Dr. J. M. Manes, of near Springfield Missouri, was a Portales homeseker this week and also purchased the Pecos Valley Hotel property. Mr. Manes left for his home Friday but will return in a few days to remain permanently. He is very enthusiastic over a canning factory proposition for Portales and will subscribe liberally to the capital stock of the same. Dr. Manes comes from a locality in which several of these institutions are located and says they are money makers for both operators and farmers. Talk it up folks. There is nothing too good for Portales.

Roosevelt county may or may not be all that has been claimed for it, nevertheless hundreds of people have sought homes within her borders. Official figures show that since January 1, 1906, the number of homesteads filed to be 3,312. There is not a vacant acre of government land subject to entry within twenty miles of Portales, and those seeking homes here are compelled to buy or go farther from the county seat.

After the Normal's resolutions of thanks went to press last week the First National Bank of Portales gave us a souvenir thermometer mounted on a large and beautiful picture. The paintings are the work of a great artist and we shall treasure them all ways.

Here's to the kind donors, prosperity wealth and long life.

Respectfully,  
Pearl Smith  
Lora Rucker  
Etie Posley

A Friendly Ad.

To the rest of the people, I was going down the street hunting something cool to drink, I stopped at the Palace of Sweets, and it has the right name. I called for a milk shake, and it was made, and it was the best that was ever drank. I then called for some candy, and it was the best I ever got. I then called for a cream, O it was so good that I can taste it yet, and those Dr-Peppers, and soda waters and Coca-Colas can't be beat. So when you want something cool to drink and good to eat don't ever pass the Palace of Sweets.

Many citizens are now coming to their new homes.

We had an enjoyable time the 5th, driving in the Fort Sumner Park, also looking over the garden and farm of Sue Silver's, at the terminus of Taiban creek. We were shown pumpkins as large as water buckets, near forty pounds. His corn grows so fast it forms grains on tassels before the pollen could fall off. The ground is so rich his daughter is not allowed to walk across fresh plowed soil, for fear of her feet becoming overgrown and fish. O well! I haven't room here, but come out on the Plains and we will tell how numerous they are in his tank, of two years attention. Thanks for Mr. Silver's hospitality. Taiban Gatherings.

WRECK ON THE DENVER.

Two Cars Roll Over, and Forty Are Injured.

Bowie, Texas, Aug. 11.—The north-bound Fort Worth and Denver train out of Fort Worth night before last suffered a disastrous wreck just south of Fruitland, the sleeper and chair car leaving the track and rolling over, causing injury to many passengers. The wreck was evidently caused by defective track.

One of the difficulties which British officers have encountered in certain parts of India, in their attempts to kill off the cattle lifting or man eating tigers of some dangerously infested neighborhood, or to have sport with them, is the opposition of the people to their destruction.

"While sitting at breakfast we were alarmed by hearing cries of distress proceeding from the jagheer's hut, and on running to ascertain the cause we found old Kamah in a furious state of excitement, his left hand firmly fixed in a woolly pate of the helpful scion of the house, and elaborating him with a stout bamboo.

"We inquired what crime young Moldeen had been guilty of to bring upon him such a storm of parental indignation, and learned to our astonishment that it was all owing to his having killed a tiger.

"One of his father's tame buffaloes having been killed by a tiger on the previous day, the young savage had watched for him during the night and shot him from the trees when he turned to feed upon the carcass. This most people would have considered a very gallant and meritorious exploit on the part of a lad of 15, but the old forester was of a different opinion.

"It was all very well for you who lived in the open country to wage war with tigers, but with him, who lived on sociable terms with them, in the jungle, the case was different.

"I have no quarrel with tigers," said he, "I never injured one of them, but I have injured men; and while there was peace between us I went among them without fear of danger. But now that this young rascal has picked a quarrel, and commenced hostilities, there is no saying where the thing will end."

HIS REVERENCE THE TIGER.

In India, If Possible, He Is Left Very Respectfully Alone.

If one is to believe Ernest Ingersoll's recently published "Life of Mammals," most of the Hindus and Malays meekly accept the tiger as an evil to be endured, and in this mood have lifted it, with superstitious terror and reverence, into a sort of malignant deity, which must and may be pacified.

You can be shown to-day forest shrines and saintly tombs where the tiger comes nightly to keep pious, and you may hear in any Hindu village of jogs to whom the cruel beasts are as lap dogs.

