new settlers, he who goes after the trade in a business way will get the glassware and cooking greater part of the new business. Mr. Neer carries everything in drugs and furniture. Read his ad in this issue. Beginning with January 1, 1906, the Times is the official paper of Roosevelt county, not through any pull or influence but simply because we submitted the lowest bid and accompanied it with a-good bond. The law makes it mandatory upon the commissioners to procure this service in New Mexico and upon the best possible terms, and provides a penalty of not less than \$100.00 nor more than \$500.00 fine for a violation. Under the Times bid the county will effect a saving of about 40 per cent.

Fort Worth & Denver Change of Trein In Winter is anno

Winter is announced. After October 14, under a readjust-ment of the schedules for the winter season, the Fort Worth & Denver City railroad trains Nos 7 and 8 will be operated between Fort Worth and Dal hart, Texas, only, instead of being carried through to Denver as here-to-fore. Under these new condition these trains will operate Pullman sleepers between Ft. Worth and Amerillo, maintaining close connection with the Fecce Valley Railroad and other lines connecting at that point and interme-diate junctions. This service in being established through to Dalhart is eighty miles greater than has been afforded during previous winter seasons, but is at pre-ent justified through the immenue in-crease in the local as well as through travel to the Dalhart-Amerilio country by the influx of homespekers and pro-petors.

Just Wonderful.

Vestry, Miss., Jan. 1st (Special)-The case of Mrs. C. W. Pearson, who resides here is a particularly interesting one. Here is the story told by Mr. Pearson, her husband, in his own words. He savs :---

"My wife's health was bad for a long time. Last July she was taken terrible bad with spasms. I sent for the doctor, and after making a thorough examination of her, he said undoubtedly the cause of her trouble was

a disordered state of the Kidneys. His medicine didn't seem to be doing her much good, so as I heard about Dodd's Kidney Pills, I got her a box just to give them a trial. Well the effect was just wonderful. I saw that they were the right medicine and I got two more boxes. When she had taken these she was so much better that she had increased thirty pounds in weight. She is now quite well, and we owe it all to Dodd's Kidney Pills."

Many a good man has strayed into the crooked path by following the directions of a pocket corkscrew.

MALARIAT 7 7

Generally That is Not the Trouble. Persons with a susceptibility to malarial influences should beware of coffee, which has a tendency to load up the liver with bile.

A lady writes from Denver that she fever which at last she learned were mainly produced by the coffee she

"I was also grievously afflicted with headaches and indigestion;" she says, "which I became satisfied were likewise largely due to the coffee I drank. Six months ago I quit its use altogether and began to drink Postum Food Coffee, with the gratifying result that my headaches have disappeared. my digestion has been restored and I

have not had a recurrence of chills and fever for more than three months. rested Wednesday night and placed I have no doubt that it was Postum that brought me this relief, for I have used no medicine while this improve-

ment has been going on." (It was really relief from congestion of the liver caused by coffee.)

"My daughter has been as great a coffee drinker as I, and for years was afflicted with terrible sick headaches. which often lasted for a week at a time. She is a brain worker and excessive application together with headaches began to affect her memory most seriously. She found no help in medicines and the doctor frankly advised her to quit coffee and use Post-

"For more than four months she has not had a headache-her mental faculties have grown more active and vigorous and her memory has been restored.

"No more tea, coffee or drugs for us, so long as we can get Postum." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book "The Road to Wellville" in pkgs.

Knowing the above will enable one to avoid the fraudulent imitations made by piratical concerns and sometimes offered by unreliable dealers. The imitations are known to act injuriously and should therefore be declined.

Buy the genuine always if you wish to get its beneficial effects. It cleanses the system gently yet effectually, dispels colds and headaches when bilious or constipated, prevents fevers and acts best on the kidneys, liver, stomach and bowels, when a laxative remedy is needed by men, women or children. Many millions know of its beneficial effects from actual use and of their own personal knowledge. It is the laxative remedy of the well-informed.

Roosevelt County.

Rousevelt county New Mexico is just now receiving the greatest influx of settlers since its organisation. Three principal reasons may be stated as the cause of so many people coming into this area.

First:-The large area of free public lands subject to Homestead and desert land entry. Roosevelt county embraces an area, for the most part, of level prarie land, bearing a good growth of mosquite and grama grasses and having a deep sandy loam soil, easy of cultivation, presenting to the prospective farmer an attractive location.

Second:-The building of the New Mexico Eastern Railway through the county east and west from Texico on the east line to Sumner on the west line. At the time of the commencement of grade work on this railway line in mid-summer 1905, only a part of the land in the township next west from Texico had been filed upon. The railroad extending over free government land, took advantage of the provision of the United States law and reserved twenty acres for switch area at practically every ten mile distance. Thus giving the locating settler assurance of a convenient depot and shipping station, as well as the rospect of being near the postoffice and town. Adding the foregoing to the further and third cause, to-wit: That the people already here engaged in farming can show, for the year 1905, a product of agriculture quite as good as that produced in areas further east and north where prices of lands and rents are high and you have the reasonable cause for the unprecedented inflow of settlers.

Already along the line of the New Mexico Eastern Railway townsites have been laid out notably at Newman 16 miles west of Texico. to which from Texico the public lands have been filed upon solidly for several miles north and south of the railway. At Brownhorn, 35

miles west of Texico, where the lands are now being taken up, a post office and general merchandise store have been established and at Summer, 63 miles west of Texico, where there is an ideal prospect for the building of a town 160 acres have been subdivided into town lots and although track laying has not yet reached that point, the promoters are active in advertising the place and lots will be on sale within ton days.

From a few miles west of Newman to Sumner in Roosevelt county and beyondlin Gaudthe county, there are vacant lands on either of the line of the railroad subject to entry for homestead and it is these lands that are now being located and entered. Applications to file are taken at the countyl seat, Portales, where frequently as many as twenty applications are taken in a single day, and whole townships of land that but,a short time ago were practically vacant are now covered solidly with filings. Last week in one day at the same time 59 homeseekers set ont along the line from Texico hunting locations, some of these of course found suitable lands a few miles out from Texico, some near Newman and some in the vicinity of Sumner.

Sumnerlis practically a new town in a new country but a town and country that gives warrants of rapid growth and development. Situated in proximity to the Pecos River upon a beautiful elevation, protected on the north by a range of mountains; the level and fertile valleys of the Taibau and Pecos extend east, west and south for miles around with scarcely an occupant, lands that are as fertile as are any in the far famed Roswell district of the Pecos.

All these lands await' occupancy and development for orchard and farm and city in a climate unsurpassedlanywhere in New Mexico. In the older parts of the county, at and in the neighborhood of Portales, Elida, Bethel, Arch Floyd, etc. developement goes on rapidly, lands change hands with great frequency and new filings are made of free lands further out so that all lines of business are active and prosperous. Several farmers have told the writer that for the year 1905, they have produced on sod plowed land forty bushels of Indian corn per acre and many of them claim as much as 35 bushels per acre. All crop duct has been made from the natural rainall and without special effort at cultivation and good crops of wide variety have been pro-

From all the foregoing might one not reaenably conclude that right here in Roosevelt waty, New Mexico, is the place where lies a a prospect to make a "winning."
