"Thomas Bunn and twelve members of his family passed through this city last Thursday. They traveled in the prairie schooners, having covered the 1200 miles from near Portales New Mexico, since May 7. They are on their way to Paulding, Ohio, which At the close of business June 26th, 1906. Instead Bunn said. they came near starving in the eighteen months they were out there, and Real Estate and Fixtures every caravant of movers he met go- Cash and Sight Exchange Expense Account ing westward he advised to go back to where they came from, and many I restify the above to be a true and correct statement

'We were up there in the mountains where you couldn't raise even thistles' said Bunn, "and the water was alkali. We met lots of Missourians headed for the same place, and why they left good homes for those bleak hills beats me. This is paradise in comparison.'

Mr. Bunn said he never saw but one man who declared he liked the New Mexico country and that was his cousin who first induced him to go there, and Mr. Bunn says 'I believed he li ed when he said he liked it.' According to Mr. Bunn there is no rest in that country neither for the righteous nor the wicked. Fleas and bugs terment you all the time, night and day, and the sand storms are simply awful. Says he wouldn't live there for the en tire state."-Shelbyville, Missouri Herald.

That the above is a tissue of falsehoods from beginning to end, is a fact too well known by all who have ever visited Roosevelt county, and the Times would not notice it but that we dislike for this special species of the lower order of animals to come into one of the fairest countries the sun ever shown on, acquire title to 160 acres of the richest and most fertile soil on earth and then go back to the country from which he was spawned and circulate such black and scurvillous lies. The land settled upon by this lying, thieving Bunn aggregation was so level that a jack rabbit showed as plain from a distance of a mile as the highest building in Ohio would at the same distance in the locality in which these Bunn cattle were herded. The water waters of the celestial fount and his well did not exceed forty feet indepth As to crops there is not a field of corn in Roosevelt county, that was half ten ded, that will not yield forty bushels per acre. Why in the name of God, did this sneaking aggregation spend \$\$00.00 or \$500.00 to prove up this land if it was so worthless? The facts are that this Bunn outfit are the worst set of liars we have ever met. They are like the barnyard hen that fouls its own nest. We are well rid of them and sincerely hope that the buzzards will camp on the carcass of the last one of them before the notion ever enters their empty craniums to come back. While the people of Roosevelt county congratulate themselves upon the departure of these swine, they should not forget that our good fortune means that the good people of some other locality must be affiected with this pes-

Later -It is learned upon good authority that this disreputable outfit left their place here after the matter of darkness had settled over the country and that many mourners were left as mementos of their rascality. They paid no bills and no one suspected their intentions until too late. # WHAT JOY THEY BRING TO EVERY HOME

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature, and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained, by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

Still Seek "Treasure Island." "Treasure island" is still a mystery

The steam yacht Rose Marine, which left England in October, 1903, to search for the treasure which tradition says pirates concealed on Cocos island, in the Pacific, has returned to Southampton. Capt. Mathews, the skipper, is reticent as to the results of the voyage, and only says that his belief in the project has been strengthened. The work of searching the island is very difficult.

One application relieved me; one box cured me, and although a year has passed, I have stayed cured. I am grateful beyond expression." Hunt's Cure is a guaranteed cure for all itching diseases of the skin. Price 50c.

Shows Value of Liquid Fuel. The steamship Goldmouth, belonging to the Shell line, has just arrived at Rotterdam, after steaming from Singapore by the route round the Cape of Good Hope, a distance of 11, 791 miles, in 52 days, without once stopping the engines or checking the generation of steam in the main boilers. This performance is believed to be the largest nonstop run ever made by marine machinery. The vessel was burning liquid fuel, and with so great an economy that enough surplus is left to take the vessel 20 days steam

Close Second to American Tramp. The American tramp must look out for his laurels in the matter of steal ing rides. A Roumanian recently succeeded in lodging himself on the piper underneath a dining-car of the Orient sea, these pipes affording a sort of shelf about 20 inches wide. He left his bed in Paris 53 hours later. It is remarked that at the end of the journey he was very dusty, hungry and thirsty, and possessed a capital amounting to five cents.
