Confederate home, died Saturday night and was buried Sunday in the State Cemetery. Deceased entered the Home from Paris in 1900 and served in Company C. Twenty-Ninth Texas Infantry, Maxey's Brigade.

IN OLD OCEAN'S DEPTH TWENTY SAILORS GO DOWN.

Storm Tossed and Starving Two Survivors Land.

Fernandis, Fla., Aug. 25.—About noon yesterday two sailors, one Spaniard, the other an Italian, reported as having landed at Amelia Island Beach, to which point they had pulled ashore in the small boat belonging to a vessel lost at sea about 12:30 the night before. These men, who could not speak English, were interviewed and the result of their testimony was as follows:

They were the only survivors of the crew of the steamer Peonic, Capt. Jones, which was bound for New Orleans from Philadelphia, loaded with coal, capacity 1,154 tons; counting officers and men there were twenty-two persons on board, twenty of whom were drowned. About midnight of Sunday, during the heaviest part of the storm which had raged all day, the officer of the deck gave the order to pull further out to sea, fearing that they were approaching too near the coast. In the endeavor to turn the ship was struck by a heavy sea, the cargo shifted and she began sinking rapidly. The alarm was sounded, but she went to the bottom, leaving no trace of her on the waters. The account of their own escape, out of all the ship's crew who went down, was something approaching the marvelous.

One of the men was at the wheel at the time the order was given, the other upon the watch. As soon as the ship began to careen these men rushed for one of the small boats, into which they jumped as the vessel began to go down. With their knives they severed the ropes as the water level was reached and the small boat was thrown far out on the waves.

They furthermore say that they discovered through the blackness and storm the figures of part of the awakened crew, some of whom managed to crowd into another of the ship's boats. This however, was caught in a trough of the sea, thrown violently against the ventilators and then caught fast. Their cries for help could be heard as the ship went down. Alone through the rest of the night with the storm raging and threatening each moment to swamp their small boat, these two men were gradually borne ashore to ward Amelia Island, landing at 11 a. m. Monday.

Their condition was pitiable, with all the marks of a savage battle amid tempestuous seas. The men, whose names are Begallant Humbert and Antonio Clark, were unable to speak, excepting in their native tongues, and it was some time before the facts of the disaster were thoroughly ascertained. They have testified to the correctness of the report before a notary public and the community here has cared for them.

Killed Himself in Church.
Minneapolis, Minn.: But a few minutes after the close of Rev. W. B. Riley's address at the First Baptist church Sunday a man who is thought to be W. Rowen of Sublette, Ill., got up in a pew and fired a bullet through his heart, dying instantly. On search of his cloths a draft for \$700 was found on his person made out in the name of W. Rowen, Sublette, Ill. Some change was found in another pocket.

William Ely, held by the police for the Johansson Jewelry store hold-up in Chicago has squandered \$200,000 within three years, according to the confessions he made. This money, he said, was left him at the death of his father.

Diversifier's Experience in Lamar.
Paris: C. P. Stubblefield of the Chicago community furnishes a good example of diversified farming. He planted eight acres in onions this year and has just harvested and disposed of his crop. On the eight acres he made 500 bushels and sold them for \$1 a bushel to a Paris wholesaler, realizing \$500 in cash.

He will now sow the same ground in turnips and expects to derive an additional income from another crop the same year. Mr. Stubblefield says that his option crop was raised under the most unfavorable conditions. The land was low and subject to overflow, and the excessive rains caused some of the onions to rot and prevented a good stand. He says that under favorable conditions he would have made 100 bushels to the acre.

The movement of car lots of Texas pears from the southern and eastern sections of the State to the North and to northern points in Texas has begun.

Found Dead in Bed.
Texarkana: Charles H. Pettie, one of the oldest and best known sign painters in this city, was found dead in bed. He was a Red Man and a prominent Woman of the World, having been one of the Texas delegates to the head camp which convened last May at Birmingham, Ala. He was a very temperate man, being a teetotaler as to alcoholic beverages, but was of a very congenial disposition, which made him quite popular.