Replete With Accidents

Saturday Was Filled With Blood-Curdling Deeds and Happenings.

Dallas, August 12.—Saturday and Sunday night seemed to be times of murder, suicide and accident.

Ex-Texan Accidentally Killed. Ardmore, I. T.: George Matlock, aged forty-two years, an old resident of Ardmore, was accidentally shot Sunday afternoon, death resulting in about four hours. A pistol that he attempted to place in his pocket, fell out of a scabbard and was discharged, the bullet entering his side.

For the Opp. Shop. President Stecher of the employing Lithographers association, says: "We are prepared to continue this fight against this strike for six months, and if necessary for a year. I am greatly pleased by the attitude of our members. They are unanimous in favor of arbitration and the open shop. We have not gone into this fight blindly and we are in a position to keep a fight no matter how long it may last or how much it may cost. The union having refused to arbitrate there was no other course left open for us, but to declare the open shop."

Fatal Midnight Ride. Houston: A fatal accident occurred to an automobile Sunday morning shortly after midnight, near Pasadena, nine miles from the city. George R. Melkeljohn, twenty-nine years of age, was so badly injured that he died a few minutes after the accident. J. O. Dean, the owner and at the time the operator of the machine, was painfully but not seriously hurt. Mr. Reimer, another companion, was badly stunned and hurt, but not seriously.

Ice Man Indicted. Philadelphia: The Grand Jury has found true bills of indictment against four members of the Philadelphia Ice Exchange, who are charged with conspiracy to increase the price of ice. There was but one indictment, containing six counts, and this will enable the District Attorney to prosecute the defendants jointly. The trial has been set for September 5.

The first bale of cotton of this year's crop will be purchased outright by the Business Men's club of Waco and 25 cents a pound will be paid for it, making the bale bring about \$125 if it is standard weight. The business men have been making up a cash premium, but this year decided to buy the bale outright.

Matthew Brandon, thirty years old, a confidential clerk and messenger, employed by Thomas Faulkner, agent for the combined railroad lines of the United States at Ellis Island, has not been seen since last Tuesday, when he left Ellis Island to deposit \$5,000 in checks and \$1,000 in cash in a New York bank. It was stated at the bank that Brandon failed to make the deposits.

BIG NEW SHOE BUILDING.

It is Dedicated by the W. L. Douglas Co. at Brockton.

The dedication a short time ago of the new administration and jobbing house building erected by the W. L. Douglas Shoe Co. as a part of its manufacturing plant at Montello was marked by the thoroughness and attention to detail characteristic of the firm in all its undertakings.

The dedicatory program included open house from 11 a. m. to 8 p. m. with concert by the Mace Gay orchestra and the presence of a Boston caterer to attend to the wishes of all. The building itself afforded a feast for the eye, especially the offices, which are marvelous in many ways. Fifteen thousand invitations were sent out, including over 11,000 to the retail dealers in the United States who handle the W. L. Douglas Co. shoes, the others going to shoe manufacturers and all allied industries in Brockton and vicinity. Mr. Douglas will be glad to have anybody who is interested call and inspect the new plant, and says, "the latch string is always out."

All departments of the plant were open for inspection, the three factories as well as the new building, and visitors were received and escorted through the industrial maze by ex-Gov. Douglas, assisted by the heads of the various departments. Under the present system all shoes are manufactured to order, and customers sometimes lose sales waiting for shoes to arrive. With the new jobbing house they will be enabled to have their hurry orders shipped the same day they are received.

The new building is 250 feet long and 60 feet wide and two stories in height. The jobbing department will occupy the entire lower floor, while the offices will occupy the second floor. The jobbing department will carry a complete stock of men's, boys', youths', misses' and children's shoes, slippers, rubbers and findings equal to any jobbing house in the country. Buyers are especially invited to come here to trade, and every effort possible will be made to suit their convenience. There will be a finely appointed sample room on the second floor, with an office in which both telephone and telegraph will be installed, with operators, both Western Union and Postal Telegraph wires to be used. There will also be arrangements for the receipt and despatch of mail.

Best of All. R. J. Mayher, No. 406 South Clark St., Chicago, Ill., writes as follows: "I have kept and used your Hunt's Lightning Oil for the last ten years in my family. It is the only thing I have and the best of all."

