C. M. Dobbs is surely in love with New Mexico. One day this week a handsome lady proposed to pay his traveling expenses if he would leave with her, but Mr. Dobbs gracefully declined.

Mr. Conly, of six miles south of town planted this year twenty acres of corn. This corn was plowed twice. It has been gathered, measured and cribbed and the yield was a trifle better than forty bushels per acre. This is another practical demonstration that corn is a paying crop in this country, and when properly cultivated will yield even better than Mr. Conly's crop.

J. H. Peters, territorial organizer for the Farmers' union, is in Portales and will make an effort to organize in this county. Get acquainted with Mr. Peters and let him explain the objects of this organization to you.

No Poison in Chamberlain's Cough Remedy.

From Napier New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines made in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by Pearce & Dobbs.

PORTALES AND INLAND VALLEY

In Roosevelt County, New Mexico.

PORTALES.

PORTALES, the county seat of Roosevelt county is a town of 1200 or 1500 inhabitants near the center of the county, and in the heart of the famous Inland Valley. All lines of business common to a live western town are found here. We have several general merchandise and three drug stores, three coal and grain stores, two good, strong banks, 3 livery stables, local and long distance telephones and a good public school building. Our school is conducted by a corps of seven excellent teachers and runs about nine months each year. We have just completed a splendid stone court house and are now at work on a good stone jail and arranging to commence a \$25,000.00 school building which is urgently demanded by our rapidly developing town and county.

INLAND VALLEY

Is a broad valley about 100 feet lower than the surrounding plains country and is from six to twelve miles wide by forty to fifty miles in length.

Water of excellent quality and in inexhaustible quantity is found throughout this valley, at from six to forty feet deep. In town and the larger portion of the country it is only 10 to 15 feet deep. We had a test made here of our water supply in 1903 with a 14-horse power gasoline engine and a rotary or centrifugal pump on an ordinary well in town and it furnished water to run pump at its full capacity of 600 gallons per minute for several hours. So we have the greatest opportunities for cheap irrigation by pumping to be found anywhere.

Roosevelt County is located on parallel 34 of north latitude and is on the west line of Texas. Organized in 1903, population 5000, contains 90 townships of 36 sections each, fine agricultural and grazing land, has two railroads running diagonally across the country with a total mileage of about 125 miles in the county, 12 railroad stations and 20 postoffices.

Precipitation. The weather record shows a rainfall for ten years varying from 18 to 25 inches, an average of about 21 inches. No floods or cyclones, the rains are showers without long periods of cloudy weather.

Climate and Health. This medium altitude of 3600 feet and protected as we are on the north and west by the mountains which shield us from the blizzards so common in Northern Texas Panhandle and Kansas, gives us a very fine climate, both in summer and winter; as our altitude puts us entirely above all material atmospheres and gives us delightfully cool nights in summer. People coming here from the north and east for asthmatic or lung troubles who have sufficient vitality left to take food and exercise improve rapidly and soon regain their health. If the thousands of people in the crowded districts of the east who are suffering from these troubles could realize the true conditions here, this country would soon be filled with this class alone, for what is your money or business worth to you without health. A moral, peaceable citizenship prevails; wholesome laws, good schools (exclusively white) and representatives from the various states of the union.

Crops of wheat, oats, rye, millet, corn, maize sorghum, alfalfa, melons of all kinds, onions, potatoes, small and orchard fruits are successfully grown without irrigation. This year (1905) we have very fine crops of Indian corn, ranging from 25 to 40 bu. per acre. The few apple orchards which have come into bearing have produced fine fruit of excellent quality. Many of our agriculturalists believe that our standard money crops here will be apples and alfalfa as soon as orchards can be developed and alfalfa fields can be seeded. Some alfalfa sown this year has been cut three times without irrigation. Onions have been raised here by irrigation at the rate of 800 bu. per acre and shipped to distant market, netting the raiser 90c per bu. Sweet potatoes at the rate of 300 bu. per acre, Irish potatoes as fine as the famous Greeley potatoes of Colorado are grown here, some as large as a quart cup; watermelons weighing from 40 to 80 pounds can be grown here at the rate of a car load per acre. There is scarcely to be found anywhere another location equal to Inland Valley for general farming and certainly not a place to be found anywhere that will equal it for a health resort.

Are you satisfied with your present location? Do you want something better? Do you want a home that hundreds of people have availed themselves of the opportunity, will testify from actual experience, as good as can be found anywhere on God's footstool? There is a glad hand extended to you from every prosperous family in Roosevelt county. Come and help us possess this goodly land.

Periodic Pains.