Killed in a Runaway.
Beggs, I. T.: Johnny Bunn, the stepson of W. A. Eskridge, was instantly killed one mile south of Beggs while driving a team of mules. He was driving and had walked out on the tongue of the wagon to fix the harness. This frightened the mules causing them to run away. They ran against a large tree, catching the boy between the front of the wagon box and tree, brushing him very badly.

SIGNIFICANCE IS RECOGNIZED.

Japan Cedes Half of Sakhalin—Only Stumbling Block Removed.

St. Petersburg, Aug. 25.—The Associated Press dispatch from Portsmouth declaring that President Roosevelt was authorized several days ago on behalf of Japan to waive all claim for indemnity or reimbursement for the cost of the war, and to cede back to Russia the northern half of the Island of Sakhalin, leaving the "redemption price of it to the arbitration of a mixed commission" was received too late here last night to reach the general public, but its significance was instantly recognized in the quarters where it became known.

There is every reason to believe, judging from the official expressions persistently given out by the foreign office since the beginning of the negotiations at Portsmouth that this proposition by Japan to waive the question of indemnity goes far toward removing the last and according to official explanations, the only stumbling block in the way of peace.

The foreign office has said that every disputed point between Japan and Russia, with the exception of payment of indemnity, had practically arranged on a basis satisfactory to both sides, but that Russia would never pay an indemnity. If the latest proposals of Japan means that she waives all claims of indemnity of any kind, and giving up all idea of reimbursement for expenses of the war in any guise whatever and in place thereof, is prepared to accept for the restoration of Russia of the northern half of Sakhalin a redemption price to be fixed by an unbiased commission, this price to be determined upon the actual value of the island, and not to take into account Japan's war expenses, or to carry a concealed indemnity to Japan, there is reason for the assertion that in all probability Japan's proposal was never understood here in this way, and according to the Russian official statement, that the stumbling block to peace can be removed and that there ought to be a new and promising basis for the continuance of the negotiations.

Texarkana Antis Complain.
Texarkana: The business men of the Texas side are very much agitated and concerned over the local option election which it is proposed to pull in the Bowie county on or about September 23. Outside of Texarkana the county is nominally in favor of prohibition, though the city of Texarkana, Tex., two years ago voted for license by a majority of nearly three to one.

Those opposed to local option argue that, inasmuch as the liquor traffic prevails on the Arkansas side, it would be practically useless, so far as moral results are concerned, to vote it out on the Texas side. The city and county would lose the revenue, while drunkenness would not be in any wise diminished, as men could easily cross the State line, get liquor whenever they wanted it and return to the Texas side.

Santa Fe Enters Chickasha.
Chickasha: The first Santa Fe train into Chickasha pulled in at the Rock Island station Monday morning. The Santa Fe is operating the Rock Island line from Chickasha to Lindsay, and its own line from that city to Pauls Valley. One passenger train is run each way daily. The entrance of the Santa Fe here gives this city five railroads, including the two branch lines of the Rock Island. Two other lines have been surveyed.

Beaumont Titles Good.
Beaumont: Charles Rogan, ex-land commissioner of Texas, has finished a survey to establish lines for water front for which W. P. H. McFadden of this city has asked the state for patents. In his application the claimant alleges that Noah Hevis league, on which the city is built, did not reach the bayou and river and intervening property was vacant. The survey just completed established the title of the present owners.

Deserter Found Dead.
El Paso: A special dispatch from Fort Stanton, N. M., says that Bob Rusher, alleged to be a deserter from Fort Bliss, was shot to death in a store at Capitan, N. M. Rusher escaped from jail at Lincoln last Tuesday, where he was confined awaiting trial on a charge of arson at Coolora. When the store was opened in the morning Rusher's body was found lying face downward behind the counter.

