Fall Opening of the New Schloss Styles for Men.

This is the great Clothing event of the year—our advance showing of the new Schloss Fall and Winter models. As everyone knows who is at all posted on the subject, the new styles are very largely originated by the Schloss designers and later copied by others.

The present season is a good illustration. Now that our Fall stock is here, we can show you new advance models that will not be generally offered for at least two or three months.

It will pay you to see these splendid garments. Not only are you certain of the new style and the right style, but the quality, fit and incomparable workmanship of these garments are thoroughly exclusive characteristics. Furthermore we have very few duplicates and our best will be quickly taken. See them now; we will reserve your selection until later, if you so desire.

The New Schloss "Harvard" Fashions

Don't come from London and Paris any more—most of them are brought out at the great universities like Harvard, Yale, Princeton and other famous institutions.

Here is one of the best of the new designs for Fall—called the "Harvard" because the model came from there—well shown in the illustration. You'll find it just as correct for business wear in New York or San Francisco as it is on the Harvard Campus. This is only one of our Schloss "University" Models, ask to see them.

Don't confuse this design with the ordinary "straight-fronts" that you may see. The similarity ends there. Little differences of line and shape and proportion impossible to describe, give this "Harvard" Suit an unusual character and smartness specially brought out by the fine tailoring.

Our Schloss Suits cost from \$15.00 to \$30.00. Others \$8.00 up.

Warren-Fooshee & Company.

Methodist Church.

There will be preaching at the Methodist church Sunday morning and night which will be the last for the Conference year. If I am returned to the work I hope to be on hand again the last Sunday in this month, or first Sunday in November. If removed to another work I shall have many pleasant memories of the kind people and the much kindness shown the Pastor during the year.

S. E. Wilson, pastor.

Another Fine Hat.

On Saturday evening, December 22, at 6 o'clock, I will give away another \$10.00 ladies hat. The conditions are that with each \$1.00 purchase I will give a ticket entitling the holder to one chance for the hat. The numbers will all be placed in a hat, and a little girl, blindfolded will draw one number. The person holding the corresponding number will receive the hat. You are all welcome in this contest.

Miss Artie Kuykendall.

Notice.

As I have several applications and correspondents from people from the east, for homes in New Mexico, I have decided that the best way to get as many of them as possible to go into the land business and all that have had to do with it, is to let them know that I am in Roosevelt county and adjoining counties who have land to sell or want to help boom this part of New Mexico should at once list his land with me so I can get it in my present plan of advertising which will go to every part of the United States. It was not your fault but will help you and the country want to get out my description of the next few days.

J. B. Crawford.

OCCUPATION OF CUBA.

Americans To Occupy Cuba Indefinitely.

Washington, Oct. 1.—American troops are now moving toward Cuba. Mobilization of the force will be at Newport News, Va., for the most part, although a part of the first expeditionary force to Cuba will be sent from New York and Tampa, Fla.

Advices received at the departments of the military establishment of the Government today indicate that all is quiet in Cuba, and that the insurgents intend to lay down their arms. The probability is that United States forces in the island will be landed only as a precautionary measure, no trouble of a serious kind being anticipated; but, in accordance with instructions from President Roosevelt, hurried preparations are being made for the sending of an expeditionary force of the army to Cuba.

The first American troops will be landed at Havana "next" Saturday. Meanwhile the marines and bluejackets from the American fleet in Cuban waters will protect American interests and support Secretary Taft, the provisional Governor of Cuba, in the preservation of order and the protection of life and property.

How long intervention may continue it is impossible to foretell. The nature of the intervention and the preparations for it indicate a supervision of Cuban affairs on the part of the American Government for an indefinite period.

It will be a full week before the forces of the army can be landed in Cuba. The first detail of troops will leave New York on Wednesday aboard the army transport Sumner. They will arrive at Havana on Saturday afternoon next. It will probably be several days later before all the troops of the first expeditionary force of the army will be able to reach Cuba.

STORM LOSSES.

Victims Number Over a Hundred

Great Property Losses

Mobile, Alabama, October 1.—The number of casualties in the great storm is slowly increasing as messages are received from places heretofore inaccessible. The total of the known dead is seventy-nine, and a possibility of 102, by the reports which reached Mobile during the night and early today. Four bodies have been found at Coden, and it is estimated that twenty-three lives have been lost from the oyster fleet around Cedar Point.