Dr. Miles' Anti-Pain Pills are a most remarkable remedy for the relief of periodic pains, backache, nervous or sick headache, or any of the distressing aches and pains that cause women so much suffering.

As pain is weakening, and leaves the system in an exhausted condition, it is wrong to suffer a moment longer than necessary, and you should take the Anti-Pain Pills on first indication of an attack.

If taken as directed you may have entire confidence in their effectiveness, as well as in the fact that they will leave no disagreeable after-effects.

They contain no morphine, opium, chloral, cocaine or other dangerous drugs.

"For a long time I have suffered greatly with spells of backache, that seem almost more than I can endure. These attacks come on every month, and last two or three days. I have never been able to get anything that would give me much relief until I began the use of Dr. Miles' Anti-Pain Pills, and they always relieve me in a short time. My sister, who suffers the same way, has used them with the same success. MRS. FARE, 721 E. Michigan St., South Bend, Ind.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

Securities of Nickies.

Since the Nevada legislature legalized slot machines there have not been enough nickies in general circulation, outside of the slot machine basars, to buy 5 cents worth of gum for a 6-year-old schoolboy. A keg containing \$15,000 in nickies was recently received hot from the factory by a Reno bank.

UNITED STATES LAND OFFICE, Roswell, N. M., Sept. 28, 1905.

Notice is hereby given that Township 19 south, range 37 east, has been surveyed and that the plat thereof will be filed in this office November 15, 1905, and on and after that day we will be prepared to receive application for entry of lands in said township.

HOWARD LELAND, Register. DAVID L. GEYER, Receiver.

THAT CONTEST.

As a further evidence of the fact that the contest against Ed J. Neer was one brought solely for the purpose of extorting money from him, the contract of settlement is hereby given and is sufficient in itself to prove conclusively that the contest was malicious and purely a hold-up game. That the parties to this nefarious scheme have met with their full quota of censure and public condemnation is as it should be and evidences the fact that plots of this character will never become popular in Roosevelt county.

THE CONTRACT.

"I, W. D. McEee hereby agree to withdraw the contest I have pending against E. J. Neer on conditions that he (Neer) turn over fifty dollars to W. M. Cox, and receive for me one promise note for \$50.00 given by me to G. F. Ellis for services in contest, payable Jan. 1, 1906, and said W. M. Cox to give said \$50.00 and said note to me when contest is withdrawn.

WILLIAM D. MCEEE, Witness, I. P. SEAMER.

EDWARD C. RICH.

Chinamen may know how to make superior bombs, but they would never make successful anarchists, as they cannot grow the whiskers that go with the trade.

Considering the superior and satisfied look which science habitually wears, one must think it ought to come forward with a real cure for consumption.

To sue for loss of one's wife's services does not necessarily mean that had the services been available one would have forced one's wife to earn the amount named.

The Japanese are a thrifty people. If it becomes necessary for them to find something cheaper than rice to live on while they are paying their war debt they will find it.

In the recent balloting for the admission of candidates to the New York Hall of Fame two of the three men admitted were poets. They were, of course, dead when the votes were cast.

The Baltimore man who says \$15,000 a year is the ideal income probably enjoys an income of \$2 a day. Why, \$15,000 a year is no more than enough to pay your wife's dressmaking bills.

There never was a man who had as good a time as his wife thinks he does.

The Texico Trumpet in a long article week before last makes the statement that the title to the lands composing the townsite of Texico has been cleared up and that there will be no more question as to the validity of the same. The paper also takes occasion to roast divers and sundry different persons who have entered upon and improved certain parcels of land upon the said townsite. Now as a matter of fact, the titles are no clearer now than they were a year ago, and it is also a fact that no one owned the townsite a year ago. They don't even know whether they will be in Texas or New Mexico. The Trumpet is absolutely right in trying to boom its town, but entirely wrong in mistating facts and casting aspersion upon the character of people who are doing as much to build up the town as the Trumpet man is. The parties who bought the Texico townsite bought property to which title cannot possibly be issued under present conditions and the only authority they have over it is the right of occupancy, and they have not this right when the land is used for townsite purposes. Cut out this big talk brother and settle down to legitimate business and you will do much better.

There is absolutely no room for a man in Portales for the chronic...

Discourage the knocker. If he approaches you, walk off and leave him; snub him; cuss him and if necessary, whip him, but don't listen to his silly mouthings. He is useless to himself, a detriment to his community, and the sooner he is squelched the better for all concerned. By the way, if he is cut off from knocking he may get to work and earn his own living, thus removing a part of the load from the shoulders of his overburdened wife.