Cole Younger Central Figure.
Kansas City: Cole Younger, the former bandit, was the central figure at the annual reunion of the survivors of Quantrell's guerrillas at Independence, Mo. Half a hundred members of the band, including besides Younger, Jim Cummings who were noted after the civil war as members of the James and Younger gangs; D. Humes of Hughes, Ark., and Lieut. Lee Miller of Knob Noster, Mo., were present.

Wichita Valley Road's Prospects.
Wichita Falls: W. E. Kaufman, secretary, and Sam Bellah, treasurer, of the Wichita Valley Road say that the engineer corps of the road have been at work on the extension from Seymour to Abilene, via Munday, Haskell and Stamford. The engineers are locating as they go, and the work of grading will follow in the near future. It is thought that connection with Oklahoma City will be built at the same time.

THE MESSENGER OF PEACE SEEMS TO HAVE FLOWN

The Last Effort of President Roosevelt in the Balance.

Manchuria, Aug. 26.—The prospect of further war through the failure of the peace conference is pleasing to the Japanese army.

The new officers and troops who have arrived in large numbers since the advance after the battle of Mukden, are especially anxious to participate in a great conflict. The veterans of the army also feel a friendly rivalry with the navy and hope that the sea fighters have not secured the last laurels of the mighty struggle with Russia.

The long rest caused by the phenomenal downpours of the rainy season has rendered Oyama's tremendous fighting machine more effective than ever.

The Japanese commanders have information that the Russians are busily preparing for a great battle. They also know on good authority that the Russian soldiers have no heart in the preparation.

St. Petersburg: That the war is to continue is indicated by the feverish activity shown everywhere in preparing for the supreme struggle.

Four hundred soldiers of every guard regiment left yesterday for the front. Half a million troops that participated in the summer maneuvers are available for duty in Manchuria and a large proportion of them are to be dispatched thither as rapidly as possible. They will be replaced in the Russian garrisons by the regular fall conscription. Twelve thousand cars and three hundred locomotives have been hired in Australia and Germany to convey men and supplies to the war.

Prince Wolkonsky said yesterday: "Peace is impossible. President Roosevelt's last attempt to bring Russia and Japan to an agreement has failed, because the Czar has solemnly promised his people to pay not a single kopeck of tribute and to surrender not an inch of territory."

Insane Asylum Attendants Arrested.
Terrell: W. L. Smith, B. E. Johnson and J. H. Huff, attendants employed in the North Texas Insane Asylum were arrested charged with the murder of Dr. J. W. Jackson, a patient in that institution, who died suddenly Wednesday night. Following the death of Dr. Jackson an inquest was held by Justice T. L. Frank at the suggestion of Superintendent Dr. J. S. Turner. Testimony in the inquest proceedings resulted in the arrests. Dr. Jackson was brought to the asylum a few months ago from Sherman. He appeared to have been a very violent patient and has been an inmate of several asylums, as shown by testimony taken in the legal proceedings. Broken ribs and other bodily injuries gave evidence of maltreatment by some one, and it is believed to have caused his death.

Jumped from the Train.
St. Louis: Escaping from her niece, Miss Viola Spencer, who was taking her back to her home in Fort Worth, Tex., after an illness, Mrs. Laura Oxford, aged 32, jumped from a Burlington train that had stopped on the Eads bridge and was drowned in the river below. Nervous trouble from which she had suffered is considered responsible for the act.

The State department has received a cable dispatch saying that 200 Americans belonging to the Maccadoni are stranded at Grenoble, France. They have no means and cannot get home.

Carpenters Get Increased Wages.

Boston: Six thousand union carpenters of Boston have received an increase in wages under the decision of Judge George T. Wentworth, to whom, as a special arbitrator, the employers and unionists submitted the question of a new working agreement. Judge Wentworth granted five main demands of the carpenters, including a wage increase from 37 1/2c an hour to 40c, or from 43c to 45c for an eight-hour day, double time for all over time, instead of time and a half, and an eight instead of nine-hour work day for all shop and mill men.