This last estimate is not known to be accurate, and is probably somewhat exaggerated for the reason that it includes among the dead every man aboard a fishing boat who has not been heard of since the storm. It is known boats on which these men were have been driven ashore and it is entirely possible that some of the crews managed to reach the shore. It does not seem likely that the dead roll will amount in this vicinity to more than 125.

It is now believed that the loss to the lumber interests alone by the storm will aggregate \$10,000,000. It is almost impossible for any person who has not been through the storm-swept district to comprehend the extent to which the country has been swept of pine lumber. Tens of thousands of trees of the finest quality have been blown down from the points on the shore to places 100 miles in the interior.

New Orleans: Six more deaths were added to the list of drowned in the Mississippi Sound region. Captain George Culver, his wife and four boatmen, who were on an island in Grand Bay when the hurricane began, have been given up for lost. Every building on this island was washed into the bay, leaving the place almost completely barren. Search has been pressed for three days without finding any trace of Captain Culver or his employees.

Peanut Planters' Profit.

Terrill: Rev. C. J. Washmon, a farmer living south of Terrill a few miles reports that about 1,000 bushels of peanuts have been grown in that community this season. The yield is averaging forty bushels per acre and is selling readily at 75c per bushel. Thrashing will begin next week. Recent rains have damaged the peanut hay, which is considered fine for stock.

Pension Flood Tide Past.

Washington: The net decrease in the pension roll of the United States for the fiscal year ending June 30 amounted to 12,470, the largest decrease ever known in the history of the country. These facts are brought out in the annual report of Commissioner of Pensions Warner. In the report the Commissioner expresses the opinion that there will be a still more marked decrease during the present year.

After Many Years.

Port Worth: After forty-four years of separation two brothers, John and Henry Hillwood met in Fort Worth Saturday. The two formerly lived with the family at Greenville, Ky., and when the Civil War broke out John became a Federal soldier and Henry a Confederate. After the war Henry went to Mexico where he has since resided. A mutual friend brought the brothers together here.

BAILEY TO THE DEFENSE.

Senator Bailey Tells His Hearers His Side of the Case.

Greenville, Tex., Oct. 1.—Senator Bailey delivered here yesterday afternoon a speech intended as a formal and explicit reply to all the charges which have been made against him in various quarters. At Greenville last Saturday he made a short address upon the same subject, but, as he stated then, that address was intended merely as a notification to his friends and neighbors that an assault had been made upon his reputation. He said then that he would not insult the intelligence of his hearers by making a reply to the charges. "That reply," he continued, "I shall reserve for other times and places."

Yesterday he took up the charges one by one and made an emphatic denial of each. He quoted from the records of the Legislature and from various other sources of information to substantiate his statements. After the speech a meeting was held, at which resolutions were adopted expressing confidence in him.

Senator Bailey spoke in the court room of the Hunt County court house. The place was packed. Among those present were many ladies. Standing at the Judge's bench, he held the attention of all for about two hours. He was introduced by State Senator B. F. Looney, who took advantage of the occasion to give assurances of his loyalty and to denounce those who were criticizing the Senator.

TO SUE THE RAILROADS.

Attorney General to Get Busy Against Violators.

Washington: Attorney General Moody has directed that suits be brought against a large number of railroad companies to recover penalties for violation of the safety appliance law through failure to keep their equipment in the proper condition. The total number of violations is 181. Among the suits filed are the following: Fort Worth and Denver Railway Company, International and Great Northern Railway Company, western division of Texas, Kansas City Southern Railway Company district of Kansas, St. Louis, Iron Mountain and Southern Railway Company, eastern district of Arkansas, St. Louis, Iron Mountain and Southern Railway Company, western division of Arkansas.

Fire at Caldwell.

Caldwell: The most disastrous fire that has ever occurred here swept this town Monday morning, the losses being as follows: Glyde Clark's blacksmith shop, loss \$1,800; John Houston's residence, loss \$1,500; Presbyterian Church, loss \$1,800; J. F. Cobb's residence, loss \$5,000; Neal Cromart's residence, loss \$3,000; J. J. Marich's residence and photograph gallery, loss \$2,500; Jesse Harris' undertaking department and old stable, with three cars out in it, loss \$6,000.