It cures Cuts, Burns, Bruises, Sprains, Aches, Pains, Stings and Bites. It kills Chiggers, too.

Drawing the Line. We have followed the plow, welded the hoe, served time on the public roads under an austere overseer, swept the backyard, worked the garden, churned the butter, washed the dishes, nursed the baby and performed other various and sundry disagreeable tasks in our times without a murmur, but when it comes to cleaning streets under three lady bosses—excuse us, please. Three women to boss you. Great Caesar's ghost! Just the thoughts of such a catastrophe is enough to give a man the "buck-ague."

Chamois Skin of Commerce. Charles C. Druedling, of Philadelphia, has written an article for the American Journal of Pharmacy on the subject of chamois skins. What is known in the market as chamois skins, he says, is really an oil-tanned sheep or lamb skin lining. The supply of skins from the chamois animal is very limited—enough could not be obtained in a year to supply the United States for more than a single day. He made special inquiry on a recent visit to Switzerland about the annual crop of the chamois skin and ascertained that from 5,000 to 6,000 skins would be a fair average yearly crop. This skin is heavier than the skin of the sheep or lamb, also much coarser. For strength and durability the chamois skin is preferable, but for ordinary use and appearance the oil-tanned sheep skin lining would, in most instances, be preferred.

AN OLD TIMER. Has Had Experiences. A woman who has used Postum Food Coffee since it came upon the market 8 years ago knows from experience the necessity of using Postum in place of coffee if one values health and a steady brain.

She says: "At the time Postum was first put on the market I was suffering from nervous dyspepsia and my physician had repeatedly told me not to use tea or coffee. Finally I decided to take his advice and try Postum, and got a sample and had it carefully prepared, finding it delicious to the taste. So I continued its use and very soon its beneficial effects convinced me of its value, for I got well of my nervousness and dyspepsia."

"My husband had been drinking coffee all his life until it had affected his nerves terribly. I persuaded him to shift to Postum and it was easy to get him to make the change for the Postum is delicious. It certainly worked wonders for him."

"We soon learned that Postum does not exhilarate or depress and does not stimulate, but steadily and honestly strengthens the nerves and the stomach. To make a long story short our entire family have now used Postum for eight years with completely satisfactory results, as shown in our fine condition of health and we have no need of a rather unexpected improvement in brain and nerve power."

Name given by Postum Co., Battle Creek, Mich.

Increased brain and nerve power always follow the use of Postum in place of coffee, sometimes in a very marked manner.

FINEST TROUT IN THE WORLD Found in Small Stream in the High Sierras, Says Expert.

The finest trout in the world, says Dr. Barton W. Evermann of the bureau of fisheries, is to be found in a little stream of the high Sierras in southern California.

So far as is known, it exists only in this stream, which is about 20 miles in length. President Roosevelt recently called attention of the bureau of fisheries to this unique specimen, with the result that Dr. Evermann was sent to California to study its habits and environment and to see whether it might not be introduced elsewhere.

CO-OPERATOR CULLINGS. We have the extra blade. What will we do with it?

Get ready to hold your cotton if necessary. It must be done, or all is lost.

If we dump our cotton this year, we are ruined for many years to come.

Really too many of us do not take time to think. We must think as well as work.

It is a fight with the speculator to a finish. We have whipped him before, and we will do it again.

After what we have done in the past, will we now lose our nerve, and be a dumper? We have all things in our hands.

If this great fight against the bears is won, and it will be, it means the entire emancipation of the Southern cotton producer. When we have again won, nothing can prevail against us.

Let us never forget that we are our brother's keeper. The more we help our brother producer to stand, the better able we are to stand ourselves. We must not pull each other down.

Farmers' Co-operative Union of America.

TEXAS STATE MEETING.

The Texas State meeting, just closed at Dallas, has been a most significant and successful meeting. It was significant in many ways. Texas is the place of nativity to the Farmers' Union and it is in Texas that greatest strength has been developed and greatest results along practical lines accomplished.

TEXAS OFFICERS.

In the afternoon session of Thursday the Farmers' Union, in convention assembled, elected officers of the state body. Nearly all the old officers were re-elected.