Three Mile Tunnel Started.
Detroit, Mich.: Work on the railroad tunnel which is to be constructed under the Detroit river between Windsor and Detroit, has been commenced and a force of workmen were set to work sinking the initial shaft on the American side. A similar shaft will shortly be sunk on the tunnel line on the Canadian side. The tunnel will be three miles long and it will require about three years to complete the work.

Monument to Old Time Negro.
McKinley: As per an order made at the last meeting of J. W. Throckmorton Camp, U. C. V., a contract was let for a neat granite tombstone to be erected at the grave of Uncle Jake Chamberlain, an old negro who died recently at the advanced age of 107 years. This act on the part of Throckmorton Camp was done to show the esteem in which the old-time negro is held by the Southern people and the Southern soldiers.

Wise "Tip-pu Tip."
The late Hamed ben-Mohammed, or "Tip-pu Tip," as he was called not only in Europe, but by his African subjects, used to surprise Livingston, Cameron, Stanley and other explorers by his exhibition of Arabic courtesies in the midst of the hostile African wilds. Wiser than his son, Sefu, who tried to oppose the progress of the Belgians, he adapted himself to circumstances, retired to private life and spent the last fifteen years of his life at Zanzibar in the enjoyment of his wealth.

Thirty-four persons were baptized in Cobb creek Sunday by Rev. Daily, pastor of the Baptist church at Abbott. One of the largest gatherings ever seen in the Abbott community was present at the baptizing.

C. F. Baldwin, a harness maker, aged twenty-seven years, was found dead in the suburbs of Oak Cliff, Friday morning. He had wandered away from a sanitarium the night before.

James Marcelar Ross, a cousin of General Grant, for more than forty years in charge of steamers and fleets on the Mississippi river, died of Bright's disease a few days since.

The Turf Restaurant, opposite the Santa Fe depot at Temple burned Friday morning. Loss on stock and building is estimated at about \$2500.

A syndicate of Eastern capitalists has purchased the gas well and city franchise of Henryette for gas and waterworks, but the price was not given out.

Two freight trains collided head on near Rossville, Kan. Fireman W. H. Gibson of Kansas City was killed. Four other members of the crew are missing, but the officials say that the men probably abandoned the wreck to avoid responsibility for the collision.

As usual at this time of year, negro and Mexican track laborers are deserting the railroads by the wholesale in order to go to the cotton fields.

CLEMENTINA GONZALES, OF CENTRAL AMERICA, RESTORED TO HEALTH. PE-RU-NA THE REMEDY.

Miss Clementina Gonzales, Hotel Providence, Guatemala, C. A., in a recent letter from 247 Cleveland Ave., Chicago, Ill., writes:
"I took Peruna for a worn-out condition. I was so run down that I could not sleep at night, had no appetite and felt tired in the morning.
"I tried many tonics, but Peruna was the only thing which helped me in the least. After I had taken but a half bottle I felt much better. I continued its use for three weeks and I was completely restored to health, and was able to take up my studies which I had been forced to drop. There is nothing better than Peruna to build up the system."—Clementina Gonzales.

A Motor Street Cleaner. London will soon put on its streets a motor street cleaning machine that will do the work of 500 men. It operates rakes for caked mud, "squeegees" for wet weather, a revolving brush and a set of overlapping scrapers to complete the cleaning operation. All the refuse goes into a box. It works at the rate of eight miles an hour.

The Lace Makers. Belgium, in addition to its specialty, Brussels lace, manufactures laces for the world at large to suit the world's demands. The well known Valenciennes lace, which is sold in France, is in great part manufactured in eastern Flanders. The Lille lace, the Parisian lace (point de Paris), is nearly all made by Belgian fingers.

New Roentgen Terminology. At the recent Roentgen congress in Berlin a special committee adopted the following terminology for the new science. Roentgenology is the study of Roentgen rays. Roentgenography is photography by the rays. Roentgenoscopy is observation by Roentgen rays. Orthoroentgenography is place of orthography. Roentgenotherapy and the very to roentgenise in their obvious meanings.