The first train over the recently completed Orin road was run into Arapahoe, I. T., during the last week. Train service will be established at once with Kansas City.

Crane-Bailey Debate at Houston.

Dallas: General M. M. Crane, of this city, who has accepted the invitation to meet J. W. Bailey in debate in Houston states that he will not be able to make more than two or three speeches in the premises owing to his professional engagements. It is reported that General Crane and Senator Bailey may be asked to debate in Dallas some time this month. Both men may be given an invitation in the near future.

Cotton Jumps 60 Points.

New Orleans: Because of the reports of another tropical hurricane as nearing Yucatan cotton jumped nearly 60 points on the 31st sale Monday. Amidst wild excitement about the ring, a whirlwind advance was witnessed and on the professional sustained severe loss. The opening was exactly 30 points higher for December and within an hour after trading had begun that month had advanced 41 points to 9.92c.

The business men have been joined by the city council in a movement to secure a commission form of government for Waco. The matter is to be presented to the people, and will be an interesting contest.

The monthly statement of the public debt shows that at the close of business Sept. 29, 1906, the debt less cash in the treasury amounted to \$954,946,193, which is a decrease for the month of \$16,122,190.

During the excitement attendant upon the circus at Fort Worth Saturday, the city prisoners made their escape from the unguarded calaboose.

Mineral Wells business men and innkeepers are carrying on a campaign advertising that place as a winter resort.

A project is on foot among Eastern capitalists looking to the formation of a bank deposit insurance company which will insure depositors against loss through failure or mismanagement.

The first football accident reported for the season in Texas occurred at Waxahachie last week, when Hilburn Shelton, of that city, had the misfortune to break his collar bone.

Guy Carr was killed Saturday afternoon by a fall from a horse. He leaves a widow, one child and many relatives.

The Farmers' Union is building a warehouse at Personville, Limestone County, on the Mexia-Navasota cut-off.

MOBILE STORM STRICKEN.

LOSS IS INESTIMABLE. Life and Property a Sacrifice to Wind's Fury.

Day Minnetta, Ala., Sept. 29.—At least fifty lives are lost and \$3,000,000 damage has resulted from a tornado that struck Mobile Wednesday night, and devastated the business section of the city.

Five river boats were sunk at their wharves, the business section, a quarter mile wide and extending the whole length of the city, is inundated.

The city Thursday night is in darkness. Military guards the streets, with orders to shoot to kill.

Pillaging is reported in business sections, and one negro was caught and beaten nearly to death.

Many buildings were razed, and many river steamers turned turtle but the crews escaped.

The revenue cutter Alert is reported lost and many surrounding towns are devastated.

Mobile, via Meridian, Miss., Sept. 29, 3:20 p. m.—Mobile has been visited by one of the worst storms ever experienced by this city. While the velocity of the wind did not exceed that of 1893 it lasted longer and was much more destructive. A conservative estimate of the loss is made at \$3,000,000 and fully 5,000 houses have been affected in various ways. Every church in the city has also suffered, although Christ Church and St. Francis Street Baptist Church suffered more than any of the others. The damage to Christ Church is estimated at \$40,000; St. Francis Street Baptist Church at \$10,000.

Mobile's shipping suffered more than anything else. Many of her river boats now are beached or sunk, all complete wrecks. Her docks and those of private parties and corporations are fearfully torn up.

The revenue cutter Alert has gone down in Mobile River. She was rammed by some unknown vessel and sank immediately. Her crew is believed to have escaped.

The city was not under martial law at dark and no person allowed to enter the wholesale business district. The city authorities were quick to act therefore no disturbances of any kind resulted.

The loss of life, so far as known at present, is one negro baby killed by falling walls and two negro men drowned in the flood. The depth of the water in the wholesale business district, which includes the entire business section from Royal street to the river, was seven feet.

Words cannot fully describe the storm. During the hours between 6 p. m. Thursday and noon Friday trees fell, roofs crashed in by the hundreds. Through the streets, carried by a terrific wind, was hurled thousands of pieces of slate and tin roofing, cornices, whistles and in fact, all kinds of debris. The railroads have started wreckers out to clean up and repair their tracks. Many people were seriously injured by the flying slate and tin.

