## Style and Quality.

Style is a good thing you want it, you'll get it if you come here. But MERE style isn't enough you want Quality and Good Tailoring and Style that Stays. That's why it pays to buy our Schloss Suits,

Some of the finest Tailors in the country are found in the Schloss workrooms. Every man is an expert in his particular branch. Every detail is done perfectly. Handwork is used where handwork is best, otherwise costly machines do the work of many men, and do it better. High-priced Designers originate Schloss styles, high-priced tailors do the work. The result is a garment at once fashionable well-made of splendid quality-full of "the style that stays."

Young Men's Suits.

Beginning at \$12, our prices range upward to \$35. Pay what you like, you will get the greatest value your money can command.

Latest Fad in "Society."

The latest fad in certain eastern society circles is to be glum and cross. One phase of this more than usually absurd affectation takes the form of ignoring letters of introduction and this lack of consideration has roused family feuds in several cases. One wealthy young Italian, who is a member of one of the best Roman families, went to Newport this summer with many letters from prominent persons. But he has found it impossible to present them. "It is foolish to expect anything from social leaders these days and the stranger who asks to be received by letter has a hard time of it," said a young man whose letter to a society matron was ignored.

A Man of 70 After Finding Coffee Hurt Him, Stopped Short.

When a man has lived to be 70 years old with a 40-year-old habit grown to him like a knot on a tree, chances are he'll stick to the habit till he dies. But occasionally the spirit of youth and determination remains in some men to the last day of their lives. When such men do find any habit of life has been doing them harm, they surprise the Oslerites by a degree of

will power that is supposed to belong to men under 40 only. "I had been a user of coffee until three years ago-a period of 40 years -and am now 70," writes a N. Dak. man. "I was extremely nervous and debilitated, and saw plainly that I

KING OF SAFE-BREAKERS.

Marvelous Delicacy of Hearing Pos sessed by Milner James.

"Milner James was the most artistic safe-breaker in the business," said Lecocq the detective. "He is dead now. He opened in his time over 700 safes without tools or gunpowder solely by working out the combination with his delicate and patient fingers. 'It took me a year.' he once said. 'to learn the trick of picking combinations. I studied all the locks there were and I had three safes of different makes to practice on. The ear is the most important factor in my method When the knob of the lock is turned slowly and one of the tumblers reaches the notch corresponding to the first number of the combination the tumbler will fall with a little click. Care must be taken not to displace this tumbler. You keep on trying the knob back and forth gently till each of the tumblers drops. Then the door opens. Hardly one man in a thousand has an ear delicate enough for this work and to be a success at it you've got to give up tobacco and alcohol.'"

INTERESTING CONTEST.

Heavy Cost of Unpaid Postage.

One of the most curious contests ever before the public was conducted by many thousand persons under the offer of the Postum Cereal Co., Ltd.,

ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches. etc. It is all important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectually, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well

worth considering in making purchases. It is because of the fact that SYRUP OF FIGS is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists, and that full name of the company-California Fig Syrup Co., is plainly printed on the front of every package. #### Tricks of Smugglers.

Double-bottomed bottles and other vessels are common contrivances for smugglers. In order not to awaken suspicion they are usually filled with some beverage, beer or wine, and this is duly declared by the man in charge of the vehicle in which they are carried. At the present time, however, the officers are never deceived by the double-bottomed bottles, nor, for that matter, by the hollow horse collar, which at one time was a favorite dodge for the alcohol smuggler.

Cotton Fire at Bryan.

Bryan: A great fire disaster visited Bryan Friday night, "resulting in the destruction of the compress and 1,000 or 1,500 bales of cotton. The hurned compress was worth \$35,000 . \$40,-000, and was insured. The fire loss

included six or eight cars loaded with cotton on each side of the compress. By quick work, train crews of both roads got a number of cars to places of safety.

Cremated in Her Home.

Groesbeck. About 6 o'clock Friday morning fire was discovered in the cottage occupied by Mrs. L. G. Aspley,

and when people arrived the house was enveloped in flames and Mrs. Aspley was found burned to a crisp. Mrs. was the wife of the late L. G. Aspley, who died a few years ago. Since the death of her husband, she has resided with her different relatives.

The contest was started in February, 1906, and it was arranged to have the prizes awarded on Apr. 30, 1906. When the public announcement appeared many persons began to form the words from these letters, sometimes the whole family being occupied evenings, a combination of amusement and education.

After a while the lists began to come in to the Postum Office and before long the volume grew until it required wagons to carry the mail. Many of the contestants were thoughtless enough to send their lists with insufficient postage and for a period it cost the Company from twenty-five to fifty-eight and sixty dollars a day to pay the unpaid postage.

Young ladies, generally those who had graduated from the high school, were employed to examine these lists Route will use the Denver Road Ter- and count the correct words. respond so generally and they were compelled to fill every available space vitation by wire came later, asking in the offices with these young lady examiners, and notwithstanding they worked steadily, it was impossible to complete the examination until Sept. 29. over six months after the

prizes should have been awarded. This delay caused a great many inquiries and naturally created some dissatisfaction. It has been thought best to make this report in practically all of the newspapers in the United States and many of the magazines in order to make clear to the people the conditions of the contest. Many lists contained enormous numbers of words which, under the

rules, had to be eliminated "Pegger' would count "Peggers" would not. Some lists contained over 50,000 words, the great majority of which were cut out. The largest lists were checked over two and in some cases three times to insure accuracy. The \$100.00 gold prize was won by