Eugenie is Quite Active. Ex-Empress Eugenie visited the Kiel harbor a few weeks ago in her steam yacht Thistle. She is 73 years old and still quite active. She wanted to see the town which had so rapidly become world-famous, and was shown the principal streets and sights. She speaks German fluently: From Kiel she proceeded to Stockholm.

LAWYER WAS LOOKING AHEAD.

Saw Possibilities in the Growth of His Client. Attorney General Moody relates the following story: Happening by the police court in Washington, he went in to see the workings of Judge Kimball's court. Two colored boys of about 10 years were being arraigned for having been disobedient and wayward. Officers gave testimony that the boys ran away from home and slept in boxes and under doorsteps; and one of the boys, Willie Jones, was charged with stealing a bicycle belonging to a little white boy.

A colored attorney named Smith arose and addressed the court in effect as follows: "If I please your honor, I appear for that boy there, Willie Jones—step out, Willie Jones. Now, he's the son of Mr. Jones, that gentleman there in white overalls. Mr. Jones says he thinks this great city is not the right place to bring up a boy, and if your honor sees fit to let Willie off he will send him down to Virginia to his old uncle's farm, where he can be looked after (here Mr. Smith was carried away with his argument), and where he won't see any bicycles, or tricycles, or automobiles, or—"

The judge stopped him here and said, "Now, Mr. Smith, you do not think Willie Jones would steal an automobile, do you?"

Smith was puzzled for a moment and then replied: "Well, your honor, they do claim this boy stole a bicycle, and the Lord knows he is bound to grow."—Boston Herald.

REWARD THAT WAS DESERVED. Display of Filial Affection Lucky for Fortunate Cadet.

A story is told of a celebrated German general, who was noted for his great kindness of heart. He was strolling in one of the public gardens of Berlin and met a young cadet, who was walking along slowly, looking very distressed, and evidently searching for something on the ground. "What are you looking for?" inquired the general kindly. "I've lost the locket of my watch chain, sir," answered the lad, "and I valued it greatly, for it contained some of my father's hair." "Never mind," said the general; "I will help you find it, and he began to hunt about for the lost treasure. A few moments' diligent search and the general caught sight of the missing locket, and picking it up handed it to the boy, who was so delighted at recovering his prize that he could scarcely find words to express his thanks; but when the general asked him what time it was, he blushed deeply, stammered and had to admit that he did not possess a watch. "Come along with me, then," said the kind-hearted soldier, and straightway took the boy to one of the best watchmakers in Berlin, and purchasing a watch, presented it to the greatly astonished cadet, who could scarcely believe his good fortune. "Accept this," he said; "for he who honors his parents deserves to be encouraged."

A Funny Little "Fiddler." One of the most interesting members of the crab family is the queer and grotesque "fiddler" which lives in burrows in the banks of creeks and estuaries back of the beach. Into these burrows the crab retires in autumn and composes itself for a long winter sleep. The eye-stalks are then folded down into sockets beneath the shell, and the large claw rests closed and inert against the body, while the legs are folded up until the entire animal is snugly closed upon itself, and it remains in this dormant condition until the spring. Early in April the fiddlers awaken and immediately attend to cleaning out their burrows. The large claw is useless for eating, only the small one being available for this purpose. It is amusing to see the delicacy with which this little claw feels about and picks up the particles of vegetable matter and places them in the mouth, while the eyes are all the time raised aloft on the stalks and apparently looking off into the distance. The female crabs have both claws small and of equal size, so they are both used in feeding, and she can satisfy her hunger just twice as easily and quickly as the male. These fiddler crabs also gather food and store it in their burrows for future use.—St. Nicholas.

In the Alarm Clock Belt. "Oh!" exclaimed the possible boarder, in disappointment, "so this is an alarm clock neighborhood! What a pity. The room is pretty. I'd like it, but I could never stand all those clocks."