Well Known Newspaper Man Drowned.

Corpus Christi: James S. Henderson, editor of the Crony, of this city, and formerly poet of the Texas Press Association, was drowned Thursday night while in bathing with a party of young ladies. Several of the party went beyond their depth and were unable to swim back. Whether fright because he was unable to reach any of the ladies who could not swim or heart failure attacked him is not known, but before help could reach him, he was too near death to be reclaimed. One of the young ladies narrowly escaped and was rescued by a Mexican who threw a net to her.

Crane Would Meet Bailey.

Houston: Hon. H. F. Ring has received in response to the petition of citizens to Hon. M. M. Crane asking him to meet Senator Joe Bailey in joint debate, a favorable reply, but not to meet him Saturday night, on account of the insufficiency of the time to make proper preparation. It means, of course, that he is willing to meet him later, and that it is now up to Mr. Bailey to make good.

Sole Support of Mother.

Temple: Ernest Wilson, the young section hand who was so badly injured by being struck by a Missouri, Kansas and Texas passenger train several days ago, succumbed to his injuries. Post-mortem examination revealed that the man had received a blow on the back of the head that had fractured the skull and there was a deep wound extending into the brain. Deceased was the sole support of a widowed mother.

From the "Hog Centre."

Sherman: Grayson County swine breeders will have in the aggregate one of the largest displays of fine hogs at the State Fair they have ever shown. A gentleman who is to have a herd there says that there will be more than a hundred in all the Grayson County exhibits. Several exhibitors will also visit the Grayson County Fair at Denison, which precedes the State Fair and the San Antonio Fair, which follows it.

Three Killed on Wabash.

Danville, Ill.: Passenger train No. 5 of the Wabash road, running from Kansas City to Buffalo, N. Y., and known as the "Buffalo Mail," due here at 4:52 a. m., ran into an open switch west of Catlin, Ill., and crashed into a section of a freight train. All of the coaches except the diner were turned over and burned. Three persons are known to have been killed and several others are missing. Thirty-seven are injured.

Farmers' Co-Operative Union Of America

You have no right to stay away from the meetings. If you can't learn anything, you can teach something; if you can learn something, you should go out and get the benefit of your neighbors' knowledge and experience.

These nights are getting long enough for quite a decent programme to be carried out at your meetings. See to it that your meeting is interesting, and that the members are anxious to attend. Keep something doing all the time.

There is nothing coming to the kicker. He is one of those elements which happen sometimes to do good by stirring things out of a comatose condition. He sometimes keeps people from going to sleep. Just be good to him, and when his kick does happen to be in the right direction, help him.

If you sell your cotton at the price the other man names, that is your fault; if you make him pay your price, it isn't anybody's fault, but it would be nothing more than any successful business man would do. You will have to put some business sense into your business, or else it will not be business at all.

Say, for goodness sake get your tools and vehicles under shelter this winter. All over the country wagons, buggies, plows, reapers and so on, are standing out in the weather. Any man who has no more sense than to let such things go to ruin, ought to be put on the feeble-minded list and have the benefit of a guardian—he needs a guardian badly.

Time to meet now and do some planning for the year of 1907. "The wise man foreseeth danger and hideth himself," and he also provideth himself for the coming need. You are going to plant something. Go get together and plan to plant and market together next time, and you will be sure to make more money than you ever have made, and do it with less worry.

Because you have to look close after your rights as against some people don't get the idea into your head that all the people are rascals. There are just whole cowpans full of good men and women still on earth, and there will be some of this sort here all the time. Just hunt them out and make them your friends. It is one of the sweetest things on this earth to have a number of friends whom you can trust to the end of the earth. Get you some of this sort, and then get busy with your distrustful self and become worthy of such friendship as you crave. There are plenty of 'em all over the country.

The spread of the Union is now on throughout Illinois. Let 'er spread, for if there is a people that do need organization it is the farmers of Illinois especially. The move is on from the corn lands of "Down" down about Cairo, to the "Land o' Murphies," along the great lakes, and the corn raisers need some co-operation, and they need it right now. The bag potato raisers have always been the victims of the commission merchants, and until they organize along lines of selfhelp, they will continue to feed the commission men along Water street, while the public pays full value for all the "Murphies" they get.

