WE call your attention to this statement, and upon its merits solicit your busines. We have the disposition and ability to handle any legitimate banking business coming to us through our friends. Our efforts to build up a strong financial institution along conservative lines, have, we believe, been successful. We pledge a continuation of our usual conservative principles, and solicit the accounts of indi-viduals and firms desiring the services of a carefully managed bank. Our steady growth tells its own story

BEAUEAU OF IMMIGRATION.

The TIMES is in receipt of a copy of the Biennial Report of Bureau of Immigration of the territory of New Mexico, by its secretary, Max Frost. The members of the bureau are as follows:

A. M. Edwards, Farmington; Alfred Grunsfield, Albuquerque; Joseph W. Bible, Honover; Wm. B. Bunker, East Las Vegas; W. E. Lindsey, Portales; Roman Armijo, Socoro.

The report shows that over twenty-five thousand booklets, pamphlets and maps have been issued during the past two years and nearly all distributed. To the Land of Sunshine" seems to be the most popular publication as three editions of this has been printed aggregating eleven thousand copies. Other publications are, "How I Cured Myself of Consumption," "Mines and Minerals of New Mexico," several pamphlets devoted to different counties, a map of the Territory, and a book of 446 pages entitled "To the Land of Sunshine," containing 200 illustrations.

These publications described the resources, naturally advantages and progress made in the horticulture, minerals, live stock, irrigation, school system, cities, the climate and weather is com-

Cash Prizes for Farmers' Letters

It is the purpose of the Register-Tribune to issue a big free edition in honor of the Cattlemen's Convention, the issue to be the week before the opening day, with the object of closing and confirming the intention of the people of the western country to attend the Convention, Several thousand copies will be distributed free during the Convention, for the further advertisement of the splendtd resources and possibilities of the valley. All copies of the edition of 10,000 will be absolutely free, and issued as a recognition of the splendid patronage of the paper since its new birth a little over a year ago.

The edition will be full of matter descriptive of the country and its possibilities. We are anxious to secure a large number of letters from farmers and fruit growers, telling of their actual experience. We do not ack or desire elaborate composition. Whal we want is the real story of the success of men who have worked for it, told in their own way, and to make their preparation worth while, we offer:

\$10.00 in cash For the best letter... For the second best letter 5.00 in cash For the third best letter-Five Year's Subscription

These letters must reach us no later than Monday, March 11, and announcement of the winners will be made as soon as they can be graded and judged. going to try to make the strike of their lives by booming Senator Culberson for nomination as democratic candidate for president in 1908. It seems after all that Billy Bryan is not the unanimous choice of the party.

The Oklahoma constitutional convention is turning out to be such a fizzle that it now looks very doubtful if their constitution will ever be ratified by the people or signed up. If such should happen, statehood for Oklahoma would be defeated till another statehood bill is passed by congress.

When the New Mexico legislature started in they could not resist the time honored practice of loading up with employes. They forgot that a new era of Republican policy had come in vogue, so during the first ten days of the session there were irrigation, school system, cities, ninety-four clerks, stenographers, interpreters, etc., on the pay roll. BEAUEAU OF IMMIGRATION.

The TIMES is in receipt of copy of the Biennial Report of Bureau of Immigration of the territory of New Mexico, by its secretary, Max Frost. The members of the bureau are as follows:

A. M. Edwards, Farmington; Alfred Grunsfield, Albuquerque; Joseph W. Bible, Honover; Wm. B. Bunker, East Las Vegas; W. The democrats of Texas are E. Lindsey, Portales; Roman Armijo, Socoro.

The report shows that over twenty-five thousand booklets, pamphlets and maps have been issued during the past two years and nearly all distributed. "Ho! To the Land of Sunshine" seems to be the most popular publication as three editions of this has been printed aggregating eleven thousand copies. Other publications are, "How I Cured Myself of Consumption," "Mines and Minerals of New Mexico," several pamphlets devoted to different counties, a map of the Territory, and a book of 446 pages entitled "To the Land of Sunshine," containing 200 illus-

Cash Prizes for Farmers' Letters

It is the purpose of the Register-Tribune to issue a big free edition in honor of the Cattlemen's Convention, the issue to be the week before the opening day, with the object of closing and confirming the intention of the people of the western country to attend the Convention. Several thousand copies will be distributed free during the Convention, for the further advertisement of the splendtd resources and possibilities of the valley. All copies of the edition of 10,000 will be absolutely free, and issued as a recognition of the splendid patronage of the paper since its new birth a little over a year ago.