"Oh, but there isn't an alarm clock in the house," the landlady protested. "AM our people are late risers. They don't need to be called."

"But those people in the flats that back up against this house do," said the boarder. "I know the conditions as well as if I had lived here. I've been in many other places just like it. I like your room, but an alarm clock block is too hard on my nerves."

The landlady sighed as the prospective boarder picked his way down the dark stairs.

"What a crank," she said. "I didn't dare tell him the last boarder left on account of those clocks."

Vanderbilt's Deal with "Poco." Harold Vanderbilt of Harvard during his freshman year had his troubles with the second-hand clothing dealers who buy the students' cast-offs. On account of his great wealth he was considered a good catch. Every day for a week "Poco" asked him if he had anything to sell. One day, becoming disgusted with these dealers, Vanderbilt said to "Poco": "Come with me; I have something to sell." He second "Poco" to his stable and said: "How much for my polo pony?" "Good heavens," said "Poco," "I buy nothing what eats."

The Book of Life. Life is an enchanting story, filled with laughter and tears, and joy and sorrow. And the best part of the story is the cover: it is the people and the events that cover the pages. It has villains, too, slacks! And it also has some fly leaves that are useless at the back.

Life is an enchanting story, and the greatest of them best. Where they stand between the covers are the people and the events that cover the pages. It has villains, too, slacks! And it also has some fly leaves that are useless at the back.

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private life to a woman—a woman whose experience with women's diseases covers a great many years.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man. In many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation. Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish who does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice. When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

The High Collar. We have a strong impression that the average height of the masculine neck is greater now than it used to be. The long neck produced the high collar, or has the neck adapted itself to the new environment of the high collar? If we are to believe Dr. F. B. Brubaker of St. Louis the high collar may be a source of unpleasant symptoms from pressure on the pneumogastric nerve.—British Medical Journal.

Vanilla Culture. It is estimated that a five acre vanilla plantation in Mexico will yield sufficient income to render its owner independent for life. Vanilla cultivation is said to be especially adapted to women or persons who cannot endure exposure or hardships. It requires, however, personal and constant attention, and the vines must be subjected to the rough treatment of hired help.

Another View. Mrs. McSpurge—When I go out with this lovely new frock people will think I've been shopping in Paris. Mr. McSpurge—Maybe they'll think I've been cracking a safe.—Cleveland Leader.

Lesson for Women. Jersey Shore, Pa., Aug. 28th (Special)—"Dodd's Kidney Pills have done worlds of good for me." That's what Mrs. C. B. Earnest of this place has to say of the Great American Kidney Remedy.

"I was laid up sick," Mrs. Earnest continues, "and had not been out of bed for five weeks. Then I began to use Dodd's Kidney Pills and now I am so I can work and go to town without suffering any. I would not be without Dodd's Kidney Pills. I have good reason to praise them everywhere."

Women who suffer should learn a lesson from this, and that lesson is "cure the kidneys with Dodd's Kidney Pills and your suffering will cease." Woman's health depends almost entirely on her kidneys. Dodd's Kidney Pills have never yet failed to make healthy kidneys.

All up-to-date housekeepers use Red Cross Bag Blue. It makes clothes clean and sweet as when new. All grocers.

Many a man, after laying down the law to his wife, is compelled to pick himself up.

When you buy Starch buy DeFiance and get the best, 16 oz. for 10 cents. Once used, always used.

Even a wise man goes lame when he attempts to argue with a pretty woman.

Pico's Cure is the best medicine we ever used for all affections of the throat and lungs.—W. M. O. EDELST. Vanburen, Ind., Feb. 10, 1900.

Every girl on earth has a mission—and every widow under a certain age thinks she is entitled to a second mission.

FITS permanently cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. Beware of cheap imitations. Dr. J. C. KLINE, Ltd., 231 Aron Street, Philadelphia, Pa.