CO-OPERATOR COGITATIONS.

If you would be a Co-operator, never be a dumper.

Let's never let the procession pass by us. Let's keep up with it all the time.

That perfect understanding will make us free. All producers should be brethren.

We are all now on the main track and are bound for the same depot of profitable prices.

Eleven cents is the price. We have only to stand firm and this price will be realized. Never sell for less.

Success this year means success for all this year. Failure this year would set us back many days. We will succeed.

Scientific marketing alone will save the producer. Congested markets mean our undoing. If the law of Supply and Demand is to govern let's make the Supply and Demand equal at all times.

Will the producers stand idly by and see John D. Rockefeller and his associates get into control of all? That is certainly the fate which awaits us if we do as we have always done. Let us be up and doing.

Are you pushing your young men to the front? If not, you are not doing your full duty. This is a great school. Let's teach the youth of the land, not only the dignity of labor, but teach them how to get the proper reward for labor.

Plenty of good readings matter will keep you out of the traps of the fair. Moral: read the newspapers.

MERCURY'S MUSINGS.

Regardless of what the present crop may be there is money, good money for cotton growers in keeping their cotton of the market till the minimum price is obtained.

In 1906 we exported 250 million pounds less of cotton than in 1905. Yet we received 21 million more dollars for it. This is one of the results of the Farmers' Union holding cotton till the demand made a satisfactory price.

Are you doing your part toward building the organization? Are you talking organization? If not, better begin now! Never too late to commence doing a good thing, you know.

It is necessity rather than choice which drives so many thousands of farmers' wives and daughters to the fields. This is certainly the general rule notwithstanding there are individual instances to the contrary.

The Farmers' Union aims to make farming sufficiently profitable that there will be no strong temptation—much less a necessity—to force women into the cotton patch.

Attend your local regularly. Be on time. Bring wife and daughter along. Devise plans for quickening the interest among your members and among outsiders. Enlist the ladies and this can easily be done.

The farmer's relation to the market bears points of similarity to the darky's bear trap, which was set to catch "a-comin' and a-gwine." When the farmer buys the other fellow does the pricing. When the farmer sells the other fellow does the pricing. The farmer is caught in the commercial trap "a-comin' and a-gwine."

SOUTHERN FARMER SAYINGS.

Now that the crops are all finished and "laid by," of course the plows are all safely housed.

"Will you walk into my parlor," is the song sung by cotton gamblers to catch the farmers. "Prettiest little parlor," Oh my!

The producers have the right to price their own products. When they do this they will take a long step toward financial emancipation.

When the producers of cotton demand that gambling in futures of their staple crop shall cease, it will be done, and not till then.

The most important element that goes to the making of large crop yields is the farmers' brains. To attain uniform success in farming requires broader and more practical knowledge, more enterprise and sound judgment than is possessed by the average merchant, or banker.

The New State Farmer, published by our friend A. T. Evans, at Sallisaw, I. T., has reached our desk. This copy before us, Number 2, is all right, a credit to our great organization and also to our friend Evans. May it live long to battle for the great cause.

We are for just and reasonable prices and never for gamblers' prices. These just prices can be had only by an understanding of the producers themselves.

The great National meeting put every body on the main track. Some had been on sidings before. The sidings are never safe. Never be sidetracked again. Stay on the main track and the race will soon be won.

Wealth should belong to him who creates it. Have the creators of wealth ever received their just reward? Never. And they never will till they take charge of their affairs and have an understanding. It is up to them.

Do not sell on a declining market.

No one is really defeated until he surrenders.

One of the best preventions of bee-moths is strong colonies of bees.

Parched wheat is one of the best curative agents for fowls of all kinds.

It takes off the profit to be unkind to the poultry or frighten as surely as it does to abuse the cow or the horse.

Flour of sulphur used freely upon cabbage is said to destroy the cabbage worm. Begin to dust the heads as soon as the white butterfly appears. When the dew is on or immediately after a rain is the best time.

Too much of one kind of grain should not be fed. It takes away the relish for food. A variety keeps the appetite keen.

Fall pigs, breed the following spring, make the best brood sows. They acquire the necessary care, size and strength to make good mothers.