The edition will be full of matter descriptive of the country and its possibilities. We are anxious to secure a large number of letters from farmers and fruit growers, telling of their actual experience. We do not ack or desire elaborate composition. Whal we want is the real story of the success of men who have worked for it, told in their own way, and to make their preparation worth while, we offer:

For the best letter \$10.00 in cash For the second best letter 5.00 in cash For the third best letter-Five Year's Subscription

These letters must reach us no later than Monday, March 11, and announcement of the winners will be made as soon as they can be graded and judged. Priscilla's Revenge.

It was in the days of old when knights were bold and dressed in gleaming armor.

"George, dear," said Priscilla, over her daily task, "wilt thou not help me with my skeins"."

"By the tower of London—no!" roared George, as he sharpened his lance. "You haven't a spinning wheel for a husband."

Two hours later George returned from the fray with his armor battered and torn.

"Dearest Priscilla," he said, softly, "wilt thou not put a few patches on my dress suit?"

on my dress suit?"
"No, George," replied Priscilla, sweetly. "You haven't a blacksmith for a wife."

And the bold knight was so humiliated he went over to Ye Frozen Heart tavern and stood the taverakeeper off for a tankard.

BRING GOOD HEALTH

the Grip, Arrest Fatal Decline and Rebuild the System.

Any bodily weakness caused by a deficiency in the blood can be cured by the use of Dr. Williams' Pink Pills because these pills actually make new blood. After attacks of the grip the blood is generally run down and the patient continues to decline.

"About three years ago," says Mrs. Jennie Cowan, of 718 N. Henry Street, West Bay City, Mich., "I caught a severe cold, which ran into the grip. I was confined to my bed for two weeks. At the end of that time I was able to be about, but was completely run down. I was so weak I could hardly stand, my cheeks had no color and I felt faint. My heart would flutter and it was difficult for me to breathe at times. Neuralgia settled in the back of my head and stomach and I suffered from rheumatism in my shoulders.

"I had the care of the best doctor in town but became no better until a friend told me one day how she had been cured by Dr. Williams' Pink Pills and I decided to try them. I soon felt better and continued using them until I was entirely cured. They built me up again to perfect health and I use them now whenever I feel paying for it \$100.

or all sick and they always help me."

Dr. Williams' Pink Pills are invaluable in such cases, as well as in other blood diseases, because they not only drive off the germs of the disease but build up the system. The pills have cured anaemia, rheumatism, after-effects of fevers, neuralgia and many other severe disorders.

Judges on Their Dignity. The ceremony of the United States supreme court judges marching from their robing room across the corridor to take their seats on the bench, which occurs at high noon every week day while the court is holding session, is always a matter of interest to the average visitor at the capitol. Every day there is a small crowd waiting to see the stately procession. The other day Justice Moody, as the youngest member of the august body, brought up the rear. A flicker of a smile appeared on his face as he noted the black-robed figures ahead of him, but it passed away instantly and he became as solemn and grave as the others.

BUILT OF FOSSIL BONES.

Queerest House in the World is in Wyoming.

"The queerest house in the world," said a zoologist, "is undoubtedly the famous Bone cabin of Wyoming, near the Medicine Bow river. This cabin's foundations are built of fossil bones.

"Bones of dinosaurs jaws of the diplodocus, teeth of the brontosaurus, knuckles of the ichthyosaurus, vertetbrae of the camarasaurus, chunks of the barosaurus, the cetiosaurus, the brachiosaurus, the stegiosaurus, the the orintholestes or bird-catching dinosaur—all entered into this wonderful cabin's foundations, making it the most curious and the most costly edifice, not excepting the Pennsylvania capitol, in America.