President, A. E. Calvin, Dallas; Vice President, J. A. Wheeler, Belton; Secretary, B. F. Chapman, Dallas; Treasurer, Miss Nellie Horton, Dallas; Lecturer, D. J. Neil, Cisco; Conductor, A. C. Neece, Sunset, Chaplain, J. P. Lane Gallatin, Doorkeeper, James Dean (new). Members of the Executive Committee: F. W. Davis chairman, Woodbine; J. R. Luce, Grapeland; W. T. Loudermilk, Comanche (new); H. E. Bond (new) and Peter Radford (new).

O. H. O'Keefe was elected State Agent of the Union to succeed John T. Garner, who has held that position for the past four years. Miss Nellie Horton was elected treasurer. Miss Horton has been treasurer of the union for the past two years, and is the only woman holding office in the organization.

The Education Committee re-elected, follow:

Hon. V. W. Grubbs, Greenville, chairman; N. A. Shaw, Texarkana, First congressional district; Hardy Deal, Nacogdoches, Second District; W. R. Blalock, Quitman, Third; E. W. Kirkpatrick, McKinney, Fourth; W. C. McKamy, Renner, Fifth; George T. Jester, Corsicana, Sixth; L. A. Riley, Murchison, Seventh; A. M. McFadden, Victoria, Eighth; J. W. Green, Longstreet, Ninth; Leo J. Rountree, Georgetown, Tenth; M. C. Fields, Lott, Eleventh; W. T. Loudermilk, Downing Twelfth; J. L. Crawford, Bridgeport Thirteenth; H. A. Halbert, Coleman, Fourteenth; John G. Willacy, Corpus Christi, Fifteenth; Jeff D. Montgomery, Gordon, Sixteenth.

The Farmers' Union should have a complete system of securing and compiling authentic data for the benefit of its members, but it ought not to take into its confidence these slick talking, scheming demagogues, who have a sinister motive for all they do for the farmer.

"After using Cuticura Soap, Ointment and Pills, I am very glad to say I am entirely relieved of that itching humor of the head and scalp which I was bothered with quite a length of time. I did not use the Cuticura Remedies more than three times before I began to get better, and now I am completely well. I suffered with that humor on my head, and found no relief until I took the Cuticura Remedies. I think I used several cakes of Cuticura Soap, three boxes of Ointment and two vials of Pills. I am doing all I can to publish the Cuticura Remedies, for they have done me good, and I know they will do others the same. Mrs. Mattie Jackson, Morristown, Ky., June 12, 1905."

ALL 'PENDS ON MR. FARMER.

The speculative cotton buyers are going to break the efforts of the Farmers' Union to warehouse and hold their cotton, if possible. They have millions back of them and can better afford to over-bid and get the cotton and thus break up the farmers' organization than to be put out of the game themselves.

THEY'LL WAKE UP.

Russia is forging forward through blood and fire toward a more general diffusion of political power among the people. America is receding through apathy and a deceptive and dangerous sense of fancied security toward a condition of centralized power—power originating and wielded from the National and various State capitals.—Farmers' Journal.

BUT WE ARE IMPROVING.

The women and children make 53 per cent of the cotton, and the surplus is a big problem for the men to guess over and gamble on. Even the National Government has a department with high salaried officials keeping tab on the women and children's cotton. We are a brave nation, we are! We protect womanhood, we do!—Farmers' Journal.

Speaking of the Dallas Convention, the Dallas News said:

"A noticeable feature of the convention is the fact that one sees men from almost every section of Texas among the delegates. You may be talking to a resident of the high plains one minute about the big sorghum and Kafir corn crops of the Panhandle, and the next minute a Southeast Texas delegate is telling you about the fine Havana cigars they are making down at Nacogdoches from Texas-raised tobacco. An East Texas peach grower no sooner gets through expatiating upon the glories of the Elberta than a South Texas man begins to enthrill you with the wonderfully nutritious and health-promoting properties of Texas-grown rice. They are here from all over this State."

And that's just how big the Farmers' Union is in the biggest State in the union.

MERCURY MEDITATIONS.

The union label is the guarantee of honesty and purity of goods. Learn to look for the label.

Rush that warehouse project. It will be useful for other purposes besides storing cotton. Every additional warehouse erected carries you one step nearer the goal of economic independence.

Mr. Sill, of Calcutta, India, is spending the summer at the A. & M. College of Texas, with a view of studying cotton culture, breeding and selection, for the benefit of British India cotton growers.

Some folks' minds run in a peculiarly tortuous channel. For the manufacturer to get a dollar a pound for cotton goods is all right. But for the farmer to ask more than ten cents a pound for his cotton is to exhibit a spirit of greed.