The gizzard of a fowl is made to grind its food. Poultry will do better if fed unground grain, after they are large enough to swallow it.

The annual output of the dairies of the United States is about 1,500,000 pounds. This requires 10,000,000 cows. These cows are kept upon 4,000,000 farms and furnish occupation for 7,000,000 persons.

Chickens practice the "early to bed and early to rise" rule, and will get a good send off for a night's rest or a good day's work, if they receive a liberal feed just before going to roost and immediately upon getting off the roost.

Cure For The Blues

ONE MEDICINE THAT HAS NEVER FAILED

Health Fully Restored and the Joy of Life Regained.

When a cheerful, brave, light-hearted woman is suddenly plunged into that perfection of misery, the BLUES, it is a sad picture. It is usually this way: "She has been feeling 'out of sorts'."

For some time, head has ached and back also, and slept poorly, been quite nervous, and nearly fainted once or twice; head dizzy, and heart beats very fast; then that bearing-down feeling, and during her periods she is exceedingly dependent. Nothing pleases her. Her doctor says: "Cheer up; you have dyspepsia; you will be all right soon."

But she doesn't get "all right," and hope vanishes; then come the brooding, morbid, melancholy, everlasting BLUES.

Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone, but take Lydia E. Pinkham's Vegetable Compound. See what it did for Mrs. Rosa Adams, of 819 13th Street, Louisville, Ky., niece of the late General Roger Hanson, U.S.A. She writes: "Dear Mrs. Pinkham: I cannot tell you with pen and ink what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered with female troubles, extreme lassitude, 'the blues,' nervousness and that all-gone feeling. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it not only cured my female derangement, but it has restored me to perfect health and strength. The buoyancy of my younger days has returned, and I do not suffer for any longer with despondency, as I did before. I consider Lydia E. Pinkham's Vegetable Compound a boon to sick and suffering women."

If you have some derangement of the female organism write Mrs. Pinkham, Lynn, Mass., for advice.

Nature probably backed the camel up to win the animal race.

Don't Be Stubborn.

A few people are so headstrong they keep right on having chills—growing thin and yellow, when we guarantee one bottle of Cheatham's Chill Tonic to cure any one case. Don't be one of that class. Get a bottle.

Will Train Office Boys.

Cleon C. Shoff, of Cleveland, has undertaken the gigantic task of conducting a class for the training of office boys in the boys' department of the city's Y. M. C. A. He will teach them proper department and office duties.

Jewelers Lament.

British jewelers complain of great depression in their trade. Persons who wear good jewelry are wearing less of it, and many are contented with the imitation, much of which is very good of its kind now.

Thunderstorms on the Water.

"On the water," said a grizzled old bayman, "when you see a thunder-storm rising you want to keep an eye on the lightning. If you see it in the distance striking down further and further to the right from where you first saw it, or further and further to the left, that indicates that the storm is working to the right, or to the left, and it may pass around you."

"But if you see it all the time coming down in the same place and all the time getting brighter and brighter, why, that indicates that it's coming straight toward you; and that's the time, son, when you want to make for home, or get in your sail and make everything snug till the storm passes over."

Hindu Moon Lore.

The full eclipse of the moon was observed in Singapore on the night of August 4. According to the Hindus this eclipse is the contact between the moon and another planet called Rahoo, but the masses believe that owing to the will of God, Rahoo, or the serpentlike planet, catches hold of the moon by its hideous mouth and releases it after a short time.

At the first contact the Hindus bathe principally in the sea and anxiously await the release. After the contact they take another bath. During the interval they are not allowed even to drink a cup of water, as their belief is that all things in the world get polluted during the contact—Singapore Times.

RIGHT HOME.

Doctor Recommends Postum from Personal Test.

No one is better able to realize the injurious action of caffeine—the drug in coffee—on the heart, than the doctor.

When the doctor himself has been relieved by simply leaving off coffee and using Postum, he can refer with full conviction to his own case.

A Mo. physician prescribes Postum for many of his patients because he was benefited by it. He says: "I wish to add my testimony in regard to that excellent preparation—Postum. I have had functional nervous heart trouble for over 15 years, and part of the time was unable to attend to my business."