A girl's idea of a crazy young man is one who doesn't attempt to kiss her when he has a chance.

Try One Package. If "DeFiance Starch" does not please you, return it to your dealer. If it does you get one-third more for the same money. It will give you satisfaction, and will not stick to the iron.

Don't censure a society woman for entering the theater a little late. She probably had to wash the dinner dishes before she started.

Railway Notes. Mr. I. P. Spingus, who for several years past has occupied the position of Northwestern passenger agent of the C. & O., has been appointed General Northern Agent of the Big Four Railway, with headquarters at 233 Clark street, Chicago.

If a man marries a woman because he imagines she has more sense than he has, he is never permitted to lose sight of the fact.

Best in Existence. "I sincerely believe, all things considered, Hunt's Lightning Oil is the most useful and valuable household remedy in existence. For Cuts, Burns, Sprains and Insect Bites, it has no equal, so far as my experience goes." G. E. HUNTINGTON, Eufaula, Ala.

Life is like a game of cards, in which a good deal depends upon a good deal.

The Best Results in Starching can be obtained only by using DeFiance Starch, besides getting 4 oz. more for same money—no cooking required.

We are told that love levels all things, but often it seems like an uphill fight.

A GOOD SCHOOL. No blow, no impossible guarantees nor unbusinesslike propositions made by Toby's Practical Business College, Waco, Tex., the High Grade School for High Grade Students. Plenty of hard, honest work by a corps of highly educated persons. "That's all." Enter any time. Catalogue free. The home of Jane's Shingles Shortland, the renowned parliamentary system.

It is better to have too little confidence in yourself than too much in others.

Every housekeeper should know that if they will buy DeFiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 4 pound packages, and the price is the same, 10 cents. Then again because DeFiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in DeFiance. He knows that DeFiance Starch has printed on every package in large letters and figures "16 oz." Demand DeFiance and save much time and money and the annoyance of the iron sticking. DeFiance never sticks.

THOSE SALOON.

Last Saturday deputy sheriff Johnson served papers on all the liquor dealers here except Jack Harwell. The suits are brought under the act to amend sec. 412 of the revised statutes, which prohibits the sale of liquor in less than five gallon lots with in a certain distance of any railroad works in towns of less than 300 population.

He—"My dear madam, we have both passed the age of romance, but I offer you my heart and with it my hand."

She—"My dear sir, I agree with you that we have passed the romantic age. I beg therefore to inquire what amount of cheque that hand is able to draw at The Bank of Portales, Portales, New Mexico."

Are You Engaged?

Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years, my wife suffered intensely from dyspepsia complicated with a torpid fever until she lost her strength and vigor and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once and finally made her entirely well. She is now strong and healthy."

Those of our readers who, in addition to their home paper, want a NATIONAL news and family journal, are advised to subscribe for the ST. LOUIS GLOBE-DEMOCRAT, which is published in the solid central city of the Union and stands at the very front among the few REALLY GREAT newspapers of the world.

At present we have for the most part a class of saloon men who own their buildings and residence property, have their families here, run quiet, orderly places and are law abiding. If there are noisy, brawling places, we have a law to fit the case whereby their license may be revoked.

If we drive out the orderly saloons we have here now how long will it be before their places will be filled with others who may not be so orderly. You can't keep Texico beneath the 300 mark long, if it is not now away beyond it.

If the saloon is an evil, it is one that under the present territorial laws we must tolerate. Therefore let us not jump out of the frying pan into the fire.

Another phase of the case is this: Is it just or honorable to take the money these men have paid into our school fund and give them nothing for it.

A suit identically the same as this brought Saturday is now awaiting the action of the grand jury, and this second suit for the same alleged offence, is a source of needless expense that has already cost the county not less than \$100.—Texico Trumpet.

Since the above was published, Assessor J. E. Morrison has taken the census of Texico, and has enrolled 478 names. It appears as though this would settle the war at Texico without any further unnecessary expense to the county.