At any rate, buy you a farm. Even if you should fail to ever pay for it, you'd be no worse off than if you had kept on renting. And the chances are, you could and would pay it out. You have everything to gain, and nothing to lose. So buy a farm. Some day you'll thank your stars you acted on this advice.

Here is the gist of the cotton warehouse idea: The spinners are not willing to break up their system of buying cotton unless the Southern farmers provide better facilities for handling and marketing the crop upon a business basis. As each individual spinner buys only one particular grade of cotton, a system or line of local warehouses is needed, as feeders to a spacious warehouse and compress at the port, enabling the warehouse manager to fill large orders and supply the wants of the spinners from month to month, as required.

No, Sammy, mercenary doesn't mean merciful! Nearer the reverse.

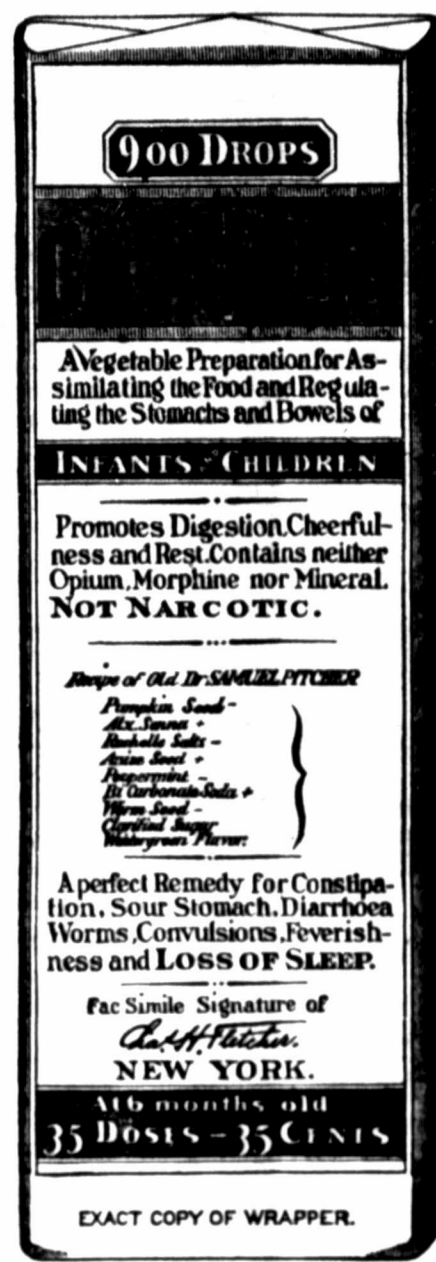

Whether or not Success is Assured, will depend upon the nerve of the membership who raise cotton this season. Do not get frightened. We are fully able to control if we will only be brave. We are too strong now to think of losing the battle. It will take nerve and conviction, however, to do so.

It is the man who waits for a chance to begin at the top who always remains at the bottom.

Veterans Rapidly Passing Away.

Veterans of the civil war are dying now at the rate of 100 a day, according to records of the United States pension office. The monthly reports for several months past have shown the death rate among the old soldiers to be in the neighborhood of 3,000 a month. Pension office officials who have watched the figures closely and know the tendency of the death rate are of the opinion that the number of civil war pensioners has reached the maximum and that hereafter each succeeding month will show a decrease.

The Congressional campaign must be based on the administrative and legislative record of the party, and that being so, Theodore Roosevelt's personality must be a central figure and his achievements a central thought in the campaign.

**The Old Observer.**  
The "Old Observer" (Andrew J. Bennett) of the American Shepherds Bulletin is a caller here this week, and we understand will spend some days in this vicinity. This writer describes the great west and the life and pursuit of its people, traveling for that purpose through the region between the eastern frontier of Montana, Wyoming, California, New Mexico and the Pacific Coast. While premerly the Bulletin is devoted to live stock interest particularly to sheepbandy. The Old Observer in his monthly letters considers everything of human interest; the topography, soil and climate, agricultural facilities, etc.

In his New Mexico letters he attempts to show, we think successfully, that there is really no reason for antagonism between agriculturists and stock men; besides the fact that there is much land only adapted to pasturage, is the other that who can farm successfully who does not either keep sheep or cattle for the fertilization of his land, as well as for such products as they yield.