"This hut was built by a Mexican sheep-herder, who had happened by chance on the grandest extinct animal bed in the world. This was a plot of about 50 yards square wherein lay in rich profusion the bones of all the animals of the reptilian age. The heaviest and the lightest, the largest and the smallest, the most tranquil and the most ferocious lay side by side."

"The place was evidently once a river bar, and the dead bodies that floated down the stream were here arrested, to lie for hundreds of thousands of years till a sheep-herder came along, and, rooting among the bones as big as bowlders, set about the building of the world's queerest cabin."

WHITE BREAD

Makes Trouble for People with Weak Intestinal Digestion.

A fady in a Wis. town employed a physician who instructed her not to eat white bread for two years. She tells the details of her sickness and she certainly was a sick woman.

"In the year 1887 I gave out from overwork, and until 1901 I remained an invalid in bed a great part of the time. Had different doctors but nothing seemed to help. I suffered from cerebro-spinal congestion, female trouble and serious stomach and bowel trouble. My husband called a new doctor and after having gone without any food for 10 days the doctor ordered Grape-Nuts for me. I could eat the new food from the very first mouthful. The doctor kept me on Grape-Nuts and the only medicine was a little glycerine to heal the alimentary canal.

"When I was up again doctor told me to eat Grape-Nuts twice a day and no white bread for two years. I got well in good time and have gained in strength so I can do my own work

again.

"My brain has been helped so much, and I know that the Grape-Nuts food did this, too. I found I had been made ill because I was not fed right, that is I did not properly digest white bread and some other food I tried to

"I have never been without Grape-Nuts food since and eat it every day. You may publish this letter if you like so it will help someone else." Name given by Postum Co., Battle Creek, Mich. Get the little book, "The Road to Wellville," in pkgs.

BOY WAS SOMEWHAT MIXED.

Had Wrong Idea of the Sound to Be Removed.

Deacon Allen Sheldon, who recently passed away, was universally respected by all who knew him, and his stories were listened to with much delight, says a writer in the Boston Herald. He used to tell the following with a great deal of interest:

When a very small boy he asked his father to let him go with him to the town meeting. He went, with the promise that when he returned he would tell the folks what happened.

In those days the church was supported by a tax on every property holder. Whatever of interest came up for the church had to be voted on at the town meeting.

The pastor being feeble and his voice not strong, an article in the town warrant called for the removal of the sounding board from over the pastor's head, since it acted as an extinguisher, and not as originally planned. When Allen returned he told his mother about the sounding board, and said:

"Mr. Flagg got up and said, in his squeaky voice: 'Mr. Moderator, I make a motion that we remove the sound from under the board.'"

Japanese Hot Baths.

In Japan hot baths are used at a temperature of 104 degress. Fahrenheit. Immediately they leave this the bathers plunge into perfectly cold water. A European doctor who has spent many years in Tokio declares that, after a bath of this heat and the subsequent douche, he used to feel warm all day in the coldest winter weather, while in summer the bath had the exactly contrary effect, and was most cooling and refreshing.

After hard work and much persuadon, Delegate Andrews has secure the passage by the House of Repre sentatives of the bill introduced by him during the first session of the Fiftyninth Congress providing for the approval by Congress of the acts of the Thirty-sixth Legislative Assembly for issuance of bonds for the construction of buildings at the Territorial Insanc Asylum at Las Vegas, the Military institute, at Roswell, the College of Agriculture and Mechanic Arts at Mesilla Park and armories at Albu querque and Las Vegas. Delegate Andrews has secured assurance that the bill will pass the Senate next week and become law before adjournment of the Fifty-ninth Congress on benefit to these institutions and will enable their boards of regents to place them in the condition they should be. It is a well known fact that the accommodations at the Insane Asylum at Las Vegas are inadequate and that at least double the space and room are absolutely necessary for the insane of the Territory who should be housed and cared for there at public expense. The lack of more room and proper

quarters for cadets at the New Mexico Military Institute at Roswell is well established and has been a great drawback and injury to that very excellent and well managed educational institution. With increased barracks room and house accommodations for cadets their number will be increased at least double as soon as these can be