Lik Finding Money.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat or chest irritation, better act promptly like W. C. Barber, of Sandy Level, Va. He says: "I had a terrible chest trouble caused by smoke and coal dust on my lungs; but after finding no relief in other remedies, I was cured by Dr. King's New Discovery for consumption coughs and colds." Greatest sale of any cough or lung medicine in the world. At Pearce & Dobbs; 50c and \$1.00; guaranteed. Trial bottle free.

Baptist Church.

Sunday school at 10 a. m. Preschool at both hours. Theme for 11 a. m. "Christ in the midst of his church" at 8:30 p. m. "A pure heart." Let everybody come to the services, and let's make the next month the best of the years work. I will only be with you four more Sundays. Now school will begin Monday and people have come to town to send their children to school. Now let's fill our churches on Sundays.

D. E. BAKER, Pastor.

...a. Mr. G. W. Fowler, of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Ala. He says: "While there I ate some fresh meat and some soise meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture but the druggist sent me a bottle Chamberlain's Colic, Cholera and Diarrhoea Remedy instead saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." For sale by Pearce & Dobbs.

...All of that portion of the Territory of New Mexico lying within the boundaries of Roosevelt county.

...And have at said meeting determined that all of said Roosevelt county is an infected district.

...Now Therefore, All persons, firms or corporations owning or having control of any neat cattle within the boundary of said Roosevelt county, Territory of New Mexico, and who are defined as an infected district, are hereby ordered and directed to dip all of said cattle which they may own or which are under their control on or before the 10th day following the last publication of this notice.

...Notice is hereby further given that said Cattle Sanitary Board at its said meeting held on the 10th day of August 1905, prescribed the following regulations for dipping, which shall be strictly complied with and observed in dipping and treating the cattle hereby required to be dipped and treated, viz: Lime and sulphur used under the formula issued by the Department of Agriculture; also any of the tobacco and sulphur or other dips approved by said department, as set forth in circular letter dated July 26, 1905, which letter is as follows:

Albuquerque, New Mexico, July 26th, 1905.

To inspectors and employees. The following list of dips are recommended by the Bureau of Animal Industry. The stock owner is authorized to make the selection from the list, and Bureau employees can not discriminate in this matter. Animals must remain in the swim between two and three minutes.

Contest Notice.

Department of the Interior, United States Land Office, Roswell, New Mexico, June 29, 1905. A sufficient contest affidavit having been filed in this office by John W. Maxwell contestant, against homestead entry No. 4084, made April 27, 1903, for the northeast quarter of section 21, Township 25 S., Range 35 East, by Joseph A. McCoy Contestee, in which it is alleged that the said Joseph A. McCoy has wholly abandoned said tract; that he has changed his residence therefrom for more than six months since making said entry and next prior to filing of said affidavit, that said tract is not settled upon and cultivated by said party as is required by law, and that said alleged absence from the said land was not due to his employment in the Army, Navy or Marine corps of the United States in time of war, and parties are hereby notified to appear and answer and offer evidence touching said allegation at 10 o'clock a. m. on August 29, 1905 before W. E. Lindsey, U. S. Commissioner at his office in Portales, Roosevelt county, New Mexico, (and that final hearing will be held at 10 o'clock a. m. on September 12, 1905 before the Register and Receiver at the United States Land Office in Roswell, New Mexico.)

The said contestant having, in a proper affidavit filed July 22, 1905, set forth facts which show that after due diligence personal service of this notice can not be made, it is hereby ordered and directed that such notice be given by due and proper publication.

Neuralgia And Other Pain.

All pain in any disease is nerve pain, the result of a turbulent condition of the nerves. The stabbing, lacerating, darting, burning, agonizing pain that comes from the prominent nerve branches, or sensory nerves, is neuralgia, and is the "big brother" of all the other pains.

Dr. Miles' Anti-Pain Pills rarely ever fail to relieve these pains by soothing these larger nerves, and restoring their tranquility.