"I was a moderate user of coffee and did not think drinking it hurt me. But on stopping it and using Postum instead, my heart has got all right, and I ascribe it to the change from coffee to Postum."

"I am prescribing it now in cases of sickness, especially when coffee does not agree, or affects the heart, nerves or stomach."

"When made right it has a much better flavor than coffee, and is a vital sustainer of the system. I shall continue to recommend it to our people, and I have my own case to refer to." Name given by Postum Co., Battle Creek, Mich.—Read the little book, "The Road to Wellville," in pigs. "There's a reason."

To Republicans.
We are anxious to have every Republican in close touch, and working in harmony with the Republican National Congressional Committee, in favor of the election of a Republican Congress.

The Congressional campaign must be based on the administrative and legislative record of the party, and that being so, Theodore Roosevelt's personality must be a central figure and his achievements a central thought in the campaign.

We desire to maintain the work of this campaign with popular subscriptions of one dollar each from Republicans. To each subscriber we will send the Republican National Campaign Text-Book and all documents issued by the Committee.

Help us achieve a great victory.
JAMES S. SHIRMAN, Chairman.

Andrews Nominated.
Las Vegas, September 29, 4:00 p. m. There were tremendous cheers when Chairman H. O. Bursum stepped on the platform in the Duncan Opera House at three o'clock this afternoon to call the convention to order.

The convention was to have been called to order at 2:30 o'clock but it was 3 o'clock before it really got down to business. Chairman H. O. Bursum called the body to order and Secretary Charles V. Safford read the official call. Mr. Bursum then placed L. O. Fullen, of Carlsbad, in nomination as temporary chairman and he was unanimously elected to that honor.

Mr. Fullen on taking the chair made a very neat and impressive talk. A committee on credentials was then appointed. It consisted of one delegate from each county. This committee immediately took up the consideration of the Bernalillo county contested election case.

Committees on permanent organization, on rules and order of business and on resolutions were then appointed. It is understood that Charles A. Spiess will be permanent chairman of the convention.

The committee on resolutions; it is expected, will take some time to deliberate before reporting, as the statehood question will cause considerable discussion. The sentiment upon this question is divided. A strong joint resolution will, in all probability, be adopted.

The nomination of W. H. Andrews to succeed himself as delegate and to be the Republican candidate for Delegate to the 60th Congress from the Territory of New Mexico, is assured and will be made unanimous. A large number of counties has instructed the Delegate and the convention of every county has fully endorsed his acts and recommended him to most favorable consideration. While it is believed that the actual nomination will not be made until this evening, it must be asserted as an absolute certainty that he will be the nominee of the convention.

The following resolution will be introduced by ex-Governor L. Bradford Prince, a delegate from Rio Arriba county, and a canvass of the delegates present shows that it is sure of passage.

Resolved, That in case Hamilton statehood not fails to become operative through the adverse action of the people of Arizona that the 60th constitutional delegates elected in New Mexico should meet at the designated time and hold a constitutional convention for New Mexico and formulate the most excellent constitution possible to be sent to the Congress of the United States and to ask for immediate admission under it as a separate state—Santa Fe New Mexican.

It is well understood that Charles A. Spiess will be the permanent chairman and that at the evening session W. H. Andrews will be re-nominated to succeed himself and to be the party's candidate to the 60th Congress by acclamation.

The Bernalillo County contest has been decided and will be reported by the committee on credentials, namely, the Hubbell delegation will be seated with nine-sixteenths of a vote, as its claim is supported by nine delegates as provided by the Republican constitution.

The delegation from Santa Fe, which has been seated with nine-sixteenths of a vote, will not be seated.

radship was noticeable all along the line. During the night other delegations arrived and this morning it was found that the convention would be largely attended by many delegates and that the latter were very enthusiastic and harmonious.

At 10 o'clock this morning the Republican Central Committee was called to order by Chairman H. O. Bursum, Secretary Charles V. Safford at the desk. Twenty-nine members were present either in person or by proxy.

The contest case from Bernalillo county was brought up and considered. After two and a half hours of serious attention and deliberation, the Frank A. Hubbell delegation was declared regular and entitled to seats and votes in the preliminary organization of the convention. Delegate L. O. Fullen, of Carlsbad, Eddy county was recommended for temporary chairman of the convention. The committee then adjourned.