For several years past it has been more than fully demonstrated that lack of better and more extended quarters at Mesilla Park interfere greatly with the usefulness and good of the College of Agriculture and Mechanic Arts located there. This territorial and federal school the New Mexico is gratified to say also occupies a very enviable place among educational institutions of the southwest and institutions of the southwest and institutions of the southwest and larged absence from the said land was not due to his employment in the Army, Navy or Marine Corps of the United States in time of war; said parties are hereby notified to appear, respond and offer evidence touching said allegation at 10 o'clock a. m. on March 26, 1977, before W. E. Lindsey, U. S. Commissioner at his office in Portales, New Mexico, and that final hearing will be held at 10 o'clock a. m. on April 2, 1907, before the Register and Receiver at the United States Land Office in Roswell, New Mexico.

The said contestant having, in a proper affidavit, filed February 9, 1907, set forth facts which show that, after due diligence, personal service of this notice can not be made, it is hereby ordered and directed that such notice be given by due and proper publication.

David L. Geyer, Receiver. al institutions of the southwest and everything that can possibly be done for its advancement and progress should be done. The proviso in the bill under discussion allowing the issuance of bonds from the proceeds of which to erect greatly needed additional buildings, will help to put this institution where it ought to be and will enable the board of regents to increase attendance greatly.

The armories for the National guard at Las Vegas and at Albuquerque are very necessary and they will be erected with the proceeds from the bonds which will be legalized by the bill in question. The National Guard system of New Mexico is in very fair shape and should be encouraged in every possible way. Right here it is time to remark that the present Legisla-Portales Barber Shop, tive Assembly should pass a bill providing for the construction of National Guard armories in Santa Fe, in Silver City, in Las Cruces and in Roswell.

Such an act if approved by Congress thereafter would enable the cities nemed to erect National Guard armories and this is certainly greatly desired and is becoming very necessary. New Mexico cannot have too efficient and too good a National Guard and providing armories for the local companies will in every Tin Roofing and Tank Building. All work guaranteed. > The work done by Delegate Andrews in obtaining favorable action by the House of Representatives of the bill quoted above speaks for its self. It is of the hardest kind as the Delegate has no vote and no voice in conpressional affiairs, but must use personal influence and persuasion, the most gentle kind of diplomacy and constant attention to secure such favors, as that Territory by Congress. The New

The New Mexico Military Institute has taken such a high place among educational institutions of the Southwest that too much for its enlargement and improvement cannot be done. To Exterminate the Rabbits.

Some of the people out about Floyd are going to uudertake a plan by which they expect to do away with a great many of the surplus jack rabbits quite destructive to a great many things the farmer plants. S. A. Wilson of that neighborhood called at Sold by T. C. White & Company. this office and reported the plan which he is advocating to kill the rabbits and which he hopes will be taken up by the people of the county generally, The plan is for every farmer to plant a few rows of english peas around garden, field or orchard which is being bothered by the rabbits. He says the Crabb, ten southeast of Portales. rabbits like the peas better than any other plant and as soon as the plant gets up big enough for the rabbits to ence work on, keep them oned with Paris green or London purple. This, he thinks, will kill the rabbits by the wholesale if every farmer in the country will practice it. If only a few farmers would do this it wouldn't amount to much. Mr. Wilson thinks a county organization should be started for this purpose, and reports that' people in his neighborhood expect to meet at the school house to night to talk up the idea of organizing.

Wild Horses.

From Texico Trumpet.

Last Sunday a party of young men from Texico rode over into Texas and tried to round up a bunch of wild horses that have been pasturing there for several years in the big pasture of the Syndicate. Several stray horses have got drifted in with this bunch of bronchos and have become as wild as theothers. Rewards have been offered for the capture of these horses, and our young men were determined to earn the rewards. They succeeded in capturing two of the strays and several of the bronchos. Onidas Oliver, who was one of the party, was riding that fine pacing horse he recently won in a raffle and the hard riding and the warm day proved too much for the horse, and it became exhausted and
